Exhibit Dates: *Version 1:* 5/78–Present. *Version 2:* 6/75–4/78.

Objectives: To train personnel to perform food preparation and distribution activities and apply diet therapy principles to the preparation of modified food required in patient meal service.

Instruction: Lectures and practical exercises in food service administration, nutrition, dietetics, quantity food preparations, and sanitation.

Credit Recommendation: *Version 1:* In the lower-division baccalaureate/associate degree category, 2 semester hours in basic nutrition, 3 in clinical dietetics, 6 in quantity food service and preparation, and 1 in food service administration (8/79). *Version 2:* In the lower-division baccalaureate/associate degree category, 3 semester hours in nutrition, 2 in clinical dietetics, 6 in quantity food preparation, 1 in food service administration and sanitation (6/77).

Related Occupation Codes: 94F.

AR-1729-0005

HOSPITAL MESS STEWARD

Course Number: 800-94F40.

Location: Walter Reed Army Medical Center, Washington, DC.

Length: 7 weeks (308 hours).

Exhibit Dates: 9/71–Present.

Objectives: To qualify enlisted personnel to perform administrative, direct nutritional care, financial management, and supply tasks in the operation of a hospital food service.

Instruction: Covers the areas of training, nutrition and diet therapy, equipment and supply management, food production, and service management in hospital food service management.

Credit Recommendation: In the vocational certificate category, 3 semester hours in hotel, restaurant, and institutional management (12/73); in the lower-division baccalaureate/associate degree category, 3 semester hours in hotel, restaurant, and institutional management (12/73); in the upper-division baccalaureate category, 3 semester hours in food service management (9/72).

Related Occupation Codes: 94F.

AR-1729-0006

HOSPITAL DIET COOK

Course Number: 800-94B30.

Location: Fitzsimons General Hospital, Denver, CO.

Length: 12 weeks.

Exhibit Dates: 7/72–Present.

Objectives: To train enlisted personnel to prepare regular and modified-diet foods and to direct less skilled cooks in the preparation of modified-diet food.

Instruction: Diet and nutrition; cooking.

Credit Recommendation: Insufficient data for evaluation (12/73).

Related Occupation Codes: 94B.

AR-1729-0007

FOOD SERVICE (FS-CMF) NCO BASIC

Course Number: 8-FS-C40.

Location: Quartermaster School, Ft. Lee, VA.

Length: 8–12 weeks (320–480 hours).

Exhibit Dates: 3/72–Present.

Objectives: To train enlisted personnel to perform as food service supervisors.

Instruction: Academic subjects of leadership, communications, and organization and management as applied to all phases of food services, including meat fabrication, the kitchen, bakery, dining room service, field kitchens, and short-order facilities.

Credit Recommendation: In the vocational certificate category, 3 semester hours in organization and management (12/73); in the lower-division baccalaureate/associate degree category, 3 semester hours in organization and management (12/73); in the upper-division baccalaureate category, 3 semester hours in organization and management (12/73).

Related Occupation Codes: 94B; 94D.

AR-1729-0008

FOOD SERVICE (FS-CMF) NCO ADVANCED

Course Number: 8-FS-C42.

Location: Quartermaster School, Ft. Lee, VA.

Length: 12 weeks (480 hours).

Exhibit Dates: 8/72–Present.

Objectives: To train noncommissioned officers to perform in upper-level food service management positions.

Instruction: Academic subjects of leadership, communications, and maintenance as applied to food service areas of nutrition and menu planning, sanitation, meat fabrication, food preparation, dining services, and field kitchens.

Credit Recommendation: In the vocational certificate category, 3 semester hours in organization and management (12/73); in the lower-division baccalaureate/associate degree category, 3 semester hours in organization and management (12/73); in the upper-division baccalaureate category, 3 semester hours in organization and management (12/73).

WATER SUPPLY

Course Number: 5-E-17.

Location: Engineer School, Ft. Belvoir, VA.

Length: 8 weeks (283–312 hours).

Exhibit Dates: 1/55–12/68.

Objectives: To train enlisted personnel in the analysis, treatment, and distribution of water, and the operation and operator maintenance of portable water purification or water supply equipment.

Instruction: Lectures and practical exercises in aspects of water supply, including introduction to water and water analysis; CBR and decontamination methods; principles, operation, and maintenance of pumps and engines, distillation equipment, and water purification equipment; and camouflage.

Credit Recommendation: In the vocational certificate category, 6 semester hours in theory of water purification (5/74); in the lower-division baccalaureate/associate degree category, 3 semester hours in theory of water purification (5/74); in the upper-division baccalaureate category, 2 semester hours in theory of water purification (12/68).

AR-1732-0003

POWER GENERATION EQUIPMENT REPAIRER

Course Number: 662-52D10.

Location: Engineering School, Ft. Belvoir, VA.

Length: 8 weeks (244 hours).

Exhibit Dates: 3/79–Present.

Objectives: To provide enlisted personnel with skills required to maintain and repair electrical power generation equipment.

Instruction: Lectures and demonstrations in basic electricity, internal combustion engines, and associated auxilliary equipment.

Credit Recommendation: In the vocational certificate category, 3 semester hours in basic electricity, 3 in internal combustion engine maintenance and repair (9/79); in the lower-division baccalaureate/associate degree category, 1 semester hour in electrical fundamentals, 1 in introduction to internal combustion engines (9/79).

AR-1732-0004

POWER PACK SPECIALIST SKILL DEVELOPMENT BASE

(Power Pack Specialist Noncommissioned Officer (NCO) Candidate)

Course Number: 662-52C20-I.

Location: Engineer School, Ft. Belvoir, VA.

Length: 17 weeks (645–653 hours).

Exhibit Dates: 1/68–Present.

Objectives: To train selected enlisted personnel to perform as power pack supervisors and technicians.

Instruction: Lectures and practical exercises in the duties of a power pack supervisor and technician. Course includes gas turbine operation, air conditioning and refrigeration, combat operations, supply techniques, and methods of instruction.

Credit Recommendation: In the vocational certificate category, 2 semester hours in introduction to power technology (7/74); in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to power technology (7/74); in the upper-division baccalaureate category, 3 semester hours in introduction to power technology (7/74).

Related Occupation Codes: 52B; 52C.

AMEDD OFFICER BASIC (RESERVE COMPONENT)
(Army Medical Department Officer Basic (Reserve Component))

Course Number: 6-8-C20(RC).
Location: Academy of Health Sciences, Ft. Sam Houston, TX.
Length: 2 weeks (76 hours).
Exhibit Dates: 6/76-Present.
Objectives: To provide selected Medical Department commissioned officers of the reserve component with a general knowledge of basic skills which will enable them to adapt to and function within the military environment.
Instruction: Conferences, demonstrations, lectures, and practical exercises dealing with familiarization with the various aspects of the Army Medical Department, including the Health and Environment Division, Health Care Administration, and the Military Science Division.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (10/76).

AR-2201-0004

ARMOR NONCOMMISSIONED OFFICER (NCO) CANDIDATE (11E)

Course Number: 020-11E40-I.
Location: Armor School, Ft. Knox, KY.
Length: 12 weeks (593 hours).
Exhibit Dates: 4/68-Present.
Objectives: To prepare enlisted personnel to be armor crewmen, tank drivers, tank gunners, and tank commanders and to be capable of performing supervisory duties.
Instruction: Lectures and practical exercises in automotive maintenance; communications; weapons; armor, cavalry, artillery, and engineering operations; military leadership; first aid; and map reading.
Credit Recommendation: In the vocational certificate category, 2 semester hours in automotive shop or communications (2/74).

AR-2201-0005

WARRANT OFFICER ADVANCED (SIGNAL) BY CORRESPONDENCE

Course Number: E41.
Location: Institute for Professional Development, Ft. Eustis, VA.
Length: Maximum 208 weeks (Ft. Eustis, VA hours).
Exhibit Dates: 11/79-Present.
Objectives: To provide the student with basic knowledge of computer-related equipment and number systems, and radio wave transmission.
Instruction: This course gives instruction in the basic fundamentals of computers, including functional elements, binary counting and number systems, and punched card equipment. A second part of the course relates to basic principles of radio wave propagation and antenna fundamentals. Course includes proctored end-of-course examination. Credit recommendation is based on successful performance on the examination.
Credit Recommendation: In the lower-division baccalaureate/associate degree category, 2 semester hours in electronics technology (5/79).

AR-2201-0006

ARMOR NONCOMMISSIONED OFFICER (NCO) CANDIDATE (11D)

Course Number: 250-11D40-I.
Location: Armor School, Ft. Knox, KY.
Length: 12 weeks (590 hours).
Exhibit Dates: 4/68-Present.
Objectives: To prepare armor intelligence specialists to be reconnaissance sergeants, reconnaissance vehicle commanders, liaison sergeants, scout squad leaders and section leaders.
Instruction: Lectures and practical exercises in automotive maintenance, communications, weapons, artillery operations, armored cavalry operations, and engineer operations.
Credit Recommendation: In the vocational certificate category, 2 semester hours in automotive shop or communications (2/74).
Related Occupation Codes: 11D.

AR-2201-0007

INFANTRY NONCOMMISSIONED OFFICER (NCO) CANDIDATE
(Infantry Operations and Intelligence Specialist Skill Development Base)

Course Number: 250-11F40-I.
Location: Infantry School, Ft. Benning, GA.
Length: 12 weeks (455-477 hours).
Exhibit Dates: 11/67-12/73.
Objectives: To prepare enlisted men to perform as leaders/supervisors in infantry operations and intelligence.
Instruction: Lectures and practical exercises in combined arms tactics, staff subjects, communications, material readiness, and weapons.
Credit Recommendation: In the upper-division baccalaureate category, 6 semester hours in advanced military (4/71).
Related Occupation Codes: 11B; 11F.

AR-2201-0008

SPECIAL AMMUNITION MAINTENANCE/NUCLEAR WEAPONS ELECTRONIC TECHNICIAN WARRANT OFFICER INTERMEDIATE

Course Number: 4-9-C30-J; 4E-261A; 4E-262A-A.
Location: Missile and Munitions School, Redstone Arsenal, AL.
Length: 9 weeks (376 hours).
Exhibit Dates: 4/72-Present.
Objectives: To provide warrant officers with the knowledge and skills necessary to supervise technical operations performed on nuclear weapons.
Instruction: Lectures in military resource management, military organization, nuclear weapons management, applied electronics, weapon systems, and management of maintenance personnel.
Credit Recommendation: In the vocational certificate category, 3 semester hours in electronics engineering, 3 in management (2/74); in the lower-division baccalaureate/associate degree category, 3 semester hours in electronics engineering, 3 in management (2/74).
Related Occupation Codes: 260A.

AR-2201-0009

AIR DEFENSE MISSILE REPAIR (23-CMF) NONCOMMISSIONED OFFICER (NCO) BASIC
(Air Defense (AD-CMF) NCO Basic)

Course Number: 1-23-C40B; 1-AD-C40B.
Location: Missile and Munitions School, Redstone Arsenal, AL.
Length: 8-9 weeks (260-274 hours).
Exhibit Dates: 3/73-Present.
Objectives: To train enlisted personnel to perform as noncommissioned officers in air defense units.
Instruction: Lectures and practical experience in communication and human relations; personnel management; and maintenance and repair of Nike Hercules and Hawk missiles, launchers, test equipment, computers, and radars.
Credit Recommendation: In the vocational certificate category, 3 semester hours in personnel management (8/77).
Related Occupation Codes: 22L; 23N; 23U; 22K; 23Q; 23S; 23T; 24H; 24J; 24K; 46D.

AR-2201-0010

SPECIAL FORCES QUALIFICATION

Course Number: *Version 1:* 011-SQ15. *Version 2:* None.
Location: Institute for Military Assistance, Ft. Bragg, NC.
Length: 16 weeks (1375 hours).
Exhibit Dates: *Version 1:* 1/78-12/77; 1/78-Present.
Objectives: To prepare officers and enlisted personnel for volunteer duty in the Special Forces.
Instruction: Lectures in leadership, methods of instruction, land navigation, and airborne operations, and intensive training in one of five student selected specializations: radio operation, including wave propagation, basic electronic theory, magnetism, electronic countermeasures, and cryptography; engineering, including construction of barriers and obstacles, rigging, form design, concrete construction, bridging, construction materials, and explosives; weapons, including small arms, recoilless weapons, mortars, and handguns; armor unit supply, including principles of unit supply, vehicles and weapons maintenance, property accountability, and procedures for movement of military organizations; or medical, including surgery preparation procedures, anesthesiology, anatomy, microbiology, parasitology, urinalysis, reaction and phlebotomy, and hematology.
Credit Recommendation: *Version 1:* In the vocational certificate category, 3 semester hours in orienteering; in the lower-division baccalaureate/associate degree category, 3 semester hours in military science for all students completing the course, 9 semester hours in communications or civil engineering for those students completing either one of these two specialties, and 12 semester hours in premedical curriculum for those students completing this specialty area. *Version 2:* In the vocational certificate category, 9 semester hours in premedical curriculum, communications, civil engineering, or electrical engineering (2/74); in the lower-division baccalaureate/associate degree category, 9 semester hours in premedical curriculum, communications, civil engineering, or electrical engineering (2/74); in the upper-division baccalaureate category, 3 semester hours in premedical curriculum, 3 in

communications, 3 in civil engineering, and 2 in electrical engineering (2/74).

Related Occupation Codes: 05B; 11B; 12A; 76Y; 91B; 11C; 12B.

AR-2201-0011

LANCE CADRE

Course Number: 2F-1190L; 043-15D40.

Location: Field Artillery School, Ft. Sill, OK.

Length: 6 weeks (262 hours).

Exhibit Dates: 10/73–5/74.

Objectives: To provide commissioned officers or enlisted personnel with a working knowledge of the operations, maintenance, and employment of the Lance missile.

Instruction: Lectures on Lance guided missile system, maintenance management, Lance nuclear warhead section and tactical employment, methods of instruction, and signal security.

Credit Recommendation: In the vocational certificate category, 2 semester hours in maintenance management or electrical shop (2/74).

AR-2201-0012

AIR DEFENSE ARTILLERY (16-CMF) NONCOMMISSIONED OFFICER (NCO) BASIC

(Air Defense (AD-CMF) Noncommissioned Officer (NCO) Basic)

Course Number: 0-16-C40; 1-AD-C40A.

Location: Air Defense School, Ft. Bliss, TX.

Length: 8–12 weeks (294–480 hours).

Exhibit Dates: 9/72–7/76.

Objectives: To train enlisted personnel to perform as noncommissioned officers in an air defense missile unit.

Instruction: Lectures in leadership and management, air defense tactics and techniques; field exercises in air defense; and a choice of missile electronics control systems, Nike Hercules battery, Hawk missile system, or Chaparral/Vulcan air defense system.

Credit Recommendation: Credit is not recommended because of the specialized nature of the course (8/77).

Related Occupation Codes: 16B; 16C; 16D; 16E; 16F; 16H; 16J; 16K; 16P; 16R; 24B; 24D; 24E; 24F; 24G; 24M; 24N; 24P; 24Q; 24U; 25D; 25G; 25H; 25J; 25K; 31R; 00G.

AR-2201-0013

1. MANEUVER COMBAT ARMS—INFANTRY (11-CMF) NONCOMMISSIONED OFFICER (NCO) BASIC
2. INFANTRY ARMOR (IA-CMF) NCO BASIC

Course Number: *Version 1:* 0-11-C40. *Version 2:* 0-IA-C40A.

Location: Infantry School, Ft. Benning, GA.

Length: *Version 1:* 8 weeks (326–368 hours). *Version 2:* 10–12 weeks (404–609 hours).

Exhibit Dates: *Version 1:* 11/75–Present. *Version 2:* 11/72–10/75.

Objectives: To provide enlisted personnel with the knowledge and skills necessary to perform as noncommissioned officers in infantry armor.

Instruction: Lectures and practical exercises in the fundamentals of infantry management, including personnel administration, human relations, effective writing and speaking, communications, maintenance management, physical conditioning, combat intelligence, and air and land military operations.

Exhibit Dates: 4/72–Present.

Objectives: To train noncommissioned officers as infantry senior sergeants.

Instruction: Conferences and practical exercises in combined-arms tactics, staff subjects, communications and electronics, unit and material readiness, weapons, leadership, and management.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in management (2/74); in the upper-division baccalaureate category, 6 semester hours in advanced military (12/68).

Related Occupation Codes: 11B; 11C; 11F; 11G; 11H.

AR-2201-0035

Infantry Advanced Noncommissioned Officer (NCO)

Course Number: 7-E-19.

Location: Infantry School, Ft. Benning, GA.

Length: 16 weeks (607 hours).

Exhibit Dates: 7/55–12/68.

Objectives: To train enlisted personnel to control and supervise the training and tactical employment of a platoon of an infantry rifle or heavy-weapons company.

Instruction: Conferences and practical exercises in tactical weapons employment and firing, communications, general military subjects, and school brigade.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (12/68).

AR-2201-0036

Harbor Craft Operator

(Harbor Craft Boatswain)

Course Number: 062-61B30; 813-61B30; 813-562.2; 55-R-562.6; 55-E-26.

Location: Transportation School, Ft. Eustis, VA.

Length: 5–11 weeks (189–414 hours).

Exhibit Dates: 2/56–Present.

Objectives: To train enlisted personnel in the operation of harbor craft.

Instruction: Lectures and practical experience in watercraft equipment and ship's rigging; communications; and watercraft operation, including navigation.

Credit Recommendation: In the vocational certificate category, 3 semester hours in cargo handling and water transportation (2/74).

Related Occupation Codes: 61B.

AR-2201-0037

Electronic Warfare (EW) Cryptologic Supervisor

(Advanced EW/Cryptologic Supervisor)

(USASA Senior Noncommissioned Officer)

Course Number: 230-F1.

Location: Security Agency School, Ft. Devens, MA.

Length: *Version 1:* 7–8 weeks (231 hours). *Version 2:* 9 weeks (300 hours).

Exhibit Dates: *Version 1:* 5/77–Present. *Version 2:* 10/60–3/77.

Objectives: To train senior noncommissioned officers to manage electronic warfare/cryptologic operations of the U.S. Army Security Agency.

Instruction: *Version 1:* Training in management and supervision techniques pertaining to military systems, military science, and intelligence and security techniques. *Version 2:* Lectures and practical exercises in general military subjects, signal communications, electronics, security, management control, effective speaking and listening, and combined arms.

Credit Recommendation: *Version 1:* In the lower-division baccalaureate/associate degree category, 3 semester hours in maintenance management and supervision (9/77). *Version 2:* Credit is not recommended because of the military specific nature of the course (12/68).

AR-2201-0038

Pathfinder

Course Number: 2E-F3; 011-F3.

Location: Infantry School, Ft. Benning, GA.

Length: 3–5 weeks (129–247 hours).

Exhibit Dates: 1/66–Present.

Objectives: To train officer and enlisted parachutists to provide navigational assistance to drop-zone aircraft and deploying troops.

Instruction: Lectures and practical exercises in the organization, mission, and training of pathfinder platoons; electronics; communications; and map reading.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (12/68).

AR-2201-0039

Armor Noncommissioned Officer (NCO)

(Armor Advanced Noncommissioned Officer (NCO))

Course Number: 17-R-131.6; 17-E-13; 17-R-133.6.

Location: Armor School, Ft. Knox, KY.

Length: 9–16 weeks (351–563 hours).

Exhibit Dates: 8/55–12/68.

Objectives: To train enlisted personnel to supervise sub-unit armored divisions.

Instruction: Practical exercises in auto mechanics, communications, personnel and equipment management, and weaponry.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (12/68).

AR-2201-0040

Airborne (Male and Female)
(Airborne Qualification)

Course Number: 2E-F1; 011-F1; 7-H-F7; 7-OE-6.
Location: Infantry School, Ft. Benning, GA.
Length: 3 weeks (107–112 hours).
Exhibit Dates: 2/55–Present.
Objectives: To train army personnel in the techniques of battlefield parachuting.
Instruction: Practical exercises in jump tower training, parachute landing falls, door exits, malfunctions, and physical training, including parachute jumps.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (12/68).

AR-2201-0041

Ranger

Course Number: 7-OE-15; 7-D-F4; 2E-F2; 011-F2.
Location: Infantry School, Ft. Benning, GA.
Length: 7–9 weeks (499–1052 hours).
Exhibit Dates: 7/54–Present.
Objectives: To develop leadership qualities in selected officers and enlisted men by providing training in self-discipline and obedience.
Instruction: Lectures and practical exercises in map reading and land navigation; tactical training in guerrilla operations; demolition; patrolling and leadership; intelligence, endurance, and confidence tests; and physical training.
Credit Recommendation: In the lower-division baccalaureate/associate degree category, 6 semester hours in physical education (2/74).

AR-2201-0042

Marine Artillery Operations Chief

Course Number: 250-F5.
Location: Field Artillery School, Ft. Sill, OK.
Length: 13 weeks (472–480 hours).
Exhibit Dates: 8/73–Present.
Objectives: To train noncommissioned officers to supervise field artillery operations.
Instruction: Lectures and practical exercises in gunnery, target acquisition, tactics and combined arms, artillery meteorology, survey, fire support coordination, fire planning, and observed fire.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (2/74).

AR-2201-0043

Information and Audio Visual (IV-CMF) Noncommissioned Officer (NCO) Advanced

Course Number: 4-IV-C42.
Location: Signal School, Ft. Monmouth, NJ.
Length: 10 weeks (343 hours).
Exhibit Dates: 10/72–Present.
Objectives: To provide enlisted personnel with advanced training in the principles, techniques, and methods of audio-visual communication.
Instruction: Lectures in general military subjects; administrative and management practices; combat service support operations; field training exercises; and television and pictorial policies, procedures, and equipments.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (2/74).
Related Occupation Codes: 26T; 41H; 84B; 84C; 84E; 84F; 84G.

AR-2201-0044

Field Illumination Crewman, Noncommissioned Officer (NCO) Candidate
(Field Illumination Crewman, Skill Development Base)

Course Number: 030-17E40-I.
Location: Field Artillery School, Ft. Sill, OK.
Length: 9–12 weeks (378–463 hours).
Exhibit Dates: 2/69–Present.
Objectives: To train enlisted personnel to perform as illumination crew supervisors.
Instruction: Lectures and practical exercises in weapons handling, tactics, target acquisition, communications, electronics, searchlight operations, gunnery techniques, and leadership training.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (2/74).
Related Occupation Codes: 13A; 17E.

AR-2201-0045

Light and Heavy Weapons Infantryman

Course Number: None.
Location: Special Warfare Center, Ft. Bragg, NC.
Length: 8 weeks (304 hours).
Exhibit Dates: 6/64–12/68.
Objectives: To provide enlisted personnel with the knowledge and skills necessary to operate U.S. and foreign army light and heavy weapons.
Instruction: Lectures and practical exercises in the use of hand guns, rifles, carbines, shotguns, submachine and machine guns, anti-tank weapons, and mortars and grenades.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (12/68).

AR-2201-0046

Infantry Noncommissioned Officer (NCO) Basic

Course Number: None.
Location: Infantry School, Ft. Benning, GA.
Length: 10–12 weeks (407–612 hours).
Exhibit Dates: 6/72–Present.
Objectives: To train enlisted personnel to perform as noncommissioned officers in infantry operations and intelligence.
Instruction: Lectures, demonstrations, and practical exercises in effective writing and speaking, map reading, radio communication procedures, marksmanship, small unit tactical operations, intelligence and logistical operations, and field fortifications and camouflage.
Credit Recommendation: In the upper-division baccalaureate category, 9 semester hours in basic military science (2/74).
Related Occupation Codes: 11B; 11C; 11F; 11H.

AR-2201-0047

Civil-Military Operations

Course Number: 4N-2180; 500-F3.
Location: Institute for Military Assistance, Ft. Bragg, NC.
Length: 2 weeks (72 hours).
Exhibit Dates: 7/75–Present.
Objectives: To prepare officers and senior noncommissioned officers for civil-military operation staff duties.
Instruction: Lectures and practical exercises in resource management, civil affairs resources, psychological operations resources, and civil-military operations.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (1/76).

AR-2201-0048

Field Artillery Mechanic

Course Number: 041-13B30.
Location: Field Artillery School, Ft. Sill, OK.
Length: 5 weeks (182–227 hours).
Exhibit Dates: 11/70–8/77.
Objectives: To train enlisted personnel to perform mechanical maintenance on artillery weapons.
Instruction: Lectures and practical exercises in equipment maintenance, supply procedures, maintenance management systems, basic electronics, and cannon artillery fundamentals.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (2/74).
Related Occupation Codes: 13A; 13B.

AR-2201-0049

Infantry Operations and Intelligence Specialist Noncommissioned Officer (NCO) Advanced

Course Number: 250-11F50-EC.
Location: Infantry School, Ft. Benning, GA.
Length: 13 weeks (426 hours).
Exhibit Dates: 4/72–Present.
Objectives: To train noncommissioned officers as infantry operations and intelligence specialists.
Instruction: Lectures and practical exercises in basic infantry and intelligence operations, including combat supply and logistics; radio communications procedures; maintenance management; weapons training; chemical operations; fortifications; map reading; effective speaking; leadership training; and infantry, armor, mechanized artillery, and airborne tactical operations.
Credit Recommendation: In the upper-division baccalaureate category, 6 semester hours in military science (12/68).
Related Occupation Codes: 11B; 11C; 11F; 11H.

AR-2201-0050

Chemical Officer

Course Number: 4K-7314.
Location: Ordnance and Chemical School, Aberdeen Proving Ground, MD.
Length: 8 weeks (251 hours).
Exhibit Dates: 1/76–Present.
Objectives: To provide the chemical officer with training in NBC operations.
Instruction: Lectures and practical exercise on the technical characteristics of chemical and biological agents; chemical and biological defense; chemical weapons employment, nuclear warfare and rediological defense, NBC material, and smoke and flame operations.
Credit Recommendation: In the upper-division baccalaureate category, 3 semester hours in radiological safety (1/78).

AR-2201-0051

USARADCOM CBR Officer Course

Course Number: 2E-F7.
Location: Chemical School, Ft. McClellan, AL.
Length: 3 weeks (119 hours).
Exhibit Dates: 4/69–Present.
Objectives: To provide commissioned officers and warrant officers with a working knowledge of the defensive aspects of chemical, biological, and radiological warfare operations.
Instruction: Conferences and practical exercises in chemical, biological, and radiological plans, training, and operations; technical aspects of chemical, biological, and radiological operations; nuclear warfare; and radiological defense.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (2/74).

AR-2201-0052

Officer Candidate (Reserve Components)
(Infantry Officer Candidate (Reserve Components))
(Infantry Officer Candidate (Reserve Component))
(Infantry Army Reserve Officer Candidate)

Course Number: 2-7-F2; 7-N-F2; 7-N-F13; 7-E-24.
Location: Infantry School, Ft. Benning, GA.
Length: 9 weeks (326–443 hours).
Exhibit Dates: 1/57–Present.
Objectives: To train National Guard and Army Reserve junior officers as infantry platoon leaders.
Instruction: Lectures and practical exercises in arms tactics, including offensive and defensive operations; patrolling; military leadership; map and airphoto reading; physical training; drill and command; tactical communications; maintenance management; and individual, special purpose, and crew served weapons.
Credit Recommendation: In the upper-division baccalaureate category, 3 semester hours in military science (12/68).

AR-2201-0053

Special Forces Jumpmaster

Course Number: 2E-F37; 011-F7.
Location: Institute for Military Assistance, Ft. Bragg, NC.
Length: 2 weeks (89 hours).
Exhibit Dates: 3/73–Present.
Objectives: To qualify experienced parachutists as jumpmasters.
Instruction: Lectures and practical demonstrations in the duties and responsibilities of parachute jumpmasters, including aircraft exit techniques and safety measures; jump commands and signals; use of various parachute and aerial delivery containers; and personnel, parachute, and aircraft inspection.
Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (2/74).

AR-2201-0054

Special Assignment (SP-CMF) Noncommissioned Officer (NCO) Advanced

Course Number: 8-SP-C42.
Location: Quartermaster School, Ft. Lee, VA.
Length: 7 weeks (252 hours).
Exhibit Dates: 8/72–Present.
Objectives: To provide senior noncommissioned officers with a basic understanding of general quartermaster subjects and supervisory procedures and skills.
Instruction: Lectures and practical exercises in logistical combat support; principles of leadership, maintenance management, communication techniques, and airdrop procedures.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (2/74).
Related Occupation Codes: 43E.

AR-2201-0055

Ammunition (55-CMF) Noncommissioned Officer (NCO) Basic
(Ammunition (AM-CMF) Noncommissioned Offier (NCO) Basic)

Course Number: 6-55-C40; 6-AM-C40.
Location: Missile and Munitions School, Redstone Arsenal, AL.
Length: 7–10 weeks (260–328 hours).
Exhibit Dates: 2/72–Present.
Objectives: To train enlisted personnel in the handling, maintenance, and disposal of ammunition and explosives.
Instruction: Conferences and practical exercises in management, special weapons operations, ammunition maintenance, explosives disposal.
Credit Recommendation: In the vocational certificate category, 3 semester hours in demolitions or explosives disposal (2/74); in the lower-division baccalaureate/associate degree category, 1 semester hour in communication skills (6/75).
Related Occupation Codes: 35F; 55B; 55C; 55D; 55G; 55X.

AR-2201-0056

Ammunition Inspector
(Military Ammunition Inspector)

Course Number: 645-55X30; 645-55X40.
Location: Missile and Munitions School, Redstone Arsenal, AL.
Length: 7–12 weeks (233–420 hours).
Exhibit Dates: 2/71–Present.
Objectives: To train enlisted personnel to inspect ammunition.
Instruction: Conferences and practical exercises in ammunition material; rocket and guided missile inspection and maintenance; storage, handling, and transportation of ammunition; surveillance and maintenance of ammunition; and demilitarization and destruction of ammunition.
Credit Recommendation: In the vocational certificate category, 3 semester hours in explosives handling (6/75).
Related Occupation Codes: 55B; 55C; 55D; 55G; 55X; 55Z.

AR-2201-0057

Air Defense Artillery (16-CMF) Noncommissioned Officer (NCO) Advanced
(Air Defense (AD-CMF) NCO Advanced)

Course Number: 0-16-C42; 1-AD-C42A.
Location: Air Defense School, Ft. Bliss, TX.
Length: 10–12 weeks (361–425 hours).
Exhibit Dates: 2/73–Present.
Objectives: To provide enlisted personnel with a working knowledge of the duties of senior noncommissioned officers in air defense management.
Instruction: Lectures on leadership and management; air defense tactics; weapons; military operations; communication skills.

Related Occupation Codes: 16B; 16C; 16D; 16E; 16F; 16H; 16J; 16K; 16P; 16R; 24C; 24D; 24E; 24F; 24G; 24M; 24N; 24P; 24Q; 24U; 25D; 25G; 25H; 25J; 25K; 00G.

AR-2201-0058

Army Medical Service Officer Orientation
(Army Medical Service Officer Basic)

Course Number: 8-A-C20A; 8-A-C1A; 8-O-31.
Location: Medical Field Service School, Ft. Sam Houston, TX.
Length: 5–7 weeks (144–240 hours).
Exhibit Dates: 6/55–12/68.
Objectives: To provide newly commissioned medical officers with training in the fundamentals of Medical Service Corps organization and administration.
Instruction: Lectures in the fundamentals of Medical Service Corps organization and administration, including supply administration, personnel management, martial law, dental service organization, field medical service organization, field medicine and surgery, nursing service, veterinary service, and neuropsychiatric casualties management.
Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (2/74).

AR-2201-0059

Air Defense Command and Control Systems Operator
(Air Defense Command, Control, and Coordination Systems Operator)
(Air Defense Fire Distribution Systems Controller)

Course Number: 221-16K20; 221-17H20; 221-186.1; 44-R-186.1.
Location: Air Defense School, Ft. Bliss, TX.
Length: 3–8 weeks (96–293 hours).
Exhibit Dates: 7/62–Present.
Objectives: To train enlisted personnel to operate and maintain specialized missile control consoles, monitors, and coordination systems.
Instruction: Lectures and practical exercises in missile electronics and control, air defense operations, field command control and coordination system operation and maintenance, and CONUS command control and coordination systems operation and maintenance.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (8/74).
Related Occupation Codes: 16H; 16K.

AR-2201-0060

Special Forces Military Free Fall Jumpmaster
(Special Forces Military Free Fall Parachutist/Military Free Fall Jumpmaster)

Course Number: *Version 1:* 2E-F56; 011-F11. *Version 2:* 2E-F48; 011-F11.
Location: Institute for Military Assistance, Ft. Bragg, NC.
Length: *Version 1:* 2 weeks (92 hours). *Version 2:* 4–8 weeks (172–374 hours).
Exhibit Dates: *Version 1:* 5/79–Present. *Version 2:* 6/73–4/79.

Objectives: To qualify personnel as military free fall parachutists and military free fall jumpmasters.

Instruction: Lectures and practical exercises in military free fall parachutist training and military free fall jumpmaster training.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (8/77).

Related Occupation Codes: 11B; 11C; 12B; 76Y; 91B; 05B.

AR-2201-0061

Field Artillery Operations and Intelligence Noncommissioned Officer (NCO)
(Field Artillery Operations and Intelligence Assistant)

Course Number: 250-F1; 6-R-F37; 6-R-152.6.

Location: Field Artillery School, Ft. Sill, OK; Artillery and Missile School, Ft. Sill, OK.

Length: 11-14 weeks (398-517 hours).

Exhibit Dates: 5/62-Present.

Objectives: To train enlisted personnel to perform as field artillery intelligence and operations assistants.

Instruction: Lectures and practical exercises in the functions of field artillery intelligence and operations assisting, including Army maintenance systems, radio communications, gunnery and fire direction, tactics and combined arms, artillery survey, meteorology, and artillery transport.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (5/74).

Related Occupation Codes: 13E; 13B; 13D; 13Z.

AR-2201-0062

Regular Army Armor Officer Basic
(Armor Officer Basic (RA))

Course Number: 2-17-C20(RA); 17-A-C20A.

Location: Armor School, Ft. Knox, KY.

Length: 6-9 weeks (245-349 hours).

Exhibit Dates: 10/63-Present.

Objectives: To train newly commissioned armor officers in basic armor subjects and procedures.

Instruction: Lectures and practical exercises in basic armor subjects and procedures, including automotive maintenance, maintenance management, and recovery and vehicle operations; armor tactics; chemical, biological, and radiological operations; communications equipment, theory, and procedures; map and air-photo reading; special warfare; medical service; arms and gunnery; night training; and administrative and military leadership procedures.

Credit Recommendation: In the upper-division baccalaureate category, credit in advanced military science at institutions which regularly offer such credit (12/68).

AR-2201-0063

Chaparral/Vulcan Officer Qualification
(Chaparral/Vulcan Officer and Noncommissioned Officer (NCO) Qualification)
(Chaparrel/Vulcan Noncommissioned Officer (NCO) Qualification)

Course Number: 2E-14B; 2E-1174; 2F-F8; 121-F17.

Location: Air Defense School, Ft. Bliss, TX.

Length: 5-8 weeks (171-294 hours).

Exhibit Dates: 7/68-Present.

Objectives: To provide training in Chaparral/Vulcan air defense system characteristics, capabilities, limitations, and air defense tactics, with emphasis on battery or battalion operations.

Instruction: Lectures and practical exercises in the organization, maintenance, systems control, and test and firing procedures of the Vulcan and Chaparral air defense systems.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (3/75).

AR-2201-0064

Warrant Officer Orientation

Course Number: WO-F1.

Location: Field Artillery School, Ft. Sill, OK; Artillery and Missile School, Ft. Sill, OK.

Length: 2-3 weeks (69-114 hours).

Exhibit Dates: 7/67-6/75.

Objectives: To train warrant officers in social and military customs and in officer responsibilities.

Instruction: Lectures and practical exercises in leadership; problem solving; financial and personnel management; military law; social customs; writing; artillery transport; maintenance management; communications; and tactics.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (5/74).

AR-2201-0065

Women's Army Corps Noncommissioned Officer (NCO) Leadership Course

Course Number: 510-F3.

Location: Women's Army Corps School, Ft. McClellan, AL.

Length: 4 weeks (139-151 hours).

Exhibit Dates: 8/67-Present.

Objectives: To train enlisted personnel to be unit noncommissioned officers.

Instruction: Lectures in unit administration, intelligence and security, land navigation, supply, methods of instruction, leadership, and personnel management.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (5/74).

AR-2201-0066

Tactical Training

Course Number: Not available.

Location: Security Agency School, Ft. Devens, MA.

Length: 2 weeks (106 hours).

Exhibit Dates: 11/66-12/68.

Objectives: To provide personnel with training in infantry weapons and small-unit tactics.

Instruction: Lectures and practical exercises in tactical training, including infantry weapons and small-unit tactics.

Credit Recommendation: Insufficient data for evaluation (5/74).

AR-2201-0067

USARADCOM Chemical, Biological, and Radiological Noncommissioned Officer (NCO)
(USARADCOM CBR NCO)

Course Number: 494-F2.

Location: Chemical School, Ft. McClellan, AL.

Length: 4 weeks (126-128 hours).

Exhibit Dates: 1/65-Present.

Objectives: To provide enlisted personnel with training in chemical, biological, and radiological operations.

Instruction: Lectures and practical exercises in the CBR plans, training and operations, supply and maintenance management procedures, and technical aspects of chemical, biological, and radiological operations.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (12/68).

AR-2201-0068

Chemical Staff Specialist

Course Number: 494-54E20; 3-R-534.1; 3-E-1.

Location: Chemical School, Ft. McClellan, AL; Ordnance School, Aberdeen Proving Ground, MD.

Length: 7-12 weeks (275-420 hours).

Exhibit Dates: 4/54-Present.

Objectives: To train enlisted personnel as specialists in chemical, biological and radiological operations.

Instruction: Lectures and practical exercises in technical aspects of chemical, biological, and radiological operations, including defensive operations, materiel and weapons, basic science and mathematics, biological agents, biological detection and defense, meteorology, field behavior of chemical agents, radiac instrumentation, field impregnation, map reading and interpretation, communications, intelligence, and supply and maintenance management procedures.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (5/74).

Related Occupation Codes: 54E.

AR-2201-0069

WAC Officer Orientation/Officer Candidate

Course Number: 7-35-C21; 7-35-F1.

Location: WAC School, Ft. McClellan, AL.

Length: 11 weeks (331-334 hours).

Exhibit Dates: 11/73-Present.

Objectives: To give newly commissioned Women's Army Corps officers basic orientation training.

Instruction: Lectures and practical exercises on general military subjects, including drill and command, tactics, land navigation, officer indoctrination, DoD organization, intelligence and security, operations and training, unit operations, leadership development, supply management, Army administration, resource and personnel management, and command and staff functions.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (5/74).

AR-2201-0070

Field Artillery Missile Noncommissioned Officer (NCO) Advanced
(Field Artillery Missile (FM-CMF) NCO Advanced)

Course Number: 1-FM-C42B.

Location: Field Artillery School, Ft. Sill, OK.

Length: 10-12 weeks (326-441 hours).

Exhibit Dates: 8/72-Present.

Objectives: To train missile and rocket crewmen, fire direction assistants, and electronics materiel specialists to supervise field artillery missile units.

Instruction: Lectures and practical exercises in the supervision of field artillery missile units, including leadership training, map reading, maintenance procedures, aerial navigation, combat operations, weapons and warfare, artillery fundamentals and organization, gunnery, rocket and missile equipment and operations, analysis of various components and systems, imagery interpretation, and fire planning and fire support coordination.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (5/74).

Related Occupation Codes: 15B; 15D; 15E; 15F; 15J; 21G.

AR-2201-0071

Field Artillery Cannon (FA-CMF) Noncommissioned Officer (NCO) Basic

Course Number: 0-13-C40; 0-FA-C40.

Location: Field Artillery School, Ft. Sill, OK.

Length: 12 weeks (404 hours).

Exhibit Dates: 3/73–6/76.

Objectives: To train noncommissioned officers to supervise field artillery operations.

Instruction: Lectures and practical exercises in the field artillery cannon duties of noncommissioned officers, including map reading and intelligence subjects; field artillery cannon operation and fire direction on 105-mm, 155-mm, 175-mm, and 8-inch weapons; ammunition; communications; and maintenance procedures.

Credit Recommendation: In the vocational certificate category, 3 semester hours in automotive shop or maintenance management (2/74).

Related Occupation Codes: 13A; 13B; 13E.

AR-2201-0072

Engineer Equipment Repair Specialist Candidate

Course Number: 612-62B30-I.

Location: Engineer School, Ft. Belvoir, VA.

Length: 12 weeks (486 hours).

Exhibit Dates: 9/69–Present.

Objectives: To train engineer equipment repairmen to perform as senior technicians.

Instruction: Lectures and practical exercises in engineer equipment repair, including map reading and land navigation, combat support, warfare tactics, leadership, and maintenance management and shop operation.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

Related Occupation Codes: 62B.

AR-2201-0073

Service and Renovation (SR-CMF) Noncommissioned Officer (NCO) Advanced

Course Number: 7-SR-C42.

Location: Quartermaster School, Ft. Lee, VA.

Length: 8–9 weeks (92–144 hours).

Exhibit Dates: 7/73–Present.

Objectives: To qualify enlisted personnel as noncommissioned officers in advanced service and renovation.

Instruction: Lectures and practical exercises on advanced service and renovation, including logistical combat support, leadership, maintenance management, communication techniques, operation and maintenance of fixed and mobile laundry equipment, operation and maintenance of field bath and delousing equipment, Army mortuary affairs program, identification of the dead, battlefield collection and evacuation, cemetery operation, and company and battalion administrative procedures.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

Related Occupation Codes: 57E; 57F; 57G.

AR-2201-0074

Service and Renovation (SR-CMF) Noncommissioned Officer (NCO) Basic

Course Number: 7-SR-C40.

Location: Quartermaster School, Ft. Lee, VA.

Length: 9-12 weeks (311-421 hours).

Exhibit Dates: 4/73–Present.

Objectives: To qualify enlisted personnel as noncommissioned officers in basic service and renovation.

Instruction: Lectures and practical exercises in basic service and renovation, including leadership, logistical combat support, machine sewing, communication techniques, shoe repair methods and supervision, supervision of mobile laundry operations, battlefield search and recovery operations, current death and concurrent return program, hand tools and material handling equipment, minor repair of buildings, roadways and grounds, and application of learned skills and knowledges.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

Related Occupation Codes: 43J; 43K; 43L; 57E; 57F.

AR-2201-0075

Signal Officer Basic (Reserve Component)

Course Number: 4-11-C25.

Location: Signal School, Ft. Gordon, GA.

Length: 4 weeks (196 hours).

Exhibit Dates: 12/76–Present.

Objectives: To provide newly commissioned officers with the knowledge and skills necessary to perform the duties of a platoon leader.

Instruction: Lectures and demonstrations in tactical systems oriented to combat usefulness; utilizing knowledge gained in simulated situations pertaining to telecommunications.

Credit Recommendation: In the upper-division baccalaureate category, credit in radio, wire communications, and telegraph systems on the basis of institutional evaluation (4/77).

AR-2201-0076

Cable Splicer Noncommissioned Officer (NCO) Basic

Course Number: 621-36E40-EC.

Location: Southeastern Signal School, Ft. Gordon, GA.

Length: 14 weeks (539 hours).

Exhibit Dates: 5/71–Present.

Objectives: To train enlisted personnel to supervise cable-splicing operations.

Instruction: Lectures on cable splicing and command leadership. Topics include command tactics, personnel and records management, troubleshooting, record keeping, and general military subject matter.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

Related Occupation Codes: 36E; 36C.

AR-2201-0077

Chemical Operations Apprentice (Chemical (Entry))

Course Number: 030-54A10; 3-R-530.0.

Location: Chemical Corps School, Ft. McCellan, AL.

Length: 7–9 weeks (225–324 hours).

Exhibit Dates: 6/57–Present.

Objectives: To train enlisted personnel to be chemical operations apprentices.

Instruction: Lectures and practical exercises in management and leadership, unit and staff operations, chemical and biological defense, nuclear warfare and radiological defense, and maintenance and materiel management.

Credit Recommendation: Credit is not recommended because of the military specific nature os the course (5/74).

Related Occupation Codes: 54A; 54B; 54C; 54D.

AR-2201-0078

Tactical Communications Chief, Skill Development Base

Course Number: 101-31G40-I.

Location: Field Artillery School, Ft. Sill, OK.

Length: 14 weeks (505 hours).

Exhibit Dates: 8/69–11/78.

Objectives: To train field radio mechanics as tactical communications chiefs.

Instruction: Lectures and practical exercises on the duties of tactical communications chiefs, including wire communications; FM radio equipment and systems; radio telephone procedures and security; standard B-frequency-modulated radio equipment; amplitude-modulated radio equipment and radioteletypewriter procedures; message center procedures and cryptography; applied communications; tactical subjects and map reading; automatic data processing equipment; and countermortar and ground surveillance radar equipment.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

Related Occupation Codes: 31B; 31G.

AR-2201-0079

WAC Unit Commander

Course Number: 7A-F35.

Location: WAC School, Ft. McClellan, AL.

Length: 2 weeks (65 hours).

Exhibit Dates: 11/73–Present.

Objectives: To train female officers to handle the administrative responsibilities of a unit.

Instruction: Lectures on the duties of unit commanders and administrators. Course includes military justice, military resource management, personnel management, leadership techniques, and guidance and performance counseling.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (5/74).

AR-2201-0080

Associate Air Defense Artillery Battery Officer

Course Number: 44-A-C3A; 44-O-2A.

Location: Air Defense School, Ft. Bliss, TX; Antiaircraft Artillery and Guided Missile School, Ft. Bliss, TX.

Length: 14–17 weeks (520–616 hours).

Exhibit Dates: 3/55–12/68.

Objectives: To train officers in air defense artillery battery operational procedures.

Instruction: Lectures and practical exercises in air defense artillery battery operational procedures, including leadership, basic electricity, communications techniques, specialized antiaircraft systems, nuclear weapons employment, air defense tactics, motors and generators, automatic weapons and gunnery, and staff procedures.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

AR-2201-0081

Army Air Defense Command Post Controller

Course Number: 44-D-F34.

Location: Air Defense School, Ft. Bliss, TX.

Length: 3 weeks (133 hours).

Exhibit Dates: 8/61–12/68.

Objectives: To train enlisted personnel and commissioned officers in the capabilities, limitations and operation of a specific command post.

Instruction: Lectures and practical exercises in the operation of a specific command post. Course includes data flow, communications, message composition, binary-to-decimal conversion, use of grid systems, computing facilities, radar data processing equipment, weapons monitor control, countermeasures employment, and specialized component application.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

AR-2201-0082

1. Air Defense Artillery Officer Basic
   (Air Defense Officer Basic)
   (Air Defense Officer Orientation)
2. Air Defense Artillery Officer Basic
   (Antiaircraft Artillery (AAA) Officer Basic)

Course Number: *Version 1:* 2-44-C20; 44-A-C20. *Version 2:* 44-A-C1A; 44-O-A.

Location: *All Versions:* Air Defense School, Ft. Bliss, TX. *Version 2:* Artillery and Guided Missile School, Ft. Bliss, TX.

Length: *Version 1:* 8–12 weeks (289–470 hours). *Version 2:* 16 weeks (572–579 hours).

Exhibit Dates: *Version 1:* 2/60–Present. *Version 2:* 9/56–1/60.

Objectives: To train commissioned officers to perform as air defense artillery officers.

Instruction: *All Versions:* Lectures and practical exercises in the basics of air defense artillery. *Version 1:* Topics include air defense systems, command and staff functioning, weapons familiarization, and supervisory and leadership preparation. *Version 2:* Topics include motors and generators, electronics, map reading, communications, gunnery, skysweeper, air defense tactics, and rifle marksmanship. Technical subject matter is handled in a cursory manner.

Credit Recommendation: *Version 1:* In the upper-division baccalaureate category, credit in advanced military science at institutions which normally offer such credit (12/68). *Version 2:* In the vocational certificate category, 1 semester hour in basic electrical laboratory (6/74); in the upper-division baccalaureate category, credit in advanced military at institutions which regularly offer such credit (12/68).

AR-2201-0083

Radio Operator Noncommissioned Officer (NCO) Basic

Course Number: 201-05B40-EC.

Location: Southeastern Signal School, Ft. Gordon, GA.

Length: 9 weeks (349 hours).

Exhibit Dates: 3/71–Present.

Objectives: To train enlisted personnel to serve as noncommissioned officer radio operators.

Instruction: Lectures and practical exercises in radio operator duties. Topics include command leadership, command tactics, radio/wire integration systems, and supervisory communications and duties.

Credit Recommendation: In the upper-division baccalaureate category, credit in advanced military at institutions which regularly offer such credit (12/68).

Related Occupation Codes: 05B; 31Z; 05C.

AR-2201-0084

Field Artillery Missile Officer Basic

Course Number: 6-O-B.

Location: Artillery and Guided Missile School, Ft. Sill, OK.

Length: 15 weeks (560 hours).

Exhibit Dates: 8/56–12/60.

Objectives: To train newly commissioned officers to supervise field artillery operations, and to handle the duties of guidance-platoon leaders, firing-platoon leaders, and ammunition train commanders of specific missile units.

Instruction: Lectures and field exercises in the duties of field artillery missile officers. Topics include tactical arms, communication and electronics, gunnery, and motors. Course does not include information in electronic solid-state devices and materials.

Credit Recommendation: In the vocational certificate category, 3 semester hours in electricity, 1 in electrical laboratory (6/74); in the lower-division baccalaureate/associate degree category, 1 semester hour in electrical laboratory (6/74); in the upper-division baccalaureate category, credit in advanced military at institutions which regularly offer such credit (12/68).

AR-2201-0085

Infantry Mortar Platoon

Course Number: 2E-11B/C; 2E-1543; 010-F1.

Location: Infantry School, Ft. Benning, GA.

Length: 5–6 weeks (258–274 hours).

Exhibit Dates: 3/69–Present.

Objectives: To train officers and noncommissioned officers to command infantry heavy mortar units.

Instruction: Lectures and practical exercises in the supervision of a heavy mortar platoon in support of infantry combat operations, including tactical employment, methods of employment, tactical considerations, tactical training, communications, weapons, mechanical training and crew drill, forward observation procedures, fire direction center procedures, and heavy mortar platoon communications.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (12/68).

Related Occupation Codes: 11C.

AR-2201-0086

Army Aviation Medical Officer Orientation

Course Number: 6A-F1; 1-A-F8.

Location: Aviation School, Ft. Rucker, AL.

Length: 3 weeks (90–105 hours).

Exhibit Dates: 5/64–Present.

Objectives: To familiarize aviation medical officers with Army aviation, the Army aviation medical program, and aeromedical evacuation.

Instruction: Lectures and practical exercises on Army aviation and the Army aviation medical program, including aviation medicine; tactics; fixed-wing and rotary-wing training; Army board for aviation accident research; airfield operations; control tower operations; basic fundamentals of flight; short-field techniques; instrument training; types of helicopters and fundamentals of helicopter aerodynamics.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (6/74).

AR-2201-0087

Light Target Missile Controller

(Radio-Controlled Airplane Targets Operation)
(RCAT Operations)

Course Number: 4N-F2; 600-F4; 44-D-105.6; 44-D-0590; 44-D-209.7.

Location: Air Defense School, Ft. Bliss, TX.

Length: 8–12 weeks (296–443 hours).

Exhibit Dates: 8/57–Present.

Objectives: To train personnel in launching, flying, and recovering radio-controlled airplane targets and combined operational support functions.

Instruction: Lectures and practical exercises in radio-controleled target operations, including orientation and system familiarization, MOM-33A & B field operations, combined operational subjects, description of the RCAT airframe and engine characteristics, RCAT control and aerodynamics, RPS-1 and C-2 remote control system characteristics, and RCAT launch and recovery methods.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

Related Occupation Codes: 00G.

AR-2201-0088

Hawk Officer

(Hawk Officer Qualification)

Course Number: 2F-F5; 44-A-F18.

Location: Air Defense School, Ft. Bliss, TX.

Length: 5–7 weeks (182–256 hours).

Exhibit Dates: 8/58–Present.

Objectives: To train officers in Hawk missile system operations.

Instruction: Lectures in Hawk missile system operations, including battery organization, basic electronics, Doppler and ranging principles, launcher, missile handling and preparation, radar, integrated system checks, cabling and communications, maintenance publications, maintenance system, equipment records procedures, generator operations, electronic intelligence and security, inspection techniques, Vulcan and Chaparral familiarization, and emergency operations.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

AR-2201-0089

Lacrosse Firing Battery

Course Number: 6-R-166.6; 6-R-F10.
Location: Artillery and Missile School, Ft. Sill, OK.
Length: 4 weeks (163-203 hours).
Exhibit Dates: 1/58-12/68.
Objectives: To train enlisted personnel to supervise and instruct subordinates in assembling, testing, adjusting, operating, and maintaining Lacrosse missile launchers and associated equipment.
Instruction: Lectures and practical exercises in supervision and instruction of assembling, testing, adjusting, operating, and maintaining Lacrosse missile launchers and associated equipment. Topics include artillery transport, gunnery, tactical and combined arms, target acquisition, and equipment associated with Lacrosse missile launchers.
Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (6/74).

AR-2201-0090

Air Defense Artillery Field Grade Officer Refresher

(Air Defense Artillery Field Grade Officer Refresher)
(Senior Air Defense Artillery Officer)

Course Number: 2-44-C8; 44-A-F2.
Location: Air Defense School, Ft. Bliss, TX.
Length: 3 weeks (97-123 hours).
Exhibit Dates: 5/61-Present.
Objectives: To train field and general officers in the characteristics, capabilities, limitations, operations, and tactics of one or both of the major Army air defense missile systems, Nike Hercules, and Hawk.
Instruction: Lectures and practical exercises in the duties of air defense artillery officers, including Nike Hercules and Hawk defense systems familiarization, air defense operations and tactics, electronic warfare, Nike system computer, MCDR and record analysis, fire distribution systems, ARADCOM tactical operations, acquisition and tracking radars, battery control, and command maintenance management inspection.
Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (6/74).

AR-2201-0091

Pershing Laying Specialist

Course Number: 043-15E30.
Location: Field Artillery School, Ft. Sill, OK.
Length: 2 weeks (71-74 hours).
Exhibit Dates: 7/70-6/76.
Objectives: To train enlisted personnel as specialists in azimuth laying techniques required in Pershing missile firing batteries.
Instruction: Lectures and practical exercises in the duties of a specialist in azimuth laying techniques in Pershing missile firing batteries.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).
Related Occupation Codes: 15E.

AR-2201-0092

Air Defense Missile Maintenance Technician and Maintenance Chief System Transition (Hawk)

(Air Defense Missile Maintenance Technician (Hawk) System Transition)

Course Number: 121-F22; 4F-F8.
Location: Missile and Munitions School, Redstone Arsenal, AL.
Length: 19 weeks (677-688 hours).
Exhibit Dates: 6/70-Present.
Objectives: To train warrant officers and enlisted personnel to maintain and provide logistical support of Hawk guided missile systems and associated equipment.
Instruction: Lectures and practical exercises in the maintenance of Hawk missile systems and associated equipment.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).
Related Occupation Codes: 223B; 223D; 251D.

AR-2201-0093

Sergeant Missile Crewman Noncommissioned Officer (NCO) Basic

Course Number: 043-15B40-EC.
Location: Field Artillery School, Ft. Sill, OK.
Length: 13 weeks (466 hours).
Exhibit Dates: 10/71-5/72.
Objectives: To train enlisted personnel to perform as sergeant missile crewmen.
Instruction: Lectures and practical exercises in the duties of sergeant missile crewmen. Course includes command and leadership techniques, missile azimuth orientation, launcher functions, warhead characteristics, and tactical subjects.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).
Related Occupation Codes: 15B; 15Z.

AR-2201-0094

Signal Officer Advanced (Reserve Component)

Course Number: 4-11-C26 (RC).
Location: Signal School, Ft. Gordon, GA.
Length: 12 weeks (407 hours).
Exhibit Dates: 1/77-Present.
Objectives: To prepare signal officers to command, administer, and train signal units in direct support of combat operations, to be responsible for installing, maintaining, and managing tactical communications, and to keep the commander advised on the installation and operation of communications electronics systems.
Instruction: Laboratory and lecture exercises and practical experience in the field on the theory and use of specific communications electronics equipment under simulated combat situations.
Credit Recommendation: In the vocational certificate category, 3 semester hours in communications principles on the basis of institutional evaluation (4/77).

AR-2201-0095

Nike Hercules Officer

Course Number: 2F-14C; 2F-1180A; 2F-F4; 44-A-F4.
Location: Air Defense School, Ft. Bliss, TX.
Length: 6-8 weeks (215-288 hours).
Exhibit Dates: 9/63-Present.
Objectives: To train commissioned officers in the essential materiel and tactics pertaining to the Nike Hercules system.
Instruction: Lectures and practical exercises in the essential materiel and tactics pertaining to the Nike Hercules system. Course includes training in the Nike Hercules system and in air defense tactics.
Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (2/75).

AR-2201-0096

Small Arms Repair

Course Number: 641-45B20 (Army); 641-2111 (USMC); 9-E-11.
Location: Ordnance School, Aberdeen Proving Ground, MD.
Length: 6-8 weeks (210-296 hours).
Exhibit Dates: 5/56-Present.
Objectives: To train enlisted personnel to maintain small arms and materiel.
Instruction: Lectures and practical exercises in small arms and materiel maintenance, including rifles, machine guns, submachine guns, mortars, rocket launchers, recoilless weapons, pistols, and grenade launchers.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).
Related Occupation Codes: 45B; 45Z.

AR-2201-0097

Amphibian Operator

Course Number: 062-61D20; 813-61D20.
Location: Transportation School, Ft. Eustis, VA.
Length: 6 weeks (219-232 hours).
Exhibit Dates: 8/66-Present.
Objectives: To train enlisted personnel to perform as amphibian operators.
Instruction: Lectures and practical exercises in the operation of amphibious craft, including familiarization with amphibians, map reading, land driving, water operations, cargo handling, loads and loading, piloting and nautical subjects, water safety, ship-to-shore operation, and counterinsurgency.
Credit Recommendation: In the vocational certificate category, 3 semester hours as an elective in marine programs (7/74); in the lower-division baccalaureate/associate degree category, 3 semester hours as an elective in marine programs (7/74).
Related Occupation Codes: 61D.

AR-2201-0098

Associate Armor Company Officer

Course Number: 17-A-C3; 17-O-2.
Location: Armor School, Ft. Knox, KY.
Length: 15-16 weeks (580-612 hours).
Exhibit Dates: 8/54-12/68.
Objectives: To train commissioned officers in advanced armor operations.
Instruction: Lectures and practical exercises in advanced armor training and in the duties of a field-grade armor officer. Course includes automotive maintenance management; employment and organization of tank and armored rifle and infantry battalions; nuclear weapons; intelligence; armor administration and logistics; artillery and infantry operations, and military leadership and management.
Credit Recommendation: In the vocational certificate category, 3 semester hours as an elective in management for business or industrial areas (7/74); in the lower-division baccalaureate/associate degree category, 3 semester hours as an elective in management for business or industrial areas (7/74); in the upper-division baccalaureate category, 3 semester hours in management for business or industrial areas (7/74).

AR-2201-0099

Ordnance Staff Officer Guided Missile and Special Weapons Logistics

Course Number: 9-A-F10.

Location: Ordnance School, Aberdeen Proving Ground, MD.

Length: 3 weeks (105 hours).

Exhibit Dates: 7/57-12/68.

Objectives: To train officers in weapons systems.

Instruction: Lectures and practical exercises in weapons systems, including guided missiles, atomic warfare, and special weapons systems.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (6/74).

AR-2201-0100

Nike Hercules Officer Transition

Course Number: 44-A-F7.

Location: Air Defense School, Ft. Bliss, TX.

Length: 3-6 weeks (99-189 hours).

Exhibit Dates: 8/57-12/68.

Objectives: To provide artillery officers with transition training on the Nike Hercules system.

Instruction: Lectures and practical exercises in Nike Hercules transition training, including battery operations, tests, and inspections required to determine effectiveness of personnel and equipment; the Nike Hercules system; electronic warfare; air defense atomic tactics; air defense tactics; round and guidance functional system; reject procedures and depreparation; Nike Hercules CONUS; battery operation; residual radiation and target analysis ADT; AAA missile units in the field army; electronic countermeasures; and electronic counter-countermeasures.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

AR-2201-0101

Sergeant Officer

Course Number: 2F-1190S; 2F-1190D; 6-A-1190D.

Location: Artillery School, Ft. Sill, OK; Artillery and Missile School, Ft. Sill, OK.

Length: 4-6 weeks (145-218 hours).

Exhibit Dates: 5/62-6/75.

Objectives: To train commissioned officers to perform as ballistic missile unit commanders.

Instruction: Lectures and practical exercises in the operation, maintenance, and employment of the Sergeant Missile System, including communication equipment and systems, electronic terminology and electrical safety, introduction to field artillery guided missiles, Lance and Sergeant introduction, Sergeant launcher and missile, organizational maintenance test station, nuclear warhead sections, gunnery subjects, tactical subjects, azimuth orientation system, firing set, operation of the Sergeant system, nuclear munitions, and Sergeant missile survey.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (6/74).

AR-2201-0102

Ammunition and Missile Maintenance Officer (Transition)

Course Number: 4F-4515T.

Location: Missile and Munitions School, Redstone Arsenal, AL.

Length: 3 weeks (105 hours).

Exhibit Dates: 9/66-12/68.

Objectives: To train officers to be ammunition and missile maintenance officers.

Instruction: Lectures and practical exercises in munitions, data control, logistics, service support, missile systems maintenance and storage, inspection test and maintenance of rockets, mines and demolition devices, chemical and biological munitions, and maintenance management.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/74).

AR-2201-0103

Ordnance Field Grade Officer Refresher

Course Number: 9-O-14.

Location: Ordnance School, Aberdeen Proving Ground, MD.

Length: 4 weeks (146 hours).

Exhibit Dates: 1/57-12/68.

Objectives: To provide refresher training in the duties and responsibilities of field grade ordnance officers.

Instruction: Lectures and practical exercises in the duties of field grade ordnance officers, including military tactics, ordnance service fundamentals, leadership and management, management of organizational supply and maintenance logistics, management of field and depot supply and maintenance logistics, ordnance general supply, ordnance ammunition service, guided missile and special weapons logistics, and ordnance materiel.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (12/68).

AR-2201-0104

Electronic Warfare (EW) Cryptologic Special Identification Techniques Basic Technical
(Special Identification Techniques Supervisor)

Course Number: *Version 1:* 231-05D30. *Version 2:* 231-05D40.

Location: Security Agency School, Ft. Devens, MA.

Length: *Version 1:* 14 weeks (458 hours). *Version 2:* 10 weeks (319 hours).

Exhibit Dates: *Version 1:* 4/77-Present. *Version 2:* 1/63-3/77.

Objectives: To provide personnel with training in radio direction finding (RDF) techniques.

Instruction: *Version 1:* Instruction and practical exercises in map reading, maintenance management procedures, supervision of maintenance personnel, intelligence and security, operations pertaining to signal sources and military science principles. *Version 2:* Lectures and practical exercises in RDF techniques, including administrative and personnel management procedures, supervisory tasks, utilization of personnel and equipment, evaluation of productivity, supervision and control of mission, training of personnel, installation and maintenance of equipment, and installation and alignment of antennas.

Credit Recommendation: *Version 1:* In the lower-division baccalaureate/associate degree category, 3 semester hours in maintenance management and supervision (9/77). *Version 2:* Credit is not recommended because of the military specific nature of the course (7/74).

Related Occupation Codes: 05D; 98Z.

AR-2201-0105

Dental Command and Staff

Course Number: 7M-F6.

Location: Medical Field Service School, Ft. Sam Houston, TX.

Length: 2 weeks (77-80 hours).

Exhibit Dates: 5/77-Present.

Objectives: To prepare Dental Corps officers to perform as commanders, staff officers, and administrators of dental activities units.

Instruction: Lectures, discussions, and practical exercises covering basic staff organization and doctrine of the Army, policies and procedures of Army dental service, implementation and supervision of Army dental facilities in the United States and abroad.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/77). course (6/77).

AR-2201-0106

Light and Medium Towed Field Artillery Mechanic

Course Number: 642-45F20-B.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: 4 weeks (156 hours).

Exhibit Dates: 9/67-12/68.

Objectives: To train qualified enlisted personnel as light and medium towed field artillery mechanics.

Instruction: Lectures and practical exercises on the Army maintenance system, associated supply procedures, maintenance publications, and organizational maintenance of light and medium towed field artillery weapons, including artillery transport subjects; Army equipment record procedures; supply procedures; care and use of tools; care and maintenance of pneumatic tires; gunnery subjects; fundamentals of cannon artillery; sight test and adjustments; barrel and breech; and lubrication and inspection of specific weapons.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

Related Occupation Codes: 13A; 45F.

AR-2201-0107

Finance Officer Orientation—MBA
(Finance Officer Orientation)

Course Number: 14-A-F6; 14-O-20.

Location: Finance School, Ft. Benjamin Harrison, IN.

Length: 5-6 weeks (181-250 hours).

Exhibit Dates: 3/55-12/68.

Objectives: To provide USAR officers with orientation training in basic military subjects.

Instruction: Lectures and practical exercises in basic military subjects, including concealment and camouflage; hand-to-hand combat; military justice; map and photo reading; equipment, clothing and tent pitching; tactics; chemical, biological, and radiological warfare; anti-infiltration and anti-guerrilla training; carbine qualification; squad and platoon patrolling; marches and bivouac; hasty fortifications; guard duty; dismounted drill; and pistol qualification.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (12/68).

AR-2201-0108

Warrant Officer Advanced (USAMMCS)

Course Number: *Version 1:* 4-9-C32. *Version 2:* 4-9-C32K.

Location: Missile and Munitions School, Redstone Arsenal, AL.

Length: 8–17 weeks (237–575 hours).

Exhibit Dates: *Version 1:* 10/78–Present. *Version 2:* 11/75–9/78.

Objectives: To enable selected warrant officers to update their military educations in essential and selected military subjects, staff functions, procedures, organization, mission of the Army, and, in some cases, training in new equipment and new techniques to increase their level of technical proficiency.

Instruction: *Version 1:* Subject matter covers calibration management (252A0), munitions management (260A0), 411A0), missile management (214EV, 222BV, 223BV, 224BV, 271A0) missile electronics (214EV, 222BV, 223BV, 224BV, 271A0) and selected missile systems and ammunition handling. Course content and concentration varies depending upon MOS specialty. *Version 2:* Subject matter covers munitions management (26A, 411A), missile management (251B, 251D, 241F, 271A), conventional ammunition (411A), nuclear weapons (260A), missile electronics (251B, 251D, 241F, 271A), and selected missile systems. Course content and concentration varies depending on student's military occupational specialty (MOS) designation.

Credit Recommendation: *Version 1:* In the vocational certificate category, 3 semester hours in basic electronics for students completing missile electronics (214EV, 222BV, 223BV, 224BV, 270A0) 8/79; in the lower-division baccalaureate/associate degree category, 3 semester hours in maintenance management for students completing calibration (252A0), munitions (260A0, 411A0), and missile management (214EV, 222BV, 223BV, 224BV, 271A0) (8/79). *Version 2:* In the vocational certificate category, 3 semester hours in basic electronics for students holding 241F, 251B, 251D, or 271A military occupational specialties (MOS) (9/77).

Related Occupation Codes: 214E; 214F; 241E; 241F; 251B; 251D; 260A; 271A; 411A; 251C; 214E; 241F; 241E; 214F; 251B; 222B; 251C; 251D; 223B; 260A; 271A; 411A.

AR-2201-0109

Associate Armor Officer Career

Course Number: 17-A-C23.

Location: Armor School, Ft. Knox, KY.

Length: 19 weeks (702–722 hours).

Exhibit Dates: 4/60–12/68.

Objectives: To train commissioned officers as armor officers.

Instruction: Lectures and practical exercises in the duties of armor officers, including maintenance management, driving and driving principles, general automotive subjects, armor employment, air and amphibious operations, nuclear weapons, intelligence, armor logistics, artillery and infantry operations, engineer subjects, chemical-biological warfare, communications equipment and procedures, map and airphoto reading, emergency planning, weapons, and military subjects.

Credit Recommendation: In the upper-division baccalaureate category, 3 semester hours in business organization and management (12/68).

AR-2201-0110

Field Artillery Officer Mobilization Advanced (Phases II and III)

Course Number: 2-6-C23.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: 8 weeks (301 hours).

Exhibit Dates: 9/67–12/68.

Objectives: To provide artillery officers with advanced training in field artillery mobilization.

Instruction: Lectures and practical exercises in field artillery mobilization, including communications and electronics, gunnery, tactics and combined arms, target acquisition, artillery transport, and guided missile systems.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (12/68).

AR-2201-0111

Associate Air Defense Officer Career

Course Number: 2-44-C23; 44-A-C23.

Location: Air Defense School, Ft. Bliss, TX.

Length: 14–20 weeks (502–764 hours).

Exhibit Dates: 2/60–5/67.

Objectives: To train officers to be air defense artillery staff officers.

Instruction: Lectures and practical exercises in communications, nuclear weapons employment, air defense artillery maintenance management, Nike and Hawk missile systems, air defense operations and tactics, air defense organization, and combined arms team techniques and tactics.

Credit Recommendation: In the upper-division baccalaureate category, 3 semester hours in business organization and management (12/68).

AR-2201-0112

Air Defense Artillery Officer Mobilization Advanced (Phases IA, II, IV and VI)

(Air Defense Artillery Officer Mobilization Advanced (Phases II and II))

Course Number: 2-44-C23.

Location: Air Defense School, Ft. Bliss, TX.

Length: 8 weeks (307 hours).

Exhibit Dates: 6/67–Present.

Objectives: To train officers to be command staff officers.

Instruction: Lectures and practical exercises in general staff procedures, Nike Hercules system, Hawk missile system, combined arms, air defense operations and tactics, nuclear weapons employment, and maintenance management.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0113

Special Assignments (SP-CMF) Noncommissioned Officer (NCO) Basic

Course Number: 8-SP-C40.

Location: Quartermaster School, Ft. Lee, VA.

Length: 8 weeks (284 hours).

Exhibit Dates: 7/73–Present.

Objectives: To train selected enlisted personnel in the responsibilities of noncommissioned officers in certain special logistical assignments.

Instruction: Lectures and practical exercises in the duties of a noncommissioned officer in special logistical assignments. Course includes leadership and effective communication, logistic support of combat operations, maintenance of assigned equipment, parachute packaging, and airdrop procedures and techniques.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 1 semester hour in leadership (6/75).

Related Occupation Codes: 43E.

AR-2201-0114

OV-1 Suppressive Fire

Course Number: 2B-F7.

Location: Aviation School, Ft. Rucker, AL.

Length: 3–4 weeks (95–140 hours).

Exhibit Dates: 6/65–12/68.

Objectives: To train OV-1 aviators in the techniques of air-to-ground machine gun and rocket firing.

Instruction: Lectures and practical exercises in the techniques of air-to-ground machine gun and rocket firing, including OV-1 suppressive fire training, gunnery safety, sight and armament equipment, theory of strafing and rockets, formation and flight team tactics, specific glide rocketry and strafing, specific glide live ordnance exercise, specific glide demonstration flight low-level delivery, formation flying, loading and fuzing, bore sighting, angle of attack, and patterns and techniques.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (12/68).

AR-2201-0115

M-22 Gunnery

(M-22 Gunnery Qualification)

Course Number: 2C-F9.

Location: Aviation School, Ft. Rucker, AL.

Length: 2–3 weeks (62–65 hours).

Exhibit Dates: 5/65–Present.

Objectives: To train commissioned officers in UH-1 helicopter aerial gunnery.

Instruction: Lectures and practical exercises in UH-1 helicopter aerial gunnery. Course includes specific armament and tactical subjects.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (7/74).

Related Occupation Codes: 100B; 100C; 100D; 100E.

AR-2201-0116

Airborne Sensor Specialist

Course Number: 221-17L20; 221-26E20.

Location: Intelligence Center and School, Ft. Huachuca, AZ; Combat Surveillance and Electronic Warfare School, Ft. Huachuca, AZ; Combat Surveillance School, Ft. Huachuca, AZ.

Length: *Version 1:* 8 weeks (272 hours). *Version 2:* 7–13 weeks (272–476 hours).

Exhibit Dates: *Version 1:* 11/72–Present. *Version 2:* 1/67–10/72.

Objectives: To train enlisted personnel to operate and maintain an airborne sensing system.

Instruction: Lectures and practical exercises in the operation and maintenance of an airborne sensing system. Course includes visual reconnaissance techniques, infrared surveillance, radar surveillance, and photographic surveillance.

Credit Recommendation: *Version 1:* In the upper-division baccalaureate category, 3 semester hours in aerial photography (6/79). *Version 2:* Credit is not recommended because of the limited technical nature of the course (7/74).

Related Occupation Codes: 17L.

AR-2201-0117

Advanced Chemical Noncommissioned Officer (NCO)
(Advanced Chemical Noncommissioned Officer (NCO) (Staff Specialist))
(Chemical Staff Supervision)

Course Number: 494-54E40; 3-R-534.6; 3-E-1.

Location: Chemical School, Ft. McClellan, AL; Chemical Corps School, Ft. McClellan, AL.

Length: 8 weeks (291–314 hours).

Exhibit Dates: 4/57–12/68.

Objectives: To train senior Chemical Corps noncommissioned officers in the administration of chemical, biological, and radiological (CBR) operations.

Instruction: Lectures and practical exercises in CBR operations, systems, and activities, including logistics; management; CBR plans, training, and operations; CBR weapons employment; combat arms; technical aspects of biological and chemical operations; nuclear warfare and radiological defense; CBR defense and materiel; and medical training and support.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (12/68).

AR-2201-0118

Chemical Field Grade Officer Refresher

Course Number: 3-A-C8; 3-O-14.

Location: Chemical Corps School, Ft. McClellan, AL.

Length: 4 weeks (140–153 hours).

Exhibit Dates: 8/56–12/68.

Objectives: To provide refresher training in the duties appropriate to field grade Chemical Corps officers.

Instruction: Lectures and practical exercises in the duties of field grade Chemical Corps officers, including administration and management; intelligence; operations, plans, and training; supply and maintenance; biological, chemical, and radiological warfare; protection and materiel; and combat arms.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (12/68).

Related Occupation Codes: 54B; 54C; 54D; 54E; 55E; 92D.

AR-2201-0119

Guided Missile Propellants and Explosives
(Guided Missile Propellants—Explosives Specialist)

Course Number: 821-55F20; 9-R-414.1; 9-E-46.

Location: *Version 1:* Missile and Munitions School, Redstone Arsenal, AL. *Version 2:* Ordnance School, Aberdeen Proving Ground, MD. *Version 3:* Ordnance Guided Missile School, Redstone Arsenal, AL.

Length: 6–8 weeks (215–280 hours).

Exhibit Dates: 5/55–12/68.

Objectives: To train enlisted personnel to supervise and perform receipt, maintenance, surveillance, storage and issue of guided missile propellants and explosives, and inspection and maintenance of rocket missile Class V items, tools, test equipment, and safety.

Instruction: Lectures and practical exercises on guided missile propellants and explosives, including introduction to rockets and missiles materiel; guided missile propellants; storage, handling, disposal, transportation, and surveillance of liquid propellants; inspection and maintenance; surface-to-air and surface-to-surface missile propellants; propellant storage site operations; and destruction.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (12/68).

Related Occupation Codes: 55F.

AR-2201-0120

Air Defense Missile Officer Basic
(SAM Officer Basic)

Course Number: 44-A-C1B; 44-O-B.

Location: Air Defense School, Ft. Bliss, TX; Antiaircraft Artillery and Guided Missile School, Ft. Bliss, TX.

Length: 12–16 weeks (452–573 hours).

Exhibit Dates: 9/55–6/60.

Objectives: To train officers in guided missile systems.

Instruction: Lectures and practical exercises in guided missile systems, including introduction to electronics, radar, missile systems operation, safety procedures, and map reading.

Credit Recommendation: In the upper-division baccalaureate category, credit in advanced military at institutuions which regularly offer such credit (12/68).

AR-2201-0121

Aerial Surveillance Officer

Course Number: *Version 1:* 3-30-C20-35C. *Version 2:* 3A-9309. *Version 3:* 3A-9309. *Version 4:* 3A-9309.

Location: *Version 1:* Intelligence School, Ft. Huachuca, AZ. *Version 2 :* Intelligence School, Ft. Huachuca, AZ. *Version 3 :* Intelligence School, Ft. Huachuca, AZ. *Version 4 :* Intelligence School, Ft. Holabird, MD.

Length: *Version 1:* 28 weeks (882 hours). *Version 2:* 18–19 weeks (550 hours). *Version 3:* 20 weeks (698 hours). *Version 4:* 18 weeks (620–630 hours).

Exhibit Dates: *Version 1:* 5/78–3/79. *Version 2:* 8/72–4/78. *Version 3:* 11/68–7/72. *Version 4:* 1/67–10/68.

Objectives: To provide selected officers with knowledge about tactical and aeriel surveillance.

Instruction: *All Versions:* Lectures and practical exercises in the duties of an aerial surveillance officer. Course includes map reading; aerial surveillance organization, operation, and planning; imagery interpretation of various structures and equipment; military and industrial studies of thermal and radar imagery; scale properties and metrics; and terrain analysis and mosaic preparations. *Version 1:* Course includes photo interpretation, photogrammetry, tactical surveillance, leadership, and management of technical services.

Credit Recommendation: *Version 1:* In the lower-division baccalaureate/associate degree category, 6 semester hours in administration/management, 3 in college mathematics, 3 in introduction to maps/air photographs, and additional credit based on placement tests (6/79); in the upper-division baccalaureate category, 3 semester hours in photogrammetry, 3 in leadership/management 3 in aerial photography (6/79). *Version 2:* In the lower-division baccalaureate/associate degree category, 3 semester hours in college mathematics to include algebra and trigonometry, 3 in introduction to maps and air photographs (6/79); in the upper-division baccalaureate category, 3 semester hours in air photo and image interpretation, 3 in photogrammetry (6/79). *Version 3:* In the lower-division baccalaureate/associate degree category, 7 semester hours in intelligence methods of imagery interpretation (6/74); in the upper-division baccalaureate category, 6 semester hours in intelligence methods of imagery interpretation (12/68). *Version 4:* In the lower-division baccalaureate/associate degree category, 6 semester hours in intelligence methods of imagery interpretation (6/74); in the upper-division baccalaureate category, 6 semester hours in intelligence methods of imagery interpretation (12/68).

AR-2201-0122

Army Aviation Command and Staff Officer
(Aviation Staff Officer)

Course Number: 1-A-F30; 1-A-2518.

Location: Aviation School, Ft. Rucker, AL.

Length: 3–8 weeks (105–292 hours).

Exhibit Dates: 11/59–12/68.

Objectives: To qualify commissioned officer aviators for aviation command and staff positions.

Instruction: Lectures and practical exercises in duties of aviation command and staff officers, including aviation programs; organization and functions of various units; control of tactical operations; aviation materiel (including maintenance, avionics and automatic data processing systems); special weapons; types of warfare; employment of aviation tactics in various situations; and training and movement of aviation companies.

Credit Recommendation: In the upper-division baccalaureate category, 2 semester hours in military science (7/74).

AR-2201-0123

1. Armor Officer Advanced
2. Armor Officer Advanced
3. Armor Officer Career

(Armor Officer Advanced)
(Armor/Infantry Officer Career)

Course Number: *All Versions:* 2-17-C22. *Version 3:* 17-A-C22; 17-A-C4; 17-O-3.

Location: Armor School, Ft. Knox, KY.

Length: *Version 1:* 26 weeks (846 hours). *Version 2:* 36–38 weeks (1158–1379 hours). *Version 3:* 35–37 weeks (1133–1325 hours).

Exhibit Dates: *Version 1:* 8/77–Present. *Version 2:* 11/66–7/77. *Version 3:* 9/54–10/66.

Objectives: To train officers to be armor officers at the command and staff levels.

Instruction: *All Versions:* Lectures and practical exercises in military forces, weapons, principle staff and support functions, leadership, effective communication, tactical and field communications, automotive preventive maintenance, maintenance management, armor logistics, artillery operations, amphibious operations, map and air photograph reading, psychological warfare, and congressional relations. *Version 1:* Instruction includes motivation and the systems approach to organization. *Version 2:* Instruction includes electives in history and geography, international relations, social sciences, and engineering.

Credit Recommendation: *Version 1:* In the upper-division baccalaureate category, 3 semester hours in business organization and management, and 2 in organizational behavior. *Version 2:* In the vocational certificate category, 3 semester hours in business organization and management (7/74); in the lower-division baccalaureate/associate degree category, 3 semester hours in business organization and management (7/74); in the upper-division baccalaureate category, 6 semester hours in business organization and management and additional credit in business organization and management on the basis of institutional evaluation (12/68). *Version 3:* In the upper-division baccalaureate category, 3 semester hours in business organization and management (12/68).

AR-2201-0124

1. Infantry Officer Advanced
2. Infantry Officer Advanced
3. Infantry/Armor Officer Career
(Infantry Officer Career)
(Infantry Officer Advanced)

Course Number: *All Versions:* 2-7-C22. *Version 3:* 7-A-C22; 7-O-3.

Location: Infantry School, Ft. Benning, GA.

Length: *Version 1:* 26–36 weeks (858–1072 hours). *Version 2:* 36 weeks (1074–1243 hours). *Version 3:* 34–35 weeks (1122–1181 hours).

Exhibit Dates: *Version 1:* 8/72–Present. *Version 2:* 7/60–7/72. *Version 3:* 6/54–6/60.

Objectives: To train commissioned officers for command and staff duties at battalion through brigade levels in both divisional and nondivisional units.

Instruction: *All Versions:* Lectures and practical exercises in command and staff duties of infantry officers, including tactics; offensive and defensive operations; retrograde operations; internal defense and internal development operations; armored/air cavalry operations; airborne/airmobile operations; artillery operations; engineer operations; Air Force operations; nuclear, biological, and chemical weapons employment; intelligence and logistics; training management; automatic data processing; staff exercises and CPX; personnel. *Version 1:* Topics include electives program until September 1975. *Version 2:* Topics include communications/electronics, unit/materiel readiness, and weapons.

Credit Recommendation: *Version 1:* In the upper-division baccalaureate category, 4 semester hours in business organization and management (7/74). *Version 2:* In the vocational certificate category, 4 semester hours in business organization and management (7/74); in the lower-division baccalaureate/associate degree category, 4 semester hours in business organization and management (7/74); in the upper-division baccalaureate category, 6 semester hours in business organization and management, and additional credit for the electives program on the basis of institutional evaluation (12/68). *Version 3:* In the upper-division baccalaureate category, 6 semester hours in business organization and management (12/68).

AR-2201-0126

Surface-to-Surface Missile System
Maintenance (Pershing)
Warrant Officer Advanced

Course Number: 4-9-C32; 4-9-C32-D; 4F-241F-B.

Location: Missile and Munitions School, Redstone Arsenal, AL.

Length: 9 weeks (317 hours).

Exhibit Dates: 2/72–10/76.

Objectives: To train warrant officers to manage missile operations and logistics.

Instruction: Lectures and practical exercises in the management of missile operations and logistics. Course includes leadership, civil affairs, speaking, writing, personnel management, military justice, security, data processing, financial management, budgeting, and various military operations.

Credit Recommendation: Credit is not recommended because of the military special nature of the course (8/74).

AR-2201-0127

Regular Army Air Defense Artillery
Officer Basic

Course Number: 2-44-C20(RA).

Location: Air Defense School, Ft. Bliss, TX.

Length: 6 weeks (239 hours).

Exhibit Dates: 5/67–12/68.

Objectives: To train newly commissioned officers to perform the duties of an air defense artillery officer.

Instruction: Lectures and practical exercises in the duties of an air defense artillery officer. Course includes general subjects and staff procedures; combined arms; nuclear weapons; communications; maintenance and supply procedures; air defense tactics; and the Nike Hercules system.

AR-2201-0128

Chemical Company Officer

Course Number: 3-A-C2; 3-O-1.

Location: Chemical Corps School, Ft. McClellan, AL.

Length: 13–25 weeks (483–905 hours).

Exhibit Dates: 1/55–12/68.

Objectives: To train commissioned officers in the duties of company grade Chemical Corps officers.

Instruction: Lectures and practical exercises in the duties of company grade Chemical Corps officers. Course includes personnel and administration procedures, logistics, management, military arts, military combat arms, biological warfare, chemical warfare, and radiological warfare.

Credit Recommendation: In the upper-division baccalaureate category, credit in advanced military on the basis of institutional evaluation at institutions which regularly offer such credit (12/68).

AR-2201-0129

Artillery Officer Advanced

Course Number: 6-A-C4; 6-O-3.

Location: *Version 1:* Artillery and Guided Missile School, Ft. Sill, OK. *Version 2:* Air Defense School, Ft. Bliss, TX.

Length: 37–38 weeks (1271–1383 hours).

Exhibit Dates: 7/55–6/60.

Objectives: To train commissioned officers in the duties of field grade artillery officers.

Instruction: Lectures and practical exercises in the duties of field grade artillery officers. Course includes a study of tactics and combined arms, communications and electronics, gunnery, artillery observation, artillery equipment, and missile systems.

Credit Recommendation: In the upper-division baccalaureate category, 6 semester hours in business organization and management (12/68).

AR-2201-0130

Associate Armor Officer Advanced

Course Number: 17-A-C5; 17-O-4.

Location: Armor School, Ft. Knox, KY.

Length: 15–19 weeks (578–714 hours).

Exhibit Dates: 7/54–6/60.

Objectives: To train experienced officers in the duties of field grade armor officers and nuclear weapons employment officers.

Instruction: Lectures and practical exercises in the duties of field grade armor officers and nuclear weapons employment officers, including automotive general, maintenance management, armor employment, air operations, amphibious operations, nuclear weapons, intelligence, armor administration and logistics, artillery, infantry and engineer operations, nuclear weapons employment, communications equipment and procedure, tactical communication, field communication, map and air photo reading, methods of instruction, nonresident instruction and training assistance, preventive maintenance, small arms, materiel, tank gunnery, civil emergencies and affairs, psychological warfare, congressional relations, mutual security, medical training and support, training management, Army management, character guidance, and the Army information program.

Credit Recommendation: In the upper-division baccalaureate category, 3 semester hours in business organization and management (12/68).

AR-2201-0131

Associate Infantry Officer Career

Course Number: 7-A-C23.

Location: Infantry School, Ft. Benning, GA.

Length: 19 weeks (721 hours).

Exhibit Dates: 7/60–12/68.

Objectives: To train infantry officers to perform as company and battalion commanders.

Instruction: Lectures and practical exercises in the duties of a company and battalion commander. Course includes command and leadership training, communications, logistics, and a variety of military subjects.

Credit Recommendation: In the vocational certificate category, 1 semester hour in business organization and management (8/74); in the lower-division baccalaureate/associate degree category, 1 semester hour in business organization and management (8/74); in the upper-division baccalaureate category, 3 semester hours in business organization and management (12/68).

AR-2201-0132

Ammunition Operations
(Ammunition Storage and Operations)
(Ammunition Records)

Course Number: 645-55B30; 551-76M20.

Location: Missile and Munitions School, Redstone Arsenal, AL.

Length: 4–15 weeks (129–526 hours).

Exhibit Dates: 3/66–Present.

Objectives: To train enlisted personnel to receive, store, ship, issue, and secure ammunition, rockets, guided missiles, ammunition components, military explosives and chemical ammunition.

Instruction: Lectures and practical exercises in the receipt, storage, shipment, and security of ammunition, rockets, guided missiles, ammunition components, military explosives, and chemical ammunition; and in dump layout, and types and missions of ammunition installations. Course includes numerous ammunition services and operations.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/75).

Related Occupation Codes: 55B.

AR-2201-0133

Air Defense Missile (23-CMF) Noncommissioned Officer (NCO) Advanced

Course Number: 1-23-C42.

Location: Air Defense School, Ft. Bliss, TX.

Length: 10 weeks (361-374 hours).

Exhibit Dates: 7/75-Present.

Objectives: Course provides selected enlisted personnel with knowledge of the duties required to perform in grade E7 in career management field 23.

Instruction: Conferences and practical exercises in tactics and general subjects in the Nike Hercules weapons system, the Improved Hawk weapons system, or on the Operations and Acquisition Radar specialty.

Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (8/77).

Related Occupation Codes: 24B; 24C; 24D; 24E; 24F; 24G; 24Q; 24U; 25D; 25G; 25H; 25J; 25K; 28M.

AR-2201-0134

Infantry Armor (IA-CMF) Noncommissioned Officer (NCO) Basic

Course Number: 0-IA-C40B.

Location: Armor School, Ft. Knox, KY.

Length: 12 weeks (431-433 hours).

Exhibit Dates: *Version 1:* 1/76-Present. *Version 2:* 3/73-12/75.

Objectives: To train enlisted personnel in the duties of infantry armor NCOs (noncommissioned officers).

Instruction: *Version 1:* Demonstrations and practical exercises in the duties of infantry armor NCO's, including mapping, nuclear, biological and chemical report preparation and submission, and technical aspects of tank command. *Version 2:* Lectures and practical exercises in the duties of infantry armor NCOs. Course includes automotive subjects, command and staff procedures, communications and electronics, leadership and educational concerns, and weaponry.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (8/74).

AR-2201-0135

Associate Field Artillery Battery Officer

(Associate Field Artillery Missile Battery Officer)

Course Number: 6-A-C3; 6-O-2B.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: 17-18 weeks (610-642 hours).

Exhibit Dates: 9/56-6/60.

Objectives: To train officers in the duties and responsibilities of mortar, gun, and Howitzer battery commanders.

Instruction: Lectures and practical exercises in artillery transport maintenance; communication and electronic systems of field artillery battalions (wire and radio); gunnery and fire direction; ammunition and fuzes; tactical employment; and target organization.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0136

Parachute Maintenance and Airdrop Officer

(Parachute Maintenance and Aerial Supply Officer)

Course Number: 8B-4820; 10-A-4820.

Location: Quartermaster School, Ft. Lee, VA.

Length: 6-7 weeks (210-262 hours).

Exhibit Dates: 1/65-6/74.

Objectives: To train officers to supervise packing, maintenance, rigging and related duties in airdrop units.

Instruction: Lectures and practical exercises in airdrop packing, associated maintenance, rigging, and related duties, including parachute packing, student parachute jumps, packing and rigging dangerous materials for airdrop, methods of airdrop, cargo parachute packing and release assemblies, recovery and evacuation of airdrop equipment, maintenance of airdrop materials, maintenance administration, organizational supply problems, and planning airdrop support of airborne assault operations.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (8/74).

AR-2201-0137

National Guard Infantry Officer Candidate

Course Number: 7-N-F2.

Location: Infantry School, Ft. Benning, GA.

Length: 8 weeks (353 hours).

Exhibit Dates: 2/54-12/57.

Objectives: To train National Guard personnel in the duties and responsibilities appropriate to platoon leaders of infantry rifle and weapon platoons.

Instruction: Weapons; leadership; map and aerial photograph reading; signal communication; mobility department; command and staff department.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in military science (12/68).

AR-2201-0138

Field Artillery National Guard Officer Candidate

Course Number: 6-E-34; 6-N-F2.

Location: Artillery and Guided Missile School, Ft. Sill, OK.

Length: 11 weeks (498 hours).

Exhibit Dates: 5/55-12/57.

Objectives: To train personnel to be second lieutenants capable of performing duties appropriate to their grade in field artillery units of the National Guard.

Instruction: Tactics and combined arms; communications; gunnery; materiel; motors; observation; OCS commander.

Credit Recommendation: In the upper-division baccalaureate category, 3 semester hours in military science (12/68).

AR-2201-0139

Associate Field Artillery Battery Officer

Course Number: 6-A-C3A; 6-O-2.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: 16-17 weeks (581-618 hours).

Exhibit Dates: 3/56-12/68.

Objectives: To train junior grade officers to function as small unit commanders and officers.

Instruction: Lectures and practical exercises in mortar, gun, and Howitzer battery operations; gunnery; communications and electronics; target acquisition; equipment; command and staff procedures; tactics; and leadership principles.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0140

Senior Field Artillery Officer

Course Number: *Version 1:* 6-A-F6. *Version 2:* 6-O-8.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: *Version 1:* 3 weeks (101 hours). *Version 2:* 5 weeks (163 hours).

Exhibit Dates: *Version 1:* 12/58-12/68. *Version 2:* 3/57-11/58.

Objectives: To provide senior artillery officers with knowledge and understanding of field artillery organization, tactics, techniques, and equipment.

Instruction: Lectures and practical exercises in artillery transport; communication and electronics; artillery cannon, rocket missile, and ammunition materials; gunnery; and target acquisition.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0141

Military Government Advanced

Course Number: 19-0-17.

Location: Provost Marshal General School, Ft. Gordon, GA.

Length: 4 weeks (154 hours).

Exhibit Dates: 11/54-12/68.

Objectives: To provide a general knowledge and understanding of civil affairs and military government policy development and operations.

Instruction: Lectures and practical exercises in the sociological-political aspects of civil affairs/military government and the economics of military occupation and its relationship to U.S. foreign policy.

Credit Recommendation: In the upper-division baccalaureate category, 2 semester hours in military government (7/74).

AR-2201-0142

Field Artillery Field Grade Officer Refresher

Course Number: 6-O-14.

Location: Artillery and Guided Missile School, Ft. Sill, OK.

Length: 4 weeks (150 hours).

Exhibit Dates: 7/55-12/68.

Objectives: To provide refresher training for senior field artillery officers in field artillery general subjects.

Instruction: Lectures and practical exercises in tactics; command and staff functions; communications; atomic warfare; gunnery; target acquisition; and equipment.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0143

Field Artillery Transition Officer

Course Number: 6-O-22.

Location: Artillery and Guided Missile School, Ft. Sill, OK.

Length: 11 weeks (402 hours).

Exhibit Dates: 7/55-12/68.

Objectives: To porvide a general familiarization with field artillery gunnery, communications, and equipment.

Instruction: Lectures and practical exercises in tactics, map reading, command and staff functions, communication, gunnery, target acquisition, and equipment.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0144

Pershing Noncommissioned Officer (NCO)

Course Number: 043-15E40.

Location: Field Artillery School, Ft. Sill, OK.

Length: weeks (221–232 hours).

Exhibit Dates: 11/70–Present.

Objectives: To provide enlisted personnel with a knowledge of the Pershing missile system and the duties of Pershing crew supervisors.

Instruction: Lectures and practical exercises on the Pershing missile system; Pershing missile organization and employment, tactics, and operations.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/75).

Related Occupation Codes: 15E; 15Z.

AR-2201-0145

Marine Artillery Scout Observer

Course Number: 250-0846.

Location: Field Artillery School, Ft. Sill, OK.

Length: 4 weeks (155 hours).

Exhibit Dates: 3/75–Present.

Objectives: To qualify enlisted personnel in the technical aspects of planning, acquiring, and controling artillery fire.

Instruction: Lectures and practical exercises in communications and electronics; gunnery; map and aerial photograph reading; and the development of artillery fire support plans.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course ([illegible]/75).

AR-2201-0146

Drill Sergeant School

Course Number: None.

Location: Infantry School, Ft. Benning, GA; Army Training Centers, Continental U.S.

Length: 6 weeks (206 hours).

Exhibit Dates: 4/74–Present.

Objectives: To train selected noncommissioned officers and specialists in the fundamentals of recruit handling and individual training.

Instruction: Lectures and practical exercises in methods of training, leadership, physical fitness, drill, rifle marksmanship, and weapons and tactical techniques.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in methods of instructions, 2 in interpersonal relations (6/75).

Related Occupation Codes: 00F.

AR-2201-0147

Tow Trainer

Course Number: 2E-F51; 012-F3.

Location: Infantry School, Ft. Benning, GA.

Length: 3 weeks (102 hours).

Exhibit Dates: 2/75–Present.

Objectives: To provide officers and noncommissioned officers with the expertise to conduct training on and effectively employ Tow antiarmor weapon system.

Instruction: Lectures and practical exercises in operational training with Tow and the tactical application of Tow, including instructor training and development of training program.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/75).

AR-2201-0148

Civil Affairs and Military Government Officer

Course Number: 41-I-F1; 41-O-7.

Location: Civil Affairs and Military Government School, Ft. Gordon, GA.

Length: 4 weeks (160–166 hours).

Exhibit Dates: 5/56–12/68.

Objectives: To provide selected officers with knowledge of the fundamentals of military government organization, policies, and operations.

Instruction: Conferences and practical exercises in history of military government, command and staff functions, field operations, and specialized military operations.

Credit Recommendation: In the upper-division baccalaureate category, 2 semester hours in military government (7/74).

AR-2201-0149

Chemical Officer Familiarization

Course Number: 3-A-C21.

Location: Chemical Corps School, Ft. McClellan, AL.

Length: 6 weeks (234 hours).

Exhibit Dates: 3/60–12/68.

Objectives: To provide orientation to the organization, functions, duties, and responsibilities of officers transferring to chemical officer assignments.

Instruction: Conferences and practical exercises in nuclear warfare; radiation physics; weapons effects; RADIAC instruments; radiological safety; chemical/biological protection and materiels; and medical training and support.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (7/74).

AR-2201-0150

Nuclear and Chemical Target Analysis

Course Number: 2-E-F15.

Location: Infantry School, Ft. Benning, GA.

Length: 4 weeks (159 hours).

Exhibit Dates: 4/70–Present.

Objectives: To qualify commissioned officers in nuclear and chemical target analysis.

Instruction: Lectures and practical exercises in effects of nuclear weapons to include thermal radiation and air blast; weapon employment to include damage probability and damage estimation; tactical applications; target analysis; chemical target analysis; and defense against biological attack.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0151

Nuclear and Chemical Target Analysis (NaC)

Course Number: 2E-F39.

Location: Engineer School, Ft. Belvoir, VA.

Length: 4 weeks (122 hours).

Exhibit Dates: 4/70–Present.

Objectives: To qualify commissioned officers in nuclear and chemical target analysis and procedures for employment of nuclear/chemical weapons.

Instruction: Lectures and practical exercises in effects of nuclear weapons including airblast, radiation effects, fallout prediction, employment, damage estimation, and target analysis; and chemical weapons topics, including weapons employment and target ground and air analysis.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0152

Field Artillery Officer Familiarization

Course Number: 6-A-C21.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: 7–8 weeks (275–285 hours).

Exhibit Dates: 6/60–12/68.

Objectives: To provide field artillery officers familiarization in the organization, operational functions, duties and responsibilities of the field artillery.

Instruction: Lectures and practical exercises in artillery transport and maintenance; communication and electronics; gunnery of cannon and rocket; target acquisition and survey; and field artillery tactics.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0153

Nuclear Weapons Employment

Course Number: 2E-F17.

Location: Chemical School, Ft. McClellan, AL.

Length: 3 weeks (115 hours).

Exhibit Dates: 9/65–12/68.

Objectives: To qualify commissioned officers for duty as nuclear weapons employment officers.

Instruction: Lectures and practical exercises in the nuclear weapons family, blast effects, target response to blast, thermal radiation, initial nuclear radiation, comparison of effects, and nuclear weapons in air defense.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (7/74).

AR-2201-0154

Nuclear, Biological and Chemical (NBC) Weapons Target Analysis

Course Number: 2E-F34.

Location: Air Defense School, Ft. Bliss, TX.

Length: 4 weeks (155 hours).

Exhibit Dates: 12/69–Present.

Objectives: To qualify commissioned officers in chemical and biological weapons employment.

Instruction: Lectures and practical exercises in weapons target analysis to include radiation, airblast, fallout prediction, and effects; chemical and biological agents; troop safety; probability of damage; and concepts for employment of nuclear weapons.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0155

MILITARY INTELLIGENCE (MI-CMF) NONCOMMISSIONED OFFICER (NCO) ADVANCED (USAISC)

Course Number: 2-96-C42; 2-MI-C42.

Location: Intelligence School, Ft. Huachuca, AZ.

Length: 6–12 weeks (195–369 hours).

Exhibit Dates: 3/73–Present.

Objectives: To train selected noncommissioned officers in intelligence/administrative skills.

Instruction: Lectures and practical exercises in intelligence operations, administration, and army procedures and communications directed to military intelligence operations.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in survey of applied electronics, 3 in principles of administration, 3 in world areas studies (political science) (6/79).

Related Occupation Codes: 96B; 96C; 96D; 97B; 97C; 97D.

AR-2201-0156

FIELD ARTILLERY MISSILES (FM-CMF) NONCOMMISSIONED OFFICER (NCO) BASIC (USAFAS)

Course Number: 0-15-C40; 1-FM-C40B.

Location: Field Artillery School, Ft. Sill, OK.

Length: 10–12 weeks (372–399 hours).

Exhibit Dates: 1/74–6/76.

Objectives: To provide enlisted personnel with a knowledge of the duties required to perform as noncommissioned officers in the field artillery missile Career Management Field.

Instruction: Lectures and practical exercises in common Army subjects and field artillery missiles.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/75).

Related Occupation Codes: 15B; 15D; 15E; 15F; 15J; 21G.

AR-2201-0157

HEAVY MORTAR AND DAVY CROCKETT OFFICER

Course Number: 2E-1543.

Location: Infantry School, Ft. Benning, GA.

Length: 6 weeks (253 hours).

Exhibit Dates: 8/65–2/69.

Objectives: To train commissioned officers to serve as heavy mortar platoon leaders and Davy Crockett nuclear weapon section leaders.

Instruction: Lectures and practical exercises in nuclear weapons employment, offensive and defensive tactical operations; radio, telephone, and wire communications; crew served weapons gunnery, mechanical training and employment, and fire direction procedures.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0158

NUCLEAR WEAPONS EMPLOYMENT

Course Number: 2E-F15.

Location: Infantry School, Ft. Benning, GA.

Length: 3 weeks (121 hours).

Exhibit Dates: 7/66–3/70.

Objectives: To qualify commissioned officers for duty as nuclear weapons employment officers.

Instruction: Lectures and practical exercises in nuclear weapons systems, effects of nuclear weapons, fundamentals of employment, tactical application of nuclear weapons, and biological and chemical weapons.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (7/74).

AR-2201-0159

FIELD ARTILLERY OFFICER VIETNAM ORIENTATION

Course Number: 2E-F30.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: 5 weeks (204–208 hours).

Exhibit Dates: 1/68–Present.

Objectives: To provide training for field artillery officers assigned to duty in Vietnam.

Instruction: Lectures and practical exercises in maintenance management of artillery transport; gunnery; tactical operations; target acquisition and location; and radio communications.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0160

SIGNAL OFFICER CANDIDATE

Course Number: 4-11-F1.

Location: Southeastern Signal School, Ft. Gordon, GA.

Length: 23 weeks (869 hours).

Exhibit Dates: 8/66–10/72.

Objectives: To train, develop, and commission highly selected enlisted personnel as second lieutenants in the Army Signal Corps.

Instruction: Lectures and practical exercises in radio communication systems to include FM/AM radio, VHF/UHF radio, radio relay equipment; wire communications to include wire and cable, teletypewriter and telegraph-telephone switching operations, telephone carrier systems circuit control, communication center operations, and communication security; and planning of larger unit communications system.

Credit Recommendation: In the upper-division baccalaureate category, credit in advanced military science at institutions which normally offer such credit (7/74).

AR-2201-0161

SENIOR OFFICERS PREVENTIVE LOGISTICS

Course Number: 8A-F23.

Location: Armor School, Ft. Knox, KY.

Length: 2 weeks (73 hours).

Exhibit Dates: 8/75–Present.

Objectives: To prepare senior officers and Department of Defense civilians to perform command functions associated with logistics.

Instruction: Lectures, demonstrations, seminars and practical exercises in logistics including army supply and maintenance systems and materiel inspection.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 2 semester hours in military science (2/80).

AR-2201-0162

SPECIAL FORCES OFFICER
(Special Forces Officer (Modified)

Course Number: 2E-F8; 33-G-F3.

Location: Institute for Military Assistance, Ft. Bragg, NC; Special Warfare School, Ft. Bragg, NC.

Length: 12–13 weeks (574–835 hours).

Exhibit Dates: *Version 1:* 8/75–Present. *Version 2:* 5/64–7/75.

Objectives: To provide students with a general knowledge of the latest doctrine and techniques of Special Forces operations.

Instruction: Lectures and practical exercises in development and employment of resistance forces; infiltration and exfiltration; U.S. unconventional warfare organization and capabilities; stability and psychological operations.

Credit Recommendation: *Version 1:* In the lower-division baccalaureate/associate degree category, 3 semester hours in physical education (2/80); in the upper-division baccalaureate category, 3 semester hours in military science and tactics (2/80). *Version 2:* Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0163

NUCLEAR WEAPONS EMPLOYMENT

Course Number: 2E-F12; 6-A-F19.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: 3 weeks (105–120 hours).

Exhibit Dates: 8/64–12/68.

Objectives: To qualify commissioned officers for duty as nuclear weapons employment officers.

Instruction: Lectures and practical exercises in the effects of nuclear weapons, the fundamentals of employment, and tactical application of nuclear weapons employment.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (7/74).

AR-2201-0164

NUCLEAR WEAPONS EMPLOYMENT

Course Number: 2E-F16; 17-A-F19.

Location: Armor School, Ft. Knox, KY.

Length: 3 weeks (120–123 hours).

Exhibit Dates: 6/63–12/68.

Objectives: To qualify commissioned officers for duty as nuclear weapons employment officers.

Instruction: Lectures and practical exercises in the effects of nuclear weapons; the fundamentals of nuclear weapons employment and tactical applications; and the employment of chemical and biological weapons.

Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (7/74).

AR-2201-0165

ARMOR OFFICER ADVANCED - RESERVE COMPONENT

Course Number: 2-17-C26.

Location: Armor School, Ft. Knox, KY.

Length: 12 weeks (414–469 hours).

Exhibit Dates: 9/76–Present.

Objectives: To train reserve officers to be armor officer at the command and staff levels.

Instruction: Lectures and practical exercises in military forces, weapons, staff support functions, leadership, motivation, organizational behavior, effective communication, maintenance and logistics.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in business organization and management (2/80); in the upper-division baccalaureate category, 1 semester hour in organizational behavior (2/80).

AR-2201-0166

Field Artillery Officer Candidate

Course Number: 2-6-F1; 6-N-F1; 6-E-19.

Location: Field Artillery School, Ft. Sill, OK; Artillery and Missile School, Ft. Sill, OK; Artillery and Guided Missile School, Ft. Sill, OK.

Length: 23 weeks (780–1085 hours).

Exhibit Dates: 7/56–Present.

Objectives: To train selected personnel to perform duties in field artillery units and staffs.

Instruction: Lectures and practical exercises to include maintenance management, communications electronics, gunnery and tactics, command and staff, air-ground operations, target acquisition, drill and ceremonies, physical training, and leadership principles.

Credit Recommendation: In the upper-division baccalaureate category, credit in advanced military science at institutions which normally offer such credit (7/74).

AR-2201-0167

Infantry Officer Candidate

Course Number: 2-7-F1; 7-N-F1; 7-E-14.

Location: Infantry School, Ft. Benning, GA.

Length: 22–23 weeks (830–1035 hours).

Exhibit Dates: 11/54–Present.

Objectives: To prepare selected personnel to become officers in the reserve components of the U.S. Army.

Instruction: Lectures and practical exercises in combined arms tactics, offensive and defensive; airborne/airmobile operations; amphibious operations; artillery operations; engineer operations; chemical, biological, and radiological operations; patrolling; personnel management; intelligence; logistics and operations; military leadership; effective oral and written communication; map and air photo reading; military justice; medical subjects; physical training; drill and command; army information program; communications/electronics; maintenance management; and army weaponry.

Credit Recommendation: In the upper-division baccalaureate category, credit in advanced military science at institutions which normally offer such credit (7/74).

AR-2201-0168

Field Artillery Officer Candidate (Reserve Component)

Course Number: 2-6-F2; 2-N-F2.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: 11 weeks (459–493 hours).

Exhibit Dates: 1/58–Present.

Objectives: To prepare personnel to qualify as second lieutenants in National Guard or Reserve field artilley units.

Instruction: Lectures and practical exercises in maintenance management, communication electronics, gunnery, tactics, map reading, military law, target acquisition, drill and ceremonies, physical training, and leadership.

Credit Recommendation: In the upper-division baccalaureate category, 3 semester hours in military science (7/74).

AR-2201-0170

Infantry Noncommissioned Officer (NCO) Candidate

Course Number: 010-11B40-I.

Location: Infantry School, Ft. Benning, GA.

Length: 12 weeks (580–656 hours).

Exhibit Dates: 7/67–Present.

Objectives: To train and qualify enlisted personnel to serve as noncommissioned officer squad leaders in the Infantry.

Instruction: Lectures and practical exercises in small unit technical offensive and defensive operations; airborne, artillery, engineer, chemical, and Air Force operations; leadership; map reading; communications; maintenance of vehicles; individual and crew-served weapons firing and employment.

Credit Recommendation: In the upper-division baccalaureate category, 6 semester hours in advanced military science (7/74).

Related Occupation Codes: 11B; 11C; 11H.

AR-2201-0171

Armor Officer Candidate

Course Number: 2-17-F1.

Location: Armor School, Ft. Knox, KY.

Length: 23 weeks (785–836 hours).

Exhibit Dates: 7/66–12/68.

Objectives: To train, qualify, and commission highly selected enlisted personnel or second lieutenants in the armor branch.

Instruction: Lectures, demonstrations, and practical exercises in armored cavalry tactical operations, artillery and engineer operations, tank and automotive maintenance, radio communication, map reading, methods of instruction, military justice, small arms, mortars, and anti-tank weapons.

Credit Recommendation: In the upper-division baccalaureate category, credit in advanced military science at institutions which normally offer such credit (7/74).

AR-2201-0172

Air Defense Artillery Automatic Weapons Officer

Course Number: 2E-F18.

Location: Air Defense School, Ft. Bliss, TX.

Length: 4–6 weeks (150–227 hours).

Exhibit Dates: 3/66–Present.

Objectives: To provide officers with a working knowledge of air defense automatic weapons, tactics, techniques, and materiels.

Instruction: Lectures and practical exercises in characteristics and operation of the twin 40-mm gun and the self-propelled .50 machinegun; small arms maintenance and repair procedures, tactics, and operations.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0174

Field Artillery Noncommissioned Officer (NCO) Candidate

Course Number: 041-13B40-I.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: 15 weeks (602 hours).

Exhibit Dates: 8/68–2/73.

Objectives: To train and qualify enlisted personnel to serve as noncommissioned officers in Field Artillery units.

Instruction: Lectures and practical exercises in artillery transport operation and maintenance, communication and electronics, gunnery, tactical operations, and map reading.

Credit Recommendation: In the upper-division baccalaureate category, 6 semester hours in advanced military science (7/74).

Related Occupation Codes: 13A; 13B; 13Z.

AR-2201-0175

Field Artillery Operations and Intelligence Assistant Skill Development Base

Course Number: 250-13E40-I.

Location: Artillery and Missile School, Ft. Sill, OK.

Length: 13 weeks (517 hours).

Exhibit Dates: 10/68–4/77.

Objectives: To qualify enlisted personnel to serve in supervisory positions as artillery operations and intelligence assistants.

Instruction: Lectures and practical exercises in artillery transportation, radio communication and electronics, basic gunnery, basic tactical operations, target acquisition and location, automotive maintenance, gun direction computers, and combat intelligence and operations.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

Related Occupation Codes: 13E; 13Z.

AR-2201-0176

Infantry Indirect Fire Crewman Noncommissioned Officer (NCO) Candidate

Course Number: 010-11C40-I.

Location: Infantry School, Ft. Benning, GA.

Length: 12 weeks (416 hours).

Exhibit Dates: 8/67–Present.

Objectives: To qualify enlisted personnel to become mortar squad and section leaders in the Infantry.

Instruction: Lectures and practical exercises in offensive and defensive combat operations; internal defense and development operations; airborne/airmobile operations; artillery operations; engineer operations; and chemical, biological, and air forces operations.

Credit Recommendation: *Version I:* Credit is not recommended because of the military specific nature of the course (7/74).

Related Occupation Codes: 11C.

AR-2201-0177

Chemical Officer Basic
(Chemical Officer Orientation)

Course Number: 5-3-C20; 3-A-C20; 3-A-C1; 3-O-A.

Location: Chemical School, Ft. McClellan, AL.

Length: 8–12 weeks (328–456 hours).

Exhibit Dates: 7/55–Present.

Objectives: To prepare newly commissioned chemical corps officers for first duty assignment.

Instruction: Lectures and practical exercises in personnel and administrative procedures, special warfare training, intelligence, physical training, smoke operations, weapons, and leadership; CBR plans, training, and operations; logistics and supply management; biological operations; chemical operations; nuclear warfare and radiological defense; CBR defense and materiel; and medical training and support.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0178

Honest John Rocket Crewman
Noncommissioned Officer (NCO)
Basic

Course Number: 042-15F40-EC.
Location: Field Artillery School, Ft. Sill, OK.
Length: 12 weeks (487 hours).
Exhibit Dates: 9/71-5/72.
Objectives: To provide selected personnel with general knowledge of the duties of an Honest John Rocket team crewman.
Instruction: Lectures and practical exercises in artillery transport operation, communications/electronics, Honest John warhead and rocket, tactics and combined arms, command and staff, nuclear employment, and leadership principles.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).
Related Occupation Codes: 15F; 15Z.

AR-2201-0179

Chemical Equipment Repair
Supervison

Course Number: 3-R-533.7; 3-E-14.
Location: Chemical Corps School, Ft. McClellan, AL.
Length: 3 weeks (107-120 hours).
Exhibit Dates: 6/56-12/68.
Objectives: To train enlisted personnel to supervise the inspection, maintenance, and repair of chemical equipment.
Instruction: Lectures and practical exercises in maintenance and repair of smoke generators, gas masks, and flame throwers; personnel management; maintenance of decontamination equipment; basic shop management; and supply procedures.
Credit Recommendation: Credit is not recommended because of the limited technical nature of the course (5/74).

AR-2201-0180

Powered Bridge Operator

Course Number: 250-12D20.
Location: Engineer School, Ft. Belvoir, VA.
Length: 4 weeks (153 hours).
Exhibit Dates: 1/70-Present.
Objectives: To train personnel in the operation of the mobile assault bridge.
Instruction: Practical exercises and conferences to include units on powered bridge operations limited to specialized areas of maintenance and operation.
Credit Recommendation: In the vocational certificate category, 1 semester hour as a technical elective (7/74); in the lower-division baccalaureate/associate degree category, 1 semester hour as a technical elective (7/74).
Related Occupation Codes: 12A; 12D.

AR-2201-0181

Maneuver Combat Arms—Infantry (11
CMF) Noncommissioned Officer
(NCO) Advanced
(Infantry Armor (IA-CMF) NCO Advanced)

Course Number: 0-111-C42; 0-IA-C42A.
Location: Infantry School, Ft. Benning, GA.
Length: 10-12 weeks (379-466 hours).
Exhibit Dates: 11/72-Present.
Objectives: To provide middle-grade enlisted personnel with sufficient knowledge to perform infantry armor military duties.
Instruction: Lectures and practical exercises to include tactical doctrine; fundamentals of combat in built-up areas; stability operations in insurgent areas; engineer operations; intelligence and logistics; general management; map and airphoto reading; military leadership; physical training and combatives; communications/electronics; crew served weapons; and personnel.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0182

Branch Immaterial Officer Candidate

Course Number: 2-7-F1.
Location: Infantry School, Ft. Benning, GA.
Length: 14 weeks (510-518 hours).
Exhibit Dates: 5/73-Present.
Objectives: To prepare selected personnel for branch officer basic course training.
Instruction: Lectures and practical exercises in combined arms tactics; general subjects, including personnel, intelligence, logistics, map and airphoto reading, physical training, and military leadership; communications/electronics; unit/materiel readiness; and weapons.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).

AR-2201-0183

Combat Surveillance and Target
Acquisition NCO Advanced
(Combat Surveillance and Target Acquisition (SA-CMF) NCO Advanced)
(Combat Surveillance and Target Acquisition NCO Advanced)

Course Number: 2-17-C42; 2-SA-C42; 221-17Z50-EC.
Location: Field Artillery School, Ft. Sill, OK.
Length: 7-12 weeks (211-431 hours).
Exhibit Dates: 8/72-Present.
Objectives: To provide enlisted personnel with knowledge to perform in combat surveillance and target aquisition units.
Instruction: Lectures and practical exercises in field artillery subjects and general Army subjects, including military correspondence; map reading; military operations; nuclear weapons effects; unit tactics; leadership principles; military law; military security; and personnel management.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).
Related Occupation Codes: 17B; 17C; 17D; 17E; 17K; 17L; 17Z; 82C; 93F.

AR-2201-0184

Infantry Armor (IA-CMF)
Noncommissioned Officer (NCO)
Advanced

Course Number: 0-IA-C42B.
Location: Armor School, Ft. Knox, KY.
Length: 10-12 weeks (300-392 hours).
Exhibit Dates: *Version 1:* 1/80-Present. *Version 2:* 5/73-12/79.
Objectives: To provide senior noncommissioned officers with a general working knowledge of infantry armor operations.
Instruction: *Version 1:* Lectures and practical exercises in tactical training, gunnery training methods and techniques, leadership skills to include communication both written and oral. *Version 2:* Lectures and practical exercises in automotive management; command and staff functions; tactical operations; internal defense and development; communications and electronics; and leadership and administration.
Credit Recommendation: *Version 1:* In the lower-division baccalaureate/associate degree category, 1 semester hour in military science/basic supervision at the associate degree level (technical) (2/80). *Version 2:* Credit is not recommended because of the military specific nature of the course (7/74).
Related Occupation Codes: 11D; 11E; 11J.

AR-2201-0185

Field Artillery Missiles/Rockets
Noncommissioned Officer (NCO)
Basic

Course Number: 043-15B40-EC; 043-15E40-EC; 043-15F40-EC.
Location: Field Artillery School, Ft. Sill, OK.
Length: 9-12 weeks (375-400 hours).
Exhibit Dates: 6/72-Present.
Objectives: To train middle-level enlisted personnel to assume the duties of noncommissioned officer missilemen.
Instruction: Lectures and practical exercises in the weapons system, firing operations, controls, maintenance, loading, safety, and employment of the Honest John rocket, the Pershing missile, or the Sergeant missile.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).
Related Occupation Codes: 15B; 15E; 15F; 15Z.

AR-2201-0186

Combat Surveillance and Target
Acquisition Noncommissioned
Officer (NCO) Basic

Course Number: 412-17C40-EC; 412-82C40-EC.
Location: Field Artillery School, Ft. Sill, OK.
Length: 10-12 weeks (322-378 hours).
Exhibit Dates: 6/72-Present.
Objectives: To train enlisted personnel to serve as noncommissioned supervisors in combat surveillance and target acquisition positions.
Instruction: Lectures and practical exercises in surveillance and location of targets leading to specialization as one of the following: counterbattery/countermortar radar crewman; sound ranging crewman; flash ranging crewman; field illumination crewman; artillery surveyor; meteorological observer; or ballistic meteorologist.
Credit Recommendation: Credit is not recommended because of the military specific nature of the course (7/74).
Related Occupation Codes: 17A; 17B; 17C; 17D; 17E; 17Z; 82C; 93E; 93F; 35D.

AR-2201-0187

Nuclear and Chemical Target
Analysis
(Nuclear, Biological, and Chemical (NBC) Weapons Target Analysis)
(Nuclear, Biological, and Chemical (NBC) Weapons Employment)
(Nuclear Weapons Employment)

Course Number: *Version 1:* 2E-ASI5H. *Version 2:* 2E-F13; 6-A-F26; 250-A-F1; 250-O-8.
Location: *All Versions:* Field Artillery School, Ft. Sill, OK. *Version 2:* Command and General Staff College, Ft. Leavenworth, KS.
Length: *Version 1:* 3-5 self paced weeks (Ft. Leavenworth, KS hours). *Version 2:* 3-5 weeks (115-175 hours).
Exhibit Dates: *Version 1:* 1/79-115-175. *Version 2:* 9/57-Present; 9/57-12/78.

Objectives: To provide officers with a knowledge of the considerations, techniques, and procedures required for the tactical employment of nuclear and chemical weapons.

Instruction: *All Versions:* Lectures and practical exercises in the fundamental effects of nuclear weapons; damage estimation and target analysis; chemical weapons employment and the tactical application of nuclear and chemical weapons; nuclear and chemical trends and developments; and foreign nuclear, biological, and chemical capabilities. *Version 1:* Includes math formulas, nomograms, semi logorithmic graphs, circular map scales, slide rule and probability statistics.

Credit Recommendation: *Version 1:* In the vocational certificate category, 1 semester hour in general mathematics, 1 in nuclear explosion effects and damage estimation concepts; In the lower-division baccalaureate/associate degree category, 3 semester hours in nuclear technology (1/80); in the upper-division baccalaureate category, 2 semester hours in technical elective for non-engineering majors (1/80). *Version 2:* Credit is not recommended because of the military specific nature of the course (6/75).

AR-2201-0188

Associate Army Medical Service Company Officer

Course Number: 8-B-C3; 8-O-2.

Location: Medical Field Service School, Ft. Sam Houston, TX.

Length: 15 weeks (526-527 hours).

Exhibit Dates: 9/55-12/68.

Objectives: To provide command and staff training to company grade medical service officers.

Instruction: Instruction in company-level organization and administrative procedures including financial management; medical supply; hospital plant planning and maintenance; military law; records and legal aspects of civil emergencies; dental services; field medicine; preventive medicine; and veterinary science.

Credit Recommendation: In the upper-division baccalaureate category, 6 semester hours in advanced military science and 3 in business administration (6/75).

AR-2201-0189

Lance Officer

Course Number: 2F-13B; 2F-1190L.

Location: Field Artillery School, Ft. Sill, OK.

Length: 5 weeks (148-165 hours).

Exhibit Dates: 6/74-Present.

Objectives: To provide selected officers with a working knowledge of the operation, maintenance, and employment of the Lance missile system.

Instruction: Lectures and practical experience in the capabilities and limitations of the missile system; basic physics of flight; basic components; fire direction procedures; nuclear warhead selection and tactical employment; missile assembly, handling, loading, and maintenance; and gunnery.

Credit Recommendation: In the vocational certificate category, 3 semester hours in shop management (6/75); in the lower-division baccalaureate/associate degree category, 1 semester hour in shop management (6/75).

AR-2201-0190

Tactical Electronic Equipment Maintenance (EE-CMF) Noncommissioned Officer (NCO) Advanced

Course Number: 1-EE-C42A.

Location: Southeastern Signal School, Ft. Gordon, GA; Signal School, Ft. Gordon, GA.

Length: 10-12 weeks (369-449 hours).

Exhibit Dates: 1/74-Present.

Objectives: To provide selected enlisted personnel with a working knowledge of the duties required to perform as senior noncommissioned officers.

Instruction: Topics include advanced educational development, personnel management, military correspondence, unit administration, unit logistics, problem solving, and management of a maintenance facility.

Credit Recommendation: Credit is not recommended because of the military specific nature of the course (6/75).

AR-2201-0191

Artillery Officer Basic

Course Number: 44-A-C1C; 6-A-C1C.

Location: Artillery and Missile School, Ft. Sill, OK; Air Defense School, Ft. Bliss, TX.

Length: 20 weeks (675-706 hours).

Exhibit Dates: 4/58-12/61.

Objectives: To provide newly commissioned regular Army officers with basic branch training in field artillery.

Instruction: Lectures and practical exercises in artillery transport, communications and electronics; missiles and missile materials; gunnery, cannons and rockets; tactics; and target acquisition.

Credit Recommendation: In the upper-division baccalaureate category, credit in advanced military science at institutions which normally offer such credit (7/74).

AR-2201-0192

Infantry Officer Basic

(Basic Infantry Officer)

Course Number: 2-7-C20; 7-A-C1.

Location: Infantry School, Ft. Benning, GA.

Length: 9-15 weeks (383-595 hours).

Exhibit Dates: 6/57-Present.

Objectives: To train newly commissioned officers in the duties and responsibilities of infantry platoon leaders in rifle and weapons platoons.

Instruction: Lectures and practical exercises in mechanical training and employment of infantry weapons to include rifles, machine guns, grenades, pistols, mortars, and tank weapons; infantry small unit tactics; signal communication; map and aerial photograph reading; combat intelligence, and leadership.

Credit Recommendation: In the upper-division baccalaureate category, credit in advanced military science at institutions which normally offer such credit (7/74).

AR-2201-0193

Field Artillery Officer Basic

(Regular Army Field Artillery Officer Basic)

(Field Artillery Officer Orientation)

Course Number: 2-6-C20; 2-6-C20(RA); 6-A-C20; 6-A-C1; 6-O-A.

Location: Field Artillery School, Ft. Sill, OK; Artillery and Missile School, Ft. Sill, OK.

Length: *Version 1:* 10 weeks (225-739 hours). *Version 2:* 6-17 weeks (225-739 hours).

Exhibit Dates: *Version 1:* 6/77-Present. *Version 2:* 8/55-5/77.

Objectives: *Version 1:* To prepare Field Artillery officers to function in their first duty assignments in the areas of training and maintenance management, leadership, fire direction techniques and coordination of artillery firing. *Version 2:* To prepare Field Artillery officers to function in their first duty assignments.

Instruction: *Version 1:* Instruction includes maintenance management, leadership, communications equipment; precision techniques in gunnery, both manual and FADAC computer; meteorological effects and computations, map and terrain association, survey procedures; artillery fire coordination and tactics. The course does not cover detailed specialties of cannon, missiles or target acquisition. The student takes a follow-up course of 9 weeks duration, in one of the 3 listed areas. *Version 2:* Instruction includes maintenance management, technical communications, and general military subjects.

Credit Recommendation: *Version 1:* In the vocational certificate category, 2 semester hours in applied mathematics (4/80); in the lower-division baccalaureate/associate degree category, 1 semester hour in basic mathematics, 1 in electronic communications systems (4/80); in the upper-division baccalaureate category, 2 semester hours in introduction to management and credit in advanced military science at institutions which normally offer such credit (4/80). *Version 2:* In the upper-division baccalaureate category, credit in advanced military science at institutions which normally offer such credit (6/75).

Related Occupation Codes: 11B; 11C.

AR-2201-0194

Non-Integrated Radar Maintenance (26-CMF) Noncommissioned Officer (NCO) Basic

Course Number: 1-26-C40A.

Location: Air Defense School, Ft. Bliss, TX.

Length: 8 weeks (297 hours).

Exhibit Dates: 12/75-7/76.

Objectives: This course provides selected enlisted personnel with a knowledge of those duties required to perform as a noncommissioned officer in grade E-6.

Instruction: Instruction in air defense management, artillery operations and tactics, and field training exercises.

Credit Recommendation: Credit is not recommended because of the limited specialized nature of the course (8/77).

Related Occupation Codes: 24P.

AR-2201-0195

Air Defense Missile Maintenance (23-CMF) Noncommissioned Officer (NCO) Basic

Course Number: 1-23-C40A.

Location: Air Defense School, Ft. Bliss, TX.

Length: 8 weeks (296-306 hours).

Exhibit Dates: 12/75-Present.

Objectives: To provide selected personnel with leadership training and general support information on advanced missile systems.

Instruction: Course includes principles of communication, oral and written; leadership training; personnel management; and operations overview of Nike, Hercules, and Hawk missile systems.

Credit Recommendation: Credit is not recommended because of the limited specialized nature of the course (8/77).

AR-2201-0196

Combat Missile Maintenance (27-CMF) Noncommissioned Officer (NCO) Advanced (USAADS)
(Air Defense Artillery (27-CMF) Noncommissioned Officer (NCO) Advanced (USAADS))

Course Number: None.

Location: Air Defense School, Ft. Bliss, TX.

Length: 10 weeks (366 hours).

Exhibit Dates: 10/76–Present.

Objectives: Course provides selected personnel with knowledge of duties required to perform in grade E-7 within this career management field.

Instruction: Course includes military management, communicative skills, military leadership and physical readiness, and general air defense topics. Content is military in nature.

Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (8/77).

Related Occupation Codes: 24M; 24N.

AR-2201-0197

Basic Military Training
(Recruit Training)

Course Number: None.

Location: Training Center, Ft. Benning, GA; Training Center, Ft. Gordon, GA; Training Center, Ft. McClellan, AL; Training Center, Ft. Jackson, SC; Training Center, Ft. Dix, NJ; Training Center, Ft. Knox, KY; Training Center, Ft. Leonard Wood, MO; Training Center, Ft. Sill, OK; Training Center, Ft. Bliss, TX.

Length: 8-11 weeks (245 hours).

Exhibit Dates: 12/79–Present.

Objectives: To provide training for all enlisted personnel who have had no previous military service.

Instruction: Course teaches discipline, spirit and basic combat skills and includes drills, ceremonies, alcohol and drug abuse, rape prevention, personal health, first aid, personal affairs, basic rifle marksmanship, NBC warfare defense, introduction to individual tactical techniques, U.S. weapons training, marches, bivouacs, tactical training, physical fitness training, reinforcement, and equal opportunity.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 1 semester hour in outdoor skills practicum, 1 in marksmanship, 1 in personal health, and 1 in personal physical conditioning (9/79).

AR-2201-0198

Voice Operator Mission Training (German)

Course Number: 231-F14.

Location: Intelligence School, Ft. Devens, MA.

Length: 4 weeks (118 hours).

Exhibit Dates: 5/76–Present.

Objectives: To train voice operators to exploit and immediately report combat information.

Instruction: Topics include extracts of traffic analysis, artillery, rocket launchers, and voice signal identification.

Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (9/77).

Related Occupation Codes: 98G.

AR-2201-0199

Army Security Agency Tactical Support Element
(ASTE Operations)

Course Number: 2G-F17.

Location: Intelligence School, Ft. Devens, MA.

Length: 4 weeks (152 hours).

Exhibit Dates: 4/75–Present.

Objectives: To prepare officers to work in the Army Security Agency (ASA) Tactical Support Element.

Instruction: Topics include concepts of electronic warfare, intelligence processing, and electronic countermeasures.

Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (9/77).

AR-2201-0200

Mission Training Analysis (Area 1)

Course Number: 232-F2.

Location: Intelligence School, Ft. Devens, MA.

Length: 4 weeks (118 hours).

Exhibit Dates: 1/76–Present.

Objectives: To provide soldiers with training in the traffic analysis techniques and procedures required to process and report on Southeast Asian communications.

Instruction: Topics include signal intelligence reporting, Southeast Asian communications systems and operations, and an introduction to Southeast Asia.

Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (9/77).

Related Occupation Codes: 98C.

AR-2201-0201

Mission Training Analysis (Area 2)

Course Number: 232-F3.

Location: Intelligence School, Ft. Devens, MA.

Length: 4 weeks (121 hours).

Exhibit Dates: 2/76–Present.

Objectives: To train personnel in the traffic analysis techniques and procedures required to process and report on European Communist communications.

Instruction: Instruction to Soviet military communications, Soviet rocket operations, and Soviet defense plans.

Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (9/77).

Related Occupation Codes: 98C.

AR-2201-0202

Mission Training Analysis (Area 3)

Course Number: 232-F4.

Location: Intelligence School, Ft. Devens, MA.

Length: 4 weeks (124 hours).

Exhibit Dates: 2/76–Present.

Objectives: To train soldiers in the traffic analysis techniques and procedures required to process and report on Pacific communications.

Instruction: Topics include signal intelligence reporting, Peoples Republic of China communications systems, and an introduction to the Peoples Republic of China.

Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (9/77).

Related Occupation Codes: 98C.

AR-2201-0203

Telemetry Collection Operations
(Space Collection (SPACOL) Operations)

Course Number: 233-F7.

Location: Intelligence School, Ft. Devens, MA.

Length: 6 weeks (168 hours).

Exhibit Dates: 7/75–Present.

Objectives: Course teaches annex operator training for military occupational specialty (MOS) 98J personnel being assigned to space collection operations.

Instruction: Topics include intercept equipment, satellite plotting, and report format.

Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (9/77).

AR-2201-0204

General Electronic Warfare (EW) Cryptologic Officer (Reserve Component) Nonresident/Resident

Course Number: 3B-9600 (RC).

Location: Intelligence School, Ft. Devens, MA.

Length: In residence 2 weeks (66 hours).

Exhibit Dates: 11/75–Present.

Objectives: To train reserve officers to perform electronic warfare cryptologic duties.

Instruction: Instruction in foreign communication systems, U.S. communications systems, and associated field communications systems.

Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (9/77).

AR-2201-0205

Guardrail IV System Maintenance

Course Number: 102-F34.

Location: Intelligence School, Ft. Devens, MA.

Length: 7 weeks (164 hours).

Exhibit Dates: 9/75–Present.

Objectives: To train students to maintain selected assemblies of the Guardrail IV system.

Instruction: Course contains information on maintenance of a specific military system.

Credit Recommendation: Credit is not recommended because of the limited specialized nature of the course (9/77).

AR-2201-0206

Advanced Identification Techniques Operations

Course Number: 231-F7.

Location: Intelligence School, Ft. Devens, MA.

Length: 5 weeks (146 hours).

Exhibit Dates: 5/74–Present.

Objectives: To train personnel in advanced identification techniques.

Instruction: Course trains the operator in advanced identification techniques, equipment calibration and operation, transmitter characteristics, and records and reports.

Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (9/77).

AR-2201-0207

Voice Operator Mission Training No. 1 (Russian)

Course Number: 231-F12.
Location: Intelligence School, Ft. Devens, MA.
Length: 4 weeks (118 hours).
Exhibit Dates: 1/76–Present.
Objectives: To train the voice operator to exploit and immediately report combat information.
Instruction: Topics include military organization, artillery, rocket launchers, and identification of voice signals.
Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (9/77).
Related Occupation Codes: 98G.

AR-2201-0208

Electronic Warfare (EW) Countermeasures Receiving Systems Operations
(Electronic Warfare (EW) Countermeasures Receiving System Operator)

Course Number: 233-F5.
Location: Intelligence School, Ft. Devens, MA.
Length: 5 weeks (141 hours).
Exhibit Dates: 4/73–Present.
Objectives: To train students to intercept, log, record, and report communications signals.
Instruction: Topics include tactical reporting, equipment, and practical exercises.
Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (9/77).

AR-2201-0209

Electronic Warfare (EW) Noncommunication Interceptor-Analyst Basic Technical

Course Number: 232-98J30.
Location: Intelligence School, Ft. Devens, MA.
Length: 12 weeks (370–380 hours).
Exhibit Dates: 4/77–Present.
Objectives: Course prepares electronic warfare signal intelligence noncommunications interceptor-analysts to supervise noncommunications collection and analysis operations.
Instruction: Topics include threat assessment, map reading, field operations, and components of electronic warfare.
Credit Recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in maintenance management and supervision (9/77).
Related Occupation Codes: 98J.

AR-2201-0211

Combat Missile Mechanic (271-CMF) NCO Basic

Course Number: C-271-C40.
Location: Air Defense School, Ft. Bliss, TX.
Length: 8 weeks (294–298 hours).
Exhibit Dates: 12/75–7/76.
Objectives: This course provides selected enlisted personnel with a knowledge of those duties required to perform as noncommissioned officers in grade E-6.
Instruction: Course includes military leadership, general military subjects, and air defense artillery topics.
Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (8/77).
Related Occupation Codes: 24M; 24N.

AR-2201-0212

Warrant Officer Candidate Military Development

Course Number: 2C-F32.
Location: Aviation Center, Ft. Rucker, AL.
Length: 6 weeks (220 hours).
Exhibit Dates: 8/77–Present.
Objectives: To develop stamina, will, leadership, physical conditioning and future potential in military setting.
Instruction: Military subjects covered include communicative arts, military personnel management, maintenance management, strategy, and warrant officer development subjects.
Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (10/78).
Related Occupation Codes: 10/78.

AR-2201-0213

Field Artillery Cannon (FA-CMF) Noncommissioned Officer (NCO) Advanced

Course Number: 0-13-C42.
Location: Field Artillery School, Ft. Sill, OK.
Length: *Version 1:* 8–11 weeks (277–402 hours). *Version 2:* 10–12 weeks (359–363 hours).
Exhibit Dates: *Version 1:* 8/78–Present. *Version 2:* 7/73–6/77.
Objectives: To train the noncommissioned officer to be an exporter of modern battlefield tactics, techniques and procedures to the gaining unit.
Instruction: *All Versions:* Subjects include target acquisition, communications electronics, tactics and combined arms, weapons, gunnery and field artillery. *Version 1:* Leadership training and supervision skills are emphasized for all students. Map reading and plotting to determine azimuth and elevation are emphasized for those students having MOS 13B and 13E.
Credit Recommendation: *Version 1:* In the lower-division baccalaureate/associate degree category, For all students completing the course, 2 semester hours in leadership fundamentals; for those students holding MOS 13B and 13E, 1 semester hour in map reading. *Version 2:* Credit is not recommended because of the military specific nature of the course (11/77).
Related Occupation Codes: 13B; 13E; 13Z.

AR-2201-0214

Master Gunner (M551)

Course Number: 020-F2.
Location: Armor School, Ft. Knox, KY.
Length: 12 weeks (448 hours).
Exhibit Dates: 3/76–Present.
Objectives: To prepare students to assist squadron and troop commanders in the planning and implementation of tank gunnery training programs.
Instruction: Subjects covered include weapons maintenance and gunnery, automotive subjects and leadership areas.
Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (11/77).

AR-2201-0215

Master Gunner (M60A2)

Course Number: 020-F3.
Location: Armor School, Ft. Knox, KY.
Length: 14 weeks (522 hours).
Exhibit Dates: 5/77–Present.
Objectives: To prepare highly selected noncommissioned officers to assist tank company/battalion commanders in the planning and implementation of tank gunnery training programs.
Instruction: Subjects include gunnery, maintenance, target acquisition, conduct of fire, tank tables, range management and organizational maintenance required on the M60A2 turret and weapon systems.
Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (11/77).

AR-2201-0216

Master Gunner (M60A1/A3)

Course Number: 020-F1.
Location: Armor School, Ft. Knox, KY.
Length: 12 weeks (448 hours).
Exhibit Dates: 2/76–Present.
Objectives: To prepare highly selected noncommissioned officers to assist tank company/battalion commanders in the planning and implementation of tank gunnery training programs.
Instruction: Subjects include gun elevating and turret traversing systems, use of firing tables, tank tables, conduct of fire (advanced) and stabilization systems.
Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (11/77).

AR-2201-0217

Senior Commanders Orientation

Course Number: None.
Location: Armor School, Ft. Knox, KY.
Length: 2 weeks (83 hours).
Exhibit Dates: 5/75–Present.
Objectives: To provide commanders an orientation to contemporary management and personnel problems found in the Army.
Instruction: Lectures, seminars and role-playing skits dealing with contemporary problems, developing leadership, and behavioral science with an emphasis on racial tensions, drug abuse and alcoholism.
Credit Recommendation: In the upper-division baccalaureate category, 2 semester hours in military science. NOTE: If student has completed 8A-F23 Senior Officer Preventative Logistics, additional credit for this course should not be granted (2/80).

AR-2201-0218

Special Career Level Artillery Advanced Gunnery (USMC)

Course Number: 2E-F49.
Location: Field Artillery School, Ft. Sill, OK.
Length: 4 weeks (140 hours).
Exhibit Dates: 5/75–Present.
Objectives: To provide commissioned officers with supervisory skills required of a battalion instructional officer or battery commander.
Instruction: A survey course covering all operations required for directing fire of cannon using both manual and computer assisted techniques.
Credit Recommendation: Credit is not recommended due to the military-specific nature of the course (1/80).

AR-2201-0219

Field Artillery Cannon Battery Officer

Course Number: 2E-13A.
Location: Field Artillery School, Ft. Sill, OK.

Length: 8 weeks (320 hours).
Exhibit Dates: 10/75–Present.
Objectives: To train officers in the techniques, processes and procedures and to provide the background knowledge necessary for functioning in a cannon-equipped unit.
Instruction: Lectures and practical exercises in communications equipment, weapons characteristics, and capabilities, tactics, nuclear projectiles and safety, survey concepts, and FADAC computer use in mathematical solutions. Major emphasis is in gunnery fire techniques including ballistic corrections, high angle trajectory and special employment techniques.
Credit Recommendation: Credit is recommended on the basis of institutional evaluation (1/80).

AR-2201-0220

LANCE MISSILE CREWMAN

Course Number: 043-15D10.
Location: Field Artillery School, Ft. Sill, OK.
Length: 5 weeks (171 hours).
Exhibit Dates: 2/79–Present.
Objectives: To provide students with the knowledge and duties required to perform as a Lance Missile crewman.
Instruction: Training emphasizes hands-on experience in the assembly and transportation, aiming, operating and daily preventative maintenance of the Lance Missile system.
Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (1/80).

AR-2201-0221

CIVIL MILITARY OPERATIONS

Course Number: 4N-2180; 500-F3.
Location: Institute for Military Assistance, Ft. Bragg, NC.
Length: 2 weeks (72 hours).
Exhibit Dates: 7/75–Present.
Objectives: Prepares officers and noncommissioned officers for general staff assignments invaluing civil-military operations.
Instruction: Lectures, conferences and practical exercises in military/civil operations in three broad areas—civil affairs including government functions to be assumed by military personnel such as safety, health and civil defense; psychological warfare including use of persuasive techniques in communicating policy to indigenous groups and civil/military operations including planning for and managing civilian populations to either support or tolerate military actions.

AR-2201-0222

MILITARY FREE FALL PARACHUSTIST
(Special Forces Military Free Fall Parachutist)

Course Number: 2E-F48; 011-F11.
Location: Institute for Military Assistance, Ft. Bragg, NC.
Length: 4 weeks (172–191 hours).
Exhibit Dates: 12/76–Present.
Objectives: To qualify male commissioned officers and enlisted men as military free-fall parachutists.
Instruction: Practical exercises in executing free-fall parachute jumps commencing at 12,500 feet actual, progressing to 35,000 feet actual, to demonstrate competency. Includes practice in body stabilization and use of canopy control techniques after parachute deployment to assemble in the air and land with fellow parachutists in a tactical grouping.
Credit Recommendation: Credit is not recommended because of the military-specific nature of the course (8/77).
Related Occupation Codes: 11B; 11C; 12B; 91B; 05B.

AR-2201-0223

INFANTRY OFFICER ADVANCED RESERVE COMPONENTS

Course Number: 2-7-C26.
Location: Infantry School, Ft. Benning, GA.
Length: 12 weeks (396–397 hours).
Exhibit Dates: 5/78–Present.
Objectives: To prepare commissioned officers to train and command at company level.
Instruction: Course includes combined arms tactcs, staff and general subjects, weapons, and unit/materiel readiness.
Credit Recommendation: Pending evaluation.

AR-2201-0224

PRIMARY LEADERSHIP (SIGNAL) BY CORRESPONDENCE

Course Number: R04.
Location: Institute for Professional Development, Ft. Eustis, VA.
Length: Maximum 104 weeks (Ft. Eustis, VA hours).
Exhibit Dates: 12/79–Present.
Objectives: To provide a working knowledge of and the skills for performance of basic leadership tasks.
Instruction: The course presents instruction in various leadership tasks necessary for enlisted personnel to advance with their individual career programs.
Credit Recommendation: Credit is not recommended because of the limited nature of the course (5/79).

DD

DD-0326-0001

ARMED FORCES STAFF COLLEGE

Course Number: None.
Location: Armed Forces Staff College, Norfolk, VA.
Length: *Version 1:* 21 weeks (634 hours). *Version 2 :* 21 weeks (548–642 hours).
Exhibit Dates: *Version 1:* 6/73–Present. *Version 2:* 7/54–5/73.
Objectives: To train officers in joint and combined military organization, planning, and operations, and in related aspects of national and international security.
Instruction: Lectures, readings, and student research and discussions in joint and combined military organization, planning, and operations, and in related aspects of national and international security.

Newspaper Editor

Course Number: 570-F2; A-570-0013; 5AZA79150.

Location: Defense Information School, Ft. Benjamin Harrison, IN.

Length: 3 weeks (118–132 hours).

Exhibit Dates: 7/68–Present.

Objectives: To provide additional print journalism instruction to personnel assigned as editors of military newspapers and magazines.

Instruction: Beginning in 1976, course becomes a highly individualized, self-paced program consisting of pretest, group-paced, self-paced, final performance test and newspaper improvement project. Subject areas include photojournalism, print journalism and public affairs. Lectures and practical experience cover all phases of newspaper production, culminating with a 4-page service newspaper or, beginning in 1976, a tabloid size page of a hypothetical military newspaper. Workshop includes communications law, Department of Defense policy on release of information, newsgathering, writing, editing, style, deadlines, photo selection and editing, and layout and page makeup.

Credit Recommendation: In the upper-division baccalaureate category, 2 semester hours in newspaper production (journalsim) (2/78).

DD-0504-0004

Information Enlisted
(Information Specialist)

Course Number: 28-E-1; 28-R-701.1; 28-R-703.1; 28-R-703.2.

Location: Defense Information School, Ft. Benjamin Harrison, IN; Defense Information School, Ft. Slocum, NY.

Length: 8–10 weeks (278–345 hours).

Exhibit Dates: 11/56–12/68.

Objectives: To provide enlisted personnel with a working knowledge in the selection, evaluation, preparation, and dissemination of Army information through available media of communications.

Instruction: Policy and plans, including public relations philosophy and practice, and information aspects of unusual incidents, stressing the case-study approach; applied journalism, with performance skills in all tasks required to publish a service newspaper; research communications, stressing preparation of the information specialist for public speaking, speech writing, briefings, and group discussions; radio and television, including training in writing, announcing, and production staff functions; internal relations and government, stressing the U.S. international position in terms of world patterns.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in mass media (12/73); in the upper-division baccalaureate category, 2 semester hours in social studies, 1 in oral communications, and credit in journalism on the basis of institutional evaluation (12/68).

DD-0504-0005

Troop Information and Education Enlisted

Course Number: 28-E-1.

Location: Defense Information School, Ft. Slocum, NY.

Length: 8 weeks (352 hours).

Exhibit Dates: 4/54–12/68.

Objectives: To train enlisted personnel to assist in the organization, operation, and supervision of troop information and education programs.

Instruction: Policies and operational procedures; speech preparation and presentation; discussion-leading techniques; organization of group study activities; testing procedures; advisement principles; practical exercises in newsgathering and newswriting; troop information radio broadcasting; comprehensive study of citizenship, history, government, and international affairs; fundamentals of typewriting.

Credit Recommendation: In the vocational certificate category, 2 semester hours in social studies, 1 in mass communications (12/73); in the lower-division baccalaureate/associate degree category, 2 semester hours in social studies, 1 in mass communications (12/73); in the upper-division baccalaureate category, 2 semester hours in social studies, 1 in oral communications (12/68).

DD-0504-0006

Troop Information and Education Officer

Course Number: 28-O-6.

Location: Defense Information School, Ft. Slocum, NY.

Length: 8 weeks (352–360 hours).

Exhibit Dates: 5/54–12/68.

Objectives: To train officers to supervise instruction periods and other activities of the Army's troop information and education programs.

Instruction: Policies and procedures; speech preparation and presentation; discussion-leading techniques; organization of group study activities; instructor selection; testing procedures; advisement principles; practical exercises in newsgathering and newswriting; troop information radio broadcasting; comprehensive study of citizenship, history, government, and international affairs.

Credit Recommendation: In the vocational certificate category, 2 semester hours in social studies, 1 in journalism (12/73); in the lower-division baccalaureate/associate degree category, 2 semester hours in social studies, 1 in journalism (12/73); in the upper-division baccalaureate category, 2 semester hours in social studies, 1 in journalism (12/68).

DD-0504-0007

Public Information Officer

Course Number: 28-O-5.

Location: Information School, Ft. Slocum, NY.

Length: 8 weeks (360 hours).

Exhibit Dates: 5/54–12/68.

Objectives: To train officers to perform and/or supervise the preparation of news stories, special articles, posters, photographs, radio and television programs, and other informational material for release to information media; to establish speakers bureaus; and to promote friendly relations with information media representatives and civilian communities.

Instruction: Policies and procedures; speech preparation and presentation; public speaking exercises; use of visual-mechanical aids; basic photographic techniques, including camera operation, film processing, photo printing, picture selection, film types and exposures, and picture story assignments; civilian press operation, organization, and philosophy; newswriting; preparation of material for radio and television broadcasts; citizenship, history, government, and international affairs.

Credit Recommendation: In the vocational certificate category, 2 semester hours in social studies, 1 in mass media (12/73); in the lower-division baccalaureate/associate degree category, 2 semester hours in social studies, 1 in mass media (12/73); in the upper-division baccalaureate category, 2 semester hours in social studies, 1 in oral communications (12/68).

DD-0504-0008

Public Information Enlisted

Course Number: 28-E-2.

Location: Information School, Ft. Slocum, NY.

Length: 8 weeks (360 hours).

Exhibit Dates: 4/54–12/68.

Objectives: To train enlisted personnel to collect, prepare, and disseminate information to newspapers, magazines, radio, television, and other informational media, and to assist in promotion of other public relations activities.

Instruction: Policies and procedures; speech preparation and presentation; public speaking exercises; use of visual-mechanical aids; basic photographic techniques, including camera operation, film processing, photo printing, picture selection, film types and exposures, and picture story assignments; civilian press operation, organization, and philosophy; newswriting and related activities; preparation of material for radio and television broadcasts; citizenship, government, history, and international affairs; typing.

Credit Recommendation: In the vocational certificate category, 2 semester hours in social studies, 1 in mass media (12/73); in the lower-division baccalaureate/associate degree category, 2 semester hours in social studies, 1 in mass media (12/73); in the upper-division baccalaureate category, 2 semester hours in social studies, 1 in oral communications (12/68).

(Danish)
(French)
(German)
(Greek)
(Hungarian)
(Italian)
(Japanese)
(Korean)
(Norwegian)
(Persian)
(Polish)
(Portuguese)
(Romanian)
(Russian)
(Serbo-Croatian)
(Spanish)
(Swedish)
(Turkish)

Course Number: None.

Location: Army Language School, Presidio of Monterey, CA.

Length: 23–46 weeks.

Exhibit Dates: 1/54–12/56.

Objectives: To train officers and enlisted personnel in the interpretation or translation of a foreign language, and to provide basic military, geographic, economic, historical, and political information about the country or area in which the language is spoken. (These area studies are taught in the foreign language.)

Instruction: Lectures, discussions, and oral drills on the language of a foreign country and basic military, geographic, economic, historical, and political information about the country in which the language is spoken. While these courses are listed as Basic, it should be understood that this is the terminology used by the armed forces to indicate that the courses are their 'regular' programs in the various languages. They are not limited to what most civilian institutions would term beginning or basic courses in a language.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, extending into the upper-division baccalaureate category, 18 semester hours in ALBANIAN for the 46-week course; 18 in ARABIC for the 46-week course; 18 in BULGARIAN for the 46-week course; 26 in CHINESE—CANTONESE for the 46-week course; 26 in CHINESE—MANDARIN for the 46-week course; 18 in CZECH for the 46-week course; 15 in DANISH for the 23-week course; 15 in FRENCH for the 23-week course; 15 in GERMAN for the 23-week course; 18 in GREEK for the 46-week course; 18 in HUNGARIAN for the 46-week course; 15 in ITALIAN for the 23-week course; 26 in JAPANESE for the 46-week course; 18 in KOREAN for the 46-week course; 15 in NORWEGIAN for the 23-week course; 18 in PERSIAN for the 46-week course; 18 in POLISH for the 46-week course; 15 in PORTUGUESE for the 23-week course; 18 in ROMANIAN for the 36-week course; 18 in RUSSIAN for the 46-week course; 18 in SERBO-CROATIAN for the 46-week course; 15 in SPANISH for the 23-week course; 15 in SWEDISH for the 23-week course; 18 in TURKISH for the 46-week course (8/74). NOTE: The credit recommended for these programs is based not only upon the type of course given, but also upon the relative difficulty of the language studied. The various languages given by the Defense Language Institute are listed in accordance with their level of difficulty as follows: (1) The least difficult languages for the English speaking learner (Danish, French, German, Italian, Norwegian, Portuguese, Romanian, Spanish, Swedish, and Swahili); (2) languages of greater difficulty, but with alphabetical writing systems which may be learned concurrently without appreciably affecting the progress in learning the spoken language (Albanian, Bulgarian, Burmese, Czech, Finnish, Greek, Hungarian, Indonesian, Lithuanian, Persian, Polish, Russian, Serbo-Croatian, Slovenian, Thai, Turkish, Ukrainian, and Vietnamese); and (3) the more difficult languages where the reading problem is complicated (Arabic, Chinese, Japanese, and Korean).

Course Number: None.

Location: West Coast Branch, Presidio of Monterey, CA.

Length: 24–47 weeks.

Exhibit Dates: 1/57–Present.

Objectives: To train military personnel in the interpretation and translation of the designated language and to provide basic military, geographic, economic, historical, and political information about the country, and/or area, in which the language is spoken. (These area studies are taught in the foreign language.)

Instruction: Lectures, discussions, and oral drills in the interpretation and translation of the designated language, and additional training in the basic military, geographic, economic, historical, and political information about the country in which the language is spoken. NOTE: While these courses are listed as Basic, it should be understood that this is the terminology used by the Armed Forces to indicate that the courses are their 'regular' programs in the various languages. They are not limited to what most civilian institutions would term beginning or basic courses in a language.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, extending into the upper-division baccalaureate category, 21 semester hours in ALBANIAN for the 47-week course; 27 in ARABIC for the 47-week course (21 semester hours if the course was taken prior to 1970); 21 in BULGARIAN for the 47-week course; 21 in BURMESE for the 47-week course; 27 in CHINESE—CANTONESE for the 47-week course; 27 in CHINESE—FUKIENESE for the 47-week course; 27 in CHINESE—TOISHAN for the 47-week course; 27 in CHINESE—MANDARIN for the 47-week course; 21 in CZECH for the 47-week course; 15 in DANISH for the 24-week course; 21 in FINNISH for the 47-week course; 15 in FRENCH for the 24-week course; 15 in GERMAN for the 24-week course, 17 for the 32-week course (15 semester hours if the course was taken prior to 1970); 21 in GREEK for the 47-week course; 21 in HUNGARIAN for the 47-week course; 18 in INDONESIAN for the 36-week course, 21 for the 47-week course; 21 in INDONESIAN—MALAY for the 47-week course; 15 in ITALIAN for the 24-week course; 18 in ITALIAN—SICILIAN for the 37-week course; 27 in JAPANESE for the 47-week course; 27 in KOREAN for the 47-week course; 21 in LITHUANIAN for the 47-week course; 18 in MALAY for the 36-week course; 15 in NORWEGIAN for the 24-week course; 21 in PERSIAN for the 47-week course; 21 in POLISH for the 47-week course; 15 in PORTUGUESE for the 24-week course; 18 in ROMANIAN for the 37-week course; 21 in RUSSIAN for the 47-week course; 21 in SERBO-CROATIAN for the 47-week course; 21 in SLOVENIAN for the 47-week course; 15 in SPANISH for the 24-week course; 18 in SWAHILI for the 37-week course; 15 in SWEDISH for the 24-week course; 21 in THAI for the 47-week course; 18 in TURKISH for the 41-week course, 21 for the 47-week course; 21 in UKRAINIAN for the 47-week course; 21 in VIETNAMESE—HANOI DIALECT for the 47-week course; 21 in VIETNAMESE—SAIGON DIALECT for the 47-week course (8/74).

DD-0602-0003

Defense Language Institute Aural Comprehension Courses

(Albanian)
(Arabic)
(Bulgarian)
(Burmese)
(Chinese—Mandarin)
(Czech)
(French)
(German)
(Hungarian)
(Indonesian)
(Japanese)
(Korean)
(Persian)
(Polish)
(Portuguese)
(Romanian)
(Russian)
(Russian Stenotype)

(Serbo-Croatian)
(Spanish)
(Thai)
(Turkish)
(Vietnamese—Hanoi Dialect)

Course Number: None.

Location: West Coast Branch, Presidio of Monterey, CA.

Length: 23–50 weeks.

Exhibit Dates: 1/54–Present.

Objectives: To train students to comprehend the designated language as spoken by a foreign national.

Instruction: The Aural Comprehension Courses were established at the West Coast Branch on July 1, 1964 (except for the courses in Russian, which were offered previously). Although some reading and writing is included in these courses, they are designed primarily to teach students to comprehend the language as spoken by a foreign national. The spoken language is emphasized as a necessary corollary for developing comprehension skill.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, extending into the upper-division baccalaureate category, 15 semester hours in ALBANIAN for the 37-week course; 15 in ARABIC for the 47-week course; 15 in BULGARIAN for the 37-week course; 12 in BURMESE for the 37-week course; 12 in CHINESE—MANDARIN for the 33-week course, 15 for the 37-week course, 18 for the 47-week course, and 12 for the 32-week SPECIAL course; 15 in CZECH for the 37-week course; 12 in FRENCH for the 24-week course; 12 in GERMAN for the 24-week course; 15 in HUNGARIAN for the 37-week course; 15 in INDONESIAN for the 37-week course; 15 in JAPANESE for the 37-week course; 12 in KOREAN for the 37-week course; 15 in PERSIAN for the 37-week course; 15 in POLISH for the 37-week course; 12 in PORTUGUESE for the 24-week course; 15 in ROMANIAN for the 37-week course; 15 in RUSSIAN for the 23- or the 24-week course, 18 for the 37-week RUSSIAN course or the 50-week RUSSIAN STENOTYPE course; 15 in SERBO-CROATIAN for the 37-week course; 12 in SPANISH for the 24-week course; 12 in THAI for the 37-week course; 15 in TURKISH for the 37-week course; 15 in VIETNAMESE—HANOI DIALECT for the 37-week course, 18 for the 47-week course (8/74). NOTE: Since the Aural Comprehension Courses do not place equal stress on the four language skills, they are recommended for less credit than the Basic Courses. It will be noted that the maximum credit recommended for a 37-week Aural Comprehension Course varies from 12 to 18 semester hours. This credit variation is based primarily upon the higher reading and writing content in those courses recommended for 15 and 18 semester hours. The 50-week Russian Stenotype Course includes the regular 37-week Russian Aural Comprehension Course and 13 weeks of stenotype training. Also: The credit recommended for the program is based not only upon the type of course given, but also upon the relative difficulty of the language studied. The various languages given by the Defense Language Institute are listed in accordance with their level of difficulty as follows: (1) the least difficult languages for the English-speaking learner (Danish, French, German, Italian, Norwegian, Portuguese, Romanian, Spanish, Swedish, and Swahili); (2) languages of greater difficulty, but with alphabetical writing systems which may be learned concurrently without appreciably affecting the progress in learning the spoken language (Albanian, Bulgarian, Burmese, Czech, Finnish, Greek, Hungarian, Indonesian, Lithuanian, Persian, Polish, Russian, Serbo-Croatian, Slovenian, Thai, Turkish, Ukrainian and Vietnamese); and (3) the more difficult languages where the reading problem is complicated (Arabic, Chinese, Japanese, and Korean).

DD-0602-0004

Defense Language Institute Short Basic Courses

(Arabic)
(French)
(German)
(Greek)
(Indonesian)
(Italian)
(Japanese)
(Korean)
(Persian)
(Portuguese)
(Romanian)
(Spanish)
(Thai)
(Turkish)
(Vietnamese—Saigon Dialect)

Course Number: None.

Location: West Coast Branch, Presidio of Monterey, CA.

Length: 6–24 weeks.

Exhibit Dates: 1/54–Present.

Objectives: To train officer and enlisted personnel from each branch of the armed services, and certain civilian personnel, in the comprehension, speaking, reading, and writing of the target language at a limited fluency level, with primary emphasis on comprehension and speaking; and to provide basic military, geographic, cultural, and political information about the country or area in which the language is spoken.

Instruction: Lectures, discussions, and oral drills in the comprehension, speaking, reading, and writing of the target language, and additional training in the basic military, geographic, cultural, and political information about the country or area in which the language is spoken. NOTE: The Short Basic Courses at the West Coast Branch are abbreviated versions of the Basic Courses, using the same instructional materials. Less credit is recommended for these programs than for the Basic Courses. However, it will be noted that certain Short Basic Courses, although not as long as the Aural Comprehension Courses in the same languages, carry the same or larger credit recommendations. The difference in these recommendations can be attributed to the fact that the Short Basic Courses are 'more academically suitable' than the Aural Comprehension Courses (i.e., they have a higher reading and writing content).

Credit Recommendation: In the lower-division baccalaureate/associate degree category, extending into the upper-division baccalaureate category, 8 semester hours in ARABIC for the 12-week course, 15 for the 24-week course; 8 in FRENCH for the 12-week course; 8 in GERMAN for the 12-week course, 10 for the 16-week course; 8 in GREEK for the 12-week course; 8 in INDONESIAN for the 12-week course; 8 in ITALIAN for the 12-week course; 8 in JAPANESE for the 12-week course; 8 in KOREAN for the 16-week course, 15 for the 24-week course; 8 in PERSIAN for the 12-week course, 15 for the 24-week course; 8 in PORTUGUESE for the 11- or 12-week course; 8 in ROMANIAN for the 12-week course; 8 in SPANISH for the 11- or 12-week course; 8 in THAI for the 12-week course, 10 for the 16-week course, and 15 for the 24-week course; 8 in TURKISH for the 12-week course; 3 in VIETNAMESE—SAIGON DIALECT for the 6-week course, 8 for the 8- or 12-week course, 10 for the 16-week course, 15 for the 32-week course (8/74). NOTE: The credit recommended for these programs is based not only upon the type of course given, but also upon the relative difficulty of the language studied. The various languages given by the Defense Language Institute are listed in accordance with the level of difficulty as follows: (1) the least difficult languages for the English-speaking learner (Danish, French, German, Italian, Norwegian, Portuguese, Romanian, Spanish, Swedish, and Swahili); (2) languages of greater difficulty, but with alphabetical writing systems which may be learned concurrently without appreciably affecting the progress in learning the spoken language (Albanian, Bulgarian, Burmese, Czech, Finnish, Greek, Hungarian, Indonesian, Lithuanian, Persian, Polish, Russian, Serbo-Croatian, Slovenian, Thai, Turkish, Ukrainian, and Vietnamese); and (3) the more difficult languages where the reading problem is complicated (Arabic, Chinese, Japanese, and Korean).

(Vietnamese)

Course Number: None.

Location: West Coast Branch, Presidio of Monterey, CA.

Length: 24–75 weeks.

Exhibit Dates: 1/54–Present.

Objectives: To train military personnel to a higher level of proficiency in the interpretation and translation of the designated language than is provided for in the scope of instruction of the Basic Courses and to provide, in the language, a somewhat wider knowledge of military, geographic, economic, historic, and political information of the country and/or area in which the language is spoken.

Instruction: BASIC-INTERMEDIATE COURSES: The designation "basic-intermediate" given by the military to the courses should not be confused with this term as used by civilian educational institutions. The Commission's consultants recommend as much as 40 semester hours for each course because of the material that the students are required to read and, in some cases, because of the characters to be learned and the level of the syntax. However, it is recognized that most civilian educational institutions would be reluctant to grant the full amount of credit recommended for the 74- to 75-week courses inasmuch as this would constitute a major in the language. It is further recognized that most colleges and universities would require some resident work in a major. Nevertheless, it was the consensus of the consultants that these programs correspond to college courses 'directed to mastery of the language." In other words, the courses are the equivalent of beginning, intermediate, and advanced courses in the language, plus composition, advanced composition (i.e., learning to write correctly), conversation, and a semester's course in the civilization of the appropriate country or area. It should be noted that no creative writing or literature is given in these programs. EXTENDED COURSES: These courses, which range from 24–37 weeks in length, are attended by students who have already completed a Basic or Aural Comprehension course. The primary objective of this add-on training is to improve language competency. Whereas in the Basic course the audio-lingual skills were stressed, equal emphasis is put on all four language skills in the Extended Course. Pronunciation is expected to undergo considerable refinement, as is the size of the student's vocabulary. Fluency in reading is developed to the point of direct comprehension of the printed page. Proficiency in writing includes mastery of forms, such as official, business, and social correspondence. Equal in importance to language competency is the matter of area knowledge. The Extended Course treats in considerable depth all facets of the country's contemporary civilization, together with a study of the historical development of the area.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, extending into the upper-division baccalaureate category, 40 semester hours in CHINESE—MANDARIN for the 74- to 75-week course; 15 in GERMAN for the 24-week course; 40 in JAPANESE for the 74- to 75-week course; 40 in KOREAN for the 74-75 week course; 18 in KOREAN for course, 40 for the 74- to 75-week course; 40 in VIETNAMESE for the 74-week course (8/74). In the graduate category, 6 semester hours in CHINESE—MANDARIN for the 74- to 75-week course; 6 in JAPANESE for the 74- to 75-week course; 6 in KOREAN for the 74- to 75-week course; 6 in RUSSIAN for the 74- to 75-week course; 6 in VIETNAMESE for the 74- to 75-week course (8/74). NOTE: The credit recommended for the programs is based not only upon the type of course given, but also upon the relative difficulty of the language studied. The various languages given by the Defense Language Institute are listed in accordance with their level of difficulty as follows: (1) the least difficult languages for the English-speaking learner (Danish, French, German, Italian, Norwegian, Portuguese, Romanian, Spanish, Swedish, and Swahili); (2) languages of greater difficulty, but with alphabetical writing systems which may be learned concurrently without appreciably affecting the progress in learning the spoken language (Albanian, Bulgarian, Burmese, Czech, Finnish, Greek, Hungarian, Indonesian, Lithuanian, Persian, Polish, Russian, Serbo-Croatian, Slovenian, Thai, Turkish, Ukrainian, and Vietnamese); and (3) the more difficult languages where the reading problem is complicated (Arabic, Chinese, Japanese, and Korean). the 37-week course; 18 in RUSSIAN for the 37-week

DD-0602-0006

DEFENSE LANGUAGE INSTITUTE INTERMEDIATE COURSES

(Arabic)
(Bulgarian)
(Chinese—Mandarin)
(Czech)
(French)
(German)
(Korean)
(Polish)
(Romanian)
(Russian)
(Serbo-Croatian)
(Spanish)
(Vietnamese)

Course Number: None.
Location: West Coast Branch, Presidio of Monterey, CA.
Length: 16–37 weeks.
Exhibit Dates: 1/54–Present.

Objectives: The Intermediate Courses at the West Coast Branch are a continuation of the Basic Courses with the objective of reaching a higher level of general language ability in all four language skills.

Instruction: Whereas in the Basic Course the audio-lingual skills were stressed, equal emphasis is put on all four language skills in the Intermediate Course. Pronounciation will undergo refinement through constant practice. All important structures are presumed to have been learned in the Basic Course; however, an extensive review is programmed, and new structures are taught functionally, as needed in dealing with the course content. Vocabulary count, customary indicator of the scope of a course, will increase rapidly and extensively. Active vocabulary is expected to double, and passive vocabulary to expand considerably. Fluency in reading is developed to the point of direct comprehension of the printed page. Proficiency in writing includes mastery of forms, such as official business, and social correspondence. Equal in importance to language competency is the matter of area knowledge. The Intermediate Course purports to treat in considerable depth all facets of the country's contemporary civilization, together with a study of the historical development of the area.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, extending into the upper-division baccalaureate category, 18 semester hours in ARABIC for the 37-week course; 18 in BULGARIAN for the 37-week course; 18 in CHINESE—MANDARIN for the 37-week course; 18 in CZECH for the 36-week course; 10 in FRENCH for the 16-week course; 9 in GERMAN for the 24-week course; 18 in KOREAN for the 24-week course; 18 in POLISH for the 36-week course; 15 in ROMANIAN for the 24-week course; 18 in RUSSIAN for the 37-week course; 18 in SERBO-CROATIAN for the 37-week course; 15 in SPANISH for the 24-week course; 18 in VIETNAMESE for the 37-week course (8/74). In the graduate degree category, 6 semester hours in CHINESE—MANDARIN for the 37-week course; 6 in KOREAN for the 37-week course (8/74). NOTE: The credit recommended for the programs is based not only upon the type of course given, but also upon the relative difficulty of the language studied. The various languages given by the Defense Language Institute are listed in accordance with their level of difficulty as follows: (1) the least difficult languages for the English-speaking learner (Danish, French, German, Italian, Norwegian, Portuguese, Romanian, Spanish, Swedish, and Swahili); (2) languages of greater difficulty, but with alphabetical writing systems which may be learned concurrently without appreciably affecting the progress in learning the spoken language (Albanian, Bulgarian, Burmese, Czech, Finnish, Greek, Hungarian, Indonesian, Lithuanian, Persian, Polish, Russian, Serbo-Croatian, Slovenian, Thai, Turkish, Ukrainian, and Vietnamese); and (3) the more difficult languages where the reading problem is complicated (Arabic, Chinese, Japanese, and Korean).

DD-0602-0007

DEFENSE LANGUAGE INSTITUTE ADVANCED COURSES

(Chinese—Mandarin)
(Russian)

Course Number: None.
Location: West Coast Branch, Presidio of Monterey, CA.
Length: 37 weeks.
Exhibit Dates: 1/69–Present.

Objectives: To train selected Department of Defense personnel in foreign languages at a more advanced level of proficiency than is provided in Defense Language Institute Extended or Intermediate Courses; and to provide a wide knowledge of cultural, geographical, economic, historical, and political information on the area in which the language is spoken.

Instruction: The advanced course places equal emphasis upon the development of all four language skills. There is no specialized or technical terminology in the course. It includes a total vocabulary of approximately 4,000 terms, over and above that covered in previous courses, that cover all general, nontechnical communication situations that one would normally encounter in the country of the target language. The cultural complex within which the language is spoken is covered extensively: history, economics, geography, politics, military, ethnic groups, languages, attitudes, customs and mores of the people, etc.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, extending into the upper-division baccalaureate category, 18 semester hours in CHINESE—MANDARIN for the 37-week course; 18 in RUSSIAN for the 37-week course (8/74). NOTE: The credit recommended for the programs is based not only upon the type of course given, but also upon the relative difficulty of the language studied. The various languages given by the Defense Language Institute are listed in accordance with their level of difficulty as follows: (1) the least difficult languages for the English-speaking learner (Danish, French, German, Italian, Norwegian, Portuguese, Romanian, Spanish, Swedish, and Swahili); (2) languages of greater difficulty, but with alphabetical writing systems which may be learned concurrently without appreciably affecting the progress in learning the spoken language (Albanian, Bulgarian, Burmese, Czech, Finnish, Greek, Hungarian, Indonesian, Lithuanian, Persian, Polish, Russian, Serbo-Croatian, Slovenian, Thai, Turkish, Ukrainian, and Vietnamese); and (3) the more difficult languages where the reading problem is complicated (Arabic, Chinese, Japanese, and Korean).

DD-0602-0008

DEFENSE LANGUAGE INSTITUTE SPECIAL COURSES

(Scientific Russian)
(Russian Refresher)

Course Number: None.
Location: West Coast Branch, Presidio of Monterey, CA.
Length: 6–12 weeks.
Exhibit Dates: 1/54–Present.

Objectives: The objective of the Scientific Course is to train military personnel to read and translate Russian technical and scientific publications and to speak and understand conversational Russian to a limited extent; the Refresher Course is designed to enable personnel to regain a basic competence in comprehension of the standard literary language.

Instruction: The Scientific Course includes instruction in Russian phonology and writing systems; oral exercises in elementary speech patterns; Russian structural patterns; reading practice; problems in lexicology; identification of Russian words and cognates; and scientific terminology. The Refresher Course provides an accelerated, systematic review of grammar and vocabulary.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, or in the upper-division baccalaureate category, credit in scientific Russian or Russian (refresher) on the basis of institutional evaluation (8/74).

DD-0602-0009

DEFENSE LANGUAGE INSTITUTE COURSES—EAST COAST BRANCH
(Arabic)
(Chinese—Mandarin)
(French)
(German)
(Italian)
(Portuguese)
(Russian)
(Spanish)
(Turkish)
(Vietnamese—Hanoi Dialect)
(Vietnamese—Saigon Dialect)

Course Number: None.

Location: East Coast Branch, Washington, DC.

Length: 8–60 weeks.

Exhibit Dates: 1/54–Present.

Objectives: The Intensive Courses are designed to make military personnel thoroughly at ease in the speaking, understanding, reading, and writing of a foreign language; the shorter courses are designed to give students a limited command of the language.

Instruction: Lectures, discussions, and oral drills in the speaking, understanding, reading, and writing of a foreign language, with additional training in area studies, including the geography, history, politics, economics, government, social structure, and military situations pertaining to the area.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, extending into the upper-division baccalaureate category, 18 semester hours in ARABIC for the 40-week course, 27 for the 47-week course (21 semester hours if the course was taken prior to 1970); 27 in CHINESE—MANDARIN for the 47-week course, 30 for the 60-week course, 18 for the special 9-month course; 4 in FRENCH for the 8-week course, 8 for the 1[illegible]-week course, 12 for the 19-week course, 1[illegible] for the 24-week course; 4 in GERMAN for the 8-week course, 8 for the 12-week course, 17 for the 32-week course (15 semester hours if the course was taken prior to 1970), 18 for the 36-week course; 4 in ITALIAN for the 8-week course, 8 for the 12-week course, 15 for the 24-week course; 4 in PORTUGUESE for the 8-week course, 8 for the 12-week course, 12 for the 21-week course, 15 for the 24-week course; 18 in RUSSIAN for the 36-week course, 21 for 47-week course, 15 for the special 6-month course; 4 in SPANISH for the 8-week course, 8 for the 12-week course, 12 for the 19-week course, 15 for the 24-week course; 18 in TURKISH for the 36-week course, 21 for the 47-week course; 18 in VIETNAMESE—HANOI DIALECT for the 36-week course; 18 in VIETNAMESE—SAIGON DIALECT for the 36-week course, 21 for the 47-week course (8/74). In the graduate degree category, 3 semester hours in CHINESE—MANDARIN for the 60-week course (8/74). NOTE: The credit recommended for the programs is based not only upon the type of course given, but also upon the relative difficulty of the language studied. The various languages given by the Defense Language Institute are listed in accordance with the level of difficulty as follows: (1) the least difficult languages for the English-speaking learner (Danish, French, German, Italian, Norwegian, Portuguese, Romanian, Spanish, Swedish, and Swahili); (2) languages of greater difficulty, but with alphabetical writing systems which may be learned concurrently without appreciably affecting the progress in learning the spoken language (Albanian, Bulgarian, Burmese, Czech, Finnish, Greek, Hungarian, Indonesian, Lithuanian, Persian, Polish, Russian, Serbo-Croatian, Slovenian, Thai, Turkish, Ukrainian, and Vietnamese); and (3) the more difficult languages where the reading problem is complicated (Arabic, Chinese, Japanese, and Korean).

DD-0602-0010

DEFENSE LANGUAGE INSTITUTE SUPPORT COMMAND COURSES
(Basic Vietnamese—Saigon Dialect)
(Aural Comprehension Vietnamese—Hanoi Dialect)
(Short Basic Vietnamese—Saigon Dialect)

Course Number: None.

Location: Biggs Field, El Paso, TX.

Length: 12–47 weeks.

Exhibit Dates: 1/54–Present.

Objectives: The Basic Course provides personnel with training in the interpretation and translation of the designated language, as well as basic military, geographic, economic, historical, and political information about the area in which the language is spoken; the Aural Comprehension Course is designed primarily to teach students to comprehend the language as spoken by a foreign national; the Short Basic Course is an accelerated version of the Basic Course.

Instruction: Lectures, discussions, and oral drills in the designated language. Basic Course: The term, 'Basic' as used by the military, indicates a 'regular' course in the language; i.e., the Basic Course is not limited to what most civilian institutions would term beginning or basic courses in the language. Aural Comprehension Course: Although some reading and writing is included, the spoken language is emphasized. Since the Aural Comprehension Courses do not place equal stress on the four language skills, they are recommended for less credit than the Basic Courses. Short Basic Course: Intensive training in the same material covered in the Basic Course.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, extending into the upper-division baccalaureate category, 21 semester hours in VIETNAMESE—SAIGON DIALECT for the 47-week BASIC course, 8 for the 12-week SHORT BASIC course, 15 for the 32-week SHORT BASIC course; 18 in VIETNAMESE—HANOI DIALECT for the 47-week AURAL COMPREHENSION course (8/74).

DD-0602-0011

NATIONAL CRYPTOLOGIC SCHOOL RESIDENT LANGUAGE COURSES
(Basic Chinese—Refresher)
(Basic Russian—Refresher)
(Basic Vietnamese)

Course Number: None.

Location: National Cryptologic School, Ft. Meade, MD.

Length: 21–30 weeks.

Exhibit Dates: 1/54–Present.

Objectives: The 12-week Refresher courses are designed to enable personnel to regain a basic competence in comprehension of the standard literary language by an accelerated, systematic review of grammar and vocabulary. (A basic course in the language is assumed as a prerequisite); the 30-week Basic Vietnamese course is designed to teach personnel the grammar and vocabulary necessary for a basic comprehension of the standard literary language with emphasis on a thorough understanding of structure.

Instruction: Refresher Courses: Phonology; writing system; basic vocabulary of economic, political, and military terms. Basic Vietnamese: In addition to the preceding instruction, this course includes grammar (morphology, derivation, and syntax).

Credit Recommendation: In the lower-division baccalaureate/associate degree category, extending into the upper-division baccalaureate category, 6 semester hours in CHINESE for the 12-week basic (refresher) course; 3 in RUSSIAN for the 12-week basic (refresher) course; 15 in Vietnamese for the 30-week basic course (8/74).

DD-1402-0001

COMMAND AND CONTROL

Course Number: None.

Location: Department of Defense Computer Institute, Washington, DC.

Length: 3 weeks (105 hours).

Exhibit Dates: 5/69–Present.

Objectives: To provide personnel with an introduction to automatic data processing and computer technology.

Instruction: Lectures and practical exercises in automatic data processing and computer technology, including survey of computers and peripheral equipment, computer fundamentals, source data collection, data communications, systems analysis, main memory and data representation, codes, fixed-word-length machine concepts, higher-level languages, and ADP system management.

Credit Recommendation: In the vocational certificate category, 3 semester hours in principles of data processing (7/74); in the lower-division baccalaureate/associate degree category, 3 semester hours in principles of data processing (7/74); in the upper-division baccalaureate category, 2 semester hours in introduction to computer principles (12/68).

DD-1402-0002

INTRODUCTION TO COMPUTER TECHNOLOGY

Course Number: None.

Location: Department of Defense Computer Institute, Washington, DC.

Length: 2 weeks (65 hours).

Exhibit Dates: 8/77–Present.

Objectives: Course is designed to provide an educational background for middle-management personnel who are general-purpose digital computer systems users and have had little or no previous introduction to data processing principles.

Instruction: Course covers computer capabilities, limitations and applications; the basics of computer hardware and software; systems development management considerations, planning and design; and an introduction to operations research and analysis electro-optics applications or electromechanical applications, 1 in technical mathematics, and 1 in semiconductor theory and applications, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics and 3 in basic electronics laboratory applications. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (3/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in basic electronics laboratory applications, and 3 in human relations for a total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in basic electronics laboratory applications, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (3/76).

MOS–35E–002

SPECIAL ELECTRONIC DEVICES REPAIRER

35E10
35E20
35E30

Exhibit Dates: 3/78–Present.

Career Management Field: 29 (Communications–Electronics Maintenance).

Description

Summary: Performs complex maintenance procedures on specialized electrical and electronic measuring equipment. *Skill Level 10:* Assists with maintenance of electro-optical vision equipment and detection equipment; applies schematic tracing skills and basic electronic theory in troubleshooting malfunctions; performs repairs, replacement, or modifications in compliance with technical manuals; uses specialized tools and test equipment in diagnosing symptoms and in locating problems in circuits down to discrete electrical components; regularly updates maintenance manuals, records and supply stock. Examines, tests, and observes equipment in operation to determine defects; localizes and determines cause of malfunctions; removes and replaces faulty major components, subassemblies and individual parts; uses test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; troubleshoots and repairs faulty equipment; observes and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required by Skill Level 20; supervises maintenance on special electrical devices equipment; maintains records, references and reports; prepares technical reports; provides assistance; gives direction and instructions in resolving complex maintenance problems; diagnoses causes of unusual malfunctions; may supervise six or more persons.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 9 semester hours in basic electronics, 3 in industrial electronics instrumentation, 3 in electro-optics applications or electromechanical applications, 1 in technical mathematics, and 1 in semiconductor theory, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics and 3 in basic electronics laboratory application. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in basic electronics, 3 in industrial electronics instrumentation, 3 in electro-optics applications or electromechanical applications, 1 in technical mathematics, 1 in semiconductor theory, and 2 in technical report writing, for a total of 19 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in basic electronics laboratory, and 3 in personnel supervision for a total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) (10/79).

MOS–35F–001

NUCLEAR WEAPONS ELECTRONICS SPECIALIST

35F10
35F20

Exhibit Dates: 3/76–Present.

Career Management Field: 55 (Ammunition).

Description

Summary: Performs maintenance on highly specialized electronic equipment associated with nuclear weapons and nuclear weapons trainers. *Skill Level 10:* Under close supervision of 35F20 personnel, assists in performing maintenance functions using multimeters and electronic hand tools. *Skill Level 20:* Performs maintenance, diagnoses malfunctions, replaces defective parts, and test-operates repaired equipment; uses multimeters, oscilloscopes, and electrical/electronic hand tools; interprets schematic diagrams and technical publications; keeps records of work performed.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in basic electricity and 1 in care and use of tools and test equipment. Advanced standing in an electrical maintenance apprentice training program, on the basis of employer or trade association performance examination (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in basic electricity, 2 in electrical/electronic troubleshooting, 2 in electrical/electronic maintenance, and 1 in care and use of tools and test equipment for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in electrical/electronic maintenance and 1 in basic electricity. Advanced standing in an electrical maintenance apprentice training program on the basis of employer or trade association performance examination (6/76).

MOS–35G–001

BIOMEDICAL EQUIPMENT REPAIRMAN (MEDICAL EQUIPMENT REPAIRMAN)

35G20

Exhibit Dates: 10/74–2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 354 (Medical Equipment Maintenance).

Description

Performs routine maintenance on non-complex medical equipment, including electrical-electronic, mechanical, and optical equipment; repairs and installs mechanical medical equipment including sterilizers, stills, anesthesia apparatus, resuscitators, dental operating units, operating tables and lamps, food carts, hospital beds, etc.; dismantles and cleans equipment; checks for wear and repairs simple mechanical and electrical defects; installs water, air, and steam lines and tests for leakage and fit; uses volt-ohm-milliameter.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in medical equipment maintenance, 2 in shop operations (procedures), and 1 in basic electricity laboratory, for a total of 5 semester hours (5/76).

MOS–35G–002

BIOMEDICAL EQUIPMENT REPAIRER

35G10
35G20

Exhibit Dates: 3/78–Present.

Career Management Field: 91 (Medical), *subfield* 915 (Biomedical Equipment Repair).

Description

Summary: Performs routine maintenance on non-complex medical equipment. *Skill Level 10:* Performs routine maintenance on electrical-electronic, mechanical, and optical equipment; repairs and installs mechanical medical equipment, including sterilizers, stills, anesthesia apparatus, resuscitators, dental operating units, operating tables and lamps, food carts, hospital beds, etc.; dismantles and cleans equipment; installs water, air, and steam lines; performs routine tests on medical equipment to determine leakage currents and calibration. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in DC and AC circuit fundamentals, 6 in theory of operation and troubleshooting medical equipment, and 2 in shop practices, for a total of 11 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in medical equipment maintenance and repair and 2 in shop practices (11/79).

MOS–35H–001

CALIBRATION SPECIALIST

35H20
35H40
35H50

Exhibit Dates: 10/73–2/75.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 351 (Instrument Calibration and Maintenance).

Description

Summary: Performs complex calibration procedures at secondary reference or transfer reference level on electrical, electronic, pressure, vacuum, hydraulic, and mechanical test and measuring instruments and devices; performs linear measurements in all aspects of metrology; compares standards of measurement and references; performs minor electronic maintenance; checks and evaluates condition of equipment. *Skill Level 20:* Calibrates transfer standards to reference standards; checks and adjusts secondary standards for calibration against primary standards; calibrates test and system support equipment within design accuracy; computes voltage, current, and resistance factors; evaluates condition of test and measuring equipment and makes minor repairs. *Skill Level 40:* Able to perform the duties required for Skill Level 20; competent in error analysis; diagnoses unusual malfunctions of sophisticated equipment; performs complex calibration procedures; plans calibration loops and performs final check-out operations in closing calibration loops; recognizes and adheres to standards of accuracy to which secondary reference standards must be certified; teaches subordinates how to use and interpret calibration procedures. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a first-line supervisor; interprets and initiates changes in company policies; directs and coordinates the administrative activities of the company; supervises subordinates; conducts on-the-job training. NOTE: May have progressed to 35H50 from 35H40, 35B40 (Electronic Instrument Repairman), 35E40 (Special Electrical Devices Repairman), 35U50 (Biomedical Equipment Maintenance Chief), or 35P50 (Avionic Equipment Maintenance Supervisor).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic algebra and trigonometry, 6 in fundamentals of DC and AC electrical circuits, 6 in basic electronics with laboratory, 6 in communication electronics with laboratory, 6 in electronic instrumentation with laboratory, and 6 in laboratory techniques, and additional credit on the basis of institutional evaluation, for a minimum total of 36 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic algebra and trigonometry, 3 in fundamentals of DC and AC electrical circuits, 3 in basic electronics with laboratory, 3 in communication electronics with laboratory, 3 in electronic instrumentation with laboratory, and 3 in laboratory techniques, for a total of 18 semester hours. In the upper-division baccalaureate category, 6 semester hours in industrial arts or technical electives and additional credit on the basis of institutional evaluation. In an electrical instrumentation repairman (communications) apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

Recommendation, Skill Level 40

The recommendation for educational credit is the same as that for Skill Level 20. In an electrical instrumentation repairman (communications) apprentice training program, 5,000 clock hours of experience and 360 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in basic algebra and trigonometry, 6 in fundamentals of DC and AC electrical circuits, 6 in basic electronics with laboratory, 6 in communications electronics with laboratory, 6 in electronic instrumentation with laboratory, 6 in laboratory techniques, and 3 in office management, and additional credit on the basis of institutional evaluation, for a minimum total of 39 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic algebra and trigonometry, 3 in fundamentals of DC and AC electrical circuits, 3 in basic electronics with laboratory, 3 in communication electronics with laboratory, 3 in electronic instrumentation with laboratory, 3 in laboratory techniques, 3 in personnel supervision, and 3 in office management, for a total of 24 semester hours. In the upper-division baccalaureate category, 6 semester hours in industrial arts or technical electives, 3 in personnel management, and 3 for field experience in management or administration, and additional credit in technical areas on the basis of institutional evaluation, for a total of 12 semester hours; and 3 additional semester hours for field experience in education *only if the duty assignment was chief instructor*, for a total of 15 semester hours. In an electronic instrumentation repairman (communications) apprentice training program, 5,000 clock hours of experience and 360 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

MOS-35H-002

CALIBRATION SPECIALIST

35H20
35H30
35H40
35H50

Exhibit Dates: 3/75-2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 351 (Instrument Calibration and Maintenance).

Description

Summary: Performs complex calibration procedures at secondary reference or transfer reference level on electrical, electronic, pressure, vacuum, hydraulic, and mechanical test and measuring instruments and devices; performs linear measurements in all aspects of metrology; compares standards of measurement and references; performs minor electronic maintenance; checks and evaluates condition of equipment. *Skill Level 20:* Applies knowledge of operational characteristics of test, measurement, and diagnostic equipment; performs calibration of electronic equipment using secondary transfer standards; must be capable of performing calibrations in all transfer level parameters or measurement, including AC voltage and current, DC voltage and current, resistance, capacitance, inductance, frequency, time interval, rise time, RF power frequency response, distortion, phase, standing wave ratio, attenuation, magnetic field strength, photometric brightness, irradiance, sound pressure, relative humidity, temperature, viscosity, specific gravity, length, gas and liquid flow, mass torque, vacuum, hydraulic pressure, and pneumatic pressure; prepares and affixes calibration certificates, tags, labels, and correction charts; recommends changes to calibration procedures and other technical publications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs calibrations using more sophisticated techniques and standards to obtain a much greater degree of precision and accuracy; operates secondary reference standards in a controlled environment and determines specific effect on the measurement process; calibrates all secondary reference standards; prepares technical reports and charts. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs check-out operations in closing calibration loop; diagnoses and determines causes of unusual cases of malfunction or nonfunction of electrical and electronic devices; supervises or executes installation and location of equipment; instructs, explains, and interprets technical literature, schematics, specifications, and calibration procedures; organizes technical operations for calibration teams; operates a quality control and production control program for calibration operations and calibration equipment repair. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a first-line supervisor in a calibration laboratory or facility; plans, coordinates, and supervises activities pertaining to training and technical operation of the facility to which assigned; develops and reviews correspondence relating to calibration activities; coordinates the efforts of the technical support elements of a calibration activity in support of the calibration laboratory and teams; prepares interservice/intraservice agreements relative to calibration support. NOTE: May have progressed to 35H50 from 35H40, 35B40 (Electronic Instrument Repairman), 35E40 (Special Electrical Devices Repairman), 35U50 (Biomedical Equipment Maintenance Chief), or 35P50 (Avionic Equipment Maintenance Supervisor).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in electronic instrumentation with laboratory, 6 in basic electronics with laboratory, 5 in technical mathematics, 2 in DC circuit theory, 2 in DC circuit laboratory, 2 in AC circuit theory, and 2 in AC circuit laboratory, for a total of 28 semester hours. In the upper-division baccalaureate category, 3 semester hours in electronic instrumentation fundamentals and 3 in industrial arts education (electronics). In the graduate degree category, credit in instrumentation techniques on the basis of institutional evaluation. In an electrical instrumentation repairman (communications) apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 9 semester hours in electronic instrumentation with laboratory, 6 in basic electronics with laboratory, 5 in technical mathematics, 3 in laboratory techniques, 2 in technical writing, 2 in DC circuit theory, 2 in DC circuit laboratory, 2 in AC circuit theory, 2 in AC circuit laboratory, for a total of 33 semester hours. In the upper-division baccalaureate category, 3 semester hours in electronic instrumentation fundamentals and 3 in industrial arts education (electronics). In the graduate degree category, credit in instrumentation techniques on the basis of institutional evaluation. In an electrical instrumentation repairman (communications) apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/76).

Recommendation, Skill Levels 40 and 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 9 semester hours in electronic instrumentation with laboratory, 6 in basic electronics with laboratory, 5 in technical mathematics, 3 in laboratory techniques, 3 in personnel supervision, 3 in human relations, 2 in technical writing, 2 in DC circuit theory, 2 in DC circuit laboratory, 2 in AC circuit theory, and 2 in AC circuit laboratory, for a total of 39 semester hours. In the upper-division baccalaureate category, 6 semester hours in technical electives, 3 in electronic instrumentation fundamentals, and 3 in industrial arts education (electronics), for a total of 12 semester hours. In the graduate degree category, credit in instrumentation techniques on the basis of institutional evaluation. In an electrical instrumentation repairman (communications) apprentice training program, 5,000 clock hours of experience and 360 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/76).

MOS-35H-003

Calibration Specialist

35H10
35H20
35H30
35H40
35H50

Exhibit Dates: 3/78–Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Performs calibration and repair duties on all common test, measuring, and diagnostic equipment; performs maintenance on all calibration standards and accessories; performs maintenance on electrical, electronic, pressure, vacuum, hydraulic, and mechanical measuring instruments. *Skill Level 10:* Calibrates and repairs tests, measuring, and diagnostic equipment, including meters and other low-level systems; maintains calibration and maintenance records; assists with more advanced repair and calibration procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; performs cross-check of low-level calibration standards; maintains records applicable to these and other calibration and maintenance functions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides direct supervision, quality control, technical support and coordination of unit activities; supervises on-the-job training; supervises a calibration team and prepares their work schedule; performs calibration using more sophisticated and accurate standards including the following: flow rate, viscosity, specific gravity, phase, sound pressure level, irradiance, photometric, brightness, magnetic field strength, etc.; performs cross-checks of reference standards and maintains standard levels. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and provides on-the-job training to lower skill level personnel; maintains calibration files to provide historical, production, and scheduling information for control of operations; conducts liaison with supported units to schedule production advice on test, measuring, and diagnostic equipment; provides quality control by sample inspection against standards; previews correspondence and prepares interservice agreements relative to calibration support; establishes schedules; supervises the development and presentation of new equipment and technology training; may supervise four or more personnel, or if duty position is Calibration Operations NCO, may supervise five or more calibration teams. *Skill Level 50:* Able to perform the duties required for Skill Level 40; as principal noncommissioned officer of a calibration facility, performs technical and administrative duties; plans, coordinates, and supervises training and operation activities; prepares correspondence; advises superiors on technical calibration matters; may supervise five or more calibration teams.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 2 in AC/DC circuits, 1 in digital circuits, 1 in solid-state circuits, 1 in communications principles, 2 in instrumentation, 3 in troubleshooting techniques, 2 in physics, and 2 in mathematics (algebra and trigonometry), for a total of 17 semester hours (5/79).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in digital circuits, 3 in solid-state circuits, 2 in communications principles, 4 in instrumentation, 6 in troubleshooting techniques, 2 in physics, 2 in mathematics (algebra and trigonometry), and 3 in microwave circuits, for a total of 31 semester hours (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in digital circuits, 3 in solid-state circuits, 2 in communications principles, 5 in instrumentation, 6 in troubleshooting techniques, 2 in physics, 2 in mathematics (algebra and trigonometry), 3 in microwave circuits, 2 in human relations, 2 in personnel supervision, and 2 in maintenance management, for a total of 38 semester hours (5/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in digital circuits, 3 in solid-state circuits, 2 in communications principles, 5 in instrumentation, 6 in troubleshooting techniques, 2 in physics, 2 in mathematics (algebra and trigonometry), 3 in microwave circuits, 3 in human relations, 3 in personnel supervision, and 2 in maintenance management, for a total of 40 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management; *if duty position was Calibration Operations NCO,* an additional 3 semester hours in management problems (5/79).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in digital circuits, 3 in solid-state circuits, 2 in communications principles, 5 in instrumentation, 6 in troubleshooting techniques, 2 in physics, 2 in mathematics (algebra and trigonometry), 3 in microwave circuits, 3 in human relations, 3 in personnel supervision, and 3 in maintenance management, for a total of 41 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, and 3 in management problems (5/79).

MOS-35J-001

Aircraft Fire Control Repairman

35J20
35J40

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 35J was discontinued and its functions were incorporated into MOS 68J, Helicopter Missile Systems Repairer, and MOS 68K, Aircraft Components Repair Supervisor.) Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs support maintenance on optical electrical/electronic components of aircraft armament subsystems, printed cards, and systems peculiar to electronic test equipment for all aircraft armament subsystems. *Skill Level 20:* Performs support maintenance on aircraft fire control equipment; interprets electrical/electronic schematics and systems diagrams; employs standard and systems peculiar test equipment to troubleshoot and isolate malfunctions; replaces or adjusts faulty components; performs final checkout; performs support maintenance on test equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 5 or more persons performing maintenance on electrical/electronic aircraft armament fire control subsystems.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in basic electricity (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in basic electricity. In the lower-division baccalaureate/associate degree category, 4 semester hours in basic electricity and 2 in personnel supervision (11/75).

MOS-35K-001

Avionics Mechanic

35K20

Exhibit Dates: 10/73–8/77.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 353 (Avionics Maintenance).

Description

Performs duties comparable to those of a Federal Communications Commission Second Class licensee; troubleshoots and maintains communications, navigation, and flight control systems, and on-board avionics equipment; isolates equipment malfunctions to the component level; reads and interprets electronic circuit diagrams and schematics; plans and schedules maintenance checks; performs maintenance on special and common hand tools and on test, calibration, diagnostic, and support equipment.

Recommendation

In the vocational certificate category, 3 semester hours in electrical and electronic print reading, 4 in avionics maintenance, and 1 in aviation maintenance technology, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical and electronic print reading and 4 in electronics maintenance or avionics technology, for a total of 7 semester hours. In the upper-division baccalaureate category, 4 semester hours in aviation maintenance management or aviation maintenance engineering technology (2/75).

MOS-35K-002

Avionic Mechanic

35K10

35K20

Exhibit Dates: 9/77-Present.

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Performs duties comparable to those of a Federal Communications Commission Second Class licensee; performs maintenance on communications, navigation, and flight control systems, and onboard avionics equipment. *Skill Level 10:* Troubleshoots and isolates equipment malfunctions to the component level; reads and interprets electronic circuit diagrams and schematics; plans and schedules maintenance checks; performs maintenance on special and common hand tools and on test, calibration, diagnostic, and support equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical and electronic print reading, 4 in avionics maintenance, and 1 in aviation maintenance technology, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical and electronic print reading and 4 in electronics maintenance or avionics technology (5/78).

Recommendation, Skill Level 20

In the vocational certificate category and in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In the upper-division baccalaureate category, 4 semester hours in aviation maintenance management (5/78).

MOS-35L-001

Avionic Communications Equipment
Repairman

35L20

Exhibit Dates: 10/73-8/77.

Career Management Field: 35 (Electrical/Electronic Equipment Maintenance), *subfield* 353 (Avionics Maintenance).

Description

Performs highly complex maintenance procedures on transistorized and vacuum tube avionic radio communications equipment; uses knowledge in basic electronics and schematic tracing to troubleshoot equipment; uses specialized hand tools and test equipment to perform diagnostic tests of malfunctions down to discrete circuit components; tests, aligns, and adjusts equipment to insure maximum operating efficiency; replaces parts, performs repairs, or modifies equipment in compliance with technical manuals and modification orders; assists in the updating of maintenance manuals, records, and supply stock; assists in on-the-job training.

Recommendation

In the vocational certificate category, 3 semester hours in basic AC and DC theory, 3 in basic AC and DC laboratory applications, 3 in radio communications theory, 3 in radio communications laboratory, 3 in transmitter/receiver repair, 1 in elementary algebra, 1 in basic amplifier circuit theory, and 1 in instrument applications laboratory, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in radio communications theory, 3 in introductory electronics, 1 in basic DC circuit theory, 1 in basic AC circuit theory, 1 in semiconductor theory, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in technical electives. In an electrician apprentice training program, 500 clock hours of experience and 36 contact hours of related instruction (3/76).

MOS-35L-002

Avionic Communications Equipment
Repairer

35L10

35L20

Exhibit Dates: 9/77-Present.

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Performs duties comparable to those of a Federal Communications Commission Second Class licensee; performs maintenance on avionic communications equipment. *Skill Level 10:* Troubleshoots and isolates equipment malfunctions to the component level; reads and interprets electronic circuit diagrams and schematics; plans and schedules maintenance checks; performs maintenance on special and common hand tools and on test, calibration, diagnostic, and support equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; repairs faulty printed circuit boards; maintains equipment records, authorized spare parts, supply stock, and technical literature.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical and electronic print reading, 4 in avionics maintenance, and 1 in aviation maintenance technology, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical and electronic print reading and 4 in electronics maintenance or avionics technology (5/78).

Recommendation, Skill Level 20

In the vocational certificate category and in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In the upper-division baccalaureate category, 4 semester hours in aviation maintenance management (5/78).

MOS-35M-001

Avionic Navigation Equipment
Repairman

35M20

Exhibit Dates: 10/73-8/77.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 353 (Avionics Maintenance).

Description

Performs preventive maintenance and repair to the component level on such items as marker beacons, radio direction finders, VOR and glidescopes, omnirange receivers, position fixers, airborne TACAN and ground beacons; locates and diagnoses causes of equipment malfunction or nonfunction with common and specialized handtools and test equipment; determines repair procedures; interprets schematic diagrams and technical literature; traces circuitry; tests, aligns, and adjusts equipment to insure maximum operating efficiency; replaces faulty assemblies and components; test-operates repaired equipment for proper functioning; alters or modifies equipment using prescribed procedures; performs preventive maintenance on tools and test equipment; inspects completed work for accuracy and completeness; keeps maintenance records and completes supply forms.

Recommendation

In the vocational certificate category, 6 semester hours in basic electronics, 6 in avionic instrumentation, 3 in basic AC/DC theory, 3 in basic AC/DC laboratory applications, 2 in systems maintenance and repair, and 1 in elementary algebra, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 2 in electronic systems, 1 in DC circuit analysis, 1 in AC circuit analysis, 1 in electron devices, 1 in instrumentation, and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in technical electives. In an electrician apprentice training program, 500 clock hours of experience and 36 contact hours of related instruction (3/76).

MOS-35M-002

Avionic Navigation and Flight Control Equipment Repairer

35M10

35M20

Exhibit Dates: 9/77–Present.

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Performs preventive maintenance on avionic navigation and flight control equipment, including marker beacons, radio direction finders, VOR and glidescope receivers, automatic flight control, stability augmentation, automatic stabilization, radar altimeter, aircraft magnetic compass and altitude-heading equipment. *Skill Level 10:* Localizes and diagnoses causes of equipment malfunction or nonfunction with common and specialized hand tools and test equipment; replaces fuses, burned-out lamps, test equipment batteries, worn cords, cables, and other faulty components or individual parts; traces circuitry, tests, aligns, and adjusts equipment to insure maximum operating efficiency; test-operates repaired equipment for proper functioning; alters or modifies material in accordance with modification work orders and prescribed procedures; schedules and performs operator maintenance on tools and test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; repairs faulty printed circuit boards; maintains equipment records, authorized spare parts, supply stock, and technical literature.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in basic electronics, 6 in avionic instrumentation, 3 in basic AC/DC electronics theory, 3 in basic AC/DC electronics lab applications, and 2 in systems maintenance and repair, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 1 in DC circuit analysis, 1 in AC circuit analysis, 2 in electronic systems, 1 in electronic devices, 1 in instrumentation, and credit in technical mathematics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours for a technical elective (5/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In the upper-division baccalaureate category, 3 semester hours for a technical elective and 4 in aviation maintenance management (5/78).

MOS-35N-001

Avionic Flight Control Equipment Repairman

35N20

Exhibit Dates: 10/73–8/77. (Effective 9/77, MOS 35N was discontinued and its functions were incorporated into MOS 35M, Avionic Navigation and Flight Control Equipment Repairer, or MOS 35P, Avionic Equipment Maintenance Supervisor.)

Career Management Field: 35 (Electrical/Electronic Equipment Maintenance), *subfield* 353 (Avionics Maintenance).

Description

Performs complex maintenance procedures on avionic flight systems, such as automatic flight control, stability augmentation, aircraft magnetic compass, and computer-assist navigational equipment: troubleshoots equipment using concepts in basic electronics, electromechanical devices, and schematic tracing; uses specialized handtools and test equipment to perform diagnostic tests of malfunctions down to discrete circuit components; tests, aligns, and adjusts equipment to insure maximum operating efficiency; replaces parts and performs repairs or modifications on equipment in accordance with specified standards; assists in the updating of maintenance manuals, records, and supply stock; assists in on-the-job training.

Recommendation

In the vocational certificate category, 3 semester hours in basic electronics, 3 in radio frequency circuit analysis, 3 in radio frequency circuit laboratory applications, 3 in basic AC/DC theory, 3 in basic AC/DC laboratory applications, 2 in electromechanical systems, 1 in elementary algebra, 1 in basic amplifier circuit concepts, and 1 in instrument applications laboratory, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics theory, 3 in basic electronics laboratory applications, 2 in electronic circuits and systems, 1 in elementary algebra, and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) or in technical electives. In an electrician apprentice training program, 500 clock hours of experience and 36 contact hours of related instruction (3/76).

MOS-35P-001

Avionic Equipment Maintenance Supervisor

35P40

35P50

Exhibit Dates: 10/73–8/77.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 353 (Avionics Maintenance).

Description

Summary: Supervises the maintenance of avionic equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20 of at least one of the following MOS's: 35K (Avionics Mechanic), 35L (Avionic Communications Equipment Repairman), 35M (Avionic Navigation Equipment Repairman), 35N (Avionic Flight Control Equipment Repairman), 35R (Avionic Radar Equipment Repairman); assists in the diagnosis of complex malfunctions; inspects and checks maintenance work for adequacy and suitability; implements quality and production control procedures; assigns duties to personnel; instructs in maintenance practices, procedures, and techniques; conducts on-the-job training; assists in complex equipment modification. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises, administers, and coordinates all avionic maintenance activities for 30 or more mechanics and repairmen; plans and schedules maintenance; keeps equipment records; requisitions spare parts and supplies; reviews and takes appropriate action on all technical information and directives; provides technical advice.

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in maintenance supervision and 3 in advanced electronics systems operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic communication devices, 3 in personnel supervision, and 3 in human relations, for a total of 9 semester hours (3/76).

Recommendation, Skill Level 50

In the vocational certificate category and in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in shop management, and 3 in introduction to management, for a total of 12 semester hours (3/76).

MOS-35P-002

Avionic Equipment Maintenance Supervisor

35P30

35P40

35P50

Exhibit Dates: 9/77–Present.

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Supervises maintenance of aviation communications equipment and electrical/electronic systems equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20 of at least one of the following MOS's: 35K (Avionic Mechanic), 35L (Avionic Communications Equipment Repairer), 35M (Avionic Navigation/Flight Control Equipment Repairer), or 35R (Avionic Special Equipment Repairer); assists in the diagnosis of complex malfunctions; inspects and checks maintenance work for adequacy; implements quality and production control procedures; assigns duties to personnel; instructs in maintenance practices, procedures, and techniques; conducts on-the-job training; assists in complex equipment modifications; supervises from 5-10 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30 of at least one of the following MOS's: 35P, 26D (Ground Control Approach Radar Repairer), 26E (Aerial Surveillance Sensor Repairer), 26K (Aerial Electronic Warning/Defense Equipment Repairer), or 26M (Aerial Surveillance Radar Repairer); supervises, administers and coordinates aviation communications and electrical/electronic systems equipment maintenance activities. Plans and schedules maintenance; supervises the maintenance of equipment records and the requisition of spare parts and supplies; supervises from 8-29 personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises, administers, and coordinates all avionic maintenance activities for 30 or more mechanics and repairers; assists in preparation of plans, policies, and procedures for maintenance operations; applies production, quality control and other maintenance management principles and procedures.

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in advanced electronics systems, and 3 in maintenance supervision. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic communications, 3 in personnel supervision, 3 in human relations, and 3 for field experience in management, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in shop management, and 3 in introduction to management, for a total of 9 semester hours (5/78).

Recommendation, Skill Levels 40 and 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in shop management, and 3 in introduction to management, for a total of 12 semester hours (5/78).

MOS-35R-001

Avionic Radar Equipment Repairman

35R20

Exhibit Dates: 10/73-8/77.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 353 (Avionics Maintenance).

Description

Inspects, tests, and performs preventive maintenance and repair to the module and component level on items such as radar altimeters, terrain following/avoidance radars, doppler navigation radars, and station-keeping radars; test-operates malfunctioning equipment; refers to circuit diagrams; performs detailed tests using voltmeters, ohmmeters, signal generators, oscilloscopes, and other test instruments to localize and isolate the faulty stage or component; determines extent of maintenance required; replaces faulty components to include transistors, solid-state devices, electronic switches, resistors, and capacitors; adjusts relays, dials, and controls using common or specialized handtools; cleans components of dust, rust, and foreign matter; test-operates, aligns, and comparison-checks repaired equipment with specialized test equipment; alters or modifies equipment using prescribed procedures; advises superiors about modifications and maintenance changes; keeps tools and test equipment in operating condition; keeps and completes maintenance and supply forms.

Recommendation

In the vocational certificate category, 6 semester hours in basic electronics, 6 in basic electronics laboratory applications, 6 in avionics instrumentation, 2 in systems maintenance and repair, and 1 in elementary algebra, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 2 in electronic systems, 1 in DC circuit analysis, 1 in AC circuit analysis, 1 in electron devices, 1 in instrumentation, 1 in radar systems, and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 10 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) or 3 in technical electives. In an electrician or electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

MOS-35R-002

Avionic Special Equipment Repairer

35R10

35R20

Exhibit Dates: 9/77-Present.

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Performs duties comparable to those of a Federal Communications Commission Second Class licensee; performs maintenance on special avionics equipment, including terrain following avoidance radar, doppler navigation radar, weather radar, station keeping radar, and inertial navigation systems. *Skill Level 10:* Troubleshoots and isolates equipment malfunctions to the component level; reads and interprets electronic circuit diagrams and schematics; plans and schedules maintenance checks; performs maintenance on special and common hand tools and on test, calibration, diagnostic, and support equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; repairs faulty printed circuit boards; maintains equipment records, authorized spare parts, supply stock, and technical literature.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in electrical and electronic print reading, 4 in avionics maintenance, and 1 in aviation maintenance technology, for a total of 8 semester hours. In the lower-division baccalureate/associate degree category, 3 semester hours in electrical and electronic print reading and 4 in electronics maintenance or avionics technology (5/78).

Recommendation, Skill Level 20

In the vocational certificate category and in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In the upper-division baccalaureate category, 4 semester hours in aviation maintenance management (5/78).

MOS-35S-001

Electronic Biomedical Equipment Repairman

35S20

35S40

Exhibit Dates: 10/74-2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 354 (Medical Equipment Maintenance).

Description

Summary: Repairs or supervises the repair of complex medical equipment (with the exception of x-ray and ancillary equipment) that functions on the basis of electrical, electronic, hydraulic, pressurized gas, steam, and optical principles. *Skill Level 20:* Able to perform the duties required for 35G20 (Biomedical Equipment Repairman); assembles, inspects, installs, adjusts, lubricates, and test-operates medical equipment, including electrocardiographs, electroencephalographs, patient monitoring systems, pulmonary equipment, short-wave diathermy apparatus, blood cell counters, spectrophotometers, ultrasonic therapy and treatment apparatus, heart-lung machines, and radioisotope monitoring and measuring equipment; troubleshoots faulty equipment using volt-ohm-milliameters, signal generators, oscilloscopes, solid-state testing apparatus, and other test equipment; repairs faulty equipment and insures proper calibration; renders technical advice and assistance to medical personnel as required; prepares and explains operating instructions, circuit diagrams, and technical literature; prepares maintenance forms and reports. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises repair, inspection, and testing of electronic medical equipment; assigns duties to subordinate personnel and instructs them in proper repair procedures and techniques; plans, executes, and evaluates programs to assure workload quality and priorities; prepares reports of unit operations; recommends new or improved procedures for receipt, storage, inspection, testing, repair, and modification of equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in medical equipment repair, 5 in technical mathematics, 3 in tube theory and laboratory, 3 in DC theory and laboratory, 3 in AC theory and laboratory, 3 in transistor theory and laboratory, 3 in instrumentation techniques, 3 in physics, 3 in shop practices, 2 in digital theory and laboratory, 2 in anatomy and physiology, 2 in chemistry, 1 in medical terminology, and 1 in medical equipment safety practices and procedures, for a total of 40 semester hours. In the upper-division baccalaureate category, credit in biomedical engineering on the basis of institutional evaluation (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in medical equipment repair, 5 in technical mathematics, 3 in tube theory and laboratory, 3 in DC theory and laboratory, 3 in AC theory and laboratory, 3 in transistor theory and laboratory, 3 in instrumentation techniques, 3 in physics, 3 in shop practices, 2 in personnel supervision, 2 in human relations, 2 in digital theory and laboratory, 2 in chemistry, 2 in anatomy and physiology, 2 in maintenance management, 2 in technical report writing, 1 in medical terminology, and 1 in medical equipment safety practices and procedures, for a total of 48 semester hours. In the upper-division baccalaureate category, credit in biomedical engineering on the basis of institutional evaluation (5/76).

MOS-35S-002

Electronic Biomedical Equipment Repairer

35S10

35S20

35S30

Exhibit Dates: 3/78-Present.

Career Management Field: 91 (Medical), *subfield* 915 (Biomedical Equipment Repair).

Description

Summary: Repairs or supervises the repair of complex medical equipment (with the exception of x-ray and ancillary equipment) that functions on the basis of electrical, electronic, hydraulic, pressurized gas, steam, and optical principles. *Skill Level 10:* Able to perform the duties required for

35G10 (Biomedical Equipment Repairer); assembles, inspects, installs, adjusts, lubricates, and test-operates medical equipment, including electrocardiographs, electroencephalographs, patient monitoring systems, pulmonary equipment, short-wave diathermy apparatus, blood cell counters, spectrophotometers, ultrasonic therapy and treatment apparatus, heart-lung machines, and radioisotope monitoring and measuring equipment; troubleshoots faulty equipment using volt-ohm-millimeters, signal generators, oscilloscopes, transistor testing apparatus, and other test equipment; repairs faulty equipment and insures proper calibration. *Skill Level 20:* Able to perform the duties required for Skill Level 10; renders technical advice and assistance to medical personnel as required; prepares and explains operating instructions, circuit diagrams, and technical literature; prepares maintenance forms and reports. NOTE: May have progressed to 35S20 from 35S10 or 35G20 (Biomedical Equipment Repairer). *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises repair, inspection, and testing of electronic medical equipment; assigns duties to lower skill level personnel and instructs them in proper repair procedures and techniques; plans, executes, and evaluates programs to assure workload quality and priorities; prepares reports of unit operations; recommends new or improved procedures for receipt, storage, inspection, testing, repair, and modification of equipment.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 5 semester hours in technical mathematics, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in medical terminology, 2 in chemistry, 3 in physics, 3 in transistor theory and laboratory, 4 in electronic circuit theory, 4 in instrumentation techniques, 2 in digital theory, 1 in medical equipment safety practices, 4 in medical equipment repair, and 3 in electronics shop practices, for a total of 38 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronics construction methods, 1 in electrical safety, 4 in medical equipment repair, 3 in electronics shop practices, 4 in instrumentation, 2 in digital theory, and 3 in physics, and an additional 3 semester hours in biomedical instrumentation on the basis of institutional evaluation, for a minimum total of 31 semester hours (11/79).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in technical mathematics, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in medical terminology, 2 in chemistry, 3 in physics, 3 in transistor theory and laboratory, 4 in electronic circuit theory, 4 in instrumentation techniques, 2 in digital theory, 1 in medical equipment safety practices, 6 in medical equipment repair, and 3 in electronics shop practices, for a total of 40 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronics construction methods, 1 in electrical safety, 6 in medical equipment repair, 3 in electronics shop practices, 4 in instrumentation, 2 in digital theory, 3 in physics, 3 in personnel supervision, 2 in human relations, and 2 in technical report writing, and an additional 3 semester hours in biomedical instrumentation on the basis of institutional evaluation, for a minimum total of 40 semester hours (11/79).

MOS-35T-001

X-Ray Biomedical Equipment Repairman

35T20

35T40

Exhibit Dates: 10/74–2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 354 (Medical Equipment Maintenance).

Description

Summary: Repairs all types of medical x-ray equipment which functions on the basis of mechanical, hydraulic, electrical, electronic, solid state, and optical principles. *Skill Level 20:* Able to perform the duties of MOS 35G20 (Biomedical Equipment Repairman); inspects, installs, adjusts, maintenance-calibrates, test-operates, rebuilds, and maintains all types of x-ray equipment and ancillary equipment, such as rapid film changers, dye contrast injection apparatus, cineradiography, closed-circuit television, and image intensifiers; employs test equipment such as volt-ohm-milliameters, vacuum tube or solid-state voltmeters, digital voltmeters, signal generators, and oscilloscopes to localize malfunction to the component level; determines utility requirements such as water, waste, or electrical lines and outlets for equipment; provides technical advice and assistance to medical personnel as required; prepares and explains operating instructions, circuit diagrams, technical literature, and reports. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assigns duties to subordinate personnel; instructs them in proper repair procedures and techniques; plans, executes, and evaluates programs to assure workload quality and priorities; recommends new or improved procedures for receipt, storage, inspection, testing, repair, and modification of equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in technical mathematics, 3 in x-ray equipment repair, 3 in medical equipment repair, 3 in tube theory and laboratory, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 3 in transistor theory and laboratory, 3 in physics, 3 in instrumentation techniques, 3 in shop practices, 2 in digital theory and laboratory, 2 in anatomy and physiology, 2 in chemistry, 1 in medical terminology, and 1 in medical equipment safety practices, for a total of 40 semester hours. In the upper-division baccalaureate category and the graduate degree category, credit in biomedical engineering on the basis of institutional evaluation (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 5 semester hours in technical mathematics, 3 in x-ray equipment repair, 3 in medical equipment repair, 3 in tube theory and laboratory, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 3 in transistor theory and laboratory, 3 in physics, 3 in instrumentation techniques, 3 in shop practices, 2 in digital theory and laboratory, 2 in anatomy and physiology, 2 in chemistry, 2 in personnel supervision, 2 in human relations, 2 in technical report writing, 2 in maintenance management, 1 in medical terminology, and 1 in medical equipment safety practices, for a total of 48 semester hours. In the upper-division baccalaureate category and in the graduate degree category, credit in biomedical engineering on the basis of institutional evaluation (5/76).

MOS-35T-002

X-Ray Biomedical Equipment Repairer

35T10

35T20

35T30

Exhibit Dates: 3/78–Present.

Career Management Field: 91 (Medical), *subfield* 915 (Biomedical Equipment Repair).

Description

Summary: Repairs all types of x-ray equipment, including subsystems based on mechanical, hydraulic, electrical, electronic, and optical principles. *Skill Level 10:* Able to perform the duties required for 35G10 (Biomedical Equipment Repairer); inspects, installs, adjusts, calibrates, tests, and maintains all types of x-ray equipment and ancillary equipment including rapid film changers, dye contrast inspection apparatus, cineradiography, closed circuit television and image intensifiers; uses test equipment including volt-ohm-milliameters, vacuum tube or solid-state voltmeters, digital voltmeters, transistor checkers, signal generators, and oscilloscopes; keeps equipment maintenance records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. NOTE: May have progressed to 35T20 from 35T10 or 35G20 (Biomedical Equipment Repairer). *Skill Level 30:* Able to perform the duties required for Skill Level 20; assigns duties; instructs in proper repair procedures; ensures proper maintenance of records; prepares technical and administrative reports pertaining to unit operations; recommends new or improved procedures for receipt, storage, inspection, testing, and repair of equipment.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 5 semester hours in technical mathematics, 3 in physics, 2 in chemistry, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 3 in transistor theory and laboratory, 4 in electronic circuit theory, 4 in instrumentation techniques, 2 in digital theory, 1 in medical equipment safety practices, 4 in x-ray equipment repair, and 3 in electronics shop practices, for a total of 38 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronics construction methods, 1 in electrical safety, 4 in x-ray equipment repair, 3 in electronics shop practices, 4 in instrumentation, 2 in digital theory, and 3 in physics, and an additional 3 semester hours in biomedical instrumentation on the basis of institutional evaluation, for a minimum total of 31 semester hours (11/79).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in technical mathematics, 3 in physics, 2 in chemistry, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 3 in transistor theory and laboratory, 4 in electronic circuit theory, 4 in instrumentation techniques, 2 in digital theory, 1 in medical equipment safety practices, 6 in x-ray equipment repair, and 3 in electronics shop practices, for a total of 40 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 1 in medical terminology, 3 in DC circuit theory and laboratory, 3 in AC circuit theory and laboratory, 1 in electronics laboratory, 3 in electrical/electronics construction methods, 1 in electrical safety, 6 in x-ray equipment repair, 3 in electronics shop practices, 4 in instrumentation, 2 in digital theory, 3 in physics, 3 in personnel supervision, 2 in human relations, and 2 in technical report writing, and an additional 3 semester hours in biomedical instrumentation on the basis of institutional evaluation, for a minimum total of 40 semester hours (11/79).

MOS-35U-001

Biomedical Equipment Maintenance Chief

35U50

Exhibit Dates: 10/74–2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 354 (Medical Equipment Maintenance).

Description

Able to perform the duties of MOS 35S40 (Electronic Biomedical Equipment Repairman) or 35T40 (X-Ray Biomedical Equipment Repairman); serves as a first-line supervisor in a medical equipment maintenance section; supervises all levels of maintenance on all types of medical equipment; plans and lays out medical maintenance facilities; plans workflow, assigns duties, and instructs in maintenance work techniques; makes periodic checks of equipment to determine degree of maintenance effectiveness; establishes and maintains procedures to assure an effective preventive maintenance program for medical equipment; enforces hospital safety directives that apply to medical equipment and associate electronic test equipment; reacts expeditiously to emergency breakdowns of equipment utilized in electrically sensitive patient areas; supervises or assists in establishing reports control system, preparation of equipment maintenance reports, and surveys of medical equipment; provides advice on the advantages of contract maintenance versus in-house maintenance for specific medical systems; advises procurement personnel on function and safety capabilities of technical medical equipment and systems; recommends replacement of medical equipment based upon usage factors and personal experience.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in maintenance management, 3 in personnel supervision, 3 in technical report writing, and 3 in shop management, for a total of 12 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 in industrial arts education (electronics), and additional credit in biomedical engineering on the basis of institutional evaluation for a minimum total of 12 semester hours. In the graduate degree category, credit in biomedical engineering on the basis of institutional evaluation. NOTE: Award additional credit on the basis of previously assigned MOS—either 35S40 (Electronic Biomedical Equipment Repairman) or 35T40 (X-ray Biomedical Equipment Repairman) (6/76).

MOS-35U-002

Biomedical Equipment Maintenance Chief

35U40

35U50

Exhibit Dates: 3/78–Present.

Career Management Field: 91 (Medical), *subfield* 915 (Biomedical Equipment Repair).

Description

Summary: Supervises maintenance on all types of medical equipment. *Skill Level 40:* Able to perform the duties required for MOS 35S (Electronic Biomedical Equipment Repairer) or MOS 35T (X-ray Biomedical Equipment Repairer); establishes procedures for the proper operation and maintenance of biomedical equipment; ensures that all test and measuring equipment is calibrated properly; plans workflow and assigns duties; conducts in-service training programs; establishes maintenance and inventory records; advises and assists superiors in administrative, fiscal, personnel and supply matters; monitors requisitioning storage, issue, and utilization of supplies and equipment. NOTE: May have progressed to 35U40 from 35S30 (Electronic Biomedical Equipment Repairer) or 35T30 (X-ray Biomedical Equipment Repairer). *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises medical equipment maintenance operations; writes, develops, and coordinates regulations and policies pertaining to biomedical instrumentation material maintenance programs; provides guidance to subordinate units in the development of annual training programs; determines need for and schedules personnel for attendance at specialized manufacturer's courses; serves as team chief for medical maintenance assistance and instruction teams.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management and 3 in record keeping. In the upper-division baccalaureate category, 3 semester hours in human relations, 3 in introduction to management, and 3 in personnel management, and credit in biomedical engineering on the basis of institutional evaluation, for a minimum total of 9 semester hours (11/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in record keeping, 3 in public speaking, and 3 in technical writing, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in human relations, 3 in introduction to management, 6 in personnel management, and 6 in industrial arts education (electronics), and credit in biomedical engineering on the basis of institutional evaluation, for a minimum total of 18 semester hours (11/79).

MOS-36C-001

Telephone Installer and Lineman (Lineman)

36C20

36C40

36C50

Exhibit Dates: 10/73–2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Can identify tools, materials, hardware, and supply nomenclature used in wood pole construction and, to a limited extent, in formal underground systems; climbs and works on wood structures, using tools and techniques compatible with industry practice; has some knowledge of telephone line cable practices; MOS 36C equates directly with the trade classification of installer as used by both the telephone and cable television industries. *Skill Level 20:* Knows line work processes, including safety practices, first aid procedures, and tools and equipment nomenclature; performs maintenance on wood pole lines and, to a limited degree, formal underground systems. *Skill Level 40:* Able to perform the duties required for Skill Level 20; functions as a telephone installer crewleader, supervising from 8 to 32 persons (one to four pole line construction teams); makes routine maintenance checks from a prescribed list; uses some specialized installation and operational techniques; records work and personnel information. NOTE: May have progressed to 36C40 from 36C20 or 36K40 (Tactical Wire Operations Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; could serve as a telephone installer foreman, if this position existed in industry, or as an installer-dispatcher with a large telephone system; installs and repairs cables; follows circuit charts; prepares technical and administrative reports; keeps limited records; supervises training. NOTE: May have progressed to 36C50 from 36C40, 36D40, 36D50 (Antennaman), 36E40 (Cable Splicer), or 36H50 (Dial Central Office Repairman).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen). In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 3 in telephone installation. In a telephone lineman or a cable television apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. In a construction lineman or a utility lineman apprentice training program, 500 clock hours of experience and 30 contact hours of related instruction. In a telephone cable splicer or a network lineman apprentice training program, 250 clock hours of experience and 20 contact hours of related instruction. NOTE: The skills and knowledge of this MOS classification are usually regarded by industry as achieved by a trainee program rather than through formal apprenticeship (2/75).

Recommenation, Skill Level 40

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 3 in cable communications systems. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 3 in telephone installation, 2 for field experience in education, and 3 in personnel supervision, for a total of 14 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 6 in cable communications systems. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 6 in personnel supervision, 4 in telephone installation, and 4 for field experience in education, for a total of 20 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/75). In March 1976, 36C50 was reevaluated and the following additional recommendation was made: In the upper-division baccalaureate category, 3 semester hours in introduction to management, 6 for field experience in management, and 3 in human relations, for a minimum total of 12 semester hours; *if the duty assignment was first sergeant or operations sergeant at Grade E-8,* 3 additional semester hours in personnel management, for a total of 15 semester hours; and/or *if the duty assignment was chief instructor at a formal training facility or chief training NCO at Grade E-9,* 3 additional semester hours for an internship in education, for a maximum total of 15 or 18 semester hours (3/76).

MOS-36C-002

WIRE SYSTEMS INSTALLER/OPERATOR

36C10
36C20
36C30
36C40
36C50

Exhibit Dates: 3/78–Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Installs, operates, supervises, and performs operator maintenance on wire and cable communications systems. MOS 36C equates directly with the trade classification of installer as used by both the telephone and cable television industries. *Skill Level 10:* Installs and operates telephones and switchboards; installs, splices, and loads wire and cable circuits;. climbs poles to perform cable operations. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises installation, operation, and performance of operator maintenance by subordinate personnel; schedules operator shift personnel, and estimates materiel needs for tactical communications installations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; coordinates and supervises all phases of wire/cable and distribution systems; assigns working crews and coordinates shift personnel; instructs and assists in training unit personnel; may supervise 7-15 persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises all phases of wire/cable installation and operations; coordinates shift personnel; prepares reports on installation and maintenance; coordinates and supervises training; may supervise 30 or more persons. *Skill Level 50:* Able to perform the duties required for Skill Level 40; plans, monitors, and/or supervises installation, operation, maintenance, and training of personnel for wire and cable communications systems; may serve as principal noncommissioned officer; could serve as a telephone installer foreman, if this position existed in industry, or as an installer-dispatcher with a large telephone system.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen). In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 3 in telephone installation (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 3 in cable communications systems. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 3 in telephone installation, and 2 in personnel supervision, for a total of 11 semester hours (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 3 in telephone installation, and 3 in personnel supervision, for a total of 12 semester hours (10/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 3 in telephone installation, 3 in personnel supervision, and 2 in instructional techniques, for a total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in introduction to management (10/79).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen) and 6 in cable communications systems. In the lower-division baccalaureate/associate degree category, 6 semester hours in pole and line construction (for radio and television broadcasting, telephone, and telegraph linemen), 6 in personnel supervision, 4 in telephone installation, and 4 in instructional techniques, for a total of 20 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 in human relations, for a minimum total of 12 semester hours; *if the duty position was first sergeant or wire systems operations sergeant,* 3 additional semester hours in personnel management for a total of 15 semester hours (10/79).

MOS-36D-001

ANTENNAMAN

36D20
36D40
36D50

Exhibit Dates: 3/74–2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Erects, anchors, and braces antenna towers complete with electrically controlled directional or fixed antennas; makes electrical connections of control and transmission cables between antennas and ground equipment; inspects, repairs, and tests electrical devices used to rotate antennas. *Skill Level 20:* Performs basic procedures and techniques involved in the installation of pole and steel tower antennas; bores holes and erects poles using motorized equipment; transports, assembles, and disassembles antenna towers using manual and motorized equipment; constructs antenna base and braces towers; adjusts tower guy wires for proper tension; has a basic knowledge of tower and antenna configuration for different operational requirements. *Skill Level 40:* Able to perform the duties required for Skill Level 20; organizes, supervises, and coordinates antenna installation, maintenance, and rehabilitation; instructs 8-30 subordinate antennamen in approved techniques for antenna installation and maintenance; estimates time, supplies, personnel, and equipment required for installation of antennas and towers. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principal noncommissioned officer of an antenna maintenance team in a unit operating independently (without an officer); performs technical and administrative duties including writing reports, providing technical guidance to personnel related to complex construction and rehabilitation of antenna installations, and interpreting new technical literature.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in heavy equipment operation (boring and tower erection equipment), 3 basic electricity (DC circuits), 3 in basic electrical motors and servos, and 3 in antennas (basic electronics), for a total of 12 semester hours. In a radio-television repairman apprentice training program, 500 clock hours of experience in antenna installation and maintenance (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division bacca-

laureate/associate degree category, 3 semester hours in heavy equipment operation (boring and tower erection equipment), 3 in basic electricity (DC circuits), 3 in basic electrical motors and servos, 3 in antennas (basic electronics), 3 in introduction to management, and 3 in human relations, for a total of 18 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (3/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (3/76).

MOS-36D-002

Antenna Installer Specialist

36D10
36D20
36D30
36D40

Exhibit Dates: 3/78–Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Selects site, erects, anchors and braces antenna towers and antenna systems; makes connections of transmission cable or waveguide between antenna and ground equipment; inspects and performs preventive maintenance and repairs on towers and bases. *Skill Level 10:* Performs basic procedures of antenna tower erection; assists in determining proper site, constructing base and antenna support towers, adjusting guy wires for correct tension; uses motorized equipment for drilling base holes and erecting towers and poles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs basic procedures of installation of pole and steel tower antennas; bores holes and erects poles, using motorized equipment; transports, assembles and disassembles antenna towers; attaches and adjusts guy wires and braces; has basic knowledge of tower and antenna configuration for different operational requirements and climatic conditions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; organizes, supervises, and coordinates antenna installation, maintenance, and repair; instructs subordinate antennamen in approved techniques for antenna installation and maintenance; estimates time, supplies, equipment, and personnel necessary for tower installation or repair; may supervise 3 or more antenna installers. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs technical and administrative duties attached to performance of the duty of team chief; supervises 3 or more antenna crews or 8 or more installer specialists; writes reports, provides technical guidance to personnel on maintenance, installation, and interpretation of new technical literature; supervises on-the-job training of antenna team.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in basic electricity, and credit in the building trades, construction, and heavy equipment on the basis of institutional evaluation (5/79).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity, 3 in antenna maintenance, and credit in the building trades, construction, and heavy equipment on the basis of institutional evaluation (5/79).

Recommendation, Skill Level 30

In the vocational certificate category the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity, 3 in antenna maintenance, 2 in human relations, 2 in maintenance management, and 2 in personnel supervision, and credit in the building trades, construction, and heavy equipment on the basis of institutional evaluation, for a minimum total of 11 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower division baccalaureate/associate degree category, 2 semester hours in basic electricity, 3 in antenna maintenance, 3 in human relations, 3 in maintenance management, and 3 in personnel supervision, and credit in the building trades, construction, and heavy equipment on the basis of institutional evaluation, for a minimum total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/79).

MOS-36E-001

Cable Splicer

36E20
36E40

Exhibit Dates: 10/73–2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Splices all types of communication cables. *Skill Level 20:* Prepares, tests, and joins insulated conductors in multiple-conductor cables; splices and seals spliced openings on nonquadded, quadded, coaxial, and video cables in aerial, trenched, underground, submarine, or building installations; tests, troubleshoots, and repairs pressurized and nonpressurized multiconductor telephone cable; locates and installs cable terminals; terminates and connects cables to distribution boxes and distribution frames; operates mechanical ladders and hydraulic booms; climbs poles and operates pump equipment; repairs cables and cable terminals, complying with standard splicing practices and safety procedures; interprets line route maps, overlays, circuit diagrams, detail splice diagrams, cable route prints, cable plant records, splicing diagrams, and symbols commonly used in cable communications system diagrams; employs cable splicer hand tools, electrical test sets, cable splicer auxiliary equipment, and common construction tools. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 4–10 cable splicers; demonstrates splicing techniques and procedures; interprets specifications on the construction of manholes, cable vaults, and cable huts; prepares central office cable records, detail splicing diagrams, and cable route prints; reviews, consolidates, and prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in electrical cable installation and 3 in electronics fundamentals (DC circuits). In a cable splicer apprentice training program, 500 clock hours of experience (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical cable installation, 3 in electronics fundamentals (DC circuits), 3 in introduction to management, and 3 in human relations, for a total of 12 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (3/76).

MOS-36E-002

Cable Splicer

36E10
36E20
36E30

Exhibit Dates: 3/78–Present. Pending evaluation.

MOS-36G-001

Manual Central Office Repairman

36G20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 36G was discontinued and its functions were incorporated into MOS 36H, Dial/Manual Central Office Repairer.)

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Maintains manual central office telephone exchange equipment; wires mainframe, switchboard, relay racks, and related units; performs minor maintenance on equipment including replacement or repair of broken wires, jumpers, and cables; adjusts openings between contacting parts; tests and changes spring tensions; conducts operating and electrical tests and compares results with specified standards; reconditions components, replaces parts, and rewires equipment; reads circuit and wiring diagrams; computes voltage, amperage, and resistance factors involving simple algebraic formulas.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity. Advanced standing in a telephone exchange repairman apprentice training program on the basis of employer or trade association performance examination (3/76).

MOS-36H-001

Dial Central Office Repairman

36H20
36H40
36H50

Exhibit Dates: 10/73-2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Installs, maintains, and repairs inside and outside plant dial telephone equipment. *Skill Level 20:* Installs wiring; mechanically secures mainframes; conducts tests; inspects, adjusts, and test relays, troubleshoots and repairs or replaces defective components such as relays, wiring, and terminal boards; assists in identifying cable troubles. NOTE: May have progressed to 36H20 from 36G20 (Manual Central Office Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; plans installation, operation, and maintenance procedures and techniques; normally supervises 15 to 25 persons; allocates resources; interprets wiring diagrams, specifications, color-code charts, and technical literature pertaining to wire communications systems; demonstrates installation, operation, and maintenance techniques; diagnoses unusual cases of equipment malfunction. *Skill Level 50:* Able to perform the duties required for Skill Level 40; normally supervises more than 25 persons; statistically analyzes the system for planning and operational loading; prepares work schedules, directs record keeping, and requisitions supplies; reviews, consolidates, and prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in basic electricity/electronics with laboratory. In a P.B.X. installer (telephone and telegraph) apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a telephone repairman apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. In a central office installer-repairman apprentice training program, 500 clock hours of experience and 36 contact hours of related instruction (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in basic electricity/electronics with laboratory. In the lower-division baccalaureate/associate degree category, 4 semester hours in basic electricity/electronics with laboratory, 3 in introduction to management, 3 in personnel supervision, and 3 in human relations, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours in communications electricity and 3 for field experience in management. In a telephone repairman or P.B.X. installer (telephone and telegraph) apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a central office installer-repairman apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in basic electricity/electronics with laboratory. In the lower-division baccalaureate/associate degree category, 4 semester hours in basic electricity/electronics with laboratory, 3 in introduction to management, 3 in personnel supervision, 3 in human relations, and 3 in technical writing, for a total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours in communications electricity and 6 for field experience in management, for a total of 9 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 40 because additional skills are administrative and supervisory in nature (3/76).

MOS-36H-002

Dial/Manual Central Office Repairer

36H10
36H20
36H30
36H40

Exhibit Dates: 3/78-Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Installs, maintains, and repairs central office telephone exchange equipment. *Skill Level 10:* Installs wiring; replaces or repairs system components; conducts operating and electrical tests; uses schematic diagrams to diagnose and locate malfunctions; uses general purpose and special electronic meters to test for signals. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and assists Skill Level 10 personnel in locating and repairing system malfunctions; conducts technical inspection of central office equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the installation, operation, and maintenance of central office telephone exchange equipment; diagnoses unusual causes of equipment malfunction; prepares and maintains technical and administrative records and reports; prepares work schedules; may supervise from six to eight persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans for and supervises the installation, operation and maintenance activities; prepares work schedules and specific assignments; requisitions supplies; monitors and corrects faulty work procedures; advises superiors about optimum utilization; may supervise eight or more persons; may be in charge of several central offices.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 2 in troubleshooting techniques, 2 in solid-state circuits, and 2 in electronic communications, for a total of 12 semester hours (5/79).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 4 in troubleshooting techniques, 3 in solid-state circuits, and 4 in electronic communications, for a total of 17 semester hours (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, and 4 in electronic communications, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, 4 in electronic communications, 3 in maintenance management, 2 in personnel supervision, 3 in human relations, and 2 in record keeping, for a total of 28 semester hours. In the upper-division baccalaureate category, 2 semester hours for field experience in management (5/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, 4 in electronic communications, 3 in maintenance management, 3 in personnel supervision, 3 in human relations, and 3 in record keeping, for a total of 30 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in office management (5/79).

MOS-36K-001

Tactical Wire Operations Specialist
(Field Wireman)

36K20
36K40

Exhibit Dates: 10/73-2/78.

Career Management Field: 36 (Wire, Antenna, and Central Office Maintenance).

Description

Summary: Installs and maintains field wire communications systems and performs related operating duties in field telephone centers. *Skill Level 20:* Installs and maintains field telephone and switchboards; climbs poles and constructs field wire lines; recovers and services field wire; uses grid and line route maps; employs lineman's common hand tools and testing devices; locates and repairs shorts, grounds, opens, and other damage in wire communications systems; operates switchboards and prepares, edits, transmits, and routes messages. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 4-8 field wiremen in the installation, operation, and maintenance of field wire communications systems; allocates resources and assigns workloads; demonstrates techniques of wire and cable installation and maintenance; interprets maps, overlays, and wire construction requirements.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC current) (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electricity (DC current) and 3 in map reading. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC current), 3 in map reading, 3 in introduction to management, and 3 in human relations, for a total of 12 semester hours (3/76).

MOS-36K-002

Tactical Wire Operations Specialist

36K10
36K20

Exhibit Dates: 3/78–Present. Pending evaluation.

MOS-36L-001

Electronic Switching Systems Repairman

36L20
36L30

Exhibit Dates: 3/77–2/78. Pending evaluation.

MOS-36L-002

Electronic Switching Systems Repairer

36L10
36L20
36L30

Exhibit Dates: 3/78–Present. Pending evaluation.

MOS-41B-001

Topographic Instrument Repairman

41B20

Exhibit Dates: 10/73–2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 812 (Surveying).

Description

Maintains, disassembles, repairs, tests, adjusts, and reassembles all topographic and cartographic instruments.

Recommendation

In the vocational certificate category, 22 semester hours in surveying and cartographic instrument repair and 2 in use and care of tools and equipment. In the lower-division baccalaureate/associate degree category, 4 semester hours in instrument repair and 2 in use and care of tools and equipment (12/75).

MOS-41B-002

Topographic Instrument Repair Specialist

41B10
41B20

Exhibit Dates: 3/77–Present.

Career Management Field: 81 (Topographic Engineering), *subfield* 812 (Surveying).

Description

Summary: Performs maintenance on topographic survey and cartographic equipment. *Skill Level 10:* Inspects equipment for damaged, defective, or malfunctioning parts or assemblies; adjusts and performs operational tests on equipment; checks optics for such conditions as lens aberrations, parallax, tilt of recticule, and scratched lens; disassembles equipment and replaces defective parts with standard items; interprets blueprints, and military or manufacturers' specifications; isolates and corrects trouble; lays out and fabricates unobtainable metal parts or coordinates their fabrication with machinists, welders, or other specialists; makes sketches or diagrams used in disassembling and reassembling equipment or fabricating parts; applies principles of basic electricity when making minor electrical repairs; makes precision bits and clearances using precision measuring instruments; requisitions and inventories spare parts; prepares maintenance records. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; controls quality of topographic instrument maintenance to final inspection of repairs performed; estimates cost of repairs, parts, and labor; prepares and reviews maintenance records and reports; schedules and assigns duties; fabricates special tools; overhauls and rebuilds equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in survey and optical instrument repair, 3 in basic surveying, and 2 in care and use of tools and equipment, for a total of 11 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in survey and optical instrument repair, 3 in basic surveying, 2 in care and use of tools and equipment, and credit in optics on the basis of institutional evaluation, for a minimum total of 8 semester hours (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in survey and optical instrument repair, 3 in basic surveying, 2 in use and care of tools and equipment, and 2 in record keeping, and credit in optics on the basis of institutional evaluation, for a minimum total of 10 semester hours (5/78).

MOS-41C-001

Fire Control Instrument Repairman

41C10
41C20
41C40

Exhibit Dates: 10/73–8/75.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 636 (Armament Maintenance).

Description

Summary: Performs maintenance on fire control instruments and related equipment. *Skill Level 10:* Assists in maintenance, repair, and modification of binoculars, aiming circles, telescopes, range finders, and periscopes; uses hand tools, power tools, and test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects, tests, repairs, and synchronizes fire control systems; tests, adjusts, and repairs optical systems; checks and repairs electrical circuits, using instruments such as ohmmeters, voltmeters, and null-voltage test sets; conducts operating tests to insure that instruments perform within specified tolerances and performance standards. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises subordinate personnel; plans the use of facilities and equipment; administers shop safety program; requisitions parts, equipment, and supplies; conducts final operating instrument tests.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in use and care of hand and power tools (3/75).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in use and care of hand and power tools and 3 in applied physics. In the lower-division baccalaureate/associate degree category, 3 semester hours in applied physics and additional credit on the basis of institutional evaluation (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in use and care of hand and power tools, 1 in records administration, and 3 in applied physics, for a total of 5 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in shop management, 3 in personnel supervision, and 3 in applied physics, and additional credit on the basis of institutional evaluation, for a minimum total of 7 semester hours. In the upper-division baccalaureate category, 3 semester hours in administration and additional credit on the basis of institutional evaluation (3/75).

MOS-41C-002

Fire Control Instrument Repairer
(Fire Control Instrument Repairman)

41C10
41C20
41C30
41C40

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 634 (Armament Maintenance).

Description

Summary: Supervises or performs maintenance on fire control instruments and related equipment. *Skill Level 10:* Performs maintenance on fire control instruments and related equipment including binoculars, aiming circles, telescopes, rangefinders, and mechanical/electrical ballistic computers and output devices mounted in vehicles; utilizes hand and power tools and testing equipment in the removal, repair, replacement, and synchronization of fire control systems used in tanks and self-propelled and towed artillery; tests optical instruments for conditions such as parallax, lens aberration, tilt of reticle, and deviations in line of sight; traces circuits by referring to schematic diagrams; tests instruments to insure performance within specified standards and tolerances. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs preliminary and final inspection of fire control instruments and related equipment; is a first-line supervisor in direct and general support units; conducts on-the-job training; prepares maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises fire control instrument maintenance activities; organizes the shop layout; establishes and administers a shop safety program; requisitions repair parts and materials; uses technical publications; performs final operating tests. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises fire control instrument and fire control computer maintenance activities. NOTE: May have progressed to 41C40 from 41C30 or 34G30 (Fire Control Computer Repairman).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in applied physics, 3 in optical instrument repair laboratory, and 1 in use and care of tools, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, a minimum of 3 semester hours in applied physics, and additional credit in applied physics, optics, and instrument repair on the basis of institutional evaluation. In an industrial pyrometry and instrument repairman or recording instruments maintenance and repairman apprentice training program, 1,000 clock hours of experience and 60 contact hours of related instruction, *if the duty assignment of fire control instrument repairman was held for a minimum of one year* (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in applied physics, 3 in optical instrument repair laboratory, 1 in use and care of tools, and 1 in records administration, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, a minimum of 3 semester hours in applied physics and additional credit in applied physics, optics, and instrument repair on the basis of institutional evaluation. In an industrial pyrometry and instrument repairman or recording instruments maintenance and repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, *only if the duty assignment of fire control instrument repairman was held for a minimum of one year* (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in applied physics, 3 in optical instrument repair laboratory, 3 in shop practices and procedures, 1 in use and care of tools, and 1 in records administration, for a total of 11 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in applied physics, 2 in shop practices and procedures, 2 in personnel supervision, and 1 in records administration, and additional credit in applied physics, optics, and instrument repair on the basis of institutional evaluation, for a minimum total of 8 semester hours. In an industrial pyrometry and instrument repairman or recording instruments maintenance and repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in applied physics, 3 in optical instrument repair laboratory, 3 in shop practices and procedures, 1 in use and care of tools, and 1 in records administration, for a total of 11 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in applied physics, 3 in personnel supervision, 2 in shop practices and procedures, and 1 in records administration, and additional credit in applied physics, optics, and instrument repair on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management. In an industrial pyrometry and instrument repairman or recording instruments maintenance and repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-41E-001

Camera Repairman

41E20

Exhibit Dates: 10/73–2/77.

Career Management Field: 72 (Telecommunications and Audio-Visual), *subfield* 722 (Audio-Visual).

Description

Performs maintenance and repair on still and motion picture cameras and on darkroom equipment; demonstrates a knowledge of light, light sources, darkroom procedures, films, photo-chemistry, and operation of single-lens-reflex, twin-lens-reflex, and large-format cameras (including lens and shutter assemblies, film transport/release mechanisms, and camera bodies).

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic photography, 6 for field experience in photography, 3 in audio-visual equipment repair, 3 in troubleshooting concepts, and 3 in use of test equipment, for a total of 21 semester hours (5/76).

MOS-41E-002

Audio-Visual Equipment Repairer (Audio-Visual Equipment Repairman)

41E10

41E20

Exhibit Dates: 3/77–Present.

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Performs maintenance and repair on still cameras, motion picture cameras, darkroom equipment, and audio-visual equipment. *Skill Level 10:* Demonstrates a knowledge of light, light sources, darkroom procedures, film, photochemistry, operation of a single-lens-reflex, twin-lens-reflex, and large-format cameras (including lens and shutter assemblies, film transport/release mechanism, and camera bodies), projectors, and audio equipment; assists in troubleshooting faulty equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides guidance to Skill Level 10 personnel; troubleshoots faulty equipment.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in physics (light and sound), 3 in troubleshooting concepts, 3 in audio-visual equipment operation, 3 in care and use of testing equipment, 6 in basic photography, 3 in audio-visual equipment repair, 6 for field experience in photography, and credit in technical mathematics (as it relates to electricity) and basic electronics on the basis of institutional evaluation, for a minimum total of 30 semester hours (5/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in physics (light and sound), 3 in troubleshooting concepts, 3 in troubleshooting techniques, 3 in audio-visual equipment operation, 3 in care and use of testing equipment, 6 in basic photography, 3 in audio-visual equipment repair, 6 for field experience in photography, and credit in technical mathematics (as it relates to electricity) and basic electronics on the basis of institutional evaluation, for a minimum total of 33 semester hours (5/78).

MOS-41F-001

Projector Repairman

41F20

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 41F was discontinued and its functions were incorporated into MOS 41E, Audio-visual Equipment Repairman.)

Career Management Field: 72 (Telecommunications and Audio Visual), *subfield* 722 (Audio Visual).

Description

Inspects, troubleshoots, repairs, and test-operates projection equipment.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in physics of visual phenomena, light, and sound, 6 in troubleshooting concepts, 3 in audio-visual equipment repair, and 3 in use of test equipment, for a total of 15 semester hours (5/76).

MOS-41G-001

Surveillance Photographic Equipment Repairman

41G20

Exhibit Dates: 10/73–8/77.

Career Management Field: 26 (Non-Integrated Radar Maintenance), *subfield* 263 (Airborne Surveillance Equipment Repair).

Description

Inspects and test-operates photographic equipment to detect and determine general faults; replaces minor defective parts or replaceable assemblies and adjusts items to operating conditions; disassembles malfunctioning equipment into component assemblies and systems for further inspection; gauges mechanical parts to detect wear and misalignment; straightens or replaces bent mechanical parts and components; replaces and adjusts optical elements; paints and refinishes equipment cases and containers; inspects and tests electrical and electronic equipment to ascertain condition and functioning; repairs electronic circuits associated with cameras; assembles repaired equipment and test-operates and makes adjustments to assure proper functioning; stores tools and testing equipment.

Recommendation

In the vocational certificate category, 1 semester hour in shop practices, 1 in industrial science, 3 in introductory electronics, 2 in AC-DC circuits, 2 in electron devices, 2 in systems maintenance, 2 in intermediate circuits, 1 in electronic instrumentation, and additional credit in machine shop on the basis of institutional evaluation, for a minimum total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic photography, 3 in introductory electronics, 2 in AC-DC circuits, 2 in electron devices, and 1 in electronic instrumentation, for a total of 14 semester hours. In the upper-division baccalaureate category, 6 semester hours in advanced photography. In an electronic technician apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-41G-002

Aerial Surveillance Photographic
Equipment Repairer

41G10
41G20

Exhibit Dates: 9/77-Present. Pending evaluation.

MOS-41H-001

Photographic Equipment Repair Chief

41H40

Exhibit Dates: 10/73-3/77. (Effective 3/77, MOS 41H was discontinued and its functions were incorporated into MOS 26T, Radio/Television Systems Specialist, and MOS 84T, TV/Radio Broadcast Operations Chief.)

Career Management Field: 72 (Telecommunications and Audio Visual), *subfield* 722 (Audio Visual).

Description

Able to perform the duties required for 41E20 (Camera Repairman), 41F20 (Projector Repairman), or 41G20 (Surveillance Photographic Equipment Repairman); supervises a photographic equipment repair center consisting of 10 to 20 photographic equipment maintenance personnel; develops procedures and standards and inspects repaired equipment to assure high standards of work performance; assigns duties; applies production line procedures for the maintenance of photographic equipment; corrects improper techniques and procedures and explains proper methods; interprets and explains technical literature and diagrams; requisitions supplies; prepares technical and administrative reports.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in basic photography, 6 for field experience in photography, 6 in troubleshooting concepts, 3 in use of test equipment, 6 in audio-visual equipment repair, 3 in introductory electronics, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 39 semester hours. In the upper-division baccalaureate category, 3 semester hours in maintenance management or industrial management (5/76).

MOS-41J-001

Office Machine Repairman

41J20
41J40

Exhibit Dates: 10/73-8/75.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 631 (Precision Devices).

Description

Summary: Performs general maintenance on office machines, excluding electronic calculators and accounting equipment. *Skill Level 20:* Diagnoses the causes of malfunctions; repairs, adjusts, cleans, and lubricates office machines; tests machines to determine the effectiveness of adjustments and repairs. *Skill Level 40:* Able to perform the duties required for Skill Level 20; diagnoses more complex malfunctions; supervises maintenance activities; makes final inspections; orders, stores, and distributes parts; establishes shop policies and procedures; supervises a minimum of five persons.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in office machine repair laboratory. In the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation. In a business machines mechanic apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in office machine repair. In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, a minimum of 3 semester hours in management and additional credit on the basis of institutional evaluation. Journeyman status (defined as 6,000 clock hours of experience and 432 contact hours of related instruction) as a business machines mechanic (2/75).

MOS-41J-002

Office Machine Repairer
(Office Machine Repairman)

41J10
41J20
41J30
41J40

Exhibit Dates: 9/75-Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 631 (Precision Devices).

Description

Summary: Performs general maintenance on office machines, excluding electronic calculators and accounting equipment. *Skill Level* 10: Assists in maintaining office machines; adjusts office machines. *Skill Level 20:* Able to perform the duties required for Skill Level 10; analyzes condition and operating efficiency of office machines; diagnoses causes of malfunctions; determines maintenance requirements and replaces defective or excessively worn parts and assemblies; disassembles, repairs, cleans, adjusts, tightens, lubricates, reassembles, and test-operates machines. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the maintenance of office machines; inspects machines with complex malfunctions to determine the extent of repairs required; makes final inspection of machines maintained or repaired by Skill Level 10 and 20 personnel; instructs Skill Level 10 and 20 personnel in general and specialized repair operations; keeps maintenance records. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises office machine maintenance activities of a large unit or in a repair shop; usually supervises a minimum of 14 persons; instructs personnel on repair of non-electric and electric typewriters, adding machines, and calculators.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, 3 in basic electricity, and 3 in office machine repair laboratory, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, and 3 in basic electricity, for a total of 6 semester hours. In a business machine or office machine repairman apprentice training program, 1,000 clock hours of experience and 60 contact hours of related instruction, *only if the duty assignment of office machine repairman was held for a minimum of one year* (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in use and care of hand tools; 2 in shop practices and procedures, 3 in basic electricity, and 6 in office machine repair laboratory, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, and 3 in basic electricity, and additional credit in electricity and office machine repair on the basis of institutional evaluation, for a minimum total of 6 semester hours. In a business machine or office machine repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, *only if the duty assignment of office machine repairman was held for a minimum of one year* (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, 3 in basic electricity, 9 in office machine repair laboratory, 1 in records administration, and 2 in personnel supervision, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, 3 in basic electricity, 1 in records administration, and 2 in personnel supervision, and additional credit in electricity, office machine repair, records administration and personnel supervision on the basis of institutional evaluation, for a minimum total of 9 semester hours. In a business machine or office machine repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, 3 in basic electricity, 9 in office machine repair laboratory, 1 in records administration, and 2 in personnel supervision, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in use and care of hand tools, 2 in shop practices and procedures, 3 in basic electricity, 1 in records administration, and 2 in personnel supervision, and additional credit in electricity, office machine repair, records administration, and personnel supervision on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management. In a business machine or office machine repairman apprentice training program, 1,300 clock hours of experience and 60 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12-75).

MOS-41K-001

Reproduction Equipment Repairman

41K20

Exhibit Dates: 10/73–2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 813 (Map Reproduction and Printing).

Description

Repairs printing equipment, including duplicators, offset presses, process cameras, and bindery, platemaking, and other machines.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools, 3 in offset press operation, 3 in process camera operation, 3 in bindery operation, 1 in platemaking operation, and 6 for field experience in graphic arts, and credit in mechanical maintenance on the basis of institutional evaluation, for a minimum total of 19 semester hours (5/76).

MOS-41K-002

Reproduction Equipment Repair Specialist

41K10

41K20

Exhibit Dates: 3/77–Present.

Career Management Field: 81 (Topographic Engineering), *subfield* 813 (Photolithographer).

Description

Summary: Performs maintenance on printing equipment. *Skill Level 10:* Repairs and test-operates printing equipment including duplicators, offset presses, process cameras, bindery, platemaking, stripping and other machines; assists in troubleshooting faulty equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; troubleshoots faulty equipment; schedules and coordinates equipment maintenance.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in duplicator operation, 3 in offset press operation, 3 in process camera operation, 3 in bindery operation, and 2 in platemaking operation, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in duplicator operation, 3 in offset press operation, 3 in process camera operation, 3 in bindery operation, 2 in platemaking operation, 3 for field experience in graphic arts, 3 in use and care of testing equipment, 1 in troubleshooting techniques, and credit in mechanical maintenance on the basis of institutional evaluation, for a minimum total of 21 semester hours (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in duplicator operation, 3 in offset press operation, 3 in process camera operation, 3 in bindery operation, 2 in platemaking operation, 6 for field experience in graphic arts, 3 in use and care of tools and testing equipment, 3 in troubleshooting techniques, and credit in mechanical maintenance on the basis of institutional evaluation, for a minimum total of 26 semester hours (5/78).

MOS-42C-001

Brace Specialist

42C20

42C40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), *subfield* 911 (Prosthetic Appliances).

Description

Summary: Supervises or performs the construction, repair, and adjustment of orthopedic prosthetic appliances. *Skill Level 20:* Designs and constructs prosthetic devices such as braces, splints, corsets, and corrective footwear from impressions, blueprints, sketches, or other types of specifications; makes mold of limb or deformity or draws pattern from measurements; cuts and fashions devices from metal, plastic, and leather, using welding equipment, forge, riveting machine, drill, and handtools; fabricates and contructs artificial limbs; fits assembled appliance to patient; repairs, readjusts, and refits worn or defective appliances. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises fabrication and fitting of orthopedic appliances; organizes work schedules and assigns duties; instructs personnel in work techniques and procedures; inspects completed prostheses to insure construction according to specifications; requisitions, stores, and issues equipment and supplies.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (includes spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 3 in anatomy and physiology, and 2 in shop practices, for a total of 35 semester hours (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (includes spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 3 in anatomy and physiology, 3 in human relations, 3 in shop management, and 2 in shop practices, for a total of 41 semester hours (3/76).

MOS-42C-002

Orthotic Specialist

42C10

42C20

42C30

42C40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Designs, fabricates, fits, adjusts, and repairs orthotic devices. *Skill Level 10:* Able to perform the duties required for 91B10 (Medical Specialist); assists in designing, fabricating, fitting, adjusting, and repairing orthotic appliances; makes impressions of injured body members and fabricates orthotic appliances of metal, plastic, synthetics, resins, plaster, leather, rubber, textiles, and adhesives, using welding, soldering, forging, riveting, sewing, laminating, brazing, woodworking, pattern and template machines and equipment, and all types of power and hand tools; adjusts constructed appliances and fits to patient; repairs, readjusts, reworks, and refits worn and defective appliances. *Skill Level 20:* Able to perform the duties required for Skill Level 10; measures patient in operating room and molds temporary plastic socket; designs, fabricates, and tests experimental devices for which there are no models or standard pattern; adapts techniques to fit local requirements and available equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance for Skill Level 10 and 20 personnel; instructs subordinates in work techniques and procedures; inspects completed appliances. *Skill Level 40:* Able to perform the duties required for Skill Level 30; establishes work priorities; organizes work schedules and assigns duties; supervises the equipment maintenance program; makes sure the shop is safe, clean, and orderly; determines personnel requirements and prepares and conducts training programs; evaluates personnel performance; prepares administrative, technical, and personnel reports; coordinates orthopedic activities with other elements of the medical treatment facility; advises and assists physicians in professional, fiscal, technical, and administrative matters; establishes stock level for supplies and equipment and supervises the requisitioning, storing, and issuing of supplies.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (includes spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 2 in anatomy, 2 in shop practices, 1 in physiology, and 1 in kinesiology, for a total of 36 semester hours (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (includes spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 3 in clinical orthotics, 2 in anatomy, 2 in shop practices, 1 in physiology, and 1 in kinesiology, for a total of 39 semester hours (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (includes spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 3 in clinical orthotics, 3 in human relations, 2 in anatomy, 2 in shop practices, 1 in physiology, and 1 in kinesiology, for a total of 42 semester hours (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 24 semester hours in orthotic techniques (includes spinal, lower-extremity, and upper-extremity orthotics), 6 in applied design, 3 in clinical orthotics, 3 in human relations, 3 in personnel supervision, 2 in anatomy, 2 in shop practices, 1 in physiology, and 1 in kinesiology, for a total of 45 semester hours. In the upper-division baccalaureate category, 2 semester hours in medical facility management (6/77).

MOS-42D-001

Dental Removable Prosthetic Specialist

42D10
42D20
42D40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), *subfield* 911 (Prosthetic Appliances).

Description

Summary: Supervises or performs basic and advanced procedures in the fabrication and repair of removable dental prosthetic appliances. *Skill Level 10:* Performs basic procedures in the fabrication and repair of removable and fixed dental prosthetic appliances. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs advanced removable dental laboratory techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 20; performs with high degree of competency all dental prosthetic techniques; supervises overall operation of a dental laboratory. NOTE: May have progressed to 42D40 from 42D20 or 42F20 (Dental Fixed Prosthetic Specialist).

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in dental anatomy, 3 in dental materials, 5 in complete dentures, and 5 in removable partial dentures, for a total of 16 semester hours (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 10 semester hours in fixed and removable prosthesis, 9 in dental laboratory, 5 in complete dentures, 3 in dental anatomy, 3 in dental materials, and 1 in ethics of business management, for a total of 31 semester hours (2/75).

MOS-42D-002

Dental Laboratory Specialist

42D10
42D20
42D30
42D40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 911 (Dental).

Description

Summary: Supervises or performs basic and advanced procedures in fabrication and repair of dental prosthodontic appliances. *Skill Level 10:* Able to perform the duties required for 91E10 (Dental Specialist); performs primary procedures in fabrication and repair of removable and fixed dental prosthodontic appliances; reviews and processes prosthodontic prescriptions and consultation requests; prepares and uses basic dental laboratory materials; fabricates casts from preliminary impressions; fabricates final impression trays for complete, immediate complete, removable, and fixed partial dentures; prepares impressions and pours final casts for complete, immediate complete, removable, and fixed partial dentures; fabricates stabilized and nonstabilized occlusion rims for complete, immediate complete, removable, and fixed partial dentures; replaces missing or broken teeth and repairs fractured bases on complete and removable partial dentures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs basic dental laboratory procedures; uses facebrow and measurements to mount casts on adjustable articulator; employs mold guide, occlusion rims, registrations, markings, and interarch measurements to select denture teeth; fabricates maxillary and mandibular complete dentures using conventional and liquid resin techniques; fabricates immediate complete dentures with surgical templates; fabricates removable partial denture prostheses; modifies dental laboratory techniques to fabricate removable complete and partial dentures for cases with variant interarch and interridge relationships; repairs, relines, rebases, and duplicates removable complete and partial dentures; fabricates and repairs basic orthodontic, pedodontic, periodontic, and surgical appliances; fabricates and repairs conventional fixed partial dentures, including crowns, inlays, and preformed pontics; fabricates transitional fixed partial dentures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs advanced dental laboratory procedures or assists in managing a small dental laboratory; fabricates ceramic and porcelain fused-to-metal crowns and fixed partial dentures; fabricates fixed and removable precision appliances; fabricates complex orthodontic, pedodontic, periodontic, and surgical appliances; assists in fabricating maxillofacial appliances; performs quality control procedures; establishes work priorities and assigns duties; organizes work schedules; demonstrates and explains work techniques and procedures to subordinates; evaluates personnel performance; supervises operational maintenance program of laboratory equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in managing a large dental laboratory or a section of a Regional Dental Activity; advises and assists dentists in personnel matters, supply economy procedures, and fiscal, technical, and administrative matters; prepares administrative and technical reports.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in anatomy and tooth morphology, 1 in dental materials, and 1 in complete dentures, for a total of 4 semester hours (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in complete dentures, 3 in partial dentures, 3 in fixed restorative, 2 in anatomy and tooth morphology, 1 in dental anatomy, and 1 in dental materials, for a total of 14 semester hours (6/77).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in complete dentures, 4 in dental ceramics, 3 in partial dentures, 3 in fixed restorative, 2 in anatomy and tooth morphology, 2 in orthodontic procedures, 2 in dental anatomy, 1 in dental materials, and 1 in dental anatomy (occlusion), and additional credit in personnel supervision, for field experience in management, and in communication skills on the basis of institutional evaluation, for a minimum total of 22 semester hours (6/77).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in complete dentures, 4 in dental ceramics, 3 in partial dentures, 3 in fixed restorative, 2 in anatomy and tooth morphology, 2 in orthodontic procedures, 2 in dental anatomy, 2 in personnel supervision, 2 for field experience in management, 2 in oral communication skills, 1 in health care management, 1 in dental materials, and 1 in dental anatomy (occlusion), for a total of 29 semester hours (6/77).

MOS-42E-001

Optical Laboratory Specialist

42E20
42E40
42E50

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), *subfield* 911 (Prosthetic Appliances).

Description

Summary: Supervises or performs the preparation of prescription lenses. *Skill Level 20:* Makes, duplicates, and inserts prescription lenses in spectacle frames and gas masks. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises optical laboratory operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises the functions of the optical laboratory section of a medical depot, providing technical guidance to personnel repairing complex optical equipment; prepares technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in physics and 12 for an optical internship (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in physics, 6 in management and supervision, and 15 for an optical internship, for a total of 24 semester hours (2/75).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in physics, 9 in management and supervision, and 15 for an optical internship, for a total of 27 semester hours (2/75).

MOS-42E-002

Optical Laboratory Specialist

42E10
42E20
42E30
42E40
42E50

Exhibit Dates: 9/76–Present

Career Management Field: 91 (Medical), *subfield* 913 (Health Services).

Description

Summary: Makes prescription lenses or supervises optical laboratories. *Skill Level 10:* Makes, duplicates, and inserts prescription lenses; selects proper stock to fill requirements of spectacle prescription; computes and records curvature and thickness and marks lenses for surfacing; prepares lenses for blocking and surfacing; grinds and polishes lenses to prescribed specifications; locates and identifies optical center, optical axis, and cutting line on lenses; chucks lenses for edging; edges lenses to correct size and shape; hardens glass lenses to required impact resistance; selects and assembles frame components; mounts lenses and aligns frames; prepares completed spectacles for shipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; edits prescriptions and maintains records of prescriptions received by optical unit; calculates and records amount of prism required to permit necessary decentration; calculates and records distance required between top of bifocal or trifocal segments and distance-optical-center to produce prescribed segment height; dyes plastic lenses to specified tints; maintains files of completed spectacle prescriptions; prepares surface work sheets for plastic lens surfacing; marks and blocks plastic lenses for surfacing; applies lens coating; calculates and records positional effective lens power; maintains inventory of supplies and equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a small optical laboratory; inspects completed spectacles for compliance with prescription requirements and quality standards; assigns duties and trains subordinates in work techniques and procedures; determines stock levels; maintains supply records; requisitions, stores, and issues supplies; supervises preventive maintenance of equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a medium-sized optical laboratory; maintains records of cost data and expenditures; makes sure the laboratory is safe, clean, and orderly; supervises quality control procedures; establishes work priorities; organizes work schedules; evaluates personnel performance; plans layout of working areas; prepares technical, personnel, and administrative reports; coordinates activities of the optical laboratory with medical treatment facilities; advises and assists professionals in fiscal, technical, and administrative matters. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises a large optical laboratory; prepares periodic laboratory reports; determines manpower requirements; drafts budget estimates; prepares operating procedures for optical unit.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 10 semester hours for an optical laboratory practicum, 8 in optical laboratory procedures, and 5 in physics (optics), for a total of 23 semester hours (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 10 semester hours for an optical laboratory practicum, 8 in optical laboratory procedures, 5 in physics (optics), 1 in anatomy and physiology, and 1 in office procedures, for a total of 25 semester hours (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 10 semester hours for an optical laboratory practicum, 8 in optical laboratory procedures, 5 in physics (optics), 3 in office procedures, 1 in anatomy and physiology, and 1 in personnel supervision, for a total of 28 semester hours (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 10 semester hours for an optical laboratory practicum, 8 in optical laboratory procedures, 5 in physics (optics), 3 in office procedures, 3 in personnel supervision, 3 for field experience in management, and 1 in anatomy and physiology, for a total of 33 semester hours (6/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 10 semester hours for an optical laboratory practicum, 8 in optical laboratory procedures, 5 in physics (optics), 3 in office procedures, 3 in personnel supervision, 3 for field experience in management, 3 in introduction to management, and 1 in anatomy and physiology, for a total of 36 semester hours. In the upper-division baccalaureate category, 3 semester hours in medical facility management and 3 in management problems (6/77).

MOS-42F-001

Dental Fixed Prosthetic Specialist

42F20

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 42F was discontinued and its functions were incorporated into MOS 42D, Dental Laboratory Specialist).

Career Management Field: 91 (Medical), *subfield* 911 (Prosthetic Appliances).

Description

Able to perform the duties required for 42D10 (Dental Removable Prosthetic Specialist); fabricates and repairs fixed prosthodontic appliances; interprets dentists' prescriptions; pours impressions; prepares models (indices, saws out, and trims dies); waxes, casts, veneers, and finishes crowns and bridges for conventional fixed prostheses; waxes and casts substructures for ceramic crowns and bridges; prepares metal to receive porcelain; applies and bonds porcelain to metal with porcelain furnace; grinds, polishes, and finishes fixed prostheses.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in beginning crown and bridge (conventional) and 5 in advanced crown and bridge (ceramics) (3/76). NOTE: See the recommendation for 42D10 (Dental Removable Prosthetic Specialist) in exhibit MOS-42D-001.

MOS-43E-001

Parachute Rigger

43E20

43E40

43E50

Exhibit Dates: 10/73–2/77.

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 000 (Special Assignment).

Description

Summary: Is a qualified parachutist; packs personnel parachutes and aircraft cargo; fabricates, assembles, repairs, and rigs airdrop equipment. *Skill Level 20:* Packs and tests personnel parachutes; fabricates, rigs, and assembles airdrop equipment; loads, positions, and secures cargo for airdrop. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises and instructs parachute riggers; inspects the work of parachute riggers. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager assisting with planning, coordinating, and supervising all parachute and airdrop activities; normally supervises more than 36 persons.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in parachute inspection and rigging and 5 in airfreight (on-board) management. In the upper-division baccalaureate category, 3 semester hours in technical electives (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in parachute inspection and rigging, 6 in airfreight (on-board) management, and 3 in personnel management, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in technical electives (2/75).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in parachute inspection and rigging, 6 in airfreight (on-board) management, and 6 in personnel management, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in technical electives and 3 in personnel management (2/75).

MOS-43E-002

Parachute Rigger

43E10

43E20

43E30

43E40

43E50

Exhibit Dates: 3/77–Present.

Career Management Field: 76 (Supply and Service), *subfield* 762 (Service).

Description

Summary: Is a qualified parachutist; packs aircraft cargo and personnel parachutes; fabricates, assembles, repairs, and rigs airdrop equipment. *Skill Level 10:* Packs and repairs cargo and personnel parachutes; rigs, fabricates, and assembles airdrop equipment; loads, positions, and secures cargo for airdrops; tests hooks and releases; utilizes repair equipment for parachutists; reads maps; loads, unloads, receives, inspects, inventories, and stores air equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; conducts routine and in-storage inspections of airdrop equipment; tests ripcord and canopy release assemblies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small- and medium-size activities engaged in packing and repairing parachutes and rigging and loading supplies and equipment for airdrop; assigns packers, repairers, riggers, and inspectors; instructs personnel on job requirements and techniques and inspects work in progress; inspects working area to insure a clean and safe working environment; plans and supervises operational equipment maintenance programs; establishes supply requirements; requisitions, stores, and issues supplies and equipment; establishes, develops, and maintains operational and maintenance records and prepares periodic reports; may supervise up to

35 persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large activities engaged in packing and repairing parachutes and rigging and loading of supplies and equipment for airdrop; may supervise up to 50 persons. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as principal noncommissioned officer in airdrop equipment support company; may supervise more than 50 persons, or serve in staff positions.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours of parachute inspection and rigging, and 1 in map reading (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, or in the lower-division baccalaureate/associate degree category, 5 semester hours of parachute inspection and rigging, 5 in air freight (on-board) management, and 1 in map reading, for a total of 11 semester hours (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in parachute inspection and rigging, 6 in air freight (on-board) management, and 1 in map reading, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in parachute inspection and rigging, 6 in air freight (on-board) management, 1 in map reading, 2 in technical report writing, 3 in human relations, and 3 in personnel supervision, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 for field experience in management, 3 in inventory control, 3 in safety procedures, and 2 in records administration, for a total of 14 semester hours (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 6 semester hours in parachute inspection and rigging, 6 in air freight (on-board) management, 1 in map reading, 3 in personnel supervision, 3 in human relations, 2 in technical report writing, and 3 for field experience in management, for a total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 for field experience in management, 3 in inventory control, 3 in safety procedures, 3 in records administration, and 3 in introduction to management, for a total of 18 semester hours (5/78).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in personnel management, 6 for field experience in management, 3 in records administration, 3 in inventory control, 3 in safety procedures, and 3 in introduction to management, for a total of 21 semester hours (5/78).

MOS-43J-001

TEXTILE REPAIRMAN

43J10
43J20
43J40

Exhibit Dates: 10/74–2/76. (Effective 3/76, MOS 43J was discontinued and its functions were incorporated into MOS 43M, Fabric Repairman.)

Career Management Field: 57 (Field Services), *subfield* 573 (Textile Renovation).

Description

Summary: Repairs or supervises the repair and alteration of clothing and other textile items. *Skill Level 10:* Assists in repair and alteration of textile items and clothing; operates electric and pedal-driven sewing, stitching, and patching equipment; performs minor repairs and some preventive maintenance on textile repair equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; fabricates and repairs textile items; sizes, fits, and sews worn or damaged clothing; maintains and operates mobile textile repair facilities. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises textile repair personnel; performs complex mending, alteration, and renovation of clothing and textile items; demonstrates and instructs in machine sewing operations; demonstrates the operation of mobile units and other field operations; supervises the maintenance of textile repair equipment and related activities in mobile and fixed shop operations; assigns personnel to work positions; inspects completed work for accuracy; estimates supply requirements.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in power sewing machine operation and 4 for field experience in sewing operations (11/75).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in power sewing machine operation and 6 for field experience in sewing operations (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in power sewing machine operation and 8 for field experience in sewing and tailoring operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in introduction to management, 2 in personnel management, 2 in records administration, and 1 in first aid, for a total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in introduction to management (11/75).

MOS-43K-001

CANVAS REPAIRMAN

43K10
43K20
43K40

Exhibit Dates: 10/74–2/76. (Effective 3/76, MOS 43J was discontinued and its functions were incorporated into MOS 43M, Fabric Repairman.)

Career Management Field: 57 (Field Services), *subfield* 573 (Textile Renovation).

Description

Summary: Repairs or supervises the repair of canvas and webbed items and related equipment. *Skill Level 10:* Assists in the repair of canvas equipment and canvas and webbed items; operates electric and pedal-driven equipment for repair of canvas covers, tarpaulins, and other canvas and webbed items; performs minor repairs and preventive maintenance on canvas repair equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; fabricates and repairs canvas and webbed items; inspects repairable canvas equipment and webbed items for damage; tests tensile strength of canvas and repairs with approved test equipment; adjusts and performs preventive maintenance on canvas and webbed item repair equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the repair of canvas repair equipment; directs personnel in setting up canvas repair equipment for repair and salvage operations; inspects repaired canvas and webbed items; directs the salvage of canvas and canvas equipment; instructs personnel in repair and salvage techniques; assigns personnel to work positions.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in power sewing machine operation and 4 for field experience in sewing operations (11/75).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in power sewing machine operation and 6 for field experience in sewing operations (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in power sewing machine operation and 8 for field experience in sewing operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in introduction to management, 2 in personnel management, 2 in records administration, and 1 in first aid, for a total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (11/75).

MOS-43M-001

FABRIC AND LEATHER REPAIR FOREMAN

43M40

Exhibit Dates: 10/73–2/76.

Career Management Field: 57 (Field Services), *subfield* 573 (Textile Renovation).

Description

Serves as fabric and leather foreman; able to perform the duties required for 43J40 (Textile Repairman) or 43K40 (Canvas Repairman); supervises personnel involved in the classification, hand and machine repair and alteration, and fabrication of textile, canvas, clothing, webbed, and leather items; instructs subordinates in repair and salvage procedures and techniques; schedules maintenance of fabric and leather equipment; supervises movement and placement of mobile repair facilities and other field operations; schedules and expedites work schedules of personnel.

Recommendation

In the vocational certificate category, 5 semester hours in power sewing machine operation and 8 for field experience in sewing and tailoring operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in introductory organization management, 2 in personnel management, 2 in records administration, and 1 in first aid, for a total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and administration and 3 for field experience in management (11/75).

MOS-43M-002

FABRIC REPAIRMAN

43M10

43M20

43M40

Exhibit Dates: 3/76–2/77.

Career Management Field: 57 (Field Services), *subfield* 573 (Textile Renovation).

Description

Summary: Repairs or supervises the repair of textile, canvas, or webbed equipment and clothing. *Skill Level 10:* Assists in the repair and alteration of textile items and clothing, canvas equipment, and canvas and webbed items; operates electric and pedal-driven sewing, stitching, and patching equipment; performs minor repairs and some preventive maintenance on canvas repair and textile equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; fabricates and repairs textile, canvas, and webbed items and clothing; inspects repairable canvas equipment and webbed items for damage; sizes, fits, and sews worn or damaged clothing; adjusts sewing machines and replaces minor parts; lubricates equipment and performs preventive maintenance before, during, and after operation. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises and instructs in the repair, alteration, and salvage of textile, canvas, and webbed items and clothing; assigns duties and schedules work; inspects completed work for accuracy and quality control; inspects irreparable items to assure that all salvageable parts have been removed; estimates supply requirements; coordinates fabric repair activities and preventive maintenance in mobile and fixed shop conditions; submits progress reports; supervises 15 to 30 fabric repairmen.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in power sewing machine operations and 4 for field experience in sewing operations (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in power sewing machine operations and 6 for field experience in sewing operations (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in power sewing machine operation and 8 for field experience in sewing and tailoring operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in human relations, 3 in introductory organization management, 2 in personnel management, 2 in records administration, and 1 in first aid, for a total of 17 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and administration and 3 for field experience in management (5/76).

MOS-43M-003

FABRIC REPAIR SPECIALIST

43M10

43M20

43M30

43M40

Exhibit Dates: 3/77–Present.

Career Management Field: 76 (Supply and Service), *subfield* 762 (Service).

Description

Summary: Repairs or supervises the repair of textile and canvas items, webbed equipment and clothing. *Skill Level 10:* Repairs textile and canvas items; determines repair requirements; operates sewing, stitching and patching equipment; performs minor repairs and preventive maintenance on canvas repair and textile equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs quality assurance inspections; inspects, classifies and determines repairability of textile, canvas and webbed items; salvages repairable parts. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and coordinates small- and medium-sized operations and preventive maintenance activities in mobile and fixed textile and canvas repair shops; establishes quality control standards; establishes work schedule and assignments; supervises from 8 to 30 persons; evaluates personnel performance; counsels personnel and prepares evaluation reports; maintains records. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large-sized operations and preventive maintenance activities in textile and canvas repair shop; supervises more than 31 persons.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in power sewing machine operations and 4 for field experience in sewing operations (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in power sewing machine operations and 6 for field experience in sewing operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in power sewing machine operations and 8 for field experience in sewing operations. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in human relations, and 2 in personnel supervision, for a total of 11 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/78).

Recommendation, Skill Level 40

In the vocational certificate category the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 6 semester hours in sewing and tailoring operations, 3 in human relations, 3 in introductory organization management, and 2 in personnel supervision, for a total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (5/78).

MOS-44B-001

METAL BODY REPAIRMAN

44B20

44B40

Exhibit Dates: 10/73–8/75.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 632 (Metalworking).

Description

Summary: Repairs and straightens metal body panels, fenders, and sheet metal parts; repairs radiators and fuel tanks, and modifies related parts and components. *Skill Level 20:* Determines nature and extent of damage and the repairs required; uses hand tools, power tools, and hydraulic jacks; cuts, welds, brazes, and solders body components; disassembles, repairs, reassembles, and installs fuel tanks, radiators, and similar items; prepares surfaces for painting by sanding, masking, and cleaning; selects, matches, and applies paint to surfaces. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the repair, repainting, and installation of metal body components, radiators, and fuel tanks; determines tools, equipment, and work requirements to repair extensive body damages; performs the more difficult tasks such as forming and forging; assigns work and projects to subordinate personnel and inspects their work; conducts on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in basic auto body repair. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic auto body repair and 3 in basic gas welding, and additional credit on the basis of institutional evaluation, for a minimum total of 12 semester hours. In an auto body repairman apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic auto body repair, 3 in basic gas welding, 3 in shop practices and procedures, and 9 in body refinishing, for a total of 24 semester hours. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic auto body repair, 9 in body refinishing, 3 in basic gas welding, and 3 in personnel supervision, and additional credit on the basis of institutional evaluation, for a minimum total of 24 semester hours. In an auto body repairman apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction (2/75).

MOS-44B-002

METAL WORKER

44B10

44B20

44B30

44B40

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 632 (Metalworking).

Description

Summary: Welds metal articles and parts; repairs, repaints, and installs metal body components, radiators, and fuel tanks, and modifies other related items; supervises machine shop activities. *Skill Level 10:* Welds ferrous and nonferrous metals using oxyacetylene or arc welding equipment; determines nature and extent of damage, repairs required, and the welding methods to be employed by examining shape of parts, type of metal, and thickness of section to be welded; selects appropriate welding rod and flux to produce secure bond; makes butt, corner, edge, lap, tee, tack, and slot welds from flat, vertical, and overhead welding positions; makes body and fender repairs; prepares surfaces for painting by filling, sanding, masking, and cleaning; selects, matches, and mixes paints and applies to surfaces by brushing or spraying; repairs radiators, fuel tanks, and similar items by straightening, soldering, patching, tube rodding and splicing, plugging core sections, replacing cores, and pressure testing of leaks; uses hand tools, measuring devices, metal shears, drills, metal saws, dolly blocks, bending irons, mallets, sanders, and hydraulic jacks. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; demonstrates and performs more difficult phases of working metals by cutting, forming, welding, forging, and brazing; fabricates complex parts. *Skill Level 30:* Able to perform the duties required for Skill Level 20; inspects incoming work and determines nature and extent of damage to metal parts and subassemblies; schedules, assigns, and coordinates work according to availability and capability of personnel and equipment; instructs subordinate supervisors in applications of maintenance policies, procedures, and work performance; supervises on-the-job training programs; supervises preparation of shop records and reports and the receipt, maintenance, and issue of shop tools, equipment, and parts. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs as metalworking foreman, machine shop foreman, or toolmaker foreman. NOTE: May have progressed to 44B40 from 44B30 or 44E30 (Machinist).

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in basic auto body repair and 3 in basic gas welding. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic auto body repair and 3 in basic gas welding, and additional credit on the basis of institutional evaluation, for a minimum total of 12 semester hours. In an auto body repairman, painter, or radiator repairman apprentice training program, 1,000 clock hours of experience and 220 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In an auto body repairman, painter, or radiator repairman apprentice training program, 2,000 clock hours of experience and 250 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in basic auto body repair, 9 in auto body refinishing, and 3 in basic welding, for a minimum total of 21 semester hours; *if the duty assignment was welder foreman or metal worker foreman,* 3 additional semester hours in personnel supervision, for a total of 24 semester hours. In an auto body repairman, painter, or radiator repairman apprentice training program, 3,000 clock hours of experience and 275 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management. In an auto body repairman, painter, or radiator repairman apprentice training program, 4,000 clock hours of experience and 300 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-44C-001

WELDER

44C20

44C40

Exhibit Dates: 10/73–8/75. (Effective 9/75, MOS 44C was discontinued and its functions were incorporated into MOS 44B, Metal Worker.)

Career Management Field: 63 (Mechanical Maintenance), *subfield* 632 (Metalworking).

Description

Summary: Welds ferrous and nonferrous metals in vertical, flat, and overhead positions, using gas, including inert gas, and electric arc equipment; welds butt, corner, edge, lap, tee, tack, and slot joints; brazes and burns metals; uses hand tools, measuring devices, and power equipment such as shears, drills, and metal saws; fabricates complex parts; identifies metals; determines welding method to be used. *Skill Level 20:* Selects proper rod and flux; prepares metal and fastens it securely to prevent warpage and distortion; works from blueprints and sketches. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises welding operations; demonstrates and performs smithing operations; inspects welds for warpage, distortion, cracks, and hardness; lays out complex projects and assigns jobs to subordinate personnel; plans and conducts on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in welding (general). In the lower-division baccalaureate/associate degree category, a minimum of 9 semester hours in welding (general) and additional credit on the basis of institutional evaluation. In a welder (general) apprentice training program, a minimum of 1,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of a performance examination (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in welding (general). In the lower-division baccalaureate/associate degree category, 15 semester hours in welding (general) and additional credit on the basis of institutional evaluation. In a welder (general) apprentice training program, 6,000 clock hours of experience and 432 contact hours of related instruction; journeyman status achieved through employer or trade association evaluation (2/75).

MOS-44E-001

MACHINIST

44E20

44E30

44E40

Exhibit Dates: 10/73–8/75.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 632 (Metalworking).

Description

Summary: Fabricates, repairs, and modifies metallic and nonmetallic parts, using all types of machine tools such as engine lathes, milling machines, boring machines, and grinders; machines pieces according to specifications, tooling instructions, and standard charts, applying knowledge of machine methods; reads blueprints and job orders for product specifications. *Skill Level 20:* Lays out and sets up work; establishes and marks necessary reference points, centerlines, and machining guidelines; computes and sets up proper machine speeds to attain correct cutting speeds, setups, and depth of cut and feed; clamps or fastens work in holding devices or to machines; selects, grinds, and affixes cutting tools; performs toolbit grinding and setting; adjusts and controls machines; checks dimensions of finished work, using measuring devices such as squares, rules, scales, calipers, micrometers, and thread gages; employs shop mathematics, charts, and tables; interprets simple drawings and sketches. *Skill Level 30:* Able to perform the duties required for Skill Level 20; designs, fabricates, modifies and repairs jigs, fixtures, dies, and special tools; sets and adjusts tools; applies heat-treating procedures, including annealing, normalizing, hardening, case hardening, and tempering; works within close precision tolerance of .001 inch; uses standard and nonstandard practices in accomplishing unusual machining jobs; inspects completed work and tests parts to determine proper performance. *Skill Level 40:* Able to perform the duties required for Skill Level 30; is a fully qualified machinist; sets up and operates machine tools; fits and assembles parts to make or repair mechanisms, tools, or machines; applies knowledge of mechanics, shop mathematics, metal properties, and layout procedures; reads sketches, blueprints, and descriptions of parts; supervises machine operations and determines work request validity; assigns work in accordance with priority of jobs, availability of equipment, and abilities of machinists; inspects equipment and machines to determine condition and supervises adjustments and repairs; enforces safety regulations.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, a minimum of 9 semester hours in a machinist program, and additional credit on the basis of institutional evaluation. In a machinist apprentice training program, a minimum of 1,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (2/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, a minimum of 15 semester hours in a machinist program, and additional credit on the basis of institutional evaluation. In a machinist apprentice training program, 6,000 clock hours of experience and 432 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, a minimum of 15 semester hours in a machinist program, and additional credit on the basis of institutional evaluation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a machinist or a machinist setup operator (2/75).

MOS–44E–002

MACHINIST

44E10
44E20
44E30

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 632 (Metalworking).

Description

Summary: Supervises or performs the fabrication, repair, and modification of metallic and nonmetallic parts. *Skill Level 10:* Fabricates, repairs, and modifies metallic and nonmetallic parts to blueprint specifications utilizing such machines as engine lathes, grinders, milling machines, vertical bandsaws, and drill presses and their associated attachments, accessories, and tools; interprets job orders, blueprints, and specifications; lays out and sets up work; establishes and marks necessary reference points, centerlines, and machining guidelines; computes and sets up proper machine speeds to attain correct cutting speeds, setups, and depth of cut and feed; clamps or fastens work in holding devices or to machines; selects, grinds, and affixes cutting tools; performs toolbit grinding and setting; adjusts and controls machines; checks dimensions of finished work, using measuring devices such as squares, rules, scales, calipers, micrometers, and thread gauges; employs shop mathematics, charts, and tables; interprets blueprints and sketches. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs as a machinist and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; designs, fabricates, modifies, and repairs jigs, fixtures, dies, and special tools to facilitate metal working operations; performs as machine shop or toolmaker foreman; determines nature and extent of work to be performed and method of its accomplishment; employs standard practices of machining, such as toolbit angles, proper cutting speeds for various materials, and methods of setting and adjusting tools to suit materials; applies heat-treating procedures, including annealing, normalizing, hardening, case hardening, and tempering; grinds and sharpens tools such as drills, toolbits, and reamers; works to dimensions as precise as tolerances of .001 inch; uses technical instructions in accomplishing unusual machining jobs involving standard and nonstandard practices; converts specifications and instructions to machining operations; inspects completed work and tests parts; requisitions sufficient supplies of expendable tools and materials.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, a minimum of 9 semester hours in a machinist program, and additional credit on the basis of institutional evaluation. In a machinist apprentice training program, a minimum of 1,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, a minimum of 15 semester hours in a machinist program, and additional credit on the basis of institutional evaluation. In a machinist apprentice training program, a minimum of 4,000 clock hours of experience and 288 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, a minimum of 15 semester hours in a machinist or machinist setup operator program, and additional credit on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, a minimum of 15 semester hours in a machinist or machinist setup operator program, and additional credit on the basis of institutional evaluation; *if the duty assignment was either machine shop foreman or machine operator foreman,* 3 additional semester hours for field experience in management, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management *only if the duty assignment was either machine shop foreman or machine operator foreman.* In a machinist apprentice training program, a minimum of 6,000 clock hours of experience and 432 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS–45B–001

SMALL ARMS REPAIRER
(SMALL ARMS REPAIRMAN)

45B10
45B20
45B30

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 634 (Armament Maintenance).

Description

Summary: Supervises or performs repair and limited overhaul of small arms and other infantry weapons. *Skill Level 10:* Cleans components of dirt, rust, and corrosion; lubricates moving parts; disassembles weapons and determines condition of components; measures degree of wear with precision measuring instruments; repairs and refinishes weapons by honing, grinding, sandblasting, degreasing, and soldering; reassembles weapons, makes adjustments, checks dimensions and tolerances, and tests weapons' mechanisms; tests fire weapons; uses common and specialized mechanics tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises inspection, repair, and technical service assistance teams; maintains records; evaluates the condition of small arms and determines the maintenance or repairs required; conducts on-the-job training.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in use and care of hand and power tools, 2 in use and care of precision testing equipment, and additional credit in a mechanical repairman program on the basis of institutional evaluation. In a maintenance mechanic or repairman (gun repairman) apprentice training program 500 clock hours of experience and 70 contact hours of related instruction (12/75).

Recommendation, Skill Level 20

In the vocational certificate category and in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In a maintenance mechanic or repairman (gun repairman) apprentice training program, 1,000 clock hours of experience and 70 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in use and care of hand and power tools, 2 in use and care of precision testing equipment, 2 in personnel supervision, and 1 in records administration, for a minimum total of 7 semester hours, and additional credit on the basis of institutional evaluation. In a maintenance mechanic or repairman (gun repairman) apprentice training program, 1,200 clock hours of experience and 70 contact hours of related instruction, and additional clock hours of experience on the basis of institutional evaluation (12/75).

MOS–45J–001

AIRCRAFT ARMAMENT REPAIRMAN

45J20
45J40

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 45J was discontinued and its functions were incorporated into MOS 68J, Helicopter Missile Systems Repairer, and MOS 68K, Aircraft Components Repair Supervisor).

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs maintenance on components and weapons of aircraft armament subsystems. *Skill Level 20:* Performs maintenance on mechanical, electrical, and hydraulic components, and on weapons of aircraft armament subsystems; inspects or performs final checkout of subsystems. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 5 or more persons performing aircraft armament maintenance activities.

Recommendation, Skill Level 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (11/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 2 semester hours in personnel supervision (11/75).

MOS-45K-001

TANK TURRET REPAIRMAN

45K20

45K40

Exhibit Dates: 10/73-8/75.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 636 (Armament Maintenance).

Description

Summary: Performs maintenance on turret mechanisms and weapons of tanks, cupolas, and similar equipment; diagnoses malfunctions; repairs turrets, cupolas, weapons; tests turret systems. *Skill Level 20:* Determines the nature and causes of malfunctions; repairs loading, firing, and recoil mechanisms; repairs turret-cupola hydraulic systems and wiring systems; analyzes and tests continuity of circuits; uses power tools and hand tools; keeps maintenance records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; determines maintenance required; supervises maintenance; establishes work schedules and priorities; conducts on-the-job training; supervises a minimum of five persons. NOTE: May have progressed to 45K40 from 45K20, 45N20 (Tank Turret Mechanic), 45P20 (Sheridan Turret Mechanic), or 45R20 (Missile Tank Turret Mechanic).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in the selection, care, and use of hand and power tools, 1 in hydraulics, and 1 in electrical wiring systems, for a total of 3 semester hours. In the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation and/or performance examination. In a truck mechanic apprentice training program, advanced standing on the basis of employer or trade association performance examination in the areas of basic hand and power tools, electrical systems, and hydraulics (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in the selection, care, and use of hand and power tools, 1 in hydraulics, and 1 in electrical wiring systems, for a total of 3 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and training and additional credit on the basis of institutional evaluation. In a truck mechanic apprentice training program, advanced standing on the basis of employer or trade association performance examination in the areas of basic hand and power tools, electrical systems, and hydraulics (2/75).

MOS-45K-002

TANK TURRET REPAIRER
(TANK TURRET REPAIRMAN)

45K10

45K20

45K30

Exhibit Date: 9/75-Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 634 (Armament Maintenance).

Description

Summary: Performs maintenance on turret mechanisms and weapons of tanks, cupolas, and similar equipment; diagnoses malfunctions; repairs turrets, cupolas, weapons; tests turret systems. *Skill Level 10:* Determines the nature and causes of malfunctions; repairs loading, firing, and recoil mechanisms; repairs turret-cupola hydraulic systems and wiring systems; analyzes and tests continuity of circuits; rewires circuits; tests and adjusts equipment in accordance with prescribed limits and tolerances; uses power, hand, and special tools and precision instruments; keeps maintenance records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance and conducts some on-the-job training for Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; determines the category of maintenance required; establishes on-the-job training programs, workload schedules, and priorities; inspects equipment and prepares inspection reports; supervises a minimum of 9 persons. NOTE: May have progressed to 45K30 from 45K20, 45N20 (Tank Turret Mechanic), 45P20 (Sheridan Turret Mechanic), or 45R20 (Missile Tank Turret Mechanic).

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in the selection, care, and use of hand and power tools, 1 in hydraulics, and 1 in electrical wiring systems, for a total of 3 semester hours. In the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation and/or performance examination. In a truck mechanic apprentice training program, advanced standing on the basis of employer or trade association performance examination in the areas of basic hand and power tools, electrical systems, and hydraulics (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in the selection, use, and care of hand and power tools, 2 in hydraulics, and 2 in electrical wiring systems, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and additional credit in hydraulics and electrical wiring systems on the basis of institutional evaluation. In a truck mechanic apprentice training program, advanced standing on the basis of employer or trade association performance examination in the areas of basic hand and power tools, electrical systems, and hydraulics (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in the selection, use, and care of hand and power tools, 2 in hydraulics, and 2 in electrical wiring systems, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 for field experience in management, and additional credit in hydraulics and electrical wiring systems on the basis of institutional evaluation, for a minum total of 6 semester hours. In a truck mechanic apprentice training program, advanced standing on the basis of employer or trade association performance examination in the areas of basic hand and power tools, electrical systems, and hydraulics (12/75).

MOS-45L-001

ARTILLERY REPAIRER
(ARTILLERY REPAIRMAN)

45L10

45L20

45L30

Exhibit Dates: 9/75-Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 634 (Armament Maintenance).

Description

Summary: Performs maintenance on artillery turrets, artillery weapons, and similar equipment. *Skill Level 10:* Performs maintenance on light, medium, and heavy self-propelled artillery and turret mechanisms, towed artillery, air defense artillery, and similar equipment; lubricates moving parts; uses common and specialized hand tools; measures tolerances with precision instruments and special tools; applies proper rigging procedures for hoisting heavy equipment and material; traces, tests, repairs, or replaces circuits; inspects equipment and prepares inspection reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; evaluates the condition of equipment to determine the kind of maintenance required; establishes workload schedules and priorities; conducts on-the-job training; inspects the work of subordinates; prepares records, forms, and reports.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in shop practices and 2 in the care and use of tools and precision equipment, and additional credit in basic electricity on the basis of institutional evaluation. In a millwright apprentice training program, 1,000 clock hours of experience (12/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in shop practices, 2 in the care and use of tools and precision equipment, 2 in personnel supervision, and 1 in records administration, and additional credit in basic electricity on the basis of institutional evaluation, for a minimum total of 14 semester hours. In a millwright apprentice training program, 1,000 clock hours of experience (12/75).

MOS-45M-001

AIRCRAFT ARMAMENT SUBSYSTEM
MECHANIC

45M20

45M40

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 45M was discontinued and its functions were incorporated into MOS 68K, Aircraft Components Repair Supervisor, and MOS 68M, Helicopter Weapon Systems Repairer.)

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs maintenance on aircraft armament subsystems. *Skill Level 20:* Examines armament systems and fire control equipment for malfunctions or defects; determines maintenance required and writes appropriate repair orders; removes, disassembles, repairs, assembles, installs, tests, and adjusts weapons and components; performs modifications, synchronization, boresighting, and alignment; performs final checkout of complete system; keeps records and assists in stocking replacement items. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises aircraft armament maintenance activities; diagnoses unusual malfunctions; establishes maintenance controls and performance standards; conducts on-the-job training.

Recommendation, Skill Level 20

No recommendation because the skills and knowledge are military in nature (2/75).

Recommendation, Skill Level 40

Credit in management and human relations on the basis of institutional evaluation (2/75).

MOS-45N-001

Tank Turret Mechanic

45N10

45N20

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 634 (Armament Maintenance).

Description

Summary: Performs maintenance on conventional tank turret/cupola systems. *Skill Level 10:* Inspects, tests, troubleshoots, repairs, and adjusts electrical, hydraulic, fire control, mechanical, and firing systems; replaces components; cleans and lubricates turret/cupola systems; uses schematic diagrams; uses repair parts publications and orders parts. *Skill Level 20:* Able to perform the duties required for Skill Level 10; and provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in hydraulics and 4 in basic electricity, and additional credit in hydraulics, electricity, and mechanics on the basis of institutional evaluation. In an industrial truck mechanic apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

The recommendation for educational credit is the same as that for Skill Level 10. In an industrial truck mechanic apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-45P-001

Sheridan Turret Mechanic

45P10

45P20

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 634 (Armament Maintenance).

Description

Summary: Performs maintenance on Sheridan tank turret and related equipment. *Skill Level 10:* Inspects, tests, troubleshoots, repairs, and adjusts electrical traversing and elevation system, firing systems, gun launcher system, fire control system, cupola systems, and turret mounted weapons; cleans and lubricates systems; replaces components; uses technical and repair parts publications and electrical diagrams; modifies systems; keeps maintenance records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; and provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in basic electricity, and additional credit in basic electricity and mechanics on the basis of institutional evaluation. In an industrial truck mechanic apprentice training program, 1,000 clock hours of experience (electrical) and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

The recommendation for educational credit is the same as that for Skill Level 10. In an industrial truck mechanic apprentice training program, 2,000 clock hours of experience (electrical) and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-45R-001

Missile Tank Turret Mechanic

45R10

45R20

Exhibit Dates: 9/75–Present

Career Management Field: 63 (Mechanical Maintenance), *subfield* 634 (Armament Maintenance).

Description

Summary: Performs maintenance on missile tank turret system and related equipment. *Skill Level 10:* Performs as missile tank turret mechanic; inspects and tests stabilization system, electro-hydraulic elevation and transverse system, recoil system, fire control systems, firing systems, gun launcher system, cupola systems, test equipment, and turret mounted weapons; troubleshoots turret cupola systems with fire control, stabilization, simulator sensor, electrical and air flow filter turret test equipment; troubleshoots, adjusts, removes, and replaces prescribed components of turret systems; cleans and lubricates systems; interprets technical publications; keeps maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; and provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in hydraulics, 4 in basic electricity, and 2 in use and care of testing equipment, and additional credit in hydraulics, basic electricity, and mechanics on the basis of institutional evaluation, for a minimum total of 12 semester hours. In an industrial truck mechanic apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

The recommendation for educational credit is the same as that for Skill Level 10. In an industrial truck mechanic apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-45Z-001

Armament Maintenance Supervisor (Armament Maintenance Foreman)

45Z40

Exhibit Dates: 9/75–Present

Career Management Field: 63 (Mechanical Maintenance), *subfield* 634 (Armament Maintenance).

Description

Supervises, schedules, and assigns work to repair crews engaged in maintenance of all armament materiel; estimates time required to perform specific jobs; procures parts, supplies, and materiel; determines the method of repair or fabrication; applies information contained in technical publications; conducts on-the-job training; applies test and inspection procedures. NOTE: May have progressed to MOS 45Z40 from 45B30 (Small Arms Repairman), 45K30 (Tank Turret Repairman), or 45L30 (Artillery Repairman).

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and additional credit on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management (12/75).

MOS-46D-001

Improved Hawk Mechanical Systems Repairman

46D20

46D40

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 46D was discontinued and its functions were incorporated into MOS 24L, Improved Hawk Launcher and Mechanical Systems Repairman).

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises or performs maintenance on the electrical, hydraulic, hydropneumatic, mechanical, and electro-mechanical portions of the Improved Hawk system. *Skill Level 20:* Inspects, tests, and adjusts components to specific tolerances and determines shortcomings and deficiencies with common and system special-design test equipment; performs load-testing, maintenance calibration, and repair of job-related tools and equipment; installs equipment modifications. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; implements quality control measures; supervises inspection and maintenance teams; organizes and conducts on-the-job training; demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in mechanics, 3 in hydraulics, 1 in shop practices, 3 in technical mathematics, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in hydraulics, 3 in mechanics, 3 in technical mathematics, and additional credit in electronics, electricity, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 9 semester hours (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in hydraulics, 3 in mechanics, 3 in technical mathematics, 3 in personnel supervision, 3 in human relations, 3 for field experience in management, and additional credit in electronics, electricity, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education. (2/76).

MOS-46L-001

SERGEANT ELECTRICAL-MECHANICAL REPAIRMAN

46L20
46L40

Exhibit Dates: 10/74-8/77. (Effective 9/77, MOS 46L was discontinued).

Career Management Field: 21 (Ballistic Missile Repair), *subfield* 212 (Sergeant Missile Repair).

Description

Summary: Supervises or performs maintenance on the electrical, mechanical, and hydraulic portions of the Sergeant missile system. *Skill Level 20:* Inspects, tests, aligns, and repairs electrical and mechanical portions of the missile rocket motor, control, fins, and drag brakes; performs maintenance of the azimuth orientation system, less theodolite; inspects, tests, and adjusts items to specific tolerances and determines shortcomings and deficiencies in electrical, mechanical, and hydraulic assemblies with common and system special-design test equipment; removes malfunctioning assemblies; performs calibration and repairs on tools and equipment; provides technical assistance to support units. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; recommends procedures for receipt, storage, inspection, testing, and repair of items; supervises inspection and maintenance teams; organizes and conducts on-the-job training programs; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in hydraulic laboratory, 2 in basic electricity laboratory, and 2 in systems maintenance, for a total of 6 semester hours (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in hydraulic laboratory, 2 in basic electricity laboratory, and 2 in systems maintenance, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 for field experience in management (6/76).

MOS-46N-001

PERSHING ELECTRICAL-MECHANICAL REPAIRMAN

46N20
46N40

Exhibit Dates: 10/73-8/77.

Career Management Field: 21 (Ballistic Missile Repair), *subfield* 211 (Pershing Missile Repair).

Description

Summary: Supervises or performs routine maintenance on the electrical, mechanical, and hydraulics portions of the Pershing missile system. *Skill Level 20:* Inspects, tests, and adjusts components to specific tolerances; determines shortcomings and deficiencies in electrical, mechanical, electromechanical, hydraulic, pneumatic, and hydropneumatic assemblies, subassemblies, and circuits, using special-design test equipment; repairs or removes, replaces, and determines the serviceability of defective components and parts; performs quality control measures; performs checkouts and inspections of equipment; prepares maintenance and supply forms. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of 5-15 persons; establishes workloads and repair priorities; implements quality control measures; conducts on-the-job training; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in mechanical maintenance. Fully qualified to enter an apprentice training program (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations and 3 for field experience in management. Fully qualified to enter an apprentice training program (3/76).

MOS-46N-002

PERSHING ELECTRICAL-MECHANICAL REPAIRER

46N10
46N20
46N30

Exhibit Dates: 9/77-Present.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance), *subfield* 271 (Ballistic/Land Combat Systems Maintenance).

Description

Summary: Supervises or performs maintenance on the electrical, mechanical, and hydraulic portions of the Pershing missile system. *Skill Level 10:* Performs maintenance on the Pershing missile system erecter-launcher, some missile sections, systems structures, missile containers, ground handling equipment, power distribution sets, and related training devices; inspects, tests, and adjusts components to specific tolerances; determines short-comings and deficiencies in electrical, mechanical, electromechanical, hydraulic, pneumatic and hydro-pneumatic assemblies, subassemblies, and circuits with common and system special-design test equipment; removes and replaces defective components and parts; prepares maintenance and supply forms and reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance to Skill Level 10 personnel; installs equipment modifications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor; organizes and conducts on-the-job training; supervises maintenance and inspection teams; establishes and keeps maintenance records.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and equipment, and credit in electricity, mechanics, and hydraulics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree of category, 3 semester hours in use and care of tools and equipment and 1 in personnel supervision, and credit in electricity, mechanics, and hydraulics on the basis of institutional evaluation; *if the duty position was Pershing Electrical-Mechanical Supervisor,* 1 additional semester hour in personnel supervision and credit in human relations on the basis of institutional evaluation (5/78).

MOS-51A-001

CONSTRUCTION AND UTILITIES WORKER

51A10

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 51A was discontinued and its functions were incorporated into MOS 51B, Carpentry and Masonry Specialist; MOS 51C, Structures Specialist; 51N, Water Treatment and Plumbing Systems Specialist; 51R, Electrician; and 52C, Utilities Equipment Repairer.)

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Assists in the performance of various construction and utilities maintenance duties; may have experience in one or more of the following areas: painting, material handling, carpentry, masonry, electricity, sheet metal working, heating and ventilating equipment, refrigeration and air conditioning equipment, water supply, and sewage disposal.

Recommendation

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (12/75).

MOS-51B-001

CARPENTER

51B20

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Fabricates, erects, and maintains wooden articles and structures; examines blueprints, sketches, and drawings; orders materials and tools; performs preventive maintenance on tools and equipment; coordinates carpentry work with journeymen in other fields; assesses damaged articles and structures and determines how to repair them; inspects finished work; explains and demonstrates methods and procedures for construction helpers. NOTE: May have progressed to 51B20 from 51A10 (Construction and Utilities Worker).

Recommendation

In the vocational certificate category, 20 semester hours in carpentry (2/75).

MOS-51B-002

CARPENTRY AND MASONRY SPECIALIST (CARPENTER)

51B10

51B20

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Engineering).

Description

Summary: Performs general and heavy carpentry or masonry duties in fabrication, erection, maintenance, and repair of wooden and masonry structures, and a variety of wooden articles. *Skill Level 10:* Uses basic carpentry tools and materials in building layout, framing, sheathing, fabricating, and roofing wooden structures; assists in erection of rough timber structures such as trestles, bridges, and wharves; assists in repair and renovation of all types of structures; uses basic masonry tools in construction of concrete walls, piers, and columns; places anchor bolts, rebars, and welded wire mesh; mixes mortar to specifications; lays brick and concrete blocks; maintains concrete mixer; cleans, lubricates, and sharpens woodworking and masonry tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10. Provides technical guidance to Skill Level 10 personnel; interprets construction drawings and blueprints; computes material requirements and prepares building layout; constructs wooden or concrete foundation and erects building framework; installs flooring, walls, partitions, exterior siding, roofing, and stairs; fabricates and installs doors, windows, and screens; installs interior finishing such as cabinets, hardware, and wallboard; mixes, pours, finishes, and cures concrete; constructs concrete wall, pier, and column forms; selects mix specifications for mortar and grout; selects brick and concrete block pattern and joint type; installs lintels and finishes joints; cuts, trims, and faces stone, brick, and concrete blocks; installs and finishes tile; maintains carpentry and masonry tools and publications.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in carpentry, 9 in masonry, and 3 in tool use and care, for a total of 21 semester hours (2/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in tool use and care, 3 in blueprint reading, 3 in applied mathematics, 9 in carpentry, 9 in masonry, and additional credit in carpentry and masonry on the basis of institutional evaluation, for a minimum total of 27 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in blueprint reading, 3 in applied mathematics, and 3 in industrial arts (construction methods), for a total of 9 semester hours (2/80).

MOS-51C-001

STRUCTURES SPECIALIST

51C20

51C30

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Summary: Lifts and moves heavy objects, services cargo handling gear, and positions and joins heavy beams, fabricated pieces or trusses, and other structural assemblies. *Skill Level 20:* Serves as a rigger, using various rigging tools and assemblies and a wide combination of rope, wire rope, knots, and handling gear, including block and tackle; makes rough construction drawings. NOTE: May have progressed to 51C20 from 51A10 (Construction and Utilities Worker). *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a structures specialist; reads construction blueprints and other building plans; joins members by using bolts and rivets or by arc welding; uses oxyacetylene torch; performs preventive maintenance on tools and equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in blueprint reading, 2 in use and care of tools, and 2 in rigging, for a total of 6 semester hours (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in blueprint reading, 2 in use and care of tools, 2 in rigging, 2 in welding, 2 in carpentry, and 1 in construction drafting, for a total of 11 semester hours (6/76).

MOS-51C-002

STRUCTURES SPECIALIST

51C10

51C20

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Engineering).

Description

Summary: Fabricates, assembles, erects, and repairs rigging devices, trusses, and other structural assemblies; petroleum pipeline systems; and sheet metal items. *Skill Level 10:* Assists in assembly of items used in construction rigging, construction and installation of petroleum pipelines, pumping stations, and fuel storage facilities, and in fabrication of sheet metal items; selects tackle for hoisting, using fiber rope, wire rope, and chain; assembles shears, derricks, gin poles, tripods, scaffolds, and boatswains chairs; assists in construction of towers, tramways, cable ways, and bridges; assists in erection of prefabricated and pre-engineered buildings; clears and stakes pipeline route; inspects, cleans, and maintains pipefitting, riveting, rigging, and other special tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assembles items used in construction rigging and rigid frame structures; constructs and installs petroleum pipelines, pumping stations, and fuel storage facilities; fabricates sheet metal items; interprets construction plans and blueprints; installs valves, manifolds, pressure regulators and pumps.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in construction blueprint reading, 3 in rigging, and 2 in general technology (tools, riveting, drilling, etc.) for a total of 7 semester hours (2/80).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in construction blueprint reading, 3 in rigging, 2 in general technology, and 4 in general construction, for a total of 11 semester hours (2/80).

MOS-51D-001

MASON

51D20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 51D was discontinued and its functions were incorporated into MOS 51B, Carpentry and Masonry Specialist.)

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Serves as a mason; reads blueprints in order to determine materials required and procedures to be followed; utilizes various tools; prepares proper cement and mortar mix as required and specified; lays blocks and bricks in the construction of foundations and walls; constructs forms and places concrete. NOTE: May have progressed to 51D20 from 51A10 (Construction and Utilities Worker).

Recommendation

In the vocational certificate category, 20 semester hours in masonry. In the lower-division baccalaureate/associate degree category, 12 semester hours in masonry and 3 in mathematics (12/75).

MOS-51E-001

Camouflage Specialist

51E20
51E40
51E50

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 51E was discontinued and its functions were incorporated into MOS 12B, Combat Engineer, and MOS 12Z, Combat Engineering Senior Sergeant.)

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Summary: Constructs, selects, erects, and places decoys, nets, screens, drapes, and other camouflage devices. *Skill Level 20:* Fabricates camouflage materials and decoys; erects such items by rigging and supports; rigs and hoists them into position using anchors and shears of self design and construction, blocks and tackle, highline, and tramway; builds and erects scaffolds; paints, selects and applies garnishing materials with adhesives, and alters surface textures. NOTE: May have progressed to 51E20 from 51A10 (Construction and Utilities Worker). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises Skill Level 20 personnel; designs and sketches items to be fabricated; requisitions materials and equipment. *Skill Level 50:* Able to perform the duties required for Skill Level 40; interprets and supervises the execution of policy and operation procedures; assists in planning, coordinating, and supervising all company support activities; advises superiors on personnel matters.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in rigging and rough structure fabrication in a millwright or similar curriculum or 2 semester hours in concrete form construction in a carpentry curriculum. In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, 3 semester hours in stage set construction in a drama or broadcasting curriculum (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, 3 semester hours in stage set construction in a drama or broadcasting curriculum and 2 in introduction to management (12/75).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, 3 semester hours in stage set construction in a drama or broadcasting curriculum, 3 in introduction to management, and 3 for field experience in management, for a total of 9 semester hours (12/75).

MOS-51F-001

Pipeline Specialist

51F20
51F40
51F50

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 51F was discontinued and its functions were incorporated into MOS 51C, Structures Specialist; MOS 51H, Construction Engineering Supervisor; and MOS 51Z, General Engineering Supervisor.)

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Summary: Constructs and installs pipelines, pumping stations, and fuel storage facilities. *Skill Level 20:* Clears and prepares right-of-way access and terminal sites; assists in the construction of necessary bridges, ditches, and pipeline cradles; assists in assembling pipelines and installs pumping stations; operates pumps, combats petroleum fires, and exercises safety precautions; uses common and specialized tools. NOTE: May have progressed to 51F20 from 51A10 (Construction and Utilities Worker). *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of 15–25 persons; assists in planning pipeline systems; selects pumping station sites and supervises construction and equipment installation; reads blueprints, topographical maps, profile maps, and performance flow charts; supervises work crews and coordinates activities with surveying personnel; inspects completed projects; assists in the demolition of pipeline facilities; conducts on-the-job training; demonstrates and explains pipeline installation and operation; prepares reports pertaining to operations, training, and intelligence. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager, serving as first sergeant of a company of up to 120 persons; plans, coordinates, and supervises all company activities; advises company commander on all enlisted personnel matters and is responsible for all enlisted personnel actions; conducts meetings with subordinate supervisors; directs company administration; initiates corrective actions when necessary; directs training; may also serve as chief instructor in a formal training facility.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in heavy equipment operation, 1 in use and care of tools, 1 in pump maintenance, 1 in fire safety, and 1 in first aid, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in heavy equipment operation, 2 in construction methods, 1 in fire safety, and 1 in first aid, for a total of 6 semester hours (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in heavy equipment operation, 2 in blueprint and map reading, 1 in use and care of tools, 1 in pump maintenance, 1 in fire safety, and 1 in first aid, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in construction management, 3 in personnel supervision, 3 in human relations, 2 in principles of fluid hydraulics, 2 in blueprint and map reading, 2 in heavy equipment operation, 2 in construction methods, 1 in fire safety, and 1 in first aid, for a total of 19 semester hours (6/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 for field experience in management, 3 in personnel management, and 3 in construction management for a minimum total of 12 semester hours; and, *if the duty assignment was chief instructor at a formal training facility,* 3 additional semester hours for an internship in education, for a total of 15 semester hours (6/76).

MOS-51G-001

Soils Analyst

51G20

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Equipment Operation).

Description

Surveys, samples, tests, analyzes, evaluates, and classifies soil and aggregates; studies soils with respect to origin, distribution, and composition; performs physical testing and experimental work in field and laboratory to determine engineering characteristics of soils and construction materials such as concrete, aggregate, bituminous, and other base materials; classifies soils according to standard engineering classifications; designs pavement mixes and inspects construction; investigates problems of stabilization and drainage of soils used as foundations for roads, dams, buildings, and other structures; advises on soil use in construction.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in soils, aggregates, and mix design, and 5 in soils, bituminous, and concrete laboratory (12/75).

MOS-51G-002

Materials Quality Specialist (Soils Analyst)

51G10
51G20

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), *subfield* 511 (Technical Engineering).

Description

Summary: Surveys, samples, tests, evaluates, and classifies soils and aggregates; investigates and recommends solutions for soil stabilization; designs pavement mixes and inspects construction. *Skill Level 10:* Surveys, samples, tests, analyzes, evaluates, and classifies soils and aggregates; studies soils with respect to origin, distribution, and composition; perfoms physical testing and experimental work in the field and laboratory to determine engineering characteristics of soils and construction materials such as concrete, aggregates, bituminous, and other base materials; classifies soils according to standard engineering classifications. *Skill Level 20:* Able to perform tasks required for Skill Level 10; designs pavement mixes and inspects construction; inspects and investigates problems of stabilization and drainage of soils used as foundations for roads, dams, buildings, and other structures; advises on soil use in construction.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in soil and concrete testing laboratory, 3 in soil classification, 3 in concrete mix design, and 3 in bituminous mix design, for a total of 12 semester hours. In the lower-division baccalureate/associate degree category, 3 semester hours in soil and concrete testing laboratory (2/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in soil and concrete testing laboratory, 3 in soil classification, 3 in concrete mix design, 3 in soil stabilization, and 3 in bituminous mix design, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in soil and concrete testing laboratory, 3 in concrete and bituminous mix design, and 3 in soil engineering, for a total of 9 semester hours (2/80).

MOS-51H-001

CONSTRUCTION FOREMAN

51H40

51H50

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Summary: Supervises construction and repair of structures and facilities such as barracks, warehouses, sheds, jetties, wharves, fixed bridges, and storage tanks. *Skill Level 40:* Estimates runoff for drainage areas, supply needs, and time requirements for construction projects; estimates utilities requirements for various types of structures; computes stresses; employs heavy construction equipment, standard construction techniques, and general engineering principles in projects; reinforces existing structures to correct faulty construction or to increase load capacity; enforces safety regulations; has responsibility for on-site utilization and supervision of personnel. NOTE: May have progressed to 51H40 from 51B20 (Carpenter), 51C30 (Structures Specialist), 51D20 (Mason), 51G20 (Soils Analyst), 51R20 (Electrician), or 81B20 (Construction Draftsman). *Skill Level 50:* Able to perform the duties required for Skill Level 40; plans, coordinates, and supervises activities pertaining to organization, training, and technical operation of a construction company; assists in planning construction procedures, specifications, and work schedules, and in determining materiel needs; schedules use of heavy equipment; conducts on-the-job training by adapting training guides, programs, and tests to fit needs; keeps records of construction projects and training. NOTE: May have progressed to 51H50 from 51H40, 51P40 (Utilities Foreman), 62N50 (Construction Machine Supervisor), 82B40 (Construction Surveyor), or 00B40 (Diver).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in technical writing, 3 in industrial technology, 3 in human relations, and 3 in personnel supervision, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (12/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in records administration, 3 in technical mathematics, 3 in technical writing, 3 in industrial technology, 3 in human relations, and 3 in personnel supervision, for a total of 18 semester hours. In the upper-division baccalaureate category, 9 semester hours in construction management, or 3 semester hours in introduction to management and 6 for field experience in management, for a total of 9 semester hours, and additional credit in management on the basis of institutional evaluation (12/75).

MOS-51H-002

CONSTRUCTION ENGINEERING SUPERVISOR (CONSTRUCTION FOREMAN)

51H30

51H40

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Engineering).

Description

Summary: Supervises construction and repair of buildings, warehouses, fixed bridges, port facilities, and petroleum pipelines, and tanks and related equipment. *Skill Level 30:* Supervises construction and repair operations involving single structures or designated elements of military complexes, port facilities, or pipeline systems; provides direct supervision to personnel performing duties of carpentry and masonry specialists and of structural specialists; reads and interprets construction drawings; estimates material, time, utility, and labor requirements; computes material stress factors under varying conditions; directs earth-moving machines during minor clearing and leveling operations; inspects structures and facilities to ensure compliance with specifications and quality of workmanship; reinforces existing structures to correct faulty construction or increase load capacity; supervises construction rigging operations; assists in planning pipeline systems and supervises installation and repair of pipelines, pumping stations, and storage tanks; conducts on-the-job training; directs operator maintenace on assigned vehicles; supervises performance of electrical and plumbing services on construction and repair projects. NOTE: May have progressed to 51H30 from 51B20 (Carpentry and Masonry Specialist) or 51C20 (Structures Specialist). *Skill Level 40:* Supervises construction and repair projects involving simultaneous operation of several small elements; interprets complex construction drawings and specifications; devises network flow diagrams, such as critical path method for company-size or smaller projects; schedules work and equipment; prepares bills of material or material take-off lists; requisitions construction materials; records and reports construction progress; coordinates work activities of supporting units; ensures compliance with directives, construction drawings, specifications, and verbal orders; develops and supervises vehicle and equipment operator maintenance program.

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in blueprint reading, 3 in construction methods, and 3 in personnel supervision, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (2/80).

Recommendation, Skill Level 40

In the lower-division baccalaureate degree category, 3 semester hours in technical mathematics, 3 in blueprint reading, 3 in construction methods, 3 in personnel supervision, 3 in records administration, 3 in construction project planning, and 3 in technical report writing, for a total of 21 semester hours (2/80). In the upper-division baccalaureate degree category, 3 semester hours in personnel management, 3 in construction project management, 3 in introduction to management, and 6 for field experience in management, for a total of 15 semester hours (2/80).

MOS-51J-001

HEATING AND VENTILATING SPECIALIST

51J20

51J30

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 51J was discontinued and its functions were incorporated into MOS 51C, Structures Specialist, and MOS 52C, Utilities Equipment Repairer.)

Career Management Field: 51 (General Engineering), *subfield* 512 (Utilities Engineering).

Description

Summary: Fabricates, assembles, erects, and repairs sheet metal items of tin, copper, terneplate, and metal alloy stock. *Skill Level 20:* Reads blueprints; selects, lays out, cuts, and bends metal stock; beads sheet metal pieces; joins metal sections, utilizing slip joints, rivets, nails, bolts, solder, and weld; uses hand tools and power machines. NOTE: May have progressed to 51J20 from 51A10 (Construction and Utilities Worker). *Skill Level 30:* Able to perform the duties required for Skill Level 20; installs and repairs heating units and nonrefrigerated air conditioning and ventilating units; heating units may be gas, oil, or coal fired, using hot air, steam, or hot water to transfer heat; works with other tradesmen in installing electrical controls, blower units, and air ducts.

Recommendation, Skill Level 20

In the vocational certificate category, 20 semester hours in a sheet metal program. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical math, 2 in blueprint reading, 3 in sheet metal laboratory, and 1 in care and use of hand and power tools, for a total of 9 semester hours (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 20 semester hours in a sheet metal program or 15 semester hours in a heating program. In the lower-division baccalaureate/associate degree category, 3 semester hours in industrial technology, 3 in technical math, 3 in sheet metal laboratory, 2 in blueprint reading, 2 in heating laboratory, and 1 in care and use of hand and power tools, for a minimum total of 14 semester hours, and additional credit in applied science and personnel supervision on the basis of institutional evaluation (12/75).

MOS-51K-001

PLUMBER

51K20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 51K was discontinued and its functions were incorporated into MOS 51N, Water Treatment and Plumbing Systems Specialist.)

Career Management Field: 51 (General Engineering), *subfield* 512 (Utilities Engineering).

Description

Installs and repairs pipe systems and fixtures for water, gas, steam, petroleum, compressed air, and disposable systems for water and waste; cuts, connects, and seals joints; suspends, lays, or insulates cast iron and steel pipe, copper tubing, fiber, cement, or other pipe, and tests for leaks; determines correct pipe and tubing sizes, fitting requirements, proper venting and slopes for flow or drainage; plans work on the basis of furnished construction drawings, specifications, or sketches, using appropriate reference material to select required tools and materials; inspects, maintains, and repairs plumbing systems, including valves and other mechanisms, ruptured pipes and tubing. NOTE: May have progressed to 51K20 from 51A10 (Construction and Utilities Worker).

Recommendation

In the vocational certificate category, 34 semester hours in a plumbing program. In the lower-division baccalaureate/associate degree category, 24 semester hours in a plumbing program or sanitation technology curriculum (12/75).

MOS-51L-001

Heating and Cooling Specialist

51L20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 51L was discontinued and its functions were incorporated into MOS 52C, Utilities Equipment Repairer.)

Career Management Field: 51 (General Engineering), *subfield* 512 (Utilities Engineering).

Description

Installs, maintains, regulates, adjusts and repairs conventional refrigeration equipment, general purpose air conditioning units, and multifuel forced air heaters; disassembles major components, removes and replaces faulty individual parts, and reassembles; repairs electric wiring in control circuits and repairs electro-mechanical controls; prepares and tests brine solutions; performs preventive maintenance on equipment, and organizational maintenance on gasoline engines; utilizes safety procedures applicable to toxic gases, pressurized components, and electricity; instructs other personnel in operation of equipment. NOTE: May have progressed to 51L20 from 51A10 (Construction and Utilities Worker).

Recommendation

In the vocational certificate category, 20 semester hours in heating and air conditioning. In the lower-division baccalaureate/associate degree category, 12 semester hours in heating and air conditioning, and additional credit in physical sciences, general mathematics, and supervision on the basis of institutional evaluation (12/75).

MOS-51M-001

Firefighter

51M20
51M40

Exhibit Dates: 10/73–2/78.

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 000 (Special Assignment).

Description

Summary: Serves as chief or member of a firefighting unit. *Skill Level 20:* Operates all types of extinguishers; knows which extinguishers to use for different types of fires; employs demolition methods when necessary; rescues trapped or injured personnel; administers first aid; employs explosion hazard meter as necessary; records firefighting equipment; maintains equipment in operable condition. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises and directs firefighting and rescue units; identifies types of fires; supervises the administration of first aid; supervises maintenance of firefighting and rescue equipment to ensure proper operating condition; inspects for fire regulation violations; recommends and enforces fire prevention regulations; inspects buildings, facilities, and installations that have been damaged by fire to determine the cause of the fire; prepares recurring and special fire reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 5 semester hours in introduction to fire science and fire prevention and 1 in first aid (2/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 24 semester hours in introduction to fire science and fire prevention, 3 in first aid, 3 in communication skills, and additional credit in fire science and fire prevention on the basis of institutional evaluation, for a minimum total of 30 semester hours (2/75).

MOS-51M-002

Firefighter

51M10
51M20
51M30
51M40

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), *subfield* 513 (Fire Protection).

Description

Summary: Supervises or performs firefighting, rescue, salvage and fire protection operations. *Skill Level 10:* Operates all types of fire extinguishers for different types of fires; administers first aid; performs basic firefighting duties, including selection of nozzles and hoses for applying water or fog stream on various types of fires; maintains firefighting equipment; operates firefighting vehicles. *Skill Level 20:* Able to perform duties required for Skill Level 10; conducts performance-oriented training sessions; performs as general crew chief in firefighting and investigation of fires. *Skill Level 30:* Performs the duties of fire chief/fire inspector; supervises fire prevention and equipment maintenance; monitors and evaluates training procedures; inspects for fire regulation violations; serves as principal noncommissioned officer of fire company or team chief of crash rescue team, consisting of four or more persons. *Skill Level 40:* Performs the same critical duties as Skill Level 30. In addition: supervises and directs firefighting and rescue units; identifies types of fires, recommends and enforces fire prevention regulators; inspects building facilities and installations after fires to determine damage and cause of fires; maintains records and reports; supervises two or more fire companies.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to fire science, and 1 in first aid (2/80).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to fire science, 3 in fire prevention, and 2 in first aid, for a total of 8 semester hours (2/80).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to fire science, 6 in fire prevention, 2 in first aid, 3 in fire investigation and 3 in fire administration, for a total of 17 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management (2/80).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to fire science, 6 in fire prevention, 2 in first aid, 6 in fire investigation, 6 in fire administration, 3 in technical report writing or communications, for a total of 26 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, and 3 for field experience in management (2/80).

MOS-51N-001

Water Supply Specialist

51N20
51N40
51N50

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), *subfield* 512 (Utilities Engineering).

Description

Summary: Produces and distributes potable water to supported field units. *Skill Level 20:* Checks sources of water for suitability; tests and analyzes raw water samples for contamination and other characteristics and identifies necessary treatments; sets up and operates mobile or portable water treatment equipment; checks and controls the process of water purification, including sedimentation, coagulation, pH value, turbidity, chlorination, and filtration; prepares standard solutions for water tests; operates pumps, engines, and vehicles; makes appropriate adjustments, replaces defective water-related components and performs preventive maintenance tasks; makes connections for distribution of purified water to users and maintains supply. NOTE: May have progressed to 51N20 from 51A10 (Construction and Utilities Worker). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises Skill Level 20 personnel; locates suitable water sources and determines potential supply volume; verifies suitability of actions taken by subordinates in testing, analysis, and treatment of water; supervises the installation, operation, and maintenance of equipment for production and distribution of potable water; prescribes standard or special methods as required; instructs and supervises the training of subordinates, evaluates their performance, and employs personnel management techniques. *Skill Level*

50: Able to perform the duties required for Skill Level 40; assists in planning, coordinating, and supervising all company support activities; advises superiors on personnel matters.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in water supply and purification. In the lower-division baccalaureate/associate degree category, 3 semester hours in water supply and pollution control (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in water supply and purification. In the lower-division baccalaureate/associate degree category, 3 semester hours in water supply and pollution control and 2 in introduction to management (12/75).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in water supply and purification. In the lower-division baccalaureate/associate degree category, 3 semester hours in water supply and pollution control, 3 in introduction to management, and 3 for field experience in management, for a total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (12/75).

MOS-51N-002

WATER TREATMENT AND PLUMBING SYSTEMS SPECIALIST (WATER SUPPLY SPECIALIST)

51N10

51N20

51N30

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 512 (Utilities Engineering).

Description

Summary: Produces and distributes potable water to support field units. *Skill Level 10:* Installs and repairs pipe systems, plumbing fixtures and equipment, and assists in set-up, operation, and maintenance of field water points; must be able to identify types and quantities of materials used and know layout of plumbing fixtures; connects and installs appropriate pipes, valves, couplings, and fittings; installs sanitary fixtures, including all plumbing components; assists in field-site preparation, set-up, and maintenance of water purification, storage, and distribution systems; operates and maintains water production equipment and performs basic water analysis tests. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower skill level personnel; develops field water sources and water points; operates varied and complex water treatment equipment and produces potable water; analyzes raw water and treated water for various contaminants and determines chemical content and physical characteristics; operates fixed waste-water-treatment facilities; chemically treats waste; performs all organizational maintenance necessary for proper performance of water and waste-water-treatment equipment, including basic electrical, mechanical, hydraulic, and pneumatic control devices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises installation, operation, and maintenance of water supply and waste-water-treatment plants and systems; is responsible for the management, repair, and supply and administration of the facilities and prepares reports incident to the proper operation of the treatment systems.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in water purification and 3 in waste treatment, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification (2/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in water purification, 3 in waste treatment, 3 in water and sewage facilities operation, and 3 in utility plumbing, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification and 3 in water supply (2/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in water purification, 3 in waste treatment, 3 in utility plumbing, and 6 in water and sewage facilities operation, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in water purification, 3 in water supply, 3 in personnel supervision, and 3 for field experience in supervision, for a total of 12 semester hours (2/80).

MOS-51P-001

UTILITIES FOREMAN

51P40

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 512 (Utilities Engineering).

Description

Plans and supervises the construction, installation, maintenance, and repair of water supply, waste disposal, electrical service, refrigeration, heating, and ventilation systems; estimates material, manpower, and equipment requirements; advises personnel on technical problems encountered; performs or supervises related administrative activities. NOTE: May have detailed knowledge of one or more of the following areas: heating and ventilating, plumbing, heating and cooling, and industrial gas production, through previous MOS experience in the general engineering career management field (51).

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in industrial arts, 3 in technical mathematics, 3 in industrial technology (utilities maintenance), and 3 in personnel supervision, for a total of 15 semester hours. In the upper-division baccalaureate category, 6 semester hours in utilities construction management, or 3 semester hours in introduction to management and 3 for field experience in management (12/75).

MOS-51P-002

UTILITIES ENGINEERING SUPERVISOR (UTILITIES FOREMAN)

51P40

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 512 (Utilities Engineering).

Description

Supervises installation, operation, maintenance, and repair, and conducts inspections, of utilities systems, including water and sewage treatment plants, interior/exterior electrical distribution systems, buildings and grounds (including roads and streets), air-conditioning and refrigeration, and power generation equipment; may have detailed knowledge of one or more of the above systems; solves installation and maintenance problems; analyzes utility systems; prepares the utility budget and operation and maintenance reports. NOTE: May have progressed to 51P40 from 51R30 (Electrician) or 51N30 (Water Treatment and Plumbing Systems Specialist).

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in industrial arts, 3 in technical mathematics, 3 in industrial technology (utilities maintenance), and 6 in personnel supervision, for a total of 18 semester hours. In the upper-division baccalaureate category, 6 semester hours in utilities construction management and 6 for field experience in management (2/80).

MOS-51Q-001

TERRAIN ANALYST

See the exhibit for MOS 81Q.

MOS-51R-001

ELECTRICIAN

51R20

51R30

51R40

51R50

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 512 (Utilities Engineering).

Description

NOTE: The scope of duties performed in this MOS varies considerably throughout the Army; duties performed may include installation, inspection, maintenance, and repair on low- and high-voltage electrical systems in building and electrical distribution systems. *Skill Level 20:* Duties may include performing user maintenance on electrical test equipment and tools; performing minor maintenance on small electrical motors, generators, and controllers; performing elementary algebraic electrical calculations of voltage, current, resistance, and power; serving as marine electrician aboard vessels; installing low-voltage electrical lighting and some outside distribution apparatus and hardware such as cables, conduits, outlets, panels and poles, crossarms, insulators, and conductors; taking emergency action in the event of injury to other persons. NOTE: May have progressed to 51R20 from 51A10 (Construction and Utilities Worker). *Skill Level 30:* Duties may include those required for Skill Level 20 and installing, maintaining, inspecting, and repairing high-voltage electrical transmission systems; erecting poles and towers for power transmission and maintaining auxiliary equipment; estimating size and capacity of conductors and transformers to serve a specific area; performing cable tests for malfunctions and splicing cable; using electrical instruments to measure voltage, current, and phase angle; using and testing hotline protective equipment; taking emergency action in case of injury, including first aid for electrical shock. *Skill Level 40:* Duties may include those required for Skill Level 20 or 30 and supervising the installation, maintenance, and repair of high-voltage electric transmission systems; advising on complex construction work, sequence of work operations, and work procedures; instructing subordinates in erection and maintenance of high-voltage electric transmission systems; planning complete installation for wiring of buildings. *Skill Level 50:* Duties may include those required for Skill Level 40 and serving as a first-line supervisor or mid-level manager; establishing workloads and maintenance priorities; implementing quality control measures; conducting on-the-job training; providing technical assistance; serving as the personnel director for over 50 persons.

Recommendation, Skill Level 20

Credit in basic electricity on the basis of institutional evaluation. Advanced standing in a construction electrician or an electrical lineman apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity. In the upper-division baccalaureate category, 6 semester hours in industrial electricity and electronics (in programs preparing students for careers as power use advisors, electrical equipment sales agents, and company technical representatives), and 2 in introduction to management, for a total of 8 semester hours. Advanced standing in a construction electrician or an electrical lineman apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 40

The recommendation for educational credit is the same as that for Skill Level 30 plus, in the upper-division baccalaureate category, 3 additional semester hours in industrial electricity and electronics and 2 in introduction to management, for a total of 8 semester hours. Advanced standing in a construction electrician or an electrical lineman apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity. In the upper-division baccalaureate category, 6 semester hours in industrial electricity and electronics (in programs preparing students for careers as power use advisors, electrical equipment sales agents, and company technical representatives). 3 for field experience in management, for a total of 12 semester hours. Advanced standing in a construction electrician or an electrical lineman apprentice training program on the basis of employer or trade association performance examination (3/76).

MOS-51R-002

Electrician

51R10
51R20
51R30

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), *subfield* 512 (Utilities Engineering).

Description

Summary: Supervises or performs installation and maintenance of electrical systems and equipment. *Skill Level 10:* Installs interior electrical systems and equipment, using conduit, service wire, fuse panels, switches, outlets, junction and outlet boxes; installs service entrances and lighting fixtures; checks operational condition of circuits, using test equipment; splices and tapes conductors; if exterior lineman experience is included, also performs the following duties: assists in exterior electrical construction and service. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises installation; inspects and maintains interior electrical systems; interprets plans; makes sketches of wiring diagrams, specifications, and blueprints; inspects interior system components for compliance with specifications; installs and maintains electric motors and controls; if exterior lineman experience is included, also performs the following duties: maintains exterior electrical distribution systems and equipment; serves as exterior lineman; erects service poles; installs crossarms, insulators, primary conductors, transformers, and service drops; uses components and tools for hotline maintenance. *Skill Level 30:* Able to perform the duties required for Skill Level 20. Supervises installation, maintenance, and repair of interior electric distribution systems and equipment; estimates manpower and equipment requirements and prepares bills of materials necessary for electrical construction; plans work assignments; supervises maintenance of special-purpose safety equipment and tools during electrical construction; if exterior lineman experience is included, also performs the following duties: supervises installation of underground electrical distribution systems.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (2/80).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in industrial electricity, and 3 in industrial motors and controls, for a total of 9 semester hours (2/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electricity, 3 in industrial electricity, 3 in industrial motors and controls, 3 in industrial electrical and distribution systems, 3 in electrical blueprint reading, and additional credit in related electrical courses on the basis of institutional evaluation, for a minimum total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in industrial electricity, 3 in industrial motors and controls, 3 in industrial electrical and distribution systems, 3 in electrical blueprint readings, 2 in personnel supervision, and additional credit in related electrical courses on the basis of institutional evaluation, for a minimum total of 17 semester hours (2/80).

MOS-51T-001

Technical Engineering Supervisor

51T30
51T40

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), *subfield* 511 (Technical Engineering).

Description

Summary: Supervises or participates in construction site development, including technical investigation surveying, development of construction plans and specifications, and performing quality control inspections. *Skill Level 30:* Supervises technical engineering relating to construction surveying, drafting, and testing of construction materials. Conducts surveys and preliminary engineering inspections. Prepares layouts and detail drawings of pavements, structures, buildings, and utility systems from sketches and specified design criteria. Assists in inspection of all phases of construction and repair. NOTE: May have progressed to 51T30 from 51G20 (Materials Quality Specialist), 82B (Construction Surveyor), or 81B (Technical Drafting Specialist). *Skill Level 40:* Performs duties shown in preceding level of skill and provides technical guidance to lower skill level personnel; plans and supervises preparation and layout of drawings; performs simple load calculations to ensure construction of safe facilities; prepares network flow diagrams, such as critical path method.

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in civil engineering technology, 3 in materials testing, 3 in introduction to surveying, 3 in personnel supervision and 6 in engineering drafting, for a total of 18 semester hours (2/80).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as the for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in engineering management and 6 in construction project planning (2/80).

MOS-51Z-001

General Engineering Supervisor

51Z50

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), *subfield* 510 (General Engineering).

Description

Provides staff supervision to units engaged in structural building and repair and provisions of water and utilities services; serves as principal noncommissioned officer in an engineering combat (heavy) company or in an engineer combat battalion; may serve in an engineer section at engineer brigade or higher headquarters; directs and coordinates activities of staff personnel to insure proper integration of all construction and utility operations; assists in appraisal of training status, construction planning, and material requests; inspects structural facilities and water and utility production and distribution systems; supervises performance of combat engineer missions. NOTE: May have progressed to 51Z50 from 51T40 (Technical Engineering Supervisor), 52E40 (Prime Power Production Specialist), 51P40 (Utilities Engineering Supervisor), 51M40 (Firefighter), 51H40 (Construction Engineering Supervisor), 00B40 (Diver), 62N40 (Construction Equipment Supervisor), or 53B40 (Industrial Gas Production Specialist).

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in records administration, 3 in technical mathematics, 3 in technical writing, 3 in industrial technology, 3 in human relations, and 3 in personnel supervision, for a total of 18 semester hours. In the upper-division baccalaureate/category, 6 semester hours in construction management, 3 in personnel management and 6 for field experience in management, and additional credit in engineering and management on the basis of institutional evaluation, for a minimum total of 15 semester hours (2/80).

MOS-52B-001

Power Generation Equipment Operator/Mechanic

52B20

52B30

Exhibit Dates: 10/73-9/74.

Career Management Field: 52 (Power Production), *subfield* 521 (Electric Power Production).

Description

Summary: Operates and performs routine maintenance on general and multipurpose portable generator sets. *Skill Level 20:* Operates and performs preventive maintenance on portable generators, arc welders, and frequency converters equipped with electric motors or with diesel or gas engines; uses mechanical and electrical handtools, and measuring and testing devices; computes voltage, amperage, and resistance; computes electrical power requirements, selects number of generators needed; determines phase rotation and load cable sizes; starts and synchronizes generators and sets control devices to attain power output; keeps maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs organizational maintenance on multipurpose portable generators, frequency converters, switch gear, load bands, control panels; uses special tools and test equipment; troubleshoots, adjusts, diagnoses, and replaces assemblies.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in power plant operation. In the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation. In a power plant operator apprentice training program, 1,000 clock hours of experience and 262 contact hours of related instruction (3/75).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in power plant operation. In the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation. In a power plant operator apprentice training program, 6,000 clock hours of experience and 300 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

MOS-52B-002

Power Generation Equipment Operator/Mechanic

52B10

52B20

52B30

Exhibit Dates: 10/74-2/78. (Effective 3/78, MOS 52B was discontinued and its functions were incorporated into MOS 52D, Power Generation Equipment Repairer and MOS 63B, Power Generation and Wheel Vehicle Mechanic.)

Career Management Field: 52 (Power Production), *subfield* 521 (Electric Power Production).

Description

Summary: Operates and performs routine maintenance on general and multipurpose portable generator sets. *Skill Level 10:* Performs as substation electrical helper or power generation helper; performs routine tests and minor repairs on motors, generators, starting and control equipment, and auxiliary equipment; applies fundamentals of AC and DC electricity to motors and generators; loads and unloads tools and equipment; performs preventive maintenance on equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates and performs maintenance on general purpose portable generators, arc welders, frequency converters equipped with AC or DC electric motors, diesel or gasoline engines, and auxiliary equipment; performs mechanical and electrical installations, adjustments, maintenance repairs, or modifications; applies fundamentals of electronics and mechanics; interprets technical manuals and traces schematic diagrams; performs diagnostic tests with specified electronics and pneumatic measuring instruments, including multimeters, amp probes, diode and transistor tester, tachometers, motor-generator testers, pressure guages, and engine-timing equipment; monitors engine and generator operation with the use of various tachometers, voltmeters, current meters, frequency meters, and watt meters; makes the necessary adjustments required to bring engines, generators, and loads within specified values for balanced and efficient operation; employs various mechanic's and electrician's handtools; keeps maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; troubleshoots, adjusts, diagnoses, replaces modules, and performs operational tests on equipment; performs maintenance on multi-purpose auxiliary generators, frequency converters, switch gears, load bands, control panels, and equipment; may supervise up to 15 subordinate personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in basic mathematics, 2 in basic electricity theory and laboratory, 2 in fundamentals of combustion engines, 2 in fundamentals of diesel engines, 2 in generator/motor theory and laboratory, 2 in AC electrical principles and 2 in power generator systems, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 2 in power mechanics, 2 in applied electricity, and 2 in applied mechanics, for a total of 9 semester hours. Advanced standing in a power plant operator (electric power and light) apprentice training program on the basis of employer or trade association performance examination (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in basic electricity theory and laboratory, 4 in power generator systems, 2 in basic mathematics, 2 in fundamentals of combustion engines, 2 in fundamentals of diesel engines, 2 in generator/motor theory and laboratory, 2 in AC electrical principles, and 2 in safety, for a total of 20 semester hours. In the lower division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in power mechanics, 3 in applied electricity, and 3 in applied mechanics, for a total of 12 semester hours. In a power plant operator (electric power and light) apprentice training program, 1,000 clock hours of experience and 300 contact hours of related instruction (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in power mechanics, 3 in applied electricity, and 3 in applied mechanics, and additional credit in personnel supervision and human relations on the basis of institutional evaluation, for a minimum total of 12 semester hours. In a power plant operator (electric power and light) apprentice training program, 6,000 clock hours of experience and 300 contact hours of related instruction. Journeyman status achieved through employer trade association performance examination (6/76).

MOS-52C-001

Power Pack Specialist

52C20

Exhibit Dates: 10/73-2/78.

Career Management Field: 52 (Power Production), *subfield* 521 (Electric Power Production).

Description

Able to perform the duties of 52B30 (Power Generation Equipment Operator/Mechanic); operates and performs maintenance on gas turbine driven generator sets and power pack units; diagnoses, troubleshoots, repairs, inspects, adjusts, and test-operates equipment; uses voltmeters and ohmmeters; may perform maintenance on related equipment, including internal-combustion engines and refrigeration and air conditioning equipment; applies theory of generators, pneumatics, hydraulics, and multiphase power production; reads electrical schematics and uses engine analyzers.

Recommendation

In the vocational certificate category, 4 semester hours in basic electrical theory and laboratory, 4 in power generator systems, 2 in basic mathematics, 2 in fundamentals of combustion engines, 2 in fundamentals of diesel engines, 2 in generator/motor theory and laboratory, 2 in AC electrical principles, and 2 in safety, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in power machanics, 3 in applied electricity, and 3 in applied mechanics, and additional credit in personnel supervision and human relations on the basis of institutional evaluation, for a minimum total of 12 semester hours. In an industrial maintenance electrician apprentice training program, 6,000 clock hours of experience and 300 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (6/76).

MOS-52C-002

Utilities Equipment Repairer

52C10
52C20
52C30

Exhibit Dates: 3/78–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Supervises or performs maintenance on heating and cooling equipment and associated equipment. *Skill Level 10:* Operates and performs maintenance on gas turbine driven generator sets and power pack units; inspects, diagnoses, troubleshoots, repairs, adjusts and test-operates equipment; uses electrical and mechanical test equipment, such as ohmmeters, voltmeters, and engine analyzers; performs maintenance on related equipment, including internal-combustion engines, and refrigeration and air conditioning equipment; applies theory of generators, pneumatics, hydraulics, and multi-phase power production; reads electrical schematics and mechanical drawings. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower skill level personnel; determines extent of repair and overhaul required; diagnoses and isolates unusual malfunctions; purges and recharges refrigeration systems; repairs and installs heating, refrigerating and air conditioning equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; inspects operational condition of equipment and systems; requisitions, stores, inventories, and issues special tools, test equipment, components, supplies, and provides necessary publications; prepares operation and maintenance reports; plans and schedules work assignments, priorities, inspection procedures, and shop assignments; solves complex installation and maintenance problems of all heating and cooling equipment; supervises from 6 to 14 persons; conducts on-the-job training.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in electrical theory and laboratory, 4 in power generator systems, 3 in basic mathematics, 2 in internal-combustion engines, 2 in generator/motor theory and laboratory, 2 in AC theory, 2 in fundamentals of diesel engines, 2 in fundamentals of refrigeration and air conditioning, and 2 in safety, for a total of 23 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (AC and DC), 3 in power mechanics, and 3 in air conditioning and refrigeration, for a total of 9 semester hours (10/79).

Recommendation, Skill Level 20

In the vocational certificate category the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (AC and DC), 3 in power mechanics, 3 in air conditioning and refrigeration, 3 in applied electricity, 3 in applied mechanics, and 3 in technical mathematics, for a total of 18 semester hours (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (AC and DC), 3 in power mechanics, 3 in air conditioning and refrigeration, 3 in applied electricity, 3 in applied mechanics, 3 in technical mathematics, 3 in personnel supervision, 3 in human relations, and 3 in introduction to management, for a total of 27 semester hours (10/79).

MOS-52D-001

Power Generation Equipment Repairman

52D20
52D40

Exhibit Dates: 10/73–2/78.

Career Management Field: 52 (Power Production), *subfield* 521 (Electric Power Production).

Description

Summary: Supervises or performs maintenance on power generation equipment. *Skill Level 20:* Must be able to perform the duties of 52B30 (Power Generation Equipment Operator/Mechanic); repairs power generation equipment; disassembles, repairs, reassembles, tests, adjusts, and inspects major items, assemblies, subassemblies, and components of electrical equipment including motors, generators, portable power generator sets, frequency converters, arc welders, switch gear, electrical load banks, water purification set, ion exchange units, electrical forklifts, battery charging panels, and light sets; repairs gas turbine, gasoline, and diesel engines; troubleshoots and diagnoses mechanical and electrical malfunctions; disassembles, repairs, and reassembles static and rotating exciters, and static and dynamic AC and DC voltage regulators and related equipment; rewinds AC and DC motors and generators; uses standard and special hand and power tools, and test equipment including gas turbine engine analyzer, automatic electrical tester, oscilloscopes, precision voltage and frequency meters, electronic tachometers, multimeters, and industrial analyzers. NOTE: May have progressed to 52D20 from 52B30 (Power Generation Equipment Operator/Mechanic) or 52C20 (Power Pack Specialist). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises repairs, overhauls, disassemblies/assemblies, tests, adjustments, and inspections of power generation equipment; conducts on-the-job training; establishes work priorities, work and shift schedules, shop administrative practices, and inspection procedures; prepares and keeps maintenance forms and records.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in AC/DC motor generator theory and laboratory, 4 in basic electricity/electronics theory and laboratory, 3 in industrial electricity, 2 in basic mathematics, 2 in semiconductor devices, 2 in instrument applications, 2 in fundamentals of small engine repair, 2 in fundamentals of combustion engine repair, 2 in fundamentals of diesel engine repair, 2 in fundamentals of turbine engine repair, and 2 in safety, for a total of 29 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics theory and laboratory, 6 in power mechanics, 2 in semiconductor devices, 2 in industrial electricity, and 2 in electronic instrumentation, for a total of 18 semester hours. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a maintenance equipment repairman (electric power and light) (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics theory and laboratory, 6 in power mechanics, 3 in industrial safety, 3 in human relations, 3 in personnel supervision, 3 in introduction to management, 2 in semiconductor devices, 2 in industrial electricity, and 2 in electronic instrumentation, for a total of 30 semester hours. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a maintenance equipment repairman (electric power and light) (6/76).

MOS-52D-002

Power Generation Equipment Repairer

52D10
52D20
52D30

Exhibit Dates: 3/78–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Supervises or performs support and maintenance functions of power generating equipment. *Skill Level 10:* Repairs and maintains power generation equipment and associated items such as arc welders, forklifts, and other materials handling equipment in addition to motor generators; determines condition of equipment, cause of malfunction, and need for repair; uses appropriate test procedures and test equipment, including multimeters and compression gauges, hand and power tools; repairs gasoline and diesel engines and electric motors. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower grade personnel; repairs AC and DC voltage regulators, electrical and electronic load sensing governors, and control circuits; performs technical inspections. *Skill Level 30:* Able to perform the duties required for Skill Level 20; manages and supervises repair operations for power generating and similar equipment; conducts training of lower skill level personnel; inspects operationsl condition of equipment and installations; analyzes problems in power generation and associated equipment through maintenance histories, wiring diagrams and operating characteristics.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in AC/DC motor generator theory and laboratory, 3 in basic electricity/electronics, 2 in basic mathematics, 2 in fundamentals of small engine repair, 2 in fundamentals of internal combustion engine repair, and 2 in fundamentsls of diesel engine repair, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics and 3 in fundamentals of power mechanics (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in AC/DC motor generator theory and laboratory, 3 in basic electricity/electronics, 2 in basic mathematics, 2 in fundamentals of small engine repair, 2 in fundamentals of internal combustion engine repair, 2 in fundamentals of diesel engine repair, 3 in industrial electricity, 2 in electrical instrument applications, and 2 in safety, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics, 2 in technical mathematics, 6 in power mechanics, and 2 in industrial electricity, for a total of 16 semester hours (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics, 2 in technical mathematics, 6 in power mechanics, 2 in industrial electricity, 3 in human relations, 3 in personnel supervision, and 3 in introduction to management, for a total of 25 semester hours (10/79).

MOS–52E–001

POWER STATION OPERATOR

52E20

52E40

Exhibit Dates: 10/73–2/78.

Career Management Field: 52 (Power Production), *subfield* 521 (Electric Power Production).

Description

Summary: Operates or supervises operation of substation or generating system. *Skill Level 20:* Operates and maintains generating station equipment; inspects, tests, modifies, and performs installations and preventive maintenance of substation or generating station electrical equipment; starts, stops, and regulates motor, gas engine, diesel engine, and turbine engine driven generators; makes required voltage, power, frequency, and phase compensations in order to maintain specified electrical requirements; performs engine or motor input/output power inspections, tests, and adjustments as needed for providing proper operation of generator; uses fundamental electronics knowledge, schematic tracing and electronics instruments in performing diagnostic tests on systems, circuits, and components; uses multimeters, oscilloscopes, clamp-on ammeters, insulation testers, generator-motor testers, diode-transistor testers, signal generators, tachometers, impedance bridges, and pressure gauges; troubleshoots and repairs down to actual discrete electronic components in solid-state or saturable reactor voltage regulators; makes adjustments or repairs overall phases of gas engines or diesel engines, including oil changes, ignition system tune-ups, carburetor adjustments, engine disassembly, valve grindings, and starter motor repairs; is qualified to perform preventive maintenance and repairs of other similar electromechanical equipment including arc welders, air conditioners, refrigeration units, dehumidifiers and small engines; as a power station operator, measures, records, and interprets data from electrical, pneumatic, and hydraulic instruments; performs on-site maintenance, including draining oil, cleaning, examining, and replacing minor parts; operates boilers, on steam powered floating plants; may be responsible for the supervision of other operators and mechanics. *Skill Level 40:* Must be able to perform the duties required for Skill Level 20; supervises operation of generating station, substations, or portable power generators; supervises installations, preventive maintenance, safety, inspections, and parts and equipment requisitioning; conducts on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in AC/DC motor generator theory and laboratory, 4 in basic electricity/electronics theory and laboratory, 3 in industrial electricity, 2 in basic mathematics, 2 in semiconductor devices, 2 in instrument applications, 2 in fundamentals of small engine repair, 2 in fundamentals of combustion engine repair, 2 in fundamentals of diesel engine repair, 2 in fundamentals of turbine engine repair, and 2 in safety, for a total of 29 semester hours. In the lower-division baccalureate/associate degree category, 6 semester hours in basic electricity/electronics theory and laboratory, 6 in power mechanics, 2 in semiconductor devices, 2 in industrial electricity, and 2 in electronic instrumentation, for a total of 18 semester hours. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a maintenance equipment repairman (electric power and light) (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity/electronics theory and laboratory, 6 in power mechanics, 3 in industrial safety, 3 in human relations, 3 in personnel supervision, 3 in introduction to management, 2 in semiconductor devices, 2 in industrial electricity, and 2 in electronic instrumentation, for a total of 30 semester hours. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a maintenance equipment repairman (electric power and light) (6/76).

MOS–52E–002

PRIME POWER PRODUCTION SPECIALIST

52E20

52E30

52E40

Exhibit Dates: 3/78–Present. Pending evaluation.

MOS–52H–001

NUCLEAR POWER PLANT MECHANIC OR OPERATOR

52H20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 52H was discontinued and its functions were incorporated into MOS 52E, Prime Power Production Specialist.)

Career Management Field: 52 (Power Production), *subfield* 522 (Nuclear Power Production).

Description

Operates and repairs mechanical systems and auxiliary and standby equipment of an Army nuclear power plant; reads schematic diagrams and mechanical drawings; introduces control instrumentation, power conversion equipment, station service electrical system, associated pumps, and chemical feed system; observes and interprets instrument readings; interprets nuclear, mechanical, and electrical problems involving mathematical formulas; calibrates, adjusts, repairs, and tests operation of mechanical equipment, including turbines, control rod drives, pumps, air compressors, heat exchanges, economizers, chlorinators, and diesel-driven auxiliary generating equipment; uses handtools, precision-measuring devices, and electrically and pneumatically operated power tools. NOTE: An individual assigned MOS 52H may have extensive additional training and experience as an Army-certified nuclear power plant operator (comparable to the position defined in the Code of Federal Regulations, Title 10, Part 55) or as an Army-certified nuclear welder.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in physics, 6 in mathematics, 6 in mechanical engineering, 6 in electrical engineering, 6 in engineering technology, and 3 in chemistry, and additional credit in communications and in technical writing on the basis of institutional evaluation, for a minimum total of 33 semester hours. In the upper-division baccalaureate category, 6 semester hours in physics or in engineering; and, *for those persons with Army certification as a nuclear power plant operator,* 15 additional semester hours in physics and/or engineering, for a maximum total of 21 semester hours (6/76).

MOS–52J–001

NUCLEAR POWER PLANT ELECTRICIAN OR OPERATOR

52J20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 52J was discontinued and its duties were incorporated into MOS 52E, Prime Power Production Specialist.)

Career Management Field: 52 (Power Production), *subfield* 522 (Nuclear Power Production).

Description

Repairs electrical components of Army nuclear power plant equipment; observes instructions and records indications; adjusts temperature, pressures, flow rates, and process liquid levels; applies provisions of National Electrical Code governing installation, modification, and repair of electrical wiring and equipment; traces wiring and equipment diagrams; troubleshoots electrical systems; interprets nuclear, mechanical, and electrical problems involving mathematical formulas; wires, repairs, and tests operation of switchgear, circuit breakers, motors, transformers, generators, high and low voltage distributors, transmission systems, and protective and self-synchronizing devices; solders connections and splices cables; assists in refueling operations. NOTE: An individual assigned MOS 52J may have extensive additional training and experience as an Army-certified nuclear power plant operator (comparable to the position defined in the Code of Federal Regulations, Title 10, Part 55) or as an Army-certified nuclear welder.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in physics, 6 in mathematics, 6 in mechanical engineering, 6 in electrical engineering, 6 in engineering technology, and 3 in chemistry, and additional credit in communications and in technical writing on the basis of institutional evaluation, for a minimum total of 33 semester hours. In the upper-division baccalaureate category, 6 semester hours in physics or in engineering; and, *for those persons with Army certification as a nuclear power plant operator,* 15 additional semester hours in physics and/or engineering, for a maximum total of 21 semester hours (6/76).

MOS-52K-001

Nuclear Power Plant Instrumentman or Operator

52K20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 52K was discontinued and its functions were incorporated into MOS 52E, Prime Power Production Specialist.)

Career Management Field: 52 (Power Production), *subfield* 522 (Nuclear Power Production).

Description

Operates controls and equipment and installs and repairs electrical, electronic, and pneumatic instrumentation; establishes startup conditions in power conversion equipment, station service electrical system, control instrumentation, associated pumps, and chemical feed systems; observes and interprets instrument readings; operates diesel-driven auxiliary generating equipment; troubleshoots Army nuclear power plant instrumentation systems, using schematic and wiring diagrams; installs, calibrates, adjusts, repairs, and tests instrumentation and control equipment; installs electrical, electronic, and pneumatic instruments; repairs or replaces circuit wiring, coaxial cables, vacuum tubes, semiconductors, and saturable core devices; uses multimeters, oscilloscopes, transistor test sets, signal generators, and pressure and vacuum comparators; interprets nuclear, mechanical, and electrical problems involving mathematical formulas. NOTE: An individual assigned MOS 52K may have extensive additional training and experience as an Army-certified nuclear power plant operator (comparable to the position defined in the Code of Federal Regulations, Title 10, Part 55) or as an Army-certified nuclear welder.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in physics, 6 in mathematics, 6 in mechanical engineering, 6 in electrical engineering, 6 in engineering technology, and 3 in chemistry, and additional credit in communications and in technical writing on the basis of institutional evaluation, for a minimum total of 33 semester hours. In the upper-division baccalaureate category, 6 semester hours in physics or in engineering; and *for those persons with Army certification as a nuclear power plant operator,* 15 additional semester hours in physics and/or engineering, for a maximum total of 21 semester hours (6/76).

MOS-52L-001

Nuclear Power Plant Process Control Specialist or Operator

52L20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 52L was discontinued and its functions were incorporated into MOS 52E, Prime Power Production Specialist.)

Career Management Field: 52 (Power Production), *subfield* 522 (Nuclear Power Production).

Description

Serves as a health physicist; conducts radiological surveys of personnel, equipment, work areas, and reactor elements, and carries out safety and decontamination procedures; establishes startup conditions in power conversion equipment, station service electrical system, control instrumentation, associated pumps, and chemical feed systems; observes and interprets instrument readings; sustains temperature, pressures, flow rates, and process liquid levels; interprets nuclear, mechanical, and electrical problems; operates diesel-driven auxiliary generating equipment; applies techniques for volumetric, gravimetric, colorimetric, and radiochemical analysis of water; determines alpha, beta, gamma, and neutron activities in air, water, and solid samples; converts radiation levels into millicuries; computes radiation levels, exposure time limits, accumulated dosages, and radiation counter efficiencies; employs slide rule, logarithm tables, and chemical and mathematical formulas; performs decontamination procedures; establishes and monitors plant radiological safety program. NOTE: An individual assigned MOS 52L may have extensive additional training and experience as an Army-certified nuclear power plant operator (comparable to the position defined in the Code of Federal Regulations, Title 10, Part 55) or as an Army-certified nuclear welder; also may be specialized in health physics, water chemistry, or instrumentation.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in physics, 6 in mathematics, 6 in mechanical engineering, 6 in electrical engineering, 6 in engineering technology, and 3 in chemistry, and additional credit in communications and in technical writing on the basis of institutional evaluation, for a minimum total of 33 semester hours. In the upper-division baccalaureate category, 6 semester hours in physics or in engineering and 3 in health physics, and, *for those persons with Army certification as a nuclear power plant operator,* 15 additional semester hours in physics and/or engineering, for a maximum total of 24 semester hours (6/76).

MOS-52M-001

Nuclear Power Plant Chief

52M40

52M50

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 52M was discontinued and its functions were incorporated into MOS 51Z, General Engineering Supervisor, and MOS 52E, Prime Power Production Specialist.)

Career Management Field: 52 (Power Production), *subfield* 522 (Nuclear Power Production).

Description

Summary: Supervises the operation and maintenance of an Army nuclear power plant. *Skill Level 40:* Able to perform the duties required for 52H20 (Nuclear Power Plant Mechanic or Operator), 52J20 (Nuclear Power Plant Electrician or Operator), 52K20 (Nuclear Power Plant Instrumentman or Operator), or 52L20 (Nuclear Power Plant Process Control Specialist or Operator). *When Army certified as a senior reactor operator,* serves as a nuclear power plant shift supervisor or, in a small nuclear power plant, as the maintenance supervisor; supervises operating and maintenance activities and takes appropriate actions to insure efficient and safe operation of the nuclear power plant; prepares technical and administrative reports on nuclear power plant operation and maintenance; instructs subordinates in plant operation and maintenance; makes independent technical decisions on small plant nuclear power facilities maintenance; supervises plant activities in the absence of plant supervisor or superintendent. NOTE: In some cases, an individual assigned 52M40 may *not* be Army-certified as a senior reactor operator and may instead perform the maintenance and special functions required for 52H20, 52J20, 52K20, or 52L20. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the maintenance supervisor in a large nuclear power plant or as the supervisor of a small or large nuclear power plant; serves as the first sergeant of a company; assists in planning, coordinating, and supervising all operations and activities; advises the company commander on all personnel matters; directs and coordinates company administration; directs and conducts on-the-job training; holds meetings with subordinate supervisor to provide instructions and guidance; inspects facilities to insure safety measures are followed; coordinates support activities, such as supply and food service; periodically serves as a chief instructor in a formal training facility.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in physics, 6 in mathematics, 6 in mechanical engineering, 6 in electrical engineering, 6 in engineering technology, 3 in chemistry, 3 in technical writing, and 3 in human relations, and additional credit in personnel supervision on the basis of institutional evaluation, for a minimum total of 39 semester hours. In the upper-division baccalaureate category, 6 semester hours in physics or in engineering; and, *for those persons with Army certification as a nuclear power plant operator,* 15 additional semester hours in physics and/or engineering, for a maximum total of 21 semester hours (6/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours in physics or in engineering, 6 for field experience in management, 3 in introduction to management, 3 for an internship in education, 3 in industrial arts education (engineering technology), and 3 in health physics, for a total of 24 semester hours; and, *for those persons with Army certification as a nuclear power plant operator,* 15 additional semester hours in physics and/or engineering, for a maximum total of 39 semester hours (6/76).

MOS-53B-001

OXYGEN-ACETYLENE PRODUCTION SPECIALIST

53B20

53B40

Exhibit Dates: 10/73–2/78.

Career Management Field: 51 (General Engineering), *subfield* 513 (Industrial Gas Production).

Description

Summary: Operates oxygen-acetylene plants to manufacture gaseous nitrogen, oxygen, and acetylene. *Skill Level 20:* Has some basic knowledge of applied science, such as law of gases, liquification and separation of air, theory of cooling, fractional distillation, basic instrumentation, chemistry of acetylene, forms of energy, changes of state, theory of carbon dioxide, and hydrogen production; employs safety measures; combats fires caused by chemicals. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor; isolates and corrects equipment malfunctions; coordinates plant operations and maintenance; enforces safety rules; writes routine, special, and technical reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in applied science and additional credit on the basis of institutional evaluation (3/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in applied science, 2 in personnel supervision, and 1 in technical writing, and additional credit on the basis of institutional evaluation, for a minimum total of 6 semester hours (3/75).

MOS-53B-002

INDUSTRIAL GAS PRODUCTION SPECIALIST

53B10

53B20

53B30

53B40

Exhibit Dates: 3/78–Present. Pending evaluation.

MOS-53C-001

CARBON DIOXIDE—HYDROGEN PRODUCTION SPECIALIST

53C20

53C40

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 53C was discontinued and its functions were incorporated into MOS 53B, Industrial Gas Production Specialist.)

Career Management Field: 51 (General Engineering), *subfield* 513 (Industrial Gas Production).

Description

Summary: Operates carbon dioxide-hydrogen production plants. *Skill Level 20:* Operates a mobile production plant to manufacture carbon dioxide, dry ice, and hydrogen; prepares site for equipment installation, positions trailers, and connects piping, hoses, and power lines; starts up, operates, and shuts down gas producing, solidification, and related equipment; changes cylinders and packs solid carbon dioxide; employs safety measures in handling hydrogen and carbon dioxide under high pressure and at extremely low temperatures and knows how to combat petroleum fires; performs preventive maintenance on equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 1–4 carbon dioxide or hydrogen generating complexes; coordinates plant operations and maintenance; enforces safety rules and makes inspections; supervises storage and issue of gaseous and solid products; compiles reports on hydrogen and carbon dioxide generation.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in fire safety, 2 in first aid and chemical protection, and 2 in mechanical maintenance, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid and chemical protection and 1 in fire safety (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid and chemical protection, 1 in fire safety, and 3 in human relations, for a minimum total of 6 semester hours; *if grade E-6 was achieved,* 3 additional semester hours in personnel supervision, for a total of 9 semester hours; and *if grade E-7 was achieved,* 3 additional semester hours for field experience in management, for a total of 12 semester hours (6/76).

MOS-54A-001

CHEMICAL OPERATIONS ASSISTANT

54A10

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 54A was discontinued and its functions were incorporated into MOS 54C, Smoke and Flame Specialist; MOS 54D, Chemical Equipment Repairman; and MOS 54E, Chemical Operations Specialist.)

Career Management Field: 54 (Chemical).

Description

Assists in technical operations in chemical units such as chemical decontamination, smoke and flame, and laboratory units; assists in the preparation, use, and handling of CBR (chemical, biological, and radiological warfare) weapons and munitions, decontaminants, herbicides, and riot control agents; assists in the operation of and performs preventive maintenance on chemical mechanical equipment, using common hand and power tools; learns and complies with, safety precautions for handling chemicals and first aid procedures.

Recommendation

In the vocational certificate category, 2 semester hours in first aid and chemical safety, 2 in mechanical maintenance, and 2 in use and care of tools, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid and chemical safety (5/76).

MOS-54B-001

DECONTAMINATION SPECIALIST

54B20

54B40

54B50

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 54B was discontinued and its functions were incorporated into MOS 54E, Chemical Operations Specialist.)

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or performs activities related to neutralizing and decontaminating harmful chemical agents. *Skill Level 20:* Able to perform the duties required for 54A10 (Chemical Operations Assistant); performs duties related to chemical decontamination; performs standard tests to determine type, degree, and extent of contamination; prepares decontaminants; drives vehicles; determines decontamination levels after treatments; cleans and performs preventive maintenance on decontamination equipment; reads and interprets maps. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel and equipment involved in a decontamination team of 8–25 persons; instructs in techniques, policies, and procedures of decontamination; instructs in first aid for toxic warfare casualties; plans decontamination activities; estimates amounts of decontaminants to be used; supervises preparation of the decontamination agents; supervises operation of equipment for applying decontaminating agents; prepares relevant records and reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager, serving as first sergeant of a company; assists in planning, coordinating, and supervising all company activities; advises company commander on all personnel matters; coordinates operation of company food service and supply activities; assists in accomplishing unit training.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance, 3 in use and care of tools, 2 in first aid and chemical safety, and 1 in map reading, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid and chemical safety and 1 in map reading, and additional credit in applied chemistry on the basis of institutional evaluation, for a minimum total of 3 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, 2 in first aid and chemical safety, and 1 in map reading, and additional credit in applied chemistry on the basis of institutional evaluation, for a minimum total of 12 semester hours (5/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 in personnel management, for a total of 12 semester hours (5/76).

MOS-54C-001

Smoke and Flame Specialist

54C20
54C40
54C50

Exhibit Dates: 10/73-2/77.

Career Management Field: 54 (Chemical).

Description

Summary: Operates or supervises the operation of smoke and flame equipment to provide smokescreens or flame support in combat operations. NOTE: Able to perform the duties required for 54A10 (Chemical Operations Assistant). *Skill Level 20:* Serves as smoke generator operator; operates and performs preventive maintenance on smoke and flame equipment; selects location to set up smoke equipment and smoke munitions; makes adjustments to smoke generators to obtain desired screening smoke; evaluates smokescreen effectiveness. Serves as flame fuel equipment operator or as flamethrower driver; identifies targets and assists in loading and firing self-propelled flamethrowers; maintains flamethrowing equipment in operating condition; follows safety precautions and administers first aid for injury from chemical agents; reads maps. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor for a smoke section or platoon or a flamethrower section or platoon; prepares map overlays; supervises the transportation of smoke generating and flame equipment; assigns personnel; directs and conducts training; assists officers in the continuous appraisal of chemical operations and training; keeps records and prepares technical reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serving as operations sergeant, supervises activities pertaining to organization, training, and technical operations of chemical smoke generator battalion; serving as the first sergeant of a company, is a mid-level manager responsible for personnel actions, unit training, supplies, inspections, and tactical operations and directly supervises approximately 8-10 noncommissioned officers; may serve as a chief instructor in a formal training facility. NOTE: May have progressed to 54C50 from 54C40 or 54B50 (Decontamination Specialist).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in first aid and 1 in use and care of tools (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, and 2 in instructional methods, for a total of 11 semester hours (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, 3 for public speaking, and 2 in instructional techniques, for a total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in introduction to management, and 3 in personnel management, for a total of 9 semester hours (6/76).

MOS-54C-002

Smoke and Flame Specialist

54C10
54C20

Exhibit Dates: 3/77-Present.

Career Management Field: 54 (Chemical).

Description

Effective 3/77, MOS 54C was discontinued for use in the Active Army and retained for use in the Reserve Forces only. The American Council on Education will not be able to evaluate MOS 54C until after the Skills Qualifications Tests for 54C10 and 54C20 have been developed.

Recommendation

Credit on the basis of institutional evaluation.

MOS-54D-001

Chemical Equipment Repairman

54D20
54D40
54D50

Exhibit Dates: 10/73-2/77.

Career Management Field: 54 (Chemical).

Description

Summary: Repairs or supervises the repair of chemical equipment. NOTE: Able to perform the duties required for 54A10 (Chemical Operations Assistant). *Skill Level 20:* Performs maintenance on chemical equipment, such as gas masks, smoke generators, and flamethrowers, and on decontaminating equipment; inspects, tests, adjusts, and cleans equipment; disconnects and assembles equipment components such as carburetor, fuel pump, or furnace assembly; uses common handtools; performs rough repair of damaged metal parts, such as sawing and soldering; sews canvas pieces to repair gas masks; replaces irreparable components, such as broken gas mask eyepieces. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises from 9 to 40 persons involved in the repair of chemical equipment and may serve as a maintenance inspector; establishes priorities and assigns work; requisitions supplies; establishes work methods and performance standards; directs and conducts on-the-job training; keeps maintenance records and prepares technical reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serving as a first sergeant of a company, is a mid-level manager responsible for operations, personnel, actions, unit training, supplies, and inspection; makes recommendations to officers on all related matters; holds meetings with subordinate noncommissioned officers to provide them instructions and guidance.

Recommmendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance, 2 in first aid and chemical safety, 1 in use and care of tools, and 1 in map reading (basic surveying), for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid and chemical safety (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in human relations, 3 in personnel supervision, 2 in instructional methods, and 2 in first aid and chemical safety, for a total of 13 semester hours (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in introduction to management, and 3 in personnel management, for a total of 9 semester hours (6/76).

MOS-54D-002

Chemical Equipment Repairer
(Chemical Equipment Repairman)

54D10
54D20

Exhibit Dates: 3/77-Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield 633* (Machinery Maintenance).

Description

Summary: Repairs or supervises repair of chemical equipment such as compression spray units, internal-combustion engines, generators, and detection instruments; has knowledge of atomic structure, radiation theory and effects, chemical agents and first aid. *Skill Level 10:* Performs maintenance on chemical equipment such as smoke generators, flamethrowers, gas masks, decontamination equipment and dispersers; inspects, tests, adjusts, cleans, and lubricates equipment; maintains or replaces equipment components such as carburetor, fuel pump, or furnace assembly; uses common or specialized hand tools and test equipment; reads and uses technical literature in diagnosing and repairing equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; may supervise up to 15 Skill Level 10 personnel; performs technical inspection of chemical equipment; maintains records of maintenance performed.

Recommendation, Skill Level 10

In the vocational certficate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical maintenance, 2 in first aid and chemical safety, and 1 in care and use of tools, for a total of 6 semester hours (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical maintenance, 2 in first aid and chemical safety, and 1 in care and use of tools, for a minimum total of 6 semester hours; *if the duty assignment was chemical equipment repair foreman,* 2 semester hours in personnel supervision, for a total of 8 semester hours (5/78).

MOS-54E-001

Chemical Staff Specialist

54E20
54E40
54E50

Exhibit Dates: 10/73-2/77.

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or assists in the establishment, administration, and application of chemical, biological, and radiological health programs. *Skill Level 20:* Supervises communities during emergencies and disasters; prepares reports and maintains records; understands chemical toxicology, radiation dangers, and the effect of weather on chemical and radiation hazards; uses testing and detecting equipment; identifies physiological and behavioral effects of chemical agents and administers first aid to affected personnel. NOTE: May have progressed to 54E20 from 54A10 (Chemical Operations Assistant). *Skill Level 40:* Able to perform the duties required for Skill Level 20; uses advanced techniques for detecting, identifying, and analyzing chemical agents; as a first-line supervisor, trains personnel and plans and coordinates the acquisition, storage, and use of chemical and radiological agents and materials. NOTE: May have progressed to 54E40 from 54E20, 54B40 (Decontamination Specialist), 54C40 (Smoke and Flame Specialist), 54D40 (Chemical Equipment Repairman), or 92D40 (Chemical Laboratory Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; as an experienced senior supervisor, trains several hundred personnel, appraises the effectiveness of technical operations involving chemical agents and materials, and analyzes chemical and radiological data. NOTE: May have progressed to 54E50 from 54E40 or 54D50 (Chemical Equipment Repairman).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in administration or management, 3 in biology, 3 in cartography or meteorology, 3 in educational techniques, 3 in general chemistry, 3 in health science, 3 in physics, and 6 in laboratory techniques, for a total of 27 semester hours (2/75).

Recommendation, Skill Levels 40 and 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in biology, 3 in cartography or meteorology, 3 in educational techniques, 3 in general chemistry, 3 in physics, 6 in administration or management, 6 in health sciences, and 9 in laboratory techniques, for a total of 36 semester hours (2/75).

MOS-54E-002

CHEMICAL OPERATIONS SPECIALIST

54E10
54E20
54E30
54E40
54E50

Exhibit Dates: 3/77–Present.

Career Management Field: 54 (Chemical).

Description

Summary: Operates or supervises the use of chemical equipment such as smoke generators, flamethrowers, and decontamination equipment; assists in establishing, administering, and applying health programs in the chemical, biological, and radiological areas. *Skill Level 10:* Prepares liquid and dry decontaminants; operates power driven decontaminating apparatus and chemical and radiological detection equipment; assists in establishment and operation of personnel decontamination stations; performs maintenance on associated equipment; understands chemical toxicology, radiation dangers, decay rates, and meteorological effects on chemical and radiological hazards; has knowledge of biological vectors, nomograms, and map reading; identifies physiological and behavioral effects of agents and administers first aid. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as supervisor of groups of 8–15 persons; prepares intelligence reports, assists in analysis of reports, records, maps, and overlays relating to chemical, nuclear, and biological activities; maintains files and records; prepares meteorological fallout predictions and computes chemical agent requirements for special operations; assists in computations of radiation factors. *Skill Level 30:* Able to perform the duties required for Skill Level 20; must be able to supervise personnel performing the duties of 54E20 and 54C20 (Smoke and Flame Specialist); supervises decontamination of equipment, supplies, and terrain zones; supervises operation of chemical equipment; supervises the organizing, training, and functioning of specialized units in nuclear or chemical operations; prepares reports, supply and maintenance records, and training records; assists in planning for employment of chemical personnel units; collects and analyzes information and data and coordinates special support functions with larger military groups. NOTE: May have progressed to 54E30 from 54E20 or 54C20 (Smoke and Flame Specialist). *Skill Level 40:* Able to perform the duties required for Skill Level 30; must be able to supervise personnel performing the duties of 54E30 and 92D30 (Chemical Laboratory Specialist); uses advanced techniques for detecting, identifying, and analyzing chemical agents; plans, coordinates, and supervises organization, training, and employment of chemical personnel units; instructs in methods, techniques, and policies; assists commanders and staff in preparing plans and written documents for tactical operations. NOTE: May have progressed to 54E40 from 54E30 or 92D30 (Chemical Laboratory Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as principal noncommissioned officer in a unit of 100–150 persons or to high level staffs; appraises the effectiveness of technical operations involving chemical agents; analyzes chemical, biological, and radiological reports and data.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in general science, 2 in laboratory techniques, 3 in health sciences, 2 in cartography, and 3 in applied mathematics, for a total of 13 semester hours (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in general science, 2 in laboratory techniques, 3 in health sciences, 2 in cartography, 3 in applied mathematics, 2 in records administration, 3 in human relations, and 3 in personnel supervision, for a total of 21 semester hours (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in general science, 2 in laboratory techniques, 3 in health sciences, 2 in cartography, 3 in applied mathematics, 3 in records administration, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 25 semester hours (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, credit as follows: *if the person progressed to 54E40 from 54E30,* use the 25 semester hours for 54E30, plus 3 semester hours in educational techniques, for a total of 28 semester hours; *if the person progressed to 54E40 from 92D30,* use the recommendation for Skill Level 30 in the exhibit MOS-92D-002 (18 or 27 semester hours), plus 3 semester hours in educational techniques. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/78).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, use the appropriate recommendation for Skill Level 40 plus 3 additional semester hours for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in personnel management, and 3 in management problems, for a total of 9 semester hours (5/78).

MOS-55B-001

AMMUNITION STORAGE AND OPERATIONS SPECIALIST

55B20
55B30
55B40

Exhibit Dates: 10/73–9/74.

Career Management Field: 55 (Ammunition).

Description

Summary: Receives, inspects, classifies, stores, and issues ammunition; keeps records of warehouse transactions. *Skill Level 20:* Under supervision, works as a storekeeper, controlling stock and keeping inventory data. *Skill Level 30:* Able to perform the duties required for Skill Level 20; functions as a senior storekeeper with a minimum of supervision; prepares and maintains files and special records systems; operates office equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; is a first-line supervisor of storage facility personnel; organizes and manages warehouse operations; has in-depth knowledge of storage systems.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office skills (2/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in office skills (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in office skills, records management, or personnel supervision. In the upper-division baccalaureate category, 3 semester hours in business administration (2/75).

MOS-55B-002

Ammunition Specialist (Ammunition
Storage and Operations
Specialist)

55B10
55B20
55B30
55B40

Exhibit Dates: 10/74–Present.

Career Management Field: 55 (Ammunition).

Description

Summary: Receives, inspects, classifies stores, and issues ammunition; keeps records of warehouse transactions. *Skill Level 10:* Serves as an ammunition storage assistant or records clerk; assists in the receipt, storage, issue, and maintenance of all types of conventional and chemical ammunition, ammunition components, and explosives; loads, unloads, stacks, and stores ammunition supplies and explosives, including guided missiles, using materials handling equipment; prepares ammunition for shipment by bracing and staying loads; inventories ammunition in storage; assists in upkeep of operations area and facilities; applies safety precautions to ammunition storage, handling, and maintenance; assists in the routine destruction of unserviceable and irreparable conventional and chemical ammunition and explosives. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; performs emergency destruction of ammunition; prepares periodic statistical reports on issue, receipt and storage functions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises Skill Level 10 and Skill Level 20 personnel; plans and organizes ammunition storage facilities and maintenance operations; estimates requirements for personnel, tools, equipment, and supplies; supervises the establishment and maintenance of ammunition stock control records. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises ammunition supply operations, including maintenance of non-nuclear ammunition; performs as technical advisor; prepares activity reports; assigns duties to subordinate personnel; supervises the setting up and camouflaging of ammunition supply and maintenance facilities.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in explosives (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in explosives and 3 in supply procedures (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in explosives and 3 in supply procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 in human relations (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in explosives and 3 in supply procedures. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 3 for field experience in management for a total of 9 semester hours (6/76).

MOS-55D-001

Explosive Ordnance Disposal
Specialist

55D10
55D20
55D30
55D40
55D50

Exhibit Dates: 3/76–Present.

Career Management Field: 55 (Ammunition).

Description

Summary: Supervises or performs disposal activities related to explosive devices. *Skill Level 10:* Assists in the location, identification, rendering safe, removal, and destruction of explosive ordnance other than nuclear fission or fusion materials; uses detection instruments to determine hazards and to define or delineate exclusion areas; decontaminates explosive devices as required; assists in isolating explosive and/or contaminated areas; removes obstructions surrounding explosive devices; makes photographs and radiographs; operates and performs maintenance on explosive disposal equipment, tools, and vehicular equipment, including radiac equipment, radios, and chemical detection equipment; cooperates with and supports law enforcement agencies and protection services. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs render-safe and disposal procedures for nuclear devices; destroys or neutralizes unserviceable and irreparable explosive conventional devices; reads and interprets radiographs, diagrams, drawings, and technical literature; identifies all explosives by appearance and markings; performs radiation monitoring and evaluates existing and potential hazards associated with nuclear devices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises 4 or more subordinate personnel; prepares technical intelligence and incident reports; develops and/or modifies render-safe procedures for conventional explosive devices; conducts classes; assists in unit administration, supply, security, and record management; assumes command of an explosive disposal team. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises 5 or more subordinate personnel; performs administrative and supervisory activities for the disposal unit including personnel, supply, maintenance, security, training, and management; consolidates, edits, and reviews disposal reports; maintains liaison with supporting security units; coordinates operations and movements; prepares order and operating procedures. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises entire disposal operation unit under direction of unit commander; coordinates operations and movements; supervises activities of several disposal teams over a wide geographical area; oversees and supervises coordination and liaison with supporting units; assumes command of unit in absence of commander.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in explosives or mechanical technology and 1 in photography (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in explosives or mechanical technology, 2 semester hours in blueprint interpretation, and 1 in photography, for a minimum total of 9 semester hours; and, *if the duty assignment was nuclear explosive ordnance specialist,* 3 additional semester hours in nuclear technology, for a total of 12 semester hours (6/76).

Recommendation, Skill Level 30

In the vocational certificate category the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in technical writing, 2 in maintenance management, 3 in human relations, and 3 in public speaking, for a total of 10 semester hours (6/76).

Recommendation, Skill Level 40

In the vocational certificate category the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in radiation physics, 3 in introduction to management, and 3 for field experience in management, for a total of 9 semester hours (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical writing, 3 in maintenance management, 3 in human relations, 3 in public speaking, and 6 for innovative explosive devices, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in radiation physics, 3 in introduction to management, and 6 for field experience in management, for a total of 12 semester hours (6/76).

MOS-55G-001

Nuclear Weapons Maintenance
Specialist

55G10
55G20
55G30
55G40

Exhibit Dates: 10/73–Present.

Career Management Field: 55 (Ammunition).

Description

Summary: Supervises or performs maintenance and surveillance of nuclear weapons, nuclear weapons trainer, and associated electrical, mechanical, and nuclear components. *Skill Level 10:* Assembles, tests, and adjusts electrical and mechanical components to insure proper operation; uses common and specialized handtools, power tools, and test equipment; performs surveillance and monitoring operations for radioactive matter; applies appropriate safety procedures; packages, unpacks, paints, and stencils weapons, components, and containers. *Skill Level 20:* Able to perform the duties required for Skill Level 10; test-operates weapons components; receives, stores, and inspects (preissue and preload) nuclear components; uses radioactive survey equipment; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and instructs Skill Level 10 and Skill Level 20 personnel in MOS 55G and 35F (Nuclear Weapons Electronics Specialist); calculates workloads, coordinates work activities, and makes assignments; prepares training charts, documents, and materials; strictly adheres to regulations and appropriate inspection techniques and procedures in the maintenance, modifications, repair, transportation, and maintenance calibration of nuclear weapons and associated trainers, testers, and handling equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises, coordinates, and inspects maintenance facilities, activities, operations, and productivity; helps plan all maintenance activities, serves as an electronics technical advisor; reviews safety and fire regulations, standing operating procedures, and the utilization of equipment, and recommends changes; has office management responsibilities, including records and forms management, correspondence, security standards, and personnel processing.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in mechanical maintenance, 2 in electrical maintenance, 2 in use and care of handtools, powertools, and test equipment, 1 in safety practices and procedures, and 1 in shop operations, for a total of 7 semester hours. Advanced standing in an electrical maintenance apprentice training program, on the basis of employer or trade association performance examination (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 2 semester hours in toxic material handling and 1 in nuclear technology. Advanced standing in an electrical maintenance apprentice training program, on the basis of employer or trade association performance examination (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in safety practices and procedures, 2 in electrical maintenance, 2 in use and care of handtools, powertools, and test equipment, 2 in shop operations, and 1 in mechanical maintenance, for a total of 10 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in maintenance management, 3 in human relations, 2 in toxic material handling, and 1 in nuclear technology, and additional credit in nuclear technology on the basis of institutional evaluation, for a minimum total of 9 semester hours. Advanced standing in an electrical maintenance apprentice training program, on the basis of employer or trade association performance examination (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in maintenance management, 3 in human relations, 3 in office management, 3 in personnel supervision, 2 in toxic material handling, and 1 in nuclear technology, and additional credit in nuclear technology on the basis of institutional evaluation, for a minimum total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management. Advanced standing in an electrical maintenance apprentice training program, on the basis of employer or trade association performance examination (6/76).

MOS-55X-001

AMMUNITION INSPECTOR

55X30
55X40

Exhibit Dates: 3/76–Present.

Career Management Field: 55 (Ammunition).

Description

Summary: Conducts inspections and tests to determine the serviceability of conventional and non-nuclear special ammunition, components, and related package materials. *Skill Level 30:* Inspects ammunition to determine deterioration; evaluates safety procedures; inspects incoming and outgoing ammunition shipments; inspects magazines, storage sites, and surrounding areas for storage safety; inspects ammunition destruction sites for safety condition; selects ammunition samples for tests, evaluations, or investigations; instructs in surveillance and safety techniques; performs function tests of selected ammunition items; maintains files. NOTE: May have progressed to 55X30 from 55B30 (Ammunition Specialist), 55D30 (Explosive Ordnance Disposal Specialist), or 55G30 (Nuclear Weapons Maintenance Specialist). *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as the principal advisor on ammunition surveillance and safety matters and provides technical guidance to subordinate personnel; reviews safety requirements; coordinates surveillance activities with civilian authorities and inspectors.

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in explosives, 3 in supply procedures, 3 in quality control, and 3 in safety inspection procedures, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations and 1 in office procedures (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, and 3 in office procedures, for a total of 12 semester hours (6/76).

MOS-55Z-001

AMMUNITION SUPERVISOR (AMMUNITION FOREMAN)

55Z50

Exhibit Dates: 10/73–Present.

Career Management Field: 55 (Ammunition).

Description

Serves as the principal supervisor and advisor for the receipt, issue, classification, storage, surveillance, maintenance, disposition, and decontamination of conventional ammunition and nuclear and non-nuclear special ammunition; advises on packaging and rigging loads for movement by all types of transportation; assists in the selection and layout of ammunition storage facilities; recommends employment of and requirements for techical assistance teams, labor, equipment, and supplies; assists in the preparation of plans, policies, and procedures; prepares and reviews evaluations and reports on operations and training activities; analyzes ammunition stock with automatic data processing data; advises commander on all enlisted personnel matters. NOTE: May have progressed to 55Z50 from 55B40 (Ammunition Specialist), 55G40 (Nuclear Weapons Maintenance Specialist), or 55X40 (Ammunition Inspector).

Recommendation

In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 3 in business administration, 3 in human relations, and 6 for field experience in management, for a total of 18 semester hours (6/76).

MOS-57D-001

SAWYER

57D10
57D20
57D40
57D50

Exhibit Dates: 10/74–2/78. (Effective 3/78, MOS 57D was discontinued and its functions were incorporated into MOS 51B, Carpentry and Masonry Specialist, and MOS 51H, Construction Engineering Supervisor.)

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Summary: Performs logging and sawmill operations. *Skill Level 10:* Serves as a lumberjack helper; assists in felling trees; trims branches; saws trunks into logs; lashes logs to skids or trucks and drags or hauls logs to sawmill; saws logs and stacks lumber at mill. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as lumberjack, millwright, timber cruiser, or lumber grader; distinguishes different species of trees and chooses proper saws; fells trees; grades lumber; services logging and sawmill equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 15 or more persons involved in logging and sawmill operations; understands the effects of logging operations on the terrain and selects cutting areas, taking into consideration the types of lumber required, efficiency, and protection of the terrain from overcutting; calculates lumber content of logs and estimates board footage of standing trees based on diameter and height; supervises drying and storing of lumber; explains and demonstrates logging and sawmill techniques. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager serving as first sergeant of a company; assists in planning, coordinating, and supervising company activities; advises commander on all personnel matters and handles personnel activities; holds meetings with subordinate supervisors to provide them instructions and guidance; directs training.

Recommendation, Skill Level 10

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in use of tools and credit in a lumber specialist, saw filer, sawyer, or millwright program on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, credit in forest resources technology or forest management on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in use of tools and 2 in shop mathematics, and credit in a lumber specialist, saw filer, sawyer, or millwright program on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 3 in forest management, for a minimum total of 9 semester hours, and additional credit in forest resources technology on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management, for a total of 9 semester hours (6/76).

MOS-57E-001

Laundry and Bath Specialist

57E10
57E20
57E40
57E50

Exhibit Dates: 10/74-2/77

Career Management Field: 57 (Field Services), *subfield* 571 (Services).

Description

Summary: Performs or supervises laundry, bath, and impregnation functions and related activities at fixed and mobile locations. *Skill Level 10:* Assists in the operation of laundry and bath equipment; operates fumigation and delousing equipment; assists in the maintenance of related equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates mobile laundry and bath equipment; troubleshoots and maintains related equipment; uses washing, impregnation, and contamination solutions. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises field units providing laundry, bath, and fumigation services; selects suitable operational sites; supervises setting up field units and equipment; coordinates the scheduling of personnel; supervises preventive maintenance of laundry, impregnation, fumigation, and bath equipment; supervises the training of personnel in techniques and operations; prepares reports related to laundry and bath operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40; as a mid-level manager, advises superiors on personnel matters, coordinates the operation of food service and supply operations; receives and maintains personnel reports; assists in conducting unit training.

Recommendation, Skill Levels 10 and 20

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (11/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to management, 2 in personnel management, 2 in records administration, and 1 in first aid, for a total of 8 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management, and 3 for field experience in management (11/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to management, 2 in personnel management, 3 in records administration, 1 in first aid, and 2 in safety techniques, for a total of 11 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management (11/75).

MOS-57E-002

Laundry and Bath Specialist

57E10
57E20
57E30
57E40
57E50

Exhibit Dates: 3/77-Present.

Career Management Field: 76 (Supply and Service), *subfield* 762 (Service).

Description

Summary: Performs or supervises laundry, bath, decontamination and reimpregnation functions. *Skill Level 10:* Operates laundry and bath equipment; operates fumigation and delousing equipment; installs, inspects and operates generators, compressors, water pumps and water heaters; cleans, lubricates and performs preventive maintenance on laundry, bath and related equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; determines laundry sites, suitable water supplies, drainage, parking sites, and concealment; prepares facility layout; supervises marking, classifying, and washing operations; directs use of washing formulas, soaps, detergents, and other materials; establishes work priorities; prepares work schedules. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises operations of medium-size unit; supervises and coordinates with medical authorities; determines personnel requirements and plans and supervises training program. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large-size units; establishes, evaluates and monitors unit training and preventive maintenance programs; prepares appropriate reports, operation plans, and orders; monitors laundry and renovation operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as prinicpal noncommissioned officer in field service company; advises superiors on personnel matters; assists in conducting unit training.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 5 semester hours in institutional laundry (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in institutional laundry. In the lower-division baccalaureate/associate degree category, 2 semester hours in personnel supervision and 3 in human relations. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in institutional laundry. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 2 in record keeping, for a total of 8 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (5/78).

Recommendation, Skill Level 50

In the vocational certificate category, 5 semester hours in institutional laundry. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 2 in record keeping, for a total of 8 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management (5/78).

MOS-57F-001

Memorial Activities Specialist

57F10
57F20
57F40
57F50

Exhibit Dates: 10/74-2/76.

Career Management Field: 57 (Field Services), *subfield* 572 (Memorial Activities).

Description

Summary: Recovers, identifies, processes, and inters human remains; performs duties at disaster sites as well as within the community; provides technical data to validate the personal identification process; designs cemetery facilities and directs funeral activities; prepares topographic sketches and map overlays for temporary cemetery planning and for site searches and recovery operations. *Skill Level 10:* Under supervision, performs as a mortuary assistant. *Skill Level 20:* Functions as a mortuary technician alone or as a senior team member. *Skill Level 40:* Functions as a first-line supervisor of a mortuary operation; prepares reports and maintains records. *Skill Level 50:* As a mid-level manager, plans, organizes, and directs mortuary service operations and is responsible for administrative services for subordinate staff.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, credit in mortuary sciences and map reading on the basis of institutional evaluation (11/75).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in mortuary sciences. In the lower-division baccalaureate/associate degree category, 3 semester hours in mortuary sciences and 3 in physical anthropology (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in mortuary sciences. In the lower-division baccalaureate/associate degree category, 6 semester hours in mortuary sciences and 3 in physical anthropology, and additional credit in mortuary sciences, speech, map reading, and report writing on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences and 3 in introduction to management, for a total of 6 semester hours (11/75).

Recommendation, Skill Level 50

In the vocational certificate category, 12 semester hours in mortuary sciences. In the lower-division baccalaureate/associate degree category, 9 semester hours in mortuary sciences, 3 in physical anthropology, and 3 in office administration, and additional credit in mortuary sciences, speech, map reading, and report writing, on the basis of institutional evaluation, for a minimum total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences, 3 in introduction to management, and 3 for field experience in management, for a total of 9 semester hours (11/75).

MOS-57F-002

MEMORIAL ACTIVITIES SPECIALIST

57F10
57F20
57F40
57F50

Exhibit Dates: 3/76-2/77.

Career Management Field: 57 (Field Services), *subfield* 572 (Memorial Activities).

Description

Summary: Recovers, identifies, processes, and inters human remains; performs duties at disaster sites as well as within the community; provides technical data to validate the personal identification process; designs cemetery facilities and directs funeral activities. *Skill Level 10:* Under supervision, serves as a mortuary assistant, assisting in the recovery, transportation, identification, and interment of remains. *Skill Level 20:* Able to perform the duties required for Skill Level 10; functions as a mortuary technician alone or as a team member; reads or indicates the location of graves on maps, sketches, or overlays; takes fingerprints or prepares teeth chart; writes descriptions of physical and anatomical characteristics; operates x-ray apparatus and camera. *Skill Level 40:* Able to perform the duties required for Skill Level 20; functions as a first-line supervisor of a mortuary operation; prepares topographical sketches and map overlays; prepares reports and records on processed remains, grave location, registers master locator files, and memorial activities work. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves a mid-level manger, directing and supervising mortuary activities operations; coordinates operations with combat units.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in map reading and credit in mortuary sciences on the basis of institutional evaluation (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 6 semester hours in mortuary sciences, 3 in physical anthropology, 2 in anatomy and physiology, and 1 in map reading, for a total of 12 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 9 semester hours in mortuary sciences, 3 in physical anthropology, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, 2 in technical report writing, 2 in anatomy and physiology, and 1 in map reading, for a total of 26 semester hours. In the upper-division baccaaureate category, 3 semester hours in mortuary sciences and 3 in introduction to management (5/76).

Recommendation, Skill Level 50

In the vocational certificate category, 12 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 12 semester hours in mortuary sciences, 3 in physical anthropology, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, 2 in technical report writing, 2 in anatomy and physiology, and 1 in map reading, for a total of 29 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in personnel management, 3 in introduction to management, 3 in mortuary sciences, and 3 in records administration, for a total of 18 semester hours (5/76).

MOS-57F-003

GRAVES REGISTRATION SPECIALIST

57F10
57F20
57F30
57F40
57F50

Exhibit Dates: 3/77-Present.

Career Management Field: 76 (Supply and Service), *subfield* 762 (Service).

Description

Summary: Recovers, identifies, processes, and inters human remains; performs duties at disaster sites as well as within the community; provides technical data to validate the personal identification process; designs cemetery facilities and directs funeral activities. *Skill Level 10:* Serves as a mortuary assistant in recovery, transportation, identification, and interment of remains; reads or indicates the location of graves on maps, sketches, or overlays; determines recovery locations; records identification characteristics including fingerprints, skeletal and dental charts; operates cameras and assists x-ray operations; assists in burials, excavating of graves and cemetery maintenance. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises search and recovery operations for remains; instructs in special handling, marking, and shipping of contagious disease cases and contaminated remains; prepares location sketches and overlays; prepares work schedules and assigns personnel to work positions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises medium-size graves registration activities; serves as graves registration noncommissioned officer on staff position; assists in post-mortem examinations; assists in special criminal investigations. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large-size graves registration activities; advises on health requirements for subordinates; coordinates and advises on military burials; assists in review of mortuary services contracts. *Skill Level 50:* Supervises memorial affairs and graves registration activities; provides technical and administrative advice and assistance on graves registration matters including acquisition of land for temporary cemeteries, and facility, manpower, and equipment requirements; establishes and maintains official records; serves on special boards and councils relative to technical activities; prepares reports on memorial affairs and graves registration activities.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate category, 4 semester hours in mortuary sciences and 1 in map reading (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 6 semester hours in mortuary sciences, 1 in map reading, 2 in physical anthropology, and 2 in anatomy and physiology, for a total of 11 semester hours. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 9 semester hours in mortuary sciences, 1 in map reading, 2 in physical anthropology, 3 in human relations, 2 in personnel supervision, and 2 in anatomy and physiology, for a total of 19 semester hours. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences and 3 for field experience in management (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, 12 semester hours in mortuary sciences and 1 in map reading. In the lower-division baccalaureate/associate degree category, 12 semester hours in mortuary sciences, 2 in physical anthropology, 3 in human relations, 3 in personnel supervision, 2 in anatomy and physiology, and 1 in map reading, for a total of 23 semester hours. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences, 3 in introduction to management, 3 for field experience in management and 3 in personnel management, for a total of 12 semester hours (5/78).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, 12 semester hours in mortuary sciences, 2 in physical anthropology, 3 in human relations, 3 in personnel supervision, 2 in anatomy and physiology, 1 in map reading, and 2 in technical report writing, for a total of 25 semester hours. In the upper-division baccalaureate category, 3 semester hours in mortuary sciences, 3 in introduction to management, 6 for field experience in management, 3 in personnel management, and 3 in records administration, for a total of 18 semester hours (5/78).

MOS-57H-001

CARGO HANDLER

57H20
57H40
57H50

Exhibit Dates: 10/73-2/74.

Career Management Field: 65 (Transportation), *subfield* 651 (Terminal Service).

Description

Summary: Transfers or supervises the transfer of cargo to and from water, land,

and air transports by manual and mechanical methods. *Skill Level 20:* Performs the duties of rigger, longshoreman, member of a hatch gang, or assistant hatch foreman. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises one or more hatch gangs, of longshoremen in loading and unloading cargo, employing stowage plans, loading plans, manifests, documentation forms, reports, and other cargo handling forms. *Skill Level 50:* Able to perform the duties required for Skill Level 40; equivalent to an assistant to a port captain or a marine operations specialist; plans, coordinates, and supervises all activities related to the stowage, loading, and discharging of dry cargo.

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in cargo handling and rigging (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours for a practicum in personnel management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials, for a total of 8 semester hours (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel management, 3 in office management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials, for a total of 11 semester hours. In the upper-division baccalaureatre category, 3 semester hours in personnel management and 3 in office management. In the graduate degree category, 3 semester hours in organization and management (2/75).

MOS-57H-002

Terminal Operations Specialist

57H10

57H20

57H40

57H50

Exhibit Dates: 3/74–2/76.

Career Management Field: 65 (Transportation), *subfield* 651 (Terminal Service).

Description

Summary: Transfers or supervises the transfer of cargo to and from water, land, and air transports by manual and mechanical methods. *Skill Level 10:* Loads and unloads supplies and equipment from ships, docks, beaches, boxcars, aircraft, and warehouses; assists cargo checker; employs safety procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs the duties of rigger, longshoreman, member of a hatch gang, or assistant hatch foreman. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises one or more hatch gangs of longshoremen in loading and unloading cargo, employing stowage plans, loading plans, manifests, documentation forms, reports, and other cargo handling forms. *Skill Level 50:* Able to perform the duties required for Skill Level 40; equivalent to an assistant to a port captain or a marine operations specialist; plans, coordinates and supervises all activities related to the stowage, loading, and discharging of dry cargo.

Recommendation, Skill Level 10

In the vocational category, 2 semester hours in cargo handling and rigging (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in cargo handling and rigging (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours for a practicum in personnel management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials, for a total of 8 semester hours (5/76).

Recommendation, Skill Level 50

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel management, 3 in office management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials, for a total of 11 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 in office management. In the graduate degree category, 3 semester hours in organization and management (5/76).

MOS-57H-003

Terminal Operations Coordinator

57H10

57H20

57H30

57H40

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 641 (Surface Operations).

Description

Summary: Transfers or supervises the transfer of cargo to and from water, land, and air transports by manual and mechanical methods. *Skill Level 10:* Serves as cargo handler and checker; loads, unloads, checks, and tallies cargo; uses slings, nets, hooks, pallets, spreaders, lifting bars, winches, hoists, and other cargo-handling equipment; employs safety procedures; signals winchman, hoistman, or cargo equipment operator where to move cargo. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as hatch foreman or senior cargo checker and enforces safety practices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a medium-sized terminal operation work force by planning and organizing work schedules, assigning duties, and designating work groups (hatch gangs) as required for each operation; advises on the handling of all types of cargo and demonstrates techniques and use of equipment; coordinates heavy lift equipment and special terminal operations gear; prepares technical, personnel, and adminstrative reports. *Skill Level 40:* Performs the duties required for Skill Level 30 in the supervision of a large terminal work force normally consisting of 56 or more subordinate personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in cargo handling and rigging (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in cargo handling and rigging (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 2 in report writing, 2 in cargo planning, 2 in cargo processing and documentation, and 1 in transportation of dangerous materials, for a total of 13 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in cargo handling, stowage, and rigging. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 in records adminstration, 3 in report writing, 3 for field experience in management, 2 in cargo processing and documentation, 2 in cargo planning, and 1 in transportation of dangerous materials, for a total of 20 semester hours (5/76).

MOS-61B-001

Watercraft Operator

61B20

61B30

61B40

Exhibit Dates: 10/73–9/74.

Career Management Field: 65 (Transportation), *subfield* 653 (Marine).

Description

Summary: Performs the deck duties of an ordinary seaman, able seaman, and deck hand; operates towboats. *Skill Level 20:* Rigs tows; operates and performs preventive maintenance on deck machinery; performs tasks requiring marlinespike seamanship; is lead deck hand on towing vessels. *Skill Level 30:* Able to perform the duties required for Skill Level 20; works as a look-out or helmsman; plots courses; knows the rules of the road. Skills are comparable to those of able seaman (tugboat) and second-class towboat operator. *Skill Level 40:* Able to perform the duties required for Skill Level 30; can be in complete charge of towing vessels up to 300 gross registered tons; steers vessels; manages the crew; provides berthing and unberthing assistance to large vessels; plans vessel maintenance; ensures the safety of vessels and barges.

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in seamanship (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in seamanship and 3 in basic navigation (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in seamanship, 3 in basic navigation, and 3 in advanced navigation, for a total of 11 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in navigation and 3 in basic management (2/75).

MOS–61B–002

WATERCRAFT OPERATOR

61B10

61B20

61B30

61B40

Exhibit Dates: 10/74–Present.

Career Management Field: 64 (Transportation), *subfield* 642 (Marine Operations).

Description

Summary: Operates and performs deck duties on Army watercraft and, in some instances, amphibians. *Skill Level 10:* Performs general seaman duties; under close supervision, assists in docking, undocking, and anchoring watercraft; assists in loading and unloading cargo; stands lookout watch; assists in inspecting, servicing, and operating fire equipment, lifeboats, and rafts; performs preventive maintenance on and inspections of Army watercraft; maneuvers Army watercraft; uses simple sounding devices, aids to navigation, steering compass courses, and running lights; communicates with stations ashore and afloat, using accepted communications equipment and techniques; applies basic water safety and rescue procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates and dispatches Army watercraft and, under close supervision, allocates and operates Army watercraft for a specific mission in accordance with navigational and communications rules and principles; keeps records of watercraft status and movements. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the operation of watercraft and small boat crew; knows capabilities and limitations of Army watercraft and assigns and dispatches them accordingly; provides berthing and unberthing services to large or oceangoing vessels; computes fuel requirements and plans maintenance; knows procedures for abandoning ship, including sea rescue and lifeboat operations; supervises embarking and debarking of troops; instructs subordinate personnel in watercraft operational practices, procedures, and techniques. NOTE: Some Skill Level 30 personnel are trained as operators of large amphibian vehicles and can supervise their operation. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the operations of a large boat crew or assists in controlling Army watercraft operations; coordinates work activities; performs the supervisory and managerial duties described for Skill Level 30; reviews, consolidates, and prepares technical, personnel, and administrative reports; supervises up to 20 persons.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in seamanship, 1 in piloting, 1 in communications, and 1 in safety, for a total of 7 semester hours (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in seamanship, 6 in piloting and navigation, 3 in communications, and 1 in safety, for a total of 18 semester hours (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in seamanship, 6 in piloting and navigation, 3 in communications, 3 in basic navigation, 3 in advanced navigation, and 1 in safety, and additional credit in amphibian operation on the basis of institutional evaluation, for a minimum total of 24 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in navigation and 3 in human relations (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 8 semester hours in seamanship, 6 in piloting and navigation, 3 in communications, 3 in basic navigation, 3 in advanced navigation, and 1 in safety, and additional credit in amphibian operation on the basis of institutional evaluation, for a minimum total of 24 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in navigation, 3 in human relations, 3 in marine management, 3 for field experience in management, and 3 in personnel supervision, for a total of 15 semester hours (6/76).

MOS–61C–001

MARINE ENGINEER

61C20

61C30

61C40

Exhibit Dates: 10/73–2/76.

Career Management Field: 65 (Transportation), *subfield* 653 (Marine).

Description

Summary: Supervises or performs maintenance and repair of GM Series 71 and similar-size marine diesels, small gas engines, and auxiliary equipment on harbor towing and deep sea towing vessels. NOTE: Able to perform the duties required for 61B10 (watercraft operator). *Skill Level 20:* Performs routine maintenance such as changing strainers and filters and installing bearings and bushings as required; monitors engine room equipment to assure proper operation; skills are comparable to those of a licensed oiler on a towing vessel, an unlicensed engineer on towing vessels of 200 gross registered tons and under, an assistant mechanic in a marine diesel engine shop, or an outside machinist in a shipyard. *Skill Level 30:* Able to perform the duties required for Skill Level 20; tears down engines and auxiliary equipment and replaces or repairs parts as necessary; skills are comparable to those of a head mechanic in a marine diesel repair shop and are related to those of an auto mechanic. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises engine room operations on a towing vessel; advises on complex repair problems; instructs repairmen in proper maintenance procedures and safety techniques; applies production and quality control procedures to maintenance operations; skills are comparable to those of a foreman in a marine diesel repair shop or an assistant port engineer for a towing company.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in internal-combustion engine principles (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in internal-combustion engine operation, 3 in internal-combustion engine principles, 3 in internal-combustion engine repair, and 3 in basic refrigeration, for a total of 12 semester hours (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in internal-combustion engine operation, 3 in internal-combustion engine principles, 3 in internal-combustion engine repair, and 3 in basic refrigeration, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic management (2/75).

MOS–61C–002

WATERCRAFT ENGINEER

61C10

61C20

61C30

61C40

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 642 (Marine Operations).

Description

Summary: Supervises or performs maintenance on Army watercraft and on propulsion systems and auxiliary equipment of marine vessels, and, in some instances, on amphibians. *Skill Level 10:* Under close supervision, performs maintenance on Army watercraft; applies safety precautions pertinent to starting, stopping, and operating main diesel engines, electrical machinery, and other auxiliary components installed on board Army watercraft; reads and records pressures and temperatures to insure safe and efficient operation of machinery; uses hand and power tools; assists in performing preventive maintenance inspections and correcting maintenance shortcomings and deficiencies on watercraft. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; computes fuel consumption, tank capacities, and pumping rates for loading and discharging; maintains a working knowledge of damage control, fire prevention, and federal, state, and local environmental pollution control regulations; adjusts or troubleshoots malfunctioning diesel engines, electrical machinery, and auxiliary equipment; makes emergency repairs or takes emergency damage control measures at sea; performs soldering and pipefitting; uses precision tools; interprets technical publications; replaces engine and auxiliary equipment subassemblies; performs preventive maintenance inspections on watercraft; in some instances, may also perform these duties on amphibians. *Skill Level 30:* Able to perform the duties required for Skill Level 20; evaluates job performance of subordinate enginemen; maintains a reference library of technical manuals and service bulletins; interprets technical blueprints; troubleshoots, repairs, purges, recharges, and tests watercraft refrigeration systems; uses special test equipment and instruments in repairing diesel engines and accessory items; assists supervisor in engineering maintenance functions; plans and organizes work schedules and assigns duties to subordinates; instructs subordinates in work production and quality control procedures; assures adherence to safety procedures; is capable of supervising a medium-sized watercraft maintenance facility; establishes physical layout of work site and ensures maintenance of an efficient, clean, and safe work environment; requisitions, issues, stores, and maintains records of supplies and equipment; coordinates work activities with other maintenance elements; recommends changes to technical publications as required; in some instances, may also perform these duties on amphibians. *Skill Level 40:* Able to perform the duties required for

Skill Level 30; supervises a large marine maintenance facility; performs managerial duties as indicated in previous skill levels; estimates and prepares preliminary budget forecasts of supply and maintenance activities; allocates funds and resources for the efficient operation of supply and maintenance activities; establishes operating procedures on the basis of directives and information received from superiors.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in internal-combustion engine principles, 1 in internal-combustion engine operation, and 1 in shipboard operations, for a total of 6 semester hours (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in internal-combustion engine principles, 4 in internal-combustion engine operation, and 5 in shipboard operations, and additional credit in amphibian maintenance on the basis of institutional evaluation, for a minimum total of 16 semester hours (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 7 semester hours in internal-combustion engine principles, 5 in shipboard operations, 4 in internal-combustion engine operation, 3 in basic refrigeration, and 3 in use and care of tools and test equipment, and additional credit in amphibian maintenance on the basis of institutional evaluation, for a minimum total of 22 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in watercraft maintenance, 3 in marine refrigeration, and 3 in human relations, and additional credit in amphibian maintenance on the basis of institutional evaluation, for a minimum total of 9 semester hours (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 7 semester hours in internal-combustion engine principles, 5 in shipboard operations, 4 in internal-combustion engine operation, 3 in basic refrigeration, and 3 in use and care of tools and test equipment, and additional credit in amphibian maintenance on the basis of institutional evaluation, for a minimum total of 22 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in watercraft maintenance, 3 in marine refrigeration, 3 in human relations, 3 in introduction to management, 3 in personnel supervision, and 3 for field experience in management, and additional credit in amphibian maintenance on the basis of institutional evaluation, for a minimum total of 18 semester hours (6/76).

MOS-61F-001

MARINE HULL REPAIRER
(MARINE HULL REPAIRMAN)

61F10
61F20
61F30
61F40

Exhibit Dates: 3/76-Present.

Career Management Field: 64 (Transportation), *subfield* 642 (Marine Operations).

Description

Summary: Repairs hulls and accessories of Army watercraft and amphibians. *Skill Level 10:* Assists in the repair of all types of marine hulls and accessories; assists in laying out, measuring, cutting, shaping, and fabricating plastic and metal structures and parts; joins, fastens, and caulks new or repaired portions of the ship's hull by pinning, bolting, cementing, riveting, or welding; cleans, finishes, and preserves metal surfaces; employs working drawings to produce required shape dimensions, and fit of plates, planking, framing, and fitting. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provide technical guidance to Skill Level 10 personnel; repairs and inspects marine hulls and accessories; performs inspections to identify defects and to determine supplies and equipment required to effect maintenance; examines repaired hulls and accessories to insure that repaired watercraft and amphibians are seaworthy. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a small facility involved in repairing marine hulls and accessories; estimates repair work in terms of time, material, manpower, and priorities; plans and organizes work schedules and assigns duties to subordinate personnel; instructs and supervises subordinates in work techniques and procedures; requisitions, issues, stores, and maintains records of supplies and equipment; prepares maintenance records, reports, and work orders; reviews, consolidates, and prepares technical, personnel, and administrative reports; performs nondestructive testing. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans, directs, and coordinates the activities of a large facility involved in repair of marine hulls and accessories; plans and directs marine salvage operations on stranded or sunken craft; estimates all costs and establishes priority of tasks; supervises and directs nondestructive testing on harbor craft and amphibians.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in welding theory, 3 in gas welding, 3 in inert gas welding, 3 in vessel fabrication and construction, and 3 in vessel maintenance, for a total of 15 semester hours (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, and 3 in personnel supervision (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 for field experience in management, 3 in maintenance management, and 3 in personnel supervision, for a total of 12 semester hours (6/76).

MOS-61Z-001

MARINE SENIOR SERGEANT

61Z50

Exhibit Dates: 10/73-Present.

Career Management Field: 64 (Transportation), *subfield* 642 (Marine Operations).

Description

Is a mid-level manager responsible for approximately 150 subordinate personnel engaged in watercraft operation and maintenance; assists in planning, implementing, and coordinating administrative activities, operations, and training programs; prepares, edits, and consolidates reports, records, plans, and training materials. NOTE: May have progressed to 61Z50 from 61B40 (Watercraft Operator), 61C40 (Watercraft Engineer), or 61F40 (Marine Hull Repairman).

Recommendation

In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in personnel management, and 3 in records administration, for a minimum total of 15 semester hours; and *if the duty assignment was chief instructor,* 3 additional semester hours for an internship in education, for a total of 18 semester hours (6/76).

MOS-62B-001

ENGINEER EQUIPMENT REPAIRMAN

62B10
62B20
62B30
62B40
62B50

Exhibit Dates: 10/73-8/75.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Maintains and repairs construction and off-the-road equipment. *Skill Level 10:* Is a heavy equipment repairman helper; changes oil and filters; lubricates equipment; drains and flushes radiators; repairs tires and tubes; uses pioneer tools, winches, and related equipment; serves as a recovery vehicle or wrecker crewman; serves as a toolroom keeper. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects equipment for damage and wear; services and adjusts engines, clutches, carburetors, fuel systems, cooling systems, electrical components, brakes, and transmission assemblies; rigs construction equipment; repairs or replaces wheel bearings; operates recovery vehicles and wreckers; uses oxyacetylene and electric welding equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; inspects, disassembles, and repairs power transmission units, engines, gears, shafts, and track and steering assemblies; reconditions and assembles such units as final drives, hydraulic systems, and crawler assemblies; uses precision measuring devices and power shop tools. *Skill Level 40:* Able to perform the duties required for Skill Level 30; organizes and coordinates maintenance shop activities; establishes work schedules and priorities; instructs and supervises subordinate personnel; applies quality and production control procedures; test-operates repaired equipment; supervises keeping of records; prepares reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; assists superiors in establishing maintenance policies and procedures; instructs subordinate supervisors; plans, coordinates, and oversees all maintenance activities; conducts on-the-job training; may serve as a chief instructor in a mechanical maintenance school.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in use and care of tools and 3 in heavy equipment mechanics. In the lower-division baccalaureate/associate degree category, 3 semester hours in heavy equipment mechanics. In a heavy equipment mechanic apprentice training program, 700 clock hours of experience and 144 contact hours of related instruction (3/75).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in use and care of tools, 1 in basic welding, and 6 in heavy equipment mechanics, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic welding and 6 in heavy equipment mechanics. In a heavy equipment mechanics apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction (3/75).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in use and care of tools, 1 in basic welding, and 15 in heavy equipment mechanics, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic welding and 15 in heavy equipment mechanics, and additional credit in heavy equipment mechanics on the basis of institutional evaluation, for a minimum total of 16 semester hours. In a heavy equipment mechanic or a heavy-duty truck mechanic apprentice training program, 6,000 clock hours of experience and 432 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in use and care of tools, 1 in records administration, 3 in welding, and 15 in heavy equipment mechanics, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in records administration, 2 in personnel supervision, 3 in welding, and 15 in heavy equipment mechanics, on the basis of institutional evaluation, for a minimum total of 21 semester hours. In the upper-division baccalaureate category, credit in heavy equipment management on the basis of institutional evaluation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a heavy equipment mechanic or a diesel truck mechanic (3/75).

Recommendation, Skill Level 50

In the vocational certificate category, 1 semester hour in use and care of tools, 1 in records administration, 3 in welding, and 15 in heavy equipment mechanics, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in records administration, 3 in welding, 3 in personnel supervision, and 15 in heavy equipment mechanics, and additional credit in heavy equipment mechanics on the basis of institutional evaluation, for a minimum total of 22 semester hours. In the upper-division baccalaureate category, credit in heavy equipment management on the basis of institutional evaluation; *if the duty assignment was chief instructor,* a minimum of 3 semester hours for field experience in education and additional credit in education on the basis of institutional evaluation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a heavy equipment mechanic or a diesel truck mechanic (3/75).

MOS-62B-002

CONSTRUCTION EQUIPMENT REPAIRMAN
(ENGINEER EQUIPMENT
REPAIRMAN)

62B10
62B20
62B30
62B40

Exhibit Dates: 9/75-2/78.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Supervises or performs maintenance on engineer construction equipment, including powered bridging equipment. *Skill Level 10:* Performs maintenance on gasoline, diesel, and electrically powered engineer construction and associated equipment; performs preventive maintenance, including changing oil, replacing oil filters and air cleaners, draining and flushing radiators, and tightening body and chassis clamps and bolts; inspects, disassembles, repairs, and reassembles carburetors, fuel systems, cooling systems, electrical systems, transmission assemblies, and brake systems; reconditions and assembles such units as clutches, steering clutches, final drives, crawler assemblies, hydraulic systems, and track and stabilizer assemblies; uses hand tools, test equipment, powered shop tools, and oxyacetylene and electrical welding equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; diagnoses malfunctions and determines the level of maintenance to be performed; establishes work priorities; writes work orders and makes assignments; instructs subordinate personnel in inspection, maintenance, and testing practices and procedures; applies quality and production control procedures; performs final inspection of repaired equipment; supervises keeping of work records; prepares reports of unit activites. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises engineer equipment maintenance and repair activities of a large unit, depot, or subordinate units; supervises between 15 and 60 mechanics.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in heavy equipment mechanics, 1 in basic welding, and 1 in use and care of tools, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in heavy equipment mechanics and 1 in basic welding. In a heavy equipment mechanic or diesel mechanic apprentice training program, 500 clock hours of experience and 315 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In a heavy equipment mechanic or diesel mechanic apprentice training program, 1,500 clock hours of experience and 315 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in heavy equipment mechanics, 3 in welding, 1 in use and care of tools, and 1 in records administration, and additional credit in heavy equipment mechanics on the basis of institutional evaluation, for a minimum total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 15 semester hours in heavy equipment mechanics, 3 in welding, 2 in personnel supervision, 1 in use and care of tools, and 1 in records administration, and additional credit in heavy equipment mechanics on the basis of institutional evaluation, for a minimum total of 22 semester hours. In the upper-division baccalaureate category, credit in heavy equipment management on the basis of institutional evaluation. In a heavy equipment mechanic or diesel mechanic apprentice training program, 6,000 clock hours of experience and 550 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 15 semester hours in heavy equipment mechanics, 3 in welding, 3 in personnel supervision, 1 in use and care of tools, and 1 in records administration, and additional credit in heavy equipment mechanics on the basis of institutional evaluation, for a minimum total of 23 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management, and additional credit in heavy equipment management on the basis of institutional evaluation, for a minimum total of 6 semester hours. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as a heavy equipment mechanic or diesel mechanic on the basis of employer or trade association performance examination (12/75).

MOS-62B-003

CONSTRUCTION EQUIPMENT REPAIRER

62B10
62B20
62B30
62B40

Exhibit Dates: 3/78-Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 66 (Machinery Maintenance).

Description

Summary: Supervises or performs maintenance on engineering construction equipment, including powered bridging equipment and power generation equipment. *Skill Level 10:* Performs maintenance on gasoline, diesel, and electrically powered construction and associated equipment; performs preventive maintenance, including all servicing; isolates malfunctions by using appriate electric or hydraulic diagnostic equipment and technical publications; inspects, disassembles, repairs, and reassembles carburetors, fuel systems, cooling systems, electrical systems, transmission assemblies, and brake systems; reconditions and assembles clutches, steering clutches, final drives, hydraulic systems, and crawler assemblies; removes and overhauls engines;

uses hand tools, test equipment, powered shop tools, and oxyacetylene and electrical welding equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs and records results of technical inspections; uses and maintains specialized shop equipment, test sets, and technical publications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and inspects maintenance of engineering construction equipment; determines extent of repair and overhaul needed for equipment; controls requisitioning, storage, inventory of tools and supplies; plans and schedules work assignments and priorities; performs complex diagnosis and repair of all equipment; supervises record keeping and prepares activity reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; provides general management and supervision for maintenance on all engineering construction equipment, power generation equipment, and associated items; observes performance of lower skill level personnel; ensures compliance with safety regulations and practices; inspects work to ensure compliance with standard operating procedures, safety standards and technical publications; analyzes productivity and work quality; participates in research and development activities.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 6 semester hours in heavy equipment mechanics, 1 in basic welding, and 1 in use and care of tools, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in heavy equipment mechanics, and 1 in basic welding (7/79).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in heavy equipment mechanics, 2 in basic welding, 1 in care and use of tools, and 1 in records maintenance, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 9 semester hours in heavy equipment mechanics, 2 in basic welding, 1 in records maintenance, and 2 in personnel supervision, for a total of 14 semester hours (7/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 9 semester hours in heavy equipment mechanics, 2 in basic welding, 1 in records maintenance, and 3 in personnel supervision, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in personnel management (7/79).

MOS–62C–001

ENGINEER MISSILE EQUIPMENT SPECIALIST

62C20
62C30
62C40

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 62C was discontinued and its functions were incorporated into MOS 52C, Utilities Equipment Repairer, and MOS 62B, Construction Equipment Repairer.)

Career Management Field: 52 (Power Production), *subfield* 521 (Electric Power Production).

Description

Summary: Installs, maintains, and repairs air compressors, gasoline engines, air conditioning units, elevators, and power generation equipment. *Skill Level 20:* Installs, maintains, and repairs portable generators, air compressors, gasoline engines, air conditioning units, and missile elevators; uses mechanical and electrical hand tools, and measuring and testing *devices; isolates,* diagnoses, and repairs equipment malfunctions. *Skill Level 30:* Able to perform the duties required for Skill Level 20; removes and replaces faulty assemblies and subassemblies; determines type of maintenance required; fabricates metal parts; test-operates new or repaired equipment; uses test equipment to trace electrical and refrigeration circuits; establishes on-the-job training programs; may supervise up to 9 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; determines workload and prepares schedules and inspection reports; performs final inspection and test-operations on repaired equipment; supervises up to 18 persons.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in air conditioning and refrigeration mechanics, 5 in basic electricity, 5 in electrical wiring, 5 in motor and generator repair, and 5 in diesel mechanics, for a total of 30 semester hours. In the lower-division baccalaureate/associate degree category, 8 semester hours in air conditioning and refrigeration repair, 3 in electrical wiring and controls, 3 in applied electricity, 3 in power mechanics, and 3 in diesel mechanics, for a total of 20 semester hours. Journeyman status as an industrial maintenance electrician (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), as a construction electrician-residential (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), or as an electric motor-and-tools repairman (defined as 6,000 clock hours of experience and 432 contact hours of related instruction) (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 12 semester hours in air conditioning and refrigeration mechanics, 5 in basic electricity, 5 in electrical wiring, 5 in motor and generator repair, 5 in diesel mechanics, and 2 in fabrication processes, for a total of 34 semester hours. In the lower-division baccalaureate/associate degree category, 9 semester hours in air conditioning and refrigeration repair, 4 in applied electricity, 3 in electrical wiring and controls, 3 in power mechanics, 3 in diesel mechanics, and 2 in human relations, and additional credit in personnel supervision, on the basis of institutional evaluation, for a minimum total of 24 semester hours. Journeyman status as an industrial maintenance electrician (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), as a construction electrician-residential (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), or as an electric motor-and-tools repairman (defined as 6,000 clock hours of experience and 432 contact hours of related instruction) (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 9 semester hours in air conditioning and refrigeration repair, 4 in applied electricity, 3 in electrical wiring and controls, 3 in power mechanics, 3 in diesel mechanics, 3 in human relations, 3 in personnel supervision, and 2 in introduction to management, for a total of 30 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts. Journeyman status as an industrial maintenance electrician (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), as a *construction electrician-residential* (defined as 8,000 clock hours of experience and 576 contact hours of related instruction), or as an electric motor-and-tools repairman (defined as 6,000 clock hours of experience and 432 contact hours of related instruction) (6/76).

MOS–62D–001

ASPHALT EQUIPMENT OPERATOR

62D20
62D40

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 62D was discontinued and its functions were incorporated into MOS 62H, Concrete and Asphalt Equipment Operator, and MOS 62N, Construction Equipment Supervisor.)

Career Management Field: 51 (General Engineering) *subfield* 514 (Construction Equipment Operation).

Description

Summary: Operates self-powered machines and accessories used in asphalt heating and dedrumming equipment, asphalt producing, and surfacing operations. *Skill Level 20:* Operates soil mixing, aggregate drying, asphalt distributing, and asphalt finishing machines to produce, lay, and finish asphalt products and surfaces; sets equipment controls for optimum efficiency; notes and corrects or assists in correcting any malfunctions or deficiencies in the operation of equipment; cleans, lubricates, inspects, and services paving machines. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel engaged in asphalt producing and paving operations; supervises all phases of asphalt production and surfacing operations; interprets information contained in material gradation percentage charts; estimates work loads and schedules personnel and equipment for continuous asphalt producing and surfacing operations; prepares operational reports as to hours, tonnage, and yardage output; keeps production and allied operations records.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in asphalt paving machine operation and technology, 10 in asphalt plant operation and technology, 5 in construction material processing and storage, and 5 in basic construction equipment operation, for a total of 30 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction materials processing and application, 1 in functions of grades and grade stakes, 1 in introduction to construction equipment, 1 in grades and plans, and 1 in paving equipment, for a minimum total of 7 semester hours, and additional credit on the basis of institutional evaluation up to a maximum total of 30 semester hours (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 10 semester hours in asphalt paving machine operation and technology, 10 in asphalt plant operation and technology, 5 in construction material processing and storage, 5 in basic construction equipment operation, and 1 in record keeping, for a total of 31 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction material processing and application, 3 in construction management, 3 for field experience in management, 2 in personnel supervision, 1 in record keeping, 1 in functions of grades and grade stakes, 1 in introduction to construction equipment, 1 in grades and plans, and 1 in paving equipment, for a minimum total of [illegible] semester hours, and additional credit on the basis of institutional evaluation up to a maximum total of 40 semester hours. In the upper-division baccalaureate category, 3 semester hours of construction design and 2 in methods of construction, for a minimum total of 5 semester hours, and additional credit in management on the basis of institutional evaluation up to a maximum total of 9 semester hours (12/75).

MOS-62E-001

Crawler Tractor Operator

62E20

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Equipment Operation).

Description

Operates crawler tractors and attachments, including towed scrapers; performs land-clearing, stripping, grubbing, earthmoving, and demolition tasks; spreads earth and rock fill; detects and identifies equipment malfunctions and assists in repairs; performs preventive maintenance such as cleaning, inspecting, lubricating, and minor adjustments and repairs.

Recommendation

In the vocational certificate category, 5 semester hours in heavy equipment operation and 5 in mechanical maintenance (12/75).

MOS-62E-002

Heavy Construction Equipment Operator

62E10

62E20

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 515 (Construction Equipment Operation).

Description

Summary: Operates crawler and wheeled tractors with dozer attachments, scoop loader, motorized grader, and towed or self-propelled scraper. *Skill Level 10:* Clears, grubs, strips, rough-grades, excavates, backfills, levels, slopes, cuts, ditches, and stockpiles with crawler, wheeled tractor with dozer attachment, and scoop loader; under supervision; operates motorized grader and towed or self-propelled scooper; loads equipment for movement and drives tractor-trailer for hauling; performs operator maintenance. *Skill Level 20:* Able to perform the duties required for Skill Level 10; strips, scarifies, cuts, fills, spreads, backfills, backblades, ditches, and slopes with motorized grader; removes overburden; loads and spreads with tractor-scraper; windrows, blends, and spreads asphalt road mix; mixes soil stabilization materials; performs surface and drainage maintenance; performs operator maintenance.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 5 semester hours in heavy equipment operation and 5 in mechanical maintenance (7/79).

MOS-62F-001

Crane Operator

62F20

62F30

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Equipment Operation).

Description

Summary: Operates cranes and crane shovels of stationary, crawler, and truck-mounted types used to hoist and transport heavy objects and to perform excavation. *Skill Level 20:* Operates crane with hook and block operated by single drum; receives instructions from a supervisor on a specific work assignment; performs preoperation inspection and servicing on crane and related equipment; moves crane to and from worksite; determines lift and rigging requirements; performs after-operation inspection and maintenance. *Skill Level 30:* Able to perform the duties required for Skill Level 20; operates and maintains crane shovel with clamshell, dragline, shovel backhoe, piledriver, and related attachments; connects attachments and reaves cable.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in single-drum crane operation (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 10 semester hours in single-drum crane operation, 1 in powertrains and undercarriages, and 1 in rigging, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in revolving shovel and crane equipment and 1 in material hoisting and handling (12/75).

MOS-62F-002

Lifting and Loading Equipment Operator

62F10

62F20

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 515 (Construction Equipment Operation).

Description

Summary: Operates cranes and crane shovels of stationary, crawler, and truck-mounted types; operates rough terrain forklifts. *Skill Level 10:* Drives wheel-mounted cranes; loads crane shovel on vehicle for transport; maneuvers boom with spreader, hook, sling, or other device to attach, lift, swing, or lower loads in response to signals; directs rigging load and estimates safe lifting capacity; loads and unloads containerized, palletized, and unpalletized items on various types of surfaces; assists in operation of crane shovel with attachments; performs operator maintenance. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs ditching, sloping, excavating, and stockpiling with dragline; digs, loads, and stockpiles with clamshell; ditches and excavates with backhoe; performs pile setting and driving operations; levels, face cuts, and excavates with shovel front; operates special-purpose heavy cranes at industrial facilities; performs operator maintenance.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in crane operation and 5 in equipment maintenance (7/79).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in crane operation and 5 in equipment maintenance (7/79).

MOS-62G-001

Quarryman

62G20

62G30

62G40

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Equipment Operation).

Description

Summary: Operates electric, pneumatic, and internal combustion powered machines used in drilling, crushing, grading, and cleaning gravel and rock; detonates explosives to blast rock in quarries and at construction sites. *Skill Level 20:* Performs as a quarry machine operator; determines screen sizes and crusher settings to produce specification aggregate; identifies kind and quality of aggregate by simple field tests; notes and corrects or assists in correcting any machine malfunctions or deficiencies; performs preventive maintenance. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs as powderman; able to use explosives above ground, underground, and underwater; determines hole spacings and power charges; operates rock drills. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises all phases of quarry operations.

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in crusher operation and 5 in aggregate sampling and field testing. In the lower-division baccalaureate/associate degree category, 2 semester hours in crushing, screening, and washing plants and 1 in construction materials handling and storage (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in crusher operation, 5 in aggregate sampling and field testing, and 2 in mining, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 2 in crushing, screening, and washing plants, 1 in construction materials handling and storage, 1 in mining and tunneling, and 1 in functions of grade stakes, for a total of 8 semester hours (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in field supervision, 5 in crusher operation, 5 in aggregate sampling and field testing, and 2 in mining, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in field supervision, 2 in crushing, screening and washing plants, 1 in recordkeeping, 1 in construction materials handling and storage, 1 in mining and tunneling, and 1 in functions of grade stakes, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (12/75).

MOS-62G-002

QUARRYING SPECIALIST

62G10
62G20
62G30

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 515 (Construction Equipment).

Description

Summary: Operates or supervises the operation of electric, pneumatic, and internal combustion powered machines used in drilling, crushing, grading, and cleaning gravel and rock; detonates explosives to blast rock in quarries and at construction sites. *Skill Level 10:* Under supervision, assembles, erects, adjusts, and operates the crushing, screening, conveying, and washing units; operates rock drills; maintains tools and equipment; assists powder man. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; determines screen sizes and crusher setting to produce aggregate to specifications; identifies the type and quality of aggregate by simple field tests; notes and corrects or assists in correcting machine malfunctions and deficiencies; performs routine maintenance; performs as blaster, is able to transport and use explosives; determines drilling pattern, depth, and spacing of bore holes; operates various rock drills. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all phases of quarry operation.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in machine operation (8/79).

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in machine operation, 5 in testing and sampling, and 2 in personnel supervision and training, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in machine operation, 1 in testing and sampling, and 2 in personnel supervision, for a total of 5 semester hours (8/79).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in machine operation, 5 in testing and sampling, 3 in personnel supervision and training, and 6 in plant management, for a total of 19 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in machine operation, 1 in testing and sampling, 3 in personnel supervision and training, 3 in plant management, and 3 in construction management, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (8/79).

MOS-62H-001

CONCRETE PAVING EQUIPMENT OPERATOR

62H20
62H40

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Equipment Operation).

Description

Summary: Operates self-powered machines used in concrete producing and paving operations. *Skill Level 20:* Sets up concrete producing and surfacing equipment; operates concrete batching plant, and mixing, spreading, and finishing machines to produce concrete by formula or specifications and to spread concrete to desired thickness; sets equipment controls for optimum efficiency; notes equipment malfunctions or deficiencies and repairs or assists in the repair of equipment; performs equipment maintenance services such as cleaning, lubricating, inspecting, and minor adjustments. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises all phases of concrete producing and paving operations; supervises personnel and assigns work; interprets and utilizes information contained in material gradation charts; prepares operational reports; instructs subordinate personnel.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in concrete paving machine operation and technology, 10 in concrete plant operation and technology, 5 in construction material processing and storage, and 5 in basic construction equipment operation, for a total of 30 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction material processing and application, 1 in functions of grades and grade stakes, 1 in introduction to construction equipment, 1 in grades and plans, and 1 in paving equipment, for a minimum total of 7 semester hours, and additional credit on the basis of institutional evaluation up to a maximum total of 30 semester hours (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 10 semester hours in concrete paving machine operation and technology, 10 in concrete plant operation and technology, 5 in construction material processing and storage, 5 in basic construction equipment operation, and 1 in recordkeeping, for a total of 31 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction material processing and application, 3 in construction management, 3 for field experience in management, 2 in personnel supervision, 1 in record keeping, 1 in functions of grades and grade stakes, 1 in introduction to construction equipment, 1 in grades and plans, and 1 in paving equipment, for a minimum total of 16 semester hours, and additional credit on the basis of institutional evaluation up to a maximum total of 40 semester hours. In the upper-division baccalaureate category, 3 semester hours of construction design and 2 in methods of construction, for a minimum total of 5 semester hours, and additional credit in management on the basis of institutional evaluation up to a maximum total of 9 semester hours (12/75).

MOS-62H-002

CONCRETE & ASPHALT EQUIPMENT OPERATOR

62H10
62H20
62H30

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 515 (Construction Equipment Operator).

Description

Summary: Supervises or operates all equipment used in concrete and asphalt production and paving. *Skill Level 10:* Operates concrete mobile mixer truck; assists plant equipment operator in operation of equipment and machines used in asphalt production and paving; loads unmixed materials in concrete mobile mixer; adjusts controls to obtain required mix proportion and slump at the job site; assists in operation of spreading and finishing equipment; assists in erection, operation, and maintenance of asphalt producing plant; operates asphalt distributor and aggregate spreader; assists in operation of asphalt paving and surfacing equipment. *Skill Level 20:* Able to perform duties required for Skill Level 10; operates all equipment and machines used in asphalt production and paving and concrete paving operations; erects, operates, and maintains asphalt plant; directs preparation and placement of concrete with mobile mixer truck. *Skill Level 30:* Able to perform duties required for Skill Level 20; supervises all aspects of asphalt and concrete production and paving operations; plans and directs layout and erection of asphalt plant; supervises production of hot plant mix asphalt; directs asphalt placing and rolling operations; supervises concrete mobile mixer truck use and employment; supervises concrete and asphalt equipment maintenance and training programs.

Recommendation, Skill Level 10

In the vocational certificate category, *if the individual has experience in the operation of asphalt paving equipment,* 5 semester hours in operation of asphalt paving equipment; *if the individual has experience in the operation of concrete equipment,* 5 semester hours in operation of concrete equipment, for a maximum total of 10 semester hours (2/80).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10 plus 5 semester hours in handling and storage of materials, for a total of 10 or 15 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in construction material processing and application (2/80).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in construction material processing and application, 3 in construction management, and 2 in personnel supervision, for a total of 7 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (2/80).

MOS-62J-001

General Construction Machine Operator

62J20

62J30

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Equipment Operation).

Description

Summary: Operates a variety of equipment in support of construction projects, including air compressors, drilling equipment, pumps, soil processing equipment, materials application equipment; possesses a basic understanding of soils mechanics, strength of materials, hydrology, mechanics, concrete, and asphalt. *Skill Level 20:* Performs as a utility equipment operator; selects proper bits, power units, and attachments for drills, air compressors, pumps, and rotary equipment; notes and assists in repairing equipment malfunctions; performs preventive and operational maintenance and inspects equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as well driller, drilling water wells and developing existing dug wells; possesses sufficient knowledge of geology, hydrology, and soils to make a finite analysis of drill cores to determine whether the strata being examined can produced the desired amount of water; installs well casings; prepares and analyzes electronic well logs; performs preventive maintenance on electronic well-logging equipment; sets up well screens and pumping equipment; grouts and gravel-packs wells; analyzes terrain and geologic features to determine the best probable location for a well; follows proper safety procedures associated with drilling operations; maintains records of drilling operations and product output.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in construction equipment operation and 10 in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 5 semester hours in construction equipment operation and 5 in mechanical maintenance (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 40 semester hours and certification as a well drilling superintendent. In the lower-division baccalaureate/associate degree category, 5 semester hours in construction equipment operation, 5 in mechanical maintenance, 3 in electricity and electronics, and 3 in geology and hydrology, for a total of 16 semester hours (12/75).

MOS-62J-002

General Construction Equipment Operator

62J10

62J20

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (Engineering), *subfield* 515 (Construction Equipment Operation).

Description

Summary: Operates a variety of equipment in support of construction projects, including air compressors and special-purpose construction machines engaged in compaction, ditching, pumping, augering, and well-drilling operations. *Skill Level 10:* Operates pneumatic wood borer, rock drill, air blower gun attachment, nail driver, sump pump, paving breaker, chain and circular saw, grinder, concrete vibrator, and backfill tamper; operates power roller over foundations, filler stones and cover stone courses and surface treatments, asphalt macadam, road mix and hot-mix pavement; operates water distributor in compaction and dust control operations; performs operator maintenance; assists in operation of ditching machines. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates utility tractor with loader and backhoe, general purpose excavators and attachments, earth auger, and ditching machines; performs leveling, backfilling, rough grading, stockpiling, ditch digging, and loading with utility tractor loader and backhoe; drills vertical and angled holes of appropriate diameter to proper depth with earth auger for demolitions support, fence posts, power poles, and anchor posts.

Recommendation, Skill Level 10

In the vocational certificate category, 10 semester hours in machine operations and 10 in equipment maintenance (7/79).

Recommendation, Skill Level 20

In the vocational certificate category, 15 semester hours in machine operation and 15 in equipment maintenance (7/79).

MOS-62K-001

Grader Operator

62K20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 62K was discontinued and its functions were incorporated into MOS 62E, Heavy Construction Equipment Operator.)

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Equipment Operation).

Description

Operates construction motor grader and attachments under supervision; performs inspections and service on equipment; interprets information on surveyors' grade stakes; judges terrain and determines required action to alter variation to conform to construction design; spreads and grades aggregate-asphalt and soil-asphalt road mixes.

Recommendation

In the vocational certificate category, 10 semester hours in motor grader operation, 5 in machine maintenance, and 1 in grades and grade stakes, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in material processing and application, 2 in construction plans, 2 in power sources and power systems, and 1 in grades and grade stakes, for a total of 8 semester hours (12/75).

MOS-62L-001

Wheeled Tractor Operator

62L20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 62L was discontinued and its functions were incorporated into MOS 62E, Heavy Construction Equipment Operator.)

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Equipment Operation).

Description

Operates wheeled tractors, rubber-tired dozers with attachments, self-propelled scrapers, and heavy-duty quarry trucks; interprets the information on grade stakes.

Recommendation

In the vocational certificate category, 10 semester hours in wheeled tractor operation (2/75).

MOS-62M-001

Rough Terrain Forklift and Loader Operator

62M20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 62M was discontinued and its functions were incorporated into MOS 62E, Heavy Construction Equipment Operator, and MOS 62F, Lifting and Loading Equipment Operator.)

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Equipment Operation).

Description

Operates rough-terrain forklifts and scoop loaders.

Recommendation

In the vocational certificate category, 10 semester hours in forklift and scoop loader operation (2/75).

MOS-62N-001

Construction Machine Supervisor

62N40

62N50

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 514 (Construction Equipment Operation).

Description

Summary: Supervises construction machinery operations and operator and crew maintenance of equipment. *Skill Level 40:* Performs duties comparable to those of a civilian assistant job superintendent on a construction site; has technical skills, competencies, and knowledge equivalent to those acquired through an associate degree program in operating engineer technology; supervises employment of all kinds of construction machinery in support of construction operations; organizes machinery operations phases of construction projects; estimates equipment and operator requirements for specific jobs; coordinates construction machinery operations with related construction work; observes machine operations and inspects finished products; enforces safety rules; prepares reports on personnel, machine operations, training, and work progress; evaluates subordinates' work performance. NOTE: May have progressed to 62N40 from 51G20 (Soils Analyst), 62E20 (Crawler Tractor Operator), 62F30 (Crane Operator), 62J30 (General Construction Machine Operator), 62K20 (Grader Operator), 62L20 (Wheeled Tractor Operator), or 62M20 (Rough Terrain Forklift and Loader Operator). *Skill Level 50:* Able to perform the duties required for Skill Level 40; manages more than 200 persons engaged in a variety of construction equipment operation activities; performs duties comparable to those of a civilian construction superintendent or operations manager; as the principal noncommissioned officer in a construction equipment company, assists in planning, coordinating, and supervising all company activities; advises superiors on personnel matters. NOTE: May have progressed to 62N50 from 62N40, 62D40 (Asphalt Equipment Operator), 62G40 (Quarryman), or 62H40 (Concrete Paving Equipment Operator).

Recommendation, Skill Level 40

In the lower-division baccalaureate associate degree category, 10 semester hours in construction equipment, 25 for field experience in construction equipment operation, 3 in material processing and application, 3 in introduction to electricity, hydraulics, and pneumatics, 1 in basic powertrains and undercarriages, 1 in welding, rigging, soils, and compaction, 1 in fuels, oils, and lubricants, 1 in surveying (grades, grade stakes, and plans), and 1 in records administration, for a total of 46 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (12/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate/category, 6 semester hours for field experience in management and 3 in introduction to management, for a minimum total of 9 semester hours, and additional credit in construction management up to a maximum total of 30 semester hours (12/75).

MOS-62N-002

CONSTRUCTION EQUIPMENT SUPERVISOR

62N30
62N40

Exhibit Dates: 3/78–Present.

Career Management Field: 51 (General Engineering), *subfield* 515 (Construction Equipment Operation).

Description

Summary: Supervises construction equipment, quarry, paving, and plant equipment operations. *Skill Level 30:* Provides general supervision to personnel operating loading, lifting, heavy, and general construction equipment; supervises and coordinates activities of all above equipment, including drilling operations; determines most efficient type and application of equipment to be used in construction, maintenance, and repair projects; estimates equipment and operator requirements for specific jobs; conducts on-the-job training and assists in supervision of unit engaged in construction equipment operations; maintains records; assists job superintendent at civilian construction site. NOTE: May have progressed to 62N30 from 62J20 (General Construction Equipment Operator), 62E20 (Heavy Construction Equipment Operator), or 62F20 (Lifting and Loading Equipment Operator). *Skill Level 40:* Able to perform the duties required for Skill Level 30; provides general supervision over all phases of construction operations; coordinates the activities of personnel, equipment, and machinery; prepares operational reports; keeps production records; equivalent to job superintendent on civilian construction site.

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in construction management, 3 in record keeping, and 3 for field experience in management, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in maintenance management (8/79).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalureate category, 6 semester hours for field experience in management, 3 in personnel management, 3 in maintenance management, and 3 in report writing, for a total of 15 semester hours (8/79).

MOS-63B-001

WHEEL VEHICLE MECHANIC

63B20
63B40

Exhibit Dates: 10/73–8/75.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Automotive Maintenance).

Description

Summary: Diagnoses malfunctions and repairs internal-combustion engines, accessories, powertrains, and chassis components of wheel vehicles; adjusts operating mechanisms such as valve tappets, carburetors, governors, ignition system points, control linkage, clutches, and brakes; performs tune-ups; operates wreckers. *Skill Level 20:* Replaces engine components such as fuel pumps, generators, regulators, brake shoes and fittings, and winches; road tests vehicles; prepares and keeps maintenance forms and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor; establishes shop practices and procedures; plans and organizes work schedules and the use of facilities and equipment; instructs and supervises subordinate personnel; applies production and quality control principles; requisitions parts, tools, and supplies.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, up to 9 semester hours may be granted on the basis of institutional evaluation (3 semester hours in automotive mechanics, 3 in diesel mechanics, and 3 in truck mechanics). In an automotive, diesel, or truck mechanic apprentice training program, 400 clock hours of experience and 70 contact hours of related instruction (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in automotive mechanics, 5 in diesel mechanics, 5 in truck mechanics, and 1 in shop practices and procedures, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 5 semester hours in automotive mechanics, 5 in diesel mechanics, 5 in truck mechanics, and 3 in personnel supervision and training, and additional credit on the basis of institutional evaluation, for a minimum total of 18 semester hours. In an automotive, diesel, or truck mechanic apprentice training program, 6,000 clock hours of experience and 140 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

MOS-63B-002

WHEEL VEHICLE MECHANIC

63B10
63B20
63B30

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Diagnoses malfunctions and repairs internal-combustion engines, accessories, powertrains, and chassis components of wheel vehicles; adjusts operating mechanisms such as valve tappets, carburetors, governors, ignition system points, control linkage, clutches, and brakes; performs tune-ups; operates wreckers. *Skill Level 10:* Replaces engine components such as fuel pumps, generators, starters, regulators, radiators, universal joints, brake shoes, engine mounts, and lines and fittings; adjusts operating mechanisms; prepares maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans and organizes work schedules; assigns duties; performs operational and administrative duties; instructs and supervises subordinate personnel in appropriate practices and procedures; requisitions spare parts, tools, and supplies.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics and additional credit on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 400 clock hours of experience and 70 contact hours of related instruction (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics and additional credit on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 1,500 clock hours of experience and 70 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, diesel, or truck mechanics, 2 in personnel supervision, and 1 in records administration, and additional credit in automotive, diesel, or truck mechanics on the basis of institutional evaluation, for a minimum total of 12 semester hours. In an automotive, diesel, or truck mechanic apprentice training program, 2,000 clock hours of job experience and 70 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-63C-001

Track Vehicle Mechanic

63C20

63C40

Exhibit Dates: 10/73–8/75.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Diagnoses wheel and track vehicles, using test equipment and sequential tests; applies knowledge of internal combustion engines and accessories, powertrains, and chassis components of track vehicles; road tests vehicles; operates wreckers. *Skill Level 20:* Performs preventive maintenance and general servicing work, including tune-ups, on both gasoline and diesel combustion engines; keeps maintenance operating forms and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor, planning and organizing work schedules, shop practices, and the use of facilities and equipment; instructs and supervises subordinate personnel; requisitions parts, tools, and supplies.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in automotive mechanics, 3 in diesel mechanics, and 3 in industrial truck mechanics, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in automotive mechanics, 3 in diesel mechanics, and 3 in industrial truck mechanics, for a maximum total of 9 semester hours, on the basis of institutional evaluation. In an automotive, diesel, or industrial truck mechanic apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in automotive mechanics, 5 in diesel mechanics, and 5 in industrial truck mechanics, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 5 semester hours in automotive mechanics, 5 in diesel mechanics, 5 in industrial truck mechanics, 3 in personnel supervision, and 1 in records administration, and additional credit on the basis of institutional evaluation, for a minimum total of 19 semester hours. In an automotive, diesel, or industrial truck mechanic apprentice training program, a minimum of 6,000 clock hours of experience and 214 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (3/75).

MOS-63C-002

Track Vehicle Mechanic

63C10

63C20

63C30

63C40

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Applies knowledge of operating principles of internal-combustion engines, accessories, powertrains, and chassis components to wheel and track vehicles. *Skill Level 10:* Performs detailed diagnoses of wheel and track vehicles; adjusts operating mechanisms such as valve tappets, carburetors, governors, ignition system points, linkage, clutches, and brakes; times magnetos, distributors, injectors, and pumps; replaces components such as fuel pumps, starters, carburetors, generators, regulators, universal joints, brake shoes, and drive sprockets; road tests vehicles; prepares and keeps maintenance records. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans and organizes work schedules and shop practices; assigns duties; performs operational and administrative duties; instructs and supervises subordinate personnel in appropriate maintenance practices and procedures. *Skill Level 40:* Able to perform the duties required for 63C30, 63B30 (Wheel Vehicle Mechanic), or 63F30 (Recovery Specialist); supervises maintenance on track and wheel vehicles; supervises vehicle recovery operations and tire and tube activities.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 6 semester hours in automotive, diesel, or truck mechanics and additional credit on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 500 clock hours of experience and 267 contact hours of related instruction (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, a minimum of 9 semester hours in automotive, diesel, or truck mechanics and additional credit on the basis of institutional evaluation. In an automotive, diesel, or truck mechanic apprentice training program, 1,500 clock hours of experience and 267 contact hours of related instruction and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in automotive, truck, or diesel mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in automotive, truck, or diesel mechanics, 2 in personnel supervision, and 1 in records administration, and additional credit in an automotive, diesel, or truck mechanics program on the basis of institutional evaluation, for a minimum total of 12 semester hours. In an automotive, diesel, or truck mechanic apprentice training program, 4,000 clock hours of experience and 267 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in automotive, diesel, or truck mechanics. In the lower-division baccalaureate/associate degree category, 15 semester hours in automotive, diesel, or truck mechanics, 3 in personnel supervision, and 1 in records administration, and additional credit in automotive mechanics, diesel mechanics, and truck mechanics on the basis of institutional evaluation, for a minimum total of 19 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management, *only if the duty assignment was tire repair foreman or recovery sergeant.* In an automotive, diesel, or truck mechanic apprentice training program, 6,000 clock hours of experience and 267 contact hours of related instruction (12/75).

MOS-63F-001

Recovery Specialist

63F10

63F20

63F30

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Operates and performs operator maintenance on all types of wreckers, recovery vehicles, and associated equipment and accessories. *Skill Level 10:* Performs recovery and evacuation operations for abandoned, damaged, disabled, or mired light or heavy wheel or track vehicles; prepares recovery vehicle equipment for use; maneuvers recovery vehicles, selecting the most desirable positions for wreckers, trailers, full tracked recovery vehicles or transporters; uses winches, cranes, booms, jacks, block and tackle gear; applies lines and rigs; performs operator maintenance on recovery vehicles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance for Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans, organizes, and supervises recovery operations; assigns duties; conducts on-the-job training; requisitions spare parts, tools, and supplies; schedules and coordinates equipment for periodic maintenance.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in an automotive mechanics program. In a rigger apprentice training program, 1,000 clock hours of experience (12/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in an automotive mechanics program, 2 in personnel supervision, and 1 in records administration, and additional credit on the basis of institutional evaluation, for a minimum total of 11 semester hours. In a rigger apprentice training program, 1,000 clock hours of experience (12/75).

MOS-63G-001

Fuel and Electrical Systems Repairer
(Fuel and Electrical Systems
Repairman)

63G10

63G20

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Removes, disassembles, and repairs fuel and electrical systems and components. *Skill Level 10:* Diagnoses and performs direct and general support maintenance on fuel and electrical systems of wheel and track vehicles and material handling equipment; tests, adjusts, and repairs fuel and electrical system components. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to lower grade personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in fuel and electrical systems. In the lower-division baccalaureate/associate degree category, 9 semester hours in fuel and electrical systems, and additional credit on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or heavy-duty equipment mechanic apprentice training program, 500 clock hours of experience and 400 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in fuel and electrical systems. In the lower-division baccalaureate/associate degree category, 9 semester hours in fuel and electrical systems, and additional credit on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or heavy-duty equipment mechanic apprentice training program, 1,500 clock hours of experience and 400 contact hours of related instruction, and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-63H-001

AUTOMOTIVE REPAIRMAN

63H20
63H30
63H40

Exhibit Dates: 10/73-8/75.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Automotive Maintenance).

Description

Summary: Disassembles, reassembles, and tests transmissions, engines, differentials, brakes, and other automotive components. *Skill Level 20:* Uses measuring and hand tools such as calipers, micrometers, wrenches, and torches; under supervision, repairs, adjusts, replaces, and overhauls engines, clutches, transmissions, differentials, steering assemblies, hydraulic cylinders, and brakes. *Skill Level 30:* Able to perform the duties required for Skill Level 20; troubleshoots electrical and mechanical failures; repairs, overhauls, and installs fuel systems and electrical components; applies information contained in technical and trade manuals; instructs and assists subordinate personnel. *Skill Level 40:* Able to perform the duties required for Skill Levels 20 or 30; supervises a minimum of six subordinates; plans and organizes work schedules; writes job tickets; prepares maintenance forms and records; requisitions parts, supplies, and equipment; keeps a file of technical publications; applies production and quality control procedures and standards.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in auto mechanics. In the lower-division baccalaureate/associate degree category, 9 semester hours in auto mechanics and additional credit in auto mechanics on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or equipment mechanic apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in auto mechanics. In the lower-division baccalaureate/associate degree category, 15 semester hours in auto mechanics and additional credit in auto mechanics on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or equipment mechanic apprentice training program, 6,000 clock hours of experience and 432 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in auto mechanics and 3 in shop practices and procedures. In the lower-division baccalaureate/associate degree category, 15 semester hours in auto mechanics, 1 in records administration, and 2 in personnel supervision, for a total of 18 semester hours. In the upper-division baccalaureate category, credit in automotive technology on the basis of institutional evaluation. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as an automotive, truck, heavy-duty truck, or equipment mechanic (2/75).

MOS-63H-002

AUTOMOTIVE REPAIRMAN

63H10
63H20
63H30
63H40

Exhibit Dates: 9/75-2/77.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Disassembles, reassembles, and tests transmissions, engines, differentials, brakes, and other automotive components. *Skill Level 10:* Under supervision, repairs, adjusts, replaces, and overhauls engines, clutches, transmissions, differentials, steering assemblies, hydraulic cylinders, and brakes; uses measuring and hand tools such as calipers, micrometers, wrenches, and torches. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; performs maintenance on engine, powertrain, and chassis components of wheel and track vehicles and material-handling equipment, excluding the propulsion motor on electric material-handling equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises automotive maintenance and fuel and electrical system repair operations; performs complete technical inspection of fuel and electrical systems repairs and repair or overhaul of engine powertrain and chassis components; plans and organizes work schedules; assigns duties; instructs subordinate personnel in proper maintenance practices, procedures, and techniques; applies quality and production control procedures; uses and keeps a file of technical publications; requisitions spare parts, tools, and supplies. NOTE: May have progressed to 63H30 from 63H20 or 63G20 (Fuel and Electrical Systems Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises repair of automotive and quartermaster equipment; supervises a minimum of 20 subordinate personnel. NOTE: May have progressed to 63H40 from 63H30 or 63J30 (Quartermaster Equipment Repairman).

Recommendation, Skill Level 10

In the vocational certificate category, 9 semester hours in auto mechanics and 1 in use and care of hand tools. In the lower-division baccalaureate/associate degree category, 9 semester hours in auto mechanics and additional credit in auto mechanics on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or equipment mechanic apprentice training program, 500 clock hours of experience and 400 contact hours of related instruction (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in auto mechanics and 1 in use and care of hand tools. In the lower-division baccalaureate/associate degree category, 9 semester hours in auto mechanics, and additional credit in auto mechanics on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or equipment mechanic apprentice training program, 1,500 clock hours of experience and 400 contact hours of related instruction (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in auto mechanics, 3 in shop practices and procedures, and 1 in use and care of hand tools, for a total of 19 semester hours. In the lower-division baccalaureate/associate degree category, 15 semester hours in auto mechanics, 2 in personnel supervision, and 1 in records administration, and additional credit in auto mechanics on the basis of institutional evaluation, for a minimum total of 18 semester hours. In the upper-division baccalaureate category, credit in management or administration on the basis of institutional evaluation. In an automotive, truck, heavy-duty truck, or equipment mechanic apprentice training program, 6,000 clock hours of experience and 432 contact hours of related instruction (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in auto mechanics, 3 in shop practices and procedures, and 1 in use and care of hand tools, for a total of 19 semester hours. In the lower-division baccalaureate/associate degree category, 15 semester hours in auto mechanics, 2 in personnel supervision, and 1 in records administration, and additional credit in auto mechanics on the basis of institutional evaluation, for a minimum total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management, and additional credit in management, administration, and automotive technology on the basis of institutional evaluation, for a minimum total of 6 semester hours. Journeyman status (defined as 8,000 clock hours of experience and 576 contact hours of related instruction) as an automotive, truck, heavy-duty truck, or equipment mechanic (12/75).

MOS-63H-003

AUTOMOTIVE REPAIRER
(AUTOMOTIVE REPAIRMAN)

63H10
63H20
63H30
63H40

Exhibit Dates: 3/77–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Performs maintenance on wheel and track vehicles and materials-handling equipment, excluding propulsion motor on electrical materials-handling equipment. *Skill Level 10:* Diagnoses and analyzes engine, powertrain, and chassis component malfunctions by visual and auditory examination and by use of test equipment; isolates causes of malfunctions by systematic elimination of possible trouble; tests, repairs, overhauls, adjusts and replaces assemblies, subassemblies and components such as engines (gasoline, diesel, and multifuel), clutches, transmissions, differentials, steering assemblies, transfer case and hydraulic cylinders and components by replacing valves, shafts, gears, bearings, rings and seals, using jacks, pullers, gauges and jigs. *Skill Level 20:* Performs the duties required for Skill Level 10; provides technical guidance to lower skill level personnel in accomplishment of these duties. *Skill Level 30:* Able to perform the duties of Automotive Repairman (63H20) or Fuel and Electrical Systems Repairman (63G20); supervises automotive maintenance and fuel and electrical system repair operations or performs complete technical inspection of fuel and electrical system repairs and repair or overhaul of engine powertrain and chassis components; understands and applies information contained in technical publications to maintenance requirements; uses all types of measuring and testing equipment for alignment, adjustments, and functioning of components and assemblies; plans and organizes work schedules; assigns duties; supervises and instructs subordinate personnel in proper maintenance practices, procedures and techniques; applies production and quality control procedures; keeps file of technical publications; secures spare parts, tools, and supplies. NOTE: May have progressed to 63H30 from 63H20 or 63G20 (Fuel and Electrical Systems Repairman). *Skill Level 40:* Able to perform the duties of Automotive Repairman (63H30) or Quartermaster Equipment Repairman (63J30); supervises repair of automotive, chemical, and quartermaster equipment; serves as section chief, platoon sergeant, repair control sergeant or maintenance sergeant. NOTE: May have progressed to 63H40 from 63H30 or 63J30 (Quartermaster Equipment Repairman).

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 9 semester hours in auto mechanics and 1 in use and care of hand tools. In the lower-division baccalaureate/associate degree category, 9 semester hours in auto mechanics, 1 in use and care of hand tools, and additional credit in auto mechanics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 15 semester hours in auto mechanics, 3 in shop practices and procedures, and 1 in use and care of hand tools, for a total of 19 semester hours. In the lower-division baccalaureate/associate degree category, 15 semester hours in auto mechanics, 1 in use and care of hand tools, 2 in personnel supervision, 3 in shop management, and 1 in records administration, and additional credit in auto mechanics on the basis of institutional evaluation, for a minimum total of 22 semester hours. In the upper-division baccalaureate category, credit in management or administration on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management, and additional credit in management, administration, and automotive technology on the basis of institutional evaluation, for a minimum total of 6 semester hours (5/78).

MOS-63J-001

QUARTERMASTER EQUIPMENT REPAIRMAN

63J10
63J20
63J30

Exhibit Dates: 9/75–2/77.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Supervises or performs maintenance on quartermaster machinery and special purpose equipment. *Skill Level 10:* Disassembles, repairs, reassembles, adjusts, and tests various types of quartermaster machinery and equipment such as sewing machines, stoves, gasoline lanterns, laundry units, bath units, bakery units, and special purpose equipment; performs maintenance on electrical circuits contained in this machinery and equipment; uses supply and technical literature, regulations, and manufacturers' catalogs in performing maintenance and making repairs. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical assistance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assigns, schedules, and supervises personnel engaged in installing, repairing, and maintaining quartermaster machinery and equipment; performs technical inspections.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in use and care of hand tools, 1 in basic electricity, 1 in use of testing equipment, and 1 in small appliance repair, for a total of 4 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in small appliance repair. In a sewing machine repairman apprentice training program, 100 clock hours of experience (12/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 10. In a sewing machine repairman apprentice training program, 200 clock hours of experience (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 2 semester hours in small appliance repair and 3 for field experience in personnel management. In a sewing machine repairman apprentice training program, 300 clock hours of experience (12/75).

MOS-63J-002

QUARTERMASTER EQUIPMENT REPAIRER
(QUARTERMASTER EQUIPMENT REPAIRMAN)

63J10
63J20
63J30

Exhibit Dates: 3/77–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Summary: Supervises or performs maintenance on chemical, quartermaster, and special-purpose equipment. *Skill Level 10:* Disassembles, repairs, reassembles, adjusts, and tests various types of quartermaster machinery and equipment such as sewing machines, gasoline lanterns, laundry units, bath units, or bakery units, and special-purpose equipment, including petroleum, oil, and lubricants equipment; performs maintenance on electrical circuits; performs welding, plumbing, and pipefitting tasks; uses supply and technical literature, regulations, and manufacturers' catalogs in performing maintenance and keeping records. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; if serves as foreman, supervises from 6 to 10 persons. *Skill Level 30:* Able to perform the duties required for Skill Level 20; must be able to supervise personnel performing duties of 63J20 and 54D20 (Chemical Equipment Repairman); supervises, assigns, and schedules personnel engaged in the repair and maintenance of chemical equipment, and quartermaster machinery and equipment; may serve as technical inspector; plans work activities and schedules work requests; supervises from 11 to 40 persons. NOTE: May have progressed to 63J30 from 63J20 or 54D20 (Chemical Equipment Repairman).

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in use and care of hand tools, 1 in basic electricity, 1 in use of testing equipment, and 1 in small-appliance repair, for a total of 4 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in small-appliance repair and 1 in use and care of hand tools (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 2 semester hours in small-appliance repair and 1 in use and care of hand tools; *if the duty position was quartermaster equipment repair foreman,* 3 semester hours in shop management, for a total of 5 semester hours (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division bacca-

laureate/associate degree category, 2 semester hours in small-appliance repair and 3 for field experience in management, for a minimum total of 5 semester hours; *if the duty position was equipment repair foreman, chemical equipment repair foreman, or protection mask repair foreman,* 3 semester hours in shop management, for a total of 8 semester hours (5/78).

MOS-63Z-001

Mechanical Maintenance Supervisor

63Z50

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 633 (Machinery Maintenance).

Description

Supervises organizational, direct, and general support maintenance on all types of mechanical equipment; assists in making plans and establishing policies and procedures for maintenance units; plans facilities and workflow; assigns duties; instructs in maintenance work techniques; evaluates performance of lower grade personnel; interprets company policy and standard operating procedures; assists in accomplishing unit training. NOTE: May have progressed to 63Z50 from Skill Level 40 of any MOS in the mechanical maintenance career management field (63).

Recommendation

In the vocational certificate category, 3 semester hours in personnel supervision, 3 in records administration, and 3 in leadership, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in records administration, 3 in leadership, and 3 for field experience in management, and additional credit on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 6 for field experience in management, and additional credit on the basis of institutional evaluation, for a minimum total of 9 semester hours (12/75).

MOS-64C-001

Motor Transport Operator

64C20
64C30
64C40
64C50

Exhibit Dates: 10/73–2/76.

Career Management Field: 65 (Transportation), *subfield* 652 (Motor Transport).

Description

Summary: Operates wheel vehicles to transport personnel and cargo. *Skill Level 20:* Operates single-unit wheel vehicles with a capacity of five tons or less in all conditions of light, weather, and terrain; knows safety rules and practices; insures proper loading of vehicle; performs simple vehicular maintenance; keeps records of operation and performance; may serve as chauffeur or dispatcher. *Skill Level 30:* Able to perform the duties required for Skill Level 20; operates vehicles with a capacity of over five tons such as tractor-trailers and tank trucks. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises motor pool activities; schedules, routes, and controls movements of motor transport equipment. *Skill Level 50:* Able to perform the duties required for Skill Level 40; evaluates motor transport operations; assists in planning, coordinating, and supervising all supporting activities; prepares studies, routine and special reports, and records on motor transport operations; supervises personnel and technical operations.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in motor vehicle operation (single-unit truck) (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in motor vehicle operation (tractor-trailer) (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in motor vehicle operation (all road vehicles). In the lower-division baccalaureate/associate degree category, 6 semester hours in motor transportation (management) and 3 in motor maintenance (management) (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, 9 semester hours in motor vehicle operation (all road vehicles). In the lower-division baccalaureate/associate degree category, 9 semester hours in motor transportation (management), 6 in motor maintenance (management), and 6 for field experience in education (driver training), for a total of 21 semester hours (2/75).

MOS-64C-002

Motor Transport Operator

64C10
64C20
64C30
64C40

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 641 (Surface Operations).

Description

Summary: Operates wheel vehicles to transport personnel and cargo. *Skill Level 10:* Operates single-unit wheel vehicles with a capacity of five tons or less in all conditions of light, weather, and terrain; knows safety rules and practices; insures proper loading of vehicle; performs simple vehicular maintenance; keeps records of operation and performance; may serve as chauffeur or dispatcher; depending on the type of unit to which assigned, may also perform the same duties for tractors, semitrailers, tank transporters, and other vehicles with a capacity of more than five tons. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small motor transport activity; participates in convoy operations and organization, including planning, the establishment of control measures, and the observance of civil laws and pertinent military regulations; reviews and prepares operations reports; determines the number of vehicles required for a given operation; schedules route and controls movements of motor transport equipment; may perform or direct driver testing functions. *Skill Level 40:* Performs the duties required for Skill Level 30 in the supervision of a large motor transport activity.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in motor vehicle operation (single-unit truck) and, *if the duty assignment was heavy vehicle driver (tractor-trailer),* 3 additional semester hours in motor vehicle operation (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in motor vehicle operation (single-unit truck) and, *if the duty assignment was heavy vehicle driver (tractor-trailer),* 4 additional semester hours in motor vehicle operation (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in motor vehicle operation (single-unit truck) and, *if the duty assignment was heavy vehicle driver (tractor-trailer),* 4 additional semester hours in motor vehicle operation. In the lower-division baccalaureate/associate degree category, 6 semester hours in motor transportation management and 3 in motor maintenance management, for a minimum total of 9 semester hours, and *if the duty assignment was driver test sergeant,* 3 semester hours for an internship in education (driver training), for a maximum total of 12 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 8 semester hours in motor vehicle operation (all road vehicles). In the lower-division baccalaureate/associate degree category, 6 semester hours in motor transportation management, 3 in motor maintenance management, 3 in personnel supervision, 3 in human relations, and 3 for field experience in management, for a minimum total of 18 semester hours, and *if the duty assignment was driver test sergeant,* 3 semester hours for an internship in education (driver training), for a maximum total of 21 semester hours (5/76).

MOS-64Z-001

Transportation Senior Sergeant

64Z50

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 641 (Surface Operations).

Description

Supervises operation and control of movement of personnel and cargo by air, rail, motor transport, and water; prepares tactical plans and training material; evaluates transportation operations; assists in planning, coordinating, and supervising all supporting activities; prepares studies, routine and special reports, and records on transportation operations; supervises personnel and technical operations. NOTE: The job description for 64Z50 reflects recent changes and indicates proficiency in MOS 71N40 (Traffic Management Coordinator) 64C40 (Motor Transport Operator), and 57H40 (Terminal Operations Coordinator). However, personnel currently (May 1976) holding MOS 64Z50 may not possess expertise in all these MOS's. With the additional experience and training that is planned, personnel should be fully qualified in the near future.

Recommendation

In the vocational certificate category, 9 semester hours in transportation operations. In the lower-division baccalaureate/associate degree category, 9 semester hours in transportation operations, 3 in records administration, and 3 in report writing, for a total of 15 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 for field experience in education, for a total of 12 semester hours (5/76).

MOS-65B-001

Locomotive Repairer
(Locomotive Repairman)

65B10
65B20
65B30
65B40

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 643 (Railway Operations).

Description

Summary: Supervises or enforces maintenance on nonelectric sections of locomotives. *Skill Level 10:* Inspects locomotives to diagnose malfunctions; dismantles, inspects, overhauls, and repairs broken, worn, or malfunctioning parts; accompanies locomotive operator on test runs and observes functions of locomotives; cleans and lubricates components as required; performs technical inspections on locomotives and auxiliary equipment to insure proper maintenance has been performed; interprets technical drawings and sketches. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs initial and final inspections on locomotives scheduled for maintenance; supervises and instructs repairmen in methods and techniques of repairs; enforces safety practices; prepares technical reports on locomotives and estimates personnel, supplies, parts, and equipment necessary to restore locomotives, tanks, and tank cars to efficient operating condition; plans, organizes, and coordinates work activity of subordinates engaged in maintaining, inspecting, and repairing locomotives and auxiliary equipment. *Skill Level 40:* Able to perform duties of 65B30 or 65F30 (Locomotive Electrician); supervises or controls repairs of mechanical and electrical portions of locomotives.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in locomotive maintenance (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in locomotive maintenance (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 9 semester hours in management and supervision of locomotive maintenance (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 9 semester hours in management and supervision of locomotive maintenance, 3 in personnel supervision, and 3 in industrial management, for a total of 15 semester hours (5/76).

MOS-65D-001

Railway Car Repairer
(Railway Car Repairman)

65D10
65D20
65D30
65D40

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 643 (Railway Operations).

Description

Summary: Supervises or performs maintenance on railway passenger, freight, and hospital cars. *Skill Level 10:* Dismantles and reassembles major components and auxiliary equipment; examines wheels, axles, journals, journal bearings, and draft gear for structural and safety defects; inspects cars for defects which interfere with proper loading and makes necessary repairs; repairs handbrake mechanisms, gear ratchets, linkage, center sills, and body bolsters; straightens bent sections of bodies; paints and stencils railway cars; performs technical inspection of railway cars to insure proper maintenance; interprets technical blueprints and sketches; assists in salvage and rehabilitation of cars. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; inspects railway cars prior and subsequent to maintenance. *Skill Level 30:* Able to perform the duties required for 65D20 or 65E20 (Airbrake Repairman); plans, organizes, coordinates and supervises work activity of a railway car section team; instructs repairmen in proper maintenance techniques and safety procedures; calculates personnel and material requirements for specific repair work; maintains records and prepares detailed technical reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large repair facility (normally, a minimum of 39 lower skill level personnel) involved in repairing railway cars and airbrake systems of locomotives and cars.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in practices and procedures of railroad car repair (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 1 semester hour in personnel supervision (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 1 in technical writing, for a total of 7 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, and 1 in technical writing, for a total of 10 semester hours (5/76).

MOS-65E-001

Airbrake Repairer
(Airbrake Repairman)

65E10
65E20

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 643 (Railway Operations).

Description

Summary: Inspects, services, and repairs airbrake systems of locomotives and cars. *Skill Level 10:* Inspects airbrake components and system for defects; dismantles, cleans, and lubricates components; removes and replaces defective parts; tests and adjusts components for maximum efficiency of airbrake system; makes appropriate entries in parts and log books; prepares written reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower skill level personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in inspecting, servicing, and repairing airbrake systems (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in inspecting, servicing, and repairing airbrake systems (5/76).

MOS-65F-001

Locomotive Electrician

65F10
65F20
65F30

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 643 (Railway Operations).

Description

Summary: Supervises or performs repairs on electrical portions of diesel-electric systems of diesel electric locomotives. *Skill Level 10:* Inspects, dismounts, dismantles, cleans, repairs, and replaces defective components of electrical systems of diesel-electric locomotives, including generators, traction motors, auxiliary motors, reversers, contactors, relays, and regulators; load-tests repaired electrical components; restores commutator surfaces, rebands armatures, and repairs armature bearings; calibrates electric measuring instruments; reads schematic wiring diagrams. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises medium-sized activity involved in repairing electrical portions of electrical systems of diesel-electric locomotives; interprets complex wiring diagrams; prepares shop layouts; develops plans for utilization of personnel, materials, and equipment; conducts on-the-job training; requisitions tools, parts, and supplies.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in repair of electrical systems (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in repair of electrical systems (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in repair of electrical systems. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in shop management, and 3 in human relations, for a total of 9 semester hours (5/76).

MOS-65G-001

RAILWAY SECTION REPAIRER
(RAILWAY SECTION REPAIRMAN)

65G10
65G20
65G30
65G40

Exhibit Dates: 3/76-Present.

Career Management Field: 64 (Transportation), *subfield* 643 (Railway Operations).

Description

Summary: Performs and/or supervises maintenance, repair and clean-up of railway tracks, roadbeds, switches, and other railway facilities. *Skill Level 10:* Performs inspection, repair, clean-up, and maintenance of railway right-of-way and adjoining structures including switches, signals, degree of elevation, track curvature, and tie spacing; controls the issuing of repair and maintenance equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; determines need for repair and construction equipment and arranges for movement to job site; conducts on-the-job training in minor repairs, emphasizing safety to both trained and work repair crews; supervises limited size maintenance, repair, and clean-up crews. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises medium-sized crews (normally 29-38 subordinate personnel or 2 section gangs); adjusts work assignments to best reflect capabilities of subordinate personnel; prepares reports relating to the maintenance, repair, and clean-up of railway right-of-way facilities. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the maintenance, repair, and clean-up activities of a large-scale railway facility, normally consisting of more than 39 subordinate personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 5 semester hours in railroad operations (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in railroad operations (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 7 semester hours in railroad operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 9 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 7 semester hours in railroad operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 6 for field experience in management, for a total of 12 semester hours (5/76).

MOS-65H-001

LOCOMOTIVE OPERATOR

65H10
65H20
65H30
65H40

Exhibit Dates: 3/76-Present.

Career Management Field: 64 (Transportation), *subfield* 643 (Railway Operations).

Description

Summary: Operates steam, electric, and diesel-electric locomotives and related equipment. *Skill Level 10:* Operates steam, electric, and diesel-electric locomotives and related equipment; fires and sustains steam pressure by either hand or stoker firing of coal-burning locomotives; and assists in performing the duties required for Skill Level 20. *Skill Level 20:* Able to perform the duties required for Skill Level 10; interprets specific operating instructions; efficiently operates locomotives and trains, observing appropriate gauges and meters; lubricates moving parts of locomotive; interprets and executes operating instructions; inspects equipment for proper operating condition; interprets train orders; compiles performance and delay reports for each trip; submits locomotive inspection reports, noting needed corrective action for defects. *Skill Level 30:* Able to perform the duties required for Skill Level 20; reviews operation and inspection reports; investigates schedule delays, accidents, and unusual operating incidents and recommends corrective action; assigns specific duties to locomotive operators and other crewmen, and monitors performance of these personnel; provides on-the-job training; enforces safety procedures; coordinates maintenance of locomotives; prepares technical, personnel, and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operation of steam, electric, and diesel-electric locomotives and related equipment.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in steam, electric, and diesel-electric mechanics, 3 in operation and maintenance of locomotive engines, and 3 in railway safety, for a total of 9 semester hours (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in operation and maintenance of locomotive engines, 3 in steam, electric, and diesel mechanics, and 3 in railway safety, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 in report writing, and 1 in safety, for a total of 10 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, 3 for field experience in management, 3 in report writing, and 1 in safety, for a total of 13 semester hours (5/76).

MOS-65J-001

TRAINMAN

65J10
65J20
65J40

Exhibit Dates: 10/73-2/76.

Career Management Field: 65 (Transportation), *subfield* 654 (Railway).

Description

Summary: Serves as yardmaster, conductor, or brakeman in the make-up and movement of railway cars and trains. *Skill Level 10:* Assists in disassembly, cleaning, and reassembly of major components of locomotives and cars; moves tools and supplies to and from worksites; positions and braces heavy material or parts for repairmen; lubricates locomotives and cars; services storage batteries. *Skill Level 20:* Performs as brakeman in car coupling and uncoupling operations; lubricates cars and insures that they are properly loaded, braced, and lashed; prepares reports, lists, and records of yard and road railway operations. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises brakeman operations and serves as conductor and yardmaster in the movement and makeup of railway cars and trains; receives and prepares required train orders, forms, and records, conducts on-the-job training of subordinates.

Recommendation, Skill Level 10

Credit on the basis of institutional evaluation. NOTE: Skill Level 10 was not evaluated during the time period of this exhibit, because it was added to MOS 65J in 3/75, one month after Skill Levels 20 and 40 were evaluated.

Recommendation, Skill Level 20

In the vocational certificate category, 7 semester hours in railroad operation (brakeman) (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in railroad operation (conductor and yardmaster). In the lower-division baccalaureate/associate degree category, 6 semester hours in management (2/75).

MOS-65J-002

TRAIN CREW MEMBER
(TRAINMAN)

65J10
65J20
65J30
65J40

Exhibit Dates: 3/76-Present.

Career Management Field: 64 (Transportation), *subfield* 643 (Railway Operations).

Description

Summary: Serves as yardmaster, conductor, or brakeman in the make-up and movement of railway cars and trains. *Skill Level 10:* Performs as a brakeman; receives orders for switching and performs car coupling and uncoupling operations; applies safety rules; gives and interprets railway signals for train control and operation; places placarded cars in trains and insures that cars are properly loaded and lashed for safe handling; prepares and interprets train orders; prepares reports and forms for yard and railway operations; inspects rolling stock to determine operating condition. *Skill Level*

20: Able to perform the duties required for Skill Level 10; serves as a conductor; supervises the operation of a railroad train and coordinates train movements; reviews and interprets train orders and time tables; instructs and supervises enginemen and brakemen in connecting and disconnecting trains and cars and switching cars to sidings or spurs. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as an assistant yardmaster; supervises and trains personnel in railway yard operation, including the handling, classification, and switching of trains and cars; maintains record of daily movement of railway cars; assures adherence to railway safety procedures; reviews, consolidates, and prepares technical, personnel, and administrative reports covering railway yard activities. *Skill Level 40:* Supervises railway yard operations by performing the duties required for Skill Level 30 at a higher level, normally supervising two Skill Level 30 yardmasters.

Recommendation, Skill Level 10

In the vocational certificate category, 7 semester hours in the make-up and movement of railway cars and trains (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in the make-up and movement of railway cars and trains. In the lower-division baccalaureate/associate degree category, 1 semester hour in personnel supervision (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 13 semester hours in the make-up and movement of railway cars and trains. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 in human relations (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 13 semester hours in the make-up and movement of railway cars and trains. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 6 for field experience in management, for a total of 12 semester hours (5/76).

MOS-65K-001

RAILWAY MOVEMENT COORDINATOR

65K10
65K20
65K30
65K40

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 643 (Railway Operations).

Description

Summary: Supervises train dispatching or operates railway stations, railway signals and switches, and assists in control and coordination of train movements. *Skill Level 10:* Accounts for car and train movements by compiling records reflecting locations of all rolling stock; keeps records of arriving and departing trains; computes operational and statistical reports on traffic volume, demurrage, expediting, and train movements; requisitions cars, supervises loading, compiles and checks bills of lading (waybills) and seals cars; receives requisitions for empty cars and directs movement to loading areas; establishes liaison with other operating personnel and civilian carrier operating personnel to insure safe and prompt handling of freight. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises receipt and transmission of messages relating to train movements; reviews transit time; coordinates and arranges for train crews; establishes close liaison with representatives of civilian and military railroads; supervises on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; provides staff supervision to lower-grade personnel in railway operating activities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in traffic and transportation or in physical distribution management (5/76).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in traffic and transportation or in physical distribution management (5/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in traffic and transportation or in physical distribution management and 1 in personnel supervision (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in traffic and transportation or in physical distribution management, 3 in personnel supervision, and 3 in human relations, for a total of 12 semester hours (5/76).

MOS-65Z-001

RAILWAY SENIOR SERGEANT

65Z50

Exhibit Dates: 10/73–Present.

Career Management Field: 64 (Transportation), *subfield* 643 (Railway Operations).

Description

Supervises and coordinates maintenance-of-way and maintenance of equipment and railway operations, including the overall supervision of 65B40 (Locomotive Repairman), 65D40 (Railway Car Repairman), 65G40 (Railway Section Repairman), 65H40 (Locomotive Operator), 65J40 (Trainman), and 65K40 (Railway Movement Coordinator) personnel; advises superiors on all matters relating to operations, maintenance, and repair; monitors and controls railway passenger and freight traffic; prepares operational reports, training material, and programs.

Recommendation

In the upper-division baccalaureate category, 3 semester hours in records administration, 3 in personnel management, 3 in human relations, 3 for field experience in management, 3 in maintenance management, 3 in introduction to management, and 6 in transportation management, for a total of 24 semester hours (5/76).

MOS-67B-001

O-1/U-6 AIRPLANE REPAIRMAN

67B20
67B40

Exhibit Dates: 9/75–2/77. (Effective 3/77, MOS 67B was discontinued and its functions were incorporated into MOS 67G, Airplane Repairer.)

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance, excluding any repair of system components, on 0-1 and U-6 airplanes; supervises or serves as crewman in target aircraft units. *Skill Level 20:* Readies, assists in launching, and conducts scheduled and special inspections of target aircraft; diagnoses operational defects, services systems, and adjusts or replaces parts or assemblies as authorized by maintenance doctrine and maintenance allocation charts; tightens, adjusts, removes, and replaces components, assemblies and subassemblies with common and special tools and precision measuring instruments; removes and replaces defective engine carburetors, fuselage components, seat belts, shoulder harnesses, seats, upholstery, propeller accessories, hydraulic system components, gages, and instruments; adjusts and replaces electrical system components; installs spark plugs, engines, cowlings, horizontal and vertical stabilizers, battery, wing, parachute, and parachute release mechanism on target aircraft for launching; maintains target aircraft engines, airframes, and wings; performs preflight checkout of target aircraft. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel involved in the launch, remote control, and recovery of target aircraft; plans work flow; applies production control, quality control, and other maintenance management principles and procedures to shop operations; keeps records on aircraft maintenance operations; estimates man-hour and parts requirements to repair airplanes and associated equipment; performs duties of airfield service supervisor; conducts on-the-job training; prepares, reviews, and consolidates technical and administrative reports pertaining to target aircraft equipment maintenance.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in basic airframe maintenance. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology or aviation maintenance management (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in basic airframe maintenance, 3 in shop procedures and practices, and 1 in technical writing, for a total of 10 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in aviation maintenance management or airframe systems management, 3 in shop procedures and practices, 3 in personnel supervision, 1 in technical writing, and 1 in records administration, for a total of 14 semester hours. In the upper-division baccalaureate category, *if the duty assignment was maintenance supervisor section chief, section sergeant, or maintenance supervisor platoon sergeant,* 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management, for a total of 6 semester hours (11/75).

MOS-67C-001

U-1A AIRPLANE REPAIRMAN

67C20

67C40

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 67C was discontinued and its functions were incorporated into MOS 67G, Airplane Repairer.)

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance, excluding any repair of system components, on U-1A airplanes. *Skill Level 20:* Performs maintenance on airplanes, including inspecting, checking, troubleshooting, and repairing malfunctions in the airframe, powerplant, and their associated systems; uses common and special tools and precision measuring instruments; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints; loads, lashes, and unloads cargo. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises organizational, direct, and general support maintenance activities and applies production control, quality control, and other maintenance management principles and procedures to shop operations; evaluates damage and estimates man-hour and parts requirements to repair airplanes and associated equipment; instructs lower skill level personnel in safety principles and procedures; prepares forms, records, and reports on aircraft maintenance operations.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in basic airframe maintenance. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology or aviation maintenance management (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in basic airframe maintenance and 3 in shop practices and procedures. In the lower-division baccalaureate/associate degree category, 6 semester hours in aviation maintenance management or airframe systems management, 3 in shop practices and procedures, 3 in personnel supervision, and 1 in records administration, for a total of 13 semester hours. In the upper-division baccalaureate category, *if the duty assignment was either maintenance supervisor, section chief or maintenance supervisor platoon sergeant,* 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management, for a total of 6 semester hours (11/75).

MOS-67F-001

AIRPLANE TECHNICAL INSPECTOR

67F20

67F40

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 67F was discontinued and its functions were incorporated into MOS 67W, Aircraft Quality Control Supervisor.)

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs technical inspections on fixed-wing airplanes. *Skill Level 20:* Determines maintenance required and ensures that maintenance has been properly performed in accordance with prescribed standards; conducts operational checks and troubleshoots aircraft systems; advises repairmen on proper maintenance standards and procedures; maintains records and technical library; interprets technical publications and solves problems arising in aircraft maintenance and modification; applies quality control techniques. NOTE: Must be able to perform the duties of Skill Level 20 of any fixed-wing aircraft maintenance MOS. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is the principal non-commissioned officer in an aviation maintenance unit; applies quality control techniques and procedures to maintenance operations; plans, directs, schedules, and supervises aircraft inspection activities; instructs and advises personnel in inspection techniques and quality control procedures; evaluates damaged aircraft and estimates man-hour, personnel, and equipment requirements to repair fixed-wing aircraft.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance and 6 in technical electives. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 6 in technical electives (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 20 semester hours in aircraft maintenance, 6 in technical electives, and 5 in quality control, for a total of 31 semester hours. In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 6 in technical electives, 5 in quality control, and 3 in personnel management, for a total of 34 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management, 6 in technical electives, and 3 in personnel management, for a total of 15 semester hours (11/75).

MOS-67G-001

U-8/U-21 AIRPLANE REPAIRMAN

67G20

67G40

Exhibit Dates: 10/73-2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Performs line and shop maintenance, excluding any repair of system components, on U-8 and U-21 airplanes. *Skill Level 20:* Performs maintenance on aircraft systems, ground support equipment, landing gear, power plant (reciprocating and turboprop) and related systems, hydraulic and related systems, propellers, flight controls, instruments, electrical systems, and accessories. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance; plans work flow; applies production control, quality control, and other maintenance management principles and procedures to line and shop operations; prepares records and reports on aircraft maintenance operations; utilizes and enforces safety principles and procedures.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in basic airframe maintenance. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology or in aviation maintenance management (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in basic airframe maintenance. In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, 4 semester hours in aviation maintenance management or in airframe systems management (2/75).

MOS-67G-002

AIRPLANE REPAIRER

67G10

67G20

67G30

Exhibit Dates: 3/77-Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises line and shop maintenance of light aircraft, excluding any repair of system components or conducts maintenance inspections. *Skill Level 10:* Performs maintenance and minor repair on aircraft systems, ground support equipment, accessories and appliances of fixed-wing light aircraft; prepares aircraft for extensive inspections by removing inspection plates, panels, floorboards, and auxiliary equipment; removes and replaces subsystem components including starters, generators, inverters, voltage regulators, lights, batteries, pumps, reservoirs, valves, hydraulic cylinders, and hoses; assists in removal and installation of subsystem assemblies such as engines, propellers, and main wheels; uses aircraft maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and serves as a crew chief on light fixed-wing aircraft; provides technical guidance to Skill Level 10 personnel; removes and replaces major components; performs maintenance operational checks; diagnoses and troubleshoots all systems on light fixed-wing aircraft; uses and interprets technical manuals, directives, work standards, and operational policies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may serve as a technical inspector on light fixed-wing aircraft; plans work flow; applies quality control principles and other maintenance management principles to shop and flight line operations; supervises and evaluates work performance in aircraft maintenance, supply, and safety techniques; assists in performing aircraft weight and balance checks.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in general aircraft maintenance and repair. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in general aircraft maintenance and repair. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in general aircraft maintenance and repair. In the lower-division baccalaureate/associate degree category, 4 semester hours in aviation maintenance technology, 2 in aviation maintenance management, 3 in human relations (or a management elective), and 2 in quality control, for a total of 11 semester hours; *if the duty position was maintenance supervisor section chief,* 3 semester hours in personnel supervision, for a total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management, for a total of 9 semester hours; *or* 9 semester hours in management electives (5/78).

MOS-67H-001

OV-1 Airplane Repairman

67H20

67H40

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 67H was discontinued and its functions were incorporated into MOS 67G, Airplane Repairer.)

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance, excluding any teardown repair of system components, on OV-1 airplanes. *Skill Level 20:* Performs maintenance on airplanes, including inspecting, checking, troubleshooting, and repairing malfunctions of components or units in the airframe, powerplant, and their associated systems; uses hand and power tools, special tools, precision measuring instruments, and diagnostic test equipment; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints. *Skill Level 40:* Able to perform the duties required for Skill Level 20; plans workflow; evaluates damage and estimates man-hour and parts requirements to repair OV-1 airplanes and associated equipment; applies production control, quality control, and other maintenance management principles and procedures to shop operations; prepares forms, records, and reports on aircraft maintenance operations; provides instruction in safety principles, procedures, and techniques.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic airframe maintenance or basic airplane maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in aviation maintenance technology or aviation maintenance management (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in basic airframe maintenance or basic airplane maintenance, 3 in shop practices and procedures, and 1 in records administration, for a total of 10 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in aviation maintenance management or airframe systems management, 3 in shop practices and procedures, 3 in personnel supervision, and 1 in records administration, for a total of 13 semester hours. In the upper-division baccalaureate category, *if the duty assignment was either maintenance supervisor section sergeant or maintenance supervisor platoon sergeant,* 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management, for a total of 6 semester hours (11/75).

MOS-67N-001

UH-1 Helicopter Repairman

67N20

67N40

Exhibit Dates: 10/73-2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance on UH-1 helicopters. *Skill Level 20:* Inspects, replaces, and repairs parts of the UH-1 helicopter; conducts scheduled and special inspections; troubleshoots and diagnoses all systems to detect malfunctions and isolate defective components; uses common and special tools and precision measuring instruments. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor; applies maintenance management principles and procedures to shop operations; prepares forms, records, and reports on aircraft maintenance operations; supervises a minimum of six subordinates; employs shop safety principles and procedures; evaluates damage and estimates repair requirements; does more complicated repair work; performs duties of airfield service supervisor.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic helicopter maintenance and 3 in shop practices and procedures. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 1 in records administration, and 2 in personnel supervision, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in management principles or personnel administration (2/75).

MOS-67N-002

Utility Helicopter Repairer

67N10

67N20

67N30

Exhibit Dates: 3/77-Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance on utility helicopters, excluding repairs of systems components, or conducts maintenance inspections. *Skill Level 10:* Assists in the removal and installation of subsystem assemblies such as engines, transmissions, gear boxes, rotor hubs, and rotor blades; prepares helicopters for extensive inspections and maintenance; assists in maintenance operational checks; performs maintenance on common and special tools and ground support equipment; uses maintenance forms and records; may perform duties of utility helicopter crew chief. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as utility helicopter crew chief; provides technical guidance to Skill Level 10 personnel; maintains ground support equipment; prepares maintenance forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises all maintenance on utility helicopters; plans work flow; applies production control, quality control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel, and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; evaluates work performance; monitors operational checks and test flights; assists in performing weight and balance checks; monitors maintenance operational checks and test flights; certifies airworthiness of the aircraft.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance, and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance, 2 in aviation maintenance management, 3 in human relations (or a management elective), and 2 in quality control, for a total of 13 semester hours; *if the duty position was maintenance supervisor section chief,* 3 semester hours in personnel supervision, for a total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management, for a total of 9 semester hours; *or* 9 semester hours in management electives (5/78).

MOS-67T-001

Tactical Transport Helicopter Repairman

67T10

67T20

67T30

Exhibit Dates: 9/78-Present. Pending evaluation.

MOS-67U-001

CH-47 Helicopter Repairman

67U20

67U40

Exhibit Dates: 10/73-2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises helicopter maintenance, excluding any teardown repair of system components, on CH-47 helicopters. *Skill Level 20:* Performs maintenance on helicopters, including inspecting, checking, troubleshooting, and repairing malfunctions of components or units in the airframe, powerplant, and their associated systems; uses hand and power tools, special tools, precision measuring instruments, and diagnostic test equipment; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities, applies production control, quality control, and other maintenance management principles and procedures to shop operations; evaluates damage and estimates man-hour and parts requirements to repair CH-47 helicopters and associated equipment; prepares forms, records, and reports on aircraft maintenance operations.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, and 1 in records administration, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, 3 in personnel supervision, and 1 in records administration, for a total of 16 semester hours. In the upper-division baccalaureate category, *if the duty assignment was either maintenance supervisor section chief or maintenance supervisor platoon sergeant,* 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management, for a total of 6 semester hours (11/75)

MOS-67U-002

Medium Helicopter Repairman

67U10
67U20
67U30

Exhibit Dates: 3/77-Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance on medium helicopters, excluding the repairs of systems components, or conducts maintenance inspections. *Skill Level 10:* Performs medium helicopter maintenance; assists in the removal and installation of subsystem assemblies such as engines, transmissions, gearboxes, rotor hubs, and rotor blades; prepares helicopters for major inspections; assists in maintenance operational checks; uses maintenance forms and records; may perform duties of medium helicopter crew chief. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; performs maintenance operational checks; performs all scheduled and special aircraft inspection maintenance tasks; prepares maintenance forms and records; maintains ground support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs maintenance on cargo (heavy) helicopters; may serve as aircraft technical inspector; plans work flow; applies quality control, production control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel, and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; assists in performing weight and balance checks; monitors maintenance operational checks and test flights; certifies airworthiness of the aircraft.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance, 2 in aviation maintenance management, 3 in human relations (or a management elective), and 2 in quality control, for a total of 15 semester hours; *if the duty position was maintenance supervisor section chief,* 3 semester hours in personnel supervision, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management, for a total of 9 semester hours; *or* 9 semester hours in management electives (5/78).

MOS-67V-001

OH-6/OH-58 Helicopter Repairman

67V20
67V40

Exhibit Dates: 3/74-2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance, excluding any teardown repair of system components. on OH-6/OH-58 helicopters. *Skill Level 20:* Performs maintenance on helicopters, including inspecting, checking, troubleshooting, and repairing malfunctions of components or units in the airframe, powerplant, and their associated systems; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints; loads, lashes, and unloads cargo. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities and applies production control, quality control, and other maintenance management principles and procedures to shop operations; prepares forms, records, and reports on aircraft maintenance operations.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, and 1 in records administration, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, 3 in personnel supervision, and 1 in records administration, for a total of 16 semester hours. In the upper-division baccalaureate category, *if the duty assignment was maintenance supervisor platoon sergeant,* 6 semester hours in aviation management, or 3 semester hours in introduction to management and 3 for field experience in management, for a total of 6 semester hours (11/75).

MOS-67V-002

Observation/Scout Helicopter
Repairer

67V10
67V20
67V30

Exhibit Dates: 3/77-Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs maintenance on observation/scout helicopters, excluding the repair of systems components, or conducts maintenance inspections. *Skill Level 10:* Performs maintenance on observation/scout helicopters; assists in the removal and installation of subsystem assemblies such as engines, transmissions, gearboxes, rotor hubs and rotor blades; prepares helicopters for major inspections; assists in maintenance operational checks; uses maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs maintenance operational inspection checks; troubleshoots rotor system malfunctions; performs all scheduled and special aircraft inspection maintenance tasks; prepares maintenance forms and records; maintains ground support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may serve as aircraft technical inspector; applies quality control, production control, and other maintenance management principles to shop, flight line, and supply operations; instructs personnel and conducts on-the-job training programs in helicopter maintenance, supply, and safety techniques; assists in performing weight and balance checks; monitors maintenance operational checks and test flights; certifies airworthiness of aircraft.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in basic helicopter maintenance. In the lower division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance, 2 in aviation maintenance management, 3 in human relations (or a management elective), and 2 in quality control, for a total of 15 semester hours; *if the duty position was maintenance supervisor section chief,* 3 semester hours in personnel supervision, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management; for a total of 9 semester hours; *or* 9 semester hours in management electives (5/78).

MOS—67W-001

Helicopter Technical Inspector

67W20

67W40

Exhibit Dates: 10/73-2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs technical inspections on rotary-wing aircraft and life support equipment. *Skill Level 20:* Performs technical inspections on rotary-wing aircraft to determine maintenance requirements and insure maintenance has been properly performed in accordance with prescribed standards; conducts operational checks and troubleshoots helicopter systems; advises repairmen on proper maintenance standards and procedures; maintains records and technical library; interprets technical publications and resolves problems arising in helicopter maintenance and modification; applies quality control techniques. NOTE: Required to have attained Skill Level 20 in at least one rotary-wing aircraft maintenance MOS (67N, U, V, X, or Y). *Skill Level 40:* Able to perform the duties required for Skill Level 20; acts as the principal non-commissioned officer in an aviation maintenance battalion, group, or higher headquarters for helicopter inspection; supervises maintenance personnel; plans, directs, and supervises aircraft inspection activities; instructs and advises personnel in inspection techniques and quality control procedures; evaluates damaged aircraft and estimates man-hour, personnel, and equipment requirements to repair helicopters.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance and 6 in technical electives. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 6 in technical electives (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 20 semester hours in aircraft maintenance, 6 in technical electives, and 5 in quality control, for a total of 31 semester hours. In the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance, 6 in technical electives, 5 in quality control, and 3 in personnel management, for a total of 34 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management, 6 in technical electives, and 3 in personnel management, for a total of 15 semester hours (2/75).

MOS-67W-002

Aircraft Quality Control Supervisor

67W30

67W40

Exhibit Dates: 3/77-Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Supervises or performs technical inspections on rotary-wing aircraft and life support equipment. *Skill Level 30:* Performs technical inspections on rotary-wing aircraft to determine maintenance requirements and insure maintenance has been properly performed in accordance with prescribed standards; conducts operational checks and troubleshoots helicopter systems; advises repairers on proper maintenance standards and procedures; maintains records and technical libraries, interprets technical publications and resolves problems arising in helicopter maintenance and modification; applies quality control techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as principal non-commissioned officer in an aviation maintenance unit; supervises maintenance personnel; plans, directs, and supervises aircraft inspection activities; instructs and advises personnel in inspection techniques and quality control procedures; evaluates damaged aircraft and estimates man-hour, personnel, and equipment requirements to repair helicopters.

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance and 6 for technical electives. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 6 for technical electives (5/78).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 20 semester hours in aircraft maintenance and 6 for technical electives. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management, 6 for technical electives, and 3 in production management, for a total of 15 semester hours (5/78).

MOS-67X-001

CH-54 Helicopter Repairman

67X20

67X40

Exhibit Dates: 10/73-2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises helicopter maintenance, excluding any teardown repair of system components, on CH-54 helicopters. *Skill Level 20:* Performs maintenance on helicopters, including inspecting, checking, troubleshooting, and repairing malfunctions of components or units in the airframe, powerplant, and their associated systems; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints; uses hand and power tools, precision measuring instruments, and diagnostic test equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities; applies production control, quality control, and other maintenance management principles and procedures to shop operations; prepares forms, records, and reports on aircraft maintenance operations; evaluates damage and estimates manhour and parts requirements to repair CH-54 helicopters and associated equipment; instructs in safety principles, procedures, and techniques.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, and 1 in records administration, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, 3 in personnel supervision and 1 in records administration, for a total of 16 semester hours. In the upper-division baccalaureate category, *if the duty assignment was either maintenance supervisor section chief or maintenance supervisor platoon sergeant,* 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management, for a total of 6 semester hours (11/75).

MOS-67X-002

Heavy Lift Helicopter Repairer

67X10

67X20

67X30

Exhibit Dates: 3/77-Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises helicopter maintenance, excluding repair of system components. *Skill Level 10:* Performs maintenance and repair, including preparation for inspections and heavy-lift helicopters; removes and replaces subsystem components such as wheels, tires, starters, generators, inverters, voltage regulators, valves, hydraulic cylinders, and hoses; assists in maintenance operational checks; uses maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; may serve as heavy lift helicopter crew chief; provides technical guidance to Skill Level 10 personnel; removes and replaces aircraft powerplant, powertrain components, flight controls, and flight control hydraulic components; troubleshoots rotor system malfunctions; performs maintenance operational checks; performs all scheduled and special inspection maintenance tasks; maintains ground support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans work flow; applies production control, quality control and other maintenance management principles to shop and flight line operations; prepares forms and records; performs technical inspections; certifies airworthiness of aircraft.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (heavy) (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 8 semester hours in basic helicopter maintenance (heavy). In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (heavy) and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 8 semester hours in basic helicopter maintenance (heavy). In the lower-division baccalaureate/associate degree category, 8 semester hours in basic helicopter maintenance (heavy), 2 in quality control, 2 in aviation maintenance management, and 3 in human relations, for a total of 15 semester hours; *if the duty position was maintenance supervisor section chief,* 3 semester hours in personnel supervision, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management, for a total of 9 semester hours; *or* 9 semester hours in management electives (5/78).

MOS-67Y-001

AH-1G Helicopter Repairman

67Y20
67Y40

Exhibit Dates: 10/73-2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises maintenance, excluding any teardown repair of system components, on AH-1G helicopters. *Skill Level 20:* Performs maintenance on helicopters, including inspecting, checking, troubleshooting, and repairing malfunctions of components or units in the airframe, powerplant, and associated systems; interprets wiring and schematic diagrams, complex technical instructions, plans, and blueprints; performs duties of crew chief. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities and applies production control, quality control, and other maintenance management principles and procedures to shop operations; prepares forms, records, and reports on aircraft maintenance operations; evaluates damage and estimates manhour and parts requirements to repair AH-1G helicopters and associated equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, and 1 in records administration, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 9 semester hours in basic helicopter maintenance, 3 in shop practices and procedures, 2 in personnel supervision, and 1 in records administration, for a total of 15 semester hours. In the upper-division baccalaureate category, *if the duty assignment was either maintenance supervisor section chief or maintenance supervisor platoon sergeant,* 6 semester hours in aviation maintenance management, or 3 semester hours in introduction to management and 3 for field experience in management, for a total of 6 semester hours (11/75).

MOS-67Y-002

Attack Helicopter Repairer

67Y10
67Y20
67Y30

Exhibit Dates: 3/77-Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Performs or supervises removal and installation of subsystem assemblies such as engines, transmissions, gearboxes, rotor hubs and rotor blades on attack helicopters or conducts techncial inspections. *Skill Level 10:* Assists in the performance of maintenance on helicopters, including inspecting, checking troubleshooting and repairing malfunctions of components or units in the airframe, powerplant, and associated systems; prepares helicopters for extensive inspection and maintenance; uses and performs user maintenance on common and special tools and ground support equipment; prepares and uses maintenance forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; troubleshoots rotor system malfunctions; prepares maintenance forms and records; maintains ground support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises maintenance; may perform as aircraft technical inspector; applies production control, quality control, and other maintenance management principles to shop and flight line operations; prepares forms, records and reports on helicopter maintenance and supply operations; instructs personnel in helicopter maintenance, supply and safety techniques; performs technical inspections of aircraft before, during, and after repair or modification; monitors maintenance operational checks and test flights; certifies airworthiness of aircraft; assists in performing aircraft weight and balance.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance and 2 in aviation maintenance management. In the upper-division baccalaureate category, 2 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in basic helicopter maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic helicopter maintenance, 2 in aviation maintenance management, 3 in human relations (or for a management elective), and 2 in quality control, for a total of 13 semester hours; *if the duty assignment was maintenance supervisor section chief,* 3 semester hours in personnel supervision, for a total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours in aviation maintenance management, 3 in personnel management, and 3 for field experience in management, for a total of 9 semester hours; *or* 9 semester hours in management electives (5/78).

MOS-67Z-001

Aircraft Maintenance Senior Sergeant

67Z50

Exhibit Dates: 10/73-2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Supervises fixed-wing aircraft and/or helicopter maintenance on any operational level with varying fleet sizes; plans, coordinates, and controls maintenance activities on a supervisory or management level in addition to participating in technical problem solving; when assigned to a unit in which no technical participation is involved, plans, coordinates, and controls personnel activities of varying organizational groups. NOTE: Must be able to perform the duties of Skill Level 40 of any MOS in the aviation maintenance career management field (67).

Recommendation

In the vocational certificate category, 20 semester hours in airframe maintenance (helicopter and fixed-wing), 20 in powerplant maintenance (helicopter and fixed-wing), and 20 in systems maintenance (helicopter and fixed-wing), for a total of 60 semester hours. In the lower-division baccalaureate/associate degree category, 15 semester hours in airframe maintenance (helicopter and fixed-wing), 15 in powerplant maintenance (helicopter and fixed-wing), 15 in systems maintenance (helicopter and fixed-wing), 9 in technical electives, 3 in industrial organization, and 3 in personnel supervision, for a total of 60 semester hours. In the upper-division baccalaureate category, 3 semester hours in airframe maintenance (helicopter and fixed-wing), 3 in powerplant maintenance (helicopter and fixed-wing), 3 in systems maintenance (helicopter and fixed-wing), 3 in technical electives, 3 in production management, and 9 in aviation maintenance management or 3 in introduction to management and 6 for field experience in management, for a total of 24 semester hours (11/75).

MOS–67Z–002

AIRCRAFT MAINTENANCE SENIOR SERGEANT

67Z40

67Z50

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 671 (Aircraft Maintenance).

Description

Summary: Supervises maintenance on fixed-wing aircraft and helicopters. *Skill Level 40:* Plans, coordinates, and controls maintenance activities; participates in technical problem-solving; supervises the preparation of work orders, requisitions, reports, and correspondence; applies production control and other maintenance management principles and procedures; advises in diagnosing complex malfunctions; assists in determining maintenance requirements; enforces shop safety principles and procedures. NOTE: May have progressed to 67Z40 from 67G30 (Airplane Repairer), 67N30 (Utility Helicopter Repairer), 67U30 (Medium Helicopter Repairer), 67V30 (Observation/Scout Helicopter Repairer), 67X30 (Heavy Lift Helicopter Repairer), or 67Y (Attack Helicopter Repairer). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as principal noncommissioned officer of an aircraft maintenance unit; plans and lays out aircraft maintenance areas and component repair shops and facilities; insures that proper maintenance techniques have been employed by use of quality assurance inspections; supervises and participates in preparation of studies, evaluations, special reports, and records pertaining to aircraft maintenance and components repair operations, training, and related activities; applies production, quality control, and other maintenance management principles and procedures; processes work orders and allocates maintenance responsibilities. NOTE: May have progressed to 67Z50 from 67Z40 or 68K40 (Aircraft Component Repair Supervisor).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in maintenance supervision. In the lower-division baccalaureate/associate degree category, 3 semester hours for technical electives, 3 in personnel supervision, 3 in human relations, and 3 for field experience in management, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in shop management, and 3 in introduction to management, for a total of 9 semester hours (5/78).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in shop management, and 3 in introduction to management, for a total of 12 semester hours (5/78).

MOS–68B–001

AIRCRAFT TURBINE ENGINE REPAIRMAN

68B20

68B30

68B40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Components Repair).

Description

Summary: Maintains aircraft turbine (jet) engines and components. *Skill Level 20:* Diagnoses and corrects single turbine engine malfunctions; disassembles engines and components, examines parts and components for wear or damage, determines the type and extent of repairs required, and reassembles engines and components; adjusts engines to operate at peak efficiency; uses and interprets technical publications; uses diagnostic equipment; preserves and stores turbine engine systems. *Skill Level 30:* Able to perform the duties required for Skill Level 20; reinstalls and rigs turbine engines on multiple turbine engine aircraft; performs modifications on multiple turbine engines. *Skill Level 40:* Able to perform the duties required for Skill Level 30; plans the utilization and work flow of resources and facilities; applies production control, quality control, and other maintenance management principles and procedures; prepares records and technical reports; instructs personnel in engine maintenance and safety procedures; supervises the final adjustment of aircraft turbine engines.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 15 semester hours in aircraft engine (turbine) maintenance and 6 in technical electives. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 16 semester hours in aircraft engine (turbine) maintenance and 6 in technical electives. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 16 semester hours in aircraft engine (turbine) maintenance, 6 in technical electives, and 3 in maintenance management, for a total of 25 semester hours. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

MOS–68B–002

AIRCRAFT POWERPLANT REPAIRER

68B10

68B20

68B30

Exhibit dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Component Repair).

Description

Summary: Performs or supervises maintenance on turbine engines and their components. *Skill Level 10:* Performs maintenance on turbine powerplants including assisting in powerplant removal; removes, replaces, services, prepares, preserves, and cleans engine assemblies or components; performs maintenance on ground support equipment; uses and performs maintenance on common and special tools; uses certain aircraft forms and records; prepares request for turn-ins and repair parts. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; applies troubleshooting techniques to diagnose malfunctions to specific engine components; disassembles, repairs, reassembles, adjusts, and tests turbine engine systems, subsystems and components; maintains select ground support equipment; performs maintenance on diagnostic equipment; prepares forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans work flow; applies production control, quality control, and other maintenance management principles and procedures to shop operations; prepares forms and records; conducts on-the-job training; supervises and evaluates work performance in powerplant maintenance; may serve as technical inspector; monitors shop and flight line safety.

Recommendation, Skill Level 10

In the vocational certificate category, 12 semester hours in turbine engine maintenance and 3 for technical electives. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (or 12 in turbine engine maintenance and 3 for technical electives) (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (or 12 in turbine engine maintenance and 3 for technical electives) and 3 in aviation maintenance management, for a total of 18 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (or 12 in turbine engine maintenance and 3 for technical electives), 3 in aviation maintenance management, 3 in quality control, 3 in flight safety, and 3 in human relations (or a management elective) for a minimum total of 27 semester hours; *if the duty assignment was aircraft powerplant repair supervisor section chief,* 3 semester hours in personnel supervision, for a total of 30 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 3 in personnel management, for a total of 9 semester hours (5/78).

MOS–68D–001

AIRCRAFT POWERTRAIN REPAIRMAN

68D20

68D40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs maintenance on aircraft powertrains and components. *Skill Level 20:* Diagnoses and locates malfunctions; removes, disassembles, repairs, and reinstalls powertrain components; insures proper clearances and alignment of parts utilizing shimming and precision measuring equipment; interprets technical literature, blueprints, and schematic diagrams; completes forms and maintains records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises up to 20 or more persons; plans work flow; applies production control, quality control, and other maintenance management principles and procedures to shop operations; instructs personnel in aircraft powertrain maintenance and safety techniques; supervises final alignment and adjustment of aircraft powertrain components.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in helicopter component maintenance and 3 in technical electives (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in helicopter component maintenance, 6 in technical electives, and 3 in maintenance management, for a total of 21 semester hours. In the upper-division baccalaureate category, 6 semester hours in helicopter component maintenance, 9 in technical electives, 3 in introduction to management, and 3 for field experience in management, for a total of 21 semester hours (11/75).

MOS-68D-002

Aircraft Powertrain Repairer

68D10
68D20
68D30

Exhibit Dates: 3/77-Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Component Repair).

Description

Summary: Performs maintenance and repair, or supervises maintenance on helicopter powertrain subsystems and components. *Skill Level 10:* Performs maintenance and tests; assists with inspections on helicopter powertrain subsystems and components; removes and replaces powertrain quills, transmissions-adapting parts, and rotary-wing hub oil tanks; obtains and prepares oil samples for analysis; applies corrosion preventive procedures; cleans, preserves, and stores components; performs maintenance on select ground support equipment; uses and performs maintenance on common and special tools; uses certain aircraft forms and records; prepares request for turn-in and repair parts. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; applies troubleshooting techniques to diagnose malfunctions; performs nondestructive inspections on aircraft components; disassembles, repairs, reassembles, adjusts, and tests powertrain components, systems, and subsystems; balances main and tail rotor hub assembly and aligns main rotor and hub assembly; performs maintenance on diagnostic equipment; prepares forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may serve as technical inspector; plans work flow; applies production control, quality control and other maintenance management principles; supervises and evaluates personnel work performance; conducts on-the-job training; monitors shop and flight line safety.

Recommendation, Skill Level 10

In the vocational certificate category, 12 semester hours in helicopter component maintenance and 3 for technical electives. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (or 12 in helicopter component maintenance and 3 for technical electives) (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technoloy (or 12 in helicopter component maintenance and 3 for technical electives), and 3 in aviation maintenance management, for a total of 18 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (or 12 in helicopter component maintenance and 3 for technical electives), 3 in aviation maintenance management, 3 in quality control, 3 in flight safety, and 3 in human relations (or a management elective), for a minimum total of 27 semester hours; *if the duty position was aircraft powertrain repair supervisor,* 3 semester hours in personnel supervision, for a total of 30 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 3 in personnel management (5/78).

MOS-68E-001

Aircraft Rotor and Propeller Repairman

68E20
68E30
68E40

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 68E was discontinued and its duties were incorporated into MOS 68B, Aircraft Powerplant Repairer; MOS 68D, Aircraft Powertrain Repairer; and MOS 68G, Aircraft Structural Repairer.)

Career Management Field: 67 (Aviation Maintenance), *Subfield* 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs maintenance on helicopter rotor blades, airplane propeller systems, and allied equipment. *Skill Level 20:* Performs maintenance on helicopter rotor blade assemblies and components; applies metal working and bonding techniques; balances and aligns main and tail rotor, applies hydraulic and electrical fundamentals in the repair, modification, and lubrication of propellers, rotor blades, assemblies and components; isolates malfunctions with special test equipment; utilizes non-destructive and precision test equipment; interprets technical literature, blueprints, and schematic diagrams; preserves and stores rotor blades and components; prepares forms, records, and reports; inspects and tests repaired units. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs direct and general support maintenance on fixed and constant speed propeller assemblies and components. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises direct and general support maintenance on helicopter rotor blades, airplane propeller systems and allied equipment; plans workflow in terms of resources and facilities; applies production control, quality control, and other maintenance management principles and procedures to shop operations; instructs personnel in rotor and propeller systems maintenance and safety techniques; supervises final alignment/adjustment of rotor and propeller systems.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in rotary wing and propeller maintenance and 3 in technical electives (11/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in rotary wing and propeller maintenance and 4 in technical electives (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in rotary wing and propeller maintenance, 6 in technical electives, and 3 in maintenance management, for a total of 21 semester hours. In the upper-division baccalaureate category, 6 semester hours in rotary wing and propeller maintenance, 9 in technical electives, 3 in introduction to management, and 3 for field experience in management, for a total of 21 semester hours (11/75).

MOS-68F-001

Aircraft Electrician

68F20
68F30
68F40

Exhibit Dates: 10/74-2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs maintenance on aircraft electrical/electronic systems and aircraft crew station instruments. *Skill Level 20:* Removes, disassembles, inspects, repairs, assembles, and reinstalls electrical/electronic elements of assemblies and components; applies troubleshooting techniques and diagnoses malfunctions in solid state and transistorized systems; repairs, replaces, splices, and solders electrical/electronic components; interprets technical literature, blueprints, and wiring schematic diagrams; prepares aircraft maintenance forms, records, and reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; applies principles of electricity, electronics, gyroscopic motion, pneumatics, and hydraulics applicable to the repair of aircraft instruments; performs technical inspections to insure that completed repairs meet prescribed specifications; uses forms and records designed for quality control. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises up to 20 or more persons; plans work flow; orients and instructs personnel and conducts on-the-job training programs in aircraft electrical/electronic and instrument system maintenance, supply, and safety techniques.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in aircraft electrical system maintenance and 3 in technical electives (11/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in aircraft electrical system maintenance and 4 in technical electives (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in aircraft electrical system maintenance, 6 in technical electives, and 3 in maintenance management, for a total of 21 semester hours. In the upper-division baccalaureate category, 6 semester hours in aircraft electrical system maintenance, 9 in technical electives, 3 in introduction to management, and 3 for field experience in management, for a total of 21 semester hours (11/75).

MOS-68F-002

Aircraft Electrician

68F10

68F20

68F30

Exibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Component Repair).

Description

Summary: Supervises or performs maintenance on aircraft electrical/electronic systems and aircraft crew station instruments. *Skill Level 10:* Removes and replaces electrical/electronic elements of assemblies and components, including electrical wiring, aircraft battery systems, and instruments; applies proper soldering techniques during circuitry repair; cleans, preserves, and stores electrical/electronic components and aircraft instruments; uses and performs maintenance on common and special tools; maintains and repairs ground support equipment; uses certain aircraft forms and records; prepares request for turn-in and repair parts. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; applies troubleshooting techniques to diagnose and localize malfunctions to specific electrical/electronic components including solid-state and transistorized subsystems; disassembles, repairs, reassembles, adjusts and tests electrical/electronic elements of assemblies and components; applies principles of pneudraulics applicable to troubleshooting of interfacing electropneudraulic systems and components; repairs and replaces printed circuits; repairs nickel-cadmium batteries; applies principles of electricity/electronics, gyroscopic motion, pneumatics, and hydraulics applicable to repair of aircraft instrument subsystems; performs maintenance on diagnostic equipment; prepares forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may serve as technical inspector; plans work flow; applies production control, quality control, and other maintenance management principles; supervises and evaluates personnel work performance; conducts on-the-job training; monitors shop and flight line safety.

Recommendation, Skill Level 10

In the vocational certificate category, 12 semester hours in aircraft electrical systems maintenance and repair and 3 for technical electives. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology and 3 in aviation maintenance management. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 15 semester hours in aviation maintenance technology, 3 in aviation maintenance management, 3 in quality control, 3 in flight safety, and 3 in human relations (or a management elective), for a minimum total of 27 semester hours; *if the duty position was aircraft electrician supervisor section chief,* 3 semester hours in personnel supervision, for a total of 30 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 3 in personnel management (5/78).

MOS-68G-001

Airframe Repairman

68G20

68G30

68G40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs line and shop maintenance; is proficient in repairing aircraft structures, reading blueprints and drawings, forming metals, welding, and painting. *Skill Level 20:* Makes airframe structural repairs by fabrication of new parts, by using approved fasteners, rivets, and special purpose bolts, and by welding; prepares airframe surfaces for painting. *Skill Level 30:* Able to perform the duties required for Skill Level 20; as a senior repairman, inspects airframes and components before, during, and after repair or modification to insure that prescribed specifications are met; does the more complicated repair work. *Skill Level 40:* Able to perform the duties required for Skill Level 30; as a first-line supervisor, oversees the repair of airframe structures; completes maintenance forms and records; plans work loads and work flow; assures quality and production control; instructs personnel in airframe maintenance and in safety regulations and techniques; applies management principles and procedures to shop operations.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in aviation maintenance technology or airframe structures. In the lower-division baccalaureate/associate degree category, 6 semester hours in aviation maintenance technology or aviation maintenance management. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management or aviation maintenance engineering technology (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in aviation maintenance technology or airframe structures. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance technology or aviation maintenance management. In the upper-division baccalaureate category, 9 semester hours in aviation maintenance management or aviation maintenance engineering technology (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in aviation maintenance technology or airframe structures and 3 in shop practices and procedures. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance technology or aviation maintenance management and 3 in personnel supervision. In the upper-division baccalaureate category, 9 semester hours in aviation maintenance management or aviation maintenance engineering technology and 3 in personnel administration (2/75).

MOS-68G-002

Aircraft Structural Repairer

68G10

68G20

68G30

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Component Repair).

Description

Summary: Supervises, inspects, or performs maintenance and repair of aircraft structure. *Skill Level 10:* Makes airframe structural repairs by fabrication of new parts, by using approved fasteners, rivets, special-purpose fasteners, and fiberglass materials; prepares airframe surfaces for painting; mixes and applies primers and paints to aircraft; uses and maintains shop tools and equipment; uses field and technical manuals to make specific repairs. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; inspects airframes and components before, during, and after repair or modification to insure that specifications are met; performs welding maintenance; uses precision measuring gauges and instruments; determines shop and bench stock requirements; prepares or assists in the preparation of requests for parts, tools, and supplies; interprets blueprints; coordinates work load; applies maintenance management principles and procedures to shop operations. *Skill Level 30:* Able to perform the duties required for

Skill Level 20; supervises maintenance; may perform technical inspections on aircraft structures and control surfaces; conducts and supervises on-the-job training; assures quality and production control; applies management principles and procedures to shop operations; may supervise from 6 to 19 persons; monitors shop and flight line safety.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in airframe structures, 3 for technical electives, and additional credit in airframe structures on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance technology (or 6 in airframe structures and 3 for technical electives), and additional credit in airframe structures or aviation maintenance technology on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance technology (or 6 in airframe structures and 3 for technical electives), and 3 in aviation maintenance management, and additional credit in airframe structures or aviation maintenance technology on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in airframe structures and 3 for technical electives, and additional credit in airframe structures on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 12 semester hours in aviation maintenance technology (or 9 in airframe structures and 3 for technical electives), 3 in aviation maintenance management, 3 in quality control, 3 in flight safety, and 3 in human relations (or a management elective), and additional credit in aviation maintenance technology or airframe structures on the basis of institutional evaluation, for a minimum total of 24 semester hours; *if duty position was aircraft structural repair supervisor section chief,* 3 semester hours in personnel supervision, for a total of 27 semester hours. in the upper-division baccalaureate category, 6 semester hours in aviation maintenance management and 3 in personnel management (5/78).

MOS-68H-001

AIRCRAFT HYDRAULICS REPAIRMAN

68H20
68H40

Exhibit Dates: 10/73–2/77.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Components Repair).

Description

Summary: Supervises or performs maintenance on aircraft hydraulic and pneumatic systems and components. *Skill Level 20:* Diagnoses and corrects hydraulic/pneumatic system and component malfunctions; examines parts and components; resurfaces valves and valve seats; hones, and polishes cylinders; replaces bushings, bearings, and sleeves on equipment; employs precision measuring instruments and gages; tests component functions with specialized liquid, gas, air, and vacuum test equipment; performs modifications; interprets technical literature and schematic diagrams; prepares aircraft maintenance forms, records, and reports. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises up to 20 or more persons; plans work flow; applies production control, quality control, and other maintenance management principles and procedures to shop operations; instructs personnel in aircraft hydraulic/pneumatic system and components maintenance and safety techniques; supervises final alignment and adjustment of aircraft hydraulic/pneumatic systems and components onto airframe.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in aircraft hydraulic system maintenance and 3 in technical electives (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 12 semester hours in aircraft hydraulic system maintenance, 6 in technical electives, and 3 in maintenance management, for a total of 21 semester hours. In the upper-division baccalaureate category, 6 semester hours in aircraft hydraulic system maintenance, 9 in technical electives, 3 in introduction to management, and 3 for experience in management, for a total of 21 semester hours (11/75).

MOS-68H-002

AIRCRAFT PNEUDRAULICS REPAIRER

68H10
68H20
68H30

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Component Repair).

Description

Summary: Supervises, inspects, or performs maintenance on aircraft hydraulic systems. *Skill Level 10:* Removes and installs tubing assemblies, hoses, valves, pressure transmitters, and switches; services filters, shock absorbers/struts; repairs tubing assemblies, hydraulic and pneumatic valves; flushes and bleeds hydraulic systems; uses and performs maintenance on common and special tools; prepares request for turn-in and repair parts; uses certain aircraft forms and records. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; applies troubleshooting techniques to diagnose and localize malfunctions to hydraulic systems, subsystems, and components; disassembles, repairs, reassembles, adjusts, and tests hydraulic systems, subsystems, and components; maintains selected items of ground support equipment; prepares forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; applies production/quality control and maintenance management principles and procedures to shop operations; plans workflow; conducts and supervises on-the-job training; may perform technical inspections of electrical/electronic and subsystems components before, during, and after repair or modification; may supervise from 6 to 19 persons.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in aircraft hydraulic system maintenance and 3 for technical electives and additional credit in aircraft hydraulic system maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance technology (or 6 in aircraft hydraulic system maintenance and 3 for technical electives), and additional credit in aviation maintenance technology or aircraft hydraulic system maintenance on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 9 semester hours in aviation maintenance technology (or 6 in aircraft hydraulic system maintenance and 3 for technical electives) and 3 in aviation maintenance management, and additional credit in aviation maintenance technology or aircraft hydraulic system maintenance on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in aircraft hydraulic system maintenance and 3 for technical electives, and additional credit in aircraft hydraulic system maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 12 semester hours in aviation maintenance technology (or 9 in aircraft hydraulic system maintenance and 3 in technical electives), 3 in aviation maintenance management, 3 in quality control, 3 in flight safety, and 3 in human relations (or a management elective), and additional credit in aviation maintenance management or aircraft hydraulic system maintenance on the basis of institutional evaluation, for a minimum total of 24 semester hours; *if the duty position was aircraft pneudraulics repair supervisor section chief,* 3 semester hours in personnel supervision, for a total of 27 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation maintenance management, 3 in personnel management, for a total of 9 semester hours (5/78).

MOS-68J-001

HELICOPTER MISSILE SYSTEMS REPAIRER

68J10
68J20
68J30

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Component Repair).

Description

Summary: Maintains helicopter anti-tank missile systems, related fire control material and specialized test sets. *Skill Level 10:* Under close supervision, handles, stores, arms, prepares, loads, and unloads aircraft armament ammunition and missiles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs operational checks; removes, disassembles, repairs, assembles, installs, tests, and adjusts missile system, fire control, and supporting weapon components; tests, troubleshoots, and repairs special test sets and electronic, hydraulic, and mechanical components using schematics and technical drawings; implements authorized modifications; maintains records; demonstrates proper work procedures to lower skill level personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs in-depth maintenance of anti-tank missile, fire control, and supporting weapon subsystems; plans, establishes, and supervises on-the-job training; implements production, quality control, and safety procedures; may supervise from 5 to 9 persons.

Recommendation, Skill Level 10

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (5/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in electronics electives, 3 in use and care of tools and test equipment, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 6 semester hours (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electronics electives, 3 in use and care of tools and test equipment, 1 in safety, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics electives, 3 in use and care of tools and test equipment, 1 in safety, 1 in personnel supervision, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 8 semester hours; *if the duty position was Helicopter Missile System Repair Supervisor,* 1 additional semester hours in personnel supervision and credit in human relations on the basis of institutional evaluation (5/78).

MOS-68K-001

AIRCRAFT COMPONENTS REPAIR SUPERVISOR

68K40

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Component Repair).

Description

Able to perform the duties of Skill Level 30 in at least one of the following MOS's: 68B (Aircraft Power Plant Repairer), 68D (Aircraft Powertrain Repairer), 68F (Aircraft Electrician), 68G (Aircraft Structural Repairer), 68H (Aircraft Pneudraulics Repairer), 68J (Helicopter Missile Systems Repairer), or 68M (Helicopter Weapon Systems Repairer); supervises maintenance operations of aircraft components repair; plans work loads in terms of resources and facilities; applies production control, quality control, and other maintenance management principles to aircraft components repair; supervises and evaluates the work performance of a mimimum of 20 lower skill level personnel; orients and instructs lower skill level personnel; conducts on-the-job training programs.

Recommendation

In the upper-division baccalaureate category, 3 semester hours in maintenance management and 3 for field experience in personnel management (5/78).

MOS-68M-001

HELICOPTER WEAPONS SYSTEM REPAIRER

68M10

68M20

68M30

Exhibit Dates: 3/77–Present.

Career Management Field: 67 (Aviation Maintenance), *subfield* 672 (Aircraft Component Repair).

Description

Summary: Maintains helicopter armament subsystems, weapons, and specialized tests, excluding missile systems. *Skill Level 10:* Under close supervision, handles, stores, arms, prepares, loads, and unloads aircraft armament ammunition. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs operational checks; removes, installs, and adjusts armament subsystems, including electrical, hydraulic, and mechanical components; uses schematics and technical drawings; performs boresighting and alignment checks; implements modifications; maintains records; demonstrates proper work procedures to lower skill level personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs in-depth maintenance of helicopter armament systems and support equipment, excluding missile systems; plans, establishes, and supervises on-the-job training; implements production, quality control, and safety procedures; may supervise from 5 to 9 persons.

Recommendation, Skill Level 10

No recommendation because the skills, competencies, and knowledge are uniquely military in nature.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in use and care of tools and test equipment, 1 in precision measuring techniques, and credit in mechanical systems on the basis of institutional evaluation, for a minimum total of 4 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, and credit in mechanical systems on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in use and care of tools and test equipment, 2 in mechanical systems, 1 in precision measuring techniques, 1 in safety, and credit in electricity and hydraulics on the basis of institutional evaluation, for a minimum total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, 2 in a mechanical systems elective, 1 in personnel supervision, 1 in safety, and credit in electricity and hydraulics on the basis of institutional evaluation, for a minimum total of 7 semester hours; *if the duty position was Helicopter Weapons System Supervisor,* 1 additional semester hour in personnel supervision and credit in human relations on the basis of institutional evaluation (5/78).

MOS-71B-001

CLERK-TYPIST

71B10

71B20

71B30

Exhibit Dates: 10/73–8/77. (Effective 9/77, MOS 71B was discontinued and its functions were incorporated into MOS 71G, Medical Records Specialist, MOS 71L, Administrative Specialist, MOS 73C, Finance Specialist, and MOS 73D, Accounting Specialist.)

Career Management Field: 71 (Administration), *subfield* 711 (General Administration).

Description

Summary: Performs general clerical, typing, and related duties. *Skill Level 10:* Prepares letters and other office communications; handles mail, uses the telephone, and performs other office administrative functions; uses and maintains office machines and manages records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; types at a level comparable to that required upon completion of a beginning typing course. *Skill Level 30:* Able to perform the duties required for Skill Level 20; types at a level comparable to that required upon completion of an intermediate typing course.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office practices (12/74).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office practices and 3 in typing (12/74).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office practices and 6 in typing (12/74).

MOS-71C-001

STENOGRAPHER

71C20

71C30

Exhibit Dates: 10/73–8/77.

Career Management Field: 71 (Administration), *subfield* 711 (General Administration).

Description

Summary: Takes and transcribes dictation of correspondence, telephone conversations, meetings, and other information for typewritten records; prepares duplicating stencils and masters and operates stencil and fluid duplicators; acts as receptionist; schedules appointments; prepares correspondence, forms, memoranda, orders, circulars, and bulletins; maintains records and files; processes incoming and outgoing mail; performs other related clerical and administrative duties. *Skill Level 20:* Takes dictation at 90 to 120 words per minute and types at 45 or more words per minute. NOTE: may have progressed to 71C20 from 71B30 (Clerk-Typist). *Skill Level 30:* Takes dictation at 120 or more words per minute and types at 55 or more words per minute.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in

dictation and transcription, 4 in typing, 2 in business communications, 2 in filing and records management, 2 in clerical record keeping, 2 for field experience in office practice, 1 in business machines (duplicating), and 1 in office practice, for a total of 18 semester hours (11/75).

Recommendation, Skill Level 30

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in office management, 3 in business communications, 6 in communication skills, 2 in introduction to audio-visual equipment, and 2 in budget administration, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in office management, 3 in business communications, 6 in communication skills, 2 in introduction to audio-visual equipment, 2 in budget administration, and 3 in human relations, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in public relations (6/78).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in office management, 3 in business communications, 6 in communication skills, 2 in introduction to audio-visual equipment, and 2 in budget administration, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in office management, 3 in business communications, 6 in communication skills, 2 in introduction to audio-visual equipment, 2 in budget administration, 3 in human relations, and 3 in applied psychology, for a total of 22 semester hours. In the upper-division baccalaureate category, 3 semester hours in public relations (6/78).

MOS-71N-001

TRAFFIC MANAGEMENT COORDINATOR

71N10
71N20
71N30
71N40

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 641 (Surface Operations).

Description

Summary: Coordinates the departure and arrival of freight and personnel by air, rail, highway, and water. *Skill Level 10:* Performs clerical duties associated with the logistics of freight and personnel movements; issues government and civilian shipping documents, including freight bills, bills of lading, and freight manifest sheets; assists military members in the preparation of travel itineraries, personal property shipping documents, and passenger movement forms. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises medium-scale freight movement office; plans, directs, and controls operation of subordinate personnel; assists in the development of future transportation plans; supervises freight reconsignment, maintains liaison with military and civilian transportation facilities; reviews, consolidates and prepares reports covering transportation movement operations. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises personnel at a large-scale freight movement office; when requested, reviews recommendations concerning facilities and site selection for depots, terminals, and railheads; advises superiors on present and future transportation capabilities and technical problems.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in traffic and transportation or in physical distribution management (5/76).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in traffic and transportation or physical distribution management (5/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 4 semester hours in traffic and transportation or in physical distribution management, 3 in human relations, 3 in personnel supervision and additional credit in traffic and transportation or in physical distribution management on the basis of institutional evaluation, for a minimum total of 10 semester hours (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in traffic and transportation or in physical distribution management, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and additional credit in traffic and transportation or in physical distribution management on the basis of institutional evaluation, for a minimum total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management (5/76).

MOS-71P-001

FLIGHT OPERATIONS COORDINATOR

71P20
71P40
71P50

Exhibit Dates: 10/73–2/76.

Career Management Field: 65 (Transportation), *subfield* 655 (Air Operations).

Description

Summary: Schedules, clears, and dispatches aircraft. *Skill Level 20:* Prepares routing and flight orders; processes local and extended flight clearances; coordinates flight plans with other agencies such as FAA; maintains flight information board; keeps records and reports on flight operation activities; arranges ground services for transient aircraft; interprets weather reports and weather maps; understands and corrects aeronautical charts and publications used in navigation. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the scheduling, clearance, and dispatching of aircraft; plans and schedules work assignments; trains personnel; obtains instrument flight clearances; plans and supervises the movement of both personnel and cargo by air. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager responsible for either flight operations or overall operations of a unit such as a division aviation section or an operations section of an aviation battalion. NOTE: May have progressed to 71P50 from 71P40 or 93D40 (Flight Simulator Specialist).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in aircraft dispatching, 3 in aircraft operations management, and 2 in office practices, for a total of 8 semester hours. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, the lower-division baccalaureate/associate degree category, or the upper-division baccalaureate category, 6 semester hours in aircraft dispatching, 6 in aircraft operations management, 3 in personnel management, 3 in personnel training, and 2 in office practices, for a total of 20 semester hours (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, the lower-division baccalaureate/associate degree category, or the upper-division baccalaureate category, 6 semester hours in aircraft dispatching, 6 in aircraft operations management, 6 in personnel management, 6 in personnel training, and 2 in office practices, for a total of 26 semester hours (2/75).

MOS-71P-002

FLIGHT OPERATIONS COORDINATOR

71P10
71P20
71P30
71P40
71P50

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 644 (Air Operations).

Description

Summary: Schedules, clears, and dispatches aircraft. *Skill Level 10:* Processes cross-country and local flight clearances; coordinates flight plans with other agencies, such as the FAA; maintains flight information; prepares, types, and maintains records and reports on flight operations and activities; maintains current files on flying regulations and navigational aid information; arranges ground services for transient aircraft; interprets and posts teletype weather reports; understands terminology used in air navigation and is aware of air traffic control advisory procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises a small flight operations activity consisting of 5 to 12 subordinate personnel; schedules aircraft missions, dispatches aircraft, and performs associated administrative duties; plans and schedules work assignments of subordinate flight operations personnel; checks work of subordinates and instructs them in proper work techniques and procedures; reviews, consolidates, and prepares technical, personnel, and administrative reports; assists in preparing pre-accident plans. *Skill Level 30:* Performs the duties required for Skill Level 20 and supervises a medium-sized flight operations activity consisting of 13 or more subordinate personnel; provides technical guidance to subordinate personnel; supervises the preparation of the situation map; prepares operations letters; assists administratively in aircraft accident investigations; assists in the preparation of letters of agreement, operations estimates, and operations orders. *Skill Level 40:* Performs the duties required for Skill Level 30 and supervises a large flight operations activity. *Skill Level 50:* Able to perform the duties required for preceding skill levels; is a mid-level manager.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in aircraft dispatching, 3 in aircraft operations management, 3 in federal aviation regulations, and 2 in office practices, for a total of 11 semester hours (6/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in aircraft dispatching, 3 in aircraft operations management, 3 in federal aviation regulations, and 2 in office practices, and additional credit in personnel supervision on the basis of institutional evaluation, for a minimum total of 11 semester hours. In the upper-division baccalaureate category, credit in aviation management or air traffic operations on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft dispatching, 6 in aircraft operations management, 3 in federal aviation regulations, 3 in personnel supervision, 3 in organization and management, and 2 in office practices, for a total of 23 semester hours. In the upper-division baccalaureate category, credit in aviation management or air traffic operations on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft dispatching, 6 in aircraft operations management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in organization and management, 3 in human relations, and 2 in office practices, for a total of 29 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation management or air traffic operations and additional credit on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in aircraft dispatching, 6 in aircraft operations management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in organization and management, 3 in human relations, and 2 in office practices, for a total of 29 semester hours. In the upper-division baccalaureate category, 6 semester hours in aviation management or air traffic operations, 6 for field experience in management, 3 in introduction to management, and 3 in personnel management, and additional credit for an internship in education on the basis of institutional evaluation, for a minimum total of 18 semester hours (6/76).

MOS-71Q-001

Information Specialist

71Q20
71Q40
71Q50

Exhibit Dates: 10/73-2/77.

Career Management Field: 71 (Administration), *subfield* 715 (Information).

Description

Summary: Supervises or participates in the administration of information programs. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), or 71S (Attache Specialist). *Skill Level 20:* Serving as a reporter, is responsible for gathering information; preparing and editing news items, feature articles, and editorials for newspapers; preparing publicity releases and information releases; and taking, developing, and selecting photographs. Serving as an editor, edits news stories, prepares headlines and captions, plans format and layout, corrects and revises galley sheets, considers libel and copyright laws, makes reporter assignments. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises and coordinates an information program and trains subordinates in all aspects of journalism. *Skill Level 50:* Able to perform the duties required for Skill Level 40; coordinates the activities of a large information program involving several media.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in news reporting, 3 in feature writing, 3 in basic photography, 3 in publicity release writing, and 6 for field experience in journalism, for a total of 21 semester hours; *if the duty assignment was editor,* additional credit as follows: 3 semester hours for a practicum in news preparation, 3 for a practicum in news editing, 3 in layout and design, 3 for field experience in management, and 3 in personnel supervision, for a total of 36 semester hours (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20 for the duty assignment as editor (36 semester hours). In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in human relations, and 6 for field experience in public relations (5/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20 for the duty assignment as editor (36 semester hours). In the upper-division baccalaureate category, 3 semester hours in human relations, 3 in introduction to management, 3 in office management, 3 in records administration, 6 for field experience in management, and 6 for field experience in public relations, for a total of 24 semester hours (5/76).

MOS-71Q-002

Journalist

71Q10
71Q20
71Q30
71Q40

Exhibit Dates: 3/77-Present.

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Supervises or participates in the administration of information programs. *Skill Level 10:* Serving as a reporter, is responsible for gathering information; preparing and editing news items, feature articles, and editorials for newspapers; preparing publicity releases and information releases; and taking, developing and selecting photographs. Serving as an editor, edits news stories, prepares headlines and captions, designs format and layout, corrects and revises galley sheets, considers libel and copyright laws, and makes reporter assignments. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides guidance to Skill Level 10 personnel; coordinates news-gathering activities, and makes reporter assignments. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the administration of an information program and trains subordinates in all aspects of journalism, including circulation methods and business policies. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and coordinates the activities of a large information program involving several media; implements new programs.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 6 semester hours in news reporting, 3 in feature writing, 3 in basic photography, 3 in publicity release writing, 3 in continuity writing, and 3 for field experience in journalism, for a total of 21 semester hours; *if the duty assignment was editor,* additional credit as follows: 3 semester hours for a practicum in news preparation, 3 in personnel supervision, 3 in copy editing, and 3 in layout and design, for a total of 33 semester hours (5/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in news reporting, 3 in feature writing, 3 in basic photography, 3 in publicity release writing, 3 in continuity writing, 6 for field experience in journalism, 3 for a practicum in news preparation, 3 in personnel supervision, 3 in copy editing, 3 in layout and design, and 3 in human relations, for a total of 39 semester hours (5/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in news reporting, 3 in feature writing, 3 in basic photography, 3 in publicity release writing, 3 in continuity writing, 6 for field experience in journalism, 3 for a practicum in news preparation, 3 in personnel supervision, 6 in copy editing, 3 in layout and design, 3 in human relations, and credit in marketing on the basis of institutional evaluation, for a minimum total of 42 semester hours. In the upper-division baccalaureate category, 3 semester hours in advanced news reporting (5/78).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in news reporting, 3 in feature writing, 3 in basic photography, 3 in publicity release writing, 3 in continuity writing, 6 for field experience in journalism, 3 for a practicum in news preparation, 3 in personnel supervision, 6 in copy editing, 3 in layout and design, 3 in human relations, 3 in introduction to media program management, and credit in marketing on the basis of institutional evaluation, for a minimum total of 45 semester hours. In the upper-division baccalaureate category, 3 semester hours in advanced news reporting, 3 for field experience in management, and 3 in personnel management, for a total of 9 semester hours (5/78).

MOS-71R-001

Broadcast Specialist

71R20
71R40
71R50

Exhibit Dates: 10/73-2/77.

Career Management Field: 71 (Administration), *subfield* 715 (Information).

Description

Summary: Supervises or participates in the operation of a radio or television broadcast center. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), or 71S (Attache Specialist). *Skill Level 20:* Prepares scripts, announces, and gives play-by-play coverage of events; operates sound equipment and performs preventive maintenance. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as script supervisor, producer, and director of radio or television programs. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as station manager and coordinates programs and broadcast activities within the Armed Forces network.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast news writing, 3 in continuity writing, 3 in announcing, 3 in studio techniques, 3 for field experience in television production, and additional credit on the basis of institutional evaluation, for a minimum total of 15 semester hours (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast news writing, 3 in continuity writing, 3 in announcing, 3 in studio techniques, 3 for field experience in television production, 6 for television workshop, 3 in television directing, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a minimum total of 33 semester hours (5/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 6 in broadcasting/station management, and 3 in records administration, for a total of 18 semester hours (5/76).

MOS-71R-002

BROADCAST SPECIALIST

71R10
71R20
71R30
71R40

Exhibit Dates: 3/77-Present.

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Supervises or participates in the operation of a radio and television broadcast center. *Skill Level 10:* Prepares scripts; announces, performs, and gives play-by-play coverage of events; operates and performs preventive and emergency maintenance on sound equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as script supervisor, producer, and director of radio and television programs. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as station manager and coordinates programs and broadcast activities within the Armed Forces Network.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast newswriting, 3 in continuity writing, 3 in announcing, 3 in studio techniques, 3 in public speaking, 3 in oral interpretation, and 3 for field experience in television production, for a total of 21 semester hours (5/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast newswriting, 3 in continuity writing, 3 in announcing, 3 in studio techniques, 3 in public speaking, 3 in oral interpretation, 2 for field experience in television production, 3 in human relations, and 1 for field experience in broadcasting, for a total of 24 semester hours (5/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast newswriting, 3 in continuity writing, 3 in announcing, 3 in studio techniques, 3 in public speaking, 3 in oral interpretation, 3 for field experience in television production, 3 in human relations, 3 for field experience in broadcasting, 3 in documentary production, 3 in news and public affairs, 3 in personnel supervision, for a total of 36 semester hours (5/78).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast newswriting, 3 in continuity writing, 3 in announcing, 3 in studio techniques, 3 in public speaking, 3 for field experience in television production, 3 in oral interpretation, 3 in human relations, 3 for field experience in broadcasting, 3 in documentary production, 3 in news and public affairs, 3 in personnel supervision, and 6 for field experience in management, for a total of 39 semester hours. In the upper-division baccalaureate category, 6 semester hours in broadcast management, 3 in records administration, and 3 in personnel management, for a total of 12 semester hours (5/78).

MOS-71S-001

ATTACHE SPECIALIST

71S20
71S30

Exhibit Dates: 10/73-8/77. (Effective 9/77, MOS 71S was discontinued and its functions were incorporated into MOS 71L, Administrative Specialist.)

Career Management Field: 71 (Administration), *subfield* 711 (General Administration).

Description

Summary: Performs general administrative and office duties in support of Defense Army Attache office located in an embassy of the United States of America; able to perform the duties required for 71B20 (Clerk-Typist). *Skill Level 20:* Types at a minimum speed of 35 words per minute; drafts and assembles correspondence; answers or responds to inquiries; operates duplicating equipment; prepares, computes, and processes vouchers for payment; drives and performs operator maintenance on sedan; establishes and keeps administrative and intelligence files; uses intelligence procedures to route classified correspondence, to file intelligence data, and to safeguard classified information in the office; assists the attache in collecting, integrating, tabulating, writing, and disseminating intelligence information; prepares distribution lists for intelligence reports; types and proofreads intelligence reports; coordinates with United States intelligence and embassy personnel to facilitate the flow and exchange of intelligence information. *Skill Level 30:* Performs the duties required for Skill Level 20; performs cryptographic functions, including encrypting and decrypting messages, the preparation of reports on cryptographic operation, and the safeguarding of cryptographic materials; instructs less experienced personnel in proper work techniques and procedures.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in typing, 3 in office practices, 2 in filing, 2 in business communications, 2 in record keeping, and 1 in business machines (duplicating), for a total of 14 semester hours (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in typing, 3 in office practices, 2 in filing, 2 in business communications, 2 in record keeping, and 1 in business machines (duplicating), for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in typing, 3 in office practices, 2 in filing, 2 in business communications, 2 in record keeping, 1 in business machines (duplicating), 3 in human relations, and 3 for field experience in office management, for a total of 22 semester hours (5/76).

MOS-71U-001

CARD AND TAPE WRITER

71U20
71U40

See the exhibit for MOS 74B.

MOS-72B-001

COMMUNICATIONS CENTER SPECIALIST

72B10
72B20
72B30
72B40

Exhibit Dates: 10/73-9/74. (Effective 10/74, MOS 72B was discontinued and its functions were incorporated into MOS 72E, Telecommunications Center Specialist.)

Career Management Field: 72 (Communications and Audio Visual), *subfield* 721 (Communications Operations).

Description

Summary: Supervises communications center activities or operates automatic, semi-automatic, and manual teletypewriter equipment, cryptodevices, and related office equipment to send, receive, and route messages of a technical or classified nature. *Skill Level 10:* Performs as a messenger. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates teletypewriter and associated office equipment; maintains administrative records in a communications control center. *Skill Level 30:* Able to perform the duties required for Skill Level 20; is a senior telecommunications and office equipment operator working alone or as a member of a team; enforces security regulations; maintains records systems. *Skill Level 40:* Able to perform the duties required for Skill Levels 20 or 30; is a first-line supervisor of teletypewriter operators, with responsibility for the management of a medium-sized or large communications section; reviews machine accounting processes; plans, organizes, and coordinates use of personnel and equipment; may supervise 30 or more persons.

Recommendation, Skill Level 10

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (3/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in typewriting or office machine operation or technical report writing (3/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typewriting or office machine operation or technical report writing (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in typewriting or office machine operation and 3 in technical report writing. In the lower-division baccalaureate/associate degree category, 3 semester hours in typewriting or office machine operation, 3 in technical report writing, 3 in management, and 3 in personnel supervision, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in management and 3 in personnel supervision on the basis of institutional evaluation (3/75).

MOS-72C-001

CENTRAL OFFICE SWITCHBOARD OPERATOR (TELEPHONE SWITCHBOARD OPERATOR)

72C20
72C40

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 72 was discontinued and its functions were incorporated into MOS 36C, Wire Systems Installer/Operator.)

Career Management Field: 72 (Telecommunications).

Description

Summary: Supervises or performs operator maintenance on manual, semi-automatic, and automatic switchboards and auxiliary equipment. *Skill Level 20:* Assists in the implacement of mobile switchboards; places local and long distance calls; checks circuits to ascertain proper functioning; reads traffic and cabling diagrams; uses handtools, such as electrician's knife and screwdriver. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor; schedules operators; instructs operators on proper techniques and routing of calls; maintains updated traffic diagrams for operator reference; maintains station logs; requisitions supplies; supervises preventive maintenance on switchboards and auxiliary equipment; prepares operational and administrative reports.

Recommendation, Skill Level 20

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 3 for field experience in management, for a total of 9 semester hours (3/76).

MOS-72E-001

TELECOMMUNICATIONS CENTER SPECIALIST

72E10
72E20
72E30
72E40

Exhibit Dates: 10/74-2/78.

Career Management Field: 72 (Telecommunications).

Description

Summary: Supervises or operates telecommunications center equipment and remote data terminal devices or performs functions related to these operations. *Skill Level 10:* Processes and delivers messages and performs related clerical functions in telecommunications centers. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assigns switch center or telecommunications center equipment for operation; installs and operates teletypewriter equipment; performs and records preventive maintenance on all equipment utilized; reproduces and distributes messages. *Skill Level 30:* Able to perform the duties required for Skill Level 20; prepares and maintains the files necessary for accounting of cryptomaterial. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; is a first-line supervisor; coordinates work activities in a data communications terminal; makes work assignments; coordinates equipment phase-down in event of power failure; prepares, conducts, and supervises on-the-job training of subordinate personnel; reviews accounting procedures and recommends necessary improvements; provides technical information on communications center operations to superiors; prepares final reports.

Recommendation, Skill Level 10

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (3/76).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic electronics and 3 for field experience in communications center operations. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics (3/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in records administration (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in records administration, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (3/76).

MOS-72E-002

TELECOMMUNICATIONS CENTER OPERATOR

72E10
72E20
72E30
72E40

Exhibit Dates: 3/78-Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises or operates telecommunications center equipment and remote data terminal devices in either fixed-station or mobile mode; operates on-line and off-line cryptographic equipment for message security; receives, processes, and sends messages, including typing, using teletype, telegraph, and computer equipment. *Skill Level 10:* Receives, processes, and transmits messages, coded or uncoded; performs related clerical, typing, and administrative functions; installs and operates teletypewriter and automated data equipment; selects telecommunication equipment for on-line operation, prepares papertape and card messages, and uses security procedures for transmission; performs and maintains records of preventive maintenance on equipment and associated vehicles and generators; maintains message reference files. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises and performs administrative functions in telecommunciations centers, including preparing and maintaining files; applies secure procedures for handling of high-precedence material and cryptomaterial; advises shift supervisor; insures accurate and secure handling of messages, and prepares reports of telecommunication operations. NOTE: Duties may also include computer equipment training and operations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the operation of a fixed or mobile communication center and remote terminals; coordinates activities in the center and supervises training; prepares reports of center operations, conducts audits, and reviews of cryptomaterial; supervises 7 to 13 persons and evaluates their performances; coordinates routing of message traffic with switching centers. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operations of telecommunications center; coordinates organizational, training, and technical operations; supervises office management, including clerical, administrative, and accounting procedures; makes work assignments; supervises 14 or more personnel in telecommunications operations, and evaluates their capabilities, including written evaluation reports; provides technical information to commander and staff sections; prepares final periodic reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic electronics, 2 in communications electronics, and 2 in typing, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in communications electronics and 2 in typing (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electronics, 2 in communications electronics, 2 in typing, and 3 for field experience in communications center operations, for a total of 10 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in communications electronics, 2 in typewriting, and 3 in records administration, for a minimum total of 8 semester hours; *if duties included computer equipment operation,* 1 additional semester hour in computer operations, for a total of 9 semester hours (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in communications electronics, 2 in typing, 3 in records administration, and 3 in personnel supervision, for a minimum total of 11 semester hours; *if duties included computer equipment operation,* 1 additional semester hour in computer operations, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management (10/79).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electronics, 2 in communications electronics, 2 in typing, 3 for field experience in communications center operations, and 2 in office practices, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 in communications electronics, 2 in typing, 3 in records administration, 3 in personnel supervision, and 3 for field experience in office management, for a minimum total of 14 semester hours; *if* *duties included computer equipment operation,* 2 additional semester hours in computer operations, for a total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in office management (10/79).

MOS–72F–001

Data Communications Terminal Specialist

72F20

72F40

Exhibit Dates: 10/73–9/74. (Effective 10/74, MOS 72F was discontinued and its functions were incorporated into MOS 72E, Telecommunications Center Specialist.)

Career Management Field: 72 (Telecommunications).

Description

Summary: Operates communication terminal equipment, including teletypewriter, cards, tapes, and cryptographic and associated devices. *Skill Level 20:* Processes and delivers messages; reviews data presented for adherence to procedures, format, routing, and precedence for input to an automated data communications network; operates control equipment to integrate teletype systems with digital network; performs preventive maintenance on data communications terminal equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises data communications terminal operations, personnel, and equipment maintenance activities; prepares technical and administrative reports; conducts on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate or in the lower-division baccalaureate/associate degree category, 3 semester hours in communications equipment operation, 3 in digital data transmission, 3 in basic mathematics, 2 in typing, 1 in electronic communication theory, 1 in electronic equipment maintenance, 1 in digital principles, and 1 in AC and DC circuits, for a total of 15 semester hours (3/75).

Recommendation, Skill Level 40

In the vocational certificate or in the lower-division baccalaureate/associate degree category, 3 semester hours in communications equipment operation, 3 in digital data transmission, 3 in basic mathematics, 3 in office management, 3 in personnel supervision, 2 in typing, 1 in electronic communication theory, 1 in electronic equipment maintenance, 1 in digital principles, and 1 in AC and DC circuits, for a total of 21 semester hours; *if pay grade E-7 was achieved,* 3 additional credits for field experience in data communications (3/75).

MOS–72G–001

Data Communications Switching Center Specialist

72G20

72G40

72G50

Exhibit Dates: 3/75–2/78.

Career Management Field: 72 (Telecommunications).

Description

Summary: Operates and monitors data communications equipment and peripheral devices in an automatic digital message switching center. *Skill Level 20:* Operates data communication equipment, including system control to monitor and direct digital message switching center operations; processes and transmits messages; understands circuit and message switching capabilities of data communications switching center equipment; assigns computer and peripheral equipment configurations for message processing on-line operation, off-line operation, and maintenance functions; prepares messages for transmission in paper tape or card form; prepares system flow of data to and from digital computers connected to electromechanical devices; operates peripheral equipment such as card readers, card punches, magnetic tape stations, high-speed printers, control consoles, off-line message processor, and teletypewriters; prepares station logs, assures adequate supplies, keeps files, indexes tapes, and prepares in-station message-handling efficiency statistics. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a shift supervisor or traffic service supervisor; supervises switching center shift operations applicable to console and console traffic service operations, programming, technical control, and terminal activities; coordinates routing of traffic with other stations and equipment maintenance; directs and conducts on-the-job training; prepares reports on such topics as circuit and equipment outages, traffic statistics, software and hardware deficiencies, program patches, circuit restoral actions, and procedural problems. NOTE: May have progressed to 72G40 from 72G20 or 72E40 (Telecommunications Center Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a data communications supervisor or manager; performs office management functions; assists in problem-solving pertinent to programming, tributaries, equipment, maintenance, and administration; prepares administrative and technical reports on cryptographic and data communictions center operation; supervises organization, training, and technical operations. NOTE: May have progressed to 72G50 from 72G40, 72E40 (Telecommunications Center Specialist), 72H40 (Central Office Operations Specialist), or 72C40 (Central Office Switchboard Operator).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, or in the upper-division baccalaureate category, 3 semester hours in principles of data communications (6/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in princples of data communications, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in principles of data communications and 3 for field experience in management (6/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of data communications, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 3 in technical writing, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in principles of data communications, 3 for field experience in management, and 3 in introduction to management, for a total of 9 semester hours (6/76).

MOS–72G–002

Data Communications Switching Center Specialist

72G10

72G20

72G30

72G40

72G50

Exhibit Dates: 3/78–Present. Pending evaluation.

MOS–72H–001

Central Office Operations Specialist

72H20

72H40

Exhibit Dates: 10/74–2/78.

Career Management Field: 72 (Telecommunications).

Description

Summary: Supervises or operates switchboards and radio consoles providing communications to the President and other persons and offices of the executive branch of the government. *Skill Level 20:* Able to perform the duties required for 72C20 (Central Office Switchboard Operator); sets up and operates voice transmissions equipment to provide ground and air communications; makes continuity checks to ensure all local and nationwide circuits are working; maintains a roster showing current locations of staff, cabinet, and military officials and aides; maintains charts, circuitry logs, and worldwide locator systems pertaining to presidential communications networks; uses security regulations; employs proper telephone operator procedures; installs switchboards and radiophone interfaced equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises central office communications operations; initiates training programs and sets standards for training of central office personnel; oversees preventive maintenance of switchboard and auxiliary equipment; coordinates with telephone companies, both domestic and foreign, for placement of telephone service and long-line circuits; instructs and demonstrates proper work procedures and techniques; estimates traffic loads and equipment utilization; supervises the installation and maintenance of radio and telephone communications equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in elementary broadcasting, and 3 in small instrument repair, for a total of 9 semester hours (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in elementary broadcasting, 3 in small instrument repair, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in systems management (3/76).

MOS-72H-002

Central Office Operations Operator

72H10
72H20
72H30
72H40

Exhibit Dates: 3/78–Present. Pending evaluation.

MOS-73C-001

Finance Specialist

73C20
73C30
73C40

Exhibit Dates: 10/73–8/77.

Career Management Field: 71 (Administration), *subfield* 713 (Finance).

Description

Summary: Receives and disburses cash; keeps financial records pertaining to payroll, travel, commercial accounts, and leave. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), or 71S (Attache Specialist). *Skill Level 20:* Under supervision, disburses, collects, and keeps custody of cash, checks, and bonds; balances and reconciles cash blotter and check register; exchanges foreign currency and military payment certificates; counsels and assists persons with pay and allowance problems; reviews accuracy of data, coding, numbering, and processing of documents, correspondence, and computer input and output for the Army pay system; posts and annually reviews military leave records; keeps records and prepares reports for income taxes and FICA; prepares statements of legal residence; keeps pay accounts for civilian employees, including payroll control registrar and leave accounts; determines the validity of commercial bills by examining supporting and substantiating documents; processes valid bills for payment and keeps bills, register, and file of documents; prepares, processes, and makes payment of vouchers for supplies, equipment, and non-personnel services; applies computer-oriented language in recording data. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs quality assurance audits of pay, leave, travel, disbursement, and collection records; performs comprehensive reviews of on-site personnel financial records; detects errors, determines the causes, and initiates corrective changes; verifies procedures for examination and determination of entitlements; conducts pay inquiry analyses and procedural reviews; modifies procedures to improve efficiency, insure accuracy, and assure proper financial accountability; interprets and applies directives, regulations, and other legal requirements on civilian, military, and dependent personnel travel and dislocation allowances; interprets and applies Comptroller General decisions. *Skill Level 40:* Able to perform the duties required for Skill Level 30; as a first-line supervisor, plans and organizes work schedules, assigns duties, and instructs subordinates in proper work techniques and procedures; prepares administrative, technical, and personnel reports; provides liaison with finance organizations.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in business mathematics, 3 in government payroll procedures, 3 in business communications, 3 in introduction to credit, 2 in office practices, and 1 in typing, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 3 in government payroll procedures, 2 in office practices, 1 in typing, and 1 in personal finance and credit, for a total of 13 semester hours (3/75).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in business mathematics, 3 in government payroll procedures, 3 in office management, 3 in office accounting, 3 in introduction to credit, 3 in business communications, 2 in office practices, and 2 in typing, for a total of 22 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 3 in government payroll procedures, 3 in office management, 2 in office practices, 2 in typing, and 1 in personal finance and credit, for a total of 17 semester hours (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in business mathematics, 3 in government payroll procedures, 3 in office accounting, 3 in introduction to credit, 3 in business communications, 3 in report writing, 3 in office management, 2 in office practices, and 2 in typing, for a total of 25 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 3 in government payroll procedures, 3 in office management, 3 in personnel supervision, 3 in report writing, 2 in office practices, 2 in typing, and 1 in personal finance and credit, for a total of 23 semester hours (3/75).

MOS-73C-002

Finance Specialist

73C10
73C20
73C30
73C40

Exhibit Dates: 9/77–Present.

Career Management Field: 71 (Administration), *subfield* 713 (Finance).

Description

Summary: Completes forms, verifies data, computes amounts, and prepares reports of activity pertaining to pay, leave, travel, and personal finance records of military personnel. *Skill Level 10:* Determines entitlements to pay, prepares input, and verifies leave and earnings; prepares pay vouchers; verifies, corrects, and maintains files of personal financial records; operates calculator and other office equipment; answers inquiries from service members. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; computes, reviews, verifies, and corrects items related to travel reports and allowances; disburses, collects, and prepares reconciliation reports; performs quality assurance audits and special reviews, and reports findings. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may supervise from 4–18 lower skill level personnel; prepares reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; may supervise from 3–24 personnel in a large finance organization.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in business mathematics, 2 in office procedures, and 2 in office machines, for a total of 5 semester hours (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in business mathematics, 2 in office machines, and 3 in office procedures, for a total of 6 semester hours (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in business mathematics, 2 in office machines, 3 in office procedures, and 2 in office management, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in business mathematics, 2 in office machines, 3 in office procedures, 2 in office management, and credit in human relations on the basis of institutional evaluation, for a minimum total of 8 semester hours (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in business mathematics, 2 in office machines, 2 in business communications, 3 in office procedures, and 3 in office management, for a total of 11 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in business mathematics, 2 in office machines, 2 in business communications, 3 in office procedures, 3 in office management, and credit in human relations and personnel supervision on the basis of institutional evaluation, for a minimum total of 11 semester hours (6/78).

MOS-73D-001

Accounting Specialist

73D20
73D30
73D40

Exhibit Dates: 10/73–8/77.

Career Management Field: 71 (Administration), *subfield* 713 (Finance).

Description

Summary: Conducts fiscal accounting, internal review, and budget operations. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), or 71S (Attache Specialist). *Skill Level 20:* Under supervision, analyzes, records, reconciles, and reports accounting transactions; keeps general, subsidiary, and cost accounting ledgers, journals, and fund control records; keeps vouchers and other files to support ledger entries; prepares cost reports and correspondence concerning funds and supply transactions; reviews requests for funds for legality, conformity with policy, and availability; keeps control accounts of consumer funds, financial property, stock funds, and industrial funds. *Skill Level 30:* Able to perform the duties required for Skill Level 20; under supervision, performs budgeting and internal review operations at military bases and higher levels of command, advises superiors on policies and procedures pertaining to budgeting and internal review; assists superiors in the development of instructions for data collection and the preparation and analysis of budget reports;

prepares reports, estimates, and analyses required for budget management purposes. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; is a first-line supervisor; plans and coordinates all phases of accounting, internal review, and budget operations; instructs subordinates in work techniques and procedures; reviews subordinates' work; plans and coordinates with the data processing center all activities that pertain to mechanized accounting, such as processing daily business, preparing reports, and changes in regulations that affect input and output; assists in designing mechanized accounting systems; coordinates the preparation activities for visits by Army Audit Agency and General Accounting Office representatives.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in clerical record keeping, 3 in business mathematics, 3 in business communications, 2 in accounting principles, 2 for field experience in accounting, and 1 in typing, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 2 in accounting principles, 2 for field experience in accounting, and 1 in typing, for a total of 11 semester hours (3/75).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in clerical record keeping, 3 in business mathematics, 3 in business communications, 3 in office management, 2 in accounting principles, and 1 in typing, for a total of 16 semester hours; *if pay grade E-7 was achieved,* add 4 semester hours for field experience in accounting, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 3 in office management, 2 in principles of accounting, and 1 in typing, for a total of 12 semester hours; *if pay grade E-7 was achieved,* 4 additional semester hours for field experience in accounting, for a total of 16 semester hours (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in clerical record keeping, 2 in accounting principles, 6 for field experience in accounting, 3 in business mathematics, 3 in business communications, 3 in office management, 3 in introduction to data processing, and 1 in typing, for a total of 25 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 3 in office management, 3 in personnel supervision, 3 in introduction to data processing, 2 in principles of accounting, 4 for field experience in accounting, and 1 in typing, for a total of 22 semester hours (3/75).

MOS-73D-002

ACCOUNTING SPECIALIST

73D10
73D20
73D30
73D40

Exhibit Dates: 9/77-Present.

Career Management Field: 71 (Administration), *subfield* 713 (Finance).

Description

Summary: Records, verifies, and reconciles data in accordance with Army accounting procedures. *Skill Level 10:* Records and verifies data; prepares error-correction documents and reports; maintains files; operates calculator and other office equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10, and provides technical guidance to Skill Level 10 personnel; prepares expense reconciliations; interprets budget guidelines from higher headquarters and develops cost factors; develops activity budget submissions, reports, estimates, and analyses; conducts audit of accounting records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and instructs lower skill level personnel; may supervise 4-14 persons; plans and coordinates accounting operations; reviews reports for completeness and correctness. *Skill Level 40:* Able to perform the duties required for Skill Level 30; may supervise more than 15 persons; supervises operations in a large accounting activity.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in office procedures, 1 in business mathematics, and 2 in office machines, for a total of 5 semester hours (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 2 in business mathematics, 2 in record keeping, and 1 in accounting, for a total of 8 semester hours (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in office procedures, 2 in business mathematics, 3 in record keeping, 1 in accounting, and 2 in office management, for a total of 11 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 2 in business mathematics, 3 in record keeping, 1 in accounting, and 2 in office management, and credit in human relations on the basis of institutional evaluation, for a minimum total of 11 semester hours (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in office procedures, 2 in business mathematics, 3 in record keeping, 2 in accounting, 3 in office management, and 3 in management principles, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 2 in business mathematics, 3 in record keeping, 2 in accounting, 3 in office management, and 3 in management principles, and credit in human relations and personnel supervision on the basis of institutional evaluation, for a minimum total of 16 semester hours (6/78).

MOS-73Z-001

FINANCE SENIOR SERGEANT

73Z50

Exhibit Dates: 10/73-Present.

Career Management Field: 71 (Administration), *subfield* 713 (Finance).

Description

Able to perform the duties required for 73C40 (Finance Specialist), and 73D40 (Accounting Specialist); supervises or performs finance operations, accounting operations, or comptroller functions at military installations, agencies, or commands; supervises and reviews payroll accounting procedures and records, travel disbursements, and internal review and budget functions; performs staff functions such as research and preparation of financial accounting statements and statistical reports; as a finance operations chief at Grade E-8, supervises a minimum of 25 persons; as a finance operations chief at Grade E-9, supervises a minimum of 60 persons. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer) or 71S (Attache Specialist).

Recommendation

In the vocational certificate category, 6 semester hours for field experience in accounting, 3 in payroll accounting, 3 in business communications, 1 in filing, and additional credit as follows: *if the duty assignment was division chief at pay grade E-8,* 4 semester hours in office management, 4 in personnel supervision, and 2 in budgeting and systems, for a total of 23 semester hours; *if the duty assignment was finance operations chief at pay grade E-8,* 5 semester hours in office management, 5 in personnel supervision, and 3 in budgeting and systems, for a total of 26 semester hours; *if the duty assignment was finance operations chief at pay grade E-9,* 6 semester hours in office management, 6 in personnel supervision, and 4 in budgeting and systems, for a total of 29 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours for field experience in accounting, 3 in business communications, and additional credit as follows: *if the duty assignment was division chief at pay grade E-8,* 4 semester hours in personnel supervision and 4 in office management, for a total of 17 semester hours; *if the duty assignment was finance operations chief at pay grade E-8,* 5 semester hours in personnel supervision, 5 in office management, and 1 in accounting systems, for a total of 20 semester hours; *if the duty assignment was finance operations chief at pay grade E-9,* 6 semester hours in personnel supervision, 6 in office management, and 2 in accounting systems, for a total of 23 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management, and additional credit as follows: *if the duty assignment was either division chief at pay grade E-8 or finance operations chief at pay grade E-8,* 3 semester hours for field experience in management, for a total of 6 semester hours; *if the duty assignment was finance operations chief at pay grade E-9,* 6 semester hours for field experience in management, for a total of 9 semester hours (11/75).

MOS-74B-001

CARD AND TAPE WRITER

74B10
74B20

Exhibit Dates: 10/73-Present. NOTE: Until 9/75, this MOS was designated 71U20 and 71U40, Card and Tape Writer.

Career Management Field: 74 (Automatic Data Processing), *subfield* 741 (Data Processing Equipment Operations).

Description

Summary: Operates keypunch, verifier, paper tape punch, and keytape machine to translate input data into machine readable form; corrects any errors which may occur in the transcribing process. *Skill Level 10:* Able to prepare program drum cards for keypunch, follow record format specifications, and load and unload the machines. NOTE: May have progressed to 74B10 from 71B10 (Clerk-Typist). *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises the conversion of input data into machine readable format and maintains quality control; trains and assigns work to subordinates; maintains workload records; initiates operating changes; requisitions, stores, and issues supplies and equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in keypunch operation (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in keypunch operation and 3 in office administration. In the lower-division baccalaureate/associate degree category, 3 semester hours in office administration (12/75).

MOS-74D-001

ADPS MACHINE OPERATIONS SPECIALIST

74D20
74D40

Exhibit Dates: 10/73-8/75.

Career Management Field: 74 (Automatic Data Processing), *subfield* 741 (Data Processing Equipment Operations).

Description

Summary: Operates or supervises the operation of a computer console and computer peripheral equipment; operates or supervises the operation of unit-record equipment. *Skill Level 20:* Able to operate unit-record devices such as sorters, interpreters, reproducers, card processors, and collators; wires control panels; able to operate computer peripheral equipment such as card reader/punch, printers, tape duplicators, tape units, and optical scanners. *Skill Level 40:* Able to perform the duties required for Skill Level 20; able to supervise control panel wiring and operation of unit-record equipment and computer peripheral devices.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in unit-record operation (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in unit-record operation and 3 in office administration. In the lower-division baccalaureate/associate degree category, 3 semester hours in office administration (12/75).

MOS-74D-002

COMPUTER/MACHINE OPERATOR

74D10
74D20
74D30
74D40

Exhibit Dates: 9/75-Present.

Career Management Field: 74 (Automatic Data Processing), *subfield* 741 (Data Processing Equipment Operations).

Description

Summary: Operates or supervises the operation of a computer console and computer peripheral equipment; operates or supervises the operation of unit-record equipment. *Skill Level 10:* Operates unit-record devices such as sorters, interpreters, reproducers, card processors, collators, and decollators; operates computer peripheral equipment such as card reader/punch printers, tape and disk units, and optical scanners; may prepare wiring diagrams and wire control panels; performs functions of a scheduling clerk and tape librarian. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates the console of small, medium, or large scale computer systems; interprets system flow charts; supervises all activities within a tape library. NOTE: May have progressed to 74D20 from 74D10 or 74B10 (Card and Tape Writer). *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the operation of a computer console, peripheral computer equipment, and unit-record equipment. NOTE: May have progressed to 74D30 from 74D20 or 74B20 (Card and Tape Writer). *Skill Level 40:* Able to perform the duties required for Skill Level 30; schedules production and prepares work schedules; assigns duties and instructs personnel in work techniques.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in unit-record operation and 2 in computer operations (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in unit-record operation and 4 in computer operations. In the lower-division baccalaureate/associate degree category, 1 semester hour in computer operations management (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in unit-record operation and 4 in computer operations. In the lower-division baccalaureate/associate degree category, 2 semester hours in computer operations management (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in unit-record operations and 4 in computer operations. In the lower-division baccalaureate/associate degree category, 4 semester hours in computer operations management, 3 in human relations, 3 for field experience in management, and additional credit in personnel supervision on the basis of institutional evaluation, for a minimum total of 10 semester hours (6/76).

MOS-74E-001

COMPUTER SYSTEMS OPERATOR

74E10
74E20
74E30
74E40

Exhibit Dates: 10/73-8/75. (Effective 9/75, MOS 74E was discontinued and some of its functions were incorporated into MOS 74D, Computer/Machine Operator.)

Career Management Field: 74 (Automatic Data Processing), *subfield* 741 (Data Processing Equipment Operations).

Description

Summary: Operates electronic computer console and auxiliary equipment. *Skill Level 10:* Performs computer console supporting activities; mounts magnetic disk and tape; operates ADP equipment; keeps a magnetic tape library. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates a computer system consisting of a central processing unit, magnetic tape units and/or disk storage units in a nonmultiprogramming or nonmultiprocessing environment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; operates a computer system in multiprogramming and multiprocessing environment; operates a computer system which has remote-inquiry stations and a program-interrupt capability. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises computer system and auxiliary equipment operator personnel; prepares production schedules.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in file organization and processing, 2 in unit-record machine operations, and 2 in computer system operations, for a total of 10 semester hours (3/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in file organization and processing, 3 in computer system operations, and 2 in unit-record machine operations, for a total of 11 semester hours (3/75).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in computer system operations, 3 in introduction to data processing, 3 in file organization and processing, 2 in unit-record machine operations, 2 in computer operating systems, and 1 in introduction to systems analysis and design, for a total of 16 semester hours. In the upper-division baccalaureate category, 2 semester hours in computer operating systems and 1 in introduction to systems analysis and design (3/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 5 semester hours in computer system operations, 3 in introduction to data processing, 3 in file organization and processing, 3 in operations management, 3 in personnel supervision, 2 in unit-record machine operations, 2 in computer operating systems, and 1 in introduction to systems analysis and design, for a total of 22 semester hours. In the upper-division baccalaureate category, 3 semester hours in operations management, 3 in personnel supervision, 2 in computer operating systems, and 1 in introduction to systems analysis and design, for a total of 9 semester hours (3/75).

MOS-74F-001

COMPUTER PROGRAMMER

74F20

Exhibit Dates: 10/73-8/75

Career Management Field: 74 (Automatic Data Processing), *subfield* 741 (Data Processing Equipment Operations).

Description

Analyzes, writes, tests, and implements computer programs and/or conducts data system studies involving investigation, evaluation, development, and implementation of new or modified data processing systems for an application area; develops procedures necessary for reducing data processing applications into detailed instructions, routines, and codes; constructs flow charts and block diagrams to outline necessary computer operations in the processing of data; develops computer programs from flow charts; tests, debugs, and implements programs; produces necessary documentation.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in mathematics, 3 in introduction to computer programming/data processing, 3 in Assembler language programming, 3 in computer file organization, 3 in advanced programming techniques, 3 in systems and program design, 3 in ANSI COBOL programming, and 3 in computer operating systems, and additional credit for programming skills in other programming languages (FORTRAN, RPG, etc.) on the basis of institutional evaluation, for a minimum total of 27 semester hours. In the upper-division baccalaureate category, 3 semester hours in advanced programming techniques, 3 in systems and program design, and 3 in computer operating systems, and additional credit on the basis of institutional evaluation, for a minimum total of 9 semester hours (3/75).

MOS-74F-002

PROGRAMMER/ANALYST

74F10
74F20
74F30
74F40

Exhibit Dates: 9/75-Present.

Career Management Field: 74 (Automatic Data Processing), *subfield* 741 (Data Processing Equipment Operations).

Description

Summary: Analyzes, writes, tests, and implements computer programs and/or conducts data system studies involving investigation, evaluation, development, and implementation of new or modified data processing systems for an application area. *Skill Level 10:* Assists in the preparation, editing, testing, and implementation of computer programs; prepares and analyzes program and system flow charts; prepares program documentation; reviews and revises computer programs; writes simple Assembler and COBOL programs. *Skill Level 20:* Able to perform the duties required for Skill Level 10; analyzes, writes, edits, tests, and implements computer programs; sorts, merges, and processes runs; writes detailed program specifications for minor problems; may supervise computer programming activities. NOTE: May have progressed to 74F20 from 74F10, 74B10 (Card and Tape Writer), or 74D10 (Computer/Machine Operator). *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs or assists in supervising programming and systems studies in personnel, intelligence, transportation, supply, maintenance, medical, finance, and data communications areas; develops procedures to produce flow charts, block diagrams, and detailed instructions, routines, and codes for data processing application. NOTE: May have progressed to 74F30 from 74F20, 74B20 (Card and Tape Writer), or 74D20 (Computer/Machine Operator). *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises systems analysis and programming activities; supervises, advises, guides, and evaluates programmers and systems analysts.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in Assembler language programming, 3 in ANSI COBOL programming, and 3 in systems analysis and design, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in systems analysis and design (6/76).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in Assembler language programming, 3 in ANSI COBOL programming, 3 in computer file organization, and 4 in systems analysis and design, for a total of 16 semester hours. In the upper-division baccalaureate category, 4 semester hours in systems analysis and design (6/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in Assembler language programming, 3 in ANSI COBOL programming, 3 in computer file organization, and 6 in systems analysis and design, for a total of 18 semester hours. In the upper-division baccalaureate category, 6 semester hours in systems analysis and design (6/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to data processing, 3 in Assembler language programming, 3 in ANSI COBOL programming, 3 in computer file organization, 6 in systems analysis and design, 3 in systems and programming management, 3 in human relations, 3 for field experience in management, and additional credit in personnel supervision on the basis of institutional evaluation, for a minimum total of 27 semester hours. In the upper-division baccalaureate category, 6 semester hours in systems analysis and design, 3 in systems and programming management, 3 in human relations, and 3 for field experience in management, for a total of 15 semester hours (6/76).

MOS-74G-001

ADP (AUTOMATIC DATA PROCESSING) SYSTEMS ANALYST

74G20

Exhibit Dates: 10/73-8/75. (Effective 9/75, MOS 74G was discontinued and some of its functions were incorporated into MOS 74F, Programmer/Analyst.)

Career Management Field: 74 (Automatic Data Processing), *subfield* 741 (Data Processing Equipment Operations).

Description

Conducts systems studies involving investigation, evaluation, and development of data processing systems for and in conjunction with a user; performs systems design and prepares detailed systems specifications, including those for all files and programs required; implements new or modified systems and prepares appropriate systems documentation; able to train the system user in the operation of the new system. NOTE: May have progressed to 74G20 from 74C20 (Data Analysis Specialist), 74D20 (ADPS Machine Operation Specialist), or 74F20 (Computer Programmer).

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in systems analysis, 3 in data processing principles, and 3 in computer file organization, for a total of 12 semester hours. In the upper-division baccalaureate category, 6 semester hours in systems analysis (12/75).

MOS-74Z-001

DATA PROCESSING NCO

74Z50

Exhibit Dates: 10/73-Present.

Career Management Field: 74 (Automatic Data Processing), *subfield* 741 (Data Processing Equipment Operations).

Description

Supervises a data processing installation including systems analysts, computer programmers, computer operators, and related support groups; delegates task areas to key subordinates and manages their activities; maintains a current knowledge of accepted systems and programming standards, personnel procedures, and office operation techniques; knows the basic principles of systems analysis, computer hardware, and unit-record equipment; possesses an overall understanding of computer programming. NOTE: May have detailed knowledge in one or more of the following areas; computer operations, computer equipment maintenance, computer programming, and systems analysis, through previous MOS experience in the automatic data processing career management field (74).

Recommendation

In the vocational certificate category, 3 semester hours in unit record data processing, 3 in data processing principles, 2 in computer operations, and 1 in computer programming, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours for field experience in management, 3 in data processing principles, 3 in introduction to management, 3 in office management, 3 in personnel management, 2 in business systems analysis, and 1 in computer programming, for a total of 21 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in office management, 3 in personnel management, and 2 in business systems analysis, for a total of 17 semester hours (12/75).

MOS-75B-001

UNIT CLERK

75B20

Exhibit Dates: 10/73-8/77.

Career Management Field: 71 (Administration), *subfield* 712 (Personnel).

Description

Performs clerical and related administrative functions, including typing, filing, serving as a receptionist, ordering office supplies, and completing forms.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typing and 3 in office procedures (11/75).

MOS-75B-002

PERSONNEL ADMINISTRATION SPECIALIST

75B10

75B20

Exhibit Dates: 9/77-Present.

Career Management Field: 71 (Administration), *subfield* 712 (Personnel).

Description

Summary: Performs clerical and administrative functions. *Skill Level 10:* Types and completes forms; prepares correspondence; maintains files; maintains charts; orders office supplies; serves as a receptionist; answers inquiries and arranges appointments; provides input data for computer system. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing and 1 in office procedures and credit in business communications on the basis of institutional evaluation (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 2 in office procedures, and 2 in business communications, for a total of 5 semester hours (6/78).

MOS-75C-001

PERSONNEL MANAGEMENT SPECIALIST

75C20

75C40

Exhibit Dates: 10/73-8/77.

Career Management Field: 71 (Administration), *subfield* 712 (Personnel).

Description

Summary: Supervises or participates in the occupational classification and management of manpower resources. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), 71S (Attache Specialist), or 75B (Unit-Clerk). *Skill Level 20:* Classifies, assigns, and reassigns personnel based on evaluation of credentials and qualifications; is familiar with interview techniques and interviews personnel as part of the evaluative process; processes reports, training and assignment requests, and personnel assignments and promotions; monitors personnel management records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel management function and is capable of supervising up to 8 subordinate personnel management specialists; plans, organizes, and supervises work activities; coordinates personnel management actions with other agencies as necessary.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in interview techniques, and 2 in typing, for a total of 8 semester hours. In the upper-division baccalaureate category, 3 semester hours in principles of vocational counseling (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in interview techniques, 3 in personnel supervision, and 2 in typing, for a total of 11 semester hours. In the upper-division baccalaureate category, 3 semester hours in office management principles and practices, 3 in principles of vocational counseling, and 3 for field experience in management, for a total of 9 semester hours (11/75).

MOS-75C-002

PERSONNEL MANAGEMENT SPECIALIST

75C10

75C20

Exhibit Dates: 9/77-Present.

Career Management Field: 71 (Administration), *subfield* 712 (Personnel).

Description

Summary: Participates in the occupational classification and management of manpower resources. *Skill Level 10:* Compares personnel records with classification standards to determine qualifications of individuals; recommends duty positions and reclassifications based on such determinations; maintains files; types forms and correspondence; able to type 20 words per minute; may interview incoming personnel. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 2 in office procedures, and credit in interview techniques on the basis of institutional evaluation, for a minimum total of 3 semester hours (6/78).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in typing, 3 in office procedures, and credit in interview techniques on the basis of institutional evaluation, for a minimum total of 4 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 3 in office procedures, and credit in interview techniques on the basis of institutional evaluation, for a minimum total of 4 semester hours (6/78).

MOS-75D-001

PERSONNEL RECORDS SPECIALIST

75D20

75D40

Exhibit Dates: 10/73-8/77.

Career Management Field: 71 (Administration), *subfield* 712 (Personnel).

Description

Summary: Initiates and maintains military personnel records or supervises their initiation and maintenance. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), 71S (Attache Specialist), or 75B (Unit-Clerk). *Skill Level 20:* Posts information extracted from several sources on enlisted and officer personnel records; examines records for accuracy and completeness and initiates actions to correct deficiencies; prepares and processes questionnaires; prepares and maintains emergency data and beneficiary records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises up to 33 persons; plans, organizes, and assigns work to subordinates; coordinates activities with other personnel workers; reviews and checks personnel records and information for accuracy; initiates action to change operating procedures, policies, and regulations, when necessary; is responsible for requisitioning, storing, and issuing office supplies and equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in typing, and 3 in business communications or technical writing, for a total of 9 semester hours (11/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in record keeping, 3 in typing, 3 in business communications or technical writing, and 3 in office management, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in office management and 2 for field experience in personnel supervision (11/75).

MOS-75D-002

PERSONNEL RECORDS SPECIALIST

75D10

75D20

Exhibit Dates: 9/77-Present.

Career Management Field: 71 (Administration), *subfield* 712 (Personnel).

Description

Summary: Initiates and maintains military personnel records or supervises their initiation and maintenance. *Skill Level 10:* Posts information from several sources on enlisted and officer personnel records; examines records for accuracy and completeness and initiates actions to correct deficiencies; prepares and processes questionnaires; prepares and types correspondence and forms; maintains files. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises up to nine Skill Level 10 personnel; plans, organizes, and assigns work; reviews and checks personnel records and information for accuracy; coordinates activities with other personnel workers.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 2 in business communications or technical writing, and 3 in record keeping, for a total of 6 semester hours (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 2 in business communications or technical writing, 3 in record keeping, and 2 in office management, for a total of 8 semester hours (6/78).

MOS-75E-001

PERSONNEL ACTIONS SPECIALIST

75E20

75E40

Exhibit Dates: 10/73-8/77.

Career Management Field: 71 (Administration), *subfield* 712 (Personnel).

Description

Summary: Supervises and processes special and routine personnel actions concerning members of the military service; counsels and assists military personnel with personal affairs relating to benefits, rights, and privileges. Related entry-level civilian occupations include personnel clerk, personnel supervisor, or personnel counselor. NOTE: May have previously held MOS 71B (Clerk-Typist), 71C (Stenographer), 71S (Attache Specialist), or 75B (Unit Clerk). *Skill Level 20:* Performs general office duties relative to processing personnel actions; advises and assists military personnel who may be entitled to military benefits; assists in correspondence concerning Social Security benefits; acts as an information referral source in directing individuals with personal affairs problems to appropriate agencies, organizations, and support facilities. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises subordinates who are involved in processing personnel actions and/or assisting and counseling in certain personal affairs; reviews and checks the accuracy of personnel actions; performs office management functions with regard to procedures, policies, and regulations.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in personal finance, 2 in business communications, 2 in communication skills, 2 in office management, and 1 in filing, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 2 in personal finance, 2 in business communications, and 1 in office management, for a total of 5 semester hours (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in office management, 3 in personnel supervision, 2 in personal finance, 2 in business communications, and 1 in filing, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in office management, 3 in personnel supervision, 2 in personal finance, and 2 in business communications, for a total of 10 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 2 for field experience in management (11/75).

MOS-75E-002

PERSONNEL ACTIONS SPECIALIST

75E10
75E20

Exhibit Dates: 9/77-Present.

Career Management Field: 71 (Administration), *subfield* 712 (Personnel).

Description

Summary: Processes personnel actions concerning service members and their dependents. *Skill Level 10:* Completes forms required for training schools, awards and decorations, release and resignation, transfer, reenlistment, retirement, and casualties; provides information on benefits; types forms, correspondence, and messages; maintains related files. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 2 in office procedures, and credit in business communications on the basis of institutional evaluation, for a minimum total of 3 semester hours (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in typing, 3 in office procedures, and 2 in business communications, for a total of 6 semester hours (6/78).

MOS-75Z-001

PERSONNEL SENIOR SERGEANT

75Z40
75Z50

Exhibit Dates: 10/73-8/77.

Career Management Field: 71 (Administration), *subfield* 712 (Personnel).

Description

Summary: Supervises all aspects of personnel operations, including personnel management, personnel records, and personnel actions; plans and organizes workload and makes work assignments; instructs subordinate personnel; reviews, consolidates, and drafts reports and surveys; researches specific policies and procedures relating to officer and enlisted personnel administration; as a mid-level manager, advises superiors on personnel administrative activities. NOTE: Able to perform the duties required for 75C40 (Personnel Management Specialist), 75D40 (Personnel Records Specialist), or 75E40 (Personnel Actions Specialist). *Skill Level 40:* Supervises up to 18 persons in a segment of a large personnel office or in a small or medium-sized personnel office. *Skill Level 50:* Supervises up to 24 persons in a large segment of a large personnel office or serves as the principal noncommissioned officer of a large personnel office.

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in typing, 3 in office procedures, 3 in business communications or technical writing, and 3 in office management, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in office procedures, 3 in business communications or technical writing, 3 in office management, 3 in personnel supervision, and 3 in managerial principles, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in vocational counseling techniques, 3 in applied psychology, and 6 in personnel management, and additional credit in management on the basis of institutional evaluation, for a minimum total of 15 semester hours (11/75).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in vocational counseling techniques, 3 in applied psychology, 6 in personnel management, 3 for field experience in management, and additional credit in management on the basis of institutional evaluation, for a minimum total of 18 semester hours (11/75).

MOS-75Z-002

PERSONNEL SENIOR SERGEANT

75Z30
75Z40
75Z50

Exhibit Dates: 9/77-Present.

Career Management Field: 71 (Administration), *subfield* 712 (Personnel).

Description

Summary: Supervises all aspects of personnel operations, including personnel administration, personnel management, personnel records, and personnel actions. *Skill Level 30:* Plans and organizes workload and makes work assignments; instructs subordinate personnel; supervises up to 5 persons in a segment of a large personnel office or in a small personnel office; reviews, consolidates, and drafts reports and surveys; researches specific policies and procedures relating to officer and enlisted personnel administration; reviews data prepared for computer input and reconciles output; as a mid-level manager, advises superiors on personnel administrative activities. NOTE: May have progressed to 75Z30 from 75B20 (Personnel Administration Specialist), 75C20 (Personnel Management Specialist), 75D20 (Personnel Records Specialist), or 75E20 (Personnel Actions Specialist). *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises up to 18 persons in a segment of a large personnel office or in a small or medium-sized personnel office. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises up to 24 persons in a large segment of a large personnel office or serves as the principal noncommissioned officer of a large personnel office.

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in office procedures, 3 in office management, and 3 in business communications or technical writing, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in office management, 3 in business communications or technical writing, 3 in introduction to computer concepts, 3 in human relations, and 2 in personnel supervision, for a total of 17 semester hours (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in office procedures, 3 in office management, 3 in business communications or technical writing, and 3 in computer concepts, for a minimum total of 12 semester hours; and 3 semester hours in records management on the basis of institutional evaluation, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in office procedures, 3 in office management, 3 in business communications or technical writing, 3 in introduction to computer concepts, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a minimun total of 21 semester hours; and 3 semester hours in records management on the basis of institutional evaluation, for a total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for field experience in management (6/78).

Recommendation, Skill Level 50

In the vocational certificate category and in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in personnel management and 6 for field experience in management (6/78).

MOS-76A-001

SUPPLYMAN

76A10

Exhibit Dates: 10/73-9/74. (Effective 10/74, MOS 76A was discontinued and its functions were incorporated into 76Y10, Unit and Organization Supply Specialist and Armorer.)

Career Management Field: 76 (Supply).

Description

As a storekeeper or warehouse clerk, receives, inventories, inspects, issues, delivers, and transfers property; stores property to provide for rotation of stocks within established sensitive, classified, radioactive, hazardous, and inflammable storage areas; provides for protection of personnel; prevents deterioration, contamination, and destruction of property; uses technical catalogs; knows stock record accounting methods; uses various office machines to maintain the records systems.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in office machine operations, 1 in records management, and 1 in elementary logistics, for a total of 3 semester hours (3/75).

MOS-76D-001

MATERIEL SUPPLYMAN

76D10
76D20
76D30
76D40

Exhibit Dates: 3/76-2/78.

Career Management Field: 76 (Supply and Service), *subfield* 761 (Supply).

Description

Summary: Manages, receives, stores, maintains, preserves, and issues major end items and repair part supplies. *Skill Level 10:* Prepares and maintains stock records including inventory, stock control, and accounting reports; operates office machines; prepares requests, processes receipts, maintains prescribed stock levels, and maintains maintenance records; uses catalogs in identification of major assemblies, subassemblies, and associated repair parts; performs technical edit, stock accounting, and application by researching catalogs, manuals, publications, parts lists, microfiche, and other means; visually inspects, verifies, and classifies incoming equipment and repair parts; maintains locator card system; participates in location surveys and inventories; performs as equipment maintenance clerk; codes equipment and maintenance data for automated data processing application. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; reviews requests for major and controlled items; visually inspects salvage material to determine proper disposition; utilizes automatic data processing to assist in management. *Skill Level 30:* Able to perform the duties required for Skill Level 20; plans and organizes major end items and repair parts supply operations; organizes, plans, and controls warehouse and storage activities; directs personnel in supply/inventory control management functions; determines repair part requirements and space allocation; conducts inspections and analyzes supply activities for efficiency; determines material handling equipment requirements; conducts on-the-job training. *Skill Level 40:* Performs the duties required for Skill Level 30 and serves as commodity manager; assists in appraisal of supply operations and training; performs inspections and provides technical assistance.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 2 in office machines, and 2 in parts management, for a total of 7 semester hours (6/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 3 in parts management, 2 in inventory control, and 2 in office machines, for a total of 13 semester hours (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in warehouse practices, 3 in parts management, 3 in record keeping, 2 in inventory control, 2 in office machines, and 2 in office procedures, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in parts management, 3 in record keeping, 3 in personnel supervision, 2 in inventory control, 2 in office machines, and 2 in office procedures, for a total of 18 semester hours (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in parts management, 3 in record keeping, 3 in personnel supervision, 3 for field experience in management, 2 in inventory control, 2 in office machines, and 2 in office procedures, for a total of 21 semester hours (6/76).

MOS-76D-002

MATERIAL SUPPLY SPECIALIST

76D10
76D20
76D30
76D40

Exhibit Dates: 3/78-Present. Pending evaluation.

MOS-76J-001

MEDICAL SUPPLYMAN

76J10
76J20
76J30
76J40

Exhibit Dates: 3/76-2/77.

Career Management Field: 76 (Supply).

Description

Summary: Requests, receives, inventories, stores, preserves, issues salvage, controls stock, and accounts for medical supplies and equipment. *Skill Level 10:* Transports and handles medical supplies and equipment; inventories medical supplies and assists in financial inventory accounting; determines requisition objectives and verifies quantities and quality of materials received; performs in-storage care and preservation of medical supplies, including special procedures for handling pharmaceuticals, biologicals, blood fractions, and medicines; assists in medical materiel serviceability inspections; interprets medical terminology and vocabulary directly related to supply functions; operates office machines; keeps medical supply files and records. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a small medical supply, stock control, or storage activity; plans medical supply and equipment operations; assigns duties, plans workloads, and instructs personnel in work techniques and procedures; directs inventory management activities; controls stock rotation and establishes delivery control activities; reviews and prepares technical, personnel, and administrative reports on medical supply activities. *Skill Level 40:* Performs the duties required for Skill Level 30 and supervises a medium-sized medical stock control, or storage activity.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 2 in office machines, and 1 in medical terminology, for a total of 6 semester hours (6/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in office machines, and 1 in medical terminology, for a total of 9 semester hours (6/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in warehouse practices, 3 in record keeping, 2 in inventory control, 2 in office machines, 2 in office procedures, and 1 in medical terminology, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in warehouse practices, 3 in record keeping, 2 in inventory control, 2 in office machines, 2 in office procedures, and 1 in medical terminology, for a total of 16 semester hours (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in warehouse practices, 3 in record keeping, 3 in personnel supervision, 3 for field experience in management, 2 in inventory control, 2 in office machines, 2 in office procedures, and 1 in medical terminology, for a total of 19 semester hours (6/76).

MOS-76J-002

MEDICAL SUPPLYMAN

76J10
76J20
76J30
76J40
76J50

Exhibit Dates: 3/77–2/78.

Career Management Field: 76 (Supply and Services), *subfield* 761 (Supply).

Description

81A10

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 81A was discontinued and its functions were incorporated into 81B20, Construction Draftsman, 81C10, Cartographer, and 81E10, Illustrator.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 811 (Drafting).

Description

Performs general drafting duties; traces drawings, organizational charts and diagrams, posters, and other drafting works; uses mathematics when applicable; utilizes basic drafting tools, instruments, and materials; lays out drawings to scale, applying dimensions, detail, and conventional symbols; letters free hand or with mechanical guides; receives, stores, and manages supplies and other materials.

Recommendation

In the vocational certificate category, 10 semester hours in basic drafting (12/75).

MOS-81B-001

Construction Draftsman

81B20

81B40

Exhibit Dates: 10/73-9/74.

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Summary: Prepares work drawings for the construction field. *Skill Level 20:* Prepares orthographic drawings (shape description only); prepares maps and plots plans from surveyor's notes. NOTE: May have progressed to 81B20 from 81A10 (General Draftsman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; plans, lays out, and completes working drawings for the construction field; supervises 14 or more personnel engaged in the same activities.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in construction drafting. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction drafting (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 30 semester hours in construction drafting. In the lower-division baccalaureate/associate degree category, 8 semester hours in construction drafting, 3 in algebra, 3 in trigonometry, 2 in communication skills, and 2 in personnel supervision, for a total of 18 semester hours (2/75).

MOS-81B-002

Construction Draftsman

81B20

Exhibit Dates: 10/74-2/78.

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Prepares working drawings for the construction field; prepares orthographic drawings (shape description only); prepares maps and plots plans from surveyor's notes. NOTE: May have progressed to 81B20 from 81A10 (General Draftsman).

Recommendation

In the vocational certificate category, 10 semester hours in construction drafting. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction drafting (2/75).

MOS-81B-003

Technical Drafting Specialist

81B10

81B20

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 511 (Technical Engineering).

Description

Summary: Drafts detailed working plans for construction of bridges, roads, railroads, piers, buildings, and utilities installation. *Skill Level 10:* Assists in performance of construction or design drafting; prepares drawings and plans of miscellaneous structures and mechanical and electrical devices, using standard drafting equipment; plots profiles for construction of roads, railroads and other construction projects from survey notes or contour maps; prepares charts and graphs to portray various data. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel in the performance of their duties; reviews, modifies, and corrects finished drawings to conform to specifications and assists design officer in modification of design of steel, concrete and wood structures.

Recommendation, Skill Level 10

In the vocational certificate category, 10 semester hours in construction drafting. In the lower-division baccalaureate/associate degree category, 3 semester hours in construction drafting (7/79).

Recommendation, Skill Level 20

In the vocational certificate category, 30 semester hours in construction drafting. In the lower-division baccalaureate/associate degree category, 8 semester hours in construction drafting, 3 in algebra, 3 in trigonometry, 2 in communications skills, and 2 in personnel supervision, for a total of 18 semester hours (7/79).

MOS-81C-001

Cartographic Specialist (Cartographic Draftsman)

81C20

81C30

81C40

81C50

Exhibit Dates: 10/74-2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 811 (Drafting).

Description

Summary: Supervises or performs cartographic drafting activities, compilation or revision of planimetric and topographic maps, or construction of scale models of terrain. *Skill Level 20:* Draws or scribes cultural, topographic, hydrographic, or other features on drawings, transparent overlays, and scribing surfaces for reproduction of maps. NOTE: May have progressed to 81C20 from 81A10 (General Draftsman). *Skill Level 30:* Able to perform the duties required for Skill Level 20; compiles and revises planimetric and topographic maps. *Skill Level 40:* Able to perform the duties required for Skill Level 20 and 30; supervises cartographic drafting, map compiling, or model making activities. NOTE: May have progressed to 81C40 from 81C20, 81C30, 81E20 (Illustrator), or 81Q20 (Terrain Intelligence Analyst). *Skill Level 50:* Able to perform the duties required for Skill Level 40; plans, coordinates, administers, and supervises activities pertaining to the compiling, preparation, and revision of topographic and hydrographic maps from aerial photographs and other data. NOTE: May have progressed to 81C50 from 81C40 or 81Q20 (Terrain Intelligence Analyst).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in cartography, 3 in mechanical drawing, and 3 in aerial photographic interpretation, for a total of 12 semester hours (12/75).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in cartography, 4 in photogrammetry, 3 in mechanical drawing, and 3 in aerial photographic interpretation, for a total of 16 semester hours (12/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in cartography, 4 in photogrammetry, 3 in mechanical drawing, 3 in aerial photographic interpretation, and 3 in introduction to management, for a total of 19 semester hours (12/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 6 semester hours in cartography, 4 in photogrammetry, 3 in mechanical drawing, 3 in aerial photographic interpretation, 3 in introduction to management, 3 in personnel supervision, and 3 for field experience in management, for a total of 25 semester hours (12/75).

MOS-81C-002

Cartographer

81C10

81C20

81C30

81C40

Exhibit Dates: 3/77-Present.

Career Management Field: 81 (Topographic Engineering), *subfield* 811 (Cartography).

Description

Summary: Supervises or performs cartographic drafting activities, or compiles or revises planometric and topographic maps. *Skill Level 10:* Draws or scribes cultural, topographic, hydrographic, or other features on drawings, transparent overlays and scribing surfaces for reproduction of maps; compiles and revises planometric and topographic maps; constructs mosaics from aerial photographs; constructs map projections and grids; uses photo interpretation methods for delineating aerial photographs; performs field classification of aerial photographs. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; keeps records and requests supplies; makes recommendations to supervisors. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises cartographic laboratory; edits computations, map compilation base, manuscripts, overlays, color proofs, and color separation drawings; makes production recommendation and maintains files; may supervise more than 12 persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; determines work priorities; supervises final inspection and editing of maps; plans, coordinates, and administers activities of cartographic laboratory with other units; may supervise more than 30 persons.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical drawing. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical drawing, 6 in cartography, 3 in photogrammetry, and 3 in aerial photographic interpretation, for a total of 15 semester hours (6/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical drawing, 6 in cartography, 3 in photogrammetry, 3 for field experience in cartography, 3 in aerial photographic interpretation, and credit in human relations on the basis of institutional evaluation for a minimum total of 18 semester hours (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical drawing, 6 in cartography, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 for field experience in cartography, 3 for field experience in management, and 3 in human relations, for a total of 24 semester hours (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical drawing, 6 in cartography, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 for field experience in cartography, 3 in introduction to management, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 30 semester hours (6/78).

MOS-81E-001

ILLUSTRATOR

81E20

Exhibit Dates: 10/73-2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 811 (Drafting).

Description

Illustrates, drafts, and lays out illustrations for posters, graphs, charts, tests, training aids, and for other purposes; interprets basic materials furnished for final illustration; measures model dimensions; appropriately lays out work; makes illustrations with inks, charcoal, oil paints, water colors, pencils, crayons, and pastels, using drafting instruments and other artist materials; selects appropriate materials and instruments and mixes colors; designs, executes, and prepares freehand and mechanical drawings; mounts and retouches photographs and drawings; prints and letters signs; maintains illustration equipment.

Recommendation

In the lower-division baccalaureate/associate degree category, 2 semester hours in mechanical drawing, 2 in commercial art, and 2 in principles of illustration, and additional credit on the basis of institutional evaluation, for a minimum total of 6 semester hours (12/75).

MOS-81E-002

ILLUSTRATOR

81E10

81E20

81E30

Exhibit Dates: 3/77-Present.

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Designs, drafts, and lays out copy for posters, graphs, charts, tests, training aids, and for other purposes; uses creativity to portray specific productions. *Skill Level 10:* Serves as designer; selects oil paints, water colors, inks, charcoal, pencils, and crayons; selects and mixes colors and shades of colors; makes designs with ink, crayon, pastels, drafting instruments, and other artistic materials; prepares mechanical drawings to illustrate equipment and weapons; mounts photographs with electrical press, dry mounting paper, mounting board, and tacking iron; paints and letters signs; interprets blueprints, sketches, photographs, drawings, charts, technical manuals, and graphs; measures dimension of model, and determines proper method of laying out work and most appropriate manner of presentation; designs and executes freehand drawings of persons, scenic views, still life, and cartoons; retouches drawings and photographs to correct faults and to color reproductions; performs preventive maintenance on equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20, supervises lower skill level personnel; reviews work orders and notes; writes, sketches, or gives oral instructions; reviews completed work for artistic quality and technical accuracy.

Recommendation, Skill Levels 10 and 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in graphics design, 2 in calligraphy, 3 in mechanical drawing, 3 in principles of typography, 3 in development of audio-visual aids, and 3 in cartography applications, for a total of 16 semester hours (5/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2 semester hours in graphic design, 2 in calligraphy, 3 in mechanical drawing, 3 in principles of typography, 3 in development of audio-visual aids, 3 in cartography applications, 3 for field experience in management, 3 in technical illustrations, and credit in human relations on the basis of institutional evaluation, for minimum total of 22 semester hours (5/78).

MOS-81Q-001

TERRAIN INTELLIGENCE ANALYST (TERRAIN ANALYST)

81Q20

Exhibit Dates: 10/73-2/77. (Until 10/74, this MOS was designated 51Q20, Terrain Analyst; effective 3/77, MOS 81Q was discontinued and its functions were incorporated into MOS 81C, Cartographer.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 811 (Drafting).

Description

Compiles, analyzes, and disseminates current and accurate data pertaining to a geographical area or region, including natural terrain features, population and industrial centers, transportation networks, and utility systems, for use in mapping, construction, and other operations; interprets conditions of travel and land use; interprets studies and reports as they relate to terrain and manmade features; coordinates and participates in the preparation of technical and special reports and map overlays; applies engineering techniques in the analysis of aerial photographs and other data; knows the principles of map compilation and interpretation; keeps records and files of completed studies; keeps data current through consultation with pertinent government agencies.

Recommendation

In the lower-division baccalaureate/associate degree category, 8 semester hours in land use planning, 6 in aerial photographic interpretation, 3 in geography, 3 in terrain analysis, 3 in cartography, and 1 in geology, for a total of 24 semester hours. In the upper-division baccalaureate category, 8 semester hours in land use planning and 3 in aerial photographic interpretation. In the graduate degree category, 6 semester hours in research techniques in geography (12/75).

MOS-81Z-001

TOPOGRAPHIC ENGINEERING SUPERVISOR

81Z50

Exhibit Dates: 3/77-Present.

Career Management Field: 81 (Topographic Engineering), *subfield* 810 (Topographic Engineering, General).

Description

Summary: Supervises topographic surveying, cartography, and photolithography activities; serves as first sergeant of a company or as a topographic operations sergeant; assists in topographic planning and control activities; assists in determining requirements and providing program and technical supervision of topographic mapping and other military geographic intelligence programs, including geodetic and topographic surveying activities; assists in command supervision and coordination of map reproduction and topographic map supply programs. NOTE: May have progressed to 81Z50 from 81C40, Cartographer, 82D40, Topographic Surveyor, or 83F40, Photolithographer.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours for field experience in graphic arts, 3 in record keeping, 3 in human relations, 3 in personnel supervision, 3 in introduction to management, and 6 in printing management, for a total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (graphic arts), 3 in industrial management, 3 in plant organization, and 6 for field experience in management, for a total of 15 semester hours (6/78).

MOS-82A-001

RODMAN AND TAPEMAN

81A10

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 82A was discontinued and its functions were incorporated into 82B20, Construction Surveyor, and 82D10, Topographic Surveyor.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 812 (Surveying).

Description

Under supervision, assists topographic and construction survey party personnel in making land surveys and establishing reference points; assists survey party chief by removing minor terrain obstacles, carrying equipment, marking reference points and recording readings; aligns and positions stadia, level rods, and other target markers when directed by hand and/or verbal instructions; locates old and new markers; measures linear distance with tapes and angles of slope with hand level; reads verniers of targets; performs preventive maintenance on pertinent equipment.

Recommendation

In the vocational certificate category, 1 semester hour in surveying (12/75).

MOS-82B-001

CONSTRUCTION SURVEYOR

82B20

82B40

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Summary: Supervises or establishes relative position of points on earth's surface for use in construction projects. *Skill Level 20:* Reads maps and construction specifications; operates surveying instruments and equipment, such as alidade, plane table, level, transit, and theodolite; employs such instruments as aneroid barometer and compass; records observations and makes minor computations; makes mathematical computations involving use of formulas; determines azimuths and astronomical observations of the sun or polaris; makes measurements and sets appropriate reference points; maintains surveying equipment and instruments. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises and instructs survey party personnel; responsible for initial study of construction area; assigns and coordinates work and manages its progress; supervises on-the-job training.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic land surveying (12/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in basic and advanced land surveying, 3 in introduction to management, and 3 for field experience in management, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (12/75).

MOS-82B-002

CONSTRUCTION SURVEYOR

82B10

82B20

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 511 (Technical Engineering).

Description

Summary: Performs construction surveys to determine relative positions of points on the ground to provide data for construction layout and earthwork. *Skill Level 10:* Serves as construction surveyor; reads maps and places appropriate reference points for construction layout and earthwork; operates surveying instruments and equipment such as tape, alidade, plane table, level, transit and theodolite; employs such instruments as aneroid barometer and compass; records observations and makes minor computations; maintains and adjusts survey instruments and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; directs survey party and works independently while conducting construction surveys; conducts initial reconnaissance of construction area, interprets construction drawings and briefs survey party; directs use of stadia; establishes centerlines for horizontal curves and spirals, and gradelines for vertical curves; responsibilities include surveys for all features of bridges, buildings, sewer lines, roads, airfields and drainage. Maintains records of survey party work.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic land surveying (7/79).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in basic and advanced land surveying, and 3 for field experience in management. In the upper-division baccalaureate category, 3 semester hours for field experience in management (7/79).

MOS-82C-001

ARTILLERY SURVEYOR

82C10

82C20

82C40

Exhibit Dates: 10/73-8/76.

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 172 (Target Acquisition).

Description

Summary: Engages in surveying activities. *Skill Level 10:* Marks survey stations; utilizes range poles and target sets; assists in performance of preventive maintenance on surveying instruments and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10, serves as chief of a surveying party; uses basic algebraic and trigonometric skills; uses tape, level, transit, and theodolite to perform surveys; computes azimuths and distances, coordinates, altimetric and trigonometric heights from field data; makes traverse computations; uses the triangulation method of survey and computations. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises a survey party; reviews survey data.

Recommendation, Skill Level 10

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (2/75).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in algebra and 1 in trigonometry. In the lower- division baccalaureate/associate degree category, 8 semester hours in surveying, 2 in algebra, and 1 in trigonometry, for a total of 11 semester hours (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in algebra and 1 in trigonometry. In the lower-division baccalaureate/associate degree category, 8 semester hours in surveying, 2 in algebra, 1 in trigonometry, 3 in personnel supervision, and 3 in communication skills, for a total of 17 semester hours (2/75).

MOS-82C-002

FIELD ARTILLERY SURVEYOR

82C10

82C20

82C30

82C40

Exhibit Dates: 9/76-8/79. (Effective 9/79, MOS 82C was discontinued.)

Career Management Field: 13 (Field Artillery), *subfield* 132 (Field Artillery Target Acquisition Operations).

Description

Summary: Engages in surveying activities. *Skill Level 10:* Determines distance between survey stations; marks survey stations; operates and maintains survey equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; applies knowledge of basic algebra, basic geometry, and trignometric functions and logarithms; computes azimuth and distance, coordinates, altimetric and trigonometric heights, and astronomic azimuths from field data. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a survey party; selects starting station and method of survey; reviews survey data for accuracy; supervises maintenance of survey party equipment; instructs in survey procedures and techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and coordinates operations of several survey parties; prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and air photos and credit in surveying on the basis of institutional evaluation (4/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and air photos, 2 in algebra, 1 in trigonometry, and 8 in surveying, for a total of 13 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and air photos, 2 in algebra, 1 in trigonometry, 8 in surveying, 2 in communication skills, 2 in human relations, 2 in personnel supervision, and 3 for field experience in management, for a total of 22 semester hours (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to maps and air photos, 2 in algebra, 1 in trigonometry, 8 in surveying, 3 in communication skills, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 25 semester hours (4/77).

MOS-82D-001

TOPOGRAPHIC SURVEYOR

82D20
82D30
82D40
82D50

Exhibit Dates: 10/73-2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 812 (Surveying).

Description

Summary: Supervises or conducts and establishes relative position of points on earth's surface to provide control data for map making. *Skill Level 20:* Conducts topographic surveys; interprets maps and aerial photographs; operates surveying instruments and equipment such as alidade, plane tables, level, transit, theodolite, compass, and aneroid barometer; shoots routine azimuth shots on stellar bodies; determines exact location and measurements of points, lines, elevations, areas, and contours of earth's surface; records observations, makes minor computations, and prepares diagrams and map overlays for presentation of survey findings; makes mathematical computations involving logarithms and trigonometric principles and standard topographic survey formulas; consolidates and prepares topographic survey reports; inspects, cleans, lubricates, and adjusts surveying instruments and equipment. NOTE: May have progressed to 82D20 from 82A10 (Rodman and Tapeman). *Skill Level 30:* Able to perform the duties required for Skill Level 20; conducts geodetic surveys; operates, uses, and performs preventive maintenance on topographic surveying instruments capable of first order accuracy; sets up, calibrates, and employs such instruments as Wild T-3 and/or T-4 Theodolites, Bamberg Broken Telescope Transit, precise chronometer, and chronograph or oscillograph in combination with astro amplifier and other timing instruments; prepares for and makes all observations for precise determination of azimuth or geodetic position; observes stars for longitude, latitude, and azimuth determination; interprets and records timing data for topographic computers. NOTE: May have progressed to 82D30 from 82D20, 82E20 (Topographic Computer), or 41B20 (Topographic Instrument Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises topographic surveying activities; studies and learns capabilities and limitations of all types of topographic survey equipment and systems; studies astronomical publications, such as star lists and ephemeris; determines composition and operational procedures and techniques of topographic survey parties; determines application of field survey activities to photogrammetric requirements; utilizes organic topographic stereophotogrammetric instruments; prepares records depicting type of survey, type of station, reference points used, and description of terrain; plans training and instructs subordinate personnel in all phases of topographic surveying; prepares and reviews technical, personnel, and administrative reports. NOTE: May have progressed to 82D40 from 82D20, 82D30, 82E20 (Topographic Computer), or 41B20 (Topographic Instrument Repairman). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principal noncommissioned officer in a topographic surveying company; assists in planning, coordinating, and supervising all company activities; advises company commander on all personnel matters; provides subordinate supervisors with instructions; conducts training and inspections. NOTE: May have progressed to 82D50 from 82D40, 82E40 (Topographic Computer), or 82B40 (Construction Surveyor).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, and 3 in engineering computations, for a total of 24 semester hours (12/75).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in engineering computations, and 6 for field experience in surveying, for a total of 30 semester hours (12/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 15 semester hours for field experience in surveying, 9 semester hours in engineering computations, 3 in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in advanced surveying, 3 in advanced geodetic surveying, 3 in technical writing, 3 in personnel supervision, and 3 in project management, for a total of 60 semester hours (12/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 23 semester hours for field experience in surveying, 12 in engineering computations, 8 in project management, 5 in project layout, 6 in personnel supervision, 6 in advanced surveying, 3 in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in advanced geodetic surveying, 3 in technical writing, and 3 in introduction to management, for a total of 90 semester hours (12/75).

MOS-82D-002

TOPOGRAPHIC SURVEYOR

82D10
82D20
82D30
82D40

Exhibit Dates: 3/77-Present.

Career Management Field: 81 (Topographic Engineering), *subfield* 812 (Surveying).

Description

Summary: Supervises or conducts surveys to provide control data for map making and supervises or performs topographic or geodetic computations. *Skill Level 10:* Records topographic survey data, operates survey instruments, and performs topographic computations; conducts topographic surveys; interprets maps and aerial photographs; records measurements and other field data; computes horizontal distances from taped, electronic, or stadia measurement; computes angular closures and triangulations; computes differences in elevation from trigonometric, altimetry, and differential leveling; computes azimuths from stellar observations and from grid coordinates; employs planetable with alidade, theodolite, level, microwave, infrared, and baseline taping distance measuring equipment; operates programmable electronic calculator. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs geodetic computation and adjustments, and topographic survey observations to extend horizontal and vertical control; employs theodolite, precise levels, altimeter, lasers; makes field checks; obtains data to calibrate instruments; computes and adjusts second order surveys; computes elevation of tidal bench marks from tidal observations data for secondary stations; determines and writes required numbers and types of condition equation used in least squares adjustments; operates and writes programs for programmable electronic calculation; directs and controls personnel when acting as survey party chief. *Skill Level 30:* Must be able to supervise personnel performing the duties of 82D20 or 41B20 (Topographic Instrument Repair Specialist); performs astronomic observations, computes geographic azimuths to verify topographic surveys, or supervises survey section or computing activities in a survey party; calibrates equipment; performs survey reconnaissance; evaluates field data and results obtained; computes geographic positions to include elevation, from observation derived from triangulations trilateration, traverse and spirit leveling; computes astronomic and laplace azimuth, latitude, and longitude from astronomical observations; computes gravity survey field data and earth tide gravity correction; evaluates and verifies results of all computations; supervises programming of electronic calculators. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises geodetic or topographic surveying party and computing activities of survey operations; plans work schedule; collects relevant data; supervises reconnaissance, plans and arranges for field party support in remote areas; coordinates surveying and computing activities; assigns duties, plans training, and instructs personnel; supervises field survey activities in support of photogrammetric requirements; prepares, reviews, and consolidates technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in surveying, and 3 in engineering computations, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, and 3 in engineering computations, for a total of 15 semester hours (6/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in engineering computations, 3 in data processing, and 6 for field experience in surveying, for a total of 24 semester hours (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in surveying, 3 in engineering computations, and 3 in technical writing, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in personnel supervision, 6 in engineering computations, 9 for field experience in surveying, 3 in data processing, and 3 in human relations, for a total of 36 semester hours (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in surveying, 3 in engineering computations, 3 in technical writing, and 3 in record keeping, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics (including algebra, trigonometry, geometry, and spherical geometry), 3 in physics (optics), 3 in surveying, 3 in geodetic surveying, 3 in technical writing, 3 in personnel supervision, 9 in engineering computations, 12 for field experience in surveying, 3 in human relations, 3 in introduction to management, and 3 in data processing, for a total of 48 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and 5 in project layout (6/78).

MOS-82E-001

Topographic Computer

82E20
82E30
82E40

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 82E was discontinued and its functions were incorporated into MOS 82D, Topographic Surveyor.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 812 (Surveying).

Description

Summary: Supervises or performs geodetic or topographic computations. *Skill Level 20:* Performs topographic computations, such as determining exact positions of points and distances between points under various map construction systems, transforming geographic coordinates to linear distances, and computing taped and stadia traverse and baseline measurements using natural and log functions of angles; studies assembled data compiled from surveyor's notes; determines appropriate algebraic formula and method of computation to be used; makes projection, grid, and triangulation computations by application of geometry to notes from astrological observations; performs fundamental computations and adjustments for third and lower order triangulation, traverse, vertical control, and special surveying schemes; performs fundamental computations involved in construction of military and geographic grids for maps; performs computations required for third and lower order astronomic azimuth and position observations, and solar observations; performs conversion computations for grid and geographic coordinates. NOTE: May have progressed to 82E20 from 82A10 (Rodman and Tapeman). *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as geodetic computer; measures time, records time values by numerical and graphical means, and employs time data in making first order computations; computes azimuth and length of long lines (over 250 miles), and computes transformation of coordinates from one grid zone to another adjacent or more distant zone; performs LaPlace azimuth computations in addition to all common astronomical computations involving application of spherical trigonometry. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; serves as chief topographic computer or as intelligence sergeant; coordinates surveying and computing activities, and performs related administrative duties; collects, prepares, and distributes material and data on intelligence matters, with special emphasis on intelligence matters peculiar to topographic operations; assigns work to subordinate personnel and conducts briefings.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in statistics, 3 in surveying, 3 in geodetic surveying, and 3 in engineering computations, for a total of 24 semester hours (12/75).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 3 in trigonometry, 3 in spherical geometry, 3 in statistics, 3 in surveying, 3 in geodetic surveying, 3 in engineering computations, and 6 for field experience in engineering, for a total of 30 semester hours (12/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 15 semester hours for field experience in engineering, 9 in engineering computations, 3 in algebra, 3 in trigonometry, 3 in geometry, 3 in spherical geometry, 3 in statistics, 3 in surveying, 3 in geodetic surveying, 3 in advanced surveying, 3 in advanced geodetic surveying, 3 in technical writing, 3 in personnel supervision, and 3 in project management, for a total of 60 semester hours (12/75).

MOS-83A-001

Printer's Apprentice

83A10

Exhibit Dates: 10/73-9/74. (Effective 10/74, MOS 83A was discontinued and its functions were incorporated into MOS 83F, Offset Pressman.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 813 (Map Reproduction and Printing).

Description

Assists in printing operations; installs and removes keybands and paper rollers and threads paper ribbon to monotype machines; operates and maintains multilith, bookbinding, photocopy, and photostat machines; sets up hand and machine cast type and arranges type cuts, spacers, quoins, and liners within chase; assembles and collates materials; cleans ink plates and press rollers; cuts and trims materials to required shapes and sizes; adjusts and sets paper cutting, perforating, drilling, punching, stitching, and folding machines; checks all materials printed for neatness and accuracy.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in offset press operation (2/75).

MOS-83D-001

Process Photographer

83D20

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 83D was discontinued and its functions were incorporated into MOS 83E, Photo and Layout Specialist.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 813 (Map Reproduction and Printing).

Description

Operates a process camera and develops film to produce line, half tone, and continuous tone negatives for offset printing; demonstrates understanding of darkroom chemistry, camera techniques, use of camera controls, proper settings of lens, use of filters, and selection of films. NOTE: May have progressed to 83D20 from 83A10 (Printer's Apprentice), or 83F10 (Offset Pressman).

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in process camera operation and 6 for field experience in graphic arts (5/76).

MOS-83E-001

Platemaker

83E20

Exhibit Dates: 10/73-2/77.

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 813 (Map Reproduction and Printing).

Description

Prepares and processes lithographic plates for use in offset printing, performing as a journeyman platemaker; knows procedures for single and multiple layouts, bookwork double burns, multiple-color systems, and register systems; works with presensitized and wipe-on plates. NOTE: May have progressed to 83E20 from 83A10 (Printer's Apprentice), or 83F10 (Offset Pressman).

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in platemaking for offset printing and 3 in stripping for offset printing (5/76).

MOS-83E-002

Photo and Layout Specialist

83E10
83E20

Exhibit Dates: 3/77–Present.

Career Management Field: 81 (Topographic Engineering), *subfield* 813 (Photolithographer).

Description

Summary: Operates lithographic copy cameras and prepares lithographic negatives and positives, flats, contact prints, color proofs, scribe and peel coats, and offset press plates. *Skill Level 10:* Operates copy cameras, film processors, and densitometers to produce negatives from camera-ready copy; selects correct materials, exposures, and chemicals; uses developer and fixer solutions; washes and dries negatives; operates platemaking equipment; produces rectified aerial prints; performs operator maintenance on photographic and platemaking equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; makes quality checks; performs detailed topographic process photography and lithographic stripping and platemaking.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic photography and 3 in platemaking (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic photography, 3 in platemaking, 3 in stripping for offset printing, and 3 for field experience in process photography, for a total of 12 semester hours (6/78).

MOS-83F-001

Offset Pressman

83F10
83F20
83F40

Exhibit Dates: 10/74–2/77.

Career Management Field: 82 (Topographic Engineering and Map Reproduction), *subfield* 813 (Map Reproduction and Printing).

Description

Summary: Operates duplicating and offset presses and supervises the operation of a pressroom. *Skill Level 10:* As a pressroom helper, assists in printing operations, including performing preventive maintenance on and operating multilith and photocopying equipment, storing suppies, loading and stacking paper, cleaning work area and equipment. *Skill Level 20:* Operates offset press to print multicolor work on light or heavy paper stock, using feeder, delivery, dampening, and inking assemblies; operates folding machines (16-page unit) and stitching machines; observes safety precautions and trains helpers. *Skill Level 40:* Able to perform the duties required for Skill Level 20; as a pressroom foreman, supervises multilith and offset press operators and bindery activities; schedules work and evaluates supply needs; coordinates pressroom printing and bindery activities; supervises equipment maintenance; explains and demonstrates the operation of lithograph and multilith machines and bindery techniques.

Recommendation, Skill Level 10

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (5/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in offset press operation, 6 for field experience in graphic arts, 3 in platemaking, and 2 in ink and color, for a total of 17 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in offset press operation, 6 for field experience in graphic arts, 3 in platemaking, 2 in ink and color, 3 in human relations, 3 in personnel supervision, and 3 in printing management for a total of 26 semester hours (5/76).

MOS-83F-002

Photolithographer

83F10
83F20
83F30
83F40

Exhibit Dates: 3/77–Present.

Career Management Field: 81 (Topographic Engineering), *subfield* 813 (Photolithographer).

Description

Summary: Operates bindery equipment, offset presses, and duplicating equipment and supervises photolithographic activities. *Skill Level 10:* Performs bindery operations and operates offset presses and duplicators to include servicing, adjusting, mixing of etch solutions, storing supplies, and cleaning work area and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; makes quality checks, detects equipment malfunctions, and demonstrates operation and maintenance procedures. *Skill Level 30:* Must be able to supervise personnel performing the duties of 83F20, 41K20 (Reproduction Equipment Repair Specialist), and 83E20 (Photo and Layout Specialist); supervises lithographic photography and platemaking, offset press and duplicating, and bindery operations in a small lithographic activity; may supervise more than 19 persons. NOTE: May have progressed to 83F30 from 83F20, 83E20, Photo and Layout Specialist, or 41K20, Reproduction Equipment Repair Specialist. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large photolithographic activity; organizes and controls work flow; prepares administrative and operational reports, and determines work and supply requirements; may supervise more than 30 persons.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in operation and maintenance of duplication and reproduction machines, and 3 for field experience in bindery operations (6/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in operation and maintenance of duplication and reproduction machines, 3 for field experience in bindery operations, and 3 for field experience in reproduction operations, for a total of 9 semester hours (6/78).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in operation and maintenance of duplication and reproduction machines, 3 for field experience in bindery operations, 3 for field experience in reproduction operations, 3 in basic photography, 3 in platemaking, and 3 in stripping for offset printing, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in operation and maintenance of duplication and reproduction machines, 3 for field experience in bindery operations, 3 for field experience in reproduction operations, 3 in basic photography, 3 in platemaking, 3 in stripping for offset printing, 3 in human relations, and 3 in personnel supervision, for a total of 24 semester hours (6/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in operation and maintenance of duplication and reproduction machines, 3 for field experience in bindery operations, 3 for field experience in reproduction operations, 3 in basic photography, 3 in platemaking, 3 in stripping for offset printing, 3 in human relations, 3 in personnel supervision, 3 in technical report writing, and 3 for field experience in management, for a total of 30 semester hours (6/78).

MOS-83Z-001

Photolithography Chief

83Z40
83Z50

Exhibit Dates: 10/73–2/77. (Effective 3/77, MOS 83Z was discontinued and its functions were incorporated into 81Z50, Topographic Engineering Supervisor, and into 83F30 and 83F40, Photolithographer.)

Career Management Field: 81 (Topographic Engineering and Map Reproduction), *subfield* 813 (Map Reproduction and Printing).

Description

Summary: Supervises process photography, photocopy, platemaking, and offset press activities. *Skill Level 40:* Able to perform the duties required for 83D20 (Process Photographer), 83E20 (Platemaker), or 83F20 (Offset Pressman); serving as the production manager of a printing plant, supervises photolithography activities; sets work priorities; schedules, routes, and dispatches materials; implements quality control and safety procedures; makes oral and written administrative reports on personnel and activities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as first sergeant of a company, supervising as many as 200 persons; assists in planning, coordinating, and supervising all company activities; advises superiors on all personnel matters; holds meetings to disseminate instructions and information to subordinate supervisors; supervises training activities. NOTE: May have progressed to 83Z50 from 83Z40 or 83F40 (Offset Pressman).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in offset press operation, 6 in process camera operation, 6 for field experience in graphic arts, 3 in platemaking, 3 in stripping for offset plates, 3 in ink and color, 3 in record keeping, 3 in human relations, 3 in personnel supervision, 3 in introduction to management, and 6 in printing management, for a total of 45 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (graphic arts) (5/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (graphic arts), 3 in industrial management, 3 in plant organization, and 6 for field experience in management, for a total of 15 semester hours (5/76).

MOS-84B-001

STILL PHOTOGRAPHER

84B20
84B40

Exhibit Dates: 10/73-2/77.

Career Management Field: 72 (Communications and Audio-Visual), *subfield* 722 (Audio-Visual).

Description

Summary: Takes still photographs for news releases, publications, and identification, and for medical training, historical, and scenic purposes; performs preventive maintenance on photographic equipment; takes photos from moving and fixed positions; uses aerial cameras. *Skill Level 20:* Arranges subject matter for proper photographic emphasis; selects appropriate camera, film, and accessory equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20, supervises still photographers and motion picture cameramen; determines the quantity, types, and technical details of photographs to be taken; establishes work priorities and schedules; critiques completed work, advising on technical and artistic deficiencies; corrects faulty work practices of subordinates by instruction and demonstration of proper techniques; prepares technical and administrative reports. NOTE: May have progressed to 84B40 from 84B20 or 84C20 (Motion Picture Photographer).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours in still photography (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in still photography. In the lower-division baccalaureate/associate degree category, 9 semester hours in still photography, 3 in personnel management, and 3 in technical writing, for a total of 15 semester hours (2/75).

MOS-84B-002

STILL PHOTOGRAPHIC SPECIALIST

84B10
84B20
84B30
84B40

Exhibit Dates: 3/77-Present.

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Takes ground and aerial still photographs; develops black and white and color film. *Skill Level 10:* Takes still photographs and processes prints in black and white and color with single-lens reflex, twin-lens reflex, and large formate cameras; takes photos for news releases, publications, identification, medical, historical, and other military purposes; performs preventive maintenance on equipment; understands proper photographic composition and is able to select the appropriate equipment, film, and accessories to obtain the desired results; processes motion picture film. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and supervises still photographers and motion picture cameramen; establishes work priorities and schedules; critiques completed work and advises on technical and artistic deficiencies; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises from 10-24 lower skill level personnel; supervises the operation of a photographic laboratory; provides technical guidance to lower skill level personnel; requisitions supplies; prepares technical and administrative reports and records. NOTE: May have progressed to 84B30 from 84B20 or 84C20 (Motion Picture Specialist). *Skill Level 40:* Able to supervise personnel performing the duties of 84B30 or 81E30 (Illustrator); serves as a mid-level manager, supervising from 12 to over 30 personnel in a photographic laboratory; assists superiors on personnel and operational matters; conducts on-the-job training and inspection of facilities. NOTE: May have progressed to 84B40 from 84B30 or 81E30 (Illustrator).

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in still photography, 3 in black and white darkroom procedures, 3 in color darkroom procedures, and 3 in motion picture processing, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 9 semester hours in still photography, 3 in black and white darkroom procedures, 3 in color darkroom procedures, and 3 in motion picture processing, for a total of 18 semester hours (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 9 semester hours in still photography, 4 in black and white darkroom procedures, 4 in color darkroom procedures, 3 in motion picture processing, and 3 in human relations, for a total of 23 semester hours (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 9 semester hours in still photography, 6 in black and white darkroom procedures, 6 in color darkroom procedures, 3 in motion picture processing, 3 in human relations, 3 in personnel supervision, and 3 for technical electives, for a total of 33 semester hours (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 9 semester hours in still photography, 6 in black and white darkroom procedures, 6 in color darkroom procedures, 3 in motion picture processing, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 3 for technical electives, for a total of 36 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education, 3 for field experience in management, and 3 in personnel management, for a total of 9 semester hours (5/78).

MOS-84C-001

MOTION PICTURE PHOTOGRAPHER

84C20

Exhibit Dates: 10/73-2/77.

Career Management Field: 72 (Telecommunications and Audio-Visual), *subfield* 722 (Audio-Visual).

Description

Takes aerial photographs and motion pictures; performs preventive maintenance on photographic equipment; operates equipment and coordinates the shooting of documentary, training, or newsreel films.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in film production, 3 in basic photography, and 3 in cinematic techniques, for a total of 12 semester hours (5/76).

MOS-84C-002

MOTION PICTURE SPECIALIST

84C10
84C20

Exhibit Dates: 3/77-Present.

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Takes aerial photographs and motion pictures; operates and performs preventive maintenance on motion picture sound and magnetic tape recording equipment. *Skill Level 10:* Plans, sets up, and operates movie equipment in a cinematography production (ground or aerial), under normal or adverse conditions; determines sound requirements and operates audio equipment; coordinates the shooting of documentary, training, or newsreel films. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel;

keeps production, supply, and maintenance records.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic cinematography, 3 in advanced cinematography, 3 in cinematic techniques, 3 in audio techniques, and 3 in audio recording, for a total of 15 semester hours (5/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic cinematography, 3 in advanced cinematography, 3 in cinematic techniques, 3 in audio techniques, 3 in audio recording, and 3 in record keeping, for a total of 18 semester hours (5/78).

MOS-84D-001

Audio Specialist

84D20

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 84D was discontinued and its functions were incorporated into MOS 84C, Motion Picture Specialist, and MOS 84F, Audio/TV Specialist.)

Career Management Field: 72 (Telecommunications and Audio-Visual), *subfield* 722 (Audio-Visual).

Description

Performs preventive and routine maintenance on audio equipment utilized in radio, television, and motion picture productions; determines the sound needs for a given production situation; sets up and operates the necessary audio equipment.

Recommendation

In the lower-division baccalaureate/associate degree category, 4 semester hours in sound techniques, 3 in sound recording, and 3 in radio production, for a total of 10 semester hours (5/76).

MOS-84E-001

TV Cameraman

84E20

84E40

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 84E was discontinued and its functions were incorporated into MOS 84F, Audio/TV Specialist.)

Career Management Field: 72 (Telecommunications and Audio-Visual), *subfield* 722 (Audio-Visual).

Description

Skill Level 20: Operates and performs preventive maintenance on television cameras; sets up camera and associated equipment; knows basic video techniques. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a senior television cameraman; supervises 3 to 6 television cameramen; coordinates work with other television specialists and directorial personnel; instructs camera crew in proper camera techniques; evaluates technical, artistic, and mechanical composition of camera work.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in studio techniques and 6 for a television workshop. (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in studio techniques, 6 for a television workshop, and 3 in human relations, for a total of 12 semester hours (5/76).

MOS-84F-001

TV Production Specialist

84F20

84F40

Exhibit Dates: 10/73-2/77.

Career Management Field: 72 (Telecommunications and Audio-Visual), *subfield* 722 (Audio-Visual).

Description

Summary: Serves as producer or director in the preparation and production of live and recorded television presentations. *Skill Level 20:* Is responsible for preproduction planning, preparation, and coordination in the production of television programs, including scripting, rewriting, stage and lighting design, and collection of production materials. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises production personnel engaged in stage property, makeup, and other production and related technical activities; conducts rehearsals, telecasts, and recording sessions; views recordings to evaluate quality, assists in editing; prepares detailed reports on production activities. NOTE: May have progressed to 84F40 from 84F20, 84E40 (TV Cameraman), or 84D20 (Audio Specialist).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in television production, 3 in writing for instructional television, 3 in set design and lighting for television, and 3 for a television workshop, for a total of 15 semester hours (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in television production, 3 in writing for instructional television, 3 in set design and lighting for television, 3 for a television workshop, 3 in television directing, 3 in human relations, and 3 in personnel supervision, for a total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in advanced television production, and 3 in advanced television directing, for a total of 9 semester hours (5/76).

MOS-84F-002

Audio/TV Specialist

84F10

84F20

84F30

Exhibit Dates: 3/77-Present.

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Serves as producer in the preparation and production of live and recorded television presentations; operates and performs maintenance on equipment. *Skill Level 10:* Is responsible for preproduction planning, preparation, and coordination in the production of television programs, including scripting, rewriting, stage and lighting design, and collection of production materials. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises production personnel engaged in stage property, makeup, and other production and related technical activities; conducts rehearsals, telecasts, and recording sessions; reviews recordings to evaluate quality, assists in editing; prepares detailed reports on production activities.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in writing for television, 3 in set design/lighting for television, 3 in television techniques, 3 in audio techniques, 3 in recording techniques, and 3 in technical aspects of broadcasting, for a total of 18 semester hours (5/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in writing for television, 3 in set design/lighting for television, 3 in television techniques, 3 in audio techniques, 3 in recording techniques, 3 in technical aspects of broadcasting, and 3 for field experience in broadcasting, for a total of 21 semester hours (5/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in writing for television, 3 in set design/lighting for television, 3 in television techniques, 3 in audio techniques, 3 in recording techniques, 3 in technical aspects of broadcasting, 3 in human relations, 3 for field experience in broadcasting, 3 in television production, 3 in personnel supervision, and 3 in broadcast management, for a total of 33 semester hours. In the upper-division baccalaureate category, 3 semester hours in advanced television production, and 3 in advanced television directing (5/78).

MOS-84G-001

Photographic Laboratory Specialist

84G10

84G20

84G40

84G50

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 84G was discontinued and its functions were incorporated into MOS 84B, Still Photographic Specialist, and MOS 84Z, Public Affairs/Audio-Visual Chief.)

Career Management Field: 72 (Telecommunications and Audio-Visual), *subfield* 722 (Audio-Visual).

Description

Summary: Develops black and white and color film and does contact and projection printing. *Skill Level 10:* Serves as a photographic laboratory helper-trainee, assisting Skill Level 20 personnel in the development of film by setting up and cleaning equipment, monitoring solution temperature, and handling film as instructed under close supervision. *Skill Level 20:* Processes black and white and color film, using a knowledge of photo-chemistry preparation, negative reading, paper selection, and cataloguing of negatives; processes motion picture film. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the operation of a photographic laboratory consisting of 5 to 25 subordinate photographic laboratory specialists; prepares work schedules and assigns laboratory tasks on a rotation basis to assure that subordinates obtain experience in all phases of photographic processing; evaluates work techniques, advises on technical problems, and conducts on-the-job training; requisitions supplies; prepares technical and administrative reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager, serving as first sergeant of a company; assists in planning, coordinating, and supervising all activities for a group of approximately 200 enlisted personnel; advises superiors on all personnel and operations matters; directs administrative activities; holds meetings with subordinate noncommissioned officers to provide them instructions and guidance; directs training; makes inspections.

Recommendation, Skill Level 10

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in black and white processing and 3 in color processing. In the lower-division baccalaureate/associate degree category, 3 semester hours in black and white processing, 3 in color processing, 3 in advanced color processing, 3 in darkroom procedures, and 3 in motion picture processing, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in color processing techniques and 3 for field experience in photography (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in black and white processing and 3 in color processing. In the lower-division baccalaureate/associate degree category, 3 semester hours in black and white processing, 3 in color processing, 3 in advanced color processing, 3 in darkroom procedures, 3 in motion picture processing, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 6 for technical electives, for a total of 30 semester hours. In the upper-division baccalaureate category, 3 semester hours in color processing techniques, 6 for field experience in photography, and 3 in motion picture editing, for a total of 12 semester hours (6/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in color processing techniques, 6 for field experience in photography, 3 in motion picture editing, 3 in introduction to management, 3 for field experience in management, and 3 in industrial arts education (photography), for a total of 21 semester hours (6/76).

MOS-84T-001

TV/Radio Broadcast Operations Chief

84T40

Exhibit Dates: 3/77-Present.

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Supervises technical operations, production activities, and equipment maintenance; plans, directs, and participates in surveys for site locations of radio and TV stations, rebroadcasting, distribution, or relay systems; plans manpower and equipment requirements; plans, directs, and conducts preproduction conferences with proponent agency, staff, and technical advisory personnel; provides TV production advice; prepares technical and administrative reports. NOTE: May have progressed to 84T40 from 84F30, Audio/TV Specialist or 26T30, Radio/TV Systems Technician.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in broadcast systems design, 3 in technical writing, and 3 in program development, for a total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 6 in broadcast management, 6 for field experience in management, and additional credit in broadcast management, broadcast production, directing, and technical aspects of broadcasting on the basis of institutional evaluation, for a minimum total of 15 semester hours (5/78).

MOS-84Z-001

Public Affairs/Audio-Visual Chief

84Z50

Exhibit Dates: 3/77-Present.

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Supervises photographic operations, television equipment repair, radio broadcasting, Army command and public affairs programs, and television production; supervises, coordinates, and provides technical assistance in the operation of public affairs and audio-visual activities; determines equipment and personnel requirements for an activity; serves as liaison among staff, maintenance, and operating personnel; prepares administrative and technical reports; assigns duties. NOTE: May have progressed to 84Z50 from 71Q40, Journalist, 71R40, Broadcast Journalist, 84B40, Still Photographic Specialist, or 84T40, TV/Radio Broadcast Operations Chief.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical writing. In the upper-division baccalaureate category, 3 semester hours in human relations, 3 for field experience in management, 3 in personnel management, 3 in public relations, 3 in broadcast management, 3 in industrial management, and 3 in industrial relations, for a minimum total of 21 semester hours; and, *if the duty assignment was broadcast supervisor,* 3 additional semester hours in broadcast management, for a total of 24 semester hours; *if the duty assignment was public affairs supervisor,* 3 semester hours in public management, for a total of 24 semester hours (5/78).

MOS-91A-001

Medical Corpsman

91A10

Exhibit Dates: 10/73-9/74. (Effective 10/74, MOS 91A was discontinued and its functions were incorporated into 91B10, Medical Specialist.)

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Performs basic medical care and treatment; assists in setting up and moving emergency and temporary medical care facilities; performs duties related to emergency care and transportation of patients; performs general bedside nursing activities and procedures, including patient hygiene, collection and labeling of specimens, measurement and recording of patient vital signs, administration of treatments and simple medications as directed, and supervised physical and occupational therapeutic functions; assists in surgical procedures under supervision.

Recommendation

In the vocational certificate category, the lower-division baccalaureate/associate degree category, or the upper-division baccalaureate category, 7 semester hours in fundamentals of nursing, 4 in emergency nursing procedures, 1 in communicable disease nursing, 1 in health science, and 1 in surgical nursing procedures, for a total of 14 semester hours (2/75).

MOS-91B-001

Medical Specialist

91B10

91B20

91B40

Exhibit Dates: 10/74-8/76.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Supervises dispensary or field medical facilities; administers emergency treatment independently to battlefield casualties; assists with inpatient and outpatient care and treatment. *Skill Level 10:* Administers emergency treatment in the field; assists in transporting patients to medical facilities; performs general bedside nursing aide activities and procedures, including patient hygiene, collection and labeling of specimens, and measurement and recording of patient vital signs; performs field sanitation procedures, including water treatment and waste disposal. *Skill Level 20:* Able to perform the duties required for Skill Level 10; administers medications to relieve pain, prevent infection, or treat patients in shock; administers plasma, other blood derivatives, and vaccines; carries out medical asepsis, including disposal of infectious materials and wastes and decontamination of communicable disease area; assists physician in performing routine diagnostic tests, administering immunizations, and performing minor surgical procedures; sets up medical equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises paraprofessional medical service activities in fixed and tactical facilities; plans and organizes work schedules; assigns duties; instructs subordinate personnel in proper work techniques and procedures; reviews, consolidates, and prepares technical, personnel, and administrative reports; manages dispensaries; assists in supervising the setting up of medical units.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 2 in first aid, and 1 in environmental health, for a total of 6 semester hours (3/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 2 in first aid, 2 in environmental health, 1 in administration of medications, 1 in surgical nursing procedures, and 1 in communicable disease nursing, for a total of 10 semester hours (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in patient care administration, 3 in personnel supervision, 2 in first aid, 2 in environmental health, 1 in administration of medications, 1 in surgical nursing procedures, and 1 in communicable disease nursing, for a total of 16 semester hours. In the upper-division baccalaureate category, *if the duty assignment was chief dispensary NCO/detachment sergeant at pay grade E-7,* 3 semester hours for field experience in management (3/76).

MOS-91B-002

Medical Specialist

91B10
91B20
91B30
91B40
91B50

Exhibit Dates: 9/76-Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Supervises dispensary or field medical facilities; administers emergency medical treatment to battlefield casualties; assists with inpatient and outpatient care and treatment; assists with technical and administrative management of medical treatment facilities. *Skill Level 10:* Administers emergency treatment in the field; assists in transporting patients to medical facilities; performs general bedside nursing aide activities and procedures, including patient hygiene, collection and labeling of specimens, and measurement and recording of patient vital signs; performs field sanitation procedures, including water treatment and waste disposal. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; manages the care and transportation of casualties until admitted to a medical facility; screens patients during sick call; assists physicians in patient care and minor surgical procedures; reads and interprets medical records, patient charts, and diagnostic reports and makes entries as required. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises paraprofessional medical service activities in fixed and temporary facilities; plans and organizes work schedules; instructs subordinate personnel in first aid and patient care procedures; administers medications; prepares and conducts training programs; prepares technical and patient reports; coordinates activities of dispensary or clinic with other medical facility activities; maintains supply levels; supervises setting up of unit equipment and shelters. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises paraprofessional medical service activities in large fixed and mobile treatment facilities; coordinates activities of wards, clinics, and combined medical care facilities; maintains intelligence information and records; supervises paraprofessional medical field activities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principal noncommissioned officer of staff sections, hospitals, other medical facilities, or service teams; serves on special boards and councils incident to medical service activities; supervises general administrative functions in a medical or treatment facility; supervises functional activities within the Army medical department or multifunctional medical staff activities; assists command surgeon in technical supervision of subordinate medical activities; evaluates personnel and the operational effectiveness of medical facilities; advises superiors on administrative medical matters; keeps official records and patient files; establishes reports, control systems; prepares periodic and special reports concerning assigned personnel, patients, and medical care and treatment; makes recommendations for improving working procedures and conditions; evaluates training programs and requirements; determines requirements and adequacy of medical service supporting elements such as ambulance, supply, and transportation. NOTE: May have progressed to 91B50 from 91B40, 91D40 (Operating Room Specialist), 91F40 (Psychiatric Specialist), 91G40 (Behavioral Science Specialist), 91H40 (Orthopedic Specialist), 91J40 (Physical Therapy Specialist), 91L40 (Occupational Therapy Specialist), 91N40 (Cardiac Specialist), 91P40 (X-ray Specialist), 91Q40 (Pharmacy Specialist), 91U40 (Ear, Nose, and Throat Specialist), 91V40 (Respiratory Specialist), 91W40 (Nuclear Medicine Specialist), 91Y40 (Eye Specialist), or 42C40 (Orthotic Specialist).

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in first aid, and 1 in environmental health, for a total of 7 semester hours (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in first aid, 3 in environmental health, and 3 for clinical experience, for a total of 12 semester hours (6/77).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in first aid, 3 in environmental health, 3 for clinical experience, 1 in administration of medication, 1 in surgical nursing, and 1 in communicable disease nursing, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in patient care administration (6/77).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in first aid, 3 in environmental health, 3 for clinical experience, 3 in personnel supervision, 1 in administration of medication, 1 in surgical nursing, and 1 in communicable disease nursing, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in patient care administration (6/77).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in emergency nursing procedures, 3 in first aid, 3 in environmental health, 3 for clinical experience, 3 in personnel supervision, 1 in administration of medication, 1 in surgical nursing, 1 in communicable disease nursing, 9 in administration or management, 6 in office management, 6 in introductory medical records administration, 6 for an internship in medical administration, and 3 in technical report writing, for a total of 48 semester hours. In the upper-division baccalaureate category, 3 semester hours in patient care administration, 3 in management of medical facilities, 3 in advanced medical records administration, 3 in management problems, 6 for field experience in management or for an internship in management of medical facilities, and 3 in personnel management, and additional credit in administration, management, medical records administration, management of medical facilities, and for an internship in medical administration on the basis of institutional evaluation, for a minimum total of 21 semester hours (6/77).

MOS-91C-001

Clinical Specialist

91C20
91C40

Exhibit Dates: 10/73-8/76.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Applies nursing care principles, procedures, and techniques in care and treatment of patients, normally under the general supervision of a registered nurse or physician. *Skill Level 20:* Able to perform the duties required for 91B10 (Medical Specialist); applies nursing care procedures in caring for and treating acutely, seriously, and chronically ill patients; observes, detects, reports, and records objective and subjective symptoms using correct terminology; accurately calculates, prepares, and dispenses the prescribed dosages of medication, administering them by mouth, intradermal, subcutaneous, and intromuscular injections, and observing and recording their effects; administers parenteral fluids and blood derivatives; performs catheterizations and bladder irrigations and instillations; obtains specimens from patients and records results of diagnostic test and treatment procedures; performs and records pre-operative preparations and post-operative care and observations; assists with prenatal, natal, postnatal, newborn, and pediatric care; performs or assists physician with diagnostic tests, therapeutic procedures, sterile procedures, blood transfusions, removal of sutures, and similar procedures under both hospital and field conditions; treats common disease and injuries and performs more technical life-saving treatment procedures in the absence of a physician or registered nurse; instructs patients in good health practices. *Skill Level 40:* Able to perform the duties required for Skill Level 20; applies techniques and principles of nursing management; knows patient admission, transfer, and discharge procedures; reads and interprets medical records, patients' charts, and diagnostic reports, and makes entries, as required; requisitions, stores, safeguards, and issues supplies; inspects medical facilities to insure comfortable, orderly, clean, and safe environment for patients; assists physicians and registered nurses in conducting in-service training programs; supervises other enlisted personnel in providing health care.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 12 semester hours for clincial experience in nursing, 8 in medical-surgical nursing, 4 in anatomy and physiology, 3 in maternal and child nursing, 2 in theory and practice of patient care, 2 in introduction to pharmacology, 2 in administration of medications, 1 in psychiatric nursing, 1 in nutrition, and 1 in preventive medicine, for a total of 36 semester hours (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 12 semester hours for clinical experience in nursing, 8 in medical-surgical nursing, 4 in anatomy and physiology, 3 in maternal and child nursing, 3 in team leadership, 3 in patient care administration, 2 in theory and practice of patient care, 2 in introduction to pharmacology, 2 in administration of medications, 1 in psychiatric nursing, 1 in nutrition, and 1 in preventive medicine, for a total of 42 semester hours. In the upper-division baccalaureate category, *if the duty assignment was chief wardmaster,* 3 semester hours for field experience in medical facility management (3/76).

PATIENT CARE SPECIALIST
(CLINICAL SPECIALIST)

91C10
91C20
91C30
91C40
91C50

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Applies nursing care principles, procedures, and techniques in care and treatment of patients, normally under the general supervision of a registered nurse or physician. *Skill Level 10:* Able to perform the duties required for 91B10 (Medical Specialist); applies nursing care procedures in caring for and treating acutely, seriously, and chronically ill patients; observes, detects, reports, and records objective and subjective symptoms using correct terminology; accurately calculates, prepares, and dispenses the prescribed dosages of medication, administering them by mouth, intradermal, subcutaneous, and intramuscular injections, and observing and recording their effects; administers parenteral fluids and blood derivatives; performs catheterizations and bladder irrigations and instillations; obtains specimens from patients and records results of diagnostic test and treatment procedures; performs and records pre-operative preparations and post-operative care and observations; assists with prenatal, natal, postnatal, newborn, and pediatric care; performs or assists physician with diagnostic tests, therapeutic procedures, sterile procedures, blood transfusions, removal of sutures, and similar procedures under both hospital and field conditions; treats common disease and injuries and performs more technical life-saving treatment procedures in the absence of a physician or registered nurse; instructs patients in good health practices. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists with planning and providing emergency medical treatment; supervises operational maintenance program of assigned equipment; instructs in first aid procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; requisitions, stores, and issues supples; inspects medical facilities; organizes work schedules, assigns duties, and instructs subordinates in work techniques and procedures; evaluates and counsels subordinate personnel; coordinates activities of duty area with other elements of the medical facility; prepares technical and administrative reports; assists with in-service training programs and with ward management. *Skill Level 50:* Able to perform the duties required for Skill Level 40; advises and assists professional staff in personnel, supply, fiscal, technical, and administrative matters; develops, implements, and evaluates training programs; establishes stock levels for supplies and equipment; establishes work priorities, distributes workload, and assigns personnel; compiles management data; inspects organizational activities, observes discrepancies, and takes corrective action.

Recommendation, Skill Levels 10 and 20

In the lower-division baccalaureate/associate degree category, 12 semester hours for clinical nursing experience, 8 in medical-surgical nursing, 4 in anatomy and physiology, 3 in maternal and child nursing, 3 in environmental health, 2 in theory and practice of patient care, 2 in pharmacology, 1 in nutrition, 1 in preventive medicine, and 1 in psychiatric nursing, for a total of 37 semester hours (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Levels 10 and 20. In the upper-division baccalaureate category, 3 semester hours in patient care administration (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 12 semester hours for clinical nursing experience, 8 in medical-surgical nursing, 4 in anatomy and physiology, 3 in maternal and child nursing, 3 in environmental health, 3 in human relations, 2 in theory and practice of patient care, 2 in pharmacology, 1 in nutrition, 1 in preventive medicine, and 1 in psychiatric nursing, for a total of 40 semester hours. In the upper-division baccalaureate category, 3 semester hours in patient care administration (6/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 12 semester hours for clinical nursing experience, 8 in medical-surgical nursing, 4 in anatomy and physiology, 3 in maternal and child nursing, 3 in environmental health, 3 in human relations, 3 in personnel supervision, 3 in introduction to management, 2 in theory and practice of patient care, 2 in pharmacology, 1 in nutrition, 1 in preventive medicine, and 1 in psychiatric nursing, for a total of 46 semester hours. In the upper-division baccalaureate category, 3 semester hours in patient care administration and 3 in medical facilities management (6/77).

MOS-91D-001

OPERATING ROOM SPECIALIST

91D20
91D40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Prepares the patient and the operating room suite for surgical procedures, assists during surgery as a member of the surgical team, and prepares and issues sterile medical supplies and equipment. *Skill Level 20:* Able to perform the duties required for 91B10 (Medical Specialist); performs duties under supervision and with assistance; prepares patient for surgery by shaving and cleansing operative field; checks that extraneous articles such as dentures, jewelry, and prostheses have been removed from patient; transports patient and assists with positioning patient on operating table; performs final skin preparation and surgical draping of patient; scrubs and dons masks, cap, gown, and gloves; assists surgeon, anticipating need for, and passing, instruments and other items and retracting tissue and cutting sutures as directed; assists nurse with accounting of items used during surgery; collects, cares for, labels, and logs in specimens; applies dressings and simple casts; receives, sorts, inventories, decontaminates, cleans, examines, and sterilizes medical and surgical items; stamps, stores, and issues sterilized items and inspects for outdate; loads and operates washer-sterilizers, sterilizers, and ethyline aerators; tests samples from distilling apparatus for purity; prepares and sterilizes distilled water and normal saline for irrigation; reports defective material to supervisor; cleans and maintains work area. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assists in managing operating room suite or central material section; plans and organizes work activities; inspects work area for physical and environmental safety; instructs Skill Level 20 personnel in techniques and procedures; serves as technical clinical consultant, administrative advisor, and coordinator to operating room, central material personnel, and other elements of medical treatment facility; conducts enlisted in-service programs to present, explain, plan, and discuss changes in clinical practices, new technical equipment, and changes in personnel policies; supervises procedures enabling units to function in toxic environments; keeps records; prepares reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic principles of operating room procedures (includes O.R. orientation and technique, microbiology, and surgical terminology), 3 in surgical basic sciences (includes anatomy and physiology in relation to the surgical approach to disease and injury), and 8 for a practicum in operating room techniques and procedures, for a total of 14 semester hours (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic principles of operating room procedures (includes O.R. orientation and technique, microbiology, and surgical terminology), 3 in surgical basic sciences (includes anatomy and physiology in relation to the surgical approach to disease and injury), 8 for a practicum in operating room techniques and procedures, 3 in principles and practices of management and supervision, for a minimum total of 17 semester hours; *if the duty assignment was chief operating room specialist or chief central materiel specialist,* 3 additional semester hours for field experience in management, for a total of 20 semester hours (3/76).

MOS-91D-002

Operating Room Specialist

91D10
91D20
91D30
91D40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Under the supervision of a registered nurse, supervises or assists in preparation and issue of sterile medical supplies and special equipment or prepares patient and operating suite for surgical procedures and assists during surgery. *Skill Level 10:* Able to perform the duties required for 91B10 (Medical Specialist); under close supervision, prepares and issues central material supplies and equipment, including sterile and nonsterile solutions, surgical packs, and instruments; performs operating room duties, including transporting, positioning, draping, and skin preparation of patient; circulates and/or scrubs to assist in minor operative procedures; collects and maintains records of specimens; maintains a record of items and inventories items after surgery is performed; applies dressings. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists in supervision, guidance, and training of subordinate personnel; maintains and operates highly technical surgical equipment; assists in surgical procedures; prepares tissue exam and culture slips; maintains emergency equipment; assists with cardiopulmonary resuscitation; inspects operating room to insure a clean, safe, and organized environment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; manages central material service; supervises maintenance of operating room equipment; supervises the requisitioning, storing, and issuing of supplies; manages the operating room suite, including the assignment of personnel; supervises, trains, and evaluates subordinate personnel; establishes work priorities; organizes work schedules; assigns duties; determines stock level of supplies and equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; administers central material service in large hospitals; supervises subordinate personnel and activities of central material service and operating rooms; advises and assists professional staff in clinical, fiscal, technical, and administrative matters; coordinates the activities of the operating room and central material service with other elements of the medical treatment facility; compiles and evaluates management data and personnel requirements.

Recommendation, Skill Levels 10 and 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic principles of operating room procedures (includes O.R. orientation and technique, microbiology, and surgical terminology), 3 in surgical basic sciences (includes anatomy and physiology in relation to the surgical approach to disease and injury), and 8 for a practicum in operating room techniques and procedures, for a total of 14 semester hours (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic principles of operating room procedures (includes O.R. orientation and technique, microbiology, and surgical terminology), 3 in surgical basic sciences (includes anatomy and physiology in relation to the surgical approach to disease and injury), 3 in personnel supervision, and 8 for a practicum in operating room techniques and procedures, for a total of 17 semester hours (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic principles of operating room procedures (includes O.R. orientation and technique, microbiology, and surgical terminology), 3 in surgical basic sciences (includes anatomy and physiology in relation to the surgical approach to disease and injury), 3 in personnel supervision, 3 for field experience in management, and 8 for a practicum in operating room techniques and procedures, for a total of 20 semester hours. In the upper-division baccalaureate category, credit in patient care administration and health facility management on the basis of institutional evaluation (6/77).

Career Management Field: 91 (Medical), *subfield* 914 (Medical Services).

Description

Summary: Assists with management of cardiac laboratory or records electrocardiograms (ECG) and vectorcardiograms or assists with specialized cardiac tests and examinations. *Skill Level 20:* Able to perform the duties required for 91B10 (Medical Specialist); sets up, calibrates, operates, and maintains electrocardiograph, vectorcardiograph, and phonocardiograph; attaches electrodes and conducts tests according to established procedures; transmits record to physician; cuts and mounts tracing for inclusion in medical record. *Skill Level 30:* Able to perform the duties required for Skill Level 20; prepares and sets up equipment in sterile field for right and left cardiac catheterization, venous and arterial angiography, and insertion of temporary and permanent pacemakers; calibrates and operates multichannel physiologic recorders with attachments and monitors ECG, pressure curves, and other physiologic parameters; standardizes and operates electronic oximeters, dye curve densitometers, and wheatstone bridges; calibrates and operates blood gas analyzer; calculates test results, using standardized formulas; forms, molds, and refines special cardiovascular catheters, needles, and tubing; assists with resuscitation procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; assists in managing cardiac laboratory; plans work schedules; assigns duties; trains personnel in work procedures and techniques; requisitions, stores, and issues supplies and equipment; enforces safety rules in use of equipment and medical gases; prepares, reviews, and consolidates technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1 semester hour in cardiovascular technology and 1 in cardiovascular electronics (3/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 10 semester hours for a cardiovascular internship, 3 in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular chemical analysis, 2 in physiological chemistry, 2 in pulmonary functions, 2 in cardiovascular technology, 2 in cardiovascular electronics, and 1 in technical mathematics, for a total of 27 semester hours (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 10 semester hours for a cardiovascular internship, 3 in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular chemical analysis, 2 in physiological chemistry, 2 in pulmonary functions, 2 in cardiovascular technology, 2 in cardiovascular electronics, 1 in technical mathematics, 3 in human relations, 1 in personnel supervision, and 2 in laboratory management, for a total of 33 semester hours (3/76).

MOS-91N-002

CARDIAC SPECIALIST

91N10
91N20
91N30
91N40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Assists with management of cardiac clinic or performs specialized noninvasive cardiac tests and examinations. *Skill Level 10:* Able to perform the duties required for 91B10 (Medical Specialist); under close supervision, assists Skill Level 20 personnel. *Skill Level 20:* Sets up, calibrates, operates, and maintains electrocardiograph, vectorcardiograph, and phonocardiograph; attaches electrodes and conducts tests according to established procedures; transmits record to physician; cuts and mounts tracing for inclusion in medical records; administers endurance tests; under supervision, performs technical examination during operation of artificial pacemaker; performs cardiopulmonary resuscitation and uses defibrillator; performs maintenance on equipment; receives, stores, and maintains level of supplies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance to subordinate personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; establishes work priorities and work schedules; assigns duties and instructs subordinates in procedures; inspects facilities; determines personnel requirements and conducts training programs; supervises operational maintenance program of laboratory and clinical equipment; evaluates and counsels personnel; establishes stock level for supplies and equipment and supervises requisition, storage, and issue of supplies.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular technology, 2 in cardiovascular electronics, 2 in physiological chemistry, and 1 in technical mathematics, for a total of 13 semester hours (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 10 semester hours for a cardiovascular internship, 3 in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular technology, 2 in cardiovascular electronics, 2 in physiological chemistry, and 1 in technical mathematics, for a total of 23 semester hours (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 10 semester hours for a cardiovascular internship, 3 in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular technology, 2 in cardiovascular electronics, 2 in physiological chemistry, 1 in technical mathematics, and 2 in personnel supervision, for a total of 25 semester hours (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 10 semester hours for a cardiovascular internship, 3 in cardiovascular anatomy and physiology, 3 in cardiovascular patient care, 2 in cardiovascular technology, 2 in cardiovascular electronics, 2 in physiological chemistry, 1 in technical mathematics, 3 in personnel supervision, 3 in human relations, and 2 for field experience in management, for a total of 31 semester hours (6/77).

MOS-91P-001

X-RAY SPECIALIST

91P20
91P40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), *subfield* 914 (Medical Services).

Description

Summary: Operates or supervises the operation of fixed and portable x-ray equipment to take radiographs and to assist with treatment procedures. *Skill Level 20:* Operates x-ray machines, utilizing proper controls, voltage, current, exposure time, and safety precautions; applies principles of anatomy and physiology in determining essential factors of positioning in radiopathy; assists during fluoroscopic procedures, such as gastrointestinal studies, aortograms, arteriograms, venograms, cardiac catheterizations, urograms, and pneumogynecograms; connects and operates other equipment items used during fluoroscopy, such as cine camera, fluoroscopic viewers, rapid film changers, and automatic high-pressure injectors of contrast media. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises x-ray activities; inspects safety standards and initiates corrective action if necessary; organizes work schedules, assigns duties, and instructs personnel in technical procedures; supervises specialists in radiopathy procedures; requisitions, stores, and issues supplies; reviews, consolidates, and prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in radiation protection, 6 in introductory radiologic technology, 9 for a radiologic internship, and 12 in radiologic technology procedures, positioning, contrast media, and intra-oral radiopathy, for a total of 30 semester hours (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in radiation protection, 3 in personnel management, 3 in equipment and supplies management, 6 in introductory radiologic technology, 12 for a radiologic internship, and 12 for radiologic procedures, positioning, contrast media, and intra-oral radiopathy, for a total of 39 semester hours (2/75).

MOS-91P-002

X-RAY SPECIALIST

91P10
91P20
91P30
91P40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Operates or supervises the operation of fixed and portable x-ray equipment to take radiographs and to assist with treatment procedures. *Skill Level 10:* Able to perform the duties required for 91B10 (Medical Specialist); performs routine radiographic procedures; operates x-ray machines, utilizing proper exposure factors; applies radiation safety principles to protect self and patients from ionizing radiation; assists radiologists with fluoroscopic examination and simple special radiographic procedures; processes radiographic films by manual and automatic methods; performs routine patient administration, including the maintenance of radiographic records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assembles radiographs for reading; performs body section, stereoscopic foreign body localization, prenatal, and pediatric radiographic procedures; performs follow-up radiographic examinations of the digestive, urogenital, respiratory, vascular, and nervous system; takes radiographs of the extremities, trunk, and skull, using portable equipment; assists with special radiographic and fluoroscopic procedures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs complex or specialized radiograph procedures or supervises a medium-sized x-ray activity; performs routine examinations or assists with special examinations of the urogenital, respiratory, vascular, and nervous systems; inspects x-ray activities for compliance with radiation safety procedures and initiates corrective action; organizes work schedules; assigns duties; instructs personnel in technical procedures; supervises preventive maintenance of equipment; supervises procedures to enable unit to function in a toxic environment; evaluates personnel performance and prepares evaluation reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a large x-ray activity; inspects clinic to insure a safe, clean, orderly, comfortable environment for patients; establishes work priorities; reviews, consolidates, and prepares technical, administrative, and personnel reports; coordinates activities of clinic with other elements of the medical treatment facility.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 9 semester hours for a clinical internship, 6 in radiographic techniques, and 3 in radiation protection, for a total of 18 semester hours (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, and 3 in special radiographic procedures, for a total of 27 semester hours (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, 3 in special radiographic procedures, and 3 in personnel supervision, for a total of 30 semester hours. In the upper-division baccalaureate category, credit in patient care administration on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 15 semester hours for a clinical internship, 6 in radiographic techniques, 3 in radiation protection, 3 in special radiographic procedures, 3 in personnel supervision, and 3 for field experience in management, for a total of 33 semester hours. In the upper-division baccalaureate category, 3 semester hours in radiology department administration and credit in patient care administration on the basis of institutional evaluation (6/77).

MOS-91Q-001

PHARMACY SPECIALIST

91Q10
91Q20
91Q40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), *subfield* 914 (Medical Services).

Description

Summary: Works under the supervision of a registered pharmacist or a physician; compounds, manufactures, and packages pharmaceutical products; assists in dispensing pharmaceuticals. *Skill Level 10:* Prepares commonly used ointments, solutions, lotions, and syrups; pours, weighs, and measures dosages; grinds, heats, filters, dissolves, and mixes liquid or soluble drugs and chemicals; packages, labels, stores, and issues pharmaceuticals. *Skill Level 20:* Able to perform the duties required for Skill Level 10; interprets and verifies authenticity of prescriptions prepared by physicians, dentists, podiatrists, and veterinarians; assists a registered pharmacist in preparing drugs and medications, including narcotics and registered drugs; labels prescriptions; files signature cards and prescriptions. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assists with the management of pharmacy, assuring compliance with Federal and Army laws, rules, and regulations; keeps inventory of supplies; provides information regarding strength and composition of medications; supervises a minimum of five pharmacy personnel; reviews, consolidates, and prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 6 semester hours in general chemistry, 6 in general biology, 6 in laboratory techniques, and 6 in health sciences, for a total of 24 semester hours (2/75).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 9 semester hours in laboratory techniques, 6 in general chemistry, 6 in biology, 6 in health science, 3 in administration, and 3 for a pharmaceutical assistant internship, for a total of 33 semester hours. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 9 semester hours in administration, 9 in laboratory techniques, 9 for a pharmaceutical assistant internship, 6 in general chemistry, 6 in biology, and 6 in health sciences, for a total of 45 semester hours. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

MOS-91Q-002

PHARMACY SPECIALIST

91Q10
91Q20
91Q30
91Q40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Supervises or prepares, controls, and issues pharmaceutical products, under supervision of pharmacist or physician. *Skill Level 10:* Able to perform the duties required for 91B10 (Medical Specialist); under supervision, interprets, compounds, manufactures, and files prescription orders, bulk drug orders, or unit dose orders; performs storage, accounting, inventory, and control procedures for pharmaceuticals; operates and maintains manufacturing and packaging equipment; assists in setting up unit equipment and shelters. *Skill Level 20:* Able to perform the duties required for Skill Level 10; issues and requisitions medications; evaluates prescription orders, bulk drug orders, or unit dose orders; checks drug orders for interactions, incompatibilities, and availability of dosage forms; issues medications to patients, wards, clinics, and other using agencies. *Skill Level 30:* Able to perform the duties required for Skill Level 20: provides guidance to subordinate personnel; assists in pharmacy inspections; orders standard and non-standard supplies; maintains stock levels; supervises sections within pharmacy service. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in compiling information for meetings of Therapeutic Agent Board; assists in revision and update of hospital formulary or drug list; organizes work schedules; instructs personnel in procedures and conducts in-service training; evaluates personnel and prepares evaluation reports; sets stock levels and prepares requisition; prepares technical, personnel, and administrative reports; coordinates pharmacy activities with other elements of medical treatment facility.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 5 semester hours in introduction to pharmacy practice and 3 in pharmacy assisting, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, health sciences, and physiology on the basis of institutional evaluation, for a minimum total of 8 semester hours. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 10 semester hours in introduction to pharmacy practice and 3 in pharmacy assisting, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, health sciences, and physiology on the basis of institutional evaluation, for a minimum total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 10 semester hours in introduction to pharmacy practice, 3 in pharmacy assisting, and 1 in inventory control, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, pharmaceutical preparations, health sciences, physiology, and laboratory techniques on the basis of institutional evaluation, for a minimum total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 10 semester hours in introduction to pharmacy practice, 3 in pharmacy assisting, 3 in personnel supervision, 2 in principles of administration, and 1 in inventory control, and additional credit in general chemistry, pharmaceutical chemistry, pharmacology, pharmaceutical preparations, health sciences, physiology, and laboratory techniques on the basis of institutional evaluation, for a minimum total of 19 semester hours. In the upper-division baccalaureate category, 3 semester hours in pharmaceutical laboratory and 2 in pharmaceutical mathematics, and additional credit in medical facility management on the basis of institutional evaluation, for a minimum total of 5 semester hours (6/77).

MOS-91R-001

FOOD INSPECTION SPECIALIST

91R10
91R20
91R40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), *subfield* 914 (Medical Services).

Description

Summary: Inspects food and food products for quality, safety, and adherence to contractual specifications. *Skill Level 10:* Assists with food hygiene and quality assurance inspections, using principles of statistical sampling, food microbiology, laboratory analysis, and knowledge of food processing and preservation. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts subsistence procurement inspections; inspects processing, handling, packaging, packing, and quality control procedures in canneries, slaughterhouses, and dairies and in waterfood, meatpacking and dehydration plants; examines poultry, eggs, fruit, vegetables, seafoods, meats, and dairy products; selects, prepares, and transmits samples for laboratory testing; reviews test results for contractual requirements; records contractual deficiencies and violations and initiates recommendations for corrective action; develops and applies double and multiple statistical sampling procedures and switching techniques; reviews and updates publications relative to quality assurance procedures; assists veterinarian in antemortem and postmortem examination of food animals. *Skill Level 40:* Able to perform the duties required for Skill Level 20; trains subordinates in food inspection and sanitary control programs; analyzes reports and surveys and recommends remedial action; coordinates transportation, administration, and logistical support of food inspectors assigned from parent veterinary activity; reviews, consolidates, and prepares team inspection records and other technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 8 semester hours in food science, 3 in inspection procedures and regulations, and 2 in microbiology, for a total of 13 semester hours (3/76).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 17 semester hours in food science, 4 in inspection procedures and regulations, and 2 in microbiology, for a total of 23 semester hours (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 17 semester hours in food science, 4 in inspection procedures and regulations, 3 in human relations, 3 in personnel supervision, and 2 in microbiology, for a total of 29 semester hours. In the upper-division baccalaureate category, *if the duty assignment was chief food inspection NCO at pay grade E-8,* 3 semester hours for field experience in management (3/76).

MOS-91R-002

VETERINARY SPECIALIST

91R10
91R20
91R30
91R40
91R50

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 913 (Health Services).

Description

Summary: Inspects food and food products for quality, safety, and adherence to contractual specifications. *Skill Level 10:* Assists with food hygiene and quality assurance inspections, using principles of statistical sampling, food microbiology, laboratory analysis, and knowledge of food processing and preservation. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts subsistence procurement inspections; inspects processing, handling, packaging, packing, and quality control procedures in canneries, slaughterhouses, and dairies, and in waterfood, meatpacking and dehydration plants; examines poultry, eggs, fruit, vegetables, seafoods, meats, and dairy products; selects, prepares, and transmits samples for laboratory testing; reviews test results for contractual requirements; records contractual deficiencies and violations and initiates recommendations for corrective action; develops and applies double and multiple statistical sampling procedures and switching techniques; reviews and updates publications relative to quality assurance procedures; assists veterinarian in antemortem and postmortem examination of food animals. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises procurement quality assurance and surveillance inspections; establishes work priorities; organizes work schedules; assigns duties; instructs subordinate personnel; supervises equipment maintenance programs; prepares and conducts training programs; evaluates personnel performance; maintains technical records; requisitions, stores, and issues supplies. *Skill Level 40:* Able to perform the duties required for Skill Level 30; trains subordinates in food inspection and sanitary control programs; analyzes reports and surveys and recommends remedial action; coordinates transportation, administration, and logistical support of food inspectors; reviews, consolidates, and prepares team inspection records and other technical, personnel, and administrative reports. *Skill Level 50:* Able to perform the duties required for 91R40, 91S40 (Environmental Health Specialist), or 91T40 (Animal Specialist); develops work methods and procedures; develops, directs, and evaluates training programs; coordinates activities of veterinary and environmental health activities; assists professional staff with technical, administrative, and fiscal matters.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 7 semester hours in food science, 6 in inspection procedures and regulations, and 1 in veterinary preventive medicine, for a total of 14 semester hours (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 16 semester hours in food science, 7 in inspection procedures and regulations, and 2 in veterinary preventive medicine, for a total of 25 semester hours (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 16 semester hours in food science, 7 in inspection procedures and regulations, 2 in veterinary preventive medicine, and 2 in personnel supervision, for a total of 27 semester hours (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 16 semester hours in food science, 7 in inspection procedures and regulations, 3 in personnel supervision, 3 in human relations, and 2 in veterinary preventive medicine, for a total of 31 semester hours (6/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 16 semester hours in food science, 7 in inspection procedures and regulations, 3 in personnel supervision, 3 in human relations, 3 in principles of management, and 2 in veterinary preventive medicine, for a total of 34 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (6/77).

MOS-91S-001

PREVENTIVE MEDICINE SPECIALIST

91S10
91S20
91S40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), *subfield* 914 (Medical Services).

Description

Summary: Supervises or conducts surveys and inspections of environmental factors affecting health of persons in areas of concern. *Skill Level 10:* Inspects living quarters, food-handling establishments, water and waste disposal systems, work areas, barber shops and other facilities to detect deficiencies in sanitation standards and recommends corrective action; collects, identifies, preserves, and ships medically important arthropods and rodents; performs pest control procedures, including selection, safe handling, mixing, application, and disposal of pesticides; conducts environmental health surveys to determine compliance with standards and regulations; inspects facilities where ionizing and non-ionizing radiation is produced to identify and report potential health hazards; operates and maintains equipment used in inspections, surveys, and control procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs field studies and surveys to determine potential for and incidence of disease vectors; tests and recommends procedures to control insects resistant to insecticides; conducts on-the-job training for field sanitation teams in environmental sanitation and control of animal reservoirs and disease vectors. *Skill Level 40:* Able to perform the duties required for Skill Level 20; plans work schedules; assigns duties; instructs Skill Level 10 and 20 personnel in techniques and procedures; requisitions, stores, and issues supplies and equipment; assists in analyzing and evaluating data; prepares, reviews, and consolidates technical, administrative, and personnel reports.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in environmental science (includes basic concepts of chemistry, biology, laboratory procedures, mathematics, and statistics), 3 in environmental hygiene and engineering, 3 in medical entomology, 3 in environmental health practices and procedures, 2 in water supply and pollution control, 2 in chemical and radiological safety, 1 in food technology, and 1 in occupational health practices, for a total of 18 semester hours (3/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in environmental science (includes basic concepts of chemistry, biology, laboratory procedures, mathematics, and statistics), 3 in environmental hygiene and engineering, 3 in medical entomology, 3 in environmental health practices and procedures, 2 in water supply and pollution control, 2 in chemical and radiological safety, 1 in food technology, 1 in occupational health practices, 3 in pest management, and 3 for a practicum in environmental sanitation, for a total of 24 semester hours (3/76).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in

environmental science (includes basic concepts of chemistry, biology, laboratory procedures, mathematics, and statistics), 3 in environmental hygiene and engineering, 3 in medical entomology, 3 in environmental health practices and procedures, 2 in water supply and pollution control, 2 in chemical and radiological safety, 1 in food technology, 1 in occupational health practices, 3 in pest management, 3 for a practicum in environmental sanitation, and 2 in personnel administration, for a total of 26 semester hours (3/76).

MOS-91S-002

Environmental Health Specialist

91S10
91S20
91S30
91S40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 913 (Health Services).

Description

Summary: Supervises, conducts, or assists in surveys and inspections and establishes control measures of environmental factors affecting health of persons in areas of concern. *Skill Level 10:* Conducts environmental health surveys and inspections and assists in environmental health laboratories by inspecting living quarters, food handling establishments, water systems, liquid and solid waste disposal systems, barber and beauty shops, swimming facilities, nurseries, and industrial areas; inspects personal hygiene practices; reports deviations from prescribed health standards and recommends corrective action; collects specimens and samples and submits them to the laboratory; mixes and applies insecticides, rodenticides, and repellants; performs bacteriological examination and chemical analysis of water samples and inspects for quarantine standards; performs operator maintenance on environmental health equipment; collects data for environmental health reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; conducts environmental health surveys, inspections, and laboratory procedures; performs stream surveys; inspects hospital infectious waste control and disposal procedures; interviews food poisoning patients and tuberculosis, VD, and other communicable disease patients and contacts; conducts related communicable disease investigations; completes case and contact reports; assists with monitoring electromagnetic radiation; identifies medically important parasites, disease vectors, and their animal hosts and recommends insect control procedures; inspects and provides technical assistance for water supply systems, liquid and solid waste collection, treatment, and disposal; inspects and provides technical assistance for collection, treatment, and disposal of hazardous waste; performs operator maintenance on environmental health equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises environmental health sections; collects and analyzes data on occupational illness, injuries, and environmental health; organizes work schedules; assigns duties; instructs in work techniques and procedures; plans and conducts training programs; supervises operational maintenance program of assigned equipment; evaluates personnel performance and prepares evaluation reports as well as administrative, technical, and personnel reports; prepares supply and equipment requisitions. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises environmental health activities; organizes environmental stress surveillance programs; coordinates toxicology data with poison control center; plans vector control program; analyzes and evaluates data pertaining to environmental health activities; determines personnel requirements and establishes work priorities; advises and assists professionals in supply, fiscal, technical, and administrative matters.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 15 semester hours in sanitation and disease control (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 18 semester hours in sanitation and disease control and 9 in environmental science (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 18 semester hours in sanitation and disease control, 9 in environmental science, 3 in human relations, and 3 in personnel administration, for a total of 33 semester hours (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in management problems and 3 for field experience in management (6/77).

MOS-91T-001

Veterinary Specialist

91T20
91T40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Cares for and treats animals in field veterinary service facilities, research laboratories, and veterinary clinics. *Skill Level 20:* Restrains, isolates, and quarantines animals which have signs of communicable diseases; performs emergency treatment procedures; sets up equipment and assists veterinarian with examinations, surgical procedures, immunizations, and procedures to identify, prevent, and control zoonotic diseases; collects specimens for laboratory analysis and conducts, evaluates, and records the results of macroscopic and microscopic studies; examines animals for external parasites and prepares and examines slides to identify microscopic external and internal parasites; administers medications and inoculations, as prescribed; maintains laboratory animal colony, under supervision; makes appropriate entries on animal health records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises veterinary specialists in veterinary dispensary, animal hospital, laboratory animal colony, and animal farm; plans work schedules; trains veterinary specialists in work techniques and procedures; assures compliance with state, federal, and military regulations for handling, housing, and quarantine of animals; keeps inventory of all species of animals, laboratory and special diets, and equipment; evaluates animals to determine suitability for use in specific research projects; requisitions, stores, and issues supplies, equipment, and surgical instruments; reviews and prepares technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours for a practicum in veterinary science, 3 in anatomy and physiology of animals, 2 in microbiology, 2 in animal hygiene, 2 in screening for diseases in animal populations, 2 in medical and surgical procedures for animals, 1 in animal nutrition, 1 in pharmacology, and 1 in administration of medications, for a total of 20 semester hours. If served as a researcher or participated in research studies, additional credit on the basis of institutional evaluation. (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours for a practicum in veterinary science, 3 in anatomy and physiology of animals, 3 in personnel supervision, 3 in administration of veterinary service facilities, 2 in microbiology, 2 in animal hygiene, 2 in screening for diseases in animal populations, 2 in medical and surgical procedures for animals, 1 in animal nutrition, 1 in pharmacology, and 1 in administration of medications, for a total of 26 semester hours. In the upper-division baccalaureate category, 2 semester hours in veterinary science research; *if the duty assignment is chief veterinary animal NCO at pay grade E-8,* 3 additional semester hours for field experience in management, for a total of 5 semester hours. If served as a researcher or participated in research studies, additional credit on the basis of institutional evaluation. (3/76).

Career Management Field: 91 (Medical), *subfield* 913 (Health Services).

Description

Summary: Under the direction of a veterinarian, supervises, performs, or assists in the care and treatment of small, medium-sized, and large animals. *Skill Level 10:* Assists in providing animal care, management, and treatment by feeding and watering small and medium-sized animals; cleans and sanitizes animal facility, equipment, and utensils; receives and identifies incoming animals; quarantines incoming and sick animals; administers parenteral and oral medications and immunizations; collects and prepares blood and urine samples and fecal specimens; performs common laboratory tests, such as examination for microfilaria; assists in taking radiographs; prepares animals and equipment for surgery and anesthesia; administers post-operative treatment and monitors post-operative recovery; provides emergency treatment when appropriate; records laboratory results in health records. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides animal care, management, and treatment; prepares health and vaccination certificates for veterinarian's signature; requisitions, receives, stores, and inventories pharmaceuticals, supplies, and equipment; prepares reagents, emergency drugs, and special animal rations; maintains animal files, including registration, health data, and immunization record; identifies common animal diseases and performs standard treatment techniques; debrides and sutures superficial wounds; calculates and administers drugs; induces general anesthesia and operates anesthetic equipment; assists in surgical procedures; maintains operating room supplies and cleanliness; performs appropriate laboratory analyses; informs owners of proper treatment instructions and medications prescribed by veterinarian; supervises animal registry and animal pound. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small and medium-sized veterinary activities; organizes work schedules and assigns duties; instructs personnel in proper work techniques and procedures; evaluates personnel performance and prepares evaluation reports; establishes safety procedures; supervises operator maintenance on assigned equipment; conducts in-service training programs; supervises requisition of supplies and equipment; prepares, reviews, and consolidates technical, personnel, and administrative reports; inspects facility; assists veterinarian in personnel, supply, and fiscal matters. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large veterinary activities.

Recommendation, Skill Level 10

In the vocational certificate category, 4 semester hours in veterinary laboratory techniques. In the lower-division baccalaureate/associate degree category, 2 semester hours in animal hygiene, 2 in animal diseases, 1 in microbiology, 1 in anatomy and physiology of animals, and 1 in administration of drugs, for a total of 7 semester hours. If served as a researcher or participated in research studies, additional credit on the basis of institutional evaluation. (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in veterinary laboratory techniques and 3 in office practices and procedures. In the lower-division baccalaureate/associate degree category, 6 semester hours for a practicum in veterinary science, 4 in veterinary laboratory techniques, 4 in microbiology, 3 in anatomy and physiology of animals, 3 in administration of drugs, 2 in animal hygiene, 2 in animal diseases, and 1 in surgical procedures for animals, for a total of 25 semester hours. If served as a researcher or participated in research studies, additional credit on the basis of institutional evaluation. (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in veterinary laboratory techniques and 3 in office practices and procedures. In the lower-division baccalaureate/associate degree category, 6 semester hours for a practicum in veterinary science, 4 in veterinary laboratory techniques, 4 in microbiology, 3 in anatomy and physiology of animals, 3 in administration of drugs, 3 in personnel supervision, 3 in technical report writing, 3 in office management, 2 in animal hygiene, 2 in animal diseases, and 1 in surgical procedures for animals, for a total of 34 semester hours. If served as a researcher or participated in research studies, additional credit on the basis of institutional evaluation. (6/77).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, credit in veterinary facility management and for field experience in management on the basis of institutional evaluation. If served as a researcher or participated in research studies, additional credit on the basis of institutional evaluation. (6/77).

MOS-91U-001

EAR, NOSE, AND THROAT SPECIALIST

91U20

91U40

Exhibit Dates: 9/75-8/76.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Supervises or conducts routine diagnostic tests and assists in caring for and treating patients with ear, nose, and throat illnesses or injuries. *Skill Level 20:* Able to perform the duties required for 91B10 (Medical Specialist); administers and records patient responses to various labyrinthine tests; measures auditory acuity with audiometer and tuning forks, records test results, makes graphs and interpolates to determine patients' test scores and need for further audiometric testing; irrigates patients' ears; assists physician with clinical procedures, such as Proetz position treatment, antral irrigation, control of nose and throat hemorrhage, dilation of salivary gland ducts and removal of calculi, reduction of nasal fractures, biopsies of the ears, nose, and throat; assists surgeon in removing cysts, nasal polyps, and other minor surgery; assists with application of post operative dressings and procedures; sterilizes and cares for instruments and equipment; performs and records results of special diagnostic tests, such as electronystagmography and acoustic bridge. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assists in management of ENT clinics; instructs Skill Level 20 personnel in proper work techniques and procedures; organizes work schedules; assigns duties; sets priorities; inspects clinic and takes corrective action, as necessary; supervises maintenance program of clinical equipment; requisitions, stores, and issues supplies; prepares administrative and patient reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 4 semester hours for clinical experience in otolaryngology, 4 for clinical experience in audiometry, 3 in principles of audiometry, 3 in diseases and injuries of the ears, nose, and throat, and 1 in anatomy and physiology of the ears, nose, and throat, for a total of 15 semester hours (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 4 semester hours for clinical experience in otolaryngology, 4 for clinical experience in audiometry, 3 in principles of audiometry, 3 in diseases and injuries of the ears, nose, and throat, 1 in anatomy and physiology of the ears, nose, and throat, 2 in clinic management, and 1 in personnel supervision, for a total of 18 semester hours (3/76).

MOS-91U-002

EAR, NOSE, AND THROAT (ENT) SPECIALIST

91U10

91U20

91U30

91U40

Exhibit Dates: 9/76-Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Conducts routine diagnostic tests and assists physician in care and treatment of ear, nose, and throat patients. *Skill Level 10:* Able to perform the duties required for 91B10 (Medical Specialist); administers and records patient responses to various diagnostic and labyrinthine tests; measures auditory acuity; irrigates patients' ears; sets up equipment and assists physician with clinical procedures; obtains specimens for culture and prepares laboratory requests; prepares equipment trays and basins; assists the physician in the performance of minor surgery; sterilizes and cares for instruments and equipment; operates resuscitation and oxygenation equipment; performs and records the results of diagnostic tests; assists audiologist in hearing aid evaluation. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; administers prescribed medication. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists in managing a small ear, nose, and throat clinic; organizes work schedules; assigns duties; instructs subordinates in work techniques and procedures; supervises operational maintenance program of clinical equipment; prepares training program; evaluates personnel performance and prepares evaluation reports; coordinates activities of ENT clinic with other elements of the medical treatment facility; assists physician with personnel, fiscal, and administrative matters; prepares, reviews, and consolidates technical and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in managing a large ear, nose, and throat clinic.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 4 semester hours for a practicum in otolaryngology, 3 in principles of otolaryngology, and 1 in anatomy and physiology, for a total of 8 semester hours (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 7 semester hours for a practicum in otolaryngology, 3 in principles of otolaryngology, 2 in principles of audiometry, and 1 in anatomy and physiology, for a total of 13 semester hours (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 7 semester hours for a practicum in otolaryngology, 3 in principles of otolaryngology, 3 in personnel supervision, 2 in principles of audiometry, 2 in communication skills, 2 in principles of management, 1 in anatomy and physiology, and 1 in health care management, for a total of 21 semester hours. In the upper-division baccalaureate category, credit in patient care administration on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, credit in patient care administration and medical facility management on the basis of institutional evaluation (6/77).

MOS-91V-001

RESPIRATORY SPECIALIST

91V20
91V40

Exhibit Dates: 10/73–8/76.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Operates equipment to deliver medicinal gases and drugs in aerosoled mist to respiratory system and performs diagnostic tests. *Skill Level 20:* Able to perform the duties required for 91B10 (Medical Specialist); administers oxygen and aerosols containing prescribed medications to aid ventilation; assists in operation of mechanical respiratory aids; observes and records response of patients and conditions requiring professional attention; operates spirometer to obtain diagnostic data; performs blood gas analyses; calculates respiratory volumes; prepares records of test results. *Skill Level 40:* Able to perform the duties required for Skill Level 20; plans work schedules and makes duty assignments; trains subordinate personnel in techniques and procedures; provides orientation to other hospital personnel; instructs on precautions and enforces safety regulations; responsible for purchases and inventories; prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in basic sciences (mathematics, chemistry, physics), 4 in anatomy and physiology, 1 in pharmacology, 2 in microbiology and immunology, 8 in cardiopulmonary physiology and resuscitation, 4 in clinical medicine, 1 in physical therapy, 4 in respiration therapy, and 8 for clinical experience in respiration therapy, for a total of 34 semester hours (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 2 semester hours in basic sciences (mathematics, chemistry, physics), 4 in anatomy and physiology, 1 in pharmacology, 2 in microbiology and immunology, 8 in cardiopulmonary physiology and resuscitation, 4 in clinical medicine, 1 in physical therapy, 4 in respiration therapy, 8 in clinical experience in respiration therapy, 3 in personnel supervision and 3 in human relations, for a total of 40 semester hours (3/76).

MOS-91V-002

RESPIRATORY SPECIALIST

91V10
91V20
91V30
91V40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Assists with the care and treatment of patients requiring respiratory assistance; performs pulmonary function tests under the supervision of a physician or anesthetist. *Skill Level 10:* Able to perform the duties required for 91B10 (Medical Specialist); administers respiratory therapy and performs pulmonary function tests; receives and interprets treatment request; prepares and tests equipment; mixes prescribed cardiopulmonary medications; verifies identity and instructs, orients, and positions patient for therapy; adjusts controls of intermittent positive pressure breathing (IPPB) apparatus and administers therapy; assesses tidal volume and adjusts apparatus to meet ventilatory changes; observes, corrects, and records patient response; administers aerosol and gas therapy; adjusts and maintains equipment during operation and observes safety regulations; administers pulmonary drainage procedures; percusses and vibrates patient; collects and visually analyzes sputum specimens for foreign substances; assists with cardiopulmonary resuscitation, evaluates effectiveness, and records results; prepares and tests nebulizer for administration of medication and adjusts for drug concentration; follows isolation procedures; disassembles, cleans, sterilizes, assembles, and tests respiratory therapy equipment; adjusts volume ventilator controls for initial operation and during therapy; observes and corrects patient response and evaluates ventilator effectiveness; weans patient from ventilator dependence; prepares, tests, and administers special volume ventilator equipment, such as chronic positive pressure breathing (CPPB), intermittent mandatory ventilation (IMV), chronic positive airway pressure (CPAP), and positive and expiratory pressure (PEEP); applies electromechanical monitors; evaluates airway patency; instills solution prior to traceobronchial aspiration; hyperinflates and hyperoxygenates patient; aspirates tracheobronchial passage; inflates and deflates tracheostomy cuff; provides tracheostomy tube and stoma care; evaluates patient cardiorespiratory status; utilizes emergency ventilators; evaluates resuscitator's effectiveness; implements culturing procedures; applies corrective actions for contaminated equipment; reads and evaluates patient charts; instructs patient and family in breathing exercises and postural drainage procedures and evaluates ability to operate home therapy equipment; maintains safe, clean, and orderly work area; stores and maintains supplies and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; calibrates and slopes arterial blood gas analyzer; performs arterial blood gas procedures and interprets and records results; applies safety precautions relevant to pulmonary function testing, administers basic pulmonary function test, calculates data, and compares results; performs auscultation of lungs; receives and issues supplies and equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists in defibrillation of patient; plans and monitors culturing procedures; determines corrective action for contaminated equipment; inspects working areas to insure orderly, clean, and safe environment for patients; supervises operational maintenance program of clinical equipment; prepares and conducts training programs; evaluates personnel performance and prepares evaluation reports; prepares administrative technical and patient reports; supervises packing, unpacking, loading, unloading, and setting up of unit equipment and shelters. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises respiratory unit activities; applies and monitors safety procedures relevant to modular pulmonary function testing; administers test, calculates test data, records results, and compares results with normal predicted values; develops, implements, and evaluates training programs; compiles management data, evaluates and determines personnel requirements, and assists in the planning and operation of respiratory unit; coordinates activities of unit with other elements of the medical treatment facility; advises and assists professional staff in supply economy procedures and fiscal, technical, and administrative matters; reviews, consolidates, and prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category, 30 semester hours in a respiratory therapy program. In the lower-division baccalaureate/associate degree category, 8 semester hours for clinical experience in respiratory therapy, 4 in respiratory therapy in clinical medicine, 4 in anatomy and physiology, 3 in principles of pulmonary therapy, 3 in principles of ventilation therapy, 3 in cardiopulmonary physiology, 2 in microbiology and immunology, 2 in basic sciences (chemistry and physics), and 1 in pharmacology, for a total of 30 semester hours (6/77).

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 33 semester hours in a respiratory therapy program. In the lower-division baccalaureate/associate degree category, 11 semester hours for clinical experience in respiratory therapy, 4 in respiratory therapy in clinical medicine, 4 in anatomy and physiology, 3 in principles of pulmonary therapy, 3 in principles of ventilation therapy, 3 in cardiopulmonary physiology, 2 in microbiology and immunology, 2 in basic sciences (chemistry and physics), and 1 in pharmacology, for a total of 33 semester hours (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 20 and 30. In the lower-division baccalaureate/associate degree category, 11 semester hours for clinical experience in respiratory therapy, 4 in respiratory therapy in clinical medicine, 4 in anatomy and physiology, 3 in principles of pulmonary therapy, 3 in principles of ventilation therapy, 3 in cardiopulmonary physiology, 2 in microbiology and immunology, 2 in basic sciences (chemistry and physics), 1 in pharmacology, 3 in personnel supervision, and 3 in clinic management, for a total of 39 semester hours. In the upper-division baccalaureate category, credit in patient care administration, introduction to management, and for field experience in management on the basis of institutional evaluation (6/77).

MOS-91W-001

NUCLEAR MEDICINE SPECIALIST

91W20
91W40

Exhibit Dates: 9/75–8/76.

Career Management Field: 91 (Medical), *subfield* 914 (Medical Services).

Description

Summary: Supervises or performs medical diagnostic and therapeutic procedures with isotopes. *Skill Level 20:* Able to perform the duties required for 91P20 (X-Ray Specialist) or 92B20 (Medical Laboratory Specialist); uses radioactive materials to aid in diagnosis and treatment of patients; operates radiological imaging devices and counters; makes scans of organs, such as brain, liver, thyroid, kidneys, pancreas, spleen, and lungs; labels pharmaceuticals with radioactive materials; calculates dosage, prepares dilution, and administers radiopharmaceuticals orally or by injection, under direct supervision of physician; performs blood volume determination, Schilling test, thyroid uptake, red cell survival time, and fat metabolism studies on collected specimens; performs assay procedures, such as thyroxine, cortisal, digoxin and insulin determinations, on biologic specimens, in vitro, using beta and gamma radioassay techniques; determines and records activity of radioisotope stocks and waste; operates detectors to determine presence of health hazards from therapeutic, diagnostic, and experimental radioactive isotopes; measures and records degree of contamination, controls spread of contamination, and institutes decontamination procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises operation of nuclear medicine facility; evaluates accuracy, efficiency, and safety of all techniques; conducts radiation safety program; requisitions, accounts for, and stores radioisotopes; disposes of stocks when radioactivity decays to nonusable level; reviews, consolidates, and prepares technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 12 semester hours for a practicum in nuclear medicine, 8 in nuclear medicine methodology, 2 in nuclear physics, 2 in nuclear instrumentation, 1 in radiopharmaceuticals, and 1 in radiation safety, for a total of 26 semester hours (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 12 semester hours for a practicum in nuclear medicine, 8 in nuclear medicine methodology, 3 in interpersonal relationships in health care, 3 in personnel supervision, 2 in nuclear physics, 2 in nuclear instrumentation, 2 in radiation safety, and 1 in radiopharmaceuticals, for a total of 33 semester hours (3/76).

MOS-91W-002

NUCLEAR MEDICINE SPECIALIST

91W10

91W20

91W30

91W40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Supervises or performs medical diagnostic and therapeutic procedures with radioactive isotopes. *Skill Level 10:* Able to perform the duties required for 91P10 (X-ray Specialist) or 92B10 (Medical Laboratory Specialist) or 91B10 (Medical Specialist); prepares and administers radioisotopes to patients and operates radiological imaging devices and counters. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs operational checks, standardizing procedures, and preventive maintenance on equipment; calculates dosage, prepares dilution, and administers it under direct supervision of physician; operates imaging device to make scans of organs, such as brain, liver, thyroid, kidneys, pancreas, spleen, and lungs; makes photographs of images; collects appropriate specimens for procedures, such as blood volume determination, Shilling test, thyroid uptake, red cell survival time, and fat metabolism studies; performs assay procedures, using beta and gamma radioassay techniques; determines activity of radioisotope stocks and waste; determines presence of health hazards from therapeutic, diagnostic, and experimental radioactive isotopes; measures and records degree of contamination, controls spread of contamination, and institutes decontamination procedures. *Skill Level 30:* Able to perform the duties required for Skill Level 20 and provides technical guidance to subordinate personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists with the management of a nuclear medicine facility; requisitions, accounts for, and stores radioisotopes used in the laboratory; is responsible for radiation safety program in laboratory area; supervises radiation survey, monitoring, and contamination control procedures; disposes of stocks when radioactivity decays to nonusable level; establishes work priorities and procedures; organizes work schedules; assigns duties; establishes safety procedures; instructs subordinates in work techniques and procedures; supervises operational maintenance program of clinical equipment; evaluates personnel performance and prepares evaluation reports; prepares patient, technical, and administrative reports; coordinates activities of nuclear medicine facility with other elements of the medical treatment facility; advises and assists professional staff with technical, administrative, and fiscal matters.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours for a clinical internship, 6 in algebra, and 6 in physics, and additional credit in nuclear medicine technology, radiology, and occupational health and safety on the basis of institutional evaluation, for a minimum total of 18 semester hours (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours for a clinical internship, 6 in nuclear medicine procedures, 6 in algebra, and 6 in physics, and additional credit in nuclear medicine technology, radiology, and occupational health and safety on the basis of institutional evaluation, for a minimum total of 24 semester hours (6/77).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours for a clinical internship, 6 in nuclear medicine procedures, 6 in algebra, 6 in physics, and 3 in advanced nuclear medicine procedures, and additional credit in nuclear medicine technology, radiology, and occupational health and safety on the basis of institutional evaluation, for a minimum total of 27 semester hours (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 6 semester hours for a clinical internship, 6 in nuclear medicine procedures, 6 in algebra, 6 in physics, 3 in advanced nuclear medicine procedures, 3 in personnel supervision, and 3 in human relations, and additional credit in nuclear medicine technology, radiology, and occupational health and safety on the basis of institutional evaluation, for a minimum total of 33 semester hours. In the upper-division baccalaureate category, 3 semester hours in administration of nuclear medicine facility (6/77).

MOS-91Y-001

EYE SPECIALIST

91Y20

91Y40

Exhibit Dates: 9/75–8/76.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Supervises or conducts routine diagnostic tests and assists in care and treatment of ophthalmology or optometry patients. *Skill Level 20:* Able to perform the duties required for 91B10 (Medical Specialist); measures visual acuity; neutralizes and records power of corrective lenses or fragments of lenses; measures and records color vision, accommodative ability, muscle balance, intraocular pressure, limits of central and peripheral visual field, corneal curvature and vertical height of palpebral fissure; takes necessary measurements for fitting spectacles; treats minor eye ailments and injuries; assists physician in performing minor surgery; maintains ophthalmology and optometry equipment and instruments. *Skill Level 40:* Able to perform the duties required for Skill Level 20; assists in management of eye clinic; organizes work schedules and sets priorities; assigns duties; instructs Skill Level 20 personnel in proper work techniques and procedures; inspects clinic and initiates corrective action, if necessary; supervises maintenance of clinical equipment; requisitions, stores, and issues supplies; prepares administrative and patient reports.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours for clinical experience in ophthalmology, 3 for clinical experience in optometry, 2 in anatomy and physiology of the eye, 2 in principles of ophthalmology, and 2 in principles of optometry, for a total of 12 semester hours (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours for clinical experience in ophthalmology, 3 for clinical experience in optometry, 2 in anatomy and physiology of the eye, 2 in principles of ophthalmology, 2 in principles of optometry, 2 in clinic management, and 1 in personnel supervision, for a total of 15 semester hours (3/76).

MOS-91Y-002

EYE SPECIALIST

91Y10

91Y20

91Y30

91Y40

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Summary: Conducts routine diagnostic tests and assists in care and treatment of ophthalmology or optometry patients. *Skill Level 10:* Able to perform the duties required for 91B10 (Medical Specialist); conducts routine diagnostic tests, administers prescribed medications, and assists in caring for eye patients; determines purpose of patient visit; administers various visual tests and records results; measures accommodative ability; measures muscle balance with and without correction, near and distant; measures limits of central and peripheral field, intraocular pressure, interpupillary distance, bridge size, and temple length; performs minor repairs and adjustments to spectacles; instills drops and ointments in eyes as prescribed; removes nonimbedded foreign objects from surface of eye or underside of lid; assists in obtaining specimens; assists the physician in performing minor surgery; maintains ophthalmology and optometry equipment and instruments; performs prescribed sterilization procedures; performs ophthalmic photography; measures prismatic power of lenses; operates resuscitation and oxygenation equipment; instructs patients in insertion, removal, and care of contact lenses; prepares slides for wrights and grams staining; applies and removes dressings as directed; performs emergency procedures as required; maintains inventory of supplies and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists in managing a small ophthalmology or optometry clinic; organizes work schedules and determines personnel requirements; assigns duties and establishes work priorities; instructs subordinates in work techniques and procedures; supervises operational maintenance program of clinical equipment; evaluates personnel performance and prepares evaluation reports; coordinates activities of ophthalmology and optometry clinics with other elements of the medical treatment facility; assists physician with personnel, fiscal, and administrative matters; prepares patient and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in managing a large ophthalmology or optometry clinic.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 4 semester hours in principles of ophthalmology, 4 for a practicum in ophthalmology, 4 for a practicum in optometry, 2 in principles of optometry, and 1 in anatomy and physiology, for a total of 15 semester hours (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 4 semester hours in principles of ophthalmology, 6 for a practicum in ophthalmology, 6 for a practicum in optometry, 2 in principles of optometry, and 1 in anatomy and physiology, for a total of 19 semester hours (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 4 semester hours in principles of ophthalmology, 6 for a practicum in ophthalmology, 6 for a practicum in optometry, 2 in principles of optometry, 1 in anatomy and physiology, 3 in personnel supervision, 2 in communication skills, 2 in principles of management, and 1 in health care administration, for a total of 27 semester hours. In the upper-division baccalaureate category, credit in patient care administration on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, credit in patient care administration and medical facility management on the basis of institutional evaluation (6/77).

MOS-91Z-001

MEDICAL SENIOR SERGEANT

91Z50

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 91Z was discontinued and its functions were incorporated into MOS 91B, Medical Specialist.)

Career Management Field: 91 (Medical), *subfield* 912 (Patient Care).

Description

Supervises general administrative functions in a medical or treatment facility; advises superiors on administrative matters; establishes and supervises the maintenance of medical records and medical reporting systems; prepares periodic and special reports concerning assigned personnel, patients, and medical care and treatment operations; evaluates training programs and requirements and supervises or conducts individual or group training; assists command surgeon in technical supervision of subordinate medical activities, staff, and unit operations; makes recommendations for improving working conditions and procedures; determines requirements for and adequacy of medical service supporting elements such as ambulance, supply, and transportation. NOTE: Required to have attained Skill Level 40 or 50 in at least one other MOS in the medical career management field (91).

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 26 semester hours in administration or management, 12 for an internship in medical administration, 6 in accounting, 6 in business machines operation, and 6 in medical records administration, for a total of 56 semester hours. In the upper-division baccalaureate category, a minimum of 17 semester hours in administration or management, 6 for an internship in medical administration, and 3 in medical record administration, for a minimum total of 26 semester hours; additional credit in accounting, business machines operation, administration or management, medical records administration, and for an internship in medical administration on the basis of institutional evaluation (2/75).

MOS-92B-001

MEDICAL LABORATORY SPECIALIST

92B20

92B30

92B40

Exhibit Dates: 10/73-8/76.

Career Management Field: 91 (Medical), *subfield* 914 (Medical Services).

Description

Summary: Supervises or performs bloodbanking procedures and elementary and advanced examinations of biological specimens to aid in diagnosis, treatment, and prevention of disease. *Skill Level 20:* Performs blood banking and elementary laboratory procedures related to immunohematology, hematology, biochemistry, serology, bacteriology, and parasitology; selects, pretests, and bleeds donors and stores and issues blood; determines ABO group and Rh type of donor and recipient; performs immunohematology techniques, such as antibody detection and identification, antibody titers, and compatability testing; prepares and stores blood components; performs hematology tests and determinations, such as hemoglobin, cell counts, and sedimentation rate; conducts elementary biochemical tests relating to blood glucose, blood urea nitrogen, amylase, sodium and potassium chloride, and carbon dioxide; performs serology procedures, such as preparation of antigen emulsion, use of control sera, and cardiolipin microflocculation tests; tests urine and urine sediment to determine specific gravity, sugar, protein, ketone, blood, pathological constituents, and presence of formed elements and amorphous sediment; examines feces for presence of protozoa and helminths; prepares and sterilizes synthetic culture media; introduces specimens into appropriate media, incubates culture, prepares smears, makes stains, and examines slides under microscope; isolates and identifies bacterial organisms of the cocci family and common gramnegative microorganisms; calculates and records findings; collects and processes specimens for shipment to consultant laboratories. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs advanced procedures in all phases of clinical laboratory testing, including virology, mycology, histology, toxicology, and radiobiology; makes subcultures, tissue cultures, antimicrobial sensitivity determinations, and animal inoculations and autopsies; performs clinical parasitology procedures; performs fluorescent antibody agglutenation, complement fixation and other serological tests; processes tissue removed by biopsy, from autopsy, or discharged from body; performs biochemical analyses of blood, urine, sweat, spinal fluid, and tissue for carbohydrates, proteins, hemoglobins, lipids, hormones, minerals, electrolytes, vitamins, enzymes, pigments, and drugs; performs metabolic and liver and renal function tests; screens exfoliative cytology specimens; performs complete blood counts and identifies and reports erythrocyte and leukocyte maturation stages in normal and abnormal cells; performs special procedures in staining, preparation of bone marrow films, erythrocyte osmotic fragility studies, lupus erythematosus films, hemoglobin electrophoresis, detection of coagulation disorders, and abnormal cell morphology in anemias and leukemias; analyzes air, food, water, and biological fluids for radioactivity and makes radionuclide determinations. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises medical laboratory activities; logs requests for laboratory procedures; establishes priorities; distributes workload; forwards specimens to consultant laboratories, as required; supervises Skill Level 20 and 30 personnel; conducts quality control program to assure validity of clinical laboratory results; assists with inspection of laboratory, notes discrepancies, and initiates corrective action; requisitions, stores, and issues supplies and equipment; reviews, consolidates, and prepares technical, administrative, and personnel reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 4 semester hours in basic procedures in hematology, 4 in basic procedures in clinical chemistry and urinalysis, 3 in basic procedures in immunohematology and serology, 3 in basic procedures in medical bacteriology, and 2 in basic procedures in parasitology, for a total of 16 semester hours (3/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 16 semester hours in advanced clinical chemistry, 8 in advanced hematology, 8 in advanced medical bacteriology, 4 in introduction to cytology, 4 in parasitology, 4 in immunology, 4 in histopathology, 4 in immunohematology and blood banking, 4 in mycology, 4 in virology, and 2 in anatomy and physiology, for a total of 62 semester hours (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 16 semester hours in advanced clinical chemistry, 8 in advanced hematology, 8 in advanced medical bacteriology, 4 in introduction to cytology, 4 in parasitology, 4 in immunology, 4 in histopathology, 4 in immunohematology and blood banking, 4 in mycology, 4 in virology, 2 in anatomy and physiology, 2 in medical laboratory management, and 1 in personnel supervision, for a total of 65 semester hours (3/76).

MOS-92B-002

MEDICAL LABORATORY SPECIALIST

92B10
92B20
92B30
92B40
92B50

Exhibit Dates: 9/76–Present.

Career Management Field: 91 (Medical), *subfield* 913 (Health Services).

Description

Summary: Performs bloodbanking procedures and elementary and advanced examinations of biological and environmental specimens to aid in diagnosis, treatment, and prevention of disease. *Skill Level 10:* Receives, logs, and files requests for laboratory examination and analysis; receives, collects, and labels specimens; calculates and records results of analyses; prepares laboratory specimens for the determination of parasites, plasmodium species, ABO group and Rh type blood; performs antihuman globulin, microhematocrit, and manual hemoglobulin procedures; performs manual white-blood-cell counts; prepares and examines thin-blood film slides and stain procedures; performs erythrocyte sedimentation rate procedures; determines specific gravity and performs chemical tests on urine to detect glucose, protein, blood, ketones, mucin, or melanogen; prepares urine samples for determination of pH, microscopic examination, cells, and mucous threads; inoculates bacteriological specimens and stains bacteriological smears and examines for stain reaction; prepares and sterilizes culture media; performs manual biochemical determinations on blood; examines semiautomatically for chlorides, sodium, and potassium; performs basic serological screening for syphilis and rheumatoid arthritis; performs basic preventive maintenance on laboratory equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs bloodbanking and elementary laboratory procedures related to immunohematology, hematology, biochemistry, serology, bacteriology, and parasitology; selects, pretests, and bleeds donors, and stores and issues blood; determines ABO group and Rh type of donor and recipient; performs immunohematology techniques, such as antibody titers and compatability testing; prepares and stores blood components; performs ABO subgrouping and DU testing to detect antibodies; performs complete blood count and cell counts; performs coagulation tests; uses automated, semiautomated, or manual procedures to determine cholesterol, total protein and A/G ratio, blood pH, pO_2, and pCO_2; performs basic serology procedures for syphilis, pregnancy, infectious mononucleosis, and arthritis; prepares red cell suspensions and dilutions; examines body fluids and feces for presence of protozoa, helminths, and extraintestinal parasites; prepares and sterilizes culture media; inoculates specimens for microscopic examination; isolates, identifies, and studies microorganisms such as streptococcus, staphylococcus, pneumococcus, and common gramnegative organisms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises small medical laboratory or performs advanced procedures in all phases of blood banking and clinical laboratory testing, including virology, mycology, histology, and toxicology; performs complex laboratory tests, examinations, and analyses under general supervision and provides technical assistance to subordinate personnel; performs cultures, antimicrobial sensitivity determinations, and animal inoculations, including those taken from autopsies; performs clinical parasitology procedures; performs fluorescent antibody agglutination, complement fixation, and other seriological tests; processes tissue; performs biochemical analysis of blood, urine, sweat, and spinal fluid for carbohydrates, proteins, hemoglobins, lipids, hormones, minerals, electrolytes, vitamins, enzymes, pigments, and drugs; performs metabolic, liver function, and renal function tests; screens exfoliative cytology specimens; performs complete blood counts and identifies maturation stages in normal and abnormal cells; performs special procedures in staining and preparing bone marrow smears, erythrocyte osmotic fragility studies, lupus erythematosus determinations, detection of coagulation disorders, complex electrophoresis studies, and abnormal cell morphology in anemias and leukemias; analyzes air, food, water, and biological fluids for contaminants; supervises operator maintenance procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises medium-sized medical laboratory; develops and supervises quality control measures and procedures; assigns duties; organizes work schedules; instructs subordinates; inspects laboratory; supervises operational maintenance; determines personnel requirements and prepares and conducts training program; evaluates personnel performance; prepares administrative, technical, and personnel reports; coordinates activities of medical laboratories with other units of medical facility; assists laboratory officer in administrative matters. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises large medical laboratory activities.

Recommendation, Skill Level 10

In the vocational certificate category, 10 semester hours in a certified laboratory assistant program. In the lower-division baccalaureate/associate degree category, 15 semester hours in a medical laboratory technician program (basic procedures in hematology, clinical chemistry and urinalysis, immunohematology and serology, medical bacteriology, and parasitology) (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 24 semester hours in a medical laboratory technician program (hematology, immunology, and immunohematology and blood banking; and basic procedures in hematology, clinical chemistry and urinalysis, immunohematology and serology, medical bacteriology, and parasitology) (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 54 semester hours in a medical laboratory technician program (hematology, immunology, immunohematology and blood banking, histopathology, mycology, virology, anatomy and physiology, cytology, parasitology, advanced clinical chemistry, advanced medical bacteriology, and advanced hematology; and basic procedures in hematology, clinical chemistry and urinalysis, immunohematology and serology, medical bacteriology, and parasitology). In the upper-division baccalaureate category, credit in medical technology, chemistry, and biology on the basis of institutional evaluation (6/77).

Recommendation, Skill Levels 40 and 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 54 semester hours in a medical laboratory technician program (hematology, immunology, immunohematology and blood banking, histopathology, mycology, virology, anatomy and physiology, cytology, parasitology, advanced clinical chemistry, advanced medical bacteriology, advanced hematology; and basic procedures in hematology, clinical chemistry and urinalysis, immunohematology and serology, medical bacteriology, and parasitology), 3 in personnel supervision, and 3 in principles of administration, for a total of 60 semester hours. In the upper-division baccalaureate category, credit in medical technology, chemistry, biology, and medical facility management on the basis of institutional evaluation (6/77).

MOS-92C-001

PETROLEUM LABORATORY SPECIALIST

92C20
92C40

Exhibit Dates: 10/73–8/76.

Career Management Field: 92 (Petroleum).

Description

Summary: Performs or supervises physical and chemical tests on petroleum products to determine suitability for intended use. *Skill Level 20:* Prepares reagents and glassware; calibrates and standardizes laboratory instruments; obtains petroleum test samples; performs complete specification tests, including determination of tetraethyl lead in gasoline, oxidation stability of petroleum products, and water separation; performs preventive maintenance on technical laboratory equipment; uses adequate fire prevention and safety control measures; prepares layouts and installs equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises petroleum laboratory testing activities and participates in quality surveillance programs; evaluates test results; supervises injection of anti-icing additives and corrosion inhibitors during pipeline transfers; establishes stock levels, and requisitions and stores equipment, chemicals, reagents, and reference fuels; determines methods of reclaiming or downgrading contaminated and deteriorated petroleum products; plans work schedules, assigns duties, and trains personnel in laboratory techniques; prepares and reviews administrative and technical reports; supervises from four to ten or more persons.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical laboratory, 2 in basic chemistry, 1 in chemical safety, and 1 in first aid, for a total of 13 semester hours (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical laboratory, 2 in basic chemistry, 1 in chemical safety, 1 in first aid, 3 for field experience in management, 3 in human relations, and 3 in personnel supervision, for a total of 22 semester hours (5/76).

MOS-92C-002

Petroleum Laboratory Specialist

92C10
92C20
92C30
92C40

Exhibit Dates: 9/76–Present.

Career Management Field: 92 (Petroleum).

Description

Summary: Performs or supervises physical and chemical tests on petroleum products to determine suitability for intended use. *Skill Level 10:* Prepares laboratory equipment for operation; prepares reagents; calibrates instruments; obtains petroleum test samples; performs preventive maintenance on technical laboratory equipment; performs specification tests, including water content, sediment, color, carbon residue, penetration, and oxidation stability; performs quality surveillance tests; uses fire prevention and safety control measures. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; employs cooperative fuel research engine to test fuels; prepares laboratory reports; evaluates test results with specification requirements and makes product recommendations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; establishes calibration program; assists in establishment of quality surveillance programs; supervises medium-sized petroleum laboratory activities; plans work schedules and assigns duties; makes inspections of laboratory to insure proper procedures are being followed and work is being done efficiently; supervises inspection of anti-icing additives and corrosion inhibitors during pipeline transfers; supervises placement, setting up, and maintenance of laboratory equipment; coordinates petroleum product storage and distribution activities; reviews work reports and evaluates results; maintains inventory control and performs all related supply activity; insures adherence to laboratory fire and safety procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises large petroleum laboratory; assists and plans quality surveillance operations; applies principles of OSHA and EPA regulations; determines methods of reclaiming or downgrading contaminated and deteriorated petroleum products; performs quality surveillance of loading and unloading bulk shipments to insure safety and to prevent contamination; insures proper sampling and laboratory analysis of petroleum products; monitors sampling, testing, use, and blending of additives; makes reports on analysis results, environmental considerations, contracts for petroleum products, transporting, and storage; generally supervises from four to ten persons.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in petroleum products analysis, 1 in chemical safety, and 1 in first aid, for a total of 5 semester hours. In the lower-division baccalaureate/associate degree category, 3 in petroleum products analysis, 2 in basic chemistry, 1 in chemical safety, and 1 in first aid, for a total of 7 semester hours (11/77).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in petroleum products analysis, 1 in chemical safety, and 1 in first aid, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical chemistry laboratory, 2 in basic chemistry, 1 in chemical safety, and 1 in first aid, for a total of 13 semester hours (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in petroleum products analysis, 3 in basic analytical chemistry laboratory, 3 in personnel supervision, 2 in basic chemistry, 1 in chemical safety, and 1 in first aid, for a total of 16 semester hours (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 in petroleum products analysis, 3 in basic analytical chemistry laboratory, 3 in personnel supervision, 3 in technical writing, 3 in human relations, 2 in basic chemistry, 2 in industrial safety, 1 in chemical safety, and 1 in first aid, for a total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/77).

MOS-92D-001

Chemical Laboratory Specialist

92D20
92D40
92D50

Exhibit Dates: 10/73–2/77.

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or performs routine chemical and physical tests in a chemical laboratory. *Skill Level 20:* Balances equations; knows and uses basic gas laws; performs stoichiometric calculations; sets up laboratory equipment for chemical and physical tests; prepares and labels standard solutions and reagents; performs field sampling; performs routine laboratory analysis of chemicals with established formulas and procedures; conducts physical tests to determine durability, strength, and resistance to effects of climate or chemicals of items such as clothing, shoes, paints, plastics, metals, and ceramics; performs quantitative and qualitative analyses, including microanalytical; performs toxicological studies to determine irritability and permeability; determines beta and gamma energies and half-lives of unknown isotopes; keeps records and repair reports; requisitions, receives, stores, and inventories chemical supplies and equipment; understands and applies safety procedures. NOTE: May have progressed to 92D20 from 54A10 (Chemical Operations Assistant). *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of chemical laboratory personnel; estimates supply requirements based on current and projected workloads; improvises apparatus and procedures for special purposes; instructs subordinates in laboratory techniques and procedures. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager involved in planning, coordinating, and supervising the activities of a chemical laboratory; advises company commander on all matters concerning enlisted personnel; assists company commander in planning and implementing unit training; coordinates operation of the unit food service and supply activities.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in applied technical mathematics and 1 in chemical safety. In the lower-division baccalaureate/associate degree category, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 2 in basic instrumental analysis, 2 in applied technical mathematics, 1 in radiochemical laboratory, and 1 in chemical safety, for a total of 18 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, 2 in basic instrumental analysis, 2 in applied technical mathematics, 1 in radiochemical laboratory, and 1 in chemical safety, for a total of 27 semester hours (5/76).

Recommendation, Skill Level 50

In the vocational certificate category and in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 in personnel management, for a total of 12 semester hours (5/76).

MOS-92D-002

Chemical Laboratory Specialist

92D10
92D20
92D30

Exhibit Dates: 3/77–Present.

Career Management Field: 54 (Chemical).

Description

Summary: Supervises or performs routine chemical, biological, and physical tests. *Skill Level 10:* Balances equations; knows and uses basic gas laws; performs stoichiometric calculations; sets up laboratory equipment for chemical and physical tests; prepares and labels standard solutions and reagents; performs field sampling; performs routine laboratory analysis of chemicals with established formulas and procedures; conducts physical tests to determine durability, strength, and resistance of items such as clothing, shoes, paints, plastics, metals, and ceramics to the effects of climate or chemicals; performs quantitative and qualitative analyses, including micro-analytical; performs toxicological studies to determine irritability and permeability; determines beta and gamma energies and half-lives of unknown isotopes; keeps records and repair reports; requisitions, receives, stores, and inventories chemical supplies and equipment; understands and applies safety procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may serve as Section Chief and supervise up to 12 Chemical Laboratory Specialists; estimates supply requirements based on current and projected workloads; improvises apparatus and procedures for special purposes; instructs subordinates in laboratory techniques and procedures; performs field sampling and identification of chemical agents.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 2 semester hours in applied technical mathematics and 1 in chemical safety. In the lower-division baccalaureate/associate degree category, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 2 in chemical laboratory techniques, 2 in applied technical mathematics, 1 in radiochemical laboratory, and 1 in chemical safety, for a total of 18 semester hours (8/78).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in applied technical mathematics and 1 in chemical safety. In the lower-division baccalaureate/associate degree category, 4 semester hours in introductory chemistry, 4 in analytical chemistry, 4 in applied organic chemistry, 2 in chemical laboratory techniques, 2 in applied technical mathematics, 1 in radiochemical laboratory, and 1 in chemical safety, for a minimum total of 18 semester hours; *if served as a section chief,* 3 semester hours in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 27 semester hours (8/78).

MOS-93E-001

METEOROLOGICAL OBSERVER

93E20
93E30
93E40
93E50

Exhibit Dates: 10/73-2/78.

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 000 (Special Assignment).

Description

Summary: Supervises or performs meteorological observations and weather forecasts. *Skill Level 20:* Performs routine and special weather observations, employing basic meteorological principles; takes upper air observations by pilot balloon and radiosonde systems; computes meteorological ballistic data; encodes meteorological data for transmission; interprets weather data and plots surface and upper air charts; performs preventive maintenance on standard and special meteorological equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides weather forecasts from surface and upper air meteorological charts; performs climatological analyses for use in research and development activities; prepares and issues routine and severe weather warnings. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises the making and reporting of meteorological observations, forecasts, and special warnings; prepares, administers, and monitors meteorological team operations; supervises the preparation of routine and special reports; conducts on-the-job training; supervises 11 or more persons. *Skill Level 50:* Able to perform the duties required for Skill Level 30 or 40; serves as the principal noncommissioned officer of meteorological teams; at the division level, coordinates activities and use of meteorological teams; gathers and analyzes material for the improvement of meteorological training; supervises 29 or more persons.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observing, 3 in mathematics, and 2 in electrical and electronics laboratory, for a total of 14 semester hours (11/75).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observing, 3 in mathematics, 3 in weather station operation, 3 in climatology, and 2 in electrical and electronics laboratory, for a total of 20 semester hours (11/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observing, 3 in mathematics, 3 in weather station operation, 3 in climatology, 3 in human relations, 3 for field experience in management, and 2 in electrical and electronics laboratory, for a total of 26 semester hours. (11/75)

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observing, 3 in mathematics, 3 in weather station operation, 3 in climatology, 3 in human relations, 3 for field experience in management, 3 in introduction to management, and 2 in electrical or electronics laboratory, for a total of 29 semester hours. In the upper-division baccalaureate category, 3 semester hours in human relations and 3 for field experience in management (11/75).

MOS-93E-002

METEOROLOGICAL OBSERVER

93E10
93E20
93E30
93E40
93E50

Exhibit Dates: 3/78-Present.

Career Management Field: 64 (Transportation), *subfield* 644 (Air Operations).

Description

Summary: Supervises or performs meteorological observations and weather forecasts. *Skill Level 10:* Performs routine and special weather observations, employing basic meteorological principles; installs primary instruments/equipment used for measuring and recording weather conditions; calibrates and orients ground-mounted instruments; assembles, inspects and activates airborne instruments; measures surface effects, including pressure, temperature, humidity, wind speed and direction; records data from radiosonde; reads and records elevation and azimuth data from theodolite in tracking balloons for upper-air conditions; performs calibration checks; erects and orients hemispherical radiometer and net exchange radiometer; computes meteorological data from raw data, both surface effects and effects aloft; evaluates recorded and computed data; compares barometer values, using standard chart or graph values, to assembled current data; constructs profiles and curves needed for analysis and prediction; converts and encodes meteorological data into standard message format for transmission to receiving agencies; performs calibration checks and maintenance on all standard and special meteorological equipment; performs preventive maintenance on vehicles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs meteorological observations and provides technical guidance to lower grade personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and provides technical guidance to lower skill level personnel; trains team/section members, provides work schedules, selects station sites, determines coordinates and altitude of site, and selects location for instruments and equipment; prepares meteorological observation plans; coordinates activities with other services and governmental agencies; coordinates support to Army research and development activities; provides maintenance supervision and administration; provides general management and administration of the station, including records, reports, counseling, evaluation of personnel, and preparation of efficiency reports; conducts inspections and advises commander on personnel matters, including promotions, awards and training; serves as weather forecaster, using data accumulated by meteorological observers; instructs and insures safety, fire prevention and first aid programs in section. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises 11 or more personnel in meteorological unit or station, including 2 or more forecasters; insures the efficient, timely issuance of collected data and forecasts. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises functions at larger meteorological units; functions in units of 30 or more personnel with 4 or more forecasters; performs administrative and supervisory duties; serving as principal noncommissioned officer, exercises overall operating responsibility for meteorological activities in unit.

Recommendation, Skill Levels 10 and 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observation, 3 in technical mathematics, 3 in weather station operation, and 2 in electrical/electronics laboratory, for a total of 17 semester hours (6/79).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observation, 3 in technical mathematics, 3 in weather station operation, 2 in electrical/electronics laboratory, 3 in climatology, 2 in human relations, 3 in personnel supervision, and 3 in office management, for a total of 28 semester hours (6/79).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observation, 3 in technical mathematics, 3 in weather station operation, 2 in electrical/electronics laboratory, 3 in climatology, 3 in human relations, 3 in personnel supervision, 3 in office management, and 3 for field experience in management, for a total of 32 semester hours. In the upper-division baccalaureate/degree category, 3 semester hours in management problems and 3 for field experience in management (6/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in meteorology, 3 in meteorological instruments, 3 in weather observation, 3 in technical mathematics, 3 in weather station operation, 2 in electrical/electronics laboratory, 3 in climatology, 3 in human relations, 3 in personnel supervision, 3 in office management, and 6 for field experience in management, for a total of 35 semester hours. In the upper-division baccalaureate category, 3 semester hours in management problems and 6 for field experience in management (6/79).

MOS-93F-001

Ballistic Meteorology Crewman

93F20

93F40

Exhibit Dates: 10/73–8/76.

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 172 (Target Acquisition).

Description

Summary: Supervises or participates in the operation of a meteorology observation station to obtain and report atmospheric data for artillery target acquistion. *Skill Level 20:* Operates and calibrates meteorological equipment; assembles, tests, and calibrates radiosonde transmitter and recorder; uses basic principles of meteorology in the evaluation and conversion of radiosonde data into data on temperature, humidity, atmospheric pressure, and wind speed and direction; performs operator maintenance on radio direction finder and other meteorological equipment; records data on charts. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises approximately 12 persons in the operation of the meteorological observation station and the use of both ground and airborne equipment; using a basic knowledge of meteorology, assures proper calibration of electronic equipment and computation of recorded data; supervises routine maintenance of meteorological and communication equipment; establishes and maintains liaison with other weather installations both within and outside the Army.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in meteorology, 2 in general science, 2 in instrumentation and calibration, and 1 in technical writing, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in meteorology, 2 in general science, 2 in instrumentation and calibration, 2 in map reading, 1 in technical writing, and 1 in electronics, for a total of 10 semester hours. (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in meteorology, 2 in general science, 2 in instrumentation and calibration, 3 in personnel supervision, 1 in technical writing, 3 in human relations, 2 in map reading, 3 for field experience in management, and 2 in electronics, for a total of 20 semester hours (3/76).

MOS-93F-002

Field Artillery Meteorological Crew Member (Field Artillery Meteorological Crewman)

93F10

93F20

93F30

93F40

Exhibit Dates: 9/76–Present.

Career Management Field: 13 (Field Artillery), *subfield* 132 (Field Artillery Target Acquisition Operations).

Description

Summary: Supervises or participates in operation of field artillery meteorological observation station. *Skill Level 10:* Operates meteorological equipment in meteorological observation station; participates in assembly and emplacement of meteorological equipment and appropriate generators; operates recorders; plots pressure and wind data; assembles and disassembles balloon inflation and launching equipment; inflates and releases balloons; assembles, tests, and adjusts radiosonde transmitter; evaluates and converts raw temperature, density, and wind data; performs operator maintenance on equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as team chief during periods of extended operation; checks data and records; examines samples of data for quality control. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operation of meteorological section or station; selects station site; supervises emplacement, installation, calibration, maintenance, and operation of equipment; supervises preparation and distribution of ballistic meteorological messages; assigns, instructs, and supervises crewmen; reviews, consolidates, and prepares technical, personnel, and administrative reports.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in meteorology, 2 in general science, 2 in instrumentation and calibration, 1 in technical writing, and 1 in map reading, for a total of 7 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in meteorology, 2 in general science, 2 in instrumentation and calibration, 1 in technical writing, 1 in map reading, and 2 in personnel supervision, for a total of 9 semester hours (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in meteorology, 2 in general science, 2 in instrumentation and calibration, 1 in technical writing, and 1 in map reading, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in meteorology, 2 in general science, 2 in instrumentation and calibration, 1 in technical writing, 1 in map reading, 4 in personnel supervision, 3 in human relations, and 3 for field experience in management, for a total of 18 semester hours (4/77).

MOS-93H-001

Air Traffic Control (ATC) Tower Operator

93H20

93H40

Exhibit Dates: 10/73–2/76.

Career Management Field: 65 (Transportation), *subfield* 655 (Air Operations).

Description

Summary: Provides control tower and non-radar approach control services for military and civilian air traffic. *Skill Level 20:* Holds an FAA control tower operator certificate; controls air traffic operating under visual flight rules in the vicinity of the control tower; coordinates movements of aircraft operating under instrument flight rules with civil air traffic facilities; issues instructions to aircraft in accordance with published FAA and Army procedures and regulations; operates radio equipment, light signals, airport lighting systems, interphone equipment; keeps records, statistics, and recordings of radio communications; uses the operational features of various electronic navigation facilities and systems; informs aircraft personnel of hazardous conditions; prepares notices to airmen (NOTAMS). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises Skill Level 20 personnel; establishes training programs and conducts on-the-job training in air traffic control operations; administers safety programs; supervises the preparation of interfacility agreements; prepares recommendations for changes to air traffic control regulations; supervises inspections of the facility's navigational aids and radio communications equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in

air traffic control, 6 in air traffic management, and 3 in federal aviation regulations, for a total of 15 semester hours. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (2/75).

Recommendation, Skill Level 40
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 4 in personnel management, for a total of 19 semester hours. In the upper-division baccalaureate category, 6 semester hours in air traffic operations or air traffic control or aviation management and additional credit on the basis of institutional evaluation (2/75).

MOS-93H-002

AIR TRAFFIC CONTROL (ATC) TOWER OPERATOR

93H10
93H20
93H30
93H40

Exhibit Dates: 3/76–Present.

Career Management Field: 65 (Transportation), *subfield* 655 (Air Operations).

Description
Summary: Provides control tower and non-radar approach control services for military and civilian air traffic. *Skill Level 10:* Operates air traffic control tower and controls military and civilian aircraft during take-off, flight, and landing under Visual Flight Rules (VFR), Special Visual Flight Rules (SVFR), and Instrument Flight Rules (IFR); issues special instructions to aviators concerning airfield facilities, emergency landing areas, obstructions, landmarks, flying areas, restrictions, local regulations, weather advisories, and observed hazards that affect the safe operation of aircraft; keeps records and statistics, including tape recordings of voice radio communications, on daily air traffic operations; processes incoming and outgoing flight data information and analyzes air traffic; operates airfield lighting systems, light signals, and non-radar approach control boards; employs aeronautical charts, maps, radio, and ground communications; applies FAA and Army air traffic rules and regulations and may hold an FAA control tower operator certificate; controls vehicular traffic on airport movement area. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as shift supervisor or facility chief; supervises inspection procedures, site operation, and record keeping; prepares shift duty rosters; administers facility training programs and on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; as ATC tower chief, plans, organizes, and supervises air traffic control tower activities; assigns duties, spot-checks work performed, instructs subordinates in work techniques and procedures, coordinates work activities, and establishes and supervises on-the-job training programs; prepares technical, personnel, and administrative reports; may be a designated FAA control tower operator examiner.

Recommendation, Skill Level 10
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 2 in office practice, for a total of 17 semester hours (6/76).

Recommendation, Skill Level 20
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 2 in office practices, for a total of 17 semester hours. In the upper-division baccalaureate category, credit in air traffic operations on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 30
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 3 in personnel supervision, 3 in organization and management, and 2 in office practices, for a total of 23 semester hours. In the upper-division baccalaureate/associate degree category, credit in air traffic operations or aviation management on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in human relations, 3 in organization and management, and 2 in office practices, for a total of 29 semester hours. In the upper-division baccalaureate category, 6 semester hours in air traffic operations, air traffic control, or aviation management and additional credit on the basis of institutional evaluation (6/76).

MOS-93J-001

ATC (AIR TRAFFIC CONTROL) RADAR CONTROLLER

93J10
93J20
93J30
93J40
93J50

Exhibit Dates: 3/76–Present.

Career Management Field: 64 (Transportation), *subfield* 644 (Air Operations).

Description
Summary: Provides air traffic control services, employing radar, during aircraft departure, flight, and approach. *Skill Level 10:* Provides terminal and approach control services for aircraft during take-off, flight, and landing; operates radar, issues special air traffic control instructions, keeps records, processes and analyzes air traffic data, and installs and moves ATC radar and associated equipment; applies FAA and Army air traffic rules and regulations; may hold an FAA radar controller certificate. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as shift supervisor or facility chief; supervises record keeping and radar scope alignment procedures; administers facility training programs; prepares duty rosters; prepares recommended changes to air traffic control regulations. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as air traffic control chief at a terminal and approach control facility; inspects facilities, prepares operating standards, evaluates operations, and recommends changes; monitors the handling and storage of tape-recorded conversations between air traffic control personnel and aircraft pilots and other ATC facilities; arranges for training and certification of subordinate personnel and instructs personnel in ATC procedures and FAA regulations; maintains records and statistics on daily air traffic operations. *Skill Level 50:* Able to perform the duties required for 93J40 and 93H40 (Air Traffic Control Tower Operator) and supervises these personnel; supervises all air traffic control operations in a large facility; assigns personnel; establishes physical layout of work sites and insures an efficient and safe environment; reviews, consolidates, and prepares technical, personnel, and administrative reports covering all phases of air traffic control operations.

Recommendation, Skill Level 10
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 2 in office practices, for a total of 17 semester hours (6/76).

Recommendation, Skill Level 20
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, and 2 in office practices, for a total of 17 semester hours. In the upper-division baccalaureate category, credit in air traffic operations or aviation management on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 30
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 3 in personnel supervision, 3 in organization and management, and 2 in office practices, for a total of 23 semester hours. In the upper-division baccalaureate category, credit in air traffic operations or aviation management on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 40
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in organization and management, 3 in human relations, and 2 in office practices, for a total of 29 semester hours. In the upper-division baccalaureate category, 6 semester hours in air traffic operations or aviation management, and additional credit on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 50
In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in air traffic control, 6 in air traffic management, 3 in federal aviation regulations, 6 in personnel supervision, 3 in organization and management, 3 in human relations, and 2 in office practices, for a total of 29 semester

hours. In the upper-division baccalaureate category, 6 semester hours in air traffic operations or aviation management, 6 for field experience in management, 3 in introduction to management, and 3 in personnel management, and additional credit for an internship in education on the basis of institutional evaluation, for a minimum total of 18 semester hours (6/76).

MOS-94B-001

Food Service Specialist

94B20

94B40

Exhibit Dates: 10/73–9/74.

Career Management Field: 94 (Food Service).

Description

Summary: Procures, prepares, and cooks food; identifies and uses appropriate equipment. *Skill Level 20:* Prepares meats, fruits, vegetables, salads, desserts, beverages, and dairy products for serving; performs small-scale baking and meat cutting; operates and performs preventive maintenance on kitchen equipment; has knowledge of hygiene and sanitation procedures. Alternative job paths are available with assignment either as cook leading to dining facility manager or meatcutter leading to chief meatcutter. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the scheduling of personnel and facilities and the preparation of foods; inspects food prior to serving; supervises operation and maintenance of kitchen equipment; supervises procurement and storage of food; applies accounting procedures; maintains inventories, records, and files; completes appropriate reports. NOTE: May have progressed to 94B40 from 94B20 or 00H20 (Enlisted Aide).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation and 3 in kitchen operations; and 3 in food service operations *if the duty assignment was cook;* and 3 in meat cutting *if the duty assignment was meatcutter;* for a maximum total of 15 semester hours (1/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in quantity food preparation, 3 in kitchen operations, and 2 in bookkeeping; and 3 in food service operations *if the duty assignment was cook;* and 3 in meat cutting *if the duty assignment was meatcutter;* for a maximum total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation, 6 for a food service internship, 3 in kitchen operations, 3 in menu planning, 3 in personnel supervision, and 3 in human relations; and 3 in food service operations *if the duty assignment was cook;* and 3 in meat cutting *if the duty assignment was meatcutter;* for a maximum total of 30 semester hours. In the upper-division baccalaureate category, 6 semester hours for a food service internship (5/76).

MOS-94B-002

Food Service Specialist

94B10

94B20

94B40

Exhibit Dates: 10/74–8/76.

Career Management Field: 94 (Food Service).

Description

Summary: Procures, prepares, and cooks food; identifies and uses appropriate equipment. *Skill Level 10:* Either has undergone on-the-job training program in food preparation and serving techniques or has recently completed a program of instruction in the basic principles of food preparation and service; under the supervision of an experienced cook, weighs, blends, mixes, and cooks food in accordance with prescribed procedures; washes, peels, cuts, and dices fruits, vegetables, meats, salads, and dairy products; prepares simple soups, sauces, and gravies; under the supervision of an experienced baker, prepares simple baked items, including breadstuffs and desserts; assists in receiving and storing food and supplies; operates and performs preventive maintenance on food service equipment; portions and serves food on serving line; applies required sanitation procedures in handling, storing, preparing, and serving food. *Skill Level 20:* Able to perform the duties required for Skill Level 10; prepares meats, fruits, vegetables, salads, desserts, beverages, and dairy products for serving; performs small-scale baking and meat cutting; operates and performs preventive maintenance on kitchen equipment; has knowledge of hygiene and sanitation procedures. Alternative job paths are available with assignment either as cook leading to dining facility manager or meatcutter leading to chief meatcutter. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the scheduling of personnel and facilities and the preparation of foods; inspects food prior to serving; supervises operation and maintenance of kitchen equipment; supervises procurement and storage of food; applies accounting procedures; maintains inventories, records, and files; completes appropriate reports. NOTE: May have progressed to 94B40 from 94B20 or 00H20 (Enlisted Aide).

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in quantity food preparation, 1 in kitchen operations, and 1 in food service operations, for a total of 5 semester hours (5/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation and 3 in kitchen operations; and 3 in food service operations *if the duty assignment was cook;* and 3 in meat cutting *if the duty assignment was meatcutter;* for a maximum total of 15 semester hours (1/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in quantity food preparation, 3 in kitchen operations, and 2 in bookkeeping; and 3 in food service operations *if the duty assignment was cook;* and 3 in meat cutting *if the duty assignment was meatcutter;* for a maximum total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation, 6 for a food service internship, 3 in kitchen operations, 3 in menu planning, 3 in personnel supervision, and 3 in human relations; and 3 in food service operations *if the duty assignment was cook;* and 3 in meat cutting *if the duty assignment was meatcutter;* for a maximum total of 30 semester hours. In the upper-division baccalaureate category, 6 semester hours for a food service internship (5/76).

94B20

94B30

94B40

94B50

Exhibit Dates: 9/76–Present.

Career Management Field: 94 (Food Service).

Description

Summary: Procures, prepares, and cooks food; identifies and uses appropriate equipment. *Skill Level 10:* Either has undergone on-the-job training program in food preparation and serving techiques or has recently completed a program of instruction in the basic principles of food preparation and service; under the supervision of an experienced cook, weighs, blends, mixes, and cooks food in accordance with prescribed procedures; washes, peels, cuts, and dices fruits, vegetables, meats, salads, and dairy products; prepares simple soups, sauces, and gravies; under the supervision of an experienced baker, prepares simple baked items, including breadstuffs and desserts; assists in receiving and storing food and supplies; operates and performs preventive maintenance on food service equipment; portions and serves food on serving line; applies required sanitation procedures in handling, storing, preparing, and serving food. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides guidance to Skill Level 10 personnel; prepares meats, fruits, vegetables, salads, desserts, beverages, and dairy products for serving; performs small-scale baking and meat cutting; operates and performs preventive maintenance on kitchen equipment; has knowledge of hygiene and sanitation procedures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises, as first cook, the scheduling of personnel and facilities and the preparation of foods; inspects food prior to serving; supervises procurement and storage of foods. Alternative job paths are available with assignment either as cook (leading to dining facility manager) or as meatcutter (leading to chief meatcutter). *Skill Level 40:* Able to perform the duties required for Skill Level 30; develops work sheet according to master menu; maintains records and files; applies accounting procedures to operate within budget; prepares reports; serves as dining facilities manager. *Skill Level 50:* Able to perform the duties required for Skill Level 40; has management responsibilities at the staff level, including developing plans and conducting evaluations; develops, coordinates, implements, and advises on food programs; evaluates operation of dining and serving areas, kitchens, field bakeries, and food service training facilities, and maintenance of equipment; is a member of the menu board; assists in menu development; may be in complete charge of food service operations during partial unit deployment or at a large facility with multiple food service outlet; prepares reports and studies on food service activities.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in quantity food preparation, 1 in kitchen operations, and 1 in food service operations, for a total of 5 semester hours (11/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation, 3 in kitchen operation, and 1 in food service operation, for a total of 10 semester hours (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in quantity food preparation, 3 in kitchen operations, and 1 in food service operations; and 2 additional semester hours in food service operations *if duty assignment was cook;* and 3 in meat cutting *if the duty assignment was meatcutter;* for a maximum total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation, 3 in kitchen operations, 3 in personnel supervision, 3 for field experience in food service, and 1 in food service operations; and 2 additional semester hours in food service operations *if the duty assignment was cook;* and 3 in meat cutting *if the duty assignment was meatcutter;* for a maximum total of 21 semester hours (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation, 3 in kitchen operations, 3 in personnel supervision, 3 in human relations, 3 for field experience in food service, and 1 in food service operations; and 2 additional semester hours in food service operations *if the duty assignment was cook;* and 3 in meat cutting *if the duty assignment was meatcutter;* for a maximum total of 24 semester hours (11/77).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower division baccalaureate/associate degree category, 6 semester hours in quantity food preparation, 3 in kitchen operations, 3 in personnel supervision, 3 in human relations, 3 in report writing, 3 in communication skills (oral), 3 for field experience in food service, and 1 in food service operations; and 2 additional semester hours in food service operations *if the duty assignment was cook;* and 3 in meat cutting *if the duty assignment was meatcutter;* for a maximum total of 30 semester hours. In the upper-division baccalaureate category, 6 semester hours for a food service internship (11/77).

MOS-94D-001

BAKER

94D20
94D40

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 94D was discontinued and its functions were incorporated into MOS 94B, Food Service Specialist.)

Career Management Field: 94 (Food Service).

Description

Summary: Prepares and bakes breads and pastries, using and maintaining specialized bakery equipment. *Skill Level 20:* Able to perform the duties required for 94B10 (Food Service Specialist); identifies, measures, and incorporates ingredients into breads or pastry doughs; controls times and temperatures of mixing and fermentation periods; divides, molds, and shapes breads and pastry products; prepares fillings and icings and fills and decorates baked pastries; slices and wraps baked bread; operates and performs preventive maintenance on all bakery equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the operating shifts in the preparation of breads and pastries; maintains the daily ingredient consumption and production schedules; instructs lower-skill-level personnel in acceptable baking techniques and in the proper operation of equipment; adjusts baking formulas, production processes and procedures to changing conditions; inspects personnel, supply and baking areas, and equipment for cleanliness and proper operation; may participate in site selection of field bakeries.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in baking and bakery operations, 3 in quantity food preparation, 1 in kitchen operations, and 2 in food service operations, for a total of 12 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in baking and bakery operations, 3 in quantity food preparation, 1 in kitchen operations, 2 in food service operations, and 2 in bookkeeping, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in baking and bakery operations, 3 in quantity food preparation, 3 for an internship in baking, 3 in personnel supervision, 3 in human relations, 1 in records administration, 1 in kitchen operations, and 2 in food service operations, for a total of 22 semester hours. In the upper-division baccalaureate category, 3 semester hours for an internship in bakery operations (5/76).

MOS-94F-001

HOSPITAL FOOD SERVICE SPECIALIST

94F20
94F40
94F50

Exhibit Dates: 10/73–8/76.

Career Management Field: 94 (Food Service).

Description

Summary: Assists in the planning and implementation of the food service program in hospitals; prepares, cooks, and serves foods to patients and staff. *Skill Level 20:* Able to perform the duties required for 94B10 (Food Service Specialist); measures, weighs, blends, and mixes various foodstuffs; roasts, fries, broils, boils, and stews meats; prepares fruits, vegetables, salads, desserts, beverages, and dairy products; bakes yeast breads, quick breads, pies, cakes, and cookies; sets up and serves regular and modified diets for patients; assembles and checks patient trays; instructs patients on modified diets to aid them in food selection; maintains records as to patient food preferences and diet changes and adjusts diet menus; prepares food in accordance with instructions from dietition or physician; performs preventive maintenance on kitchen equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises food production or diet therapy activities in a hospital; plans and prepares hospital menus for regular and modified diets and estimates the number of persons to be fed; schedules and supervises food preparation; inspects food preparation for conformance with dietetic requirements, and quality and quantity standards; inspects prepared food for palatability and appearance and to determine conformance with menus and recipes; inspects hospital food service facilities and initiates appropriate corrective action to remove deficiencies; supervises procurement, storage, distribution, accounting for, and serving of food in a hospital food service; conducts classroom and on-the-job training for subordinate personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; directs the operation of a hospital food service; implements preventive medical and environmental hygiene practices; advises superiors on food service equipment layout and space design; prepares budgets, reports, accounting reports, and audits for the hospital food service; supervises the preparation of purchase requisitions for hospital food service supplies and equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in quantity food preparation, 3 in kitchen operations, and 3 in food service operations, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation, 3 in kitchen operations, 3 in food service operations, 2 in nutrition, 2 in diet therapy, and 1 in menu planning, for a total of 17 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in quantity food preparation, 3 in kitchen operations, 3 in food service operations, 2 in bookkeeping, and 1 in hygiene and sanitation, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours for a food service internship, 6 in quantity food preparation, 3 in personnel supervision, 3 in menu planning, 3 in human relations, 3 in kitchen operations, 3 in food service operations, 2 in nutrition, 2 in diet therapy, 2 in accounting, 2 in purchasing, and 1 in hygiene and sanitation, for a total of 36 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in food service equipment layout design, 3 in records administration, 3 in industrial arts education (food service), and 1 in diet therapy, for a total of 19 semester hours (5/76).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in quantity food preparation, 3 in kitchen operations, 3 in food service operations, and 2 in bookkeeping, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation, 6 for a food service internship, 3 in menu planning, 3 in personnel supervision, 3 in human relations, 3 in kitchen operations, 3 in food service operation, 2 in nutrition, and

2 in diet therapy, for a total of 31 semester hours. In the upper-division baccalaureate category, 6 semester hours for a food service internship (5/76).

In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in technical mathematics, 3 in physical geography, 2 in mechanical drawing, and 1 in technical writing, for a total of 18 semester hours (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in technical mathematics, 3 in technical writing, and 2 in mechanical drawing, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in physical geography, 3 in technical mathematics, 3 in technical writing, 3 in human relations, and 2 in mechanical drawing, for a total of 23 semester hours (11/77).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division category, 3 semester hours in management problems (11/77).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours in management problems, 3 in personnel management, and 3 for field experience in management, for a total of 9 semester hours; *if the duty assignment was instructor in a service school,* 6 additional semester hours for a practicum in education, for a total of 15 semester hours (11/77).

MOS-96H-001

AERIAL SENSOR SPECIALIST (OV-1D)

96H10
96H20
96H30
96H40

Exhibit Dates: 9/76-Present

Career Management Field: 96 (Military Intelligence), *subfield* (Tactical Intelligence Surveillance).

Description

Summary: Supervises or participates in aerial surveillance operations using ground data terminal systems to provide information and imagery of intelligence value. *Skill Level 10:* Performs aerial surveillance, including visual reconnaissance, search and rescue, radiological survey, and similar intelligence activities; operates aerial infrared, radar, photographic, or similar sensor systems including associated data transmission links and ground data terminal stations; performs radio communications and aids aviator in aerial navigation; performs applicable electronic counter-countermeasures; assists in image interpretations; performs operator maintenance on sensors and associated equipment. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; assists aviator in weather analysis, navigation computations, and aircraft preflight inspection procedures; operates or supervises the operation of aerial surveillance and associated equipment; troubleshoots sensor systems; records operation and maintenance data in equipment logs; utilizes interpretation keys in assisting image interpreter. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises operations and activities of a section; supervises inspections and operator maintenance of sensors and associated equipment; directs and conducts on-the-job training; assists in planning use of aerial surveillance systems; assists image interpreter in analysis and interpretation of imagery; conducts or participates in briefing headquarters staff on capabilities and limitations of aerial surveillance missions, and on the results obtained. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises aerial surveillance platoon operations; plans and organizes work schedules, assigns duties, and instructs section leaders in proper work techniques and procedures; critiques mission results; participates in planning use of aerial surveillance systems and advises commander on coordination of aerial and ground surveillance; coordinates personnel, equipment, operational supply, and maintenance support requirements.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in general mathematics, 1 in still camera techniques, and 1 in electric circuits, for a total of 5 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in general mathematics, 3 in outdoor survival skills, 1 in still camera techniques, 1 in electric circuits, and 1 in maps and air photos, for a total of 9 semester hours. In the upper-division baccalaureate category, 1 semester hour in remote sensing (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in general mathematics, 3 in outdoor survival skills, 3 for field experience in management, 2 in maps and air photos, 2 in human relations, 2 in communications skills, 2 in personnel supervision, 1 in still camera techniques, and 1 in electric circuits, for a total of 19 semester hours. In the upper-division baccalaureate category, 1 semester hour in remote sensing (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in general mathematics, 3 in outdoor survival skills, 3 for field experience in management, 3 in human relations, 3 in communication skills, 3 in personnel supervision, 2 in maps and air photos, 1 in still camera techniques, and 1 in electric circuits, for a total of 22 semester hours. In the upper-division baccalaureate category, 1 semester hour in remote sensing (4/77).

MOS-96Z-001

INTELLIGENCE SENIOR SERGEANT

96Z50

Exhibit Dates: 9/76–Present.

Career Management Field: 96 (Military Intelligence); Subfield 960 (General Tactical Intelligence).

Description

Supervises intelligence collection, analysis, processing, and surveillance activities at group, division, corps, or comparable higher headquarters; supervises training activities; supervises tactical and technical operations; assists commissioned officers in appraisal of intelligence operations and training; instructs in specific phases of command intelligence procedures; supervises collection, preparation, and distribution of intelligence, operations, and training data; advises supervisors on matters concerning intelligence, operations, and administration. NOTE: May have progressed to 96Z50 from (Intelligence Analyst), 96D50 (Image Interpreter), or 17K50 (Ground Surveillance Radar Crewman).

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in clerical practices, 3 in records administration, 3 in technical writing, 3 in oral communication, 3 in personnel supervision, and 1 in map reading, for a total of 16 semester hours. In the upper-division baccalaureate category, 6 semester hours for a practicum in education, 3 for field experience in management, and 3 in management problems, for a total of 12 semester hours (11/77).

MOS-97B-001

COUNTERINTELLIGENCE AGENT

97B40

97B50

Exhibit Dates: 10/73–8/76.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Conducts investigations to determine whether laws have been violated; collects background information about individuals, groups, and organizations through surveys of public and private records, personal interviews, and surveillance techniques; operates specialized photographic and audio-visual recording equipment; conducts inspections of facilities to determine security weaknesses; maintains record systems; prepares oral and written reports; conducts briefings and classes. *Skill Level 40:* Is a first-line supervisor of an investigation or physical security team; sometimes conducts investigations without assistance. NOTE: May have progressed to 97B40 from 97C40 (Area Intelligence Specialist), 97D20, or 97D40 (Military Intelligence Coordinator). *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager; plans and administers operations and training activities; supervises subordinate personnel; knows and applies office management principles. NOTE: May have progressed to 97B50 from 97B40 or 97C50 (Area Intelligence Specialist).

Recommendation, Skill Level 40

In the vocational certificate category, the lower-division baccalaureate/associate degree category, or the upper-division baccalaureate category, 3 semester hours in police administration, 2 in law enforcement, 2 in industrial security, and 2 in criminology, for a total of 9 semester hours (2/75).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in police administration, 2 in law enforcement, 2 in industrial security, 2 in criminology, 1 in personnel supervision, 1 in records administration, and 1 in communication skills, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in police administration, 3 for a practicum in management, 2 in law enforcement, 2 in industrial security, and 2 in criminology, for a total of 12 semester hours (2/75).

MOS-97B-002

COUNTERINTELLIGENCE AGENT

97B20

97B30

97B40

97B50

Exhibit Dates: 9/76–Present.

Career Management Field: 96 (Military Intelligence), *subfield* 961 (Controlled Intelligence).

Description

NOTE: The skill levels of MOS 97B are not necessarily indicative of progressively complex duties, increased skills, and greater responsibilities; the higher skill levels in this MOS usually indicate longer tenure. *Summary:* Conducts security oriented investigations when there is a threat to military operations, installations, and personnel; collects background information concerning foreign and domestic individuals, groups and organizations posing such a threat; collects information through personal interviews, screening of public and private records made available to them, and surveillance techniques; is knowledgeable about the geography, political and economic systems, culture and customs of at least one foreign country; operates specialized photographic and sound recording equipment; conducts physical surveys of installations and facilities to minimize threats to security; maintains files; prepares written reports and gives oral reports of findings; conducts security oriented classes and briefings; may be proficient in a foreign language. NOTE: Required to have held another MOS for at least two years prior to holding this MOS. *Skill Level 20:* Conducts counterintelligence investigations, often without close supervision; functions as a basic counterintelligence agent; applies fundamentals of military and civil law in conducting investigations; evaluates sources and information; prepares and types reports and summaries; conducts security surveys. *Skill Level 30:* Able to perform the duties required for Skill Level 10;

may provide counterintelligence support at higher headquarters; may assist in on-the-job training of newer agents; functions as chief counterintelligence agent; plans and conducts counterintelligence operations to include analyzing, selecting, exploiting, and neutralizing targets of counterintelligence interest. *Skill Level 40:* Able to perform the duties required for Skill Level 30; may be used in a supervisory capacity; plans, organizes, and coordinates activities of counterintelligence support teams; functions as a senior counterintelligence agent. *Skill Level 50:* Able to perform the duties required for Skill Level 40; may conduct especially sensitive investigations; may be used as a staff specialist, planning and supervising intelligence operations. NOTE: May have progressed to 97B50 from 97B40 or 97C50 (Area Intelligence Specialist).

Recommendation, Skill Levels 20 and 30

In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in police administration, 3 in industrial security, 3 in United States government, 3 in applied psychology, 3 in report writing, and 1 in typing, and additional credit in personnel supervision and office management on the basis of institutional evaluation, for a minimum total of 22 semester hours. NOTE: Add credit for the specific foreign language in accordance with the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* (11/77).

Recommendation, Skill Levels 40 and 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Levels 20 and 30. In the upper-division baccalaureate category, 3 semester hours in political ideologies, 3 in constitutional law, and 3 in public relations, for a total of 9 semester hours (11/77).

MOS-97C-001

AREA INTELLIGENCE SPECIALIST

97C40
97C50

Exhibit Dates: 10/73–8/76.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Supervises and performs intelligence analysis of a geographic area; may be employed in either a group activity or individually within minimum supervision; formulates and carries out intelligence-gathering missions with a specific objective and utilizes extremely demanding operational security procedures in both domestic and foreign environments. NOTE: Many of the required duties for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 40:* May have previously held MOS 97B (Counterintelligence Agent) or MOS 97D (Military Intelligence Coordinator); performs extensive research to gain an in-depth understanding of the geography, politics, culture, technology, economics, and military and legal practices and institutions of one or more foreign nations; directs the operational or administrative activities of 1–12 U.S. or foreign personnel; performs discrete personnel investigations; may have written, oral, and/or aural skills in one or more foreign languages or dialects; understands and uses a wide variety of security techniques and procedures; uses specialized intelligence equipment, including standard and nonstandard communications and photographic equipment; may be familiar with computer usage in storing and retrieving intelligence data; identifies, assesses, and applies psychological factors which influence and motivate human behavior; writes extensive informational, operational, and administrative reports. *If duty position was Chief Area Intelligence Sergeant,* also performs the following duties: Serves as a senior area intelligence specialist; may serve as a service school instructor; may assume the duties normally assigned to Skill Level 50 personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as chief area intelligence specialist; directs area intelligence activities, performing less field work; performs budget analysis and justification; coordinates the preparation of extensive reports; supervises the activities of approximately 10–40 persons; trains subordinates in the application of security procedures and intelligence-gathering techniques; may serve as first sergeant of a company.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in area studies, 3 in written communication skills, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations, and additional credit in area studies on the basis of institutional evaluation, for a minimum total of 19 semester hours; add credit for foreign language proficiency by referring to the recommendation(s) in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* and modifying the credit on the basis of institutional evaluation. *If duty position was Chief Area Intelligence Sergeant,* use the following recommendation: In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 9 semester hours in area studies, 3 in written communication skills, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations, for a minimum total of 25 semester hours; *if the duty assignment was chief instructor in a formal training facility,* 3 additional semester hours for an internship in education, for a minimum total of 28 semester hours; add credit for foreign language proficiency by referring to the recommendation(s) in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* and modifying the credit on the basis of institutional evaluation; additional credit in area studies, written communication skills, field experience in management, management problems, and field experience in personnel supervision (up to the amounts in the recommendation for Skill Level 50) on the basis of institutional evaluation (9/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 15 semester hours in area studies, 6 in written communication skills, 6 for field experience in management, 3 in management problems, 3 for field experience in personnel supervision, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations, for a minimum total of 46 semester hours; *if the duty assignment was chief instructor in a formal training facility,* 3 additional semester hours for an internship in education, for a minimum total of 49 semester hours; add credit for foreign language proficiency by referring to the recommendation(s) in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* and modifying the credit on the basis of institutional evaluation (9/79).

MOS-97C-002

AREA INTELLIGENCE SPECIALIST

97C30
97C40
97C50

Exhibit Dates: 9/76–Present.

Career Management Field: 96 (Military Intelligence).

Description

Summary: Supervises and performs intelligence analysis of a geographic area; may be employed in either a group activity or individually with minimum supervision; formulates and carries out intelligence-gathering missions with a specific objective and utilizes extremely demanding operational security procedures in both domestic and foreign environments. NOTE: Many of the required duties for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 30:* May have previously held MOS 97B (Counterintelligence Agent) or MOS 97D (Military Intelligence Coordinator); performs extensive research to gain an in-depth understanding of the geography, politics, culture, technology, economics, and military and legal practices and institutions of one or more foreign nations; directs the operational or administrative activities of 1–12 U.S. or foreign personnel; performs discrete personnel investigations; may have written, oral, and/or aural skills in one or more foreign languages or dialects; understands and uses a wide variety of security techniques and procedures; uses specialized intelligence equipment, including standard and nonstandard communications and photographic equipment; may be familiar with computer usage in storing and retrieving intelligence data; identifies, assesses, and applies psychological factors which influence and motivate human behavior; writes extensive informational, operational, and administrative reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as a senior area intelligence specialist; may serve as a service school instructor; may assume the duties normally assigned to Skill Level 50 personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as chief area intelligence specialist; directs area intelligence activities, performing less field work; performs budget analysis and justification; coordinates the preparation of extensive reports; supervises the activities of approximately 10–40 persons; trains subordinates in the application of security procedures and intelligence-gathering techniques; may serve as first sergeant of a company.

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in area studies, 3 in written communication skills, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations, and additional credit in area studies on the basis of institutional evaluation, for a minimum total of 19 semester hours; add credit for foreign language proficiency by referring to the recommendation(s) in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* and modifying the credit on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 9 semester hours in area studies, 3 in written communication skills, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations, for a minimum total of 25 semester hours; *if the duty assignment was chief instructor in a formal training facility,* 3 additional semester hours for an internship in education, for a minimum total of 28 semester hours; add credit for foreign language proficiency by referring to the recommendation(s) in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* and modifying the credit on the basis of institutional evaluation; additional credit in area studies, written communication skills, field experience in management, management problems, and field experience in personnel supervision (up to the amounts in the recommendation for Skill Level 50) on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 15 semester hours in area studies, 6 in written communication skills, 6 for field experience in management, 3 in management problems, 3 for field experience in personnel supervision, 3 in applied psychology, 3 in geography, 3 in photography, 2 in typing, and 2 in electronic systems operations, for a minimum total of 46 semester hours; *if the duty assignment was chief instructor in a formal training facility,* 3 additional semester hours for an internship in education, for a minimum total of 49 semester hours; add credit for foreign language proficiency by referring to the recommendation(s) in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* and modifying the credit on the basis of institutional evaluation (6/77).

MOS-97D-001

MILITARY INTELLIGENCE COORDINATOR

97D20
97D40

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 97D was discontinued.)

Career Management Field: 96 (Military Intelligence).

Description

Summary: Supervises and performs the analysis of intelligence data in conjunction with counterintelligence or area intelligence operations; must be familiar with the duties required for MOS 97B (Counterintelligence Agent) and MOS 97C (Area Intelligence Specialist). NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Provides general and specialized administrative services to support the activities of 5-15 U.S. Army intelligence agents, which may include conducting document research, establishing and maintaining intelligence files, requisitioning supplies and equipment, and processing personnel actions; prepares and edits operational and administrative reports; types at a minimum speed of 25 words per minute; adheres to proper security procedures in the performance of all duties; may assist in an investigation by collecting information from public sources; may acquire proficiency in one or more foreign languages; may supervise lower-ranking personnel. *Skill Level 40:* Able to perform all of the duties of Skill Level 20; coordinates the reporting of intelligence agents' activities; may manage a military intelligence coordination office.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in written communication skills, 3 in security procedures, 2 in office practices, and 2 in typing, and additional credit in investigative report writing on the basis of institutional evaluation, for a minimum total of 10 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in security procedures, 2 in office practices, and 2 in typing, and additional credit in investigative report writing, for field experience in personnel supervision, and for foreign language proficiency on the basis of institutional evaluation, for a minimum total of 10 semester hours (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in written communication skills, 3 in security procedures, 3 in investigative report writing, 2 in office practices, and 2 in typing, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 in security procedures, 3 in investigative report writing, 3 for field experience in personnel supervision, 2 in office practices, and 2 in typing, and additional credit for foreign language proficiency on the basis of institutional evaluation, for a minimum total of 19 semester hours (6/77).

MOS-98B-001

EW/CRYPTOLOGIC CRYPTANALYST
(CRYPTANALYTIC SPECIALIST)

98B20
98B40

Exhibit Dates: 10/73-2/77. (Effective 3/77, MOS 98B was discontinued and its functions were incorporated into MOS 98C, EW/Signal Intelligence Analyst).

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Conducts or supervises cryptanalysis of coded messages obtained through the interception of foreign communications. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Scans intercepted communications to isolate encrypted messages; identifies method of encryption; decodes or deciphers messages employing simple cryptographic systems; uses automatic data processing techniques to aid in the analysis of encrypted messages; reduces decoded and deciphered data into automatic data processing format; prepares reports and maintains support files and records; types at a minimum rate of 25 words per minute; may acquire a technical vocabulary in a foreign language. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the processing, analysis, and reporting of encrypted foreign communications; performs cryptanalysis of messages employing complex encryption systems; prepares technical intelligence reports and presents oral reports on cryptanalytic activities; coordinates cryptanalytic activities with other signal intelligence activities; develops new cryptanalytic approaches and methods to insure maximum utilization of personnel and efficiency of operations; performs statistical tests and studies.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 1 in office practices, and 1 in introduction to automatic data processing equipment, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 2 in geography, 1 in office practices, and 1 in introduction to automatic data processing equipment, and additional credit for foreign language proficiency on the basis of institutional evaluation, for a minimum total of 15 semester hours (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in written communication skills, 3 in oral communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in office practices, and 1 in introduction to automatic data processing equipment, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in oral communication skills, 3 in social sciences and humanities, 3 for field experience in personnel supervision, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in office practices, and 1 in introduction to automatic data processing equipment, and additional credit for foreign language proficiency on the basis of institutional evaluation, for a minimum total of 23 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (6/77).

MOS-98C-001

EW/SIGNAL INTELLIGENCE ANALYST

98C20
98C30
98C40

Exhibit Dates: 10/73-2/77.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Supervises and performs analysis and reporting of intercepted foreign communications at a mobile or fixed site. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledge associated with the MOS were evaluated. *Skill Level 20:* Gathers, sorts, and scans intercepted messages and signals, and performs initial analysis to establish communications patterns; isolates valid message traffic; reduces communications data into automatic data processing format; operates communications equipment for reporting and coordination; types at a minimum rate of 25 words per minute; has a knowledge of the geography and culture of the area from which intercepted communications originate; may acquire a technical vocabulary in one or more foreign languages. *If duty position was Senior Traffic Analyst,* also performs the following duties: May supervise 5-8 persons; analyzes foreign communications, including encrypted communications; uses automatic data processing techniques to analyze communications; presents written and oral technical and intelligence reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises traffic analysis and provides guidance on the interpretation of collected information; devises methods for solving complex analytic problems; maintains analytic files, compiles, writes, edits, evaluates, and disseminates intelligence reports; analyzes automatic data processing results and confers with computer programmers and analysts; coordinates activities and schedules work; implements emergency action plans. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises traffic and signal intelligence analysis activities and coordinates collection, processing, analysis, and reporting functions; analyzes and evaluates intelligence data and releases reports; establishes and supervises training programs; supervises 18-40 persons; may serve as an operations sergeant, supervising up to 75 persons; may have experience as the enlisted commander of a detachment.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, and 1 in introductory mathematics, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 1 in introductory mathematics, and 1 in geography, for a total of 8 semester hours. *If the duty position was Senior Traffic Analyst,* use the following recommendation: In the vocational certificate category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 1 in office practices, and 1 in introduction to automatic data processing equipment, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 1 in office practices, and 1 in introduction to automatic data processing equipment, and additional credit for foreign language proficiency on the basis of institutional evaluation, for a minimum of 15 semester hours (9/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 2 in office practices, and 1 in introduction to automatic data processing equipment, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in human relations, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 2 in office practices, 2 in visual comprehension techniques, and 1 in introduction to automatic data processing equipment, and additional credit for foreign language proficiency on the basis of institutional evaluation, for a minimum total of 21 semester hours (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in human relations, 3 for field experience in personnel supervision, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 2 in office practices, 2 in visual comprehension techniques, and 1 in introduction to automatic data processing equipment, and additional credit for foreign language proficiency on the basis of institutional evaluation, for a minimum total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/79).

MOS-98C-002

EW/SIGNAL INTELLIGENCE ANALYST

98C10
98C20
98C30
98C40

Exhibit Dates: 3/77-Present.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Supervises and performs analysis and reporting of intercepted foreign communications at a mobile or fixed site. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Gathers, sorts, and scans intercepted messages and signals, and performs initial analysis to establish communications patterns; isolates valid message traffic; reduces communications data into automatic data processing format; operates communications equipment for reporting and coordination; types at a minimum rate of 25 words per minute; has a knowledge of the geography and culture of the area from which intercepted communications originate; may acquire a technical vocabulary in one or more foreign languages. *Skill Level 20:* Able to perform the duties required for Skill Level 10; may supervise 5-8 persons; analyzes foreign communications, including encrypted communications; uses automatic data processing techniques to analyze communications; presents written and oral technical and intelligence reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises traffic analysis and provides guidance on the interpretation of collected information; devises methods for solving complex analytic problems; maintains analytic files; compiles, writes, edits, evaluates, and disseminates intelligence reports; analyzes automatic data processing results and confers with computer programmers and analysts; coordinates activities and schedules work; implements emergency action plans. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises traffic and signal intelligence analysis activities and coordinates collection, processing, analysis, and reporting functions; analyzes and evaluates intelligence data and releases reports; supervises 18-40 persons; may serve as an operations sergeant, supervising up to 75 persons; may have experience as the enlisted commander of a detachment.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, and 1 in introductory mathematics, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 1 in introductory mathematics, and 1 in geography, for a total of 8 semester hours (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 1 in office practices, and 1 in introduction to automatic data processing equipment, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 1 in office practices, and 1 in introduction to automatic data processing equipment, and additional credit for foreign language proficiency on the basis of institutional evaluation, for a minimum total of 15 semester hours (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in written communication skills, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in oral communication skills, 2 in office practices, and 1 in introduction to automatic data processing equipment, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in human relations, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 2 in office practices, 2 in visual comprehension techniques, and 1 in introduction to automatic data processing equipment, and additional credit for foreign language proficiency on the basis of institutional evaluation, for a minimum total of 21 semester hours (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 3 in human relations, 3 for field experience in personnel supervision, 2 in typing, 2 in electronic systems operations, 2 in introductory mathematics, 2 in geography, 2 in oral communication skills, 2 in office practices, 2 in visual comprehension techniques, and 1 in introduction to automatic data processing equipment, and additional credit for foreign language proficiency on the basis of institutional evaluation, for a minimum total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (6/77).

MOS-98G-001

EW/SIGNAL INTELLIGENCE VOICE
INTERCEPTOR
98G20
98G30
98G40

Exhibit Dates: 10/73-2/77.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Conducts and supervises the interception, transcription, translation, and reporting of foreign voice transmissions in a mobile or fixed station environment. *NOTE:* Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Operates intercept receivers, including radiotelephone and multichannel systems, and recording equipment; selects, erects, and orients tactical antennas; makes written records of foreign voice transmissions which are composed of limited terminology and simple syntactic structures; identifies languages spoken in the geographic area to which assigned; categorizes foreign voice signals by type of activity; prepares voice activity records; makes verbatim translation from foreign language to English; scans written foreign language materials for key words and indicators; provides translation assistance to non-language-qualified analysts; extracts specific intelligence information from voice radio transmissions; researches and develops special project reports; presents oral reports; types in English and in language of proficiency; performs operator maintenance on equipment. *If duty position was Senior Voice Interceptor (paygrade E-5),* also performs the following duties: Intercepts, identifies, and records foreign voice transmissions; supervises a small unit; assembles, integrates, analyzes, and disseminates intelligence information covering political, economic, sociological, historical, and psychological factors of a geographic area; prepares special studies and reports as required. Must have the following minimum capabilities in at least one foreign language: vocabulary (aural recognition) of 6,000-8,000 words; 750-1,000 technical term items; knowledge of complex grammar and syntax; 85-90 percent of all existing word functions; 85-90 percent of all kinship terms; total comprehension of writing systems, except in languages with ideographic systems where the ability to write 500 and read 1,500 characters is required. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises voice communication intercept activities; operates sophisticated equipment designed to collect and simultaneously produce on-line activity records of complex foreign voice radio transmissions containing technical terminology, advanced grammar/syntax, and colloquial conversational forms; directs voice signal collection and processing activities; determines collection and processing priorities; identifies and performs limited analysis on nonclear voice and nonvoice signals; writes complex reports; makes oral presentations to general staff. Must achieve a fluent and accurate proficiency in one or more foreign languages and have the following minimum foreign language capabilities: vocabulary (aural recognition) of 8,000-10,000 words; 1,000-1,500 technical term items; advanced knowledge of grammar and syntax; 90-100 percent of all existing word functions; 90-100 percent of all existing kinship terms and forms of address; must be able to write 700 and read 2,000 characters in an ideographic writing system. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises voice communication countermeasure activities; refines essential elements of information needed to support assigned mission; performs voice intercept and processing of high military and governmental levels. Must achieve the following minimum capabilities in one or more foreign languages: vocabulary (aural recognition) of 10,000-15,000 words; 1,500-3,000 technical term items; total knowledge of word functions; total knowledge of kinship terms and forms of address; must be able to write 1,000 and read 2,500-3,000 characters in an ideographic writing system. *If paygrade E-7 has been achieved,* also performs the following duties: Serves as electronic warfare/signal intelligence voice operations chief; evaluates and defines job requirements and systems capabilities for communication intelligence linguists. Must attain a foreign language proficiency equivalent to that of a well-educated native speaker and have the following minimum capabilities; vocabulary (aural recognition) of 15,000-plus words; 3,000-plus technical term items; advanced knowledge of grammar and syntax; must be able to write 1,500 and read 2,500-3,000 characters in ideographic writing systems.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing and 3 in library technology; in the upper-division baccalaureate category, 6 semester hours in written communication skills and credit in linguistics on the basis of institutional evaluation. *NOTE:* Add credit for the specific foreign language(s), using the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation. *If the duty position was Senior Voice Interceptor (paygrade E-5),* use the following recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, and 3 in geography; in the upper-division baccalaureate category, 6 semester hours in written communication skills, and credit in linguistics on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language(s), using the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/79).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 3 in social sciences and humanities, 3 in human relations, and 2 in office practices; in the upper-division baccalaureate category, 6 in written communication skills, and credit in linguistics on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language(s), using the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (7/79).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 6 in social sciences and humanities, 3 in human relations, 3 for field experience in personnel supervision, and 2 in office practices; in the upper-division baccalaureate category, 6 semester hours in written communication skills and 3 for field experience in management, and credit in linguistics on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language(s), using the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation. *If paygrade E-7 was achieved,* use the following recommendation: In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 6 in social sciences and humanities, 3 in human relations, 3 for field experience in personnel supervision, and 2 in office practices; in the upper-division baccalaureate category, 6 for field experience in management, 3 in introduction to management, and 3 in personnel management, and credit in linguistics on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language(s), using the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (9/79).

MOS-98G-002

EW/SIGNAL INTELLIGENCE VOICE
INTERCEPTOR
98G10
98G20
98G30
98G40
98G50

Exhibit Dates: 3/77-Present.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Conducts and supervises the interception, transcription, translation, and reporting of foreign voice transmissions in a mobile or fixed station environment.

NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Operates intercept receivers, including radiotelephone and multichannel systems, and recording equipment; selects, erects, and orients tactical antennas; makes written records of foreign voice transmissions which are composed of limited terminology and simple syntactic structures; identifies languages spoken in the geographic area to which assigned; categorizes foreign voice signals by type of activity; prepares voice activity records; makes verbatim translation from foreign language to English; scans written foreign language materials for key words and indicators; provides translation assistance to non-language-qualified analysts; extracts specific intelligence information from voice radio transmissions; researches and develops special project reports; presents oral reports; types in English and in language of proficiency; performs operator maintenance on equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; intercepts, identifies, and records foreign voice transmissions; supervises a small unit; assembles, integrates, analyzes, and disseminates intelligence information covering political, economic, sociological, historical, and psychological factors of a geographic area; prepares special studies and reports as required. Must have the following minimum capabilities in at least one foreign language: vocabulary (aural recognition) of 6,000-8,000 words; 750-1,000 technical term items; knowledge of complex grammar and syntax; 85-90 percent of all existing word functions; 85-90 percent of all kinship terms; total comprehension of writing systems, except in languages with ideographic systems where the ability to write 500 and read 1,500 characters is required. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises voice communication intercept activities; operates sophisticated equipment designed to collect and simultaneously produce on-line activity records of complex foreign voice radio transmissions containing technical terminology, advanced grammar/syntax, and colloquial conversational forms; directs voice signal collection and processing activities; determines collection and processing priorities; identifies and performs limited analysis on nonclear voice and nonvoice signals; writes complex reports; makes oral presentations to general staff. Must achieve a fluent and accurate proficiency in one or more foreign languages and have the following minimum foreign language capabilities: vocabulary (aural recognition) of 8,000-10,000 words; 1,000-1,500 technical term items; advanced knowledge of grammar and syntax; 90-100 percent of all existing work functions; 90-100 percent of all existing kinship terms and forms of address; must be able to write 700 and read 2,000 characters in an ideographic writing system. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises voice communication countermeasure activities; refines essential elements of information needed to support assigned mission; performs voice intercept and processing of highly complex foreign voice transmissions; prepares papers for use at high military and governmental levels. Must achieve the following minimum capabilities in one or more foreign languages: vocabulary (aural recognition) of 10,000-15,000 words; 1,500-3,000 technical term items; total knowledge of word functions; total knowledge of kinship terms and forms of address; must be able to write 1,000 and read 2,500-3,000 characters in an ideographic writing system. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as electronic warfare/signal intelligence voice operations chief; evaluates and defines job requirements and systems capabilities for communication intelligence linguists. Must attain a foreign language proficiency equivalent to that of a well-educated native speaker and have the following minimum capabilities: vocabulary (aural recognition) of 15,000-plus words; 3,000-plus technical term items; advanced knowledge of grammar and syntax; must be able to write 1,500 and read 2,500-3,000 characters in ideographic writing systems.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing and 3 in library technology; in the upper-division baccalaureate category, 6 semester hours in written communication skills, and credit in linguistics on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language(s), using the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, and 3 in geography; in the upper-division baccalaureate category, 6 semester hours in written communication skills, and credit in linguistics on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language(s), using the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 3 in social sciences and humanities, 3 in human relations, and 2 in office practices; in the upper-division baccalaureate category, 6 in written communication skills, and credit in linguistics on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language(s), using the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 6 in social sciences and humanities, 3 in human relations, 3 for field experience in personnel supervision, and 2 in office practices; in the upper-division baccalaureate category, 6 semester hours in written communication skills and 3 for field experience in management, and credit in linguistics on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language(s), using the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (6/77).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in library technology, 3 in records administration, 3 in geography, 6 in social sciences and humanities, 3 in human relations, 3 for field experience in personnel supervision, and 2 in office practices; in the upper-division baccalaureate category, 6 semester hours in written communication skills, 6 for field experience in management, 3 in introduction to management, and 3 in personnel management, and credit in linguistics on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language(s), using the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* as a minimum and awarding additional credit for foreign language proficiency on the basis of institutional evaluation. In the graduate degree category, credit for foreign language proficiency on the basis of institutional evaluation (6/77).

MOS-98J-001

EW/Signal Intelligence
Noncommunications Interceptor
98J20
98J30
98J40
98J50

Exhibit Dates: 10/73-2/77.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates noncommunications intercept recording and analysis equipment; intercepts, identifies, interprets, and analyzes signals from noncommunications sources; operates electro-optical receiving and analysis equipment. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Erects noncommunications collection systems; conducts search for selected categories or classes of noncommunications or electro-optic signals; uses technical references and equipment to record and perform preliminary analysis and identification of intercepted signals of interest; determines line bearings of intercepted signals within specified limits; reports acquired information; posts entries and keeps logs; operates communications equipment for intelligence reporting coordination. *Skill Level 30:* Able to perform the duties required for Skill Level 20; searches for general categories or classes of noncommunications or electro-optic signals; exercises quality control over intercept effort; uses indexed data base and technical references to fix origin of intercepted signals; performs technical analysis and threat assessments; prepares intercept and analysis reports, maps, and overlays; assists with fusion product reporting; establishes and maintain files. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as a first-line supervisor of an intercept-analysis (noncommunications signals) activity; assigns search missions; intercepts and analyzes more complex noncommunications or electro-optic signals; prepares technical and administrative reports; establishes and supervises training programs; makes recommendations on the employment of noncommunications intercept units; selects and establishes operations sites; interprets and analyzes technical documents and reports; performs fusion analysis and intelligence reporting. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises noncommunications intercept, countermeasures, and analysis activities of 20 or more persons; based on requirements, determines objectives and priorities; assigns workloads and allocates resources among subordinate supervisors; coordinates activities with other units; evaluates requirements and assists in developing plans to meet future operations, personnel, and equipment needs.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in electronic systems operations, 2 in typing, 2 in introductory mathematics, and 2 in introduction to automatic data processing equipment, for a total of 8 semester hours (9/79).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, and 2 in introduction to automatic data processing equipment, and 1 in office practices, for a total of 12 semester hours (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 in human relations, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 17 semester hours (9/79).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 in human relations, 3 for field experience in personnel supervision, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 22 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/79).

MOS-98J-002

EW/Signal Intelligence
Noncommunications Interceptor

98J10
98J20
98J30
98J40

Exhibit Dates: 3/77–Present.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates noncommunications intercept recording and analysis equipment; intercepts, identifies, interprets, and analyzes signals from noncommunications sources; operates electro-optical receiving and analysis equipment. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Erects noncommunications collection systems; conducts search for selected categories or classes of noncommunications or electro-optic signals; uses technical references and equipment to record and perform preliminary analysis and identification of intercepted signals of interest; determines line bearings of intercepted signals within specified limits; reports acquired information; posts entries and keeps logs; operates communications equipment for intelligence reporting and coordination. *Skill Level 20:* Able to perform the duties required for Skill Level 10; searches for general categories or classes of noncommunications or electro-optic signals; exercises quality control over intercept effort; uses indexed data base and technical references to fix origin of intercepted signals; performs technical analysis and threat assessments; prepares intercept and analysis reports, maps, and overlays; assists with fusion product reporting; establishes and maintains files. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor of an intercept/analysis (noncommunications signals) activity; assigns search missions; intercepts and analyzes more complex noncommunications or electro-optic signals; prepares technical and administrative reports; makes recommendations on the employment of noncommunications intercept units; selects and establishes operations sites; interprets and analyzes technical documents and reports; performs fusion analysis and intelligence reporting. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises noncommunications intercept, countermeasures, and analysis activities of 20 or more persons; based on requirements, determines objectives and priorities; assigns workloads and allocates resources among subordinate supervisors; coordinates activities with other units; evaluates requirements and assists in developing plans to meet future operations, personnel, and equipment needs.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in electronic systems operations, 2 in typing, 2 in introductory mathematics, and 2 in introduction to automatic data processing equipment, for a total of 8 semester hours (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 1 in office practices, for a total of 12 semester hours (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 in human relations, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 17 semester hours (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 in human relations, 3 for field experience in personnel supervision, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 22 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (6/77).

MOS-98Z-001

EW/Signal Intelligence Chief (EW/
Cryptologic Operations Chief)
(Signal Intelligence Operations
Chief)

98Z50

Exhibit Dates: 10/73–Present.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Serves as the principal authority on signal intelligence matters in a high-level military organization; directs signal intelligence activities and provides technical, operational, and administrative guidance to subordinate personnel; interprets all signal intelligence requirements and develops signal intelligence tasks; evaluates military posture of other nations and determines the capabilities and limitations of U.S. signal intelligence activities to meet the determined threats; reviews, evaluates, prepares, and implements plans and orders; assists high-level commanders in appraising the effectiveness of signal intelligence operations and staff; evaluates signal intelligence functions, publications, and procedures and recommends changes; advises commanders on matters of personnel welfare, morale, assignment, utilization, promotion, privileges, discipline, and training; provides written and oral evaluations of subordinate personnel; uses counseling techniques to alleviate stress among subordinates; prepares and presents written and oral reports to high-level personnel in the Department of the Army and other national agencies involved in the preparation of national security and intelligence policy; manages equipment, material, and support service resources. NOTE: May have progressed to 98Z50 from 98B40 (EW/Cryptologic Cryptanalyst), 98C40 (EW/Signal Intelligence Analyst), 98G50 (EW/Signal Intelligence Voice Interceptor), 98J40 (EW/Signal Intelligence Noncommunications Interceptor), 05H40 (EW/Signal Intelligence Morse Interceptor), or 05K40 (EW/Signal Intelligence Non-Morse Interceptor); may have acquired proficiency in one or more foreign languages through the performance of a previously held MOS. Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated.

Recommendation

In the lower-division baccalaureate/associate degree category extending into the upper-division baccalaureate category, 2 semester hours in electronic systems operations, 2 in introductory mathematics, 2 in typing, 2 in introduction to automatic data processing equipment, 3 in records administration, 3 in industrial security, 3 in social sciences and humanities, 3 in geography, 3 in human relations, 3 for a counseling practicum, 3 in oral communication skills, 6 in written communication skills, 6 for field experience in management, 3 in introduction to management, 3 in personnel management, and 3 in office management; *if the duty assignment was chief instructor in a formal training facility,* 3 additional semester hours for an internship in education. NOTE: Persons holding 98Z50 may have acquired proficiency in one or more foreign languages through the performance of a previously held MOS. Add credit for the specific foreign language(s) by referring to the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* and modifying the recommendation on the basis of institutional evaluation (6/77).

Army Warrant Officer MOS Exhibits

MOS-011A-001

Military Physician's Assistant

011A0 (formerly 911A0)

Exhibit Dates: 8/73–Present.

Career Pattern

May have progressed to Military Physician's Assistant from MOS 91B (Medical Specialist), MOS 91C (Clinical Specialist), MOS 91D (Operating Room Specialist), MOS 91S (Preventive Medicine Specialist), MOS 91Z (Medical Senior Sergeant), or MOS 92B (Medical Laboratory Specialist); has from 3 to 10 years of clinical experience prior to appointment as a Physician's Assistant.

Description

Working under the guidance and supervision of a physician, provides general medical care for the sick and injured; makes diagnoses of diseases, disorders, and injuries; applies preventive, diagnostic, and therapeutic medical and surgical procedures; obtains and records medical data and case histories on prescribed forms; recognizes potential zoonotic and food-borne disease problems. NOTE: Appointment to Warrant Officer as a Physician's Assistant is based upon satisfactory completion of the two-year Physician's Assistant program of instruction at the Army's Academy of Health Sciences, Fort Sam Houston, Texas. This program consists of 52 weeks of didactic instruction and 52 weeks of clinical practicum. Didactic instruction is provided in human anatomy and physiology, clinical physiology, inorganic chemistry, biological chemistry, community health, mental health, pharmacology, clinical medicine, clinical surgery, pediatrics, pathology and laboratory practices, preventive medicine methods and practices, and medical and surgical procedures. Practica of either four weeks or six weeks duration are taken in the following clinics: obstetrics/gynecology, pediatrics, EENT (eye, ear, nose, and throat), neuro-psychiatric, dermatology, orthopedic, surgical medicine; clinical practica are also taken in preventive medicine, ambulatory care, and laboratory service.

Recommendation

In the upper-division baccalaureate category, 60 semester hours in physician assisting; *if rank was CW2*, 2 additional semester hours for field experience in management; *if rank was CW3*, 4 additional semester hours for field experience in management; *if rank was CW4*, 6 additional semester hours for field experience in management (6/77).

MOS-021A-001

Club Manager

021A0

Exhibit Dates: 8/70–Present.

Career Pattern

May have progressed to warrant officer Club Manager from enlisted MOS 00J (Club Manager).

Description

Manages the operations of U.S. Army or joint service clubs, club systems, hotels, or similar activities involving up to several thousand members; supervises all business operations of the activities, including financial operations, beverage and food services, membership activities, and social and recreational activities; knows regulations and policies governing financial management and accountability for property and funds, including in-depth knowledge of internal controls, budgeting, credit card operations, and financial statements and reports; knows fundamentals of business law and contractual relationships; knows military and civilian protocol and social customs; monitors operations to insure control of costs, waste, pilferage, inventory rotation, and accountability; has knowledge of appropriate laws, codes, and regulations; supervises purchase, storage, preparation, and service of food and beverages; monitors club operations to insure control of costs, inventory, accountability, and receipts; completes required reports; supervises catering of social functions, parties, and special events; selects and recommends contracting for entertainment groups; enforces safety requirements, club rules of conducts and dress codes; supervises, directs, and trains subordinates and civilian employees.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in report writing, 3 in communications skills (oral), 3 in food and beverage management, 3 in food and labor cost control systems, 3 in personnel supervision, and 3 in office practices, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in hotel, motel, or club management, and 3 in personnel management and training; *if rank was CW2*, 2 additional semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3*, 4 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4*, 6 additional semester hours for field experience in management, for a total of 12 semester hours (11/77).

MOS-031A-001

Bandmaster

031A0 (formerly 5241)

Exhibit Dates: 2/46–Present.

Career Pattern

Normally progresses to Bandmaster from an Army enlisted bandsman (currently any MOS in Career Management field 97, Band, which includes MOS 02B through MOS 02Z), completing from one to three preparatory programs of instruction.

Description

Possesses skills and understanding in applied music ensemble playing, basic music theory, planning concerts, conducting, etc.; acquires basic understanding of the techniques of all wind and percussion instruments; has extensive and practical experience in arranging music for bands and jazz ensembles and, in some cases, choral groups; conducts band literature equivalent to that included in upper-division and graduate courses; acquires a thorough grasp of military marching evolutions, commands, and procedure; is responsible for band administration and the supervision of the musical development of band units; directs personnel, administration, supply (uniforms, instruments, and publications), and repair and maintenance activities of band units; has fiscal control of band units; routinely serves as a company commander; may serve as an instructor in the Army element of the School of Music.

Recommendation

In the lower-division baccalaureate/associate degree category, 16 semester hours in music theory (includes harmony, sight singing, ear training, and keyboard), 8 in applied music, 4 in performing ensemble, 3 in woodwind, brass, and percussion techniques, and 3 in personnel supervision, and additional credit in applied music on the basis of institutional evaluation, for a minimum total of 34 semester hours. In the upper-division baccalaureate category, 6 semester hours in arranging, 4 in performing ensemble, 6 in conducting, 2 in marching band techniques, and 3 for field experience in management, and additional credit in introduction to management on the basis of institutional evaluation, for a minimum total of 21 semester hours; *if the duty assignment was an instructor in the Army element of the School of Music*, credit in teaching methods in music, education materials, evaluation and testing in education, and for a practicum in education on the basis of institutional evaluation, for a minimum total of 21 semester hours; *if rank was CW2*, 2 additional semester hours for field experience in management, for a minimum total of 23 semester hours; *if rank was CW3*, 4 additional semester hours for field experience in management, for a minimum total of 25 semester hours; *if rank was CW4*, 6 additional semester hours for field experience in management, for a minimum total of 27 semester hours. In the graduate degree category, 3 semester hours in conducting, 3 in band administration, and 2 in performing ensemble, and additional credit in educational administration on the basis of institutional evaluation, for a minimum total of 8 semester hours (4/77).

MOS-041A-001

Food Service Technician

(Food Service Advisor, 941A0)

(Food Advisor, 4114)

041A0

Exhibit Dates: 3/54–Present.

Career Pattern

May have progressed to Food Service Technician from any enlisted food service MOS: MOS 94B (Food Service Specialist), MOS 94D (Baker), MOS 94F (Hospital

Food Service Specialist), or MOS 94Z (Food Service Supervisor).

Description

Supervises and administers food service activities for installations, commands, or organizations; maintains complete operational control over facilities, personnel, and specialized equipment; supervises the procurement, storage, distribution, and preparation of foods to be served; writes reports; develops procedures for implementing policies from higher authority; uses specialized accounting methods; plans use, layout, and maintenance of food service equipment; in carrying out specialized duties, is required to devote most energies in the technical and human resource areas of food service administration; interprets contracts and monitors contractor's performance; if assigned to hospital food service duties, may be required to perform additional specialized supervisory functions in nutritional and diet therapy areas; may serve as a staff advisor to a general officer or provide technical assistance to nonappropriated-fund food service activities; may serve as a service school instructor.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in food service management, 3 in principles of management, 3 in personnel supervision, 3 in food service equipment and layout, and 3 in business report writing, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in management problems and 2 for field experience in management; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 7 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 9 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 11 semester hours; *if duty assignment was service school instructor,* 3 additional semester hours for a practicum in education; *if assigned to a hospital as a food service technician,* 3 additional semester hours in nutrition or diet therapy (11/77).

100DO

ATTACK HELICOPTER PILOT

100EO

COMBAT SERVICE/SUPPORT FIXED WING PILOT

100QO

COMBAT SURVEILLANCE FIXED WING PILOT

100RO

Exhibit Dates: 12/68–Present.

Career Pattern: May have progressed to any warrant officer pilot MOS from any enlisted MOS.

Description

Pilots and commands specified aircraft under tactical and non-tactical conditions; transports passengers, mail, or cargo for military purposes; supervises aircraft maintenance; supervises loading and unloading to ensure load stability balance, and adherence to aircraft load limitations; may function as a service school instructor for aviators; may serve in aircraft procurement activities.

Recommendation

In the vocational certificate category, 40 to 60 hours in aviation flight technology (comparable to F.A.A. commercial and instrument ratings on category aircraft). NOTE: Knowledge and skills may be equivalent to other F.A.A. ratings (flight instructor, instrument instructor, etc.), or the applicant may be trained on additional categories of aircraft; award additional credit for these areas on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for the vocational certificate category plus 3 semester hours in general mathematics, 3 in technical writing, 3 in aviation safety, 3 in communication skills (oral), and 3 for field experience in personnel supervision. In the upper-division baccalaureate category, *if served as section or platoon chief, assistant section or assistant platoon chief, or aircraft repair technician (designated on Army records as 100BG, 100CG, etc.),* 3 semester hours in personnel management, 3 for management electives, and 3 in human relations, for a total of 9 semesters hours; *if served as instructor pilot (designated on Army records as 100BC, 100CC, etc.),* 3 semester hours on psychology electives, 3 for management electives, and 3 in human relations, for a total of 9 semester hours (7/78).

MOS-103A-001

AVIATION TECHNICIAN

103A0

See the exhibit MOS-160A-001

MOS-160A-001

AVIATION MAINTENANCE TECHNICIAN
(AVIATION TECHNICIAN)

160A0 (formerly 103A0)

Exhibit Dates: 3/75–Present.

Career Pattern

May have progressed to Aviation Maintenance Technician (160A) or Aviation Technician (103A) from MOS 67G (Airplane Repairer), MOS 67N (Utility Helicopter Repairer), MOS 67U (Medium Helicopter Repairer), MOS 67V (Observation/Scout Helicopter Repairer), MOS 67W (Aircraft Quality Control Supervisor), MOS 67X (Heavy Lift Helicopter Repairer), MOS 67Y (Attack Helicopter Repairer), MOS 67Z (Aircraft Maintenance Senior Sergeant), MOS 68B (Aircraft Power Plant Repairer), MOS 68D (Aircraft Powertrain Repairer), MOS 68F (Aircraft Electrician), MOS 68G (Aircraft Structural Repairer), or MOS 68H (Aircraft Pneudraulics Repairer).

Description

Supervises aviation maintenance and repair shops, teams, sections, or platoons which maintain or repair army rotary and fixed-wing aircraft; organizes and manages maintenance facilities, equipment, and personnel to inspect, service, test, disassemble, replace parts on, repair, reassemble, adjust, and retest aircraft or aircraft components; assigns work to subordinates and supervises work in progress, final inspection, and final testing; develops operating procedures and performs administrative duties related to supply and maintenance activities; provides technical assistance to pilots and flight crews concerning required crew maintenance of aircraft and aircraft components; interprets technical material related to aircraft maintenance.

Recommendation

In the vocational certificate category, 3 semester hours in essentials of supervision, 3 in survey of computer concepts, 3 in technical writing, 2 in maintenance shop record keeping, 2 in warehousing and storage, 2 in material handling and safety, and 3 in maintenance management and inventory control, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in maintenance management, 3 in shop practices and procedures, 2 in inventory management, 2 in material handling and safety, 3 in personnel supervision, 3 in survey of computer concepts, 2 in maintenance shop record keeping, and 3 in communication skills (speech/technical writing), for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 in management electives, for a total of 6 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 12 semester hours; *if duty assignment was platoon leader, section leader, or equivalent leadership position,* credit in leadership and supervision on the basis of institutional evaluation (7/78).

MOS-201A-001

METEOROLOGY TECHNICIAN

201A0

Exhibit Dates: 6/61–Present.

Career Pattern

May have progressed to Meteorology Technician from MOS 35D (Meteorological Equipment Repairman), MOS 93E (Meteorological Observer), or MOS 93F (Ballistic Meteorology Crewman or Field Artillery Meteorological Crewman).

Description

Normally serves as the chief of a meteorology section that provides ballistic meteorological data, not involving weather forecasting to artillery units; is responsible for the organization and operation of the section and its physical facilities as well as the supervision and training of enlisted specialists in the section; manages and allocates resources to install, operate, and maintain mercurial, aneroid, electronic, optical, and mechanical meteorological instruments and equipment; determines layout of ballistic meteorological stations and facilities and plans equipment installation; knows methods of observing and plotting meteorological data, inspects and tests meteorological equipment, determines operating procedures and techniques, and allocates work to subordinates; determines requirements for, procures, and manages supplies, repair parts, and equipment; supervises calibration of graphs and other recording devices; evaluates ballistic meteorological data and produces messages to be transmitted to artillery units; instructs subordinates on established maintenance techniques and operating procedures; may serve as an instructor at a formal service school; may be employed in research, development, and evaluation activities.

Recommendation

In the vocational certificate category, 2 semester hours in electronic laboratory and 1 in basic mathematics. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in industrial/human relations, 2 in electronic laboratory, 1 in basic mathematics, and 1 in meteorology, for a total of 10 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 in management electives; *if rank was CW2,* 2 additional semester hours for field experience in management; *if rank was CW3,* 4 additional semester hours for field experience in management; *if rank was CW4,* 6 additional semester hours for field experience in management (3/77).

MOS-202A-001

BIOMEDICAL EQUIPMENT REPAIR TECHNICIAN

202A0

Exhibit Dates: 6/61–Present.

Career Pattern

May have progressed to Biomedical Equipment Repair Technician from MOS 35B (Electronic Instrument Repairman), MOS 35G (Biomedical Equipment Repairer), MOS 35S (Electronic Biomedical Equipment Repairer), MOS 35T (X-ray Biomedical Equipment Repairer), or MOS 35U (Biomedical Equipment Maintenance Chief).

Description

Organizes, supervises, and manages personnel and organizations responsible for installing, operating, maintaining, and repairing optical, dental, and medical technical diagnostic and treatment equipment; plans and develops detailed procedures for installation of instruments or equipment; develops internal operating procedures and manages allocated resources; anticipates and determines repair requirements, parts, and replacement of equipment; instructs on established maintenance techniques and operating procedures; advises on and supervises use of schematics, tube testing equipment, oscilloscopes, voltmeters, and other test equipment to isolate equipment malfunctions; inspects inoperative equipment, develops cost estimates for repair, and makes appropriate recommendations regarding repair or replacement; maintains records; distributes workload, makes final inspections; develops plans for design and layout of medical laboratory or equipment facilities; prepares drawings, sketches, notes, and materials for installation of equipment; may serve as the commander or chief of a section; may serve as a service school instructor; may perform duties in support of the procurement or research, development, test, and evaluation of medical equipment.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 in communication skills (oral and written), and 3 in record keeping, for a total of 12 semester hours. In the upper-division baccalaureate category, 6 semester hours in personnel management, 3 for field experience in management, 3 in management problems, 3 in introduction to management, 3 in public speaking, 3 in technical report writing, 3 in records administration, and 3 in office management, for a minimum total of 27 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 29 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 31 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 33 semester hours (11/79).

MOS-211A-001

TARGET ACQUISITION RADAR TECHNICIAN (FIELD ARTILLERY RADAR TECHNICIAN)

211A0

Exhibit Dates: 10/66–Present.

Career Pattern

May have progressed to Target Acquisition Radar Technician from MOS 13W (Field Artillery Target Acquisition Senior Sergeant), MOS 17B (Field Artillery Radar Crewman), MOS 17C (Field Artillery Target Acquisition Specialist), MOS 17Z (Combat Surveillance and Target Acquisition NCO), MOS 24P (Defense Acquisition Radar Mechanic), MOS 26B (Weapons Support Radar Repairman), MOS 26C (Combat Area Surveillance Radar Repairer), MOS 26D (Ground Control Approach Radar Repairer), or MOS 26W (Radar Maintenance Supervisor—Inspector).

Description

Normally serves as chief of a section or platoon engaged in maintaining and operating field artillery radars to provide target location; has a detailed knowledge of the operational aspects of field artillery radar, the technical principles of equipment construction, the scope and techniques of field artillery radar, and safety precautions relevant to operations and maintenance; advises on technical considerations involving field artillery radar; coordinates the activities of field artillery radar personnel; supervises the movement and emplacement of radar and associated equipment; interprets technical data, implements changes in inspections, repair, and test procedures, and instructs personnel on new or revised techniques of radar electronics maintenance and employment; inspects completed work and assists personnel in isolating and correcting malfunctions in equipment; must be able to transmit target and counterfire data to support artillery units; reviews maintenance records; supervises the requisitioning of tools, repair parts, technical supplies, publications, and equipment; may serve as an instructor at a formal training school, on a headquarters staff, or in research, development, test, and evaluation activities.

Recommendation

In the vocational certificate category, 6 semester hours in electronics theory and laboratory and 2 in uses of basic hand tools. In the lower-division baccalaureate/associate degree category, 6 semester hours in electronics theory and laboratory, 3 in personnel supervision, 3 for field experience in management, 2 in industrial/human relations, 2 in technical report writing, and 2 in maintenance management, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management; *if rank was CW2,* 2 additonal semester hours for field experience in management; *if rank was CW3,* 4 additional semester hours for field experience in management; *if rank was CW4,* 6 additional semester hours for field experience in management (3/77).

MOS-2122-001

ARMY ATTACHE ADMINISTRATIVE OFFICER

2122

See the exhibit, MOS-961A-001.

MOS-214E-001

MISSILE SYSTEM TECHNICIAN, PERSHING (FIELD ARTILLERY MISSILE SYSTEM TECHNICIAN, PERSHING)

214E0

Exhibit Dates: 12/62–Present.

Career Pattern

May have progressed to Missile System Technician, Pershing, from MOS 15E (Pershing Missile Crewman), MOS 21G (Pershing Electronics Materiel Specialist), MOS 21L (Pershing Electronics Repairman), or MOS 46N (Pershing Electrical-Mechanical Repairer).

Description

Supervises the maintenance of field artillery missiles, fire control systems, and missile launching and handling equipment; oversees assembly of missiles; supervises utilization, testing, and maintenance of tools, specialized test sets, cable sets, and warhead assemblies; inspects and directs testing, servicing, and repair of missile launching and guidance equipment; supervises maintenance of missile components, determines repair/replacement requirements, insures that repairs and adjustments are made, and makes final inspections; advises superiors on technical and tactical considerations affecting the employment of missiles; serves as a technical advisor on matters of preventive maintenance and inspection of radar, missiles, fire control systems, missile launching and handling equipment, and on-missile materiel; observes and corrects improper technical procedures and repair techniques; coordinates maintenance techniques and standards with preventive maintenance personnel to insure uniformity; implements changes in inspection, repair, and test procedures and instructs personnel on new techniques of missile maintenance and repair; insures that equipment modifications are accomplished; examines and interprets procedures, directives, schematics, and technical publications for data pertinent to the employment of radar, missiles, and related equipment and transmits data to subordinate personnel; reviews operating and maintenance records and tests equipment to ascertain adequacy of maintenance; monitors storage of missile guidance and motor sections; insures compliance with safety and security regulations and procedures; writes and reviews technical reports; reviews and consolidates requests for tools, spare parts, technical supplies, publications, and equipment; may serve as an instructor at a formal training school or be employed in missile procurement activities.

Recommendation

In the vocational certificate category, 3 semester hours in electronics laboratory and 1 in care and use of hand tools. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in personnel supervision, 3 for field experience in management, 3 in technical report writing, 2 in maintenance management, and 2 in industrial/human relations, and additional credit in instructional methods on the basis of institutional evaluation, for a minimum total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management; *if rank was CW2,* 2 additional semester hours for field experience in management; *if rank was CW3,* 4 additional semester hours for field experience in management; *if rank was CW4,* 6 additional semester hours for field experience in management (3/77).

MOS-214G-001

MISSILE SYSTEM TECHNICIAN, LANCE
(FIELD ARTILLERY MISSILE SYSTEM TECHNICIAN, LANCE)

214G0

Exhibit Dates: 2/75–Present.

Career Pattern

May have progressed to Missile System Technician, Lance, from MOS 15D (Lance Missile Crewman) or MOS 27D (Lance Missile System Repairman).

Description

Supervises the maintenance of field artillery missiles, fire control systems, and missile launching and handling equipment; oversees assembly of missiles; supervises utilization, testing, and maintenance of tools, specialized test sets, cable sets, and warhead assemblies; inspects and directs testing, servicing, and repair of missile launching and guidance equipment; supervises maintenance of missile components, determines repair/replacement requirements, insures that repairs and adjustments are made, and makes final inspections; advises superiors on technical and tactical considerations affecting the employment of missiles; serves as a technical advisor on matters of preventive maintenance and inspection of radar, missiles, fire control systems, missile launching and handling equipment, and on-missile materiel; observes and corrects improper technical procedures and repair techniques; coordinates maintenance techniques and standards with preventive maintenance personnel to insure uniformity; implements changes in inspection, repair, and test procedures and instructs personnel on new techniques of missile maintenance and repair; insures that equipment modifications are accomplished; examines and interprets procedures, directives, schematics, and technical publications for data pertinent to the employment of radar, missiles, and related equipment and transmits data to subordinate personnel; reviews operating and maintenance records and tests equipment to ascertain adequacy of maintenance; monitors storage of missile guidance and motor sections; insures compliance with safety and security regulations and procedures; writes and reviews technical reports; reviews and consolidates requests for tools, spare parts, technical supplies, publications, and equipment; may serve as an instructor at a formal training school or be employed in missile procurement activities.

Recommendation

In the vocational certificate category, 3 semester hours in electronics laboratory and 1 in care and use of hand tools. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics laboratory, 3 in personnel supervision, 3 for field experience in management, 3 in technical report writing, 2 in maintenance management, and 2 in industrial/human relations, and additional credit in instructional methods on the basis of institutional evaluation, for a minimum total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management; *if rank was CW2,* 2 additional semester hours for field experience in management; *if rank was CW3,* 4 additional semester hours for field experience in management; *if rank was CW4,* 6 additional semester hours for field experience in management (3/77).

MOS-221B-001

MISSILE ASSEMBLY TECHNICIAN, NIKE

221B0

Exhibit Dates: 1/69–Present.

Career Pattern

May have progressed to Missile Assembly Technician, Nike, from MOS 22N (Nike-Hercules Missile-Launcher Repairman), MOS 23W (Nike Maintenance Chief), MOS 24U (Hercules Electronics Mechanic), or MOS 28M (Anti-Ballistic Missile Maintenance Specialist).

Description

Supervises the assembly, testing, and maintenance of all components of Air Defense/Ballistic Missile Defense (AD/BMD) missiles; knows operations, theory, and on-line maintenance of missile testing and servicing equipment associated with warhead sections, fuses, electronic and mechanical on-missile guidance equipment, hydraulic systems, and propulsion units; knows theory and function of hydraulic systems, vacuum tubes, solid state devices, and associated circuits and circuit elements; performs checkouts of electronic, electrical, mechanical, electromechanical, and hydraulic systems; knows authorized procedure for modifying existing equipment; knows AD/BMD missile transport, storage, and safety program regulations and policies for nuclear and explosive components; knows theory, operation, and maintenance procedures for all launching area equipment; oversees uncrating and mating of missiles, rocket motor assemblies, and warhead sections; supervises emplacement of missiles and launching area equipment in mobile air defense units; knows maintenance record keeping and inventory control procedures; trains and evaluates missile maintenance personnel in troubleshooting and maintenance procedures; advises commander on the technical and tactical aspects of missile employment, emplacement, readiness status, and firing.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in troubleshooting, 3 in technical mathematics, 3 in basic electronics, 3 in AC/DC circuit analysis, 3 in transistor theory, 3 in maintenance management, 2 in instrumentation, 2 in controls, 2 in pulse circuits, 2 in inventory management, 2 in personnel supervision, 2 in report writing, 1 in maintenance shop recordkeeping, and additional credit in controls, transistor theory, mathematics, hydraulics, and public speaking/communication on the basis of institutional evaluation, for a minimum total of 34 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training and 3 in management electives; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 12 semester hours; *if duty assignment was platoon leader,* credit in leadership and supervision on the basis of institutional evaluation (5/77).

MOS-221C-001

MISSILE MAINTENANCE TECHNICIAN, SAFEGUARD

221C0

Exhibit Dates: 3/72–3/78.

NOTE: Effective 4/78, MOS 221C was discontinued and its functions were incorporated into MOS 221B, Missile Assembly Technician, Nike. The skills, competencies, and knowledge required to maintain the Safeguard missile are comparable to those required to maintain the Nike missile. Use the recommendation in the exhibit, MOS-221B-001.

MOS-222B-001

Missile Fire Control Technician, Nike
(Air Defense Missile Fire
Control Technician, Nike)

222B0

Exhibit Dates: 1/69–Present.

Career Pattern

May have progressed to Missile Fire Control Technician, Nike, from MOS 16Z (Air Defense Artillery Senior Sergeant), MOS 22L (Nike Test Equipment Repairman), MOS 22N (Nike-Hercules Missile-Launcher Repairman), MOS 23N (Nike Track Radar Repairman), MOS 23U (Nike High Power Radar-Simulator Repairman), MOS 23W (Nike Maintenance Chief), MOS 24P (Defense Acquisition Radar Mechanic), MOS 24Q (Nike-Hercules Fire Control Mechanic), MOS 24U (Hercules Electronics Mechanic), MOS 26H (Air Defense Radar Repairman), or MOS 34G (Fire Control Computer Repairman).

Description

Supervises the repair and maintenance of Nike air defense missile control equipment, data processing and simulator equipment, and radars; supervises the movement, emplacement, and testing of fire control and auxiliary equipment; understands theory, function, and operation of solid-state devices, associated circuits, tracking radars, acquisition radars, interrogator equipment, computer data transmission systems, tactical control circuits, counter-countermeasure systems, and power supply equipment for Nike air defense missile fire control equipment; supervises the use, testing, and maintenance of tools and test equipment used in diagnosing complex malfunctions in missile electronic ground guidance and tactical data processing equipment; monitors equipment during testing, simulations, and missile firing exercises to detect operator error and/or systems malfunctions and initiates corrective action, if required; knows regulations and procedures required for working with high voltage, electromagnetic radiation, and x-rays; supervises emplacement, testing, and maintenance of fire control equipment, advises commander on employment of counter-countermeasures; knows operation, function, and maintenance of battery terminal equipment; trains maintenance and operator personnel in Nike air defense missile fire control equipment; supervises parts inventory and supply system, including procurement for Nike air defense missile; supervises maintenance and operation inventory; evaluates effectiveness of maintenance programs, operator training, and parts and equipment supply operations; prepares reports.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in electronics troubleshooting, 3 in technical mathematics, 3 in basic electronics, 3 in AC/DC circuits analysis, 3 in transistor theory, 3 in maintenance management, 2 in instrumentation, 2 in pulse circuits, 2 in digital circuitry, 2 in computer fundamentals, 2 in inventory management, 2 in personnel supervision, 2 in report writing, 1 in maintenance shop record keeping, 1 in control systems, 1 in radar/microwave theory, 1 in machine language, and additional credit in electronics, mathematics, data processing, computer science, and public speaking/communication on the basis of institutional evaluation, for a minimum total of 39 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training and 3 in management electives; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 12 semester hours; *if duty assignment was platoon leader,* credit in leadership and supervision on the basis of institutional evaluation (5/77).

MOS-223B-001

Missile System Technician, Hawk
(Missile System Technician,
Improved Hawk)

223B0 (formerly 223D0 and
251D0)

Exhibit Dates: 10/71–Present.

NOTE: MOS 223B was established in 4/78. It is a consolidation of two previous MOS's, MOS 223D (Air Defense Missile System Technician, Improved Hawk) and MOS 251D (Air Defense Missile System Repair Technician, Improved Hawk). Because these two MOS's represented substantially the same skills, competencies, and knowledge required for MOS 223B, persons who held MOS 223D or MOS 251D are eligible for the credit recommended in this exhibit for MOS 223B. However, readers should also note that many persons who held two other previous MOS's, MOS 223C (Air Defense Missile System Technician, Hawk) and MOS 251C (Air Defense Missile Repair System Technician, Hawk) and MOS 251C (Air Defense Missile System Repair Technician, Hawk) were reassigned to MOS 223B. Because of the additional training normally required for personnel to change over from the Hawk missile system to the Improved Hawk missile system, the recommendation in this exhibit should be applied to a person who held MOS 223C or MOS 251C only after an institutional evaluation confirms that the individual acquired substantially the same skills, competencies, and knowledge described for MOS 223B.

Career Pattern

May have progressed to Missile System Technician, Improved Hawk, from any enlisted MOS in Improved Hawk or Hawk missile system repair or mechanics MOS in Career Management Field 23 (subfields 233, 234, 235, or 236).

Description

Supervises the assembly, inspection, and repair of the Improved Hawk missile system, simulator equipment, and associated test equipment; understands theory, functions, and operation of on-missile guidance equipment, ranging radars, pulse radars, launchers, fire control equipment, simulator stations, computers, and automatic data transmission systems used with the Improved Hawk air defense missile system and associated power generation and air-conditioning equipment; knows theory and functions of solid-state devices and associated circuits and circuit elements; knows how to assemble and test components of missile, radar, and fire control equipment; supervises testing of the system specialized test sets and procedures; supervises repairmen in isolating malfunctions and in repairing, adjusting, and aligning systems and system components; advises personnel on equipment modifications and of changes to inspection, repair, test, and maintenance calibration procedures; knows safety procedures and regulations pertaining to high-energy electromagnetic radiation hazards, high-voltage hazards, and high-pressure hydraulic equipment; knows missile transport and storage methods; knows operation, function, and maintenance of battery terminal equipment; trains personnel in safety and security procedures and maintenance techniques; interprets technical publications; supervises parts inventory and supply system, including procurement; reviews and prepares reports; evaluates supply and maintenance problems, advises superiors, and recommends corrective actions; may serve as an instructor at a formal training school or be employed in missile procurement activities.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in electronics troubleshooting, 3 in basic electronics, 3 in AC/DC circuit analysis, 3 in transistor theory, 3 in instrumentation, 2 in pulse circuits, 2 in control systems, 2 in digital circuitry, 2 in computer fundamentals, 1 in radar/microwave theory, 1 in machine language, 3 in maintenance management, 2 in inventory management, 2 in personnel supervision, 2 in report writing, 1 in maintenance shop record keeping, and additional credit in electronics, mathematics, data processing, computer science, and public speaking/communication on the basis of institutional evaluation, for a minimum total of 44 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training and 3 in management electives; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 12 semester hours; *if duty assignment was platoon leader,* credit in leadership and supervision on the basis of institutional evaluation (5/77).

MOS-223D-001

Air Defense Missile System
Technician, Improved Hawk

223D0

Exhibit Dates: 10/71–3/78.

NOTE: Effective 4/78, MOS 251D was discontinued and its functions were incorporated into MOS 223B, Missile System Technician, Improved Hawk. See the exhibit, MOS-223B-001.

MOS-224B-001

Short Range Air Defense Systems
Technician (Chaparral/Vulcan
System Technician)

224B0

Exhibit Dates: 12/68–Present.

Career Pattern

May have progressed to Short Range Air Defense Systems Technician from MOS 24M (Vulcan System Mechanic), MOS 24N (Chaparral System Mechanic), MOS 27B (Land Combat Support System Test Specialist), MOS 27F (Chaparral/Vulcan Air

Defense System Repairman or Vulcan Repairer), MOS 27G (Redeye Missile System Repairman or Chaparral/Redeye Repairer), or MOS 27Z (LCSS Missile Maintenance Chief).

Description

Supervises repair and maintenance of the Chaparral and Vulcan light air defense electronic systems and land combat support missile systems, including forward area alert radar (FAAR) and target alerting identification systems; supervises operation of maintenance shops, on-site maintenance activities, and shop quality control activities; knows theory, operation, and functioning of Chaparral/Vulcan systems and associated equipment, including test and training equipment and motor support units; has knowledge of electricity, electronics, pneumatics, hydraulics, and mechanics; reads, uses, and interprets schematic diagrams and other technical publications; uses special tools and test equipment to maintain, adjust, troubleshoot, and repair system equipment; organizes, supervises, manages, and evaluates most phases of maintenance programs peculiar to the system and to its support equipment; acts in the capacity of maintenance officer in the absence of a line officer; coordinates activities with other maintenance organizations; supervises 20–50 subordinates; advises and assists in establishing training programs for operators and crewmen; knows and provides staff supervision for supply functions; supervises inventory and purchasing of maintenance parts, tools, and equipment; knows safety procedures pertaining to the missile systems and associated equipment; writes technical and administrative reports; advises superiors on the technical and tactical capabilities, limitations, and employment of the missile systems; may serve as an instructor at a formal training school or as a technical advisor on a headquarters staff.

Recommendation

In the vocational certificate category, 6 semester hours in electricity/electronics laboratory, 5 in automotive mechanics, 5 in diesel mechanics, 5 in industrial truck mechanics, 3 in troubleshooting, 1 in shop practices and procedures, and 1 in industrial safety, for a total of 26 semester hours. In the lower-division baccalaureate/associate degree category, 5 semester hours in automotive mechanics, 5 in diesel mechanics, 5 in industrial truck mechanics, 3 in basic electronics, 3 in troubleshooting, 1 in shop practices and procedures, 1 in industrial safety, 3 in maintenance management, 3 in personnel supervision, 2 in inventory management, 2 in maintenance shop record keeping, 2 in report writing, and credit in public speaking/communication on the basis of institutional evaluation, for a minimum total of 35 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training and 3 in management electives; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 12 semester hours; *if duty assignment was platoon leader,* credit in leadership and supervision on the basis of institutional evaluation (5/77).

MOS-241F-001

FIELD ARTILLERY MISSILE SYSTEM REPAIR TECHNICIAN, PERSHING

241F0

Exhibit Dates: 12/62–3/78.

NOTE: Effective 4/78, MOS 241F was discontinued and its functions were incorporated into MOS 214E, Missile System Technician, Pershing. Use the recommendation in the exhibit, MOS-214E-001, and award additional credit on the basis of institutional evaluation.

MOS-251B-001

AIR DEFENSE MISSILE SYSTEM REPAIR TECHNICIAN, NIKE

251B0

Exhibit Dates: 1/69–3/78.

NOTE: Effective 4/78, MOS 251B was discontinued and its functions were incorporated into MOS 222B, Missile Fire Control Technician, Nike. Use the recommendation in the exhibit, MOS-222B-001, and award additional credit on the basis of institutional evaluation.

MOS-251D-001

AIR DEFENSE MISSILE SYSTEM REPAIR TECHNICIAN, IMPROVED HAWK

251D0

Exhibit Dates: 10/71–3/78.

NOTE: Effective 4/78, MOS 251D was discontinued and its functions were incorporated into MOS 223B, Missile System Technician, Improved Hawk. See the exhibit, MOS-223B-001.

MOS-252A-001

CALIBRATION AND REPAIR TECHNICIAN (CALIBRATION TECHNICIAN)

252A0

Exhibit Dates: 8/71–Present.

Career Pattern

May have progressed to Calibration Technician, from MOS 35H (Calibration Specialist).

Description

Supervises or accomplishes repair and calibration of precision equipment used for the measuring, testing, controlling and indicating of temperature, pressure, vacuum, fluid flow, liquid level, mechanical motion, rotation, humidity, density, acidity, alkalinity, and combustion (equipment may include tools, dial pressure gauges, scales, balances, direction and sighting devices, oscilloscopes, meters, digital test equipment, signal generators, power supplies, and specialized mechanical and electronic testing equipment); maintains equipment within prescribed manufacturer standards and national or international bureau of standards tolerances and ensures that calibration surveillance standards are met; manages activities and personnel engaged in calibration of instruments or system components of all types of Army equipment and weapons. Interprets and analyzes measurement data and specifications of equipment, instruments, or gauges to conform to specified standards; develops procedures for testing and diagnosing malfunctions or implements established guidance to adjust or repair item requiring calibration; interprets technical data, schematics and transfer standards in the use and operation of this material; supervises testing systems to isolate malfunctions and faulty components; instructs subordinates on the correctional adjustments to obtain special readings or characteristics, such as frequency or inductance; certifies instruments for accuracy; may be assigned chief of section engaged in calibration activities, and may supervise up to 50 calibration technicians; may be employed as a contracting officer's representative to monitor and evaluate the performance of contractor personnel performing maintenance calibration functions for the Army; may be assigned as a service school instructor at U.S. Army or joint service schools, and typically is involved in writing of training materials and teaching of update courses to subordinates; may oversee budget of his calibration unit, oversee office, personnel, job placement, employee relations, shipping of equipment, and other essential officer-level duties.

Recommendation

In the vocational certificate category, 3 semester hours in electricity/electronics, 6 in circuits, 6 in troubleshooting techniques, 3 in electronics measurement laboratory, and 3 in technical electives, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electricity/electronics, 6 in circuits, 3 in troubleshooting techniques, 3 in electronics measurement laboratory, 3 in personnel supervision and human relations, and 3 in technical writing and report preparation, for a total of 21 semester hours. In the upper-division baccalaureate category, 6 semester hours in management electives and 3 in education electives; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 11 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 13 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 15 semester hours (8/79).

MOS-260A-001

NUCLEAR WEAPONS TECHNICIAN

260A0

Exhibit Dates: 3/74–Present.

Career Pattern

May have progressed to Nuclear Weapons Technician from MOS 35F (Nuclear Weapons Electronics Specialist) or MOS 55G (Nuclear Weapons Maintenance Specialist).

Description

Supervises the assembly, disassembly, inspection, test, repair, modification, maintenance, security and safety of nuclear warhead subsections, projectiles, munitions, components, and associated trainers; supervises from 8 to 40 personnel engaged in the maintenance calibration of the test and handling equipment associated with nuclear materials and weapons; determines the acceptability of nuclear warhead sections and subassemblies to assure their reliability through close supervision and personal inspection of maintenance operations, including electronic component replacement, nuclear material replacement, and proper storage and handling; ensures that equipment modifications are accomplished as announced; examines, interprets, rewrites, and disseminates technical materials for revised operating procedures, orders, technical publications, new test equipment, and new safety procedures pertinent to nuclear materials and weapons; enforces the compliance with weapons safety rules, OSHA regulations, security regulations, and unique safety requirements; performs emergency disarm and destruction of nuclear weapons, which involves handling nuclear materials and conventional high explosives; supervises all administrative duties associated with repair and maintenance, including requisitions for tools, parts, and supplies; manages personnel assignments; writes reports and maintains records; performs inspections; provides technical guidance and assistance to all support units, operating agencies and company commanders regarding all matters involving nuclear weapons.

Recommendation

In the vocational certificate category, 1 semester hour in electronic circuits, 3 in electronic measurements laboratory, 3 in explosives handling, 6 in nuclear materials handling, and 6 in nuclear security and safety procedures, for a total of 19 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic measurements laboratory, 6 in nuclear materials handling, 6 in nuclear security and safety procedures, 3 in personnel supervision and human relations, and 3 in technical writing and report preparation, for a total of 21 semester hours. In the upper-division baccalaureate category, 6 semester hours in management electives and 3 in education electives; *if rank was CW2*, 2 additional semester hours for field experience in management, for a total of 11 semester hours; *if rank was CW3*, 4 additional semester hours for field experience in management, for a total of 13 semester hours; *if rank was CW4*, 6 additional semester hours for field experience in management, for a total of 15 semester hours (8/79).

MOS-271A-001

LAND COMBAT SUPPORT MISSILE SYSTEMS REPAIR TECHNICIAN

271A0

Exhibit Dates: 10/66-Present.

Career Pattern

May have progressed to Land Combat Support Missile Systems Repair Technician from MOS 27B (Land Combat Support System Test Specialist/Lance Repairer), MOS 27D (Lance Missile System Repairman), MOS 27E (Wire-Guided Missile Systems Repairman or TOW/Dragon Repairer), MOS 27H (Shillelagh Repairer), or MOS 27Z (LCSS Missile Maintenance Chief).

Description

Manages supply, equipment, facility, and personnel assets in the maintenance and repair of land combat support missile systems (short- or medium-distance guided missile weapon systems), associated system-designed electronic test systems, and training devices; directs the activities of personnel engaged in isolating malfunctions occurring in electronic firing and guiding systems and components; analyzes complex malfunctions; supervises repair of and modifications to systems components, including guidance control systems, optical trackers, modulators, infrared sensors, conduct-of-fire trainers, missiles, and specialized test equipment; oversees supply management and preparation of work reports and maintenance records; forecasts supply requirements; insures that final inspections and checkout procedures are conducted; examines, interprets, and disseminates technical material, including orders, bulletins, and manuals; instructs enlisted specialists in troubleshooting techniques, diagnostic procedures, and the interpretation of tests on system components, circuits, and optical elements; knows techniques and safety procedures for handling explosive components; may serve as instructor at a formal training school.

Recommendation

In the vocational certificate category, 6 semester hours in electronics theory and laboratory and 2 in use of basic hand tools. In the lower-division baccalaureate/associate degree category, 6 semester hours in electronics theory and laboratory, 3 in personnel supervision, 3 for field experience in management, 3 in industrial/human relations, 2 in maintenance management, and 1 in technical report writing for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training and 3 in management electives; *if rank was CW2*, 2 additional semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3*, 4 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4*, 6 additional semester hours for field experience in management, for a total of 12 semester hours (3/77).

MOS-281A-001

RADIO REPAIR TECHNICIAN

281A0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 281A was discontinued and its functions were incorporated into MOS 286A, Communications-Electronics Equipment Repair Technician. Use the exhibit, MOS-286A-001.

MOS-282A-001

RADIO REPAIR TECHNICIAN

282A0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 282A was discontinued and its functions were incorporated into MOS 286A, Communications-Electronics Equipment Repair Technician. Use the exhibit, MOS-286A-001.

MOS-285A-001

ELECTRONIC WARFARE/INTERCEPT EQUIPMENT REPAIR TECHNICIAN (INTERCEPT REPAIR TECHNICIAN)

285A0

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Electronic Warfare/Intercept Equipment Repair Technician from MOS 26K (Aerial Electronic Warning/Defense Equipment Repairer) or MOS 33S (Electronic Warfare Intercept Systems Repairer).

Description

Manages personnel and equipment involved in installing, maintaining, repairing, and modifying complex electronic warfare, intercept, and related ancillary electronics equipment; applies theory and knowledge of functioning of vacuum tubes, transistors and other solid-state devices, and digital techniques; applies techniques of circuit analysis and performance measurement; keeps maintenance records; supervises requisitioning of supplies and spare parts; recommends equipment modifications; instructs repair personnel on troubleshooting and repair techniques and on specialized tests and procedures; estimates repair requirements and costs; prepares and implements maintenance schedules; advises commander on use of electronic systems and equipment; may serve as a service school instructor.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in shop management, 3 in maintenance management, 3 in administrative office management, 3 in business communications, 3 in record keeping 3 in computer and data processing concepts, and 3 in personnel supervision, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in management problems, 3 for field experience in management, 3 in education electives (instruction and counseling) and additional credit in leadership and supervision on the basis of institutional evaluation, for a minimum total of 12 semester hours; *if rank was CW2*, 2 additional semester hours for field experience in management, for a minimum total of 14 semester hours; *if rank was CW3*, 4 additional semester hours for field experience in management, for a minimum total of 16 semester hours; *if rank was CW4*, 6 additional semester hours for field experience in management, for a minimum total of 18 semester hours (5/78).

MOS-286A-001

COMMUNICATIONS-ELECTRONICS EQUIPMENT REPAIR TECHNICIAN (COMMUNICATIONS-ELECTRONICS REPAIR TECHNICIAN)

286A0

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Communications-Electronics Equipment Repair Technician from MOS 24P (Defense Acquisition Radar Mechanic), MOS 26B (Weapons Support Radar Repairman), MOS 26C (Combat Area Surveillance Radar Repairer), MOS 26D (Ground Control Approach Radar Repairer), MOS 26H (Air Defense Radar Repairman), MOS 26L (Tactical Microwave Systems Repairman), MOS 26M (Aerial Surveillance Radar Repairer), MOS 26T (Radio/Television Systems Specialist), MOS 26V (Strategic Microwave Systems Repairman), MOS 26Y (Satellite Communications Ground Station Equipment Repairman), MOS 31B (Field Communications-Electronics Equipment Mechanic), MOS 31E (Field Radio Repairman), MOS 31J (Teletypewriter Repairman), MOS 31L (Multichannel Communications Equipment Repairman), MOS 31W (Tactical Electronics Maintenance Chief), MOS 32E (Fixed Plant Carrier Repairman), MOS 32H (Fixed Station Radio Repairman), MOS 32Z (Fixed Station Chief), MOS 35E (Special Electrical Devices Repairman), MOS 35K (Avionic Mechanic), MOS 35L (Avionic Communications Equipment Repairer), MOS 35M (Avionic Navigation and Flight Control Equipment Repairer), MOS 35P (Avionic Equipment Maintenance Supervisor), MOS 35R (Avionic Special Equipment Repairer), MOS 36G (Manual Central Office Repairman), MOS 36H (Dial Central

Office Repairman), or MOS 36L (Electronics Switching Repairman).

Description

Manages personnel and equipment in the installation, maintenance, and modification of radio, radar, television, microwave, navigation, avionics, wire communication equipment, and associated tools, test sets and accessory equipment; receives and inspects equipment; prepares work assignments for subordinates; plans, coordinates, supervises, and evaluates maintenance activities; plans and implements maintenance schedules; develops repair and operating procedures and assures quality control; instructs personnel on test and maintenance procedures; supervises general technical and complex repair of communications-electronics equipment at all command levels; estimates repair requirements and costs; advises commander or staff officers on communications equipment development, procurement, capabilities, limitations and employment; may serve as service school instructor; may serve as advisor to members of allied armies; may serve with procurement; may serve in research, development, and evaluation activities related to communications equipment.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in shop management, 3 in maintenance management, 3 in administrative office management, 3 in business communications, 3 in record keeping, 3 in computer and data processing concepts, and 3 in personnel supervision, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in management problems, 3 for field experience in management, 3 in education electives (instruction and counseling) and additional credit in leadership and supervision on the basis of institutional evaluation, for a minimum total of 12 semester hour; *if rank was CW2,* 2 additional semester hours for field experience in management, for a minimum total of 14 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a minimum total of 16 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a minimum total of 18 semester hours (5/78).

MOS-287A-001

DATA PROCESSING SYSTEMS REPAIR TECHNICIAN

287A0

Exhibit Dates: 6/61–Present.

Career Pattern

May have progressed to Data Processing Systems Repair Technician from MOS 25D (BIRDIE Repairman), MOS 25G (Mobile ADCP Monitor Repairman), MOS 25H (Radar Data Processing Equipment Repairman), MOS 25J (Operations Central Repairman), MOS 25K (AN/TSQ-51 System Repairman/Maintenance Chief), MOS 34B (Tabulating Equipment Repairman), MOS 34E (NCR 500 Computer Repairman), MOS 34F (DSTE Repairman), MOS 34G (Fire Control Computer Repairman), MOS 34H (ADMSE Repairer), MOS 34J (UNIVAC 1004/1005 DCT 9000 System Repairman), MOS 34K (IBM 360 Repairman), or MOS 34Z (ADP Maintenance Supervisor).

Description

Manages personnel and equipment involved in the installation, operation, repair, maintenance, and modification of punch card, electronic data processing, command and control systems, and ancillary equipment and tools; develops operating procedures; interprets technical data; advises and instructs repair personnel; solves unusually complex problems of diagnosis, repair, and modification; establishes repair priorities; estimates repair requirements and costs; advises commander on use, capability and limitations of data processing systems; may serve as an instructor in a service school; may serve in research, development, test and evaluation activities.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in shop management, 3 in maintenance management, 3 in administrative office management, 3 in business communications, 3 in record keeping, 3 in computer and data processing concepts, and 3 in personnel supervision, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in management problems, 3 for field experience in management, 3 in education electives (instruction and counseling) and additional credit in leadership and supervision on the basis of institutional evaluation, for a minimum total of 12 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a minimum total of 14 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a minimum total of 16 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a minimum total of 18 semester hours (5/78).

MOS-290A-001

TELECOMMUNICATIONS TECHNICIAN

290A0

Exhibit Dates: 6/61–Present.

Career Pattern

May have progressed to Telecommunications Technician from MOS 31S (Field General COMSEC Repairman), MOS 31T (Field Systems COMSEC Repairman), MOS 31U (Tactical COMSEC Maintenance Chief), MOS 32F (Fixed Ciphony Repairman), MOS 32G (Fixed Cryptographic Equipment Repairman), MOS 76D (Material Supplyman), MOS 72E (Telecommunications Center Specialist), or MOS 72G (Data Communications Switching Center Specialist).

Description

Manages and supervises personnel, equipment, and facilities for the operation of mobile and fixed communication centers or activities; supervises personnel engaged in transmitting messages and operating communications or data processing equipment; performs systems analysis; organizes communication center activities; assigns work to subordinates; plans, supervises and conducts training; assumes responsibility for accounts; is accountable for procurement, storage, and use of communications equipment; may supervise, inspect, and evaluate operations associated with automated message-processing centers and automatic digital switches or terminals; supervises testing, adjusting, and repairing of communications security equipment in either fixed locations or in logistic support facilities; may serve as a service school instructor; may serve as an advisor to members of allied armies; may serve as a commodity manager for communications sections, material, and in procurement, research, developmental, tests, and evaluation activities.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in shop management, 3 in maintenance management, 3 in administrative office management, 3 in business communications, 3 in record keeping, 3 in computer and data processing concepts, and 3 in personnel supervision, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in management problems, 3 for field experience in management, 3 in education electives (instruction and counseling) and additional credit in leadership and supervision on the basis of institutional evaluation, for a minimum total of 12 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a minimum total of 14 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a minimum total of 16 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a minimum total of 18 semester hours (5/78).

MOS-301A-001

DATA PROCESSING EQUIPMENT REPAIR TECHNICIAN

301A0

Exhibit Dates: 6/61–3/78.

NOTE: Effective 4/78, MOS 301A was discontinued and its functions were incorporated into MOS 287A, Data Processing Equipment Repair Technician. Use the exhibit, MOS-287A-001.

MOS-310A-001

UTILITIES OPERATION AND MAINTENANCE TECHNICIAN

(UTILITIES MAINTENANCE TECHNICIAN)

310A0 (formerly 521A0)

Exhibit Dates: 6/61–Present.

Career Pattern

May have progressed to Utilities Operation and Maintenance Technician from any MOS in Career Management Field 52 (Power Production), or the following MOS's in Career Management Field 51 (General Engineering): MOS 51A (Construction and Utilities Worker), MOS 51B (Carpenter), MOS 51G (Soils Analyst), or any MOS in subfield 512 (Utilities Engineering).

Description

Manages personnel engaged in utilities operation and maintenance; performs administrative, supply management, and quality control functions which insure operation, delivery, and maintenance of utilities for an installation, hospital, or associated activity; manages and knows the fundamentals of installation, operation, and maintenance of water supply, plumbing, heating, sewage, electrical, refrigeration, air conditioning, and fire fighting systems, and power stations; estimates material and personnel requirements for maintenance and repair of utilities plants and systems; reads and interprets blueprints, schematics, and electrical diagrams; knows electrical, electronic, and mechanical theory and applications relevant to electrical power plants using steam, gas, or diesel-powered generating units; knows basic principles of military, civilian, and contractor procedures and personnel management; understands technical publications of operating principles of utilities plants and systems; diagnoses difficulties; plans maintenance and repair schedules and procedures; manages personnel and equipment engaged in the production of electrical power; determines maintenance and repair requirements and establishes work priorities; allocates maintenance and repair resources; establishes shop practices and policies; directs activities of plant and shift supervisors, electricians, mechanics, instrumentation and process control technicians, and health physics specialists; supervises installation and maintenance of high-voltage electrical power transmission lines and substations; establishes operating procedures for power plant operations, maintenance, equipment inspections, and industrial safety programs; supervises preparation of operating, malfunction, and supply reports; directs procurement and distribution of supplies, tools, and equipment; administers appropriate budgets; acts as technical advisor to commanders concerned with utilities operations; may serve as service school instructor; serves as station or power plant superintendent, power system technician, section or team chief; may directly supervise up to 100 persons; may be able to apply occupational skills to specialized features, of nuclear power plants or of ballistic missile (Safeguard System) support equipment.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in industrial safety, 3 in shop management, 3 in material management, 3 in personnel supervision, 3 in office administration, 3 in record keeping, 3 in technical writing, and 3 in human relations, and additional credit in ballistic missile support equipment repair and nuclear power on the basis of institutional evaluation, for a minimum total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours in management problems, 3 in management and training, and 2 for field experience in management, for a minimum total of 8 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 12 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 14 semester hours; *if duty assignment was service school instructor,* 6 semester hours for a practicum in education (11/77).

MOS-341A-001

Cryptographic Equipment Repair Technician

341A0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 341A was discontinued and its functions were incorporated into MOS 290A, Telecommunications Technician. Use the exhibit, MOS-290A-001.

MOS-361A-001

Fire Distribution Systems Repair Technician

361A0

Exhibit Dates: 9/62-3/78.

NOTE: Effective 4/78, MOS 361A was discontinued and its functions were incorporated into MOS 287A, Data Processing Systems Repair Technician. Use the exhibit, MOS-287A-001.

MOS-401A-001

Airdrop Equipment Technician (Airdrop Equipment Repair Technician)

(Aerial Equipment Repair Technician)

401A0 (formerly 461A0)

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Airdrop Equipment Repair Technician from MOS 43E (Parachute Rigger).

Description

Supervises preparation of equipment for airdrop, airdrop of supplies and equipment, parachute packing, and repair of parachutes and associated equipment; plans and organizes activities for repair of airdrop equipment and establishes rigging sites to support airborne operations; instructs personnel in airdrop procedures; prescribes procedures used in adjustment, care, and preservation of parachutes and other support equipment tools and machinery; provides technical guidance and serves as liaison to commanders; provides technical assistance to the personnel responsible for life cycle management of items including design, research and development, testing, supply management, and classification; responsible for providing serviceable and safe parachutes and equipment to units engaged in parachute jumping and related airdrop operations; supervises repacking of parachutes in use; coordinates loading of equipment and supplies into aircraft and participates in joint airdrop load inspections; may serve as a service school instructor; knows maintenance record keeping and inventory control procedures.

Recommendation

In the lower-division baccalaureate/associate degree category, 2 semester hours in communication skills (oral). In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 for management electives, for a total of 6 semester hours; *if rank was CW2,* 2 semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3,* 4 semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4,* 6 semester hours for field experience in management, for a total of 12 semester hours; *if duty assignment was platoon leader,* additional credit in leadership and supervision on the basis of institutional evaluation (5/78).

MOS-4114-001

Food Advisor

4114

See the exhibit, MOS-041A-001

MOS-411A-001

Ammunition Technician

411A0

Exhibit Dates: 1/65-Present.

Career Pattern

May have progressed to Ammunition Technician from MOS 55B (Ammunition Specialist), MOS 55D (Explosive Ordnance Disposal Specialist), MOS 55X (Ammunition Inspector), or MOS 55Z (Ammunition Foreman).

Description

Manages personnel, equipment, supply, and facility assets for the receipt, storage, and issue of all classes of ammunition; plans, coordinates and supervises 50-150 personnel engaged in the requisitioning, receipt, inspection, surveillance, testing, maintenance, repair, modification, storage, issue, crating, packaging, transportation, and destruction of ammunition, missiles, rockets, explosive components, and non-nuclear warheads; plans for safe and efficient employment of munition and high explosives; conducts surveillance inspections and determines serviceability of conventional ammunition; monitors handling and storage of special ammunition; knows policies and procedures for technical escort of chemical, biological, and nuclear materials and radioactive wastes; provides technical assistance regarding conventional ammunition to field activities; interprets technical publications and trains enlisted specialists; classifies, evacuates, or determines disposition of captured or damaged ammunition; supervises load testing and calibration and use of ammunition test and handling equipment; participates in the investigation of accidents; prepares and reviews reports, including investigative reports; is familiar with military and civilian tariffs and the logistics of supply and transportation; insures compliance with safety and security regulations pertaining to ammunition and missiles; knows Occupational Safety and Health Act (OSHA) regulations and procedures; knows physiological effects of, protective measures against, and emergency and first aid procedures employed after exposure to toxic chemicals; knows firefighting procedures for conventional and special ammunition; plans and conducts safety programs for personnel handling ammunition and missiles; reports on problem areas related to accidents and changes to procedures for storing and handling hazardous chemicals; establishes and maintains control over ammunition stocks and insures accountability of munitions material; may serve as detachment commander, instructor at a formal service school, advisor to members of allied armies, or advisor to research, development, test, and evaluation activities.

Recommendation

In the lower-division baccalaureate/associate degree category, 8 semester hours in physical science, 5 in industrial safety, 3 in basic electronics, 3 in personnel supervision, 3 in inventory management, 3 in report writing, 2 in maintenance shop record keeping, 2 in security practices, and additional credit in basic chemistry, chemistry of explosives, basic physics, nuclear physics, and public speaking/communication on the basis of institutional evaluation, for a minimum total of 29 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training, 3 in management electives, and 3 in logistics management, for a minimum total of 9 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 11 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 13 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 15 semester hours; *if duty assignment was a platoon leader,* credit in leadership and supervision on the basis of institutional evaluation (5/77).

MOS-421A-001

ARMAMENT REPAIR TECHNICIAN

421A0 (formerly 4808)

Exhibit Dates: 2/48-Present.

Career Pattern

May have progressed to Armament Repair Technician from an enlisted Small Arms Repairman (currently MOS 45B), Artillery Repairman (currently MOS 45L), Tank Turret Repairman (currently MOS 45K), or Armament Maintenance Foreman (currently MOS 45Z).

Description

Manages activities and personnel engaged in the maintenance and repair of small arms, artillery and armor weapons, and crew-served weapons; oversees the inspection, repair, replacement, and modification of armament materiel; supervises inspections and check-out procedures; directs shop operations including workflow planning, requisitioning parts and supplies, inspecting maintenance procedures, and providing technical assistance to maintenance personnel in artillery or armor units; must know nomenclature design, operation, and employment of the Army's current inventory of field artillery weapons, armor weapons, and small arms; trains enlisted specialists in the use of shop equipment and power tools, in inspection and test procedures, and in the disassembly, repair, and adjustment of armament materiel; uses technical publications and interprets specifications, must be able to use automated and manual systems for supply of technical publications, tools, repair parts, and related maintenance supplies; must know regulations and procedures pertaining to physical security, accountability, and shipment of weapons; may serve as chief of a team, section, or platoon in field activities; may serve as instructor in a formal training school.

Recommendation

In the vocational certificate category, 3 semester hours in the use and care of hand and power tools. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 for field experience in management, 3 in industrial/human relations, 3 in maintenance/shop management and record keeping, 3 in use and care of hand and power tools, and 1 in industrial safety, for a total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training; *if rank was CW2,* 2 additional semester hours for field experience in management; *if rank was CW3,* 4 additional semester hours for field experience in management; *if rank was CW4,* 6 additional semester hours for field experience in management (3/77).

MOS-441A-001

REPAIR SHOP TECHNICIAN
(ORDNANCE SHOP TECHNICIAN)

441A0

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Rapair Shop Technician from MOS 43M (Fabric Repair Specialist), MOS 44B (Metal Worker), MOS 44E (Machinist), MOS 55X (Ammunition Inspector), MOS 55Z (Ammunition Foreman), MOS 63F (Recovery Specialist), MOS 63J (Quartermaster Equipment Repairman), or MOS 63Z (Mechanical Maintenance Supervisor).

Description

Supervises set-up, maintenance, and operation of machine tools used to make or repair metal parts, mechanisms, tools or machinery by application of knowledge of mechanics, shop mathematics, metal properties, and layout machinery procedures; manages service section shop engaged in metalworking, automotive component repair, and the allied trades; supervises personnel who operate general or specialized metalworking machines, such as lathes and turning machines; supervises automotive body repair and painting, glass, plastics, machine, canvas, leather, welding, and woodworking shop activities, and the recovery of all types of wheeled or track vehicles or equipment; controls work quality by instruction of subordinates and inspection of work in progress and completed work; interprets regulation orders, and specifications and demonstrates correct procedures; plans shop layout; conducts training and orientation of personnel in technical procedures and equipment innovations; directs shop operations to include supply, scheduling, workflow and personnel management; uses automated and manual systems in managing supplies of repair parts, tools, fuel, and technical publications; prepares, implements and maintains standing operating procedures for management of maintenance activities; may be employed as a service school instructor; performs other officer-level duties required by mission of the unit to which assigned.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in shop management, 3 in maintenance management, 3 in administrative office management, 3 in business communications, 3 in record keeping, 3 in computer and data processing concepts, and 3 in personnel supervision, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in management problems, 3 for field experience in management, 3 in education electives (instruction and counseling) and additional credit in leadership and supervision on the basis of institutional evaluation, for a minimum total of 12 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a minimum total of 14 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a minimum total of 16 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a minimum total of 18 semester hours (5/78).

MOS-461A-001

AIRDROP EQUIPMENT REPAIR TECHNICIAN

461A0

See the exhibit, MOS-401A-001.

MOS-4808-001

ARMAMENT REPAIR TECHNICIAN

4808

See the exhibit, MOS-421A-001.

MOS-500A-001

MARINE DECK OFFICER

500A0

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Marine Deck Officer from MOS 57H (Terminal Operations Coordinator), MOS 61B (Watercraft Operator), MOS 61D (Amphibian Operator), or MOS 61Z (Marine Senior Sergeant).

Description

Commands Army watercraft vessels on oceans, bays, sounds, lakes, and coastal waters; is responsible for proper operation and safety of the vessel, including discipline of the crew and seaworthiness of the vessel; must know maritime law and have a working knowledge of international and inland rules of the road; is proficient in seamanship, ship handling; operates all deck machinery and equipment, including ground tackle, cargo gear, lifeboat, raft, firefighting and lifesaving equipment, emergency steering systems, and damage control; qualified to control destination of vessel, using all navigational aids, including electronic equipment (radio direction finders, radar, and fathometers); conducts radio and visual communication with government and commercial vessels and shore stations, including flashing light, semaphore, and flag-hoist signaling, using international procedures when required; knows cargo planning and stowage procedures and techniques of loading and securing cargo to ensure seaworthiness; is proficient in celestial navigation; uses navigational aids, including charts, compasses, sextants, lighthouse, and light buoys, both at sea and when approaching shore; hold qualifying license for command position, validated by the Marine Qualification Board of the Army; if holding a Masters license, must also hold radar operations qualifications.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 for field experience in management, 3 in record keeping, and 3 in principles of management, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in management electives, 3 in management problems, 3 for field experience in management, and 2 in human relations, for a minimum total of 11 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 13 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 15 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 17 semester hours (9/79).

MOS-510A-001

Marine Engineering Officer

510A0

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Marine Engineering Officer from MOS 61C (Marine Engineer) or MOS 61E (Amphibian Engineer).

Description

Supervises, the operation, maintenance, repair and overhaul of marine power plants, propulsion systems, heating and ventilating systems and other mechanical, plumbing, and electrical equipment in ships, docks, and marine-part facilities; inspects ship's machinery to determine compliance with maintenance standards or to determine extent, cost, and nature of repairs required; provides instruction in the proper maintenance and repair of machinery and shipboard equipment; monitors performance on repair contracts for marine repair and overhaul; supervises loading of fuel, water and ballast; maintains and records work performed and prepares maintenance reports; when assigned as marine Engineering Technician or Marine Inspector must be able to perform vessel inspections, preparation and processing of repair work orders; may serve as a school instructor.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 2 for field experience in management, 3 in record keeping, and 3 in principles of management, for a total of 11 semester hours. In the upper-division baccalaureate category, 3 semester hours in management electives, 3 in management problems, and 2 for field experience in management, for a minimum total of 8 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 12 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 14 semester hours (9/79).

MOS-521A-001

Utilities Operation and Maintenance Technician

(Utilities Maintenance Technician)

521A0

See the exhibit, MOS-310A-001.

MOS-5241-001

Bandmaster

5241

See the exhibit, MOS-031A-001.

MOS-561B-001

Harbormaster/Pilot

561B0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 561B was discontinued and its functions were incorporated into MOS 500A, Marine Deck Officer. Use the exhibit, MOS-500A-001.

MOS-561C-001

Vessel Master, 750 Ton Vessel

561C0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 561C was discontinued and its functions were incorporated into MOS 500A, Marine Deck Officer. Use the exhibit, MOS-500A-001.

MOS-561D-001

Master, 500 Ton Vessel

561D0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 561D was discontinued and its functions were incorporated into MOS 500A, Marine Deck Officer. Use the exhibit, MOS-500A-001.

MOS-561E-001

Master, 250 Ton Vessel

561E0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 561E was discontinued and its functions were incorporated into MOS 500A, Marine Deck Officer. Use the exhibit, MOS-500A-001.

MOS-562B-001

Chief Engineer, Unlimited

562B0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 562B was discontinued and its functions were incorporated into MOS 510A, Marine Engineering Officer. Use the exhibit, MOS-510A-001.

MOS-562C-001

Chief Engineer, 1800 Horsepower

562C0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 562C was discontinued and its functions were incorporated into MOS 510A, Marine Engineering Officer. Use the exhibit, MOS-510A-001.

MOS-562D-001

Chief Engineer, 1250 Horsepower

562D0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 562D was discontinued and its functions were incorporated into MOS 510A, Marine Engineering Officer. Use the exhibit, MOS-510A-001.

MOS-562E-001

Chief Engineer, 600 Horsepower

562E0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 562E was discontinued and its functions were incorporated into MOS 510A, Marine Engineering Officer. Use the exhibit, MOS-510A-001.

MOS-621A-001

Engineer Equipment Repair Technician

621A0

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Engineer Equipment Repair Technician from MOS 52C (Power Pack Specialist), MOS 52D (Power Generation Equipment Repairman), MOS 62B (Construction Equipment Repairman), or MOS 62C (Engineer Missile Equipment Specialist).

Description

Supervises personnel engaged in maintenance of engineer equipment; analyzes malfunctions and supervises minor repair and adjustment of engineer equipment utilized for power generation, earthmoving, shaping and compacting, lifting and loading, quarrying and rock crushing, asphalt/concrete mixing and surfacing, water purification, refrigeration and air conditioning, missile systems support, water gap crossing, transfer and engineer electronic application; supervises modification of equipment required by modification work orders; inspects incoming equipment to determine repair requirements; assigns work and inspects outgoing equipment; establishes maintenance and repair schedules; establishes internal administrative procedures for procurement, storage, and distribution of tools, parts, and publications.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in shop management, 3 in maintenance management, 3 in administrative office management, 3 in business communications, 3 in record keeping, 3 in computer and data processing concepts, and 3 in personnel supervision, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in management problems, 3 for field experience in management, 3 in education electives (instruction and counseling) and additional credit in leadership and supervision on the basis of institutional evaluation, for a minimum total of 12 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a minimum total of 14 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a minimum total of 16 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a minimum total of 18 semester hours (5/78).

MOS-630A-001

Automotive Repair Technician

630A0

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Automotive Repair Technician from MOS 63F (Recovery Specialist), MOS 63G (Fuel and Electrical Systems Repairman), MOS 63H (Automotive Repairman), MOS 63J (Quartermaster Equipment Repairman), or MOS 63Z (Mechanical Maintenance Supervisor).

Description

Supervises the maintenance and repair of wheel and track vehicles and accessory equipment; inspects vehicles; prepares, implements, and maintains procedures for management of maintenance activities; interprets regulations, technical manuals, and orders pertaining to automotive and accessory equipment maintenance functions; supervises personnel assigned to maintenance sections, motor pools, or similar activities; knows the theory, function, and operation of internal-combustion engines, and the assembly, nomenclature, check-out, inspection procedures, diagnostic tests, tuning, and other adjustments of automotive and nonengineer mechanical equipment, including electrical, mechanical, hydraulic, pneumatic, and hydropneumatic subsystems; knows use of special tools and test equipment; knows emergency maintenance methods, including use of salvaged parts, reconditioning of equipment with hand tools, and substitution of parts and minor assemblies; uses automated and manual systems for supply of technical publications, tools, and repair parts; knows unit readiness reporting system; knows the use and functioning of automotive, metal, and tire shop equipment; diagnoses complex malfunctions and instructs personnel on isolation and repair of unusual malfunctions; may serve as a service school instructor; writes technical memoranda and other correspondence.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in shop management, 3 in maintenance management, 3 in administrative office management, 3 in business communications, 3 in record keeping, 3 in computer and data processing concepts, and 3 in personnel supervision, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in management problems, 3 for field experience in management, 3 in education electives (instruction and counseling) and additional credit in leadership and supervision on the basis of institutional evaluation, for a minimum total of 12 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a minimum total of 14 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a minimum total of 16 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a minimum total of 18 semester hours (5/78).

MOS-631A-001

Automotive Maintenance Technician

631A0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 631A was discontinued and its functions were incorporated into MOS 630A, Automotive Repair Technician. Use the exhibit, MOS-630A-001.

MOS-632A-001

Automotive Repair Technician

632A0

Exhibit Dates: 6/61-3/78.

NOTE: Effective 4/78, MOS 632A was discontinued and its functions were incorporated into MOS 630A. Automotive Repair Technician. Use the exhibit, MOS-630A-001.

MOS-711A-001

Personnel/Administrative Technician (Personnel Technician)

(Unit Personnel Technician)

711A0

Exhibit Dates: 1/63-Present.

Career Pattern

May have progressed from any enlisted personnel MOS in Career Management Field 71 (Administration), *subfield* 712 (Personnel): MOS 75B (Personnel Administration Specialist or Unit Clerk), MOS 75C (Personnel Management Specialist), MOS 75D (Personnel Records Specialist), MOS 75E (Personnel Actions Specialist), or MOS 75Z (Personnel Senior Sergeant).

Description

Supervises administrative activities related to personnel management, including office organization and operation, counseling of personnel, and personnel records; develops input for an interprets output from automated systems supporting the personnel function; oversees the selection and use of office equipment, including typewriters, calculators, and word processing equipment; supervises military and civilian personnel engaged in specialized administrative and personnel management duties; assists in hiring and evaluating civilian employees; participates in personnel selection, duty assignment, evaluation, and training to assure full utilization of personnel; counsels personnel from a wide variety of backgrounds assisting them with career and personal decisions; makes referrals of individuals with problems to the chaplain, Judge Advocate General, medical personnel, or other appropriate agency, if necessary; initiates and prepares correspondence, messages, and reports; interprets regulations; makes decisions based on a variety of information sources and requirements; processes changes to manpower documents.

Recommendation

In the vocational certificate category, 3 semester hours in administrative office management, 3 in business communications, 3 in records management, 3 in introduction to computer concepts, and 6 for field experience in management, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in administrative office management, 3 in business communications, 3 in records management, 3 in introduction to computer concepts, 3 in personnel supervision, and 6 for field experience in management, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and 3 in counseling; *if rank was CW2,* 3 additional semester hours for field experience in personnel management and counseling, for a total of 9 semester hours; *if rank was CW3,* 6 additional semester hours for field experience in personnel management and counseling, for a total of 12 semester hours; *if rank was CW4,* 9 additional semester hours for field experience in personnel management and counseling, for a total of 15 semester hours; *if duty assignment was platoon leader,* additional credit in leadership and supervision on the basis of institutional evaluation. In the graduate degree category, credit for an internship in personnel management and counseling on the basis of institutional evaluation (10/77).

MOS-712A-001

General Staff Administrative Technician

712A0

Exhibit Dates: 1/63-2/79. (Effective 3/79, MOS 721A was discontinued and its duties were incorporated into MOS 711A, Personnel/Administrative Technician.)

Career Pattern

Normally progresses to General Staff Administrative Technician from Warrant Officer MOS 711A, Personnel Technician, or through demonstration of outstanding skills in stenography in an enlisted MOS.

Description

Performs general and technical administrative duties in an office headed by lieutenant generals or higher; supervises the office clerical staff; develops office procedures; prepares and reviews correspondence; researches and prepares reports, presentations, and speeches; interprets regulations and directives; coordinates with other offices to establish and maintain formal and informal lines of communication; performs some public relations and communication duties, including dealing with news media; acts as protocol officer; when assigned in foreign countries advises command officers on area geography, culture, politics, and other social factors.

Recommendation

In the vocational certificate category, 6 semester hours in public relations, 3 in business communications, 3 in report writing, 3 in office procedures, 3 in human relations skills, 3 in recordkeeping, and 3 in office management, for a total of 24 semester hours; *if the duty position requires stenography skills,* additional credit in dictation and transcription and typing on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 6 semester hours in English communication, 6 in social science, 6 in public relations, 3 in business communications, 3 in report writing, 3 in office procedures, 3 in interpersonal communication skills, 3 in recordkeeping, and 3 in office management, for a total of 36 semester hours; *if the duty position requires stenographer skills,* additional credit in dictation and transcription and typing on the basis of institutional evaluation. In the upper-division baccalaureate category, 6 semester hours in social science electives, and 3 in protocol. In the graduate degree category, credit in management and in methods of research on the basis of institutional evaluation (10/77).

MOS-713A-001

Legal Administrative Technician

713A0

Exhibit Dates: 1/65-Present.

Career Pattern

May have progressed to Legal Administrative Technician from an enlisted legal specialist, currently MOS 71D (Legal Clerk) or MOS 71E (Court Reporter).

Description

Performs the duties of a paralegal as well as the duties of a legal administrator; manages the office of the Staff Judge Advocate or the headquarters exercising general court-martial jurisdiction; analyzes legal and administrative documents, claims, and records of court-martial and non-judicial punishment; drafts documents dealing with civil matters, such as wills, bills of sale, and separation and support agreements; interprets civil statutes and Army regulations governing the administration of military justice, contracts, and the procurement program; provides technical supervision to unit legal personnel and office staff; issues orders appointing members of courts, boards, and committees; receives, processes, and authenticates official technicial legal correspondence and makes referrals to attorneys or to other agencies when required; maintains law and administrative libraries; researches cases and other references to support legal, administrative, or military decisions; maintains statistical information; participates in manpower surveys; acts as office security manager; supervises military and civilian personnel; is directly responsible for office financial and budgetary matters; if qualified as court reporter, records legal proceedings by dictation for later transcription.

Recommendation

In the vocational certificate category, 3 semester hours in legal terminology; *if qualified as a court reporter*, 8 additional semester hours in machine shorthand, 6 in typewriting, 3 in machine transcription, 3 in introduction to court reporting, and 3 in business communications, for a total of 26 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of supervision, 3 in principles of financial budgeting, 3 in legal terminology, 3 in law office management, 3 in trial preparation and procedures, 3 in legal research, 3 in paralegalism (duties and responsibilities of the legal assistant, code of ethics, principles of conduct, relationship to the attorney, etc.), for a minimum total of 21 semester hours; *if qualified as a court reporter*, 8 additional semester hours in machine shorthand, 6 in typewriting, 3 in machine transcription, 3 in introduction to court reporting, and 3 in business communications, for a total of 44 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in management electives, and 3 in legal environment and processes, for a total of 9 semester hours; *if rank was CW2*, 2 additional semester hours for field experience in management, for a total of 11 semester hours; *if rank was CW3*, 4 additional semester hours for field experience in management, for a total of 13 semester hours; *if rank was CW4*, 6 additional semester hours for field experience in management, for a total of 15 semester hours (10/77).

MOS–721A–001

Telecommunications Technician

721A0

Exhibit Dates: 9/76–3/78. Effective 4/78, MOS 721A was discontinued and its functions were incorporated into MOS 290A, Telecommunications Technician. Use the exhibit, MOS–209A–001.

MOS–741A–001

Data Processing Technician

741A0

Exhibit Dates: 6/61–Present.

Career Pattern

May have progressed to Data Processing Technician from MOS 74B (Card and Tape Writer), MOS 74D (ADPS Machine Operations Specialist), MOS 74F (Computer Programmer), or MOS 74Z (Data Processing NCO).

Description

Directs and coordinates production activities of electronic data processing element or unit including functional or machine design applications, programming, or operation of automatic data processing (ADP) equipment; analyzes, plans, and manages the development, test, evaluation, and modification of automatic data processing systems (ADPS); plans and coordinates activities of data processing personnel engaged in programming, wiring, and debugging programs; establishes work standards; supervises coding and machine processing of data and develops training programs; interprets policies, purposes, and goals of ADP activity to subordinates; participates in decisions regarding personnel staffing, allocation of ADP resources, and equipment acquisitions.

Recommendation

In the vocational certificate category, 3 semester hours in data processing principles, 3 in computer fundamentals, 3 in technical report writing, and credit in the appropriate computer languages on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in data processing principles, 3 in computer fundamentals, 3 in technical report writing, 3 in business communications, 3 in computer operating systems, 3 in computer facility management, 3 in personnel supervision, and additional credit in the appropriate computer languages on the basis of institutional evaluation, for a minimum total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in computer systems and program design, 3 in personnel management, and 3 in management electives for a total of 9 semester hours; *if rank was CW2*, 2 semester hours for field experience in management, for a total of 11 semester hours; *if rank was CW3*, 4 semester hours for field experience in management, for a total of 13 semester hours; *if rank was CW4*, 6 semester hours for field experience in management, for a total of 15 semester hours (6/78).

MOS–741B–001

Data Processing Technician, PCM

741B0

Exhibit Dates: 6/61–8/76.

NOTE: In 1974, MOS 741B was discontinued and its functions were incorporated into MOS 741C, Data Processing Technician, ADPS; in 9/76, MOS 741C was incorporated into MOS 741A, Data Processing Technician. Use the exhibit, MOS–741A–001.

MOS–741C–001

Data Processing Technician, ADPS

741C0

Exhibit Dates: 6/61–8/76.

NOTE: Effective 9/76, MOS 741C was discontinued and its functions were incorporated into MOS 741A, Data Processing Technician. Use the exhibit, MOS–741A–001.

MOS–741D–001

Data Processing Technician
Programmer

741D0

Exhibit Dates: 6/61–8/76.

NOTE: Effective 9/76, MOS 741D was discontinued and its functions were incorporated into MOS 741A, Data Processing Technician. Use the exhibit, MOS–741A–001.

MOS–761A–001

General Supply Technician

(Unit Supply Technician)

761A0

Exhibit Dates: 1/71–Present.

Career Pattern

May have progressed to General Supply Technician or Unit Supply Technician from any enlisted supply MOS (currently Career Management Field 76, Supply).

Description

Administers and manages the Army supply system; maintains inventory control; supervises purchasing procedures, inventory handling and storage, recordkeeping, and stock control; is responsible for accounting and management of capital stock for units and installations; knows manual and automated property-accounting procedures; develops and administers supply budgets for units or installations; forecasts and plans supply requirements; knows how to use automatic data processing in the supply area; gives technical advice to subordinate unit and activity commanders; establishes procedures for requisitioning, receiving, storing, and issuing supplies; establishes and maintains formal and informal lines of communication with supply control, maintenance, and transportation units; with supported activities, may monitor or evaluate supply contractor's performance; prepares reports and correspondence.

Recommendation

In the vocational certificate category, 2 semester hours in keypunch, 3 in recordkeeping, 3 in technical report writing, 3 in inventory management, 3 in warehousing and storage, 3 in introduction to computer concepts, 3 in purchasing, 3 in material handling and safety, and 3 in principles of financial budgeting, for a total of 26 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical report writing, 3 in personnel supervision, 3 in inventory management, 3 in introduction to computer concepts, 3 in warehousing and storage, 3 in recordkeeping, 3 in purchasing, 3 in material handling, 3 in principles of financial budgeting, and 2 in keypunch, for a total of 29 semester hours. In the upper-division baccalaureate category, 3 semester hours in management electives and 3 in personnel management and training; *if rank was CW2*, 2 additional semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3*, 4 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4*, 6 additional semester hours for field experience in management, for a total of 12 semester hours (10/77).

MOS-762A-001

Support Supply Technician

762A0

Exhibit Dates: 12/71–Present.

Career Pattern

May have progressed to Support Supply Technician from MOS 761A (General Supply Technician or Unit Supply Technician) or from MOS 76D (Materiel Supplyman), MOS 76J (Medical Supplyman), MOS 76P (Stock Control Supplyman), MOS 76S (Vehicle Materiel Supply Specialist), MOS 76V (Storage Supplyman), MOS 76W (Petroleum Supply Specialist), MOS 76X (Subsistence Supplyman), MOS 76Y (Unit/Organization Supplyman), or MOS 76Z (Senior Supply Sergeant).

Description

Administers and manages the Army supply system as it applies to maintenance support units, usually at overseas locations; supervises the requisitioning, storage, distribution, and accounting of repair parts and maintenance-related supply items; knows manual and automated property accounting procedures; knows fundamentals of data processing as they apply to inventory management; knows the interrelationship of supply, maintenance, and transportation; knows policies and procedures for and interprets regulations regarding crating, packaging, preserving, shipping, and storing materiel and equipment; uses supply catalogs, technical manuals, bulletins, modification work orders, and cross-reference lists in requisitioning, receiving, storing, issuing, and identifying equipment, supplies, and repair parts; forecasts the requirements of repair parts and maintenance-related supply items; develops and administers supply budgets; inspects supported units to insure that stock levels are adequate and within prescribed limits; makes inventory recommendations; provides technical guidance to supported unit personnel; develops operating procedures and performs administrative duties related to the supply activity; evaluates efficiency and effectiveness of supply operations; prepares correspondence and reports.

Recommendation

In the vocational certificate category, 2 semester hours in keypunch, 3 in recordkeeping, 3 in technical report writing, 3 in inventory management, 3 in warehousing and storage, 3 in introduction to computer concepts, 3 in purchasing, 3 in material handling and safety, and 3 in principles of financial budgeting, for a total of 26 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in keypunch, 3 in recordkeeping, 3 in technical report writing, 3 in inventory management, 3 in warehousing and storage, 3 in introduction to computer concepts, 3 in purchasing, 3 in material handling and safety, 3 in principles of financial budgeting, and 3 in personnel supervision, and additional credit in traffic management on the basis of institutional evaluation, for a minimum total of 29 semester hours. In the upper-division baccalaureate category, 3 semester hours in management electives and 3 in personnel management and training, and additional credit in transportation and physical distribution on the basis of institutional evaluation; *if rank was CW2*, 2 additional semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3*, 4 additional semester hours for field experience in management, for a minimum total of 10 semester hours; *if rank was CW4*, 6 additional semester hours for field experience in management, for a minimum total of 12 semester hours (10/77).

MOS-811A-001

Photomapping Technician

811A0

Exhibit Dates: 6/61–Present.

Career Pattern

May have progressed to Photomapping Technician from MOS 81C, Cartographic Specialist.

Description

Supervises activities and personnel engaged in preparation and revision of military maps, charts, and orthophotographs; supervises technical and specialized photogrammetric and drafting procedures used in the preparation of detailed military maps, mosaics, overlays, and prints; must be proficient in photogrammetric techniques and principles and know topographic drafting operations and procedures; establishes work priorities; assigns duties; solves unusual problems in map making; prepares records and reports; writes technical reports.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in plant management or office management, 3 in technical report writing, 3 in photogrammetry, and 3 in aerial photographic interpretation, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training, 3 for management electives, and 3 for field experience in management, for a total of 9 semester hours; *if rank was CW2*, 2 additional semester hours for field experience in management, for a total of 11 semester hours; *if rank was CW3*, 4 additional semester hours for field experience in management, for a total of 13 semester hours; *if rank was CW4*, 6 additional semester hours for field experience in management, for a total of 15 semester hours (6/78).

MOS-821A-001

Survey Technician

821A0

Exhibit Dates: 6/61–Present.

Career Pattern

May have progressed to Survey Technician from MOS 82C (Field Artillery Surveyor), MOS 82D (Topographic Surveyor), or MOS 82E (Topographic Computer).

Description

Manages field-surveying activities and personnel in support of map-making and artillery survey requirements; supervises technical and special procedures employed by survey parties; knows land, highway, and topographic surveying procedures; prepares and interprets aerial photographs and topographic maps; knows basic survey methods such as traverse, triangulation, and resection; knows standard survey computing forms; knows methods for determining azimuth by astronomic or other means; uses astronomical publications such as star lists and ephemeris; coordinates the activities of crews engaged in land, highway, and topographic surveys; adapts survey methods to terrain conditions; converts grid and geographical coordinates; uses trigonometry in various calculations; interprets ground maps, aerial photographs, and map substitutes; insures exact location of points, distances, elevations, lines, areas, and contours in map-making efforts; keeps accurate records of secured data; oversees proper use of surveying instruments; verifies accuracy of data obtained from surveys; makes appropriate calculations for map-making, using reference tables, standard data, and mathematical formulas; establishes work priorities; designates survey parties and teams; solves complex and unusual problems encountered during survey operations; supervises accountability and maintenance of equipment; maintains records and reports of surveying activities; may serve as a service school instructor.

Recommendation

NOTE: Has knowledge of surveying or geodetic science equivalent to an associate degree (30–40 semester hours, depending on the general education requirements) in geometronic technology. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in management problems, 3 in quality control, 3 in records management, 3 in personnel management, 3 in supervision and leadership, and 2 for field experience in management, for a total of 20 semester hours; *if rank was CW2*, 2 additional semester hours for field experience in management, for a total of 22 semester hours; *if rank was CW3*, 4 additional semester hours for field experience in management, for a total of 24 semester hours; *if rank was CW4*, 6 additional semester hours for field experience in management, for a total of 26 semester hours; and additional credit in geodetic or related sciences and cartography on the basis of institutional evaluation (11/77).

MOS-831A-001

Map Reproduction Technician

831A0

Exhibit Dates: 6/61–8/76.

NOTE: Effective 9/76, MOS 831A was discontinued and its functions were incorporated into MOS 833A, Reproduction Technician. Use the exhibit, MOS-833A-001.

MOS-832A-001

PSYOP Reproduction Technician

832A0

Exhibit Dates: 6/61–8/76.

NOTE: Effective 9/76, MOS 832A was discontinued and its functions were incorporated into MOS 833A, Reproduction Technician. Use the exhibit, MOS-833A-001.

MOS-833A-001

Reproduction Technician

833A0

Exhibit Dates: 6/61–Present.

Career Pattern

May have progressed to Reproduction Technician from MOS 83E (Platemaker) or MOS 83F (Offset Pressman).

Description
Supervises fixed and mobile platoons and teams engaged in the reproduction of maps, related material, or psychological operations material; organizes activities, schedules production, and establishes procedures; oversees maintenance of equipment; supervises reproduction of topographic maps, pictomaps, photomaps, overlays, and overprints; must know lithographic reproduction quality standards and color separation processes; prepares records and reports; writes technical reports.

Recommendation
In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in production control, 3 in technical report writing, and 6 for field experience in graphic arts, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in management electives, and 2 for field experience in management, for a total of 8 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 12 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 14 semester hours (5/78).

MOS-841A-001

TERRAIN ANALYSIS TECHNICIAN

841A

Exhibit Dates: 2/80–Present. Pending evaluation.

MOS-911A-001

MILITARY PHYSICIAN'S ASSISTANT

911A0

See the exhibit, MOS-011A-001.

MOS-941A-001

FOOD SERVICE ADVISOR

941A0

See the exhibit, MOS-041A-001.

MOS-951A-001

CRIMINAL INVESTIGATOR

951A0

Exhibit Dates: 6/61–Present.

Career Pattern
May have progressed to Criminal Investigator from MOS 95B (Military Police) or MOS 95D (Assistant Special Agent).

Description
Conducts investigations and supervises technical and other personnel in the investigation of known or suspected crimes involving government property and individuals subject to military jurisdiction; examines scene of incident and collects and submits all relevant physical evidence (fingerprints, blood stains, suspected narcotics, castings, documents) to crime laboratory; studies and evaluates evidence to determine motives and responsible individuals; develops investigative plans; prepares reports of investigations; apprehends violators or suspects based on probable cause; testifies at courts-martial or other appropriate judiciary tribunals; engages in crime prevention efforts and physical security surveys; performs worldwide protective services for Department of Defense executives, visiting foreign officials, and other designated principals; knows techniques for effective investigation of any type of crime involving U.S. government property and individuals subject to the Uniform Code of Military Justice; knows what constitutes an offense under applicable criminal codes and laws; knows techniques governing search and apprehension; knows rules of evidence and methods of collecting, preserving, and protecting evidence; knows complete procedures for identifying, protecting, and searching a crime scene; knows techniques of surveillance, covert operation, raids, and search and seizure and conducts such activities; applies evidence, records, and laboratory reports to criminal investigations; knows techniques of crime prevention, physical security, and industrial defense surveys; evaluates findings and develops recommendations resulting from such surveys; interviews and interrogates complainants, witnesses, informants, suspects, and other persons considered knowledgeable of or connected with crimes; develops information on suspects concerning habits, associates, aliases, characteristics, and other personal information and uses such information in the investigative process; prepares proper records of information obtained through interviews and interrogations; supervises criminal investigation teams; understands basic techniques for conducting laboratory examinations and the analysis of physical evidence; applies laboratory techniques and procedures to physical evidence; evaluates all information obtained in connection with a specific crime; knows administrative procedures, report writing, correspondence formats, supply channels, and office management; testifies as expert witness concerning application of any standard technique or procedure used in criminal investigation; coordinates with appropriate civil and military agencies involving jurisdictional authority, exchange of information, and similar problems and considerations; may be an operations officer giving direction to other personnel involved in various investigations; may serve as an instructor or supervise instruction of personnel in various crime-related topics; may have foreign language proficiency; has extensive knowledge about narcotics and narcotics trafficking, including clandestine laboratories, drug traffic patterns, drug identification, and drug field testing; conducts drug abuse education programs.

Recommendation
In the vocational certificate category, 6 semester hours in laws/rules of evidence, 3 in report writing, and 3 in criminal investigation, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in laws/rules of evidence, 4 in introduction to law enforcement, 3 in criminal law, 3 in criminal investigation, 3 in report writing, and 3 in oral communication, and additional credit in a foreign language on the basis of institutional evaluation, for a minimum total of 22 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in criminology (crime scene and laboratory) and 3 for a practicum in education, and additional credit in foreign language and education on the basis of institutional evaluation, for a minimum total of 9 semester hours (11/77).

MOS-961A-001

ATTACHE TECHNICIAN

(ARMY ATTACHE ADMINISTRATIVE
OFFICER)

961A0 (formerly 2122)

Exhibit Dates: 3/54–Present.

Career Pattern
May have progressed to Attache Technician from MOS 71L (Administrative Specialist) or MOS 71S (Attache Specialist).

Description
Performs general administrative and logistics functions in support of Defense Army Attache office located in an embassy of the United States of America; must know regulations, directives, and procedures necessary for managing and operating administrative and logistics support functions; secures and manages housing accommodations for personnel assigned to the embassy; knows history, political and economic institutions, social customs, and, when possible, the language of the country to which assigned; advises other attache office personnel and visitors regarding matters on protocol, military courtesies, and public affairs; supervises enlisted and civilian support specialists; manages internal activities of the Defense Attache office; compiles and prepares reports and private communications; receives, interviews, and schedules meetings with U.S. and foreign military and civilian visitors; supervises internal communications; maintains files and administers the record keeping process; types correspondence, messages, forms, and manuscripts; authenticates vouchers; processes and reviews requisitions; may serve as service school instructor; may perform other officer-level duties as required.

Recommendation
In the vocational certificate category, 4 semester hours in typing, 2 in filing, 3 in office practices, 3 in business communication, 3 in records administration, and 1 in business machines, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 4 semester hours in typing, 2 in filing, 3 in office practices, 3 in business communication, 3 in records administration, 1 in business machines, 3 in human relations, 6 for field experience in office management, 6 in social science, 2 in public relations, and 3 in personnel supervision, for a total of 36 semester hours. In the upper-division baccalaureate category, 3 semester hours in management problems and 3 in real property management, for a minimum total of 6 semester hours; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 12 semester hours. NOTE: Add credit for the specific foreign language in accordance with the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* (11/77).

MOS-962A-001

Image Interpretation Technician

962A0

Exhibit Dates: 1/64–Present.

Career Pattern

May have progressed to Image Interpretation Technician from MOS 96D (Image Interpreter).

Description

Manages activities or performs duties relative to image interpretations; applies techniques and principles of image interpretation, photogrammetry, and topographic drafting; knows and applies basic principles of geology and human and physical geography; understands basic cartography, surveying, geometry, trigonometry, and the metric system; prepares written summaries and gives oral reports; conducts briefings; establishes and maintains files; instructs subordinates in proper work techniques and procedures; directs training; supervises personnel; advises superiors; develops map overlays; may servce as a service school instructor.

Recommendation

In the vocational certificate category, 3 semester hours in map reading, 2 in mechanical drawing, 3 in photogrammetry, 3 in technical writing, 3 in technical mathematics, and 3 in aerial photographic interpretation, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 3 in photogrammetry, 3 in aerial photographic interpretation, 3 in physical geography, 3 in technical writing, 3 in technical mathematics, 2 in mechanical drawing, and 3 in human relations, for a total of 23 semester hours. In the upper-division baccalaureate category, 3 semester hours in management problems, 3 for field experience in management, and 3 in personnel management, for a minimum total of 9 semester hours; *if duty assignment was instructor at a formal training facility,* 6 additional semester hours for a practicum in education, for a total of 15 semester hours (11/77).

MOS-963A-001

Interrogation Technician

963A0

Exhibit Dates: 7/68–Present.

Career Pattern

May have progressed to Interrogation Technician from MOS 96C (Interrogator).

Description

Knows history, culture, geography, and current politics and economics of country or countries in area to which assigned; knows techniques and principles of interrogation and document exploitation; knows interrogation reporting procedures; conducts interrogations, in a foreign language, of informants, prisoners of war, and refugees; prepares reports of interrogations and identifies and resolves conflicting information provided by different sources, such as documents; disseminates reports and makes assessments of the validity of information for dissemination to users; summarizes findings; functions as a supervisor, chief, or commander of a team or larger unit; translates technical publications related to recent scientific discoveries and inventions; usually is proficient in reading, writing, speaking, and translating two or more foreign languages.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in report writing, 3 in oral communication, and 3 in personnel supervision, and additional credit in area studies on the basis of institutional evaluation, for a minimum total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management, 3 in management problems, and additional credit in area studies on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language in accordance with the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* (11/77).

MOS-964A-001

Order of Battle Technician

964A0

Exhibit Dates: 7/68–Present.

Career Pattern

May have progressed to Order of Battle Technician from MOS 96B (Intelligence Analyst).

Description

Collects and evaluates tactical and strategic information related to organization, operations, capabilities, and limitations of armed forces; uses the accumulated information to develop order-of-battle data; makes reliability assessments of information through comparison with previously evaluated information; maintains close liaison with other intelligence activities, including counterintelligence, photo interpretation, interrogation, and language interpretation units; develops and maintains maps and overlays to provide complete and accurate intelligence information relating to friendly and enemy armed forces; interprets maps; prepares written reports; gives briefings and oral reports; maintains current information concerning both friendly and enemy forces to include identification, disposition, personalities, combat efficiency, and history; evaluates the significance of armed forces vulnerability studies for use in predicting probable courses of action; has a working knowledge of automatic data processing procedures as applied to tactical and strategic intelligence; supervises, commands, or acts as chief of a section, detachment, or team engaged in the development of the data or information required in this area; may serve as a service school instructor.

Recommendation

In the vocational certificate category, 3 semester hours in clerical practices, 3 in records administration, 3 in technical writing, 3 in communication skills (oral), and 1 in map reading, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in clerical practices, 3 in records administration, 3 in technical writing, 3 in oral communication, 3 in personnel supervision, and 1 in map reading, for a total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours in management problems; *if rank was CW2,* 2 additional semester hours for field experience in management, for a total of 5 semester hours; *if rank was CW3,* 4 additional semester hours for field experience in management, for a total of 7 semester hours; *if rank was CW4,* 6 additional semester hours for field experience in management, for a total of 9 semester hours; *if duty assignment was service school instructor,* 6 semester hours for a practicum in education (11/77).

MOS-971A-001

Counterintelligence Technician
(Intelligence Technician)

971A0

Exhibit Dates: 1/64–Present.

Career Pattern

May have progressed to Counterintelligence Technician from MOS 97B (Counterintelligence Agent) or MOS 97C (Area Intelligence Specialist).

Description

Manages activities or performs duties that provide intelligence information; investigates personnel under U.S. Army jurisdiction to determine their suitability for assignment to sensitive duties; conducts interrogations, briefings, and debriefings; prepares intelligence and investigative reports; analyzes and interprets intelligence and counterintelligence data; works closely with civilian law enforcement officials and investigative agencies; supervises and trains subordinates; knows organization, mission, tactics, and operating methods of friendly and enemy intelligence units and personnel; knows principles and procedures involved in counterintelligence investigations; knows interrogation techniques; knows techniques for conducting effective liaison with local, state, and national investigative and other governmental agencies of friendly and occupied countries; knows operation, characteristics, and regulations governing the use of recording and monitoring equipment; knows techniques and regulations governing investigative surveillance; knows fundamentals of military and civil law, including due process and the application of legal principles to counterintelligence operations; collects evidence admissible for legal action and obtains depositions; knows the culture, customs, history, social, economic, and political structures of the area of operation; conducts security investigations, surveys, and vulnerability studies of installations; knows principles for communications and signal security; processes photographic film; may be a service school instructor.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in social science, 3 in police administration, 3 in industrial security, 3 in U.S. government, 3 in applied psychology, 3 in report writing, 3 in oral communication, 3 in office management, 2 in personnel supervision, and 1 in typing, for a total of 30 semester hours. In the upper-division baccalaureate category, 3 semester hours in political ideologies, 3 in constitutional law, and 3 in public relations, for a total of 9 semester hours; *if the duty assignment was service school instructor,* 6 additional semester hours for a practicum in education, for a total of 15 semester hours (11/77).

MOS-972A-001

Area Intelligence Technician

972A0

Exhibit Dates: 1/64–Present.

Career Pattern

May have progressed to Area Intelligence Technician from MOS 97B (Counterintelligence Agent) or MOS 97C (Area Intelligence Specialist).

Description

Collects intelligence information on a specific geographic area through the use of human resources; works with a minimum of supervision; uses extremely demanding operational security procedures in a foreign environment; knows culture, customs, history, politics, geography, economics, and social structure of geographic area(s); knows procedures for preparing and forwarding reports; conducts interviews, interrogations, briefings, and debriefings; prepares informational and operational reports; analyzes and interprets information for intelligence implications; reads maps and prepares map overlays; supervises area intelligence units and teams. NOTE: Many of the required duties for this MOS involve highly classified materials, equipment, techniques and activities, therefore, not all the competencies and knowledges associated with the MOS were evaluated.

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in area studies, 3 in regional geography, 3 in applied psychology, 3 in report writing, 3 in speech, 3 in photography, 1 in electronic systems, 1 in typing, and 1 in human relations, for a total of 24 semester hours. In the upper-division baccalaureate category, 6 semester hours in history electives, 3 in economics electives, 3 in comparative cultures, 3 in applied research, 3 in personnel management, and 3 in international relations, for a total of 21 semester hours; *if the duty assignment was service school instructor,* 6 semester hours for a practicum in education, for a total of 27 semester hours. In the graduate degree category, 3 semester hours for a seminar in military intelligence strategy and policy and additional credit in international relations on the basis of institutional evaluation. NOTE: Add credit for the specific foreign language in accordance with the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* (11/77).

MOS-973A-001

INTERROGATION TECHNICIAN

973A0

Until 3/79, the MOS designation for Interrogation Technician was 963A. Use the exhibit, MOS-963A-001.

MOS-982A-001

TRAFFIC ANALYSIS TECHNICIAN

982A0

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Traffic Analysis Technician from MOS 98B (EW/Cryptologic Cryptanalyst), MOS 98C (EW/Signal Intelligence Analyst) or MOS 98Z (EW/Signal Intelligence Chief).

Description

Manages personnel and technical equipment engaged in intercepting, decoding, and analyzing communication traffic for content of possible intelligence value; establishes priorities of intercept missions for acquisition of desired traffic; plans, organizes, and coordinates activities; reviews data obtained in the traffic intercept process for accuracy and relevance; prepares and transmits information reports; advises commanders and staff officers on matters concerning traffic analysis and use of the data.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision. In the upper-division baccalaureate category, 3 semester hours in personnel management and training and 3 for management electives, for a total of 6 semester hours; *if rank was CW2,* 2 semester hours for field experience in management, for a total of 8 semester hours; *if rank was CW3,* 4 semester hours for field experience in management, for a total of 10 semester hours; *if rank was CW4,* 6 semester hours for field experience in management, for a total of 12 semester hours (8/78).

MOS-983A-001

EMANATIONS ANALYSIS TECHNICIAN

983A0

Exhibit Dates: Pending evaluation.

MOS-984A-001

MORSE INTERCEPT TECHNICIAN

984A0 (formerly 051A0)

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Morse Intercept Technician from MOS 05H (EW/Cryptologic Interceptor-Morse) or MOS 05K (EW/Cryptologic Interceptor-Teletypewriter).

Description

Manages personnel and technical equipment in establishment and employment of Morse intercept and electronic warfare activities; plans, coordinates, and supervises personnel engaged in these operations; may supervise up to several hundred personnel; establishes work schedules and priorities; evaluates performance of subordinates; supervises calibration, adjustment, and testing of Morse intercept equipment; conducts training programs for equipment operators; knows antenna theory and wave propagation characteristics; supervises application of message analysis; supervises cryptanalysis principles and procedures.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision; *if served as platoon leader,* 3 semester hours in principles of administration for a total of 6 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training, 3 in management problems, and 3 for management electives, for a total of 9 semester hours; *if rank was CW2,* 2 semester hours for field experience in management, for a total of 11 semester hours; *if rank was CW3,* 4 semester hours for field experience in management, for a total of 13 semester hours; *if rank was CW4,* 6 semester hours for field experience in management, for a total of 15 semester hours (6/78).

MOS-985A-001

NON-MORSE INTERCEPT TECHNICIAN

985A0 (formerly 052A0)

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Non-Morse Intercept Technician from MOS 05F (Radio Teletypewriter Operator), MOS 05K (EW/Cryptologic Interceptor-Teletypewriter), or MOS 98J (EW/Signal Intelligence Noncommunications Interceptor).

Description

Manages personnel and technical equipment in establishment and employment of non-Morse intercept and electronic warfare activities; plans, coordinates, and supervises personnel engaged in these operations; may supervise up to several hundred personnel; establishes work schedules and priorities; evaluates performances of subordinates; supervises calibration, adjustment, and testing of various electronic intercept equipment including radios and printers; conducts training programs for equipment operators; knows antenna theory and wave propagation characteristics; supervises application of message analysis; supervises cryptanalysis principles and procedures.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision; *if served as platoon leader,* 3 semester hours in principles of administration, for a total of 6 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training, 3 in management problems, and 3 for management electives, for a minimum total of 9 semester hours; *if rank was CW2,* 2 semester hours for field experience in management, for a total of 11 semester hours; *if rank was CW3,* 4 semester hours for field experience in management, for a total of 13 semester hours; *if rank was CW4,* 6 semester hours for field experience in management, for a total of 15 semester hours (8/78).

MOS-986A-001

EMITTER LOCATION/IDENTIFICATION TECHNICIAN

(SPECIAL IDENTIFICATION TECHNICIAN)

986A0 (formerly 053A0)

Exhibit Dates: 6/61-Present.

Career Pattern

May have progressed to Emitter Location/Identification Technician or Special Identification Technician from MOS 05D (EW/Cryptologic Special Identification Operator) or MOS 05H (EW/Cryptologic Interceptor-Morse).

Description

Manages personnel and technical equipment assets engaged in establishment and employment of Emitter Location/Identification System (ELI) activities in a communications-electronic intelligence environment; supervises maintenance, calibration, adjustment, and testing of equipment; operates or supervises operation of radio (CW, voice, teletype), and cryptographic equipment; ensures that personnel follow established direction-finding communications nets; advises commanders or staff officers on the employment, deployment, and utilization of ELI assets; analyzes collected information and converts to usable intelligence for use of commanders.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic mathematics and 3 in personnel supervision; *if served as platoon leader,* 3 semester hours in principles of administration for a total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management and training, 3 in management problems, and 3 for management electives, for total of 9 semester hours; *if rank was CW2,* 2 semester hours for field experience in management, for a total of 11 semester hours; *if rank was CW3,* 4 semester hours for field experience in management, for a total of 13 semester hours; *if rank was CW4,* 6 semester hours for field experience in management, for a total of 15 semester hours (8/78).

MOS-988A-001

Voice Intercept Technician

988A0

Exhibit Dates: 6/61–Present.

Career Pattern

May have progressed to Voice Intercept Technician from MOS 98G, EW/Cryptologic Interceptor-Voice, MOS 98Z, EW/Signal Intelligence Chief, or MOS 05E, Voice Radio Operator.

Description

Manages and plans personnel and equipment engaged in the intercept and analysis of voice communications; supervises installation of and provides operational direction to voice intercept and electronic warfare activities; supervises the calibration, adjustment, and testing of voice intercept and standard communications equipment; applies knowledge of wave propagation antenna and electronic theory to ensure proper antenna emplacement and orientation; reads, writes, comprehends, transcribes, and translates at least one foreign language; supervises intercept, transcription, and translation of voice communications in a foreign language; advises commanders and staff officers on the employment and utilization of voice intercept and electronic equipment and personnel; conducts training programs for voice intercept and electronic countermeasures personnel; defines and advises the commander on language problem areas.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision; *if served as platoon leader,* 3 semester hours in principles of administration, for a total of 6 semester hours. In the upper-division baccalaureate category, 6 semester hours for humanities or social science electives, 3 in personnel management and training, 3 in management problems, and 3 for management electives, for a minimum total of 15 semester hours; *if rank was CW2,* 2 semester hours for field experience in management, for a total of 17 semester hours; *if rank was CW3,* 4 semester hours for field experience in management, for a total of 19 semester hours; *if rank was CW4,* 6 semester hours for field experience in management, for a total of 21 semester hours. NOTE: Add credit for the specific foreign language(s) by referring to the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* and modifying the recommendation on the basis of institutional evaluation (8/77).

DANTES Subject Standardized Tests (DSSTs)

The Defense Activity for Non-Traditional Education Support (DANTES) provides support to the voluntary education programs of all military services. DANTES was created in May 1974 after disestablishment of the United States Armed Forces Institute (USAFI). Policy control of DANTES rests with the Director of Defense Education in the Office of the Secretary of Defense; DANTES policy is administered by a Department of Defense policy council on which all military services are represented.

DANTES began offering Subject Standardized Tests when it was established in July 1974. Many of the tests were identical with those sponsored by the United States Armed Forces Institute (USAFI) prior to its disestablishment. Each test in this series is intended to reflect the knowledge and understanding normally associated with a term of study in a university, college, or technical school (i.e., postsecondary programs leading to a degree or certificate). The DSSTs are administered through military education and testing centers worldwide and are available to active military personnel only. Participation in the program is optional.

The DSSTs are a series of multiple-choice subject-matter examinations in college and technical subjects. DSSTs are essentially end-of-course achievement tests. Each DSST is based on several textbooks commonly used for a course of the same or similar title. Examinee scores are reported as percentiles (PR) for early DSST forms designed as SA or SB; scores are reported as standard scores (SS) (mean 50, standard deviation 10) for recent DSST forms designated SC and SD. Both score scales are based on test results for large standardization samples of students completing relevant courses.

DANTES regularly contracts with test development organizations to revise and update DSSTs and to produce additional new tests. Prior to their distribution, the tests are evaluated by panels of subject matter and technical experts assembled by the ACE Office on Educational Credit and Credentials (OECC) staff. As a matter of policy, the recommended amount and type of credit, minimum test score for which credit should be awarded and the length of initial Commission recommendation are based primarily on the suggestions of each faculty subject matter review panel. The recommended minimum test score for credit awards is established for each DSST at the level judged by faculty reviewers to represent the knowledge and understanding that would be clearly deserving of credit at most institutions offering comparable courses. (No actual data on grades are provided by the DSST test developer, so these score levels are based on the faculty reviewers' subjective judgments and on their inspection of the normative data provided.)

The ACE credit recommendations for DSSTs, as of the publication date of the *Guide*, are indicated below. Since recommendations for many new tests are anticipated and those for others will soon expire, readers are urged to contact OECC for supplementary recommendations on revised or newly developed DSSTs.

TEST	TITLE	CREDIT AMOUNT (SEM. HRS.)	MINIMUM SCORE	TAKEN ON OR BEFORE
SB404	Survey of English Literature	3B	20PR	12-31-79

NOTES

1. Recommendations for forms designated "SC" also apply to those designated "SD."

2. Scores on forms "SA" and "SB" are percentiles (PR); those on forms "SC" and "SD" are standard scores (SS) with mean 50 and standard deviation 10. All scores based on results for large samples of college students completing courses comparable to the tests.

3. "+" and "++" represent, respectively, the amounts of credit normally awarded for one- and two-semester introductory courses at the institution.

4. Abbreviations used for credit categories are:

"T": Technical Certificate Level: This category describes tests corresponding to course work normally found in certificate or diploma (nondegree) programs that are usually a year or less in length and designed to provide students with occupational skills.

"B": Baccalaureate/Associate Level: This category describes tests corresponding to course work normally found in the first two years of a baccalaureate program and in programs leading to the Associate in Arts, Associate in Science, or Associate in Applied Science degrees.

USING THESE RECOMMENDATIONS

The Amercian Council on Education recommends that credit for USAFI/DANTES courses and tests be granted only after successful completion is verified from official records.

Official records for service personnel and veterans completing USAFI (United States Armed Forces Institute) courses and tests prior to its disestablishment on June 30, 1974, can be obtained at no cost from DANTES Contractor Representative (Transcripts), Educational Testing Service, Box 2879, Princeton, New Jersey 08541. Credit recommendations for USAFI courses and tests may be obtained from OECC.

Official records for individuals who completed DANTES Subject Standardized Tests after July 1, 1974, can be obtained for a nominal fee from DANTES Contractor Representative (CLEP), Educational Testing Service, Box 2819, Princeton, New Jersey 08541.

Assistance in interpreting or applying these recommendations is available from the staff, Office on Education Credit and Credentials, Suite 20, One Dupont Circle, Washington, D.C. 20036. (Phone: 202-833-4770.)

Appendix A

The Evaluation Systems

During the period, 1945–80, the American Council on Education developed and refined comprehensive procedures and criteria for the evaluation of military learning experiences. This appendix outlines the historical development of the *Guide;* defines which courses can be found in the *Guide;* provides background information on Army enlisted and warrant officer MOS's (military occupational specialties); describes the evaluation systems used to prepare the recommendations for military formal courses and MOS's; and includes definitions and guidelines pertaining to categories of educational credit, the semester hour standard, categories of apprentice training, and clock hours and contact hours.

BACKGROUND

Early editions of the *Guide to the Evaluation of Educational Experiences in the Armed Services* were prepared in response to specific needs. Immediately after World War II, the consensus in the educational community was that the practice of granting blanket credit to World War I veterans as a reward for length of service was educationally unsound. Educators concluded that military learning experiences applicable to civilian curricula should be assessed by civilian education specialists for potential credit. Therefore, in December 1945, at the request of civilian educational institutions and the regional accrediting associations, the American Council on Education established the Commission on Accreditation of Service Experiences—renamed the Commission on Educational Credit and Credentials in 1979—to evaluate military educational programs and to assist institutions in granting credit for such experiences. Accordingly, the first edition of the *Guide* was published to assist educational institutions in evaluating service courses completed by returning veterans.

The extension of the World War II G.I. Bill to include veterans of the Korean conflict, and the subsequent enrollment of many veterans in colleges and universities, created a need for the second edition, published in 1954.

The 1968 edition was prepared in anticipation of the increased enrollment of veterans resulting from the educational assistance provided under the Veterans Readjustment Benefits Act of 1966, and with the expectation that many would apply for educational credit for their learning experiences in the armed services. In addition, technological advances had necessitated major changes in service training, with a resulting need for new or revised educational credit recommendations.

The 1974 edition was prepared primarily to respond to three emerging considerations. First, because of the growth in vocational and technical programs and the emergence of the concept of postsecondary education, there was a need to evaluate courses for possible credit in the vocational and technical categories in addition to the baccalaureate and graduate categories of previous editions. Second, active-duty service men and women were enrolling in increasing numbers in civilian educational programs and were seeking credit for related military formal courses soon after completing their service school training. Third, credit recommendations were needed for the many courses initiated or revised by the military since 1968.

The 1974 edition marked the beginning of a new approach to reporting evaluations of formal military training. At its fall 1973 meeting, the Commission approved the concept of an ongoing *Guide* system. Elements of that system include the publication of biennial editions of the *Guide* through computerized composition, continuous staff review of courses, and the computerized storage of course information for a more rapid updating of credit recommendations and for an improved ability to respond to inquiries related to course identification and credit recommendations.

Over the years the recommendations contained in the *Guide* have assisted education institutions in granting credit to hundreds of thousands of service men and women. Surveys conducted by the Office showed that most of the nation's colleges and universities use the formal course recommendations in awarding credit to veterans and active-duty service personnel. The recommendations have been widely accepted because military formal courses share certain key elements with traditional postsecondary programs: they are formally approved and administered, are designed for the express purpose of achieving learning outcomes, are conducted by qualified persons with specific subject-matter expertise, and are structured to provide for the evaluation of learning outcomes.

Until 1975, however, no mechanism existed for providing recognition for the learning a service man or woman attained through such learning experiences as self-instruction, on-the-job training, and work experience. As a first step in providing recognition for such learning experiences, the Commission in 1975 implemented a program for the evaluation of learning represented by demonstrated proficiency in Army enlisted military occupational specialties (MOS's). The MOS evaluation procedures were developed, tested, and refined during a feasibility study conducted by the Council and sponsored by the U.S. Department of the Army. Evaluators made recommendations for educational credit and advanced standing in apprentice training programs. Subsequently, the occupational assessment program of the Commission was expanded to include the general rates and ratings of the Navy Enlisted Manpower and Personnel Classification System and Army warrant officer MOS's.

The recommendations for advanced standing in apprentice training programs are the results of the cooperative efforts of the American Council on Education and labor and industry. The recommendations reflect the Commission's belief that it is sound educational practice to give recognition for learning, no matter how or where that learning has been attained, provided that the learning is at the appropriate level, is in the appropriate area, and is applicable to an individual's postsecondary program of study or apprenticeship program.

THE COURSES

Courses listed in the *Guide* are normally service school courses conducted on a formal basis, i.e., approved by a central authority within each service and listed by the service in its catalogue. These courses are conducted for a specified period of time with a prescribed course of instruction, in a structured learning situation, and with qualified instructors.

Most courses are given on a full-time basis (a minimum of thirty contact hours of instruction a week) for not less than two weeks' duration; or, if less than two weeks in length, the course must include a minimum of sixty contact hours of instruction. (Prior to 1973 the minimum length requirement was three weeks or 90 hours.) The American Council on Education also evaluates courses conducted for National Guard and Reserve personnel (not on extended active-duty status) when these courses meet the same requirements.

Recommendations for formal courses offered between World War II and 1954 are available in the 1954 edition of the *Guide* or from the Office on Educational Credit and Credentials upon written request by education officials. In addition, military Subject Standardized Tests (SSTs) are evaluated by the American Council on Education, but are not included in the *Guide;* recommendations are available from the Office on Educational Credit and Credentials upon written request by education officials.

THE COURSE EVALUATION SYSTEM

In the fall of 1973, the Commission on Educational Credit and Credentials of the American Council on Education approved the following procedures and guidelines for the evaluation of military formal courses.

The Evaluation Process

Courses are evaluated by teams of at least three subject-matter specialists (college and university professors, deans, and other academicians). Through discussion and the application of evaluation procedures and guidelines, team members reach a consensus on the amount and category of credit to be recommended.

Evaluation materials include the course syllabus, training materials, tests, textbooks, technical manuals, and examinations. Additional information is obtained from interviews with instructors and program administrators, classroom observations, and examination of instructional equipment and laboratory facilities.

Each team of evaluators has two major tasks for each course: the formulation of a credit recommendation and the preparation of the course's description. The credit recommendation consists of the category of credit, the number of semester hours recommended, and the appropriate subject area. Using the information provided in the military syllabus, evaluators phrase the course description (which appears in the *Guide* exhibits under the headings "Objectives" and "Instruction") in terms meaningful to civilian educators. The course description supplements the credit recommendations by summarizing the nature of a given course.

Throughout the evaluation process, evaluators exercise professional judgment in applying the evaluative criteria and procedures. This position reflects the Commission's belief that sound educational evaluation is more dependent on professional judgment and expertise than on rigid application of criteria.

The Commission on Educational Credit and Credentials continually reviews its criteria and procedures. Evaluators are encouraged to provide feedback and recommendations for consideration by the Commission.

Selection of Evaluators

Nominations for course evaluators are requested from regional accrediting associations, professional and disciplinary societies, educational associations, and postsecondary institutions. Graduate-level credit

recommendations are generally determined by graduate school deans and professors nominated by the president of the Council of Graduate Schools in the United States.

The criteria for the selection of formal course evaluators are as follows:

1. Area of an evaluator's competence, as evidenced by formal training and experiences, will closely approximate area of student training to be evaluated.
2. Preference will be given to candidates who are subject-matter specialists with five or more years of postsecondary teaching or administrative experience, including curriculum development.
3. Preference will be given to candidates who are generally receptive to the recognition of learning that occurs in a variety of settings.

ARMY ENLISTED MOS's

The following paragraphs include background information on Army enlisted MOS's, a description of the enlisted MOS classification system, and detailed information on the enlisted MOS evaluation score.

The Army Enlisted MOS Classification System

The Army Enlisted Military Occupational Specialty (MOS) Classification System is a comprehensive taxonomy of Army enlisted duty positions. Closely related positions that require similar qualifications and the performance of similar duties are grouped as an MOS under a generic title. The job title *clerk-typist*, for example, encompasses duty assignments such as file clerk, shipping clerk, reports clerk, clerk-typist, and senior clerk-typist.

Soldiers and Army veterans, and Army records usually refer to enlisted occupations using a designation with *at least* five characters (e.g., 71B10, 71B20, 71B30). **Figure 1** shows the elements of an enlisted MOS designation. The first three characters (two numbers and a letter) identify the MOS (e.g., 71B is the designation for clerk-typist). The fourth character, a number from one to five, indicates the type and level of skill within the MOS. As shown in Figure 1, only the skills, competencies, and knowledge represented by the *first four characters* of the MOS designation are evaluated for comparability with civilian learning.

The fifth character is normally zero ("0"); in some cases, a letter is used as a special qualification identifier (SQI) to indicate a soldier's specific duty assignment of special qualifications. In fact, an enlisted soldier's occupation may be expressed by as many as nine characters, but because the last five characters indicate special qualifications that are variable, the learning they represent is not evaluated by ACE. **Appendixes B and C** provide users with information describing the additional characters that make up the enlisted MOS designation: enlisted Special Qualification Identifiers (SQIs) are described in Appendix B, and enlisted Additional Skill Identifiers (ASIs) are described in Appendix C. Users may want to conduct an individual assessment and grant credit to recognize the additional learning represented by these characters.

The first three characters, then, represent the MOS, or occupational designation, and the fourth character represents the skill level within the MOS. In accordance with Army practice, *skill levels are referred to in this publication with a neutral fifth character: zero* (i.e., 10, 20, 30, 40, and 50). Each enlisted MOS has from one to five skill levels, depending on the types of duty positions encompassed by the MOS. The five skill levels may be broadly characterized as follows:

Skill Level 10 identifies entry-level positions requiring performance of tasks under direct supervision.

Skill Level 20 identifies positions requiring performance of more difficult tasks under general supervision.

Skill Level 30 identifies positions requiring performance of still more difficult tasks under a minimum of

<table>

</table>

Figure 2: *The Warrant Officer MOS Structure*

supervision, and, in some instances, involving supervision of soldiers in Skill Levels 10 and 20.

Skill Level 40 identifies positions requiring relatively detailed knowledge of all tasks specified for a given MOS and normally involving first-line supervision of soldiers in Skill Levels 10, 20, and 30.

Skill Level 50 identifies managerial and supervisory positions requiring broad knowledge of the tasks performed at all subordinate levels in a given MOS and related MOS's in order to coordinate and give direction to work activities.

Thus, each skill level represents progressively complex duties, increased skills, and greater responsibility, and proficiency in a higher skill level includes the ability to perform the tasks required for the lower skill level(s), as well as additional tasks.

Enlisted MOS's are grouped into 34 career management fields within the enlisted MOS classification system. Each career management field provides opportunities for advancement and career progression among related MOS's. Most career management fields are divided into subfields of closely related MOS's. Brief descriptions of career management fields are provided in Appendix D.

The Enlisted MOS Evaluation System

The Army regularly evaluates each enlisted soldier's MOS proficiency through the Enlisted Evaluation System. Each individual is evaluated to determine whether he or she has acquired and maintained the necessary MOS skills, competencies, and knowledge, as codified and described in the enlisted MOS classification system. The means used to evaluate soldiers has recently undergone a series of changes.

An individual is awarded an MOS skill level when the skills, competencies, and knowledge for a particular MOS have been acquired. The MOS may be awarded (1) following successful completion of a period of supervised on-the-job training (reflected on the individual's set of orders) or (2) following successful completion of an MOS-producing course (reflected on a Course Completion Certificate).

Subsequently, an individual is periodically evaluated to determine whether he or she has *maintained* the MOS skills, competencies, and knowledge. Until December 1976, the result of this evaluation was an MOS evaluation score; since January 1977, the results are SQT scores and Enlisted Evaluation Reports (EERs) and Senior EERs (SEERs).

The Enlisted MOS Evaluation Score Through December 1976. Until January 1977, the Army's Enlisted Evaluation System comprised a written examination (and in some MOS's, a performance examination such as typing or musical instrument performance) and the supervisor's rating of the soldier's job performance. The written examination was a 125-item, multiple-choice test that covered all major areas of skill-level proficiency. On the supervisor's rating, or EER/SEER, the soldier is rated on a wide range of characteristics and traits. (See Appendix H.)

The score that resulted from the application of the Enlisted Evaluation System was normally a composite score, consisting of the score on the written MOS test, the score from the supervisor's rating of job performance on the Enlisted Efficiency Report (EER), and the score on the performance test, if one was required. Composite MOS evaluation scores ranged from a low of 40 to a high of 160, with the minimum qualification score set at 70.

The SQTs (January 1977–Present). The Skill Qualification Tests assess the soldier's occupational proficiency through a combination of a hands-on performance evaluation, a written test, and the supervisor's performance certification of specific tasks. Development of the SQTs is based on an analysis of critical skills required for proficiency in a given MOS skill level. The test is used for soldiers to requalify in their assigned skill level. They requalify in their skill level by achieving the verified minimum score for the particular MOS. Currently, SQTs have not been developed for pay grades E-8 and E-9.

EER/SEER. Due to the suspension of the use of MOS Evaluation Tests in December 1976 and the gradual phasing-in of SQTs, some soldiers have been evaluated solely on the basis of EER/SEERs. An "EER-only" enlisted MOS evaluation score will not be a composite score and will not include a score from a standardized examination.

Evaluations for pay grades E-6 and above are recorded on SEER (DA Form 2166-5A); E-5 and below are on the EER (DA Form 2166-5). (See Appendix H.) Currently, pay grades E-4 and below are not given EERs. The maximum rating is 125.

ARMY WARRANT OFFICER MOS's

The following paragraphs provide background information on Army warrant officer MOS's and describe the warrant officer MOS classification system and the procedures used by the Army to select warrant officers and evaluate their MOS skills and knowledge.

The Army Warrant Officer MOS Classification System

Army warrant officers are highly skilled technicians. They are normally assigned to middle management or administrative positions that require highly specialized or technical skills and knowledge, and the supervision of enlisted technical specialists.

The warrant officer MOS classification system currently includes approximately 60 MOS's grouped into 13 career fields. Each warrant officer MOS represents a set of duties and qualifications that are highly consistent from one duty assignment to another.

Warrant officer MOS's are normally identified by *at least* four characters (three numbers and a letter, e.g., 214E). **Figure 2** shows the elements of a warrant officer MOS designation. Unlike enlisted MOS's, warrant officer MOS's consist of four characters, not three, and do not have skill levels.

As shown in the figure, a warrant officer's occupational qualifications may be expressed with as many as nine characters, but because the last five characters indicate special qualifications that are variable, the learning they represent is not evaluated. Only the skills, competencies, and knowledge represented by the *first four characters* are evaluated by ACE. The fifth character, a number or a letter, designates a Special Qualification Identifier (SQI); when a warrant officer has not been awarded an SQI, the fifth character is zero ("0"). The sixth and seventh characters (a number and a letter) are an Additional Skill Identifier (ASI) that relates a specific occupational skill or item of equipment to an MOS. The eighth and ninth characters represent competency in a specific foreign language.

Users may wish to conduct an individual assessment to grant credit for the additional learning represented by the last five characters. Because these additional characters are frequently awarded on the basis of successful completion of formal courses, the user may refer to the appropriate formal course recommendations in the *Guide.* Warrant officer Special Qualification Identifiers are described in **Appendix E;** Additional Skill Identifiers, in **Appendix F.** Readers should note that warrant officer SQIs and ASIs are *not* the same as enlisted SQIs and ASIs (described in Appendixes B and C, respectively).

There are four grades of warrant officers: Warrant Officer, W-1 (WO1), Chief Warrant Officer, W-2 (CW2), Chief Warrant Officer, W-3 (CW3), and Chief Warrant Officer, W-4 (CW4). The grades reflect salary increases and are normally indicative of the length of time a person has served as a warrant officer. However, warrant officer grades do not signify differences in job duties. A position requiring a warrant officer may be filled by any qualified warrant officer from WO1 to CW4.

Warrant Officer Selection and Evaluation

The procedures used in selecting warrant officers and evaluating their MOS skills and knowledge are different from those used for enlisted soldiers.

Selection. Warrant officers are appointed by the Secretary of the Army. Warrant officer vacancies are routinely announced, and interested persons undergo a competitive application process. Most applicants have had Army enlisted service experience, but such experience is not required.

To qualify for appointment, applicants must meet several criteria. For ACE purposes, the relevant criteria are:

1. Achieve a standard score of 110 or higher on the Aptitude Area General Technical Test of the Army Classification Battery or the Army Qualification Battery (this score is also required for commissioned officer applicants).
2. Demonstrate understanding of and proficiency in the English language.
3. Have sufficient education and practical experience to ensure outstanding technical ability in the MOS for which application is being made.
4. Be a high school graduate or the equivalent and, when the MOS requires more than a high-school-level education, meet the additional education requirement for the specific MOS. (Two years of college or the equivalent is the desired goal for Regular Army warrant officers.)

In general, selected candidates receive a direct appointment. There are some exceptions—aviator, bandmaster, and certain air defense missile maintenance technicians—where the person must also successfully complete a warrant officer candidate course before being appointed.

Evaluation. Under the present evaluation system, each warrant officer is normally evaluated at least once a year. The evaluation is conducted by three commissioned officers who serve as rater, endorser, and reviewer. Each performs independently. The rater, the warrant officer's immediate supervisor, completes the full evaluation report. The evaluation is then examined by the endorser, the officer who supervises the rater. The endorser verifies the accuracy of the evaluation and may add comments or express disagreement. The reviewer, the officer who supervises the endorser, ensures that the evaluation report has been accurately and properly completed. The commanding officer ensures that each rater, endorser, and reviewer is fully qualified and that evaluations are based on the closest possible knowledge and observation of the warrant officer's job performance.

Warrant officer evaluations focus on technical competence in the MOS. Raters assign "adjectival" and numerical ratings for each of several important duty areas. They select adjectives to describe the quality of performance from a prescribed list that ranges from "inadequate" to "outstanding." (On DA Form 67-7, the numerical range is from 0-70. Later editions of the OER place more emphasis on adjectival and narrative summaries.)

The ratings are recorded on an Officer Evaluation Report (OER), Department of the Army Form 67-7, which also contains a description of the specific functions, duties, and tasks that the rated warrant officer is required to perform during the assignment covered by the OER. Each report provides an appraisal of the rated warrant officer's professional attributes, quality of performance, and potential demonstrated during a specific period while in a particular duty assignment. Complete files of each warrant officer's OERs are maintained in the Military Personnel Center (MILPERCEN), where all OERs are reviewed for accuracy and completeness.

THE MOS EVALUATION SYSTEM

The ACE evaluation system for MOS's has three major components: the selection of evaluators; the materials required for evaluation; and the procedures and guidelines evaluators use in reaching decisions and making recommendations.

Selection of Evaluators

Nominations for evaluators are requested from postsecondary institutions; professional associations; disciplinary societies; labor unions; trade associations; industry associations; educational associations; regional accrediting associations; state departments of education; state credentialing, licensing, and certifying agencies; and the Bureau of Apprenticeship and Training of the U.S. Department of Labor.

The criteria for selection of MOS evaluators are as follows:

1. The area of an evaluator's competency, as evidenced by formal occupational training, knowledge, and experience, will closely approximate the skills, competencies, and knowledge required for proficiency in the MOS.
2. Preference will be given to candidates who are experienced in administration of apprentice training programs when an enlisted MOS is related to an apprenticeable trade.
3. Preference will be given to candidates who are subject-matter specialists with five or more years of postsecondary teaching or administrative experience, including curriculum development.
4. Preference will be given to candidates who are generally receptive to the recognition of learning that occurs in a variety of settings.

An evaluator candidate is interviewed by an ACE staff member to determine whether the individual meets the selection criteria.

Evaluations are conducted by teams of at least three specialists (five when the enlisted MOS is apprenticeship related). The teams are formed by ACE staff members, using the following guidelines:

1. In the evaluation of an enlisted MOS that is related to an apprenticeable trade, two evaluators on the team—one representing labor and one representing management—should have experience in the administration of that apprentice training program.
2. Subject-matter specialists on an evaluation team should represent a variety of postsecondary institutional types: 1-year/2-year/4-year; public/private; vocational/technical.
3. Each team of evaluators should represent a variety of persons from within education, labor, government, industry, and business who have had teaching, supervisory, and administrative experiences.

An effort is also made to attain a diverse geographic representation among evaluators. Teams are formed based on the groups of MOS's to be evaluated. Because MOS skills do not always fall neatly into civilian educational and occupational fields and often encompass two or more fields, most MOS evaluation teams include a curriculum generalist. Provision i also made for an evaluation team, when it finds i cannot thoroughly evaluate an MOS, to refer th

MOS or a particular skill level to another team or other specialists for further evaluation.

Materials Required for Evaluation

In order to make a recommendation, evaluators must first identify the skills, competencies, and knowledge associated with a given warrant officer or enlisted MOS. The materials relevant to the evaluation of each warrant officer MOS or enlisted MOS skill level are made available to ACE staff members and evaluators by the Army. Materials include the official Army MOS manual which describes the duties and qualifications for each MOS; technical manuals, field manuals, and other publications used by enlisted soldiers and warrant officers in the day-to-day performance of their duties and by enlisted soldiers to prepare for their MOS evaluation tests; enlisted MOS skill-level evaluation tests; study guides that outline the proficiency requirements for each enlisted MOS skill level. Additional information is obtained by observing and interviewing enlisted soldiers and warrant officers on-the-job during site visits to Army installations.

Evaluation Procedures and Guidelines

Evaluators identify the skills, competencies, and knowledge required of warrant officers who are qualified in a given MOS and enlisted soldiers who are qualified in a given MOS skill level and relate that demonstrated learning to the same attributes acquired by students who have completed a comparable postsecondary course or curriculum. In addition, the skills, competencies, and knowledge required of enlisted soldiers who are qualified in a given MOS skill level are compared to those same attributes acquired by tradesmen or apprentices who have completed a related apprentice training program. Because the evaluations are based on a comparison of learning outcomes, the amount of time a given enlisted soldier or warrant officer may have spent acquiring MOS proficiency is not taken into consideration. The emphasis is on translating the learning demonstrated through MOS proficiency into terms used in formal civilian education systems to recognize the same learning. This reflects the Commission's belief that the value of learning is not dependent on where or how the learning occurs.

Evaluation teams are assigned four tasks in the evaluation of each MOS: (1) to identify the learning represented by proficiency in the MOS by reviewing the pertinent written materials and by observing warrant officers or soldiers performing in the MOS and interviewing them and their supervisors; (2) to prepare a description of the duties, skills, competencies, and knowledge required for each warrant officer or enlisted MOS skill level; (3) to make recommendations for each warrant officer MOS or enlisted MOS skill level based on discussion and consensus; and (4) to make specific comments and suggestions about MOS's (especially in those instances when neither educational credit nor advanced standing in an apprentice training program is recommended), which are forwarded by ACE to the Army for consideration.

Throughout the evaluation process, evaluators are encouraged to exercise professional judgment in applying the evaluative criteria and procedures. This position reflects the Commission's belief that sound educational evaluation is more dependent on professional judgment and expertise than on rigid application of criteria.

The Commission on Educational Credit and Credentials continually reviews its criteria and procedures. Evaluators are encouraged to provide feedback and recommendations for consideration by the Commission.

THE RECOMMENDATIONS

In order to interpret exhibits correctly, readers should become thoroughly familiar with the definitions and guidelines utilized by evaluators in formulating the recommendations. The following paragraphs include definitions and guidelines pertaining to categories of educational credit, the semester hour standard, categories of apprentice training, and clock hours and contact hours. The Commission policy on credit for military service, including basic and recruit training, is also given in this section.

Categories of Credit

Educational credit is a concept used by postsecondary institutions to quantify and record a student's successful completion of a unit of study. Postsecondary education consists of courses and programs of instruction for persons who are high school graduates or the equivalent, or who are beyond compulsory school age. ACE evaluators utilize the following categories of educational credit when formulating credit recommendations.

Vocational Certificate. This category describes course work of the type normally found in certificate or diploma (nondegree) programs that are usually a year or less in length and designed to provide students with occupational skills. This course work can also be found in curricula leading to associate degrees in applied science. Course content is specialized and the accompanying shop, laboratory, or similar practical components emphasize procedural more than analytical skills.

Lower-Division Baccalaureate/Associate Degree. This category describes course work of the type normally found in the first two years of a baccalaureate program and in programs leading to the Associate in Arts, the Associate in Science, or the Associate in Applied Science degree, the traditional transfer associate degrees. The instruction stresses development of analytical abilities at the introductory level. Verbal, mathematical, and scientific concepts associated with an academic discipline are introduced, as are basic principles. Occupationally oriented courses in this category are normally designed to prepare a student to function as a technician in a particular field.

Upper-Division Baccalaureate. This category describes courses of the type found in the last two years of a baccalaureate program. The courses involve specialization of a theoretical or analytical nature beyond the introductory level. Successful performance by students normally requires prior study in the area.

Graduate Degree. This category describes courses with content of the type found in graduate programs. These courses often require independent study, original research, critical analysis, and the scholarly and professional application of the specialized knowledge or discipline. Students enrolled in such courses normally have completed a baccalaureate program.

Semester Hour Standard

Credit recommendations are expressed in semester credit hours. In determining semester hour recommendations, evaluators use the following standard definitions:

1. One semester credit hour for the equivalent of 15 hours of classroom contact plus 30 hours of outside preparation; or
2. One semester credit hour for the equivalent of 30 hours of laboratory work plus necessary outside preparation, normally expected to be 15 hours; or
3. One semester credit hour for the equivalent of not less than 45 hours of shop instruction (contact hours).

Credit recommendations for courses are not derived by simple arithmetic conversion. Evaluators exercise professional judgment and consider only those portions of a course that can be equated with civilian postsecondary curricula. Intensive courses offered by the military do not necessarily require as much outside preparation as many regular college courses. Evaluators consider the factors of pre- and post-course assignments, prior work-related experience, the concentrated nature of the learning experience, and the reinforcement of the course material gained in the subsequent work setting.

The MOS recommendations are based on the skills, competencies, and knowledge learned, as demonstrated through proficiency in a given enlisted MOS skill level or in a given warrant officer MOS, without reference to how much time elapsed during the learning process. The semester hour is used as a standard to express how many semester hours of appropriate course work a student would normally complete to attain the same learning outcomes or attest to the same level of competency.

Apprentice Training

Apprentice training is the composite series of progressively more difficult learning experiences in the technology and skills of a tradesman. Apprentice training may be identified in clock hours or years of reasonably continuous on-the-job training and in contact hours of related instruction. On-the-job training and work experience focus on the performance of basic skills under the direct supervision of a journeyman. Related and supplemental instruction is normally closely correlated with on-the-job training, and the subject matter stresses practical application of technology. An *apprentice* is a person who is engaged in learning a trade by working with, and under the direct supervision of, a qualified journeyman in all phases of the trade for a specified period of time. A *journeyman* is a tradesman who has satisfactorily completed an apprentice training program or achieved proficiency in a given industry and who works without direct job supervision.

Evaluations resulting in apprenticeship recommendations have been restricted to enlisted MOS's in the areas of electronics/electricity and mechanical maintenance. Other apprenticeship-related MOS's have been evaluated only for postsecondary educational credit because the Army has already registered several apprenticeship programs with the Bureau of Apprenticeship and Training, U.S. Department of Labor.

Clock Hours and Contact Hours

An MOS recommendation for advanced standing in an apprentice training program is stated in clock hours of occupational experience and contact hours of related instruction. *Clock hours* are based on hours worked at a trade; *contact hours* are based on hours spent in the presence of a qualified instructor.

The enlisted MOS recommendations are based on the skills, competencies, and knowledge learned, as demonstrated through proficiency in a given MOS skill level, without reference to how much time elapsed during the learning process. Clock hours and contact hours are used to express how much of an apprentice training program an apprentice would normally complete to attain the same learning outcomes or attest to the same level of competency.

Other Recommendations

The Defense Activity for Non-Traditional Education Support (DANTES) maintains the educational records of the service men and women who have completed SSTs, CLEP examinations, and GED Tests.

The results of courses and tests taken under the auspices of USAFI (United States Armed Forces Institute; disestablished 1974) which carry academic credit and which were submitted prior to June 30, 1974, are available at no cost from DANTES Contractor Representative (transcripts), Box 2879, Princeton, New Jersey 08540.

Results of Subject Standardized Tests and CLEP examinations taken under the auspices of DANTES after July 1, 1974, are available at a nominal charge from: DANTES Contractor Representative (CLEP), Educational Testing Service, P.O. Box 2819, Princeton, New Jersey 08540.

Test reports for GED Tests taken after July 1, 1974, can be obtained from DANTES Contractor Representative (GED), GED Testing Service, American Council on Education, One Dupont Circle, Washington, D.C. 20036.

In addition, credit recommendations for USAFI courses and tests and for DANTES Subject Standardized Tests are available from the Office on Educational Credit and Credentials upon written request by education officials.

Appendix B

Enlisted Special Qualifications Identifiers

A Special Qualifications Identifier (SQI) is a letter used to indicate special qualifications possessed by an individual. The SQI, when it is used, occupies the fifth character position of the enlisted MOS designation, replacing the zero that normally occupies the position. For example, 12B40 is a skill-level designation for a combat engineer (MOS 12B); 12B4P is the designation for a person who holds 12B40 and is also qualified as a parachutist (SQI P).

Special Qualifications Identifiers are listed alphabetically in this appendix. Each SQI code is accompanied by a title and a brief description.

A **Technical Intelligence**
Identifies persons holding intelligence analyst positions who are able to identify and evaluate foreign materiel, systems, and technological developments.

B **Unit Race Relations Discussion Leader (Unit Interpersonal Relations Worker)**
Identifies persons who have completed the Unit Race Relations Discussion Leaders Course or who have completed equivalent command-sponsored training.

C **CBR (Chemical, Biological, and Radiological Warfare Operations)**
Identifies persons who have knowledge of CBR warfare operations and training techniques and who have completed appropriate training in CBR warfare operations and applicable training techniques.

D **Civil Affairs Operations**
Identifies persons qualified to assist in planning, directing, and coordinating activities that pertain to the civil population and its political, social, and economic institutions.

E **Northern Warfare Expert**
Identifies persons who have completed prescribed training at the Northern Warfare Training Center or who have received comparable training with a unit operating in an extreme northern environment to qualify them in military skiing, mountaineering, arctic river navigation, and movement and operating on glaciers.

F **Flying Status**
Identifies persons who are required to perform frequent and repetitive aerial flights.

G **Ranger**
Identifies persons who are Ranger-qualified and who have completed appropriate training at the Infantry School.

H **Instructor**
Identifies persons who are qualified to be full-time instructors or training advisers at an Army service school or in other organized training activity.

I **Installer**
Identifies persons who are qualified to install nonportable equipment systems or subsystems on a full-time duty basis.

J **SCUBA**
Identifies persons who are trained in skills and safety measures used in diving with self-contained underwater breathing apparatus (SCUBA) and who apply these skills in underwater reconnaissance, maintenance, vehicle recovery, and demolition.

K **Logistics Noncommissioned Officer**
Identifies persons who qualify as program members in the Army Logistics Systems.

L **Linguist**
Identifies persons who have achieved elementary proficiency in either listening comprehension or reading comprehension in one or more foreign languages.

M **First Sergeant**
Identifies persons who are qualified to assist commander in planning, supervising, inspecting, developing, and executing unit policy; to advise commander on enlisted personnel matters; to provide counsel and guidance to subordinate personnel; and to coordinate administration of the unit and support services.

N **White House Communications Agency**
Identifies persons assigned to the White House Communications Agency.

P **Parachutist**
Identifies persons who are qualified parachutists.

Q **Race Relations Instructor**
Identifies persons who have completed training in race relations education at the Defense Race Relations Institute.

R **Research, Development, Test, and Evaluation (RDTE)**
Identifies persons who are qualified in the design, development, test, or evaluation of military materiel, doctrine, methods, systems, or organization.

S **Special Forces**
Identifies qualified parachutists who have completed specialist training by the Special Forces Training Group of the U.S. Army John F. Kennedy Center for Military Assistance, completed similar training, or acquired equivalent qualifying experience.

T **Transition**
Identifies persons who have completed transition-type formal training on late-model equipment; this SQI is used in the MOS designation for up to three years following such training.

U **Track Personnel/Cargo Driver**
Identifies persons who are qualified to operate tracked personnel/cargo carrier vehicles.

V **Ranger-Parachutist**
Identifies persons who are qualified for the award of both SQI G and SQI P.

W **Psychological Warfare**
Identifies persons qualified in the analysis, development, or implementation of psychological warfare materiel.

X **Drill Sergeant**
Identifies persons who complete a Drill Sergeant training course conducted at an Army Training Center.

Y **Pathfinder**
Identifies qualified parachutists who have completed Pathfinder training at the U.S. Army Infantry School or who have acquired similar qualifications at unit schools with comparable programs of instruction and standards.

Z **Alcohol and Drug Abuse Prevention and Control Program**
Identifies persons who have met the following prerequisites: completion of U.S. Army Drug and Alcohol Rehabilitation Training or military or civilian experience in counseling or similar activities in the alcohol, drug abuse, or related fields, and formal recommendation and certification of qualification by a program behavioral scientist (psychiatrist, psychologist, or social worker).

Appendix C

Enlisted Additional Skill Identifiers

An Additional Skill Identifier (ASI) is a two-character code that is used to identify highly specialized skills that are in addition to the skills required for proficiency in a given enlisted MOS. The ASI is identified by a letter and a number, the sixth and seventh characters in the MOS designation. The skills content of each ASI requires a minimum of 10 days of formal training or equivalent on-the-job training.

Additional Skill Identifiers are listed alphanumerically in this appendix. Each ASI code is accompanied by a title and a brief description.

A1 DSCS SATCOM Controller
Performance of operational satellite communications controller functions.

A2 Aviation Safety
Planning and implementing aviation accident prevention measures.

A3 The Army Authorization Document System (TAADS)
Qualification to use The Army Authorization Document System (TAADS).

A4 International Morse Code (IMC)
Receiving IMC by radio at rate of 10 five-letter random code groups per minute without error for 3 consecutive minutes out of 5; transmitting using hand key at 10 five-letter randon code groups per minute without error for 2 consecutive minutes out of 3; and handling without error 15 plaindress (normal form) messages averaging 10 five-letter random code groups per hour in field radio net of 2 or more stations through natural interference.

A5 486L Wide Band Communications O/I Maintenance (formerly AN/MRC-85)
Maintenance of radio set AN/MRC-85.

A6 Multichannel Ciphony System TSEC/CY-104 (formerly AN/MRC-98)
Maintenance of Multichannel Ciphony System TSEC/CY-104, AN/MRC-98. Maintenance of radio set AN/MRC-98.

A7 TASS-AN/TTC-25, AN/TTC-38
Maintenance of automatic central office equipment TASS-AN/TTC-25 and AN/TTC-38.

A8 Meatcutting
Trimming, cutting, boning, and grinding of meat.

A9 Patrol Dog Handling
Use and handling of patrol dogs in detecting and detaining suspected law violators.

B1 Artillery Calibration
Calibration of field artillery weapons.

B2 Telephone Key System Installer
Installation and organizational maintenance of key telephone systems.

B3 Specialized Teletypewriter Equipment
Installation and maintenance of specialized teletypewriter equipment.

B4 Air Traffic Control/NAVAIDS Equipment Repair
Maintenance of ATC navigation aids communications equipment.

B5 AN/PRC-70 Radio Set Maintenance
Maintenance of radio set AN/PRC-70.

B6 AN/TSC-38
Maintenance of communications central radio set AN/TSC-38.

B7 Ejection Seat Repairer
Maintenance of MK-J5 ejection seat, 9E2A ejection training device, and survival kits for OV-1 aircraft.

B8 Forensic Crime Lab Specialist
Qualification as a crime laboratory specialist.

C1 Executive Club Manager
Management of a club with gross monthly sales in excess of $50,000.

C2 Dragon
Employment of the XM-47 Medium Antitank Assault Weapon System.

C3 Control Data Corporation 6000 Series
Operation of Control Data computer in the 6000 series.

C4 Technical Evaluation Program (TEP)
Technical and operational checks on major communications systems within the Army.

C5 M551 Master Gunner
Assessment of training and weapons, development of training programs, and conduct of training for M551, M60A1/A3 & M60/A2.

C6 M60A1/A3 Master Gunner
Assessment of training and weapons, development of training programs, and conduct of training for M60A1/A3.

C7 M60A2 Master Gunner
Assessment of training and weapons, development of training programs, and conduct of training for M60A2.

C8 Transcriber/Gister
Transcription and summarization of intercepted foreign language transmissions.

C9 Stereocompiler
Compilation and revision of planimetric and topographic maps using stereoscopic plotting instruments.

D1 Bread Baking
Ability to bake bread.

D2 Dermatology Specialist (formerly RCA 301-501)
Qualification to assist medical officers with skin disorders and laboratory procedures.
—RCA 301-501 operation of RCA computers 301 and 501.

D3 RCA 3301-Spectra
Operation of RCA computers 3301 and Spectra 70.

D4 Data Acquisition System (AS/GSQ-76) (formerly IBM 7000 Series)
Maintenance of AN/GSQ-76 components.
—IBM 7000 Series. Operation of IBM computer in the 7000 series.

D5 Ashworth/Becker Systems Maintenance (formerly FORTRAN 2nd Generation)
Maintenance of the Ashworth/Becker systems.
—FORTRAN 2nd Generation. Use of Formula Translation (FORTRAN) 2nd generation machine language in the development of computer programs.

D6 Lighter Air Cushion Vehicle Maintainer (formerly COBOL 2nd Generation)
Maintenance of the LACV-30 aircraft engines.

—COBOL 2nd Generation. Use of Common Business Oriented Language (COBOL) 2nd generation machine language in the development of computer programs.

D7 Common Precision Soldering
Ability to perform common precision soldering techniques.

D8 SAAL
Use of SAAL machine language (Single Address Assembly Language) in the development of computer programs.

D9 Enlisted Frequency Manager
Coordination, allocation, and assignment of radio frequencies.

E1 Propeller Assembly Maintenance
Maintenance of fixed-wing aircraft propellers, including hydraulic, electrical, and mechanical propeller systems.

E2 Shoe Repair
Inspection and repair of leather footwear, application of authorized prescribed orthopedic devices, and operation of shoe repair equipment.

E3 AN/FRC-113 Radio Set
Operation and/or maintenance of the AN/FRC-113 Radio Set Systems Equipment.

E4 Attache Specialist
Performance of general administrative duties in support of Defense Army Attache office located in an embassy of the United States of America.

E5 Terrain Analyst
Compilation and dissemination of terrain information to provide data for use in construction, mapping, and other operations.

E6 Lighter Air Cushion Vehicle Operator (formerly Supply Data Analysis)
Operation of the LACV-30.
—Supply Data Analysis. Analysis of forms, regulatory requirements, source data needs, and workflow pertaining to the supply reporting system.

E7 COMSEC Equipment Maintenance
Prior experience in communications security equipment maintenance through either MOS 32F (Fixed Ciphony Repair) or MOS 32G (Fixed Cryptographic Equipment Repair).

E8 WWMCCS
ADP programming and analysis for the Worldwide Military Command and Control System (WWMCCS).

E9 Improved TOW Vehicle (ITV) (formerly Document Storage and Retrieval Equipment)
Completion of ITV training.
—Document Storage and Retrieval Equipment.
Operation of complex document storage and retrieval equipment related to intelligence data handling systems.

F1 Special Forces Operations
Provision of Special Forces intelligence and operations, preparation and supervision of intelligence training programs, and application of counterintelligence principles to environmental situations.

F2 Intelligence Photography
Use of standard and special camera equipment in intelligence photography.

F3 Standard Army Intermediate Level Supply Subsystem (SAILS)
Completion of formal training in the Standard Army Intermediate Level Supply (SAILS) subsystem.

F4 Automated Property Book and Equipment Status Reporting
Knowledge of policies, terms, management procedures, and functional operations of automated property book and equipment status reporting system at the division supply level.

F5 Postal Operations
Handling of U.S. mail, money orders, and international mail.

F6 AN/FSG-21, Electronic Mixer, HLC-1A/TSEC
Maintenance on AN/FSG-21, Electronic Mixer, HLC-1A/TSEC.

F7 Field Artillery Digital Automatic Computer (FADAC)
Maintenance on the FADAC and ancillary equipment.

F8 Flight Simulator (UH1FS) Console Operator
Operation of the UH1FS flight simulator console and related functions to provide aviators practice in instrument flight techniques.

F9 Automated Supply Record Keeping and Supply Management
Use of the appropriate computer system to maintain and update supply accounts.

G1 UNIVAC 1004/1005/DCT-9000
Maintenance and operation of the card processor U-1005 and U-1004/DLT-6.

G2 Radar Signal Simulator AN/TPG-T1
Identification of simulator mechanic positions.

G3 NCR 500
Operation of the NCR 500 computer.

G4 Radar Engagement Simulator AN/TPQ-21
Identification of simulator mechanic positions.

G5 IBM 360
Operation of the IBM 360 computer.

G6 Radar Engagement Simulator AN/TPQ-29
Identification of simulator mechanic positions.

G7 Command and Control System
Operation of command and control systems equipment.

G8 DAME
Provision of advice concerning Defense Against Methods of Entry (DAME), including locking devices, lock security intrusion, detection devices, and building vault construction.

G9 DASE
Provision of advice concerning Defense Against Sound Equipment (DASE), including specialized electronic equipment and techniques used in detection and location of clandestine listening devices.

H1 Meteorological Equipment Repairer
Ability to repair functions in meteorological capabilities.

H2 Non-Morse Code Communications Analysis
Use of specialized analysis techniques pertaining to intercepted non-Morse code communications.

H3 Physical Security
Planning and implementing physical security measures to control pilferage, espionage, sabotage, and other physical security hazards; to prevent unauthorized entry; and to control entry, exit, and circulation of foot and vehicular traffic.

H4 Data Communications
Monitoring, testing, and analysis of the quality operational circuits between Automatic Digital Message Switching Center (ADMSC) and other switching centers; installation, operation, and maintenance of overseas Automatic Digital Network (AUTODIN) ADMSC; use of data communications machine language in development of computer programs for AUTODIN.

H5 STREAMLINER Communications Systems Operator
Operation of the STREAMLINER Communications System including IS/100 Control Panel, Optical Character Reader, Disk Storage Unit, Magnetic Tape Unit, and TT Model 40 Keyboard Display and Printer Units.

H6 TEMPEST Field Analyst (formerly Tempest)
Collection and on-site analyzing of data.

H7 Counseling Specialist
Provision of assistance to chaplains in counseling duties.

H8 Music and Drama Specialist
Direction of formal musical and dramatic religious productions.

H9 Army System for Standard Intelligence Support Terminal (ASSIST) (formerly SA 431 Telemetry Analog Production)
Performance of systems software programming/analysis on PDP 11/45 and 11/70 computers which employ RSX-11D operating system,

and IDHSC II communications software system, interfaces with WWMCCS (Honeywell) computers, uses JCL, and WWDMS data management system.

—SA431 Telemetry Analog Production.
Use of procedures and techniques of analysis of specific telemetry data.

J1 Telemetry Identification and Collection
Use of procedures and techniques of collection and identification of specific telemetry data.

J2 LEFOX Collection and Processing Systems (AN/FSQ-88(V))
Operation of the AN-FSQ-88(V) processing systems (LEFOX).

J3 Advanced Non-Morse Operations (formerly SC 260, A232-016)
Operation of the SC 260 computer.

J4 Special Signal Analysis
Analysis of special-type intercepted signal data.

J5 Technical Escort
Provision of safe and secure escort of shipments of chemical, biological, or etiological material and radioactive waste.

J6 Tandem Switch
Maintenance of tandem switching and associated equipment.

J7 High Speed (International Morse Code) Transmission and Receiving
Receiving International Morse Code by radio at the rate of 22 five-letter random code groups per minute without error for a period of 3 consecutive minutes out of 5 and transmitting at the rate of 18 five-letter random code groups per minute without error for a minimum period of 2 consecutive minutes out of 3.

J8 Photojournalist
Completion of the United States Air Force Photojournalist Course at Lowery Air Force Base, Colorado, or completion of a one-year photojournalist program at Syracuse University, or the equivalent.

K2 Senior Non-Morse Analyst
Use of specialized techniques in the analysis of selected Non-Morse signal data.

K3 Electronic Countermeasures Operations
Operation of electronic countermeasures equipment and devices.

K4 Mobile Floating Assault Bridge/Ferry (MAB)
Maintenance on the mobile floating assault bridge ferry.

K5 Weather Forecaster
Forecasting weather for meteorological teams.

K6 Senior Non-Morse Collector/Controller
Performance of supervisory technical controller, mission controller, and mission coordinator duties.

K7 Finance Data Analysis
Use of forms, transaction entries, verification procedures, and standardized codes for information processed in the Army's finance and accounting system.

K8 AN/FTC-31/SEVAC
Support of the automatic dial central office (AN/FTC-31) and the secure voice access console (SEVAC).

K9 UHF and VHF Operator
Operation of specialized very high frequency and ultra high frequency intercept equipment.

L1 AN/MSC-46 SATCOM Equipment System Maintenance
Maintenance of AN/MSC-46 Satellite System Equipment.

L2 OV-1D (Mohawk) Infrared Surveillance Repairman
Maintenance of the AN/ASS-24 infrared detecting set.

L3 AN/APS-94 (D) SLAROVID AN/AYA-10 Data Annotation System
Maintenance of the data annotator system of the airborne side-looking acquisition radar (SLAR) used on the OV-1D aircraft.

L4 Ammunition Stock Control and Accounting
Preparation and maintenance of records associated with receipt, storage, and issue of ammunition.

L5 Automatic HFDF Systems Operator (EELPOT) (formerly Automatic Message Address and Routing Systems) (AMARS)
Operation of the HFDF systems operator (EELPOT).

—Automatic Message Address and Routing Systems (AMARS).
Maintenance of the automatic multiple address routing system and tape.

L6 AN/TSC-86 SATCOM Equipment Systems Maintenance
Maintenance of the AN/TSC-86 Satellite Communications System equipment.

L7 SATCOM Communications Link Terminal AN/TSC-54
Maintenance of satellite communications link terminal AN/TSC-54.

L8 AN/AAS-24 and AN/APS-94 (OV-1D) Operation
Maintenance of AN/AAS-24 and AN/APS-94 radar equipment.

L9 Controlled Nuclear Surety
Qualification to hold controlled nuclear surety positions.

M1 Ship's Electrician
Maintenance of electrical equipment and systems on Army seagoing vessels and in marine repair shops.

M2 Mode V Digital Subscriber Terminal Equipment
Maintenance of Mode V (teletypewriter) and associated security equipment at a subscriber terminal of a data communications system.

M3 Dialysis Technician
Operation of dialysis equipment in treatment of patients with kidney disorders.

M4 Blood Grouping, Collecting, and Processing
Grouping, collecting, and processing whole blood on a volume basis.

M5 Nuclear Operations (8" Howitzer)
Assembly, disassembly, and prefire procedures for the 8-inch nuclear projectile.

M6 Nuclear Operations (155mm Howitzer)
Assembly, disassembly, and prefire procedures for the 155mm Howitzer.

M7 Nuclear Operations (Sergeant)
Assembly, disassembly, and prefire procedures for nuclear warhead in Sergeant weapon system.

M8 Nuclear Operations (Lance)
Assembly, disassembly, and prefire procedures for nuclear warhead in Lance weapon system.

M9 Emitter Location and Identification Techniques
Use of specialized identification techniques and communications electronics equipment to locate and identify signal emitters.

N1 Nuclear Operations (Pershing)
Assembly, disassembly, and prefire procedures for nuclear warhead in Pershing weapon system.

N2 Forward Area Alerting Radar (FAAR)
Maintenance of the Forward Area Alerting Radar.

N3 Circuit Conditioning
Testing, measurement, and adjustment of lines and circuits to insure high fidelity of communications within the Defense Communications System.

N4 Emergency Action Console
Maintenance and operation of the emergency action console.

N5 IATS Systems Controller
Operation of the IATS system.

N6 LEFOX Connection and Processing Systems Maintenance
Maintenance on the AN/FSQ-88(V) system.

N7 IBM 1401, 1410, 1440, 1460, and 1620
Operation of IBM computers 1401, 1410, 1440, 1460, and 1620.

N8 IATS System Maintenance
Maintenance of the IATS system.

N9 FORTRAN 3rd Generation
Use of Formula Translation (FORTRAN) 3rd generation machine language in development of computer programs.

P1 COBOL 3rd Generation
Use of Common Business Oriented Language (COBOL) 3rd generation machine language in development of computer programs.

P2 Assembly Language 2nd Generation
Use of Assembly Language 2nd generation machine language in the development of computer programs.

P3 Assembly Language 3rd Generation
Use of Assembly Language 3rd generation machine language in the development of computer programs.

P4 Heavy Anti-Tank/Assault Weapons System (TOW)
Use of tube-launched optically-tracked wire-guided (TOW) missiles against enemy armored vehicles.

P5 Sentry Dog Handling
Use and handling of sentry dogs as a means of security.

P6 Scout Dog Handling (On/Off Leash)
Use and handling of scout dogs trained in on-leash and off-leash obedience and capable of giving early warning of enemy presence or traps.

P7 Narcotics Drug Dog Detector (formerly Contraband Detector Dog Handling)
Training and handling dogs capable of detecting presence of marijuana and its derivatives by scent alone.

P8 Critical Nuclear Surety
Qualification to hold critical nuclear surety positions.

P9 Mine/Tunnel Dog Handling
Use and handling of dogs capable of finding mines or traps and ordnance cached in tunnels.

Q1 Welder
Welding of aircraft structure and components using oxyacetylene, electric arc, and inert gas welding equipment.

Q2 Combat Tracker Dog Handling
Use and handling of dogs used in combat tracker teams and capable of basic and advanced tracking.

Q3 Tank Turret Maintenance Supervision
Supervision of maintenance of tank turrets.

Q4 MINCOM TICOR Recorder (AN/GSR-4)
Maintenance of specialized recording equipment (wideband).

Q5 Chapel Activities Specialist—Catholic (formerly Chaplain's Assistant)
Knowledge of Catholic religious beliefs and rituals.

Q6 Chapel Activities Specialist—Protestant (formerly Chaplain's Assistant)
Knowledge of Protestant religious beliefs and rituals.

Q7 Chapel Activities Specialist—Jewish (formerly Chaplain's Assistant)
Knowledge of Jewish religious beliefs and rituals.

Q8 Nuclear Operations (HJ)
Assembly, disassembly, and prefire procedures for nuclear warhead in Honest John weapon system.

Q9 Traffic Accident Investigator
Reconstruction of traffic accidents from evidence to determine reasons for occurrence, possibility of avoidance, and determination of fault.

R1 MOD 37D Teletypewriter Maintenance
Maintenance of the MOD 37D Teletypewriter (AN/FGC-158).

R2 Nuclear Operations (Hercules)
Assembly, disassembly, and prefire procedures for nuclear warhead in Hercules weapons system.

R3 Nuclear Security
Physical security and emergency destruction of nuclear weapons during movement in storage and in tactical operations.

R4 Automated HFDF System Maintenance (EELPOT)
Maintenance of the EELPOT system.

R5 AN/ASN-86 Inertial Navigation Set
Maintenance of the AN/ASN-86 inertial navigation equipment used on Mohawk aircraft.

R6 Redeye Operations
Use of Redeye missile system to engage enemy aircraft.

R7 DSSCS Maintenance
Maintenance of the Defense Special Secure Communications System Message equipment.

R8 M551 Sheridan
Operation of M551 Sheridan combat vehicle.

R9 STRAWHAT/DSSCS
Maintenance of specialized equipment used in the STRAWHAT/defense special secure communications system (DSSCS).

S1 Special Purpose Receiving Equipment
Maintenance of special purpose receiving equipment.

S2 Power Station Mechanic
Maintenance of mechanical equipment used in electrical power production.

S3 Power Station Electrician
Maintenance of electrical equipment used in electric power production.

S4 Power Station Instrument Repairer
Maintenance and calibration of electrical power plant monitoring and control instrumentation equipment.

S5 Power Station Health Physicist
Use of radiological surveys and fluid processing treatment ensuring acceptable levels of radiation

S6 Digital Converting Programming Group AN/TC A-4
Maintenance of specialized demultiplex equipment assemblages.

S7 Scope Safe System
Maintenance of specialized equipment in a secure communications system.

S8 M16 Ballistics Computer
Maintenance of M16 ballistics computer.

S9 Defense Sensor Interpretation Training Program
Microscale interpretation, electronic data reporting, storage, retrieval.

T1 Overseas AUTOVON Switch
Maintenance on switching equipment in the overseas automatic voice network (AUTOVON).

T2 Sniper
Highly accurate sharpshooting, usually at long range.

T3 GE 600/Honeywell 6000
Operation of the General Electric 600 and Honeywell 6000 computers.

T4 Power Plant Chief
Supervision of electric power production facility.

T5 Burroughs B-3500
Operation of data processing computer B-3500 (Burroughs Corporation).

T6 Electroencephalograph Operator (EEG)
Operation of EEG equipment.

T7 Improved TOW Vehicle (ITV) Turret Mechanic
Maintenance of the ITV turret.

T8 DS4/Direct Support Unit Standard Supply System
Use of DS4 system to maintain and update supply accounts in divisional units.

T9 Cryptanalysis
Analysis of encrypted communications to determine system of encryption and to effect eventual solution.

U1 Radio Teletype Analysis
Analysis of intercepted radio teletype signals.

U2 Cytotechnology
Staining, mounting, and microscopic examination of cells to detect

evidence of cancer and other pathological conditions which must be referred to a pathologist for final interpretation.

U4 Property Disposal Operations
Property administration or materials segregation and classification.

U5 Commissary Operations
Commissary operations such as sales, stock replenishment, and produce, grocery department, or general administration.

U6 FA Weapons Mechanic
Maintenance of field artillery (FA) weapons.

U7 Film Library Operations
Cataloging, receiving, and administering audio-visual equipment and material.

U8 DAS3 Operator/DS4
Operation of the DAS3 computer system/DS4, Direct Support Unit Standard Supply System.

U9 ICR Non-Morse Operations
Collection analysis, reporting and forwarding of ICR Non-Morse Communications signals; operation of AN/TCA-4 (KINDER) Digital Converting Programming Group and the AN/GYK-9 (FLEXSCOP) collection and processing system.

V1 AMOSIST
Use of the Automated Military Outpatient System (AMOSIST) for triaging patients to acute minor illness clinic, emergency treatment room, or appropriate specialty clinic.

V3 Unattended Ground Sensor Systems Maintenance
Maintenance of unattended ground sensor systems.

V4 Communications Technical Control Center, AN/TSQ-84
Maintenance of the AN/TSQ-84 communications center.

V5 Military Police Investigation
Investigation of criminal offenses for which the maximum punishment is confinement at hard labor for less than one year and offenses involving larcenies of property valued at less than $250 and involving another major crime.

V6 Spectrometric Oil Analysis
Analysis of used oil for wear metal content, using the fluid analysis spectrometer A/E 35U-3 and appropriate analytic and evaluation techniques.

V7 Honeywell H200
Operation of the Honeywell H200 computer.

V8 UNIVAC 1106/1108
Operation of the UNIVAC 1106/1108 computer.

V9 Control Data CDC 3300
Operation of the Control Data Corporation CDC 3300 computer.

W1 M60A2 Tank
Operation of the M60A2 tank.

W2 AN/TPQ-29 Repair Simulator Station Repair
Maintenance of the AN/TPQ-29 Simulator Station.

W3 Video Technical Control Facility (AN/TSQ-85) Repairman
Maintenance of the AN/TSQ-85 video technical control facility.

W4 AN/FLR-9 Intercept Equipment Maintenance (formerly AN/TLR-9 Intercept Equipment)
Maintenance of the AN/FLR-9 intercept equipment.

AN/TLR-9 Intercept Equipment

Maintenance of the AN/TLR-9 intercept equipment.

W5 Personnel Data Analysis (formerly W6)
Use of forms, transaction entries, verification, procedures and standardized codes for information processed through SIDPERS.

W7 Special Forces Underwater Operations
Participation in Special Forces underwater operations.

W8 Special Forces Military Free Fall
Participation in Special Forces military operations requiring free-fall parachuting.

W9 Special Forces Military Free Fall and Underwater Operations
Participation in both Special Forces free-fall parachuting and underwater operations.

X1 Subsistence Procurement Quality Assurance Inspector
Assurance of the quality of procurement.

X3 TACFIRE Remote Terminal Operator
Operation of variable format message entry device as part of TACFIRE in FA unit.

X4 Photolocator Operator
Operation of the photolocator in FA survey unit.

X6 TSEC/KG-45 Repairer
Maintenance of the TSEC/KG-45 equipment.

X7 AN/MPQ-49 FAAR Radar Mechanic
Qualification as FAAR radar mechanic.

X8 COMSEC Systems Maintenance at SRA Maintenance of the COMSEC systems at the specialized repair activity (SRA) level

X9 General COMSEC Maintenance at SRA
General maintenance of the COMSEC systems at the SRA level.

Y1 TACFIRE Equipment Repairer
Maintenance on TACFIRE equipment.

Y2 Ground Laser Locator Designator (GLID) Repairer
Maintenance on GLID equipment.

Y3 Safeguard
Completion of three-week Safeguard Missile Defense System Orientation course, Fort Bliss, Texas.

Y4 Advanced Morse Identification—Signal Search and Development (Morse) (formerly Morse Search and Development)
Specialized search and development of target for intercept.

Y5 TEMPEST Inspection
Inspection of TEMPEST systems to assure cryptographic security.

Y6 Cardiac Catheterization Specialist
Assistance during specialized invasive cardiac test and examination.

Y7 Sterile Pharmacy Techniques
Sterile pharmacy practices leading to the preparation of items such as intravenous additives used to combat infection, restore and maintain electrolyte balance, and meet nutritional requirements.

Y8 Allergy Specialist
Qualification to prepare allergan extracts, perform diagnostic tests, and administer parental hyposensitization treatments.

Y9 STREAMLINER Maintenance Specialist
Maintenance of specialized equipment used in the STREAMLINER communications system.

Z1 Reciprocating Engine Repairman
Maintenance of aircraft reciprocating engines.

Z2 Blacksmith
Working, forming, and shaping heated metal, using forge, anvil, and hammer.

Z3 Pipeline Weld Radiographic Inspection Set
Operation of radiographic inspection set for pipeline welds.

Z4 Inspector General NCO
Completion of orientation course and performance of inspector general duties.

Z5 Modular Engine Test Stand (METS)
Maintenance on the Modular Engine Test Stand (METS).

Z6 Explosive Detector Dog Handler
Use and handling of dogs capable of detecting explosives.

Z8 Depot-Level Maintenance
Depot-level maintenance (disassembly, major repairs and modifications, and inspection) of aircraft.

Z9 SB-3082 Electronic Cordless Semi-Automatic Switchboard and AN/TTC-38 Ancillary Equipment
Installation and maintenance of the SB-3082 switchboard and maintenance of AN/TTC-38 ancillary equipment such as telephones and converters.

Appendix D

Enlisted Career Management Fields

A career management field (CMF) is a grouping of related Army enlisted MOS's that is provided for use in the career development and counseling of enlisted personnel. Each career management field is structured to allow maximum upward mobility and follows a logical progression of related MOS's, ranging from trainee positions to leadership and supervisory positions.

The CMF is represented by a two-digit number and a title. When a CMF has a subfield, a third number is added to identify it. For example, CMF 52 (Power Production) has two subfields: Subfield 521 (Electric and Power Production) and subfield 522 (Nuclear Power Production). Each subfield includes only closely related MOS's.

This appendix provides summaries which outline the duties and qualifications of the CMF's and list the subfields they contain.

00 Exceptional Management Specialties

A grouping of MOS's that are unrelated and must be considered individually. These MOS's are categorized as either special assignments (subfield 000) or those requiring professional skills (subfield 001). Qualifications vary considerably according to MOS.

11 Infantry (formerly Maneuver Combat Arms—see below)

A group of MOS's that covers positions primarily in infantry units. Infantry duties involve use of individual and crew-served weapons and armored vehicles.

Maneuver Combat Arms

A grouping of MOS's that covers positions primarily in infantry units and armor units. Subfields include: General (110); Infantry (111); Armor (112). Infantry duties involve use of individual and crew-served weapons and armored vehicles and work in closely coordinated teams. Armor duties involve use of crew-served armor weapons and armored vehicles and work in closely integrated teams. Qualifications include knowledge of fundamental tactics, principles of fire and movement, use of individual light weapons, principles of field sanitation, protection from chemical contamination, map and aerial photo reading, use of compass, first aid, and preparation of rough maps and field sketches.

12 Combat Engineering

A grouping of MOS's that covers positions in engineer combat units. Duties involve construction tasks (roads, temporary shelters, bridges, rafts), laying and clearing of minefields, and conventional and atomic demolitions. Qualifications include ability to use power and hand tools, knowledge of rough carpentry and rigging, ability to identify and handle demolition ammunition, skill in operating small watercraft, and ability to fight in infantry units.

13 Field Artillery (formerly Field Artillery Cannon)

A grouping of MOS's that covers positions in field artillery cannon, missile, and target acquisition units. Subfields include: Field Artillery General (130); Field Artillery Cannon/Missile Operations (131); Field Artillery Target Acquisition Operations (132). Duties involve operation, fire direction, and maintenance of field artillery guns and related weapons and working in closely controlled teams. (Prior to 9/76, CMF 13 was limited to MOS's that covered positions in field artillery cannon units only.)

15 Field Artillery Missiles

A grouping of MOS's that covers positions primarily in field artillery missile units. Duties involve emplacement, testing, and operation of field artillery missile systems. Qualifications include knowledge of the functioning, assembly, and testing of a wide variety of complex weapons systems. Effective 9/76, CMF 15 was eliminated and the MOS's were reclassified under CMF 13 (Field Artillery).

16 Air Defense Artillery (ADA)

A grouping of MOS's that covers positions primarily in air defense units. Subfields include: ADA General (160); ADA Missile and Gun Operations (161); ADA Operations and Intelligence (162). Duties involve emplacement, assembly, testing, and operation of air defense weapons systems. Qualifications include knowledge of the functioning, assembly, and testing of highly intricate weapons systems.

17 Combat Surveillance and Target Acquisition

A grouping of MOS's that covers positions primarily in artillery units. Subfields include: General (170); Combat Surveillance (171); Target Acquisition (172). Duties involve operation of combat surveillance and target acquisition systems. Qualifications include ability to determine locations, distance, direction, and elevations from topographic maps; knowledge of artillery plotting procedures; familiarity with the function and operation of combat surveillance and target acquisition systems; and knowledge of basic mathematics. Effective 9/76, CMF 17 was eliminated; the target acquisition MOS's were reclassified under CMF 13 (Field Artillery) and the combat surveillance MOS's were reclassified under CMF 96 (Military Intelligence).

19 Armor

A grouping of MOS's that covers positions in armor combat units and in headquarters or higher level. Duties primarily involve mechanized reconnaissance or employment of crew-served armor weapons systems and armored vehicles.

21 Ballistic Missile Repair

A grouping of MOS's that covers positions in field artillery units and in maintenance units. Subfields include: Pershing Missile Repair (211); Sergeant Missile Repair (212). Duties involve maintenance of missiles and related equipment. Qualifications include knowledge of the functioning, assembly, testing, and maintenance of complex weapons systems.

23 Air Defense Missile Maintenance

A grouping of MOS's that covers positions in air defense units and in missile maintenance units. Subfields include: Nike Missile System Repair (231); Nike Missile System Mechanics (232); Hawk Missile System Repair (233); Hawk Missile System Mechanics (234); Improved Hawk Missile System Mechanics (235); Improved Hawk Missile System Repair (236); Ballistic Missile Defense (237); Fire Distribution Systems Repair (238). Duties involve assembly and testing of air defense weapons and maintenance of missiles, guidance equipment, fire control equipment, fire distribution systems, radar, and computers. Qualifications include knowledge of functioning, assembly, testing and maintenance of Safeguard weapons systems, electromechanical and hydraulic basis of remote antenna positioning, and knowledge of binary system.

26 Non-Integrated Radar Maintenance
A grouping of MOS's that covers positions primarily in signal corps units. Subfields include: Radar Mechanics (261); Ground Radar Repair (262); Airborne Surveillance Equipment Repair (263). Duties involve maintenance of radar equipment. Qualifications include knowledge of fundamentals of electricity/electronics, precautions required in working with high voltage equipment, and use of schematic diagrams and electrical measuring devices.

27 Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance (formerly Combat Missile Maintenance—see below)
A grouping of MOS's that covers positions primarily in field artillery units and in maintenance units. Subfields include: Ballistic/LC Missile and LAD Weapons Systems Maintenance General (270); Ballistic/LC Systems Maintenance (271); LAD Systems Maintenance (272). Duties involve maintenance on weapon systems and associated test, trainer, and maintenance checkout equipment.

Combat Missile Maintenance
A grouping of MOS's that covers positions primarily in field artillery units and maintenance units. Subfields include: Combat Missile Mechanics (271); Combat Missile Repair (272). Duties involve maintenance and repair of various weapons systems. Qualifications include knowledge of the functioning, assembly, testing, maintenance, and calibrations of various complex weapons systems.

28 Aviation Communications—Electronics Systems Maintenance
A grouping of MOS's that covers positions primarily in maintenance, aviation, and signal units. Duties involve maintenance on a variety of photographic, surveillance, and avionic equipment.

29 Communications—Electronics Maintenance
A grouping of MOS's that covers positions primarily in combat arms, aircraft, signal, and maintenance units. Duties involve maintenance for combat surveillance and weapons support radar, field radios, teletypes, unattended ground sensor systems, troposcatter radios, fixed plant communication equipment, electrical/electronic and mechanical instruments, manual, dial central office telephone exchange, and automatic electronic switching equipment.

31 Communications—Electronics Operations (formerly Field and Area Communications Maintenance—see below)
A grouping of MOS's that covers positions primarily in signal and tactical units. Duties involve operation and maintenance of field radios, teletypes, radio relay equipment, unattended ground sensor systems, troposcatter radios, and tactical electronics equipment and wire/cable.

Field and Area Communications Maintenance
A grouping of MOS's that covers positions primarily in signal corps units. Subfields include: Field Communications Maintenance (311); Tactical Electronics Maintenance (312); Area Communication (313); COMSEC Maintenance (314). Duties involve maintenance and repair of various tactical electronics equipment.

32 Fixed Plant Communications Maintenance
A grouping of MOS's that covers positions primarily in U.S. Army Communications Center (USACC) units. Duties involve operation and maintenance of fixed plant communications equipment. Qualifications include knowledge of the theory of operation and repair of fixed station electronic equipment, fundamentals of radio propagation, and precautions when working with high-voltage equipment.

33 Electronic Warfare/Intercept Systems Maintenance
Duties involve repair, maintenance, or supervision of repair of EW/Intercept systems used in both mobile and fixed sites. Qualifications include knowledge of tools commonly used by electricians and electronic workers, safety precautions required in working with electrical equipment, ability to read wire diagrams and technical manuals, and categories of equipment maintenance.

35 Electrical/Electronic Instrument Maintenance
A grouping of MOS's that covers positions primarily in maintenance, aircraft, and medical units. Subfields have included: Instrument Calibration and Maintenance (351); Electrical/Electronic Devices Maintenance (352); Avionics Maintenance (353); Medical Equipment Maintenance (354). Duties involve calibration and performance of all levels of maintenance and repair of various electrical/electronic and mechanical equipment.

36 Wire, Antenna, and Central Office Maintenance
A grouping of MOS's that covers maintenance positions primarily in signal corps units. Duties involve installation and maintenance of field wire, open wire, and cable communications systems; antenna systems; splicing communications cables; and maintenance on manual and dial telephone exchange equipment. Qualifications include knowledge of fundamentals of electricity and sound transmission, reading and understanding circuit diagrams, and techniques and maintenance involved in the installation and maintenance of wire systems.

51 General Engineering
A grouping of MOS's that covers positions primarily in engineer units. Subfields include: Construction Engineering (511); Utilities Engineering (512); Industrial Gas Production (513); Construction Equipment Operation (514). Duties involve use of construction skills (including construction surveying and drafting) for erection and maintenance of buildings, bridges, port facilities, roads, air fields, drainage structures, pipelines, storage tanks, and related facilities.

52 Power Production
A grouping of MOS's that covers positions primarily in nuclear power plants and in other engineer units. Subfields include: Electrical Power Production (521); Nuclear Power Production (522). Duties involve operation and maintenance of power-generating equipment, transmission systems, and accessory equipment; maintenance of nuclear power plant equipment; and radiological surveys.

54 Chemical
A grouping of MOS's that covers positions in chemical units, supply and service units, and in headquarters of battalion and higher level. Duties involve operation of flame equipment; decontamination of personnel, materiel, structures, and areas that have been under nuclear, biological, or chemical attack; generation of smoke for concealment and camouflage effect; staff activities relating to operations, training, and intelligence; chemical and physical testing of clothing, food, chemicals, paints, plastics, and similar materials. Qualifications include knowledge of safety precautions for work in contaminated areas and handling of chemical warfare materials, types and purpose of chemical agents, characteristics and uses of smoke, and effect of weather on chemical materials.

55 Ammunition
A grouping of MOS's that covers positions in ammunition support units Army-wide. Duties involve support, supply, inspection, renovation, disposal, and maintenance of conventional, special, and nuclear ammunition. Qualifications include knowledge of the hazards and safety measures involved in handling, storing, transporting, destroying, and neutralizing various types of ammunition, ammunition components, and nuclear weapons.

57 Field Services
A grouping of MOS's that covers positions primarily in supply and service, supply and transportation, and field service units. Subfields include: Field Service General (570); Services (571); Memorial Activities (572); Textile Renovation (573). Duties involve repair and alteration of textile, canvas, and leather supplies and equipment; laundry, bath and impregnation functions; memorial activities; supervising general work details; and general labor services. Effective 3/77, CMF 57 was eliminated and the MOS's were reclassified under CMF 76 (Supply).

63 Mechanical Maintenance
A grouping of MOS's that covers positions primarily in support maintenance units. Subfields include: Precision Devices (631); Metalworking (632); Machinery Maintenance (633); Armament Maintenance (634). Duties involve maintenance of mechanical

and electromechanical equipment. Qualifications include knowledge of handtools and metalworking tools, safety precautions, blueprint reading, and technical manuals.

64 Transportation

A grouping of MOS's that covers positions primarily in transportation units. Air operations MOS's cover positions in aviation units; motor transport MOS's cover positions in units Army-wide. (Prior to 3/76, the designation for transportation MOS's was CMF 65.) Subfields have included: Movements Control (650); Terminal Service (651); Motor Transport (652); Marine (653); Railway (654); Air Operations (655). Subfields now include: Surface Operations (641); Marine Operations (642); Railway Operations (643); Air Operations (644). Duties involve operation and preventive maintenance of light, heavy cargo, and passenger vehicles; operation and maintenance of railway rolling stock and marine harborcraft; air traffic control; and movements control.

65 Transportation

Effective 3/76, CMF 65 was eliminated and the MOS's were reclassified under CMF 64.

67 Aviation Maintenance (formerly Aircraft Maintenance)

A grouping of MOS's that covers positions in all types of aviation units Army-wide. Subfields include: Aircraft Maintenance (671); Aircraft Components Repair (672). Duties involve servicing and maintenance of aircraft, aircraft components, armament subsystems, and target aircraft. Qualifications include ability to use handtools, instruments, and gauges; ability to understand and interpret oral and written technical instructions, plans, blueprints and schematic diagrams; and specific mechanical, electrical, and electromechanical skills.

71 Administration

A grouping of MOS's that covers positions in units Army-wide. Subfields have included: General Administration (711); Personnel (712); Finance (713); Legal (714); Information (715); Special Services (716). Duties involve general administration; personnel, legal, medical, and other specialized administration; postal service; clerical work; fiscal accounting; newspaper, radio, and television communication; and supervision of recreational activities. Qualifications include: basic clerical, typing, bookkeeping, stenography, and communication abilities and knowledge of clerical and administrative procedures, office management, preparation and use of military publications and correspondence, preparation and routing of orders, design and use of filing systems, and record keeping.

72 Telecommunications and Audio Visual

A grouping of MOS's that covers positions in radio, radio-teletype, and communications center facilities Army-wide; audiovisual MOS's cover positions in signal corps units and maintenance units. Subfields include: Communications Operations (721); Audio Visual (722). Duties involve operation of radio, teletype, telephone and data equipment; and transmission, reception, and delivery of Army communications. Effective 3/77, Subfield 722 was eliminated and the MOS's were reclassified under CMF 84 (Public Affairs and Audio Visual).

74 Automatic Data Processing

A grouping of MOS's that covers data processing positions in units engaged in data processing, personnel, communications, finance, and supply. Subfields include: Data Processing Equipment Operations (741); Data Processing Equipment Maintenance (742). Operational duties involve systems analysis, programming, computer operations, and coding data for use with punched cards, magnetic tapes, and disks. Maintenance duties involve maintenance on tabulating equipment, automatic data processing equipment, viewer computer systems, and related test equipment. Maintenance MOS's require electronic and mechanical aptitude, number facility to solve formulas used in test computations, ability to make delicate adjustments and repairs, and perceptual speed for reading circuit diagrams and mechanical blueprints.

76 Supply

A grouping of MOS's that covers positions in all types of units Army-wide. Effective 3/77, subfields include: Supply General (760); Supply (761); Service (762). Duties may involve procurement, receipt, storage, issue, and administrative control of all classes of supplies, spare parts, and materiel (except ammunition, nuclear materials, and petroleum). Qualifications include: knowledge of standard supply records and clerical procedures, standard quantity measurements, color codes used to identify supplies, supply catalogs for identification of supply items, safety precautions involved in moving and storing supplies, and operation of office machines without minimum speed requirement.

79 Recruitment and Reenlistment

Two MOS's primarily concerned with recruiting personnel for Army service and operating the reenlistment system. Duties involve contacting prospective enlistees/reenlistees, counseling concerning job and career opportunities in the Army, and performing administrative functions necessary to accomplish enlistment or reenlistment.

81 Topographic Engineering (formerly Topographic Engineering and Map Reproduction)

A grouping of MOS's that covers positions primarily in engineering units. Subfields have included: Drafting (811); Surveying (812); Map Reproduction and Printing (813). Subfields now include: Topographic Engineering (810); Cartography (811); Surveying (812); Photolithographer (813). Duties involve topographic survey, map making, reproduction, and printing; topographic instrument and reproduction equipment repair, terrain analysis, and illustrating and model making.

84 Public Affairs and Audio-Visual

A grouping of MOS's which are used for Public Affairs and audio-visual activities Army-wide. Duties consist of newspaper, radio and television communications, maintenance of radio and television equipment, still and motion picture photography, audio-visual equipment repair, and graphic illustrator.

91 Medical

A grouping of MOS's that covers positions in medical units Army-wide. Subfields have included: Prosthetic Appliances (911); Patient Care (912); Physical Medicine (913); Medical Services (914). Subfields now include: Dental (911); Patient Care (912); Health Services (913); Medical Support (914). Duties involve medical care and treatment; medical laboratory testing and analysis, and fabrication and repair of prosthetic appliances. Qualifications include knowledge of the organization and functions of the Army medical service; basic anatomy, physiology, first aid and emergency medical treatment; nomenclature and usage of basic drugs; transportation of sick and wounded; field sanitation; basic nursing techniques; basic principles of disease prevention.

92 Petroleum

A grouping of MOS's that covers positions in petroleum storage and laboratory units. Duties involve receipt, storage, preservation, and distribution of bulk and packaged petroleum products and standard physical and chemical testing of petroleum products.

94 Food Service

A grouping of MOS's that covers positions in the following areas: company, consolidated, and hospital food service activities; bakeries; meat-cutting plants; food service elements of headquarters; and personal staffs of general officers. Duties involve preparation and cooking of food; food service advisory and administrative activities; and service as enlisted aide or cook on the personal staff of a general officer. Qualifications include knowledge of sanitary standards and safety precautions, subsistence storage principles, and use of food service machinery and equipment.

95 Law Enforcement

A grouping of MOS's that covers law enforcement positions. Duties involve patrolling areas, apprehending violators, controlling traffic, quelling disturbances, protecting security sites, guarding military prisoners and prisoners of war, providing correctional treatment for military prisoners in confinement facilities, criminal investigation, and criminal laboratory analysis.

96 Military Intelligence

A grouping of MOS's that covers positions primarily in military intelligence units and in intelligence staff sections in other units. Effective 9/76, subfields include: Controlled Intelligence (961); Technical Intelligence Production (962); Tactical Intelligence Surveillance (963). Duties may involve the collection, analysis, protection, and dissemination of intelligence information through observation, compilation, investigation, survey, language translation and interpretation; electronic listening and sensing; photograph and image interpretation; censorship; technical analysis of enemy equipment; and application of security programs.

97 **Band**

A grouping of MOS's that covers positions in band units Army-wide. Subfields include: Brass (971); Woodwind (972); Percussion (973); Band Leadership (974); Special Band (975). Duties involve playing brass, woodwind, or percussion instruments in marching, concert, dance, stage, and show bands; playing in combos and instrumental ensembles; and singing in vocal groups and writing and arranging music, when assigned. Qualifications include ability to play one or more band instruments; musical memory for playing compositions without sheet music; and ability to perform certain musical scores at sight.

98 **Electronic Warfare (EW) Cryptologic Operations**

A grouping of MOS's that cover positions in fixed and mobile units engaged in support of strategic and tactical operations. Duties involve collection of electromagnetic emissions, analysis of these emissions, security of friendly communications and noncommunications, and electronic warfare operations.

Appendix E

Warrant Officer Special Qualifications Identifiers

Special Qualifications Identifiers are used with warrant officer MOS's to identify special qualifications possessed by an individual. The SQI is either a number or a letter; it occupies the fifth character of an MOS designation, replacing the zero that normally occupies that position.

Award of an SQI other than zero may mean that a person's records will show the title of the SQI rather than the title of the MOS. For example, the title for MOS 951AO is Criminal Investigator; the title for MOS 951AK will normally appear as Polygraph Examiner.

The Special Qualifications Identifiers listed below are arranged by the numeric codes first, then by the alphabetic codes. Each SQI is accompanied by a title and a brief description.

1 **Master of Coastal Vessels up to 250 Tons *or* Chief Engineer of Coastal Vessels up to 750 Horsepower**

Identifies persons who have been certified and issued the appropriate license by the U.S. Army Marine Qualifications Board.

2 **Master of Coastal Vessels up to 500 Tons *or* Chief Engineer of Coastal Vessels up to 1,200 Horsepower**

Identifies persons who have been certified and issued the appropriate license by the U.S. Army Marine Qualifications Board.

3 **Master of Oceans Unlimited Vessels *or* Chief Engineer of Oceans Unlimited Vessels**

Identifies persons who have been certified and issued the appropriate license by the U.S. Army Marine Qualifications Board.

4 **Harbormaster/Pilot *or* Marine Inspector (formerly Research, Development, Test, and Evaluation Technician—see SQI "Z")**

Identifies persons who have been certified and issued the appropriate license by the U.S. Army Marine Qualifications Board.

5 **Power Systems Technician (formerly Nuclear Power Plant Superintendent—see below)**

Identifies person who are qualified to supervise operations and maintenance of high-voltage power stations and transmission systems.

Nuclear Power Plant Superintendent

Identifies persons who are qualified to supervise operations and maintenance of power plants equipped for nuclear power generation and who have completed the Nuclear Power Plant Operator course at the U.S. Army Engineer School and the Radiological Safety course, at the U.S. Army Ordnance School.

6 **Instrument Flight Examiner**

See SQI "F."

7 **Parachutist**

Identifies persons who have completed airborne training.

8 **Instructor**

Identifies persons qualified as full-time formal instructors at an Army Service School or other organized training facility.

9 **Safeguard System Technician (formerly Safeguard)**

Identifies persons who have completed the Safeguard Missile Maintenance Technician course or who have completed at least six months work experience with Safeguard system tactical support equipment.

A **Air Traffic Control Technician**

Identifies persons who are qualified to manage air traffic control operations and procedures and who have completed the Officer/Warrant Officer Air Traffic Control course at the U.S. Army Aviation School.

B **Flight Safety Technician**

Identifies persons who are qualified to manage aviation unit flight safety programs.

C **Instructor Pilot**

Identifies persons qualified to instruct student and aviator personnel in the fundamentals of flight, to analyze flight training maneuvers, and to check out aviators on new equipment and aircraft.

D **Aeromedical Evacuation Pilot**

Identifies persons who are qualified in the procedures and techniques of aeromedical evacuation and who have completed the Army Medical Service Aviator course or have had equivalent experience.

E **Aircraft Armament Maintenance Technician (formerly Aircraft Armament Maintenance)**

Identifies persons who are qualified to supervise maintenance and repair of aircraft armament systems and who have completed the Aircraft Armament Repair Supervisor course or have equivalent experience.

F **Instrument Flight Examiner**

Identifies persons who are qualified to conduct written and flight examinations of aviators for award or retention of instrument certificates and who have completed the Instrument Flight Examiner course at the U.S. Army Aviation School.

G **Aircraft Maintenance Technician (formerly Investigative Photography—see SQI "N")**

Identifies persons who are qualified to supervise maintenance and repair of aircraft and who have completed the Maintenance Resource Management and Maintenance Operations phase of the Aircraft Maintenance Officers course at the U.S. Army Transportation School.

H **Aerial Scout (formerly Defense Against Methods of Entry (DAME)—see ASI "9K" in the Warrant Officer Additional Skill Identifiers Appendix)**

Identifies persons who have performed aerial scout duties for a minimum of 60 days or who have completed the Air Cavalry/Attack Helicopter Commander Training course or the Air Cavalry Qualifications course at the U.S. Army Armor School.

J **Engineering Test Pilot (formerly Maintenance Test Pilot—see below)**

Identifies persons who have successfully completed the U.S. Naval Test Pilot School.

Maintenance Test Pilot (formerly Defense Against Sound Equipment (DASE)—see ASI "9L" in the Warrant Officer Additional Skill Identifiers Appendix)

Identifies persons who are qualified to conduct maintenance and/or functional test flights and who have completed the prescribed course of instruction for aircraft maintenance test pilots at the U.S. Army Transportation School.

K Polygraph Examiner (formerly Certified Polygraph Examiner)
Identifies persons certified to conduct polygraph examinations.

L Logistics Technician
Identifies persons holding the position of Criminal Investigation Logistics Technician *or* Communications Security (COMSEC) Logistics Technician. Criminal Investigation Logistics Technician is used with MOS 951A (Criminal Investigator) and identifies persons who are qualified to conduct or supervise criminal investigations and crime surveys involving logistical activities and who have completed prescribed courses at the U.S. Army Logistics Management Center. COMSEC Logistics Technician is used with MOS 290A (Telecommunications Technician) and identifies persons who are qualified to supervise operation of communications security (COMSEC) logistics support activities and who have completed 6 months of experience in an assignment dealing with COMSEC logistics skills.

M Latent Fingerprint Examiner
Identifies persons who are qualified as expert latent fingerprint examiners and who have completed the 104-week Latent Fingerprint Examiner course at the U.S. Army Criminal Investigation Laboratory.

N Photographer (formerly Nuclear Power Plant Superintendent—see SQI "5")
Identifies persons holding the position of Forensic Photographer (formerly Investigative Photographer) *or* Intelligence Photographer. Forensic Photographer is used with MOS 951A (Criminal Investigator) and identifies persons who have completed the 104-week Forensic Photographer course at the U.S. Army Criminal Investigation Laboratory. Intelligence Photographer is used with MOS 100B (Utility/Observation Helicopter Pilot), MOS 971A (Counterintelligence Technician), and MOS 972A (Area Intelligence Technician) and identifies persons who have completed the Intelligence Photography course at the U.S. Army Intelligence Agency.

P Questioned Document Examiner
Identifies persons qualified as expert documents examiners.

Q Standardization Instructor Pilot
See SQI "C."

R Forensic Chemist (formerly Aircraft Repair Technician—see SQI "G")
Identifies persons who have completed the 27-week Forensic Chemist course at the U.S. Army Criminal Investigation Laboratory.

S Firearms and Toolmark Examiner (formerly Aerial Scout—see SQI "H")
Identifies persons who have completed the 104-week Firearms and Toolmark Examiner course at the U.S. Army Criminal Investigation Laboratory.

T Transition
Identifies persons who begin either formal schooling or on-the-job training for cross-training into an existing MOS and/or qualification training for new weapons or equipment.

U General Staff Administrative Technician (formerly Maintenance Test Pilot—see SQI "J")
Identifies persons qualified to supervise the office clerical staff of a lieutenant general and higher.

V Support Repair Technician
Identifies persons holding the position of Depot Support/General Support (DS/GS) Repair Technician *or* Communications Security (COMSEC) Equipment Repair Technician. DS/GS Repair Technician is used with any non-aviation MOS to identify persons who are qualified to conduct or supervise maintenance activities. COMSEC Equipment Repair Technician is used with MOS 290A (Telecommunications Technician) and identifies persons who are qualified to supervise maintenance of communications security equipment.

W ADP Operations Technician
Identifies persons who are qualified to supervise operation of automatic data processing (ADP) machines and ancillary equipment and who have completed the ADP Officers course at the U.S. Army Institute of Administration or have equivalent occupational and educational experience.

X ADP Programmer/Systems Analysis Technician
Identifies persons qualified to perform automatic data processing (ADP) programming and conduct systems analyses.

Y Telecommunications Systems Analyst (formerly Air Traffic Control Technician—see SQI "A")
Identifies persons who are qualified to supervise or perform analysis of computer-driven telecommunications systems and who have completed the advanced Automatic Data Processing Systems Analysis course or have equivalent training and experience.

Z Research, Development, Test, and Evaluation Technician
Identifies persons qualified in design, development, test, or evaluation of military materiel, doctrine, methods, systems, or organizations.

Appendix F

Warrant Officer Additional Skill Identifiers

An Additional Skill Identifier is used with a warrant officer MOS to identify and define specialized skills or equipment. It consists of a number and a letter, and occupies the sixth and seventh positions in an MOS designation. The award of an ASI requires two or more weeks of formal schooling or equivalent work experience.

Each Additional Skill Identifier listed below is accompanied by a title and a brief description.

1A OH-13 Pilot
Qualified as OH-13 pilot.

1B OH-23 Pilot
Qualified as OH-23 pilot.

1C OH-6 Pilot
Qualified as OH-6 pilot.

1D OH-58 Pilot (Scout Configuration)
Qualified as OH-58 pilot.

1E UH-1 Pilot
Qualified as UH-1 pilot.

1F CH-34 Pilot
Qualified as CH-34 pilot.

1G CH-47 Pilot
Qualified as CH-47 pilot.

1H CH-54 Pilot
Qualified as CH-54 pilot.

1J AH-1G Pilot
Qualified as AH-1G pilot.

1K VH-3A Pilot
Qualified as VH-3A pilot.

1L CH-37 Pilot
Qualified as CH-37 pilot.

1M AH-1Q/AH-1S Pilot (formerly AH-1Q (Cobra TOW))
Qualified as AH-1Q/AH-1S pilot.

1N UH-60 Pilot
Qualified as UH-60 pilot.

1P OH-58 Pilot
Qualified as OH-58 pilot.

1U EH-1 Pilot
Qualified as EH-1 pilot.

1Y Non-Standard Helicopter Pilot
Qualified as non-standard helicopter pilot.

1Z M-22 Gunner
Knowledge of the M-22 armament subsystem and the tactical employment of UH-1 helicopters equipped with the M-22 aerial gunnery system.

2A O-1; TO-1 Pilot
Qualified as O-1, TO-1 pilot.

2B T-41 Pilot
Qualified as T-41 pilot.

2C U-1 Pilot
Qualified as U-1 pilot.

2D U-6 Pilot
Qualified as U-6 pilot.

2E U-8 Pilot
Qualified as U-8 pilot.

2F T-42 Pilot
Qualified as T-42 pilot.

2G U-9 Pilot
Qualified as U-9 pilot.

2H U-10 Pilot
Qualified as U-10 pilot.

2J U-21 Pilot
Qualified as U-21 pilot.

2K OV-1; RV-1 Pilot (formerly OV-1)
Qualified as OV-1, RV-1 pilot.

2L P2V Pilot
Qualified as P2V pilot.

2M C-45 Pilot
Qualified as C-45 pilot.

2N C-47 Pilot
Qualified as C-47 pilot.

2P C-12 Pilot
Qualified as C-12 pilot.

2Q CV-2 Pilot
Qualified as CV-2 pilot.

2R RU-21 Pilot
Qualified as RU-21 pilot.

2S UV-18 Pilot
Qualified as UV-18 pilot.

2Z Non-Standard Fixed-Wing Aircraft Pilot
Qualified as non-standard fixed-wing aircraft pilot.

3A Avionics and Navigation Equipment Repair Technician
Repair of avionics and navigation equipment.

3B Fixed C-E Equipment Repair Technician
Repair of fixed communications electronic equipment.

3C Tactical C-E Equipment Repair Technician
Repair of tactical communications electronic equipment.

3D Radar Equipment Repair Technician
Repair of radars and ancillary equipment.

3E Satellite Communications System Repair Technician
Repair of satellite communications terminal equipment.

3F Transmission Systems Repair Technician
Repair of communications transmission equipment and systems.

3K IBM 360/65
Repair of the IBM 360/65 data processing equipment.

3L IBM 360/30
Repair of the IBM 360/30 data processing equipment.

3M IBM 360/40
Repair of the IBM 360/40 data processing equipment.

3N Army Autodin Systems
Repair of Army autodin systems equipment.

3P AN/TSQ-73
Repair of the AN/TSQ-73 equipment.

3Q AN/TSQ-51
Repair of the AN/TSQ-51 equipment.

3R AN/TSQ-38
Repair of the AN/TSQ-38 equipment.

3S TACFIRE Technician LITTON L350
Maintenance of tactical ADP equipment and peripheral devices within the division artillery or field artillery brigade.

3X Cryptanalytic Technician
See ASI "9B."

5A Missile System Technician, Basic Hawk
Knowledge of the basic Hawk missile system.

5B Basic Product Improvement Program (PIP) (PIP-1)

Completion of Phase I of the PIP training.

5C Advanced Product Improvement Program (Phase II) (PIP-II)

Completion of Phase II of the PIP training.

5J Technical Escort

Qualified as a technical escort.

5K Critical Nuclear Surety

Qualified to hold critical nuclear surety positions.

5L Controlled Nuclear Surety

Qualified to hold controlled nuclear surety positions.

5V Salvage Diver

Qualified as marine divers.

5Z Missile System Technician, Sergeant (formerly Field Artillery Missile System, Sergeant)

Knowledge of the Sergeant missile system.

6A Defense Sensor Interpretation and Application Training Program (DSIATP)

See ASI "9A."

7A Military Pay Technician

Qualified to perform duties involving military pay.

7B Court Reporter

Qualified as court reporter.

7C RCA 301, 501

Operation or repair of RCA 301, 501 equipment.

7D RCA 3301—Spectra 70

Operation or repair of RCA 3301—Spectra 70 equipment.

7E IBM 7000 Series

Operation or repair of IBM 7000 series equipment.

7F IBM 360

Operation or repair of IBM 360 equipment.

7G GE 600

Operation or repair of GE 600 equipment.

7H Burroughs 3500

Operation or repair of Burroughs 3500 equipment.

7J IBM 1401

Repair of IBM 1401 equipment.

7K UNIVAC 1004, 1005

Operation or repair of UNIVAC 1004, 1005 equipment.

7L NCR 500

Operation or repair of NCR 500 equipment.

7M IBM 1410

Operation or repair of IBM 1410 equipment.

7N IBM 1401, 1410, 1440, 1460, 1620

Operation or repair of IBM 1401, 1410, 1440, 1460, 1620 equipment.

7P GE 200 Series

Operation of GE 200 series equipment.

7Q FORTRAN, 2d Generation

Use of Formula Translation (FORTRAN) 2d generation machine language in development of computer programs.

7R COBOL, 2d Generation

Use of Common Business Oriented Language (COBOL) 2d generation machine language in development of computer programs.

7S SAAL

Use of SAAL machine language in the development of computer programs.

7T FORTRAN, 3d Generation

Use of Formula Translation (FORTRAN) 3d generation machine language in development of computer programs.

7U Assembly Language, 2d Generation

Use of Assembly Language 2d generation machine language in development of computer programs.

7V COBOL, 3d Generation

Use of Common Business Oriented Language (COBOL) 3d generation machine language in development of computer programs.

7W Assembly Language, 3d Generation

Use of Assembly Language 3d generation machine language in development of computer programs.

7X Manpower/Force Manager

Knowledge of military and civilian manpower management policies including planning, programming, development, and evaluation of organizational structure, determination of requirements, allocation of resources, position classification, and familiarity with automated systems which support these functions.

7Y Executive Club Manager

Qualified as executive club manager.

7Z SHAL-A Computer Language

Use of SHAL-A machine language in development of computer programs.

9A Defense Sensor Interpretation and Application Training Program (DSIATP) (formerly ASI "6A")

Qualified in the Defense Sensor Interpretation and Application Training Program.

9B Cryptanalytic Technician (formerly ASI "3X")

Qualified to decipher encrypted intercepted communications.

9K Defense Against Methods of Entry (DAME) (formerly SQI "H")

Qualified to supervise personnel engaged in activities to defend against surreptitious entry.

9L Defense Against Sound Equipment (DASE) Technician (formerly SQI "J")

Qualified to supervise personnel engaged in activities to defend against surreptitious use of sound detection equipment.

9M Technical Intelligence

Qualified in the identification, analysis, and evaluation of technological developments or in the operation, employment, or maintenance of enemy or potential enemy systems or materiel.

9N Aerial E/W Systems

Knowledge of sophisticated electronic systems, special electronic mission aircraft.

Appendix G

Conversion of Army Enlisted Military Occupational Specialties to Department of Defense Enlisted Occupational Codes

This appendix is designed to aid the user in determining the Army formal course number when only the MOS code is known.

The number that the Army assigns to a formal course for enlisted personnel often consists of a three-digit Department of Defense (DoD) occupational code followed by the five-digit code for the MOS and skill level associated with the course, e.g., 300-91C10. In order to use the Course Number Index to locate a specific course exhibit ID number, the user must know the entire official Army course number. However, on some soldiers' records the entire course number is not given; instead, the military record may list the course number as only the MOS and skill level, without the DoD code.

For example, the Army course number for the course that trains persons for MOS 91C (Clinical Specialist) is 300-91C10. When a soldier's record incompletely lists the course number as 91C10, the user can refer to MOS 91C in this appendix to find the DoD occupational code, 300. The user can then turn to 300-91C10 in the Course Number Index to find the ID number of the course exhibit, which in this example is AR-0709-0009.

APPLICATION FOR THE EVALUATION OF EDUCATIONAL EXPERIENCES DURING MILITARY SERVICE	DATE
NAME AND ADDRESS OF SCHOOL	**EVALUATION REQUEST FOR**
	NAME OF APPLICANT
	SIGNATURE
ATTENTION:	SSN

Dear Sir:

The person named above has requested that the attached summary of his educational achievements, accomplished while serving in the Armed Forces of the United States, be forwarded to you for review and evaluation. The Armed Forces make no recommendations concerning the awarding of credit for educational experiences during Military Service, as it is recognized that this function is the prerogative of civilian education.

The Commission on Accreditation of Service Experiences of the American Council on Education has published the following documents that may be helpful in your review of the applicant's educational experiences:

a. "Policies of State Departments of Education for the Accreditation of Educational Experiences of Military Personnel and of Results on the Tests of General Educational Development." *(Bulletin No. 5)*

b. "A Guide to the Evaluation of Educational Experiences in the Armed Services."

c. "Opportunities for Educational and Vocational Advancement." *(Bulletin No. 10)*

Since any offical of a school, college, state department of education, or other educational institution can obtain additional information relative to accreditation of Service experiences, you may write directly to the Commission on Educational Credit of the American Council on Education, One Dupont Circle, N. W., Washington, D. C. 20036.

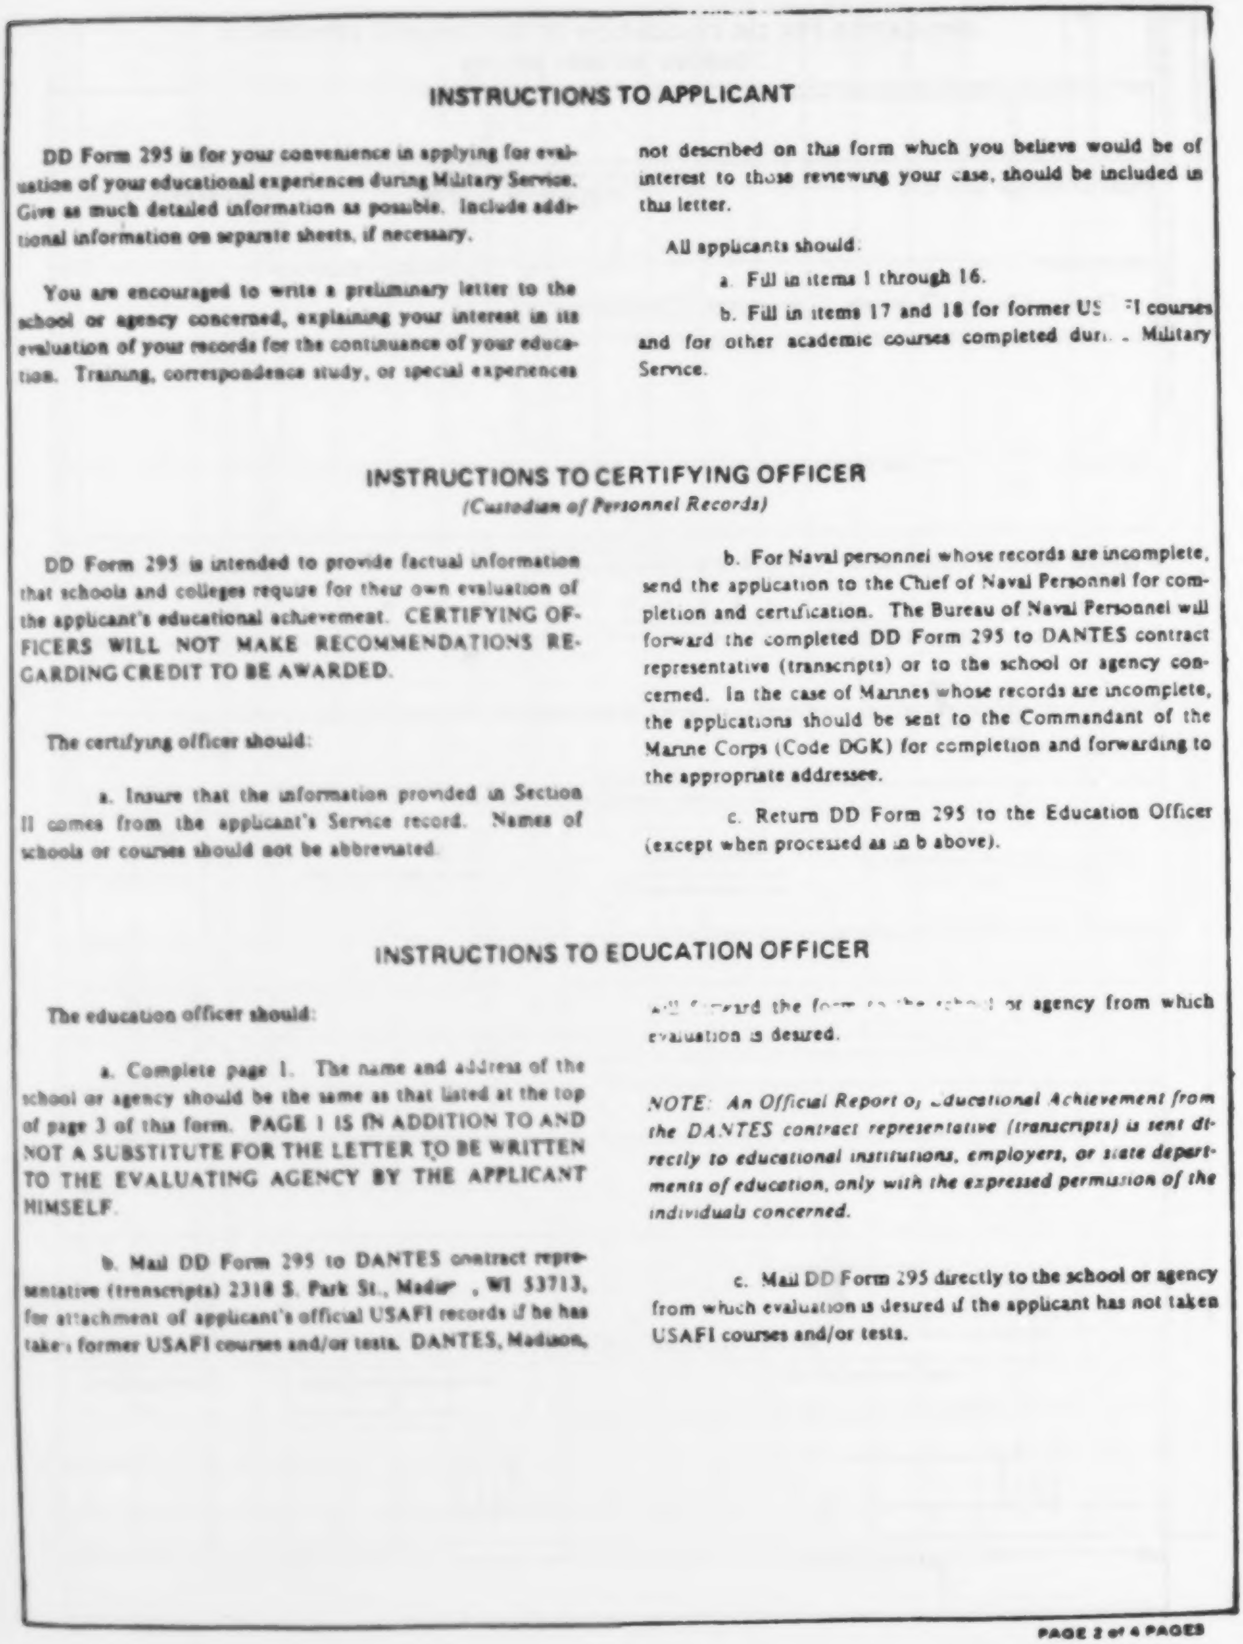
The evaluation of this applicant's educational experiences, as well as any guidance which you may provide him, should be sent directly to the applicant at the address shown on Page 3, Section I, Block 8. Your interest is genuinely appreciated.

Sincerely yours,

EDUCATION OFFICER

PAGE 1 OF 4 PAGE

DD FORM 1 APR 75 295 PREVIOUS EDITION WILL BE USED.



INSTRUCTIONS TO APPLICANT

DD Form 295 is for your convenience in applying for evaluation of your educational experiences during Military Service. Give as much detailed information as possible. Include additional information on separate sheets, if necessary.

You are encouraged to write a preliminary letter to the school or agency concerned, explaining your interest in its evaluation of your records for the continuance of your education. Training, correspondence study, or special experiences not described on this form which you believe would be of interest to those reviewing your case, should be included in this letter.

All applicants should:

a. Fill in items 1 through 16.

b. Fill in items 17 and 18 for former USAFI courses and for other academic courses completed during Military Service.

INSTRUCTIONS TO CERTIFYING OFFICER

(Custodian of Personnel Records)

DD Form 295 is intended to provide factual information that schools and colleges require for their own evaluation of the applicant's educational achievement. CERTIFYING OFFICERS WILL NOT MAKE RECOMMENDATIONS REGARDING CREDIT TO BE AWARDED.

The certifying officer should:

a. Insure that the information provided in Section II comes from the applicant's Service record. Names of schools or courses should not be abbreviated.

b. For Naval personnel whose records are incomplete, send the application to the Chief of Naval Personnel for completion and certification. The Bureau of Naval Personnel will forward the completed DD Form 295 to DANTES contract representative (transcripts) or to the school or agency concerned. In the case of Marines whose records are incomplete, the applications should be sent to the Commandant of the Marine Corps (Code DGK) for completion and forwarding to the appropriate addressee.

c. Return DD Form 295 to the Education Officer (except when processed as in b above).

INSTRUCTIONS TO EDUCATION OFFICER

The education officer should:

a. Complete page 1. The name and address of the school or agency should be the same as that listed at the top of page 3 of this form. PAGE 1 IS IN ADDITION TO AND NOT A SUBSTITUTE FOR THE LETTER TO BE WRITTEN TO THE EVALUATING AGENCY BY THE APPLICANT HIMSELF.

b. Mail DD Form 295 to DANTES contract representative (transcripts) 2318 S. Park St., Madison, WI 53713, for attachment of applicant's official USAFI records if he has taken former USAFI courses and/or tests. DANTES, Madison, will forward the form to the school or agency from which evaluation is desired.

NOTE: An Official Report of Educational Achievement from the DANTES contract representative (transcripts) is sent directly to educational institutions, employers, or state departments of education, only with the expressed permission of the individuals concerned.

c. Mail DD Form 295 directly to the school or agency from which evaluation is desired if the applicant has not taken USAFI courses and/or tests.

APPLICATION FOR THE EVALUATION OF LEARNING EXPERIENCES DURING MILITARY SERVICE

9 APRIL 80
(Date)

(Name/Address of Evaluating Agency)
TO:

EVALUATION REQUEST FOR:

(Name of Applicant)

(Signature of Applicant)

ATTENTION:

(Social Security Number)

Dear Official:

The person named above has requested that the attached summary of educational achievements, accomplished while in the Armed Forces of the United States, be forwarded to you for review and evaluation.

The Office on Educational Credit of the American Council on Education publishes the *Guide to the Evaluation of Educational Experiences in the Armed Services* which includes postsecondary credit recommendations for military learning experiences. The 1954 edition of the *Guide* contains recommendations for formal courses offered by the Armed Services during the period 1941 to 1954. The current edition contains credit recommendations for (1) military training courses offered after 1954; (2) Army military occupational specialties (MOS's) for enlisted personnel and warrant officers; and (3) Navy ratings held by Navy enlisted personnel after June 1971. In addition to recommendations for semester hour credits, some Army enlisted MOS's and Navy ratings also have recommendations for advanced standing in apprentice training programs.

The Office on Educational Credit maintains an advisory service to provide credit recommendations for courses and tests, MOS's, and ratings evaluated after the publication date of the current *Guide*. Credit recommendations for USAFI courses and tests and DANTES Subject Standardized Tests will also be provided upon request. Credit recommendations are provided to officials of schools, state departments of education or other educational institutions, employers, apprenticeship training directors, labor union and trade association officials, military education officers and applicants. *Credit recommendations are not provided to officials at the applicant's request.* Authorized persons may write directly to the Office on Educational Credit, American Council on Education, One Dupont Circle, N.W., Washington, D.C. 20036. Announcements of newly evaluated courses, MOS's and ratings are made through the *OEC Newsletter*.

The evaluation of this applicant's learning experiences, as well as any guidance which you may provide, should be sent directly to the applicant at the address shown in block 8 on page 3. Your interest is genuinely appreciated.

Sincerely,

(Education Officer)

DD FORM JUNE 1979 295 Edition of 1 Apr 75 is obsolete. *Page 1 of 4 pages*

COMMANDING GENERAL

NAVMC [illegible]

and quantitative techniques. The student is provided hands-on programming experience with a remote, time-sharing computer terminal using the BASIC programming language.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 2 semester hours in data processing principles (5/77).

DD-1402-0003

Computer Orientation for
Intermediate Executives

Course Number: None.

Location: Department of Defense Computer Institute, Washington, DC.

Length: 2 weeks (65 hours).

Exhibit Dates: 8/77–Present.

Objectives: Course is designed to provide an educational background for high-level management personnel who are general-purpose digital computer systems users and have had little or no previous introduction to data processing principles.

Instruction: Course covers computer capabilities, limitations, and applications; the basics of computer hardware and software; systems development management considerations; planning and design; and an introduction to operations research and analysis and quantitative techniques. The student is provided hands-on programming experience with a remote, time-sharing computer terminal using the BASIC programming language.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 2 semester hours in data processing principles (5/77).

DD-1408-0001

Defense Security Assistance
Management Core

Course Number: SAM-C-11.

Location: Defense Institute of Security Assistance, Wright-Patterson AFB, OH.

Length: 2 weeks (112 hours).

Exhibit Dates: 10/77–Present.

Objectives: To provide an understanding of security assistance management from a national policy level through implementation by responsible agencies with emphasis on attendant planning and programming of the process.

Instruction: Instruction includes United States involvement in security assistance, its purpose, nature, basis, authority and current programs as they relate to government contracting and procurement management. The methods of instruction include lecture, case studies, simulator exercises and interaction with practitioners in the field.

Credit Recommendation: Credit is not recommended because of the limited specialized nature of the course (11/78)

DD-1408-0002

Program Management

Course Number: None.

Location: Defense Systems Management College, Ft. Belvoir, VA.

Length: 20 weeks (393 hours).

Exhibit Dates: 1/73–Present.

Objectives: To offer managers from the government, the military and industry skills and knowledge to successfully manage defense systems acquisition programs.

Instruction: Lectures, discussions and cases cover the following areas: defense program and project management including program cost management, contract management, procurement policy and logistics; production and operations management including quantitive methods; general management and organizational behavior; and managerial finance and accounting.

Credit Recommendation: In the upper-division baccalaureate category, 3 semester hours in production and operations management, 2 in managerial finance, and 1 in general management (4/80) in the graduate degree category, 9 semester hours in defense program and project management (If the student has already completed the course, Program Management for Functional Managers (Program Management for Contract Administration), only 6 hours additional credit is recommended) (4/80).

DD-1408-0003

Industry Financial Management

Course Number: None.

Location: Defense Systems Management College, Ft. Belvoir, VA.

Length: 2 weeks (60 hours).

Exhibit Dates: 1/75–Present.

Objectives: The course provides the participant with an introduction to basic financial analysis.

Instruction: The course provides an overview of finance and managerial accounting, emphasizing the case approach. Topics covered include financial statement analysis, cost accounting, capital budgeting and contract pricing.

Credit Recommendation: In the upper-division baccalaureate category, 1 semester hour in finance and managerial accounting (4/80).

DD-1408-0004

Program Management for Functional
Managers
(Program Management for Contract Administration)

Course Number: None.

Location: Defense Systems Management College, Ft. Belvoir, VA.

Length: 4 weeks (120 hours).

Exhibit Dates: 12/78–Present.

Objectives: To introduce contract administrators to program management systems.

Instruction: Lectures, discussion and cases in defense program and project management, systems acquisition, and functional management.

Credit Recommendation: In the graduate degree category, 3 semester hours in defense program and project management (4/80).

DD-1511-0001

National Security Management
(Correspondence Course of the
Industrial College of the
Armed Forces)

Course Number: None.

Location: Industrial College of the Armed Forces, Ft. Leslie J. McNair, Washington, DC.

Length: 52–104 weeks.

Exhibit Dates: 5/71–Present.

Objectives: To train officers in economic and industrial aspects of national security and the management of resources under all conditions and in the context of national and world affairs.

Instruction: Individualized readings and student research in economic and industrial aspects of national security and the management of resources under all conditions and in the context of national and world affairs, divided into four course blocks as follows: (1) Includes the national security structure, the environment of national security, the world in ferment, national urban problems, and concepts and practice of management. (2) Includes elements of defense economics, human resources for national strength, natural and energy resources, the industrial sector, transportation as the nation's lifeline, and the public utilities (gas, electricity, and telecommunications). (3) Includes economic policies for national strength, emergency economic stabilization, U.S. foreign economic policies, defense organization and management, requirements for national defense, and military systems analysis. (4) Includes defense military manpower, the national assets of science and technology, production for defense, procurement, supply management, and national aerospace programs.

Credit Recommendation: In the upper-division baccalaureate category, for students who complete the program WITH DISTINCTION—or based upon the admitting institution's evaluation of the applicant's work—3 semester hours in political science (The U.S. in Contemporary World Affairs), 3 in social science (The Social and Economic Bases of the U.S. National Security), 3 in management (Defense Policy and Management) (8/74); in the graduate degree category, 3 semester hours for completion of the entire program WITH DISTINCTION—or based upon the admitting institution's evaluation of the applicant's work (8/74). NOTE: Credit recommendation is based on an on-site evaluation. Recommendations of credit are maximum figures. The amount actually accepted for transfer depends upon the applicant's future goals and the regulations of the admitting institution on transfer credit.

DD-1511-0002

National War College

Course Number: None.

Location: National War College, Ft. Leslie J. McNair, Washington, DC.

Length: 43 weeks.

Exhibit Dates: *Version 1:* 8/73–Present. *Version 2:* 8/70–7/73. *Version 3:* 8/56–7/70. *Version 4:* 8/54–7/56.

Objectives: The National War College provides professional education intended to improve the knowledge and expertise of a practitioner in the field of U.S. Foreign Affairs and National Security Affairs.

Instruction: Lectures, seminars, readings, and student research in military and national security affairs and international relations. The Core Curriculum is divided into five blocks as follows: (1) The Foundations of National Security; (2) Domestic Environment and National Security; (3) National Security Problems and the Decision-Making Process; (4) Military Strategy and Strategic Posture; and (5) Reassessment of National Security Problems. Area studies include: (1) Canada, Europe, and the U.S.S.R.; (2) East Asia and the Western Pacific; (3) South Asia, the Middle East, and Africa; and (4) Latin America. Area electives include courses on Europe, the Far East, Africa, Latin America, or the Mid-East. The course titled National Security Analyses includes an intensive study of politico-military economic, social, psychological, and geographic factors for an analysis of critical issues affecting U.S. national security policies and objectives in Europe, the Middle East and South Asia, Africa, the Far East, and Latin America; an overseas trip to one of these areas for observation is part of the course.

Credit Recommendation: *Version 1:* In the upper-division baccalaureate category, 30 semester hours—to be apportioned by the receiving institution—in the areas of history, political science, international relations, and management (8/74); in the graduate degree category, for the core curriculum, 6 semester hours in foreign policy and security affairs, 3 in political science; for one of the area courses plus one related elective, the overseas trip, and the synthesis course, 6 semester hours for students specializing in foreign policy and security affairs OR 3–6 hours for students in a more general program of comparative government or area studies based on the receiving institution's review of the student's records; for research and thesis, 0–6 semester hours; for any two of the following electives, 3 semester hours if relevant to the student's program specialization: National Security and Problems of International Law, Strategy of Arms Control, Problems of Developing Countries and U.S. Security, Current Issues in Defense Policy, U.S. Society and National Security, Current Economic Problems, Vietnam: A Beginning Reassessment, the Energy Issue: Problems and Prospects, of Futuristics (8/74). NOTE: Credit granted for theses should be contingent upon the graduate school's evaluation of the research paper. Recommendations of credit are maximum figures. The amount actually accepted for transfer depends upon the applicant's future academic goals and the regulations of the admitting institution on transfer credit. *Version 2:* In the upper-division baccalaureate category, 30 semester hours—to be apportioned by the receiving institution—in the areas of history, political science, international relations, and management (8/74); in the graduate degree category, 3 semester hours in theory and practice of international relations, 3 in U.S. national security policy, 3 in international relations/area studies (specific area to be determined by the geographical region of the student's trip), 0–6 in research and thesis, 3 upon completion of any two of the following elective courses: Current Reinterpretations of Marxist Thought, History of Strategic Thought, or International Law (8/74). NOTE: Credit recommendation is based on an on-site evaluation. Credit granted for theses should be contingent upon the graduate school's evaluation of the research paper. Recommendations of credit are maximum figures. The amount actually accepted for transfer depends upon the applicant's future academic goals and the regulations of the admitting institution on transfer credit. *Version 3:* In the upper-division baccalaureate category, 15 semester hours in political science (including international relations), 9 in recent and contemporary history, 3 in business administration (8/74). *Version 4:* In the upper-division baccalaureate category, 15 semester hours in political science (including international relations), 9 in recent and contemporary history, 3 in business organization and management, 3 in speech (12/68).

DD-1511-0003

INDUSTRIAL COLLEGE OF THE ARMED FORCES (RESIDENT PROGRAM)

Course Number: None.

Location: Industrial College of the Armed Forces, Ft. Leslie J. McNair, Washington, DC.

Length: 43 weeks.

Exhibit Dates: *Version 1:* 8/69–Present. *Version 2:* 8/66–7/69. *Version 3:* 8/65–7/66. *Version 4:* 8/64–7/65. *Version 5:* 8/63–7/64. *Version 6:* 8/54–7/63.

Objectives: To train officers in the political, military, social, economic, and industrial aspects of national security, in resource management, and in the command, staff, and policy-making functions of the national and international security structure.

Instruction: Lectures, practical exercises, seminars, readings, field studies, and student research in the political, military, social, economic, and industrial aspects of national security, in resources management, and in national and world affairs.

Credit Recommendation: *Version 1:* In the upper-division baccalaureate category, 3 semester hours in political science, 3 in international relations, 3 in social science, 3 in national economic problems and policies, 3 in principles of economic analysis, 3 in quantitative analysis, 6 in management, 3 in public administration, 0–3 in research and thesis (exact amount to be determined by institutional review) (8/74); in the graduate degree category, 2 semester hours in national security, 2 in aspects of national strength, 2 in international relations, 2 in management of industrial resources, 2 in governmental management, 2 in national economic problems and policies, 0–6 in research and thesis (8/74). NOTE: Credit granted for theses should be contingent upon the graduate school's evaluation of the research paper. Recommendations of credit are maximum figures. The amount actually accepted for transfer depends upon the applicant's future academic goals and the regulations of the admitting institution on transfer credit. *Version 2:* In the upper-division baccalaureate category, 12 semester hours in political science (including international relations), 12 in business administration, 3 in recent history, 6 in economics, 3 in geography, 3 in general physics, 3 in mathematics (8/74). *Version 3:* In the upper-division baccalaureate category, 12 semester hours in political science, 9 in business administration, 3 in recent history, 3 in economics, 3 in geography, 3 in general physics, 3 in mathematics (12/68). *Version 4:* In the upper-division baccalaureate category, 12 semester hours in political science (including international relations), 6 in business administration, 3 in recent history, 3 in economics, 3 in geography (12/68). *Version 5:* In the upper-division baccalaureate category, 12 semester hours in political science (including international relations), 6 semester hours in business administration, 3 in speech, 6 in recent history, 3 in economics (12/68). *Version 6:* In the upper-division baccalaureate category, 15 semester hours in political science (including international relations), 3 in business organization and management, 3 in speech, 9 in recent and contemporary history (12/68).

DD-1511-0004

1. POSTGRADUATE INTELLIGENCE COURSE (Defense Intelligence Course)
2. DEFENSE INTELLIGENCE COURSE

Course Number: None.

Location: Defense Intelligence School, Naval Station (Anacostia Annex), Washington, DC.

Length: *Version 1:* 33 weeks (1325 hours). *Version 2:* 38 weeks (1425–1504 hours).

Exhibit Dates: *Version 1:* 3/72–Present. *Version 2:* 1/63–2/72.

Objectives: To train officers in intelligence operations and techniques, and management concepts and techniques as they apply to intelligence resources, processes, and information systems, OR in intelligence procedures, operations, and structures as they relate to international action.

Instruction: Lectures, practical exercises, readings, and individualized study in intelligence operations and techniques and in management concepts and techniques as they apply to intelligence resources, processes and information systems at various levels.

Credit Recommendation: *Version 1:* In the upper-division baccalaureate category, 6 semester hours in modern history, 6 in political science, credit in geography on the basis of institutional examination (upon completion of phases one and two), 3 in principles of management (upon completion of phase three) (8/74); in the graduate degree category, 6 semester hours in international relations or political science, OR, if the applicant's field of study in graduate school is in the area of economics or political geography, 4 semester hours in international relations or political science (8/74). *Version 2:* In the upper-division baccalaureate category, 6 semester hours in modern history, 6 in political science, 3 in geography (12/68); in the graduate degree category, 6 semester hours in international relations or political science, OR, if the applicant's field of study in graduate school is in the area of economics or political geography, 4 semester hours in international relations or political science (8/74).

DD-1511-0005

INTER-AMERICAN DEFENSE COLLEGE

Course Number: None.

Location: Inter-American Defense College, Ft. Leslie J. McNair, Washington, D.C..

Length: 52 weeks.

Exhibit Dates: 7/65–Present.

Objectives: To function as a military institution for advanced studies, with the purpose of preparing military personnel and civilian officials of the American States through the study of the Inter-American System and the political, social, economic and military factors that constitute essential elements for the defense of the hemisphere.

Instruction: The curriculum includes a review of basic theoretical topics in the classical areas of power and general studies of the current world situation, thus providing an adequate framework for an extensive analysis of the hemisphere's situation in the light of political, social, economic and military factors. The students learn and practice, in group discussions, the methodology of international cooperation in basic aspects of continental security planning at higher levels of general and military strategy. The modes of instruction include numerous lectures by outside experts, seminars and symposia for discussion of the materials presented, study committees and the preparation of individual research papers.

Credit Recommendation: In the graduate degree category, 6 semester hours in international relations for students rated "very good" or "outstanding" (11/76).

DD-1511-0006

RESERVE COMPONENTS NATIONAL SECURITY SEMINAR

Course Number: None.

Location: National Defense University, Vandenverg AFB, CA; National Defense University, Naval Air Station, Pensacola, FL; National Defense University, Ft. Bragg, NC; National Defense University, Ft. Lesley McNair, Washington, DC.

Length: 2 weeks (60 hours).

Exhibit Dates: 1/76–Present.

Objectives: To present and analyze issues of national security and foreign policy.

Instruction: This seminar includes global intelligence assessment (U.S. policy perspective); U.S. security policy (East Asia, Western Europe, and the Soviet Union, the Middle East and the developing countries); arms trade and arms acquisitions; defense analysis including a case study; DoD Management; ocean policy; economic issues; human and industrial resources; energy problems; and simulation exercise.

Credit Recommendation: Credit is not recommended for the course (1/79)

DD-1512-0001

1. Defense Equal Opportunity Management Institute
2. Defense Race Relations Institute
3. Defense Race Relations Institute

Course Number: None.

Location: Defense Equal Opportunity Management Institute, Patrick AFB, FL; Defense Race Relations Institute, Patrick AFB, FL.

Length: *Version 1:* 16 weeks (585 hours). *Version 2:* 7-11 weeks (184-425 hours). *Version 3:* 7 weeks (205 hours).

Exhibit Dates: *Version 1:* 6/78-Present. *Version 2:* 8/74-5/78. *Version 3:* 10/72-7/74.

Objectives: To provide students with a foundation of knowledge on intergroup relations, cultural specificity, and an awareness of those processes that form social opinion. The program is also designed to provide participants with as instructors in race relations and to provide them with management, planning and applications skills needed in maintaining effective institutional human relations programs.

Instruction: *Version 1:* Lectures, seminars, simulation/interactional techniques, case study, role play and games in the theory and practice of human relations and the application and management of human relations programs. Program takes multidisciplinary approach to minority and behavioral studies and instructional methodology. Program is designed to prepare the participants as instructors and consultants in race relations, equal opportunity and women's issues, and organizational effectiveness as it as it relates to discriminatory policies procedures and practices. *Version 2:* Lectures, seminars, simulation/interactional techniques, case study and field laboratory (inner city visitation) in the theory and practice of human relations and the application and management of human relations programs. The program takes a multi-disciplinary approach to minority and behavioral studies and instructional methodology. Participants are prepared as instructors in race relations. *Version 3:* Lectures, seminars, readings, and discussions in intergroup relations, social processes, behavioral sciences, minority studies, and instructional techniques, divided into five course blocks as follows: (1) The Individual in Social Interaction, including psychological theories of the self, and defense mechanisms; social significance of attitudes and behavior; stereotypes, the psychology of rumor; and race and individual differences. (2) Racism and Ways to Combat It, including military racial disorders, the Kerner Commission report, racism in U.S. history and contemporary life; the nature of prejudice; signs and symbols in communication and their role in racial conflict; institutional racism; racial issues (law enforcement, housing, employment, and education); racial polarization and separation; new white consciousness, contemporary white American culture; and strategies for combatting racism. (3) Group Dynamics, including introduction to group processes, group formation, techniques of facilitating group performance, the individual and the group, group goals and norms; group problems (members and feelings, recognition of hidden agendas within a group, methods of approach); leadership functions in groups; recognition of goal types; conditions affecting cohesiveness and conformity; and intergroup relations, examined through discussion on problems of communication, minority participation in policy and programs, changing the practice of desegregation, and establishing the values of integration. (4) Educational Techniques, including guided discussion as a teaching method; information processing limitations; use of selective exposure, interpretation (attention), and retention in reinforcing attitudes and opinions; use of sociodrama as a teaching technique; lesson planning and educational presentations; student teaching exercises; instructional aids; and creative teaching. (5) Minority Studies, including Afro-American history, migrant group, Appalachian cultures, Indian culture and contemporary thought, and Asian-American history and contemporary situation; history of blacks in the military, contemporary black thought, and inner-city problems. Participants are prepared as instructors in race relations.

Credit Recommendation: *Version 1:* In the upper-division baccalaureate category, 3 semester hours in sociology of women, 3 in culture and society, 3 in interracial relations and interethnic relations, 3 in organizational effectiveness (9/79); in the graduate degree category, 3 semester hours in interpersonal communication, 3 in instructional methodology (9/79) *Version 2:* In the upper-division baccalaureate category, 18 semester hours in social and behavioral science, to be assigned among the following subject areas: applied psychology, group dynamics, intergroup relations, communications theory, history of minorities and ethnic groups, and instructional methodology (5/76); in the graduate degree category, 9 semester hours in social and behavioral science, to be assigned among the following subject areas: applied psychology, group dynamics, intergroup relations, communications theory, history of minorities and ethnic groups, and instructional methodology (5/76). *Version 3:* In the upper-division baccalaureate category, 4 semester hours in behavioral science laboratory, and 6 in social and behavioral science, to be assigned in any of the following disciplines: applied psychology, group dynamics, intergroup relations, or history of minorities and ethnic groups (8/74); in the graduate degree category, 4 semester hours in behavioral science laboratory (8/74). NOTE: Recommendations of credit are maximum figures. The amount of credit actually accepted for transfer depends upon the applicant's future academic goals and the regulations of the admitting institution on transfer credit.

DD-1601-0001

Basic Photogrammetric Cartographic Techniques

Course Number: 411-204.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 9 weeks (293 hours).

Exhibit Dates: 5/72-Present.

Objectives: To train enlisted personnel to compile and revise planimetric, topographic maps and photomaps, using drafting instruments and plotting devices.

Instruction: Lectures and practical exercises in the compilation and revision of planimetric, topographic maps and photomaps, including compilation base and radial triangulation, map compilation and map revision, aerial photo mosaic, color separation, maintenance of cartographic equipment and facilities, DMA topographic center tour security, construction of controlled photomosaic, transfer of revision data to compilation base, and delineation of aerial photography.

Credit Recommendation: In the vocational certificate category, 6 semester hours in map and mosaic making (5/74); in the lower-division baccalaureate/associate degree category, 5 semester hours in map and mosaic making (5/74); in the upper-division baccalaureate category, 3 semester hours in map and mosaic making (5/74).

DD-1601-0002

Geodetic Surveying

Course Number: 412-82D20; 5ABD22230; 412-101.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 10 weeks (376 hours).

Exhibit Dates: 12/73-Present.

Objectives: To train enlisted personnel in geodetic surveying.

Instruction: Lectures and practical exercises in geodetic surveying, including the establishment of ground survey control through differential leveling, gravity surveys, traverse, triangulation, and astronomic observation; mapping and charting in the support of weapons systems and other operations; military construction surveys; establishment of control; expedient-road and landing-site planning; and construction-site layout surveys for theater-of-operations construction support.

Credit Recommendation: In the vocational certificate category, 10 semester hours in plane and geodetic surveying (5/74); in the lower-division baccalaureate/associate degree category, 8 semester hours in plane and geodetic surveying (5/74); in the upper-division baccalaureate category, 6 semester hours in plane and geodetic surveying (5/74).

Related Occupation Codes: 82D.

DD-1601-0003

Advanced Geodetic Surveying

Course Number: 4M-710.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 20 weeks (707 hours).

Exhibit Dates: 12/73-Present.

Objectives: To provide geodetic surveyors with training in advanced geodetic survey techniques.

Instruction: Lectures and practical exercises in advanced geodetic survey techniques, including astronomic observations for longitude, latitude, and azimuth; computing and adjusting geodetic figures, directions, lengths, positions, and differences in elevation; precise instrumentation related to high-order surveys; orientation on analytical point positioning using photogrammetry; vertical control surveys; geodesy and gravity surveys; and map compilation and digital computers.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 15 semester hours in advanced geodetic surveying (5/74); in the upper-division baccalaureate category, 10 semester hours in advanced geodetic surveying (5/74).

DD-1601-0004

Terrain Analysis

Course Number: 491-81Q20; 491-101.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 10 weeks (314 hours).

Exhibit Dates: 10/73–Present.

Objectives: To provide soils analysts, map compilers, and image interpreters with training in geographic analysis.

Instruction: Lectures and practical exercises in terrain analysis, including principles and techniques of terrain analysis, map reading and land navigation, basic photographic interpretation and cartographic principles, techniques for describing terrain, geologic and hydrologic concepts, amphibious operations planning considerations, evaluation of terrain elements, base development and LOC planning considerations, engineer reconnaissance, engineer applications of photography, and applied terrain analysis.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 6 semester hours in terrain analysis (5/74); in the upper-division baccalaureate category, 4 semester hours in terrain analysis (5/74).

Related Occupation Codes: 81Q.

DD-1601-0005

Advanced Photogrammetric Cartographic Techniques

Course Number: 411-205.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 8 weeks (281 hours).

Exhibit Dates: 5/73–Present.

Objectives: To train noncommissioned officers to perform as photogrammetric-cartographic technicians.

Instruction: Lectures and practical exercises in earth and physical sciences as related to the photogrammetric-cartographic career area, including regional physiography, goedetic datums, horizontal and vertical control, positional evaluation, photographic metrics, projections, grids, photo tilt, photo restitution, structural heights, industrial analysis, photogrammetric equipment, aerial reconnaissance systems, and support functions of photographic and lithographic areas.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 8 semester hours in photogrammetric interpretations (5/74); in the upper-division baccalaureate category, 6 semester hours in photogrammetric interpretations (5/74).

DD-1601-0006

Geodetic Computing

Course Number: 412-82E20; 5ABD22231; 412-102.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 11 weeks (378 hours).

Exhibit Dates: 12/72–Present.

Objectives: To train enlisted personnel in geodetic computing.

Instruction: Lectures and practical exercises in geodetic computing, including comprehensive mathematics review; use of electronic calculators; map reading; computations in grid and declination grid conversions and transformations; grid traverses and electronic distance measurements; grid triangulation, leveling, traverse, and trilateration; astronomic azimuth and position; and adjustment of geometric figures, directions, linelength, and elevation difference from surveyor notes.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 12 semester hours in geodetic computations (5/74); in the upper-division baccalaureate category, 8 semester hours in geodetic computations (5/74).

Related Occupation Codes: 82E.

DD-1601-0007

Mapping, Charting, and Geodesy Officer

Course Number: 4M-7915; 4M-F2; 5OZD5724; 4M-701.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 12 weeks (372 hours).

Exhibit Dates: 1/74–Present.

Objectives: To train officers in mapping, charting, and geodesy.

Instruction: Lectures and practical exercises in mapping, charting, and geodesy processes, including theory of errors; and MC and G survey, photogrammetric, cartographic, and reproduction operations.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 9 semester hours in mapping, charting, and geodesy (5/74); in the upper-division baccalaureate category, 6 semester hours in mapping, charting, and geodesy (5/74).

DD-1601-0008

Construction Surveying

Course Number: 412-82B20; 412-110.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 11 weeks (362 hours).

Exhibit Dates: 7/72–Present.

Objectives: To train enlisted personnel in plane surveying fundamentals.

Instruction: Lectures and practical exercises in plane surveying fundamentals, including equipment maintenance, recording procedures, map reading, route selection, one-minute theodolite, engineer transit, horizontal taping, traverse layout, plane traverse computation, engineer dumpy level, differential leveling, trigonometric elevations, planetable surveying, transit-stadia, contour strip map, horizontal curves, road layout, profile and cross-section leveling, profile and grade line plotting, vertical curves, end area, volumes, boundary alignment, slope and grade stakes, site plans and construction drawings, and building utilities and airfield layout.

Credit Recommendation: In the vocational certificate category, 10 semester hours in construction surveying (5/74); in the lower-division baccalaureate/associate degree category, 8 semester hours in construction surveying (5/74); in the upper-division baccalaureate category, 6 semester hours in construction surveying (5/74).

Related Occupation Codes: 82B.

DD-1601-0009

Photogrammetric Compilation

Course Number: 411-203; 411-81C30.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 8 weeks (270 hours).

Exhibit Dates: 6/71–Present.

Objectives: To train map compilers in the principles and techniques of photogrammetric map compilation.

Instruction: Lectures and practical exercises in the principles and techniques of photogrammetric map compilation, including multiplex stereoplotting equipment, multiplex stereoplotter orientation, reduction printing, stereocompilation, high-precision stereoplotter, stereotriangulation, and special operational subjects.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 6 semester hours in photogrammetric compilation (7/74); in the upper-division baccalaureate category, 3 semester hours in photogrammetric compilation (7/74).

Related Occupation Codes: 81C.

DD-1601-0010

Topography and Printing Staff Noncommissioned Officer (NCO)

Course Number: 41-751.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 2 weeks (80 hours).

Exhibit Dates: 6/79–Present.

Objectives: To provide the skills to permit effective performance of supervisory functions in an Army topographic unit.

Instruction: Topics include production scheduling and quality control.

Credit Recommendation: Pending evaluation.

DD-1601-0011

Basic Cartography

Course Number: 411-200.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 16–17 weeks (498 hours).

Exhibit Dates: 6/79–Present.

Objectives: To provide required knowledge to perform basic cartographic and photogrammetric tasks with general supervision.

Instruction: Includes cartographic compilation, map revision and color separation techniques.

Credit Recommendation: Pending evaluation.

DD-1601-0012

Basic Topographic Officers

Course Number: 4M-703.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 8 weeks (296 hours).

Exhibit Dates: 9/77–Present.

Objectives: To teach the student to function in a unit engaged in topographic or geographic intelligence operations.

Instruction: Subjects include survey operations, exploitation of source materials, map base revision and graphic arts operations.

Credit Recommendation: Pending evaluation.

DD-1601-0013

Basic Photographic Processes

Course Number: 740-306.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 14 weeks (460 hours).

Exhibit Dates: 11/76–Present.

Objectives: To teach skills to develop basic technical to complete the photolithographic process.

Instruction: Includes teaching the student to prepare single and multicolor camera ready copy utilizing cold type equipment and metric measurement; course is devoted primarily to camera operations and stripping and platemaking operations.

Credit Recommendation: Pending evaluation.

DD-1606-0001

National Senior Intelligence

Course Number: None.

Location: Defense Intelligence School, Washington, DC.

Length: 14 weeks (560 hours).

Exhibit Dates: 6/72–Present.

Objectives: To provide officers and civilian personnel with the knowledge necessary to hold management positions in the field of national and international intelligence.

Instruction: Lectures in the processing and management of intelligence information, development and implementation of U.S. foreign policy, the national intelligence structure, and government agencies involved in foreign policy.

Credit Recommendation: In the upper-division baccalaureate category, 6 semester hours in international relations, public administration, or political science (1/74).

DD-1706-0001

Multilith 1250 Repair

Course Number: 690-621.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 2 weeks (80 hours).

Exhibit Dates: 11/73–Present.

Objectives: To train multilith operators to troubleshoot, and perform preventive maintenance on, 1250 multiliths.

Instruction: Lectures and practical exercises on the preventive maintenance and repair of the 1250 multilith, including mechanical adjustments necessary to maintain the operational capability of the 1250 multilith, normal operator adjustments, system alignments and adjustments, maintenance, case problems, and preventive maintenance.

Credit Recommendation: In the vocational certificate category, 3 semester hours in multilith 1250 repair (6/74).

DD-1706-0002

Reproduction Equipment Repair

Course Number: 690-41K20; 690-620.

Location: Defense Mapping School, Ft. Belvoir, VA

Length: 15 weeks (512 hours).

Exhibit Dates: 6/72–Present.

Objectives: To train enlisted personnel to operate and repair reproduction equipment, including copy cameras, power paper cutters, paper folder-stitchers, and offset duplicating machines.

Instruction: Lectures and practical exercises in the operation and maintenance of reproduction equipment. Course includes the 24 X 30 copy camera, introduction to photolithography, repair parts supply, operational adjustments, aligning adjustments, repair procedures, maintenance of layout and platemaking equipment, repair of electrical components, repair and maintenance of power paper cutter, repair, maintenance, and timing of the offset duplicating machine, and the maintenance and repair of the bindery equipment and the paper folder and stitcher.

Credit Recommendation: In the vocational certificate category, 5 semester hours in business machine repair (5/74); in the lower-division baccalaureate/associate degree category, 3 semester hours in business machine repair (5/74).

Related Occupation Codes: 41K.

DD-1709-0001

Intermediate Photojournalism

Course Number: 570-ASIJ8.

Location: Defense Information School, Ft. Benjamin Harrison, IN.

Length: Self-paced 7 weeks (276–280 hours).

Exhibit Dates: *Version 1:* 10/78–Present. *Version 2:* 10/77–9/78.

Objectives: To provide photojournalism training for journalists and photographers.

Instruction: Students are given instruction in basic camera techniques, basic and advanced black and white darkroom procedures, Ektachrome slide processing, photo layout and design, and multi-media slide presentations. A course option includes news, feature, and cutline writing. Part of course is self-paced.

Credit Recommendation: *Version 1:* Pending evaluation. *Version 2:* In the upper-division baccalaureate category, 3 semester semester hours in photojournalism (2/78)

DD-1713-0001

Map Compilation

Course Number: 413-81B20; 411-202.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 9 weeks (325 hours).

Exhibit Dates: 10/70–Present.

Objectives: To train enlisted personnel in the compilation and revision of planimetric maps, topographic maps, and photomaps, using drafting instruments and plotting devices.

Instruction: Lectures and practical exercises in the compilation and revision of planimetric, topographic, and photomaps, including compilation base and radial triangulation, map compilation and revision, aerial photography planning and mosaics, extraction of cartographic detail from aerial photographs, color separation, situation overlays and special studies, maintenance of cartographic equipment and facilities, and editing of color separation scribe sheets.

Credit Recommendation: In the lower-division baccalaureate/associate degree category, 7 semester hours in map compilation (5/74); in the upper-division baccalaureate category, 4 semester hours in map compilation (5/74).

DD-1713-0002

Cartographic Drafting

Course Number: 411-201.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 9 weeks (293 hours).

Exhibit Dates: 5/72–Present.

Objectives: To train enlisted personnel to perform as cartographic draftsmen.

Instruction: Lectures and practical exercises in cartographic drafting. Topics include compilation base and radial triangulation, basic compilation and map revision, aerial photomosaics, color separation, and situation overlays and special studies.

Credit Recommendation: In the vocational certificate category, 6 semester hours in cartographic drafting (5/74); in the lower-division baccalaureate/associate degree category, 4 semester hours in cartographic drafting (5/74); in the upper-division baccalaureate category, 2 semester hours in cartographic drafting (5/74).

DD-1713-0003

Construction Drafting

Course Number: 413-81B20; 413-210.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 11 weeks (362–405 hours).

Exhibit Dates: 3/71–Present.

Objectives: To train enlisted personnel to perform as construction draftsmen.

Instruction: Lectures and practical exercises in the preparation of working drawings, charts, and graphs for the construction of roads, airfields, bridges, buildings, ports, harbors, and other military construction, including construction drafting; preparation of mechanical, construction, utilities, structural, and technical drawings; engineer drawings; mechanical lettering; and charts and graphs.

Credit Recommendation: In the vocational certificate category, 10 semester hours in architectural drafting (7/74); in the lower-division baccalaureate/associate degree category, 8 semester hours in architectural drafting (7/74); in the upper-division baccalaureate category, 6 semester hours in architectural drafting (7/74).

DD-1719-0001

Lithographic Stripping and Platemaking

Course Number: 740-83D20; 740-302.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 7 weeks (227 hours).

Exhibit Dates: 4/72–Present.

Objectives: To train enlisted personnel to prepare and produce offset plates to be used in the lithographic printing process.

Instruction: Lectures and practical exercises in the preparation and production of offset plates to be used in the lithographic printing process, including layout, stripping, and platemaking procedures.

Credit Recommendation: In the vocational certificate category, 3 semester hours in graphics or printing (5/74); in the lower-division baccalaureate/associate degree category, 2 semester hours in graphics or printing (5/74).

DD-1719-0002

Offset Printing

Course Number: 740-83F20; 740-303.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 8 weeks (276 hours).

Exhibit Dates: 11/73–Present.

Objectives: To train enlisted personnel to operate offset presses in the reproduction of maps, charts, and other printed line work.

Instruction: Lectures and practical exercises in offset printing. Topics include photolithography materials, methods of producing military maps, operation of power paper cutter; maintenance of offset press, controls, feeder and delivery assemblies, cylinder assembly, dampening assembly, linking assembly, printing practice, identification of printing problems, printing a three-color and five-color map, and modern methods of lithographic offset press operations.

Credit Recommendation: In the vocational certificate category, 4 semester hours in graphic arts (5/74); in the lower-division baccalaureate/associate degree category, 2 semester hours in graphic arts (5/74).

DD-1719-0003

Lithographic Photography

Course Number: 740-83D20; A-740-0020; 740-301.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 8 weeks (276 hours).

Exhibit Dates: 11/73–Present.

Objectives: To train enlisted personnel to operate copy cameras and related equipment.

Instruction: Lectures and practical exercises in fundamentals of copy photography, camera operation, film processing, exposure, filters, line and continuous-tone copying, halftone magenta screens, contact printing, diapositive glass plates, pictomaps, electronic contact printer, and preventive maintenance.

Credit Recommendation: In the vocational certificate category, 2 semester hours in basic lithography on the basis of institutional evaluation (7/74); in the lower-division baccalaureate/associate degree category, 2 semester hours in basic lithography on the basis of institutional evaluation (7/74); in the upper-division baccalaureate category, 2 semester hours in basic lithography on the basis of institutional evaluation (7/74).

DD-1719-0004

OFFSET DUPLICATING EQUIPMENT OPERATOR

Course Number: 740-304.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 5 weeks (145 hours).

Exhibit Dates: 11/72–Present.

Objectives: To train enlisted personnel in the operation and basic maintenance of the offset duplicator, camera processor, and platemaker equipment.

Instruction: Course includes: introduction to photolithography; training in the operation of the 3M MR-412 Camera Processor and the A.B. Dick 675/...Copier with Platemaker Converter; and training in the operation and maintenance of other duplicating equipment, including the A&M 1250 Multilith Duplicator, the A.B. Dick 350 Duplicator, the ATF Davidson 500 Duplicator, and the ATF Davidson Perfector Duplicator.

Credit Recommendation: In the vocational certificate category, 5 semester hours in offset duplicating equipment operation (6/74).

DD-1721-0001

OPTICAL SURVEY INSTRUMENT REPAIR

Course Number: 670-41B20; 670-601.

Location: Defense Mapping School, Ft. Belvoir, VA.

Length: 12 weeks (382 hours).

Exhibit Dates: 2/74–Present.

Objectives: To train enlisted personnel to maintain and repair optical surveying and mapping instruments.

Instruction: Lectures and practical exercises in surveying and mapping instrument maintenance, adjustment, and repair, including abney hand level, dumpy level, telescopic alidade, transit, military level, one-minute and one-second theodolites, and survey tapes.

Credit Recommendation: In the vocational certificate category, 8 semester hours in optical survey instrument repair (5/74).

DD-1728-0001

INDUSTRIAL SECURITY SPECIALIST

Course Number: 5220-2.

Location: Defense Industrial Security Institute, Richmond, VA.

Length: *Version 1:* 5 weeks (182–183 hours). *Version 2:* 3 weeks (113 hours).

Exhibit Dates: *Version 1:* 7/76–Present. *Version 2:* 9/72–6/76.

Objectives: To provide industrial security specialists with training in defense industrial security.

Instruction: *All Versions:* Lectures and practical exercises in the history, management, application, and functions of the defense industrial security program, organization for security cognizance, laws and regulations, security hazards, applicable security resources, responsibilities of contracting officers, personnel clearance programs, inspections, security education program, security arrangements, international aspects, and espionage. *Version 1:* This version emphasizes the security threat against the U.S. government and industry; facility protection programs; classified document control; electronic and physical security measures; communications security; vulnerabilities of and protective measures for automatic data-processing systems, emergency/disaster planning and procedures. Audio-visual presentations.

Credit Recommendation: *Version 1:* In the lower-division baccalaureate/associate degree category, 5 semester hours in criminal justice or security administration and management (1/77). *Version 2:* In the vocational certificate category, 2 semester hours in criminology (5/74); in the lower-division baccalaureate/associate degree category, 2 semester hours in criminology (5/74); in the upper-division baccalaureate category, 2 semester hours in criminology (5/74).

DD-1728-0002

INFORMATION SECURITY MANAGEMENT

Course Number: 5220.7.

Location: Defense Industrial Security Institute, Richmond, VA.

Length: 2 weeks (73 hours).

Exhibit Dates: 6/74–Present.

Objectives: To provide instruction on elements of the Defense Department Information Security Program, with particular emphasis on proper security classification and the safeguarding of classified information. Note: This course consists of two 1-week components, referred to separately as (1) Classification Management and (2) Safeguarding Classified Information. Recommended credit is for combined courses only.

Instruction: The security manager; organization for security; policies, objectives and management implementation; classification principles and problems; declassification and downgrading; markings and control of classified documents; communications security; automatic data-processing security; emergency planning; and processing security violations and compromises.

Credit Recommendation: In the upper-division baccalaureate category, 2 semester hours in criminal justice or security administration and management (1/77).

Army Enlisted MOS Exhibits

MOS-00B-001

DIVER

00B10
00B20
00B30
00B40

Exhibit Dates: 10/73-2/78.

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Summary: Supervises or performs underwater reconnaissance, demolition, repair, and salvage. *Skill Level 10:* Performs as assistant to diver, operates power-driven air compressor and electric and engine-driven winches; makes simple repairs to diving gear and equipment; applies principles of water rescue and first aid. *Skill Level 20:* Able to perform the duties required for Skill Level 10; using self-contained underwater breathing apparatus, performs reconnaissance, salvage, repair, and demolition operations; collects and reports on hydrographic conditions; makes charts and maps of underwater conditions, takes underwater photographs, and prepares beach or river intelligence reports and keeps the diving log; uses demolition techniques to clear underwater obstacles; employs sophisticated first aid treatment, particularly as related to diving operations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; using surface-supplied air and diving equipment; performs underwater repair by caulking seams, patching holes, and clearing fouled equipment; directs or assists in underwater construction projects; rigs submerged objects for surfacing; employs underwater welding techniques and other special construction tools; operates decompression chamber; performs underwater inspection, estimates weight of underwater objects, and calculates method of lifting underwater material and objects. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises underwater reconnaissance, demolition, repair, and salvage in addition to scuba and standard diving activities; supervises diver's bell (or appropriate mechanical diving unit) and directs maintenance of diving equipment; interprets hydrographic charts, maps, and sketches; instructs in diving procedures and safety practices; prepares reports on diving operations.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in the use, operation, and maintenance of mechanical equipment and 2 in first aid. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in the use, operation, and maintenance of mechanical equipment and 4 in first aid. In the lower-division baccalaureate/associate degree category, 3 semester hours in mapping, 3 in technical report writing, 3 in marine and oceanographic technologies, and 4 in first aid, and additional credit for detonation/demolition, and photography, on the basis of institutional evaluation, for a minimum total of 13 semester hours (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 12 semester hours in the use, operation, and maintenance of mechanical equipment, 12 in marine underwater repair and construction, and 6 in first aid, for a total of 30 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in physics, 3 in mapping, 3 in technical report writing, 6 in marine and oceanographic technologies, 6 in first aid, and 3 in human relations, and additional credit for detonation/demolition and photography on the basis of institutional evaluation, for a minimum total of 24 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 18 semester hours in the use, operation, and maintenance of mechanical equipment, 18 in marine underwater repair and construction, and 6 in first aid, for a total of 42 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in mapping, 3 in marine geography, 6 in physics, 6 in technical report writing, 9 in marine and oceanographic technologies, 6 in first aid and safety, 3 in human relations, 3 in personnel supervision, and 6 for field experience in management, and additional credit for detonation/demolition/salvage, and photography, on the basis of institutional evaluation, for a minimum total of 45 semester hours (5/76).

MOS-00B-002

DIVER

00B10
00B20
00B30
00B40

Exhibit Dates: 3/78-Present.

Career Management Field: 51 (General Engineering), *subfield* 511 (Construction Engineering).

Description

Summary: Supervises or performs underwater reconnaissance, demolition, repair, and salvage. *Skill Level 10:* Performs as assistant to senior divers, operating power-driven air compressor and electric and engine-driven winches; makes simple repairs to diving gear and equipment; applies principles of water rescue and first aid; may perform as diver, using self-contained underwater breathing apparatus and surface-supplied air diving equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; using self-contained underwater breathing apparatus, performs reconnaissance, salvage, repair, and demolition operations; serves as senior diver; collects and reports on hydrographic conditions; makes charts and maps of underwater conditions, takes underwater photographs, and prepares beach or river intelligence reports and keeps the diving log; uses demolition techniques to clear underwater obstacles; employs sophisticated first aid treatment, particularly as related to diving operations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; using surface-supplied air and diving equipment; performs underwater repair by caulking seams, patching holes, and clearing fouled equipment; directs or assists in underwater construction projects; rigs submerged objects for surfacing; employs underwater welding techniques and other special construction tools; operates decompression chamber; performs underwater inspection, estimates weight of underwater objects, and calculates method of lifting underwater material and objects. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises underwater reconnaissance, demolition, repair, and salvage in addition to scuba and standard diving activities; supervises diver's bell (or appropriate mechanical diving unit) and directs maintenance of diving equipment; interprets hydrographic charts, maps, and sketches; instructs in diving procedures and safety practices; prepares reports on diving operations.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in the use, operation, and maintenance of mechanical equipment and 2 in first aid, for a minimum total of 5 semester hours; *if duties included diving,* 3 semester hours in scuba diving, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in first aid (9/79).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in the use, operation, and maintenance of mechanical equipment, 4 in first aid, and 6 in scuba diving, for a total of 19 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in mapping, 3 in technical report writing, 3 in marine and oceanographic technologies, 4 in first aid, and 3 in scuba diving, and additional credit for detonation/demolition, photography, and scuba diving on the basis of institutional evaluation, for a minimum total of 16 semester hours (9/79).

Recommendation, Skill Level 30

In the vocational certificate category, 12 semester hours in the use, operation, and maintenance of mechanical equipment, 12 in marine underwater repair and construction, 6 in scuba diving, and 6 in first aid, for a total of 36 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in physics, 3 in mapping, 3 in technical report writing, 6 in marine and oceanographic technologies, 6 in first aid, 3 in scuba diving, and 3 in human relations, and additional credit for detonation/demolition, photography, and scuba diving on the basis of institutional evaluation, for a minimum total of 27 semester hours (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 18 semester hours in the use, operation, and maintenance of mechanical equipment, 18 in marine underwater repair and construction, 6 in scuba diving, and 6 in first aid, for a total of 48 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in mapping, 3 in marine geography, 6 in physics, 6 in technical report writing, 9 in marine and oceanographic technologies, 6 in first aid and safety, 3 in scuba diving, 3 in human relations, 3 in personnel supervision, and 6 for field experience in management, and additional credit for detonation/demolition/salvage, photography, and scuba diving on the basis of institutional evaluation, for a minimum total of 48 semester hours (9/79).

MOS-00C-001

Dog Trainer

00C20

00C40

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 00C was discontinued and its functions were incorporated into MOS 95B, Military Police.)

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 000 (Special Assignment).

Description

Summary: Trains dogs to obedience. *Skill Level 20:* Leads dogs through prescribed series of exercises; teaches dogs to obey commands; knows physical capabilities and limitations of dogs under varying conditions of terrain and climate; determines rejection or assignment to more advanced and specialized training by observing physical and psychological traits; feeds, waters, and grooms dogs, complies with established preventive medicine techniques; applies first aid and administers medicine to dogs. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the training of dogs; analyzes training for more efficient methods and techniques; assigns personnel to positions and evaluates their performance.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in veterinary science or animal science, 3 in dog training, and 3 in animal first aid, for a total of 12 semester hours (12/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in veterinary science or animal science, 3 in dog training, 3 in animal first-aid, 3 in personnel supervision, and 3 in instructional techniques, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management, and additional credit in management, in education, and in animal science or veterinary science on the basis of institutional evaluation (12/75).

MOS-00D-001

Special Duty Assignment

00D20

00D40

Exhibit Dates: 10/73-Present.

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 000 (Special Assignment).

Description

Summary: This MOS code is used to identify duty positions for special assignments; its use is approved on an individual case basis by the Headquarters of the Department of the Army. Before this code is assigned, a position must encompass duties that are highly specialized, that cannot be classified elsewhere, that do not correspond with formal military courses, and that occur so rarely and in such small numbers that establishment of a separate MOS is not practical. *Skill Level 20:* Used to identify all journeymen and technician levels of skill. *Skill Level 40:* Used to identify all leader levels of skill.

Recommendation, Skill Levels 20 and 40

Credit on the basis of institutional evaluation of the individual student seeking competency recognition (5/76).

MOS-00E-001

Recruiter and Career Counselor

00E40

00E50

Exhibit Dates: 10/73-2/78.

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 000 (Special Assignment).

Description

Summary: Recruits or counsels civilian and military personnel concerning Army careers. NOTE: Required to have held at least one other MOS. *Skill Level 40:* Contracts, interviews, and advises civilian and military personnel; presents formal and informal talks to individuals and groups; writes, edits, and distributes recruiting material; establishes liaison with public media; evaluates the occupational, educational, and psychological background of prospective recruits and reenlistees; administers and scores screening tests; conducts occupational or career counseling. *Skill Level 50:* Able to perform the duties required for Skill Level 40; plans, organizes, and coordinates recruitment and reenlistment programs and activities; supervises up to five Skill Level 40 personnel; trains Skill Level 40 personnel; supervises the preparation of correspondence and the keeping of files and records.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of advertising, 3 in applied psychology, 3 in salesmanship, 3 in technical report writing or business correspondence, 3 in public speaking, 3 in records management, 3 in conference coordination, and 2 in preparation of audio-visual materials, for a total of 23 semester hours. In the upper-division baccalaureate category, 3 semester hours in advertising media, 3 for field experience in recruiting, 2 in human relations, and 2 in vocational counseling, for a total of 10 semester hours or, as an alternative 10 semester hours for field experience in counseling and recruiting. In the graduate degree category, 1 semester hour in human relations and 3 in vocational counseling (2/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in advertising media, 4 for field experience in recruiting, 2 in human relations, 2 in vocational counseling, 3 in publicity release writing, 3 in office management, and 3 in personnel management, for a total of 20 semester hours or, as an alternative, 14 semester hours for field experience in counseling and recruiting, 3 in office management, and 3 in personnel management, for a total of 20 semester hours. In the graduate degree category, 3 semester hours in office administration, 2 in vocational counseling, and 1 in human relations, for a total of 6 semester hours (2/75).

MOS-00E-002

Recruiter

00E20

00E30

00E40

00E50

Exhibit Dates: 3/78-Present.

Career Management Field: 79 (Recruitment and Retention)

Description

Summary: Recruits or supervises the recruitment of personnel for the Army. *Skill Level 20:* Contacts and conducts interviews of individuals who are prospective enlistees into the Army; contacts representatives of schools, corporations, civic groups and other agencies to present career and employment opportunities of the Army; presents formal and informal talks to organizations, groups or individuals; writes, edits and presents recruiting material for use by local communications media; interviews and counsels individuals on enlistment incentives, Army benefits and educational opportunities; evaluates applicants, using screening tests; prepares forms and documents as part of enlistment processing; counsels disqualified applicants; assists in market research and analysis of recruiting area. *Skill Level 30:* Able to perform the duties required for Skill Level 20 and provides technical guidance to Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; may serve as Recruiting Station Commander, Professional Development Sergeant, or Reception Station Liaison Sergeant, supervising 5-8 persons; plans and organizes recruitment programs; maintains statistics on recruiting; prepares enlistment reports and official correspondence; prepares station plans, and conducts professional development programs; supervises subordinate personnel; provides guidance for improvement, and evaluates their performance. *Skill Level 50:* Able to perform the duties required for Skill Level 40; may serve as principal noncommissioned officer of a recruiting region, Senior Professional Development Sergeant, Staff Operations Sergeant or Management Noncommissioned Officer for recruiting; may supervise up to 30 personnel; assists area commander concerning training, production and personnel status; plans and conducts recruiting seminars and conferences; develops presentations reflecting a change in requirements, sales techniques and enlistment contract options; identifies, investigates and takes corrective action in problem areas; trains, assigns duties and evaluates performance of subordinates; develops recruiter training programs.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in principles of advertising, 2 in social psychology, 3 in sales techniques, 3 in public speaking, 3 in records management, and 2 in audio-visual techniques, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in advertising media, 3 for field experience in recruiting, and 2 in vocational counseling, for a total of 8 semester hours (7/79).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20. In the upper-division baccalaureate category, 3 semester hours in advertising media, 3 for field experience in recruiting, 2 in vocational counseling, and 2 in publicity release writing, for a total of 10 semester hours (7/79).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of advertising, 3 in social psychology, 3 in sales techniques, 3 in public speaking, 3 in records management, 3 in audio-visual techniques, and 3 in personnel supervision, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in advertising media, 3 for field experience in recruiting, 2 in vocational counseling, 2 in publicity release writing, and 3 in personnel management, for a total of 13 semester hours (7/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in principles of advertising, 3 in social psychology, 3 in sales techniques, 3 in public speaking, 3 in records management, 3 in audio-visual techniques, 3 in personnel supervision, and 3 in office practice, for a total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours in advertising media, 3 for field experience in recruiting, 2 in vocational counseling, 2 in publicity release writing, 3 in personnel management, and 3 in office management, for a total of 16 semester hours (7/79).

MOS-00F-001

Drill Sergeant

00F40

00F50

Exhibit Dates: 10/73-2/75. (Effective 3/75, MOS 00F was discontinued and its functions were incorporated into Special Qualifications Identifier X, Drill Sergeant.)

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 000 (Special Assignment).

Description

Summary: Is a group organizer and leader in various public and special interest activities; conducts classes to develop basic skills in group living and to generate group cohesiveness; plans and coordinates short-term and long-range educational and recreational activities of groups; supervises subordinate personnel; prepares oral and written reports; maintains records. *Skill Level 40:* Prepares lesson plans and training schedules; assists in determining operational policies and procedures; teaches, guides, observes, and evaluates personnel in training; plans and coordinates billeting, food, and transportation arrangements for trainees. *Skill Level 50:* Able to perform the duties required for Skill Level 40; plans and coordinates all instructional and operational activities of the Drill Sergeant School; applies prescribed training management policies and procedures to insure the most economical and efficient use of manpower, facilities, equipment, time, and money.

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in personnel supervision, 3 in records administration, and 3 for field experience in education, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, 3 semester hours in institutional management, 3 in communication skills, and 3 for field experience in education, for a total of 9 semester hours (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in personnel supervision, 3 in records administration, and 6 for field experience in education, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, 3 semester hours in institutional management, 3 in communication skills, and 6 for field experience in education, for a total of 12 semester hours (2/75).

MOS-00H-001

Enlisted Aide

00H20

00H50

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 00H was discontinued and its functions were incorporated into MOS 94B, Food Service Specialist.)

Career Management Field: 94 (Food Service).

Description

Summary: Serves on the personal staff of a general officer; able to perform the duties required for 94B20 (Food Service Specialist). *Skill Level 20:* Performs duties that aid a general officer in the performance of official and military responsibilities, including social responsibilities; assists in planning, arranging, and preparing for official social functions and activities; plans seating arrangements; arranges flowers; recommends menus and orders foodstuff; sets table; cooks and prepares foods, desserts, and beverages; serves meals; receives and keeps records of telephone calls, makes appointments, provides administrative assistance, and receives guests and visitors; assists in maintaining quarters; cares for military uniforms and equipment. *Skill Level 50:* Able to perform the duties required for Skill Level 20; as the supervisor of a large household staff, supervises and coordinates the activities of the enlisted aides.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in quantity food preparation, 3 in kitchen operations, 3 in food service operations, 3 in catering, 3 in menu planning, 3 in estimating and purchasing foods, 2 in record keeping, 2 in food decorating, and 1 in first aid for a total of 26 semester hours (5/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 20. In the upper-division baccalaureate category, 3 semester hours in human relations, 3 in introduction to management, 6 for field experience in management, and 6 in industrial arts education (food service), for a total of 18 semester hours (5/76).

MOS-00J-001

Club Manager

00J50

Exhibit Dates: 10/73-2/78.

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 000 (Special Assignment).

Description

Oversees the business management of a club, including all financial operations, food and beverage services, social and recreational activities, alcoholic beverage stores, swimming pools, hotel or motel operations, golf courses, and related services and activities; implements policies concerning the use of facilities, membership, dues, credit, guests, and employee compensation; hires, trains, supervises, and discharges employees. NOTE: May have progressed to 00J50 from 71L40 (Administrative Specialist), 73C40 (Finance Specialist), 73D40 (Accounting Specialist), 94B40 (Food Service Specialist), 03B40 (Performing Arts Specialist), or 94Z50 (Food Service Supervisor).

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in business mathematics, 3 in business communications, 3 in office management, 3 in office accounting, 3 in hotel/motel management, 3 in food and beverage purchasing and inventory control, 3 in food preparation, and 3 in personnel supervision, for a total of 24 semester hours. In the upper-division baccalaureate category, credit on the basis of institutional evaluation (3/75).

MOS-00J-002

Club Manager

00J30

00J40

00J50

Exhibit Dates: 3/78-Present. Pending evaluation.

MOS-00U-001

Race Relations/Equal Opportunity Specialist

00U20

00U40

00U50

Exhibit Dates: 10/73-2/78.

Career Management Field: 00 (Exceptional Management Specialties), subfield 000 (Special Assignment).

Description

Summary: Plans, organizes, and coordinates activities of community organizations and groups concerned with social problems. NOTE: Required to have held at least one other MOS. *Skill Level 20:* Administers programs designed to study, analyze, and make recommendations for improvement of social conditions for individuals or small communities. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor and trainer of Skill Level 20 personnel; coordinates activities of several agencies or groups; writes reports; directs programs in medium-sized communities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager; coordinates the activities of program directors (Skill Level 40 personnel); conducts programs in large communities; trains subordinates; conducts conferences, leads discussions, and gives lectures on race relations/equal opportunity programs; assists in establishing policies and procedures.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in communication skills and 6 semester hours in social sciences. In the lower-division baccalaureate/associate degree category, 2 semester hours in communication skills, 2 in social psychology, 2 in human relations, and 2 in minority groups, for a total of 8 semester hours. In the upper-division baccalaureate category, 2 semester hours in social psychology, 2 in human relations, and 2 in minority groups, for a total of 6 semester hours (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in communication skills, 6 in social science, 2 in personnel supervision, and 2 for field experience in race relations/equal opportunity, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in communication skills, 2 in social psychology, 2 in human relations, 2 in minority groups, 2 in group dynamics or group organizing, and 2 for field experience in race relations/equal opportunity, for a total of 12 semester hours. In the upper-division baccalaureate category, 2 semester hours in social psychology, 2 in human relations, 2 in minority groups, 2 for field experience in race relations/equal opportunity, and 1 in social change, for a total of 9 semester hours (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, 2 semester hours in communication skills, 6 in social science, 2 in personnel supervision, 3 in program administration, 3 for field experience in race relations/equal opportunity, and 2 for field experience in education, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in communication skills, 2 in social psychology, 2 in human relations, 2 in minority groups, 2 in group dynamics or group organizing, 2 in program administration, 1 in personnel management, 3 for field experience in race relations/equal opportunity, and 2 for field experience in education, for a total of 18 semester hours. In the upper-division baccalaureate category, 2 semester hours in social psychology, 2 in human relations, 2 in minority groups, 1 in social change, 1 in personnel management, 1 in program administration, 2 for field experience in race relations/equal opportunity, and 1 for field experience in education, for a total of 12 semester hours (2/75).

MOS-00U-002

EQUAL OPPORTUNITY NCO

00U20
00U30
00U40
00U50

Exhibit Dates: 3/78–Present.

Career Management Field: 71 (Administration), *subfield* 711 (Administration).

Description

Summary: Plans, organizes, and coordinates activities of community organizations and groups concerned with social problems. NOTE: Required to have held at least one other MOS. *Skill Level 20:* Administers programs designed to study, analyze, and make recommendations for improvement of social conditions for individuals or small communities. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor and trains Skill Level 20 personnel; coordinates activities of several agencies or groups; writes reports and maintains files; directs programs in medium-sized communities. *Skill Level 40:* Able to perform the duties required for Skill Level 30; recommends and drafts equal opportunity and affirmative action plans; conducts training course in human relations and management effectiveness; makes presentations; assists in establishing policies and procedures. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a mid-level manager; supervises, evaluates, and coordinates the activities of lower skill level personnel; assigns duties.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in communication skills and 6 in social sciences. In the lower-division baccalaureate/associate degree category, 2 semester hours in communication skills, 2 in social psychology, 2 in human relations, 2 in minority groups, and 1 in filing and records management, for a total of 9 semester hours. In the upper-division baccalaureate category, 2 semester hours in social psychology, 2 in human relations, and 2 in minority groups, for a total of 6 semester hours (7/79).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in communication skills, 6 in social sciences, 2 in personnel supervision, and 2 in filing and records management, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in communication skills, 3 in social psychology, 3 in human relations, 3 in minority groups, 2 in interviewing techniques, 2 in personnel supervision, and 1 in filing and records management, for a total of 17 semester hours. In the upper-division baccalaureate category, 2 semester hours in social psychology, 3 in human relations, and 3 in minority groups, for a total of 8 semester hours (7/79).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in communication skills, 6 in social sciences, 2 in personnel supervision, 1 in filing and records management, and 2 for field experience in race relations, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in communication skills, 3 in social psychology, 3 in human relations, 3 in minority groups, 2 in interviewing techniques, 2 in technical writing, 2 in personnel supervision, 2 in educational techniques, and 1 in filing and records management, for a total of 21 semester hours. In the upper-division baccalaureate category, 2 semester hours in social psychology, 3 in human relations, 3 in minority groups, 2 in educational methods, 2 for field experience in race relations, and 1 in personnel management, for a total of 13 semester hours (7/79).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in communication skills, 6 in social sciences, 3 in personnel management, 1 in filing and records management, 2 for field experience in race relations, and 2 for field experience in education, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in communication skills, 3 in social psychology, 3 in human relations, 3 in minority groups, 3 in personnel supervision, 2 in interviewing techniques, 2 in technical writing, 2 in educational techniques, and 1 in filing and records management, for a total of 22 semester hours. In the upper-division baccalaureate category, 2 semester hours in social psychology, 3 in human relations, 3 in minority groups, 2 in educational methods, 3 for field experience in race relations, and 2 in personnel management, for a total of 15 semester hours (7/79).

MOS-00Z-001

COMMAND SERGEANT MAJOR

00Z50

Exhibit Dates: 10/73–Present.

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 000 (Special Assignment).

Description

Is a very experienced mid-level manager responsible for advising high-level administrators on matters of personnel assignment, utilization, promotion, and training, and about operations and logistics; supervises subordinate staff members and evaluates their performance; evaluates the operational effectiveness of the organization. NOTE: Required to have attained Skill Level 50 in at least one other MOS.

Recommendation

In the upper-division baccalaureate category, 18 semester hours in personnel management, 3 in staff principles, procedures, and organization, and 3 in office administration, for a total of 24 semester hours (2/75).

MOS-01B-001

ELECTRICAL-ELECTRONIC ENGINEERING ASSISTANT

01B20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 01B was discontinued and its functions were incorporated into MOS 32Z, Communications-Electronics Maintenance Chief; MOS 35E, Special Electrical Devices Repairer; MOS 35G, Biomedical Equipment Repairer; MOS 35S, Electronic Biomedical Equipment Repairer; MOS 35U, Biomedical Equipment Maintenance Chief; and MOS 74F, Programmer/Analyst.)

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 001 (Professional Requirements).

Description

Performs professional-level laboratory and field research in any functional branch of electrical or electronic engineering, including power generation and distribution, illumination, wire communication, radar, radio, microwave, and infrared radiation; receives assignments which outline scope of problem, time allotment, and related projects; develops plans for research and locates source material; designs new equipment or the modification of existing equipment; uses advanced mathematics including calculus and differential equations; uses computer terminal and other electronic test and measurement equipment; writes detailed reports, bids, and specifications; supervises engineering shop personnel. NOTE: The prerequisite for the assignment of this MOS is a bachelor's degree and a minimum of six months of related experience, or a master's degree, in electrical or electronic engineering.

Recommendation

In the graduate degree category, 6 semester hours in electrical/electronic engineering research and laboratory procedures and additional credit on the basis of institutional evaluation (6/76).

MOS-01C-001

MECHANICAL ENGINEERING ASSISTANT

01C20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 01B was discontinued and its functions were incorporated into MOS 51T, Technical Engineering Supervisor, and MOS 81B, Technical Drafting Specialist.)

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 001 (Professional Requirements).

Description

Performs professional-level laboratory and field research in mechanical and metallurgical engineering, including research in automotive and aeronautical fields; receives broad scope assignments for the design and development of mechanical equipment and systems; interprets, adapts, and applies engineering principles and practices and complex guidelines in devising research and development working plans; reviews manufacturers' drawings of commercial equipment for possible adaptation for military use; writes formal justifications for proposed designs; prepares specifications and operating and maintenance instructions; sets up test objectives and criteria for designed equipment; evaluates performance test data and field reports; prepares summary reports and staff studies on research projects. NOTE: The prerequisite for the assignment of this MOS is a bachelor's degree and a minimum of six months of related experience, or a master's degree, in mechanical, automotive, aeronautical, or metallurgical engineering.

Recommendation

In the graduate degree category, 6 semester hours in mechanical engineering research and additional credit on the basis of institutional evaluation (6/76).

MOS-01D-001

CIVIL ENGINEERING ASSISTANT

01D20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 01D was discontinued and its functions were incorporated into MOS 51T, Technical Engineering Supervisor; MOS 81B, Technical Drafting Specialist; and MOS 91S, Environmental Health Specialist.)

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 001 (Professional Requirements).

Description

Performs professional-level office and field duties in the field of civil engineering; originates, evaluates, and inspects projects in construction, highway, structural, hydraulics, and sanitary engineering; prepares and interprets blueprints and engineering diagrams and makes inspections before and during construction; reviews plans and specifications submitted on engineering projects, and prepares estimates of personnel, materials, and equipment required; performs preconstruction layout and schedules flow of materials and equipment to project; prepares detailed progress reports on projects. NOTE: The prerequisite for the assignment of this MOS is a bachelor's degree and a minimum of six months of related experience, or a master's degree, in civil engineering.

Recommendation

In the graduate degree category, 6 semester hours in engineering management and additional credit on the basis of institutional evaluation (6/76).

MOS-01E-001

MATHEMATICS-STATISTICS ASSISTANT

01E20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 01E was discontinued and its functions were incorporated into MOS 73D, Accounting Specialist, and MOS 74F, Programmer/Analyst.)

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 001 (Professional Requirements).

Description

Develops and adapts mathematical or statistical theory and methodology for all kinds of mathematical or statistical investigations; investigates and evaluates applicability, efficiency, and accuracy of theory and methods used in mathematical or statistical programs and studies; applies general mathematics such as differential and integral calculus, theory of differential equations and complex numbers; selects and refines systems of experimental and sample designs and specifications; develops theory and appropriate methodology for analysis of problems; carries out research in experimental and sample design; tests validity and efficiency of design; applies principles of statistical inference and probability. NOTE: The prerequisite for the assignment of this MOS is a bachelor's degree and a minimum of six months of related experience, or a master's degree, in mathematics; or a bachelor's degree and a minimum of one year of related experience, or a master's degree, in statistics.

Recommendation

In the graduate degree category, 6 semester hours in mathematical and statistical research and additional credit on the basis of institutional evaluation (6/76).

MOS-01F-001

PHYSICAL SCIENCES ASSISTANT

01F20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 01F was discontinued and its functions were incorporated into MOS 73D, Accounting Specialist; MOS 92C, Petroleum Laboratory Specialist; MOS 95E, Meteorological Observer; and MOS 93F, Field Artillery Meteorological Crewman.)

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 001 (Professional Requirements).

Description

Performs professional-level laboratory and research functions in the field of physics, meteorology, geology, or chemistry; performs research involving theoretical analysis, exploration, or experimentation of physical phenomena or composition, molecular structure, and properties of substances; investigates applications of theoretical concepts to specific processes, devices, techniques, or products; develops research design and investigative techniques; performs chemical analyses of samples; collects and interprets test data and draws conclusions based on evidence; prepares technical reports and makes recommendations on suitability of samples for intended use. NOTE: The prerequisite for the assignment of this MOS is a bachelor's degree and a minimum of six months of related experience, or a master's degree, in physics, meteorology, geology, or chemistry.

Recommendation

In the graduate degree category, 6 semester hours in physical sciences research and additional credit on the basis of institutional evaluation (6/76).

MOS-01G-001

CHEMICAL ENGINEERING ASSISTANT

01G20

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 01G was discontinued and its functions were incorporated into MOS 92B, Medical Laboratory Specialist, and MOS 92C, Petroleum Laboratory Specialist.)

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 001 (Professional Requirements).

Description

Performs professional-level laboratory and field research in chemical engineering; conducts research in chemical, ceramic, or petroleum engineering; operates small pilot plants or installs and operates a limited variety of equipment for study of one phase of complex development project; plots governing equations of problems to ascertain relationships between experimental data; consolidates data collected during operations and makes necessary conversions for application to large-scale equipment design; performs a variety of chemical and simulated service tests on commercial products or on products newly developed in the laboratory to determine suitability for particular applications; prepares reports describing test procedures and results and recommending actual materials and machinery to be used. NOTE: The prerequisite for the assignment of this MOS is a bachelor's degree and a minimum of six months of related experience, or a master's degree, in chemical, ceramic, or petroleum production engineering.

Recommendation

In the graduate degree category, 6 semester hours in chemical research and laboratory procedures and additional credit on the basis of institutional evaluation (6/76).

MOS-01H-001

Biological Sciences Assistant

01H20

Exhibit Dates: 10/73–Present.

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 001 (Professional Requirements).

Description

Performs professional-level laboratory and research duties in the field of biological science; conducts studies in biology, bacteriology, biochemistry, entomology, or pharmacology; performs culture work on animal diseases; keeps records of culturing and of purity, density, and viability tests of cultures prepared for use as vaccines; innoculates and performs autopsies on laboratory animals used in the preparation of cultures; identifies, prepares, and ships cultures; makes bio-assays to determine toxicity of drugs and other substances; plans and executes experiments; calculates and administers doses and observes toxic effects produced; prepares detailed reports on experiments and tests. NOTE: The prerequisite for the assignment of this MOS is a bachelor's degree and a minimum of six months of related experience, or a master's degree, in biology, bacteriology, zoology, parisitology, botany, pharmacology, or entomology.

Recommendation

In the graduate degree category, 6 semester hours of biological research and laboratory procedures and additional credit on the basis of institutional evaluation (6/76).

MOS-01H-002

Biological Sciences Assistant

Percussion Player

02M20, 02M40

Piano Player

02N20, 02N40

Guitar Player

02T20, 02T40

Exhibit Dates: 10/73–2/77.

Career Management Field: 97 (Band).

Description

Summary: Plays specified musical instrument(s) in appropriate musical organizations; performs in military marching and concert musical organizations and, as qualified, in associated choral, jazz, and other small ensembles. *Skill Level 20:* Executes instrumental studies and ensemble and solo literature of moderate difficulty within the facility-range typical of university lower-division music majors; sings simple melodic patterns at sight; possesses a basic understanding of musical structure equivalent to that of a college or university freshman music major; performs preventive maintenance on the specified musical instrument; performs duties as may be assigned in administration, supply, and music library. *Skill Level 40:* Possesses the musicianship and skills required for Skill Level 20; supervises and assigns duties to Skill Level 20 personnel; is assigned to lead instrumental sections, marching formations, and large or small performing groups; may be assigned appropriate tasks in music arranging, music library, supply, equipment management, and other administrative duties.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 2 semester hours in marching band, 2 in concert band, and 4 in music theory (basic harmony and ear training), for a minimum total of 8 semester hours; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (jazz, brass, woodwind, percussion, string, and vocal) (6/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in marching band, 3 in concert band, 2 in ensemble electives, and 4 in music theory (basic harmony and ear training), for a minimum total of 12 semester hours; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (jazz, brass, woodwind, percussion, string, and vocal). In the upper-division baccalaureate category, credit in conducting, arranging, and music administration and supervision on the basis of institutional evaluation (6/76).

Exhibit Dates: 3/77–Present.

Career Management Field: 97 (Band).

Description

Summary: Performs on specified brass or woodwind instrument(s) in appropriate musical organizations; performs in military marching and concert musical organizations and, as qualified, in associated choral, jazz, and other small ensembles. *Skill Level 10:* Plays brass or woodwind instruments; marches in military band in response to drum major's signals and oral commands; reads, interprets, and plays instrumental music; plays instrument in marching, concert, or dance/jazz band as appropriate; plays, at sight, secondary parts to ceremonial music and marches of medium difficulty; plays with minimum preparation secondary parts to all styles of standard band literature; doubles on another musical instrument as assigned; applies knowledge of minimum basic music theory; discriminates and matches pitches; performs preventive maintenance on musical instrument. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; plays instrument in small instrumental groups as appropriate; plays, at sight, principal parts to ceremonial music and marches of medium difficulty; plays, with minimum preparation, principal parts to all styles of standard band literature; performs music library duties as assigned. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises section as instrumental section leader; serves in various intermediate staff/administrative positions within the band as assigned; organizes, tunes, instructs, and rehearses section or consolidated section of related musical instruments; organizes and leads small instrumental groups; plays, at sight, intermediate music of any style; balances chords and volumes, and interprets complex rhythms; supervises preventive maintenance of musical instruments in section.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1-3 semester hours (equivalent of one semester) in applied study of major instrument, 2 in music theory, 1 in concert band, 2 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1-3 semester hours (equivalent of one semester) in applied study of major instrument, 3 in music theory, 2 in concert band, 2 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2-6 semester hours (equivalent of two semesters) in applied study of major instrument, 4 in music theory (including ear training), 3 in concert band, 3 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

MOS-02M-002

PERCUSSION PLAYER

02M10
02M20
02M30

Exhibit Dates: 3/77-Present.

Career Management Field: 97 (Band).

Description

Summary: Performs on specified percussion instrument(s) in appropriate musical organizations; performs in military marching and concert musical organizations and, as qualified, in associated choral, jazz, and other small ensembles. *Skill Level 10:* Plays percussion instruments; marches in military band in response to drum major's signals and oral commands; reads, interprets, and plays instrumental music; plays instrument in marching, concert, or dance/jazz band as appropriate; plays, at sight, indefinite pitch percussion parts of standard band literature; plays, with minimum preparation, definite and indefinite pitch percussion parts of standard band literature, performs preventive maintenance on all percussion instruments. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; plays instrument in small instrumental groups as appropriate; plays, with minimum preparation, any percussion part of medium and difficult concert band literature; performs music library duties as assigned. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises percussion section; serves in various intermediate staff/administrative positions within the band as assigned; organizes, instructs, and rehearses the percussion section; organizes and leads small instrumental groups; plays at sight, intermediate definite and indefinite pitch percussion parts of all styles of music; plays, with minimum preparation, any moderately difficult to difficult percussion music; balances chords and volumes, and interprets complex rhythms; supervises preventive maintenance of instruments in the percussion section.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1-3 semester hours (equivalent of one semester) in applied study of major instrument, 2 in music theory, 1 in concert band, 2 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1-3 semester hours (equivalent of one semester) in applied study of major instrument, 3 in music theory, 2 in concert band, 2 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2-6 semester hours (equivalent of two semesters) in applied study of major instrument, 4 in music theory (including ear training), 3 in concert band, 3 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

MOS-02N-002

PIANO PLAYER

02N10
02N20
02N30

Exhibit Dates: 3/77-Present.

Career Management Field: 97 (Band).

Description

Summary: Plays keyboard or percussion instrument(s) in appropriate musical organizations; performs in military marching and concert musical organizations and, as qualified, in associated choral, jazz, and other small ensembles. *Skill Level 10:* Plays keyboard or percussion instruments; marches in military band in response to drum major's signals and oral commands; reads, interprets, and plays instrumental music; plays piano in dance/stage bands, ensembles, and combos; plays percussion instrument in marching band; plays, with minimum preparation, easy percussion parts of standard concert band music on keyboard type mallet instruments; applies knowledge of minimum basic music theory; discriminates and matches pitches; performs preventive maintenance on musical instruments. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; plays instrument in small instrumental group as appropriate; improvises on the piano utilizing chord progressions; performs music library duties as assigned. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises consolidated piano/guitar section; serves in various intermediate staff/administrative positions within band as assigned; organizes, tunes, instructs, and rehearses section; organizes and leads small instrumental groups; plays, at sight, intermediate music of any style; balances chords and volumes, and interprets complex rhythms; supervises preventive maintenance of instruments in section.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1-3 semester hours (equivalent of one semester) in applied study of major instrument, 2 in music theory, 1 in concert band, 2 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1-3 semester hours (equivalent of one semester) in applied study of major instrument, 3 in music theory, 2 in concert band, 2 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2-6 semester hours (equivalent of two semesters) in applied study of major instrument, 4 in music theory (including ear training), 3 in concert band, 3 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

MOS-02P-001
MOS-02Q-001
MOS-02R-001

Brass Group Leader

02P40

Woodwind Group Leader

02Q40

Percussion Group Leader

02R40

Exhibit Dates: 10/73-Present.

Description

Supervises a brass, woodwind, or percussion band section and performs in military marching and concert musical organizations and, as qualified, in associated choral, jazz, and other small ensembles; able to perform the duties of a related instrumentalist MOS at Skill Level 40; is delegated primary responsibility for specific administrative duties of the musical unit, such as equipment or library management, coordination of assigned musical performances, administration of the equal opportunity program, etc; is capable of conducting and rehearsing the band in the absence of the bandmaster and the enlisted bandleader.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in marching band, 3 in concert band, 2 in ensemble electives, 4 in music theory (basic harmony and ear training), and 3 in personnel supervision, and additional credit in music theory, applied music (individual instruction in performance), small performing ensembles (jazz, brass, woodwind, percussion, string, and vocal), and human relations on the basis of institutional evaluation, for a minimum total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in conducting and 3 in music administration and supervision, and additional credit in arranging and for field experience in education on the basis of institutional evaluation, for a minimum total of 6 semester hours (6/76).

MOS-02S-001

Special Bandsman

02S20

02S50

Exhibit Dates: 10/73-2/77.

Career Management Field: 97 (Band).

Description

Summary: Performs as a musician or as a member of a special band, such as the U.S. Army Band, the U.S. Army Field Band, or the U.S. Military Academy Band at West Point. *Skill Level 20:* Plays brass, woodwind, percussion, or stringed instruments or performs as musical arranger, copyist, librarian, music electronic integration specialist, musical instrument repairman, music commentator/annotator, procurement specialist, solo instrumentalist or vocalist; executes marching movements in military formations; doubles on related instruments; plays solo passages. *Skill Level 50:* Able to perform the duties required for Skill Level 20; serves as the principal noncommissioned officer in an instrumental, choral, or music section, instrumental group, or special band; instructs, trains, rehearses, and conducts instrumental groups to achieve recognized standards; organizes separate groups simultaneously to provide required instrumentation; recognizes, explains, demonstrates, and corrects section performance techniques; rehearses and trains section members to achieve correct musical rendition and coordination; ascertains section changes to improve overall sound rendition, tone quality, playability, and balance; instructs section instrumentalist in all aspects of related music; plans, directs, and controls group and other band segment rehearsals; determines and produces proper rendition of all sections and composite coordination; plans, arranges, instructs, and conducts sound improvement, intonation, tonality, and musicality of concert band; conducts band as assistant enlisted bandleader in formations and ceremonies; plans administrative and logistical support for special band operations; designs, constructs, and assembles necessary facilities for band presentation; applies public relations techniques to special band employment.

Recommendation, Skill Levels 20 and 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in marching band, 3 in concert band, 2 in ensemble electives, and 4 in music theory (basic harmony and ear training), and additional credit in band, music theory, electronics, and small performing ensembles (jazz, brass, woodwind, percussion, string, and vocal) on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the upper-division baccalaureate category or in the graduate category, credit on the basis of institutional evaluation of the individual's experience and area of specialization in the following subject areas: applied music, advanced music theory, conducting, composition, arranging, music history, instrument repair, music administration and supervision, education, human relations, and management (6/76).

02S30

02S40

02S50

Exhibit Dates: 3/77-Present. Pending evaluation.

MOS-02T-002

Guitar Player

02T10

02T20

02T30

Exhibit Dates: 3/77-Present.

Career Management Field: 97 (Band).

Description

Summary: Plays guitar or percussion instruments in appropriate musical organization; performs in military marching and concert musical organizations and, as qualified, in associated choral, jazz, and other small ensembles. *Skill Level 10:* Plays guitar or percussion instruments; marches in military band in response to drum major's signals and oral commands; reads, interprets, and plays instrumental music; plays guitar in dance/jazz bands, ensembles, and combos; plays percussion instrument in marching band; plays miscellaneous percussion instruments in concert band; plays, at sight, moderately easy melodic lines with chord symbols; plays, with minimum preparation, standard guitar music of any style; improvises on the guitar using chord progressions; applies knowledge of minimum basic music theory; discriminates and matches pitches; performs preventive maintenance on musical instrument. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; plays instrument in small instrumental groups as appropriate; plays, at sight, moderately easy guitar music of any style; performs music library duties as assigned. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises consolidated piano/guitar section; serves in various intermediate staff/administrative positions within band as assigned; organizes, tunes, instructs, and rehearses section; organizes and leads small instrumental groups; plays, at sight, intermediate music of any style; balances chords and volumes, and interprets complex rhythms; supervises preventive maintenance of musical instruments in section.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1-3 semester hours (equivalent of one semester) in applied study of major instrument, 2 in music theory, 1 in concert band, 2 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1-3 semester hours (equivalent of one semester) in applied study of major instrument, 3 in music theory, 2 in concert band, 2 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2-6 semester hours (equivalent of two semesters) in applied study of major instrument, 4 in music theory (including ear training), 3 in concert band, 3 in marching band, and credit in small ensemble on the basis of institutional evaluation; because of the wide range of individual abilities, additional credit may be awarded on the basis of institutional evaluation in music theory, applied music (individual instruction in performance), and small performing ensembles (6/78).

MOS-02Z-001

Enlisted Bandleader

02Z50

Exhibit Dates: 10/73–Present.

Career Management Field: 97 (Band).

Description

Serves as the principal noncommissioned officer of an Army band; able to perform the duties required for 02P40 (Brass Group Leader), 02Q40 (Woodwind Group Leader), or 02R40 (Percussion Group Leader); selects, prepares, and presents concert, marching, dance, stage, and show band music and assumes any other musical or military functions of the bandmaster as delegated; assists in planning, coordinating, and supervising all activities in support of the band mission; applies public relations techniques to band employment; supervises on-the-job training; advises bandmaster on all personnel matters.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in marching band, 3 in concert band, 2 in ensemble electives, and 4 in music theory (basic harmony and ear training), and additional credit in music theory, applied music (individual instruction in performance), and small performing ensembles (jazz, brass, woodwind, percussion, string, and vocal) on the basis of institutional evaluation for a minimum total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in conducting, 3 in music administration and supervision, 3 in introduction to management, 3 in personnel management, 3 in human relations or public relations, and 6 for field experience in management, and additional credit in arranging and for field experience in education on the basis of institutional evaluation, for a minimum total of 21 semester hours (6/76).

MOS-03B-001

Performing Arts Specialist

03B20

03B40

Exhibit Dates: 10/73–8/77. (Effective 9/77, MOS 03B was discontinued.)

Career Management Field: 71 (Administration), *subfield* 715 (Recreational Services).

Description

Summary: Supervises and conducts theatrical and musical programs. *Skill Level 20:* Selects material; locates directors, writers, and technicians; auditions performers; calls rehearsals; plans costumes and staging; schedules use of facilities; conducts clinics and workshops in all areas of theatrical production. *Skill Level 40:* Able to perform the duties required for Skill Level 20; coordinates and supervises the planning of all elements and phases of several performing arts programs; directs productions.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in costume and scene design, 3 in musical theater, 3 in technical theater, 3 in stagecraft, 6 in play production, and 6 for a theater internship, for a total of 24 semester hours (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in costume and scene design, 3 in musical theater, 3 in stagecraft, 6 in play production, 6 for a theater internship, 3 in human relations and 3 in personnel supervision, for a total of 30 semester hours. In the upper-division baccalaureate category, 6 semester hours in play directing, 3 for field experience in management, and 3 in records administration, for a total of 12 semester hours (5/76).

MOS-03C-001

Physical Activities Specialist

03C20

03C40

Exhibit Dates: 10/73–8/77.

Career Management Field: 71 (Administration), *subfield* 715 (Recreational Services).

Description

Summary: Supervises, conducts, and administers sports, recreation, and first aid programs; manages sports and recreation facilities and equipment. *Skill Level 20:* Plans, organizes, and conducts sports and recreation programs; manages, or assists in the management of, indoor and outdoor sports and recreation facilities; organizes and conducts team and individual sports competitions; provides instruction in physical fitness exercises, first aid, water safety, and various sports; conducts sports clinics to explain rules, techniques, safety, and sportsmanship; issues athletic supplies and equipment; inspects and performs preventive maintenance on athletic facilities and equipment; acts as lifeguard. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the operation of sports and outdoor recreation programs, the organization of team and individual sports competitions, the management of sports facilities; controls the issuance of athletic supplies and equipment and the scheduling of facilities; supervises and accounts for fees collected for the rental or sales of supplies or equipment and the use of sports or recreation facilities; manages and evaluates the work activities of subordinate personnel; prepares correspondence, reports, and publicity materials concerning physical activity programs.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in beginning lifesaving and 2 in senior lifesaving, based on American Red Cross Certificate. In the lower-division baccalaureate/associate degree category, 3 semester hours in anatomy and physiology, 3 in public speaking, 2 in first aid (care and prevention of athletic injuries), 2 in individual and dual sports, 2 in team sports, 2 in physiology of exercise, 2 in theory of teaching and coaching sports, 2 in beginning lifesaving, and 1 in senior lifesaving, for a total of 19 semester hours (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in beginning lifesaving and 2 in senior lifesaving, based on American Red Cross Certificate. In the lower-division baccalaureate/associate degree category, 3 semester hours in anatomy and physiology, 3 in public speaking, 3 in English composition, 3 in office management, 3 in personnel management, 3 in organization and administration of physical education programs, 2 for field experience in education, 2 in control of athletic facilities, 2 in first aid (care and prevention of athletic injuries), 2 in individual and dual sports, 2 in team sports, 2 in physiology of exercise, 2 in theory of teaching and coaching sports, 2 in beginning lifesaving, and 1 in senior lifesaving, for a total of 35 semester hours (2/75).

MOS-03C-002

Physical Activities Specialist

03C10

03C20

03C30

03C40

Exhibit Dates: 9/77–Present. Pending evaluation.

MOS-03D-001

Arts and Crafts Specialist

03D20

03D40

Exhibit Dates: 10/73–8/77. (Effective 9/77, MOS 03D was discontinued.)

Career Management Field: 71 (Administration), *subfield* 715 (Recreational Services).

Description

Summary: Supervises, organizes, and conducts arts and crafts activities. *Skill Level 20:* Instructs and supervises individuals and groups of varying levels of ability in a wide variety of basic arts and crafts activities; manages and maintains crafts facilities and equipment; organizes and promotes displays, exhibits, contests, and demonstrations. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises arts and crafts programs and management of facilities; requisitions and controls the use of supplies; accounts for use of funds; instructs subordinate personnel.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in painting fundamentals, 3 in drawing fundamentals, 3 in introductory sculpture, 3 in ceramics, 9 in crafts, and 3 in human relations, and additional credit on the basis of institutional evaluation, for a minimum total of 24 semester hours (5/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in painting fundamentals, 3 in drawing fundamentals, 3 in introductory sculpture, 3 in ceramics, 9 in crafts, 6 in human relations, and 3 in personnel supervision, and additional credit on the basis of institutional evaluation, for a minimum total of 30 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in records administration, and 3 for an internship in education for a total of 9 semester hours (5/76).

MOS-03Z-001

SPECIAL SERVICES SENIOR SERGEANT

03Z50

Exhibit Dates: 10/73-8/77.(Effective 9/77, MOS 03Z was discontinued and its functions were incorporated into MOS 03C, Physical Activities Specialist, and MOS 71L, Administrative Specialist.)

Career Management Field: 71 (Administration), *subfield* 715 (Recreational Services).

Description

Supervises development and management of Special Services programs, including entertainment, sports, arts and crafts, outdoor recreation, youth activities, and library programs.

Recommendation

In the lower-division baccalaureate/associate degree category or in the upper-division baccalaureate category, 6 semester hours in recreation resource relationships, 6 in recreation resources inventory and planning, 3 in recreation facility and site planning, 3 in organization and management of recreational sports activities, 6 in special problems in recreation, 6 for a recreation internship, 6 in human relations, 6 for field experience in management, 3 in introduction to management, 3 in records administration, and 3 in personnel supervision, for a total of 51 semester hours (5/76).

MOS-04B-001

TRANSLATOR-INTERPRETER

04B20 (04B2L)

04B30 (04B3L)

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 04B was discontinued and its functions were incorporated into MOS 96C, Interrogator.)

Career Management Field: 96 (Military Intelligence).

Description

Summary: Performs translating and interpreting duties, using knowledge of English and a foreign language. *Skill Level 20:* Prepares translations of written foreign language material into English and written English into a foreign language; prepares summaries of translated foreign documents; translates foreign technical publications; translates announcements, speeches, radio scripts, publications, and other materials into a foreign language; establishes and maintains a file of translation and language reference materials; edits translations for correctness of grammatical construction, phraseology, punctuation, idiom, and clarity of expression; coordinates translating activities; instructs and advises translators. *Skill Level 30:* Able to perform the duties required for Skill Level 20; interprets oral statements into either English or a foreign language using phraseology selected to preserve the original intent, meaning, and emphasis; translates and orally expresses statements in English or in a foreign language.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in typing, 2 in record keeping, and 1 in filing, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in translating, 3 in written communication skills, 2 in English grammar, 2 in typing, 1 in record keeping, and 1 in filing, for a total of 12 semester hours. NOTE: Add credit for the specific foreign language in accordance with the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in translating (written), 3 in written communication skills, 3 in public speaking, 3 in human relations, 2 in English grammar, 2 in typing, 1 in record keeping, and 1 in filing, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours in interpreting (oral). NOTE: Add credit for the specific foreign language in accordance with the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* (5/76).

MOS-04C-001

EXPERT LINGUIST

04C20 (04C2L)

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 04C was discontinued and its functions were incorporated into MOS 96C, Interrogator.)

Career Management Field: 96 (Military Intelligence).

Description

Able to perform the duties required for 04B30 (Translator-interpreter); understands the customs and habits of the people of at least one foreign country; analyzes the content of foreign documents and publications; translates or writes in English or foreign language on a variety of technical, tactical, and strategic subjects; reviews translations for accuracy and completeness; employs free translation techniques and uses idiomatic language; interprets, into either English or foreign language, statements made by participants in legal proceedings, conferences, public relations interviews, and radio and loudspeaker broadcasts; acts as a chief translator of a team comprised of 18 or more enlisted linguists or as a special interpreter for a general officer or as a chief interpreter in an interpreter platoon of a military intelligence linguistic company.

Recommendation

In the vocational certificate category, 3 semester hours in typing, 2 in record keeping, and 1 in filing, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in translating (written), 3 in public speaking, 3 in understanding a foreign culture, 3 in written communication, 3 in human relations, 2 in English grammar, 2 in typing, 1 in record keeping, and 1 in filing, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in interpreting (oral). NOTE: Add credit for the specific foreign language in accordance with the recommendation in the formal course section of the *Guide to the Evaluation of Educational Experiences in the Armed Services* (5/76).

MOS-05B-001

RADIO OPERATOR

05B20

05B40

Exhibit Dates: 10/73-2/78.

Career Management Field: 72 (Telecommunications).

Description

Summary: Supervises or operates and maintains radio communications equipment and transmits and receives messages by voice or by Morse Code. *Skill Level 20:* Connects equipment components; erects antennas; installs power generators; test-operates equipment; applies prescribed radio procedures; transcribes International Morse Code into clear text and records on message forms; performs preventive maintenance on radio and associated power equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of a radio-operating activity comprised of at least 4 to 30 or more radio operators; selects installation sites; prepares and disseminates work schedules, operating procedures, and instructions; corrects faulty work practices and operating techniques by instruction and demonstration; checks operational logs, maintenance schedules, and station files for completeness and accuracy; requisitions supplies; prepares technical and administrative reports. NOTE: May have progressed to 05B40 from 05E40 (Voice Radio Operator).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in broadcasting, 3 in radio communications (code), 3 in small instrument maintenance, and 2 in basic Morse Code, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications, 3 in elementary broadcasting, and 2 in basic Morse Code, for a total of 8 semester hours (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications, 3 in elementary broadcasting, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 2 in basic Morse Code, for a total of 17 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (3/76).

MOS-05B-002

RADIO OPERATOR

05B10

05B20

Exhibit Dates: 3/78-Present.

Career Management Field: 31 (Communications—Electronics Operations).

Description

Summary: Operates and installs radio communications equipment and transmits and receives messages by voice. *Skill Level 10:* Connects voice radio equipment components; erects antennas; installs power generators; test-operates equipment; applies prescribed radio procedures; performs limited preventive maintenance on radio and associated power equipment. *Skill Level 20:* Able to perform the duties for Skill Level 10;

may serve as first-line supervisor of radio-operating activity comprised of two or three Skill Level 10 personnel; selects installation sites; corrects faulty work practices and operating techniques by instruction and demonstration; checks operational logs and station files for completeness and accuracy; prepares equipment inspection reports.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 6 semester hours in broadcasting. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications and 3 in elementary broadcasting (10/79).

MOS-05C-001

Radio Teletype Operator

05C20
05C40
05C50

Exhibit Dates: 10/73-2/78.

Career Management Field: 72 (Telecommunications).

Description

Summary: Supervises or sets up and operates radio teletype or tape relay equipment and transmits and receives messages by teletype or tape relay or Morse Code. *Skill Level 20:* Connects and operates radio teletype keyboard and tape relay equipment; erects antennas; installs power generators; prepares messages in proper format for delivery, establishes and maintains station logs; performs preventive maintenance on radio teletype and tape relay systems: operates radio equipment in voice mode. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of a radio teletype operating team comprised of 4 to 24 operators; selects sites and supervises installation of equipment; prepares work schedules, operating procedures, and instructions; instructs and demonstrates proper procedures to radio teletype operators; checks logs and files for accuracy; prepares administrative and technical reports. NOTE: May have progressed to 05C40 from 05F40 (Radio Teletypewriter Operator, Non-Morse). *Skill Level 50:* Able to perform the duties required for Skill Level 40; is a mid-level manager; interprets and supervises the execution of policies and procedures; advises superiors on personnel matters; directs and coordinates administrative activities; coordinates food service and supply activities; assists superiors in planning and implementing on-the-job training. NOTE: May have progressed to 05C50 from 05B40 (Radio Operator).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in teletypewriter operation, 3 in typewriting, 3 in broadcasting, 3 in small instrument maintenance, and 2 in basic Morse Code, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in typewriting, 3 in teletypewriter operation, and 3 in elementary radio communications, for a total of 9 semester hours (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in typewriting, 3 in teletypewriter operations, 3 in elementary radio communications, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 2 in technical writing for a total of 20 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (3/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in maintenance management, 3 in records administration, and 3 in office management, for a total of 18 semester hours (3/76).

MOS-05C-002

Radio Teletype Operator

05C10
05C20
05C30

Exhibit Dates: 3/78-Present.

Career Management Field: 31 (Communications—Electronics Operations).

Description

Summary: Supervises or sets up and operates radio teletype or tape relay equipment and transmits and receives messages by teletype or tape relay. *Skill Level 10:* Connects and operates radio teletype keyboard or voice equipment; erects antennas; installs power generators; prepares messages in proper format for delivery; establishes and maintains station logs; performs preventative maintenance on radio teletype and tape relay systems; operates radio equipment in voice mode. *Skill Level 20:* Able to perform the duties required for Skill Level 10; may serve as a team chief, supervising two or more Skill Level 10 personnel; selects sites and assists in installation of equipment; prepares work schedules, operating procedures, and instructions; instructs and demonstrates proper procedures; prepares equipment inspection reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises from 2 to 4 radio teletype operations teams; supervises installation of equipment; establishes training program to correct faulty work practices and operating procedures; prepares and disseminates work schedules, operating procedures and instructions; establishes and supervises maintenance program to ensure operational readiness of equipment; requisitions supplies and prepares technical and administrative reports.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 6 semester hours in teletypewriter operation and 3 in typewriting. In the lower-division baccalaureate/associate degree category, 3 semester hours in typewriting (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in typewriting, 3 in human relations, and 3 in personnel supervision, for a total of 9 semester hours (10/79).

MOS-05D-001

EW/Signal Intelligence Emitter Identifier/Locator

05D20
05D30
05D40

Exhibit Dates: 10/73-2/77.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates or supervises the operation of radio direction-finding systems and other systems using advanced identification techniques; intercepts and acquires bearings on target transmitters and performs analysis on maps or charts to establish probable location of target transmitters; intercepts, acquires, and performs analysis on signals from target transmitters. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Employs special identification techniques to recognize, identify, and locate foreign radio transmitters; forwards bearings and identification information to a control center; selects, erects, and orients tactical antennas; obtains desired visual display on specialized monitor oscilloscopes; records electrical characteristics of signals displayed, using light sensitive recorders; operates direction-finding and related cryptological, communications, and automatic data processing equipment; prepares and maintains operation logs and card files; types at a minimum rate of 25 words per minute; copies International Morse Code at a minimum rate of 15 groups per minute. *Skill Level 30:* Able to perform the duties required for Skill Level 20; maintains section management files; classifies, analyses, and evaluates observed bearings and waveform oscillograms; establishes, plots, and evaluates bearings to determine probable geographical location of foreign transmitters; performs measurements of bands on oscillograms to determine ripple frequency, modulation percentages, and duration of other effects; maintains calibration and accuracy studies, and computes statistical data, including standard deviations and systemic errors; monitors quality control of input and data for automatic data processing support; may serve as a first-line supervisor, assigning workloads and completing personnel evaluations; presents oral and written reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; inspects equipment to ensure proper alignment and orientation; provides guidance and assistance in site selection and equipment installation; prepares written and oral reports; establishes and supervises training programs; performs quality control measures and writes quality control reports; establishes and maintains facilities and support for site personnel; implements emergency action plans; may have experience as the enlisted commander of a detachment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in electronic systems operations and 2 in typing (9/79).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in

written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, and 1 in office practices, for a total of 10 semester hours (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, and 2 in office practices, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 in human relations, 3 for field experience in personnel supervision, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, and 2 in office practices, for a total of 18 semester hours (9/79).

05E20

05E40

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 05E was discontinued and its functions were incorporated into MOS 05B, Radio Operator.)

Career Management Field: 72 (Telecommunications).

Description

Summary: Supervises or operates and maintains radio communications equipment and transmits and receives messages by voice. *Skill Level 20:* Connects components; erects antennas; installs power generators; test-operates equipment; installs and operates radio wire integration facilities and devices associated with FM/SSB radio nets; performs preventive maintenance on radio and associated power equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of a radio operating facility comprised of at least 4 to 30 or more radio operators; selects installation sites; prepares and disseminates work schedules, operating procedures, and instructions; instructs and demonstrates proper procedures to radio operators; checks operational logs, station files, and maintenance schedules for completeness and accuracy; prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in broadcasting and 3 in small instrument maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in elementary broadcasting and 3 in elementary radio communications (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in elementary broadcasting, 3 in elementary radio communications, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (3/76).

MOS-05F-001

RADIO TELETYPEWRITER OPERATOR (NON-MORSE)

05F20

05F40

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 05F was discontinued and its functions were incorporated into MOS 05C, Radio Teletype Operator.)

Career Management Field: 72 (Telecommunications).

Description

Summary: Sets up and operates teletypewriter and tape relay equipment. *Skill Level 20:* Erects antennas; installs power generators; processes incoming and outgoing messages; converts perforated tape into literal copy; encodes and decodes messages with cryptographic devices; establishes and posts logs; performs preventive maintenance on equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises Skill Level 20 personnel; teaches subordinates correct operating procedures; plans work and maintenance schedules; maintains records; writes technical and administrative reports; supervises installation of equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 5 semester hours in basic typewriting, 3 in radio operation, 6 in radio service and repair, and 1 in small-engine operation and maintenance, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic typewriting, 3 in radio operation, and 3 in radio service and repair, for a total of 9 semester hours (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in basic typewriting, 3 in radio operation, 6 in radio service and repair, 1 in small-engine operation and maintenance, 3 in technical writing, and 6 for a practicum in personnel and records management, for a total of 24 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic typewriting, 3 in radio operation, 3 in radio service and repair, 3 in technical writing, 2 in personnel supervision, and 2 in records management, for a total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours in business administration (2/75).

MOS-05G-001

SIGNAL SECURITY SPECIALIST

05G20
05G40
05G50

Exhibit Dates: 10/73-2/77.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Supervises and conducts signal security operations throughout the army; monitors and analyzes communications signals; performs electronic security inspections; reviews documents for adequacy of security; prepares comprehensive written reports and makes oral presentations. *NOTE:* Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Performs transcriptions, monitoring, and basic analysis of radiotelephone and conventional telephone messages to detect communications security discrepancies and violations; reviews communications, electronic signal instructions, communications electronic operating instructions, and operations plans and orders to determine adequacy of communications security; reads and interprets maps and map overlays; prepares basic reports on signal security activities; operates and performs user maintenance on communications security and monitoring equipment; selects sites for, erects, and orients tactical antennas; selects and uses commercial battery and generator power; performs general office duties such as filing, typing (35 words per minute minimum), preparation of reports and record keeping; presents oral reports concerning communications security activities. *If duty position was Communications Security Specialist,* performs the following duties: Provides basic signal security advice and assistance to commanders and performs security analysis of security codes; establishes and supervises operating sites; writes reports, including statistical analyses and presents oral reports on data collected; makes recommendations to eliminate disclosure of intelligence information; provides advice and assistance concerning cryptographic systems and the interpretation of basic documents and regulations; determines need for written communication security instructions; prepares special, periodic, and project reports on signal security activities; may serve as team chief, supervising 2-5 persons. *If duty position was Senior Communications Security Specialist,* performs the following duties: Is a first-line supervisor of 10-12 persons, provides advice and assistance on electronic security procedures and signal security training; prepares signal security monitoring cover plan; analyzes the signal output of communications and noncommunications equipment to establish methods of operations, cryptonetting, and other types of intelligence; reviews documents for signal security; plans and supervises electronic security support; schedules signal security operational activities. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 15 or more persons; determines needed signal intelligence support; presents oral reports to commanders on operational security principles; plans signal security actions to support the operational security plan; serves as advisor to commanders on signal security matters; plans and conducts classes on signal security activities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as signal security operations chief, first sergeant of a company, or signal security chief; supervises 50-300 persons; has experience as the enlisted commander of a detachment; develops and writes signal security doctrine; advises commander and manages signal security personnel; plans career progression training; allocates personnel; advises commander and manages signal security equipment resources; plans and carries out signal security missions; advises generals and high-level government officials on signal security activities.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 2 in written communication skills, 2 in oral communication skills, 2 in electronic systems operations, and 1 in office practices, for a minimum total of 10 semester hours. *If the duty position was Communications Security Specialist,* use the following recommendation: In the vocational certificate category, 3 semester hours in typing, 3 in written communication skills, 3 in oral communication skills, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in written communication skills, 3 in oral communication skills, 3 for field experience in personnel supervision, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics for a total of 18 semester hours. *If the duty position was Senior Communications Security Specialist,* use the following recommendation: In the vocational certificate category, 4 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics, for a total of 22 semester hours. In the upper-division baccalaureate category, 2 semester hours for field experience in management (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 in typing, 3 in oral communications skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics, for a total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 for an internship in education (6/77).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in personnel management, and 3 for an internship in education, for a total of 15 semester hours (6/77).

MOS-05G-002

SIGNAL SECURITY SPECIALIST

05G10
05G20
05G30
05G40
05G50

Exhibit Dates: 3/77-Present.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Supervises and conducts signal security operations throughout the Army; monitors and analyzes communications signals; performs electronic security inspections; reviews documents for adequacy of security; prepares comprehensive written reports and makes oral presentations. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Performs transcription, monitoring, and basic analysis of radiotelephone and conventional telephone messages to detect communications security discrepancies and violations; reviews communications, electronic signal instructions, communications electronic operating instructions, and operations plans and orders to determine adequacy of communications security; reads and interprets maps and map overlays; prepares basic reports on signal security activities; operates and performs user maintenance on communications security and monitoring equipment; selects sites for, erects, and orients tactical antennas; selects and uses commercial battery and generator power; performs general office duties such as filing, typing (35 words per minute minimum), preparation of reports, and record keeping; presents oral reports concerning communications security activities. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as team chief, supervising 2-5 persons; provides basic signal security advice and assistance to commanders and performs security analysis of security codes; establishes and supervises operating sites; writes reports, including statistical analyses, and presents oral reports on data collected; makes recommendations to eliminate disclosures of intelligence information; provides advice and assistance concerning cryptographic systems and the interpretation of basic documents and regulations; determines need for written communication security instructions; prepares special, periodic, and project reports on signal security activities. *Skill Level 30:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of 10-12 persons; provides advice and assistance on electronic security procedures and signal security training; prepares signal security monitoring cover plan; analyzes the signal output of communications and noncommunications equipment to establish methods of operations, cryptonetting, and other types of intelligence; reviews documents for signal security; plans and supervises electronic security support; schedules signal security operational activities. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises 15 or more persons; determines needed signal intelligence support; presents oral reports to commanders on operational security principles; plans signal security actions to support the operational security plan; serves as advisor to commanders on signal security matters; plans and conducts classes on signal security activities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as signal security operations chief, first sergeant of a company, or signal security chief; supervises 50-300 persons; has experience as the enlisted commander of a detachment; develops and writes signal security doctrine; advises commander and manages signal security personnel; plans career progression training; allocates personnel; advises commander and manages signal security equipment resources; plans and carries out signal security missions; advises generals and high-level government officials on signal security activities.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 2 in written communication skills, 2 in oral communication skills, 2 in electronic systems operations, and 1 in office practices, for a total of 10 semester hours (6/77).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in typing, 3 in written communication skills, 3 in oral communication skills, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in typing, 3 in written communication skills, 3 in oral communication skills, 3 for field experience in personnel supervision, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics for a total of 18 semester hours (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics, for a total of 22 semester hours. In the upper-division baccalaureate category, 2 semester hours for field experience in management (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 in typing, 3 in oral communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in office practices, and 2 in introductory mathematics, for a total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 for an internship in education (6/77).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in personnel management, and 3 for an internship in education, for a total of 15 semester hours (6/77).

MOS-05H-001

EW/Signal Intelligence Morse Interceptor

05H20

05H40

Exhibit Dates: 10/73-2/77.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates International Morse Code message interception and simple printer equipment and supervises the operation of such equipment in mobile or fixed installation for the purpose of detecting, identifying, and exploiting foreign communications. *NOTE:* Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledge associated with the MOS were evaluated. *Skill Level 20:* Operates Morse Code interception equipment, including radio receivers, special typewriters, teletypewriters, antenna-selection devices, internal communications at a minimum rate of 20 groups per minute; performs first-level analysis of messages to detect anomalies and suspect items which may be of intelligence interest; maintains operator's log of messages and related data and delivers messages to analysts for interpretation; performs operator maintenance on equipment; types at a minimum speed of 25 words per minute. *If duty position was Senior Morse Interceptor,* also performs the following duties: Performs more detailed message analysis and evaluation prior to forwarding messages to other analysts; writes detailed reports regarding intercepted messages; conducts on-the-job training; presents oral reports to high-level command staff. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises Morse intercept activities; establishes and maintains extensive intercept files for messages and related data; assists in formulating unit deployment plans. *If duty position was Morse Operations Control Chief, Morse Operations Supervisor, or Morse Operations Shift Supervisor,* also performs the following duties: Allocates personnel and equipment resources; assists in designing collection strategies; may have experience as the enlisted commander of a detachment; establishes and supervises training programs; analyzes automatic data processing results and confers with computer programmers and analysts. *NOTE:* May have progressed to 05H40 from 05H30 or 05D30 (EW/Signal Intelligence Emitter Identifier/Locator).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in electronic systems operations and 2 in typing. *If the duty position was Senior Morse Interceptor,* use the following recommendation: In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, and 1 in office practices, for a total of 8 semester hours (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, and 2 in office practices, for a total of 10 semester hours. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in typing, and 2 in office practices, for a total of 16 semester hours. *If the duty position was Morse Operations Control Chief, Morse Operations Supervisor, or Morse Operations Shift Supervisor,* use the following recommendation: In the vocational certificate category, 6 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, and 2 in office practices, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in typing, and 2 in office practices, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/79).

MOS-05H-002

EW/Signal Intelligence Morse Interceptor

05H10

05H20

05H30

05H40

Exhibit Dates: 3/77-Present.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates International Morse Code message interception and simple printer equipment and supervises the operation of such equipment in mobile or fixed installations for the purpose of detecting, identifying, and exploiting foreign communications. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Operates Morse Code interception equipment, including radio receivers, special typewriters, teletypewriters, antenna selection devices, internal communications equipment, and magnetic tape recorders; searches for, identifies, and manually records foreign International Morse Code communications at a minimum rate of 20 groups per minute; performs first-level analysis of messages to detect anomalies and suspect items which may be of intelligence interest; maintains operator's log of messages and related data and delivers messages to analysts for interpretation; performs operator maintenance on equipment; types at a minimum speed of 25 words per minute. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs more detailed message analysis and evaluation prior to forwarding messages to other analysts; writes detailed reports regarding intercepted messages; conducts on-the-job training; presents oral reports to high-level command staff. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises Morse intercept activities; establishes and maintains extensive intercept files for messages and related data; assists in formulating unit deployment plans. *Skill Level 40:* Able to perform the duties required for Skill Level 30; allocates personnel and equipment resources; assists in designing collection strategies; may have experience as the enlisted commander of a detachment; analyzes automatic data processing results and confers with computer programmers and analysts. *NOTE:* May have progressed to 05H40 from 05H30 or 05D30 (EW/Signal Intelligence Emitter Identifier/Locator).

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in electronic systems operations and 2 in typing (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, and 1 in office practices, for a total of 8 semester hours (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, and 2 in office practices, for a total of 10 semester hours. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in typing, and 2 in office practices, for a total of 16 semester hours (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, and 2 in office practices, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in typing, and 2 in office practices, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (6/77).

MOS-05K-001

EW/SIGNAL INTELLIGENCE NON-MORSE INTERCEPTOR

05K20
05K40

Exhibit Dates: 10/73-2/77.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates non-Morse communications intercept and recording equipment and supervises the operation of such equipment in mobile or fixed environments for the purpose of identifying and recording foreign radioteletype, facsimile, and data communications transmissions. *NOTE:* Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledge associated with the MOS were evaluated. *Skill Level 20:* Operates radioteletype, facsimile, and data intercept and recording equipment; knows basic AC and DC theory, circuit electronics theory, basic frequency analysis, spectrum analysis, and functional algebra; searches for, identifies, and records foreign transmissions; maintains a log of interceptions; prepares technical reports; types at a minimum rate of 25 words per minute; copies International Morse Code at a minimum of 15 groups per minute; performs operator maintenance on non-Morse intercept equipment; selects, erects, and orients tactical antennas. *If duty position was Senior Teletypewriter Interceptor,* also performs the following duties: Assists in the establishment of operational sites; maintains the technical data base to support collection operations; employs special electronic equipment for complex signal analysis; analyzes intercepted communications for items of intelligence interest; understands computer usage in the interpretation of intercepted messages; prepares detailed reports. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises non-Morse intercept activities; allocates equipment and personnel resources; writes extensive reports to accurately provide intelligence information; analyzes long-term trends, using statistical analysis techniques; coordinates interaction with other collection and processing activities; conducts on-the-job training. *If duty position was Teletypewriter Operations Shift Supervisor (paygrade E-7),* also performs the following duties: Supervises non-Morse intercept activities; interprets signal intelligence collection priorities; ensures proper handling of intelligence information; assesses procedures and operations for adequacy in meeting intelligence requirements and recommends changes; may have experience as the enlisted commander of a detachment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in electronic systems operations, 2 in typing, 2 in introductory mathematics, and 2 in introduction to automatic data processing equipment, for a total of 8 semester hours. *If the duty position was Senior Teletypewriter Interceptor* use the following recommendation: In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 1 in office practices, for a total of 12 semester hours (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 4 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 20 semester hours. *If the duty position was Teletypewriter Operations Supervisor (paygrade E-7), or Teletypewriter Operations Shift Supervisor (paygrade E-7),* use the following recommendation: In the vocational certificate category, 6 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 22 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (7/79).

MOS-05K-002

EW/SIGNAL INTELLIGENCE NON-MORSE INTERCEPTOR

05K10
05K20
05K30
05K40

Exhibit Dates: 3/77-Present.

Career Management Field: 98 (Electronic Warfare/Cryptologic).

Description

Summary: Operates non-Morse communications intercept and recording equipment and supervises the operation of such equipment in mobile or fixed environments for the purpose of identifying and recording foreign radioteletype, facsimile, and data communications transmissions. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Operates radioteletype, facsimile, and data intercept and recording equipment; knows basic AC and DC theory, circuit electronics theory, basic frequency analysis, spectrum analysis, and functional algebra; searches for, identifies, and records foreign transmissions; maintains a log of interceptions; prepares technical reports; types at a minimum rate of 25 words per minute; copies International Morse Code at a minimum rate of 15 groups per minute; performs operator maintenance on non-Morse intercept equipment; selects, erects, and orients tactical antennas. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists in the establishment of operational sites; maintains the technical data base to support collection operations; employs special electronic equipment for complex signal analysis; analyzes intercepted communications for items of intelligence interest; understands computer usage in the interpretation of intercepted messages; prepares detailed reports; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises non-Morse intercept activities; allocates equipment and personnel resources; writes extensive reports to accurately provide intelligence information; analyzes long-term trends, using statistical analysis techniques; coordinates interaction with other collection and processing activities; conducts on-the-job training. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises non-Morse intercept activities; interprets signal intelligence collection priorities; ensures proper handling of intelligence information; assesses procedures and operations for adequacy in meeting intelligence requirements and recommends changes; may have experience as the enlisted commander of a detachment.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in electronic systems operations, 2 in typing, 2 in introductory mathematics, and 2 in introduction to automatic data processing equipment, for a total of 8 semester hours (6/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 1 in office practices, for a total of 12 semester hours (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 4 semester hours in written communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 20 semester hours (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in written communication skills, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in written communication skills, 3 for field experience in personnel supervision, 3 in human relations, 2 in electronic systems operations, 2 in typing, 2 in introductory mathematics, 2 in introduction to automatic data processing equipment, and 2 in office practices, for a total of 22 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (6/77).

MOS-11B-001

INFANTRYMAN (LIGHT WEAPONS INFANTRYMAN)

11B10

11B20

11B40

Exhibit Dates: 10/73–8/75.

Career Management Field: 11 (Maneuver Combat Arms), *subfield* 111 (Infantry).

Description

Summary: Is a member of a unit which consists of 10–70 persons and which utilizes individual weapons and machine guns in offensive and defensive ground combat. *Skill Level 10:* Fires rifles and machine guns; utilizes camouflage to conceal weapons and personnel; assists in the construction of minor fortifications, roadblocks, wire entanglements, and minefields; prepares rough maps, sketches, and simple overlays; reads maps and aerial photographs; performs preventive maintenance on weapons and equipment; administers first aid. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates machine guns and hand-held antiaircraft weapons; uses grenade launchers. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor, directing the utilization of personnel and equipment; supervises construction and maintenance activities; gives commands and makes oral reports; supervises the receipt, storage, and distribution of equipment, supplies, and food.

Recommendation, Skill Levels 10 and 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category: *If the duty assignment was team leader, section leader, squad leader, or team chief,* 3 semester hours for field experience in management; *if the duty assignment was duty sergeant, ammunition chief, or section chief,* 3 semester hours in public speaking and 6 for field experience in management; *if the duty assignment was instructor,* 3 semester hours in principles of instruction, 3 in public speaking, and 6 for field experience in management, for a total of 12 semester hours; *if the duty assignment was section sergeant,* 3 semester hours in office accounting, 3 in public speaking, 1 in inventory management, and 6 for field experience in management, for a total of 13 semester hours (2/75).

Career Management Field: 11 (Maneuver Combat Arms), *subfield* 111 (Infantry).

Description

Summary: Leads, supervises, and serves as a member of an infantry unit of 10–20 persons, employing individual weapons, machine guns, and anti-armor weapons in offensive and defensive ground combat. *Skill Level 10:* Uses individual infantry weapons; lays field wire; performs basic communications functions and operates communications equipment; utilizes camouflage to conceal weapons and personnel; constructs minor fortifications; performs land navigation; performs preventive maintenance on weapons, equipment, and some vehicles; makes verbal reports; administers first aid; operates wheeled vehicles to transport personnel, supplies, and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as a team leader, directing deployment and employment of personnel; supervises maintenance and construction activities; reads, interprets, and collects intelligence information; distributes administrative and training documents; trains subordinate personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; as a first-line supervisor, directs the utilization of personnel and equipment; coordinates unit actions with adjacent and supporting elements; insures proper collection and reporting of intelligence data. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in planning, organizing, directing, supervising, training, coordinating, and reporting activities of subordinate units; supervises receipt, storage, and distribution of supplies, equipment, and food to subordinate units; provides oral and written reports; assists in production and administration of staff journals, files, records, and reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principal noncommissioned officer in an infantry company; assists in planning, coordinating, and supervising all company activities; advises superiors on all matters concerning subordinate personnel. NOTE: May have progressed to 11B50 from 11B40 or 11C40 (Indirect Fire Infantryman).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying and 1 in first aid (11/75).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 for field experience in management, and 1 in first aid, for a total of 7 semester hours (11/75).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 in record keeping, 3 in human relations, 3 for field experience in management, and 1 in first aid, for a total of 13 semester hours (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in human relations, 3 in record keeping, 3 in office administration, 3 in surveying, 3 for field experience in management, and 1 in first aid for a total of 19 semester hours (11/75).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 4 semester hours in office administration, 4 in record keeping, 6 in human relations, 3 in surveying, 3 in introduction to management, 3 for field experience in management, and 1 in first aid, for a total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (11/75).

Infantryman

11B10
11B20
11B30
11B40
11B50

Exhibit Dates: 3/78–Present.

Career Management Field: 11 (Infantry).

Description

Summary: Leads, supervises, and serves as a member of an infantry unit of 10–20 persons, employing individual weapons, machine guns, and anti-armor weapons in offensive and defensive ground combat. *Skill Level 10:* Uses individual infantry weapons; lays field wire; performs basic communications functions and operates communication equipment; utilizes camouflage to conceal weapons and personnel; constructs minor fortifications; performs land navigation; performs preventive maintenance on weapons, equipment, and some vehicles; makes verbal reports; administers first aid; operates wheeled vehicles to transport personnel, supplies, and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as a team leader, directing deployment and employment of personnel; supervises maintenance and construction activities; reads, interprets, and collects intelligence information; distributes administrative and training documents; trains subordinate personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; as a first-line supervisor, directs the utilization of personnel and equipment; coordinates unit actions with adjacent and supporting elements; insures proper collection and reporting of intelligence data. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and trains personnel in infantry operations and intelligence activities; assists in planning, organizing, directing, supervising, training, coordinating, and reporting activities of subordinate units; supervises receipt, storage, and distribution of supplies, equipment, and food to subordinate units; provides oral and written reports; assists in production and administration of staff journals, files, records, and reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principal noncommissioned officer in an infantry company; assists in planning, coordinating, and supervising all company activities; advises superiors on all matters concerning subordinate personnel. NOTE: May have progressed to 11B50 from 11B40, 11C40 (Indirect Fire Infantryman), or 11H40 (Heavy Antiarmor Weapons Crewman).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying and 1 in first aid (6/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 for field experience in management, and 1 in first aid, for a total of 7 semester hours (6/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 in record keeping, 3 in human relations, 3 for field experience in management, and 1 in first aid, for a total of 13 semester hours (6/79).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in human relations, 3 in office administration, 3 in record keeping, 3 in surveying, 3 in principles of instruction, 3 for field experience in management, and 1 in first aid for a total of 22 semester hours (6/79).

Recommendation, Skill Level 50

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 4 semester hours in office administration, 4 in record keeping, 6 in human relations, 3 in surveying, 3 in introduction to management, 3 for field experience in management, 3 in principles of instruction, and 1 in first aid, for a total of 27 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (6/79).

MOS-11C-001

Indirect Fire Infantryman

11C10
11C20
11C30
11C40

Exhibit Dates: 9/75–2/78.

Career Management Field: 11 (Maneuver Combat Arms), *subfield* 111 (Infantry).

Description

Summary: Leads or serves as a member of a mortar squad, section, or platoon employing crew-served and individual weapons in offensive and defensive operations. *Skill Level 10:* Employs individual weapons; assists in construction of minor fortifications; performs minor maintenance on weapons, equipment, and wheeled and tracked vehicles; performs land navigation; measures horizontal and vertical angles; estimates ranges; computes firing data; administers first aid; collects and verbally reports tactical information using basic communications equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; leads mortar squad; supervises crew readiness; trains crew; supervises work details. *Skill Level 30:* Able to perform the duties required for Skill Level 20; leads mortar sections; supervises employment and deployment of personnel and equipment; conducts surveys to determine weapon location. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises mortar platoon; assists in planning, organizing, training, reporting, and coordinating activities of subordinate sections; supervises receipts, storage, and distribution of ammunition, supplies, equipment, and food.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying and 1 in first aid (11/75).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 for field experience in management, and 1 in first aid, for a total of 7 semester hours (11/75).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 in human relations, 3 in record keeping, 3 for field experience in management, and 1 in first aid, for a total of 13 semester hours (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 in record keeping, 3 semester hours in human relations, 6 in office administration, 3 in record keeping, 3 in surveying, 3 for field experience in management, and 1 in first aid, for a total of 19 semester hours (11/75).

MOS-11C-002

Indirect Fire Infantryman

11C10
11C20
11C30
11C40

Exhibit Dates: 3/78–Present.

Career Management Field: 11 (Infantry).

Description

Summary: Leads or serves as a member of a mortar squad, section, or platoon employing crew-served and individual weapons in offensive and defensive operations. *Skill Level 10:* Employs individual weapons; assists in construction of minor fortifications; performs minor maintenance on weapons, equipment, and wheeled and tracked vehicles; performs land navigation; measures horizontal and vertical angles; estimates ranges; computes firing data; administers first aid; collects and verbally reports tactical information using basic communications equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; leads mortar squad; supervises crew readiness; trains crew; supervises work details. *Skill Level 30:* Able to perform the duties required for Skill Level 20; leads mortar section; supervises employment and deployment of personnel and equipment; conducts surveys to determine weapon location. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises mortar platoon; assists in planning, organizing, training, reporting, and coordinating activities of subordinate sections; supervises receipts, storage, and distribution of ammunition, supplies, equipment, and food.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying and 1 in first aid (6/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 for field experience in management, and 1 in first aid, for a total of 7 semester hours (6/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 in human relations, 3 in recordkeeping, 3 for field experience in management, and 1 in first aid, for a total of 13 semester hours (6/79).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 6 semester hours in human relations, 3 in office administration, 3 in recordkeeping, 3 in surveying, 3 for field experience in management, and 1 in first aid, for a total of 19 semester hours (6/79).

MOS-11D-001

ARMOR RECONNAISSANCE SPECIALIST

11D10
11D20
11D40
11D50

Exhibit Dates: 10/73-8/75.

Career Management Field: 11 (Maneuver Combat Arms), *Subfield* 112 (Armor).

Description

Summary: Leads or serves as a member of a scout squad or section intelligence staff section, scout or reconnaissance platoon, air cavalry team, or armored cavalry team. *Skill Level 10:* Under supervision, surveys large geographical areas for the purpose of analyzing concentrations of people, materiel, industries, and roads; provides information about transportation networks, communications capability, and mobility of area inhabitants; performs basic vehicle maintenance; drives various vehicles; knows basic voice radio communication procedures; does some technical report writing. *Skill Level 20:* Able to perform the duties required for Skill Level 10; prepares situation maps and overlays; analyzes topographic maps; maintains records and files; operates more complex communications equipment; processes prisoners of war, captured documents, and materiel. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor; supervises deployment of small armored units in reconnaissance and security operations; supervises maintenance of unit vehicles, weapons, and equipment; supervises unit communication operations; supervises the technical and tactical training of small armored units; writes reports and gives oral reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises armor intelligence operations at battalion, regiment, brigade, or comparable headquarters; interprets, analyzes, evaluates, and disseminates data about enemy personnel and materiel; supervises operations staff; serves as the principal enlisted assistant to the company commander; manages the activities of 200-250 persons. NOTE: May have progressed to 11D50 from 11D40 or 11E40 (Armor Crewman).

Recommendation, Skill Levels 10 and 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (1/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in technical writing, 3 in public speaking, 3 for field experience in management, and 1 in management techniques, for a total of 10 semester hours (1/75).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 9 semester hours for field experience in management, 3 in public speaking, 3 in technical writing, 3 in office procedures, 3 in personnel management, 3 in management techniques, and 2 in introductory typing, for a total of 26 semester hours (1/75).

MOS-11D-002

ARMOR RECONNAISSANCE SPECIALIST

11D10
11D20
11D30
11D40

Exhibit Dates: 9/75-2/78. (Effective 3/78, MOS 11D was discontinued and its functions were incorporated into MOS's 19D (Cavalry Scout), 19G (Armor Reconnaissance Vehicle Crewman), and 19H (Armor Reconnaissance Vehicle Driver).)

Career Management Field: 11 (Maneuver Combat Arms), *subfield* 112 (Armor).

Description

Summary: Leads or serves as a member of a scout squad or section, reconnaissance platoon, air cavalry team, or armored cavalry team, in support of security, reconnaissance, and combat armor operations. *Skill Level 10:* Surveys large geographical areas to determine population concentration, industries, terrain features, bridges, and transportation networks; performs operator maintenance on vehicles and preventive maintenance on weapons and communications equipment; administers first aid; drives tracked and wheeled vehicles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; processes intelligence and operations data; prepares maps and overlays; analyzes topographical maps; performs liaison duties; maintains records; processes prisoners of war and captured documents and material. *Skill Level 30:* Able to perform the duties required for Skill Level 20; is a first-line supervisor, overseeing tactical development, training, and maintenance activities; assists in the collection, evaluation, and interpretation of intelligence data; assists in administrative matters. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises armored cavalry or reconnaissance platoon; assists in planning, organizing, direction, training, coordinating, and reporting activities of subordinate sections; supervises receipt, storage, and distribution of ammunition, supplies, equipment, and food.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying and 1 in first aid (11/75).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 for field experience in management, and 1 in first aid, for a total of 7 semester hours (11/75).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 for field experience in management, 3 in human relations, 3 in record keeping, and 1 in first aid, for a total of 13 semester hours (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in office administration, 3 in record keeping, 6 in human relations, 3 in surveying, 3 for field experience in management, and 1 in first aid, for a total of 19 semester hours (11/75).

MOS-11E-001

ARMOR CREWMAN

11E10
11E20
11E30
11E40
11E50

Exhibit Dates: 9/75-8/76.

Career Management Field: 11 (Maneuver Combat Arms), *subfield* 112 (Armor).

Description

Summary: Leads, supervises, or serves as a member of an armored activity, employing individual weapons, tanks, and/or armored combat vehicles in offensive and defensive operations. *Skill Level 10:* Uses individual weapons; performs operator maintenance on tanks, armored combat vehicles, and communications equipment; administers first aid; assists in minor fortification construction; operates wheeled and tracked vehicles; makes verbal reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as team leader; performs land navigation; determines ranges and prepares range cards; reads and interprets maps and aerial photos; reproduces, distributes, and files operations, intelligence, and administrative documents; trains subordinate personnel; leads ammunition supply section and supervises resupply operations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; is a first-line supervisor, leading a tank crew or section or a security section; directs the deployment of subordinate personnel; evaluates terrain and selects targets; trains personnel; collects and reports intelligence data; supervises construction of fortifications, and equipment and vehicle maintenance; and controls execution of tactical missions. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises armor platoon; processes operations and intelligence information; supervises receipt, storage, and distribution of ammunition, supplies, equipment, and food; assists in planning, organizing, training, and coordinating of subordinate sections. *Skill Level 50:* Able to perform the duties required for Skill Level 40; is the principal noncommissioned officer in an armor company; supervises intelligence operations; advises company commander on all matters concerning enlisted personnel and the company mission; directs and coordinates company administration. NOTE: May have progressed to 11E50 from 11E40 or 11D40 (Armor Reconnaissance Specialist).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance.

In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid (11/75).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in surveying, 3 for field experience in management, and 1 in first aid, for a total of 7 semester hours (11/75).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in record keeping, 3 in surveying, 3 for field experience in management, and 1 in first aid, for a total of 13 semester hours (11/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in office administration, 3 in record keeping, 6 in human relations, 3 in surveying, 3 for field experience in management, and 1 in first aid, for a total of 19 semester hours (11/75).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in office administration, 3 in record keeping, 6 in human relations, 6 for field experience in management, 3 in surveying, and 1 in first aid, for a total of 22 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management and 3 for field experience in management (11/75).

MOS-11E-002

ARMOR CREWMAN

11E10
11E20
11E30
11E40
11E50

Exhibit Dates: 9/76–2/78. (Effective 3/78, MOS 11E was discontinued and its functions were incorporated into MOS 19E, M48-M60A1/A3 Armor Crewman; 19F, Tank Driver; 19G, Armor Reconnaissance Vehicle Crewman; 19H, Armor Reconnaissance Vehicle Driver; 19J, M60A2 Armor Crewman; and 12Z (Armor Senior Sergeant).)

Career Management Field: 11 (Maneuver Combat Arms), *subfield* 112 (Armor).

Description

Summary: Leads, supervises or serves as a member of an armor activity employing individual weapons, tanks, light armored tracked vehicles, and armored combat vehicles. *Skill Level 10:* Uses individual weapons; performs operator maintenance on tanks, armored combat vehicles, and communications equipment; administers first aid; assists in construction of minor fortifications; operates wheeled and tracked vehicles; reads maps, marine charts, and photographs for reconnaissance and terrain analysis; operates special-purpose launching, lifting, and power winches. *Skill Level 20:* Able to perform the duties required for Skill Level 10; determines ranges and prepares range cards; operates firing controls and fire control systems; performs operator maintenance on fire control equipment; reproduces, distributes, and files operations, intelligence, and administrative documents; supervises ammunition resupply operations; interprets maps, aerial photographs, and operating diagrams; reads information on maps; identifies and selects targets; supervises demolition activities; lays and removes obstacles and barriers, including mines; supervises recovery of disabled vehicles and crew engaged in engineering and security duties; supervises and trains replacements. *Skill Level 30:* Able to perform the duties required for Skill Level 20; leads a tank crew or section or a security section; operates ranging equipment; coordinates actions of unit with adjacent or supporting units; supervises construction of hasty fortifications; insures that proper procedures are followed; insures collection and proper reporting of intelligence data; judges tide flow and estimates high water marks and types of offshore bottoms. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises replacement team or armor platoon; processes operations and intelligence information; supervises receipt, storage, and distribution of ammunition, supplies, equipment, and food; supervises and trains personnel in operations and intelligence activities; assists in training, administration, and communications; assists in production and administration of journals, files, records, and reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises subordinate personnel holding MOS 11E or MOS 11D (Armor Reconnaissance Specialist); is principal noncommissioned officer in armor company or troop; supervises intelligence operations; plans, coordinates, and supervises activities pertaining to organization, training, combat operations, and combat intelligence activities. NOTE: May have progressed to 11E50 from 11E40 or 11D40 (Armor Reconnaissance Specialist).

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical maintenance and 1 in first aid (11/77).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance, 3 in map reading, and 1 in first aid, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical maintenance, 3 in map reading, 3 for field experience in personnel supervision, and 1 in first aid, for a total of 10 semester hours (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical maintenance, 3 in map reading, 3 for field experience in personnel supervision, 3 in personnel supervision, 3 in human relations, and 1 in first aid, for a total of 16 semester hours (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical maintenance, 3 in map reading, 3 for field experience in personnel supervision, 3 in personnel supervision, 3 in human relations, 3 in record keeping, and 1 in first aid, for a total of 19 semester hours (11/77).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in mechanical maintenance, 3 in map reading, 3 for field experience in personnel supervision, 3 in personnel supervision, 3 in human relations, 3 in record keeping, 3 in office administration, and 1 in first aid, for a total of 22 semester hours. In the upper-division baccalaureate category, 3 semester hours in management problems and 3 for field experience in management (11/77).

MOS-11H-001

HEAVY ANTIARMOR WEAPONS CREWMAN

11H10
11H20
11H30
11H40

Exhibit Dates: 3/78–Present.

Career Management Field: 11 (Infantry).

Description

Summary: Leads or serves as a member of heavy antiarmor crew-served vehicles squad, section, or platoon. *Skill Level 10:* Serves as a loader of a special ammunition weapon; fires weapon or drives the vehicle; prepares ammunition; exercises safety precautions and knows first-aid procedures; lays field wire, performs basic communications functions and operates communications equipment; performs preventive maintenance on vehicle, armament, and weapon fire control system; assists in clearing or breaching minefields or fortifications. *Skill Level 20:* Able to perform the duties required for Skill Level 10; serves as a vehicle crew commander, directing employment of personnel in field operations; evaluates terrain; selects emplacement locations and assigns target locations; supervises construction of fortifications; interprets maps and prepares field sketches; supervises crew training and various work details. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and leads an antiarmor section consisting of several vehicles; coordinates and supervises the employment of the section; supervises the receipt, storage, and distribution of food, supplies, and communication; coordinates firepower and advises on tactical situations; supervises maintenance program of all section vehicles and equipment; trains and instructs replacement personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; assists in planning, organizing, and coordinating activities of subordinate sections and squads; assists in coordinating administrative matters, implementing training programs and communications activities; advises commander on employment of weapons systems.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid (11/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance and 3 in map reading. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid and 3 in map reading (11/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in mechanical maintenance and 3 in map reading. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid, 3 in map reading, and 3 in personnel supervision, for a total of 7 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/79).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in mechanical maintenance and 3 in map reading. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid, 3 in map reading, 3 in personnel supervision, and 3 in introduction to management, for a total of 10 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in personnel management (11/79).

MOS-11Z-001

MANEUVER COMBAT ARMS SERGEANT

11Z50

Exhibit Dates: 9/75-2/78. (Effective 3/78, MOS 11Z was discontinued and its functions were incorporated into 11B50 (Infantryman) and 19Z50 (Armor Senior Sergeant).

Career Management Field: 11 (Maneuver Combat Arms), *subfield* 110 (General).

Description

Serves as the principal noncommissioned officer in operations and intelligence sections or as the first sergeant at a combined arms headquarters at brigade or higher level; supervises senior noncommissioned officers performing the duties of 11B50 (Infantryman) or 11E50 (Armor Crewman); as an experienced mid-level manager, plans, coordinates, and supervises all activities pertaining to daily operations, training, and administrative activities of subordinate personnel. NOTE: May have progressed to 11Z50 from 11B50 or 11E50.

Recommendation

In the upper-division baccalaureate category, 15 semester hours in business administration and personnel management, 6 in human relations, and 3 for field experience in management, for a total of 24 semester hours (11/75).

MOS-12B-001

COMBAT ENGINEER

12B20
12B30
12B40

Exhibit Dates: 10/73-9/74.

Career Management Field: 12 (Combat Engineering).

Description

Summary: Engages in construction and demolition activities. *Skill Level 20:* Uses hand tools and engineering tools; operates a dump truck; assists with excavation, earthmoving, rigging, and concrete work. *Skill Level 30:* Able to perform the duties required for Skill Level 20; uses basic algebraic skills and physical principles; interprets maps; reads and interprets blueprints; writes technical reports; applies oral communication skills; has a broad knowledge of construction practices. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises teams of construction personnel. NOTE: May have progressed to 12B40 from 12B20, 12B30, or 12F40 (Combat Engineer Tracked Vehicle Crewman).

Recommendation, Skill Level 20

In the vocational certificate category, 12 semester hours in construction equipment operation (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 12 semester hours in construction equipment operation, 6 in construction methods, 3 in algebra, 1 in applied physics, 1 in blueprint reading, and 2 in communication skills, for a total of 25 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 1 in applied physics, 2 in geography (map interpretation), 6 in construction methods, 1 in blueprint reading, and 2 in communication skills, for a total of 15 semester hours (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in construction equipment operation, 3 in algebra, 1 in applied physics, 2 in geography (map interpretation), 6 in construction methods, 1 in blueprint reading, 2 in communication skills, and 3 in construction supervision, for a total of 33 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 1 in applied physics, 2 in geography (map interpretation), 6 in construction methods, 1 in blueprint reading, 2 in communication skills, and 3 in construction supervision, for a total of 18 semester hours (2/75).

MOS-12B-002

COMBAT ENGINEER

12B10
12B20
12B30
12B40

Exhibit Dates: 10/74-8/76.

Career Management Field: 12 (Combat Engineering).

Description

Summary: Engages in construction and demolition activities. *Skill Level 10:* Assists combat engineers, bridge and powered bridge specialists, atomic demolition munitions specialists, and combat engineer tracked vehicle crewmen in performance of duties; uses hand tools and engineering tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates a dump truck; assists with excavation, earthmoving, rigging, and concrete work. *Skill Level 30:* Able to perform the duties required for Skill Level 20; acts as demolition expert. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises teams of construction and demolition personnel. NOTE: May have progressed to 12B40 from 12B20, 12B30, or 12F40 (Combat Engineer Tracked Vehicle Crewman).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in hand tool operation (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in construction equipment operation and 3 in hand tool operation (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in demolition operations, 6 in construction equipment operation, and 3 in hand tool operation, for a total of 18 semester hours (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in construction equipment operation, 9 in demolition operations, 2 in geography (map interpretation), 6 in construction methods, 1 in blueprint reading, 2 in communication skills, and 3 in construction supervision, for a total of 38 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, and additional credit in administration and in construction on the basis of institutional evaluation (12/75).

MOS-12B-003

COMBAT ENGINEER

12B10
12B20
12B30
12B40

Exhibit Dates: 9/76-Present.

Career Management Field: 12 (Combat Engineering).

Description

Summary: Engages in vertical, road, and airfield construction, and rigging, bridging, and demolition activities. *Skill Level 10:* Assists combat engineers and bridge and powered-bridge specialists, in performance of duties; uses hand tools and engineering tools. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists with excavation, earthmoving, rigging, and concrete work. *Skill Level 30:* Able to perform the duties required for Skill Level 20; acts as demolition expert. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises teams of construction and demolition personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in hand-tool operation (11/77).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in construction equipment operation and 3 in hand-tool operation (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in demolition operations, 6 in construction equipment operation, and 3 in hand-tool operation, for a total of 18 semester hours (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in construction equipment operation, 9 in demolition operations, 3 in hand-tool operation, 2 in geography (map interpretation, 3 in construction methods, 1 in blueprint reading, 2 in communication skills, and 3 in construction supervision, for a total of 38 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, and additional credit in administration and in construction on the basis of institutional evaluation (11/77).

MOS-12C-001

BRIDGE SPECIALIST

12C20
12C30
12C40

Exhibit Dates: 10/73–8/76.

Career Management Field: 12 (Combat Engineering).

Description

Summary: Provides engineer bridging for streams and dry gaps. *Skill Level 20:* Assembles, erects, and disassembles floating and fixed prefabricated bridges; uses rigging techniques; operates rafts and ferries; uses and maintains hand tools. *Skill Level 30:* Able to perform the duties required for Skill Level 20; operates power boats; interprets maps; uses and maintains construction hand tools. *Skill Level 40:* Able to perform the duties required for Skill Levels 20 or 30; supervises bridge construction and repair; interprets maps; determines bridge construction sites; provides work and material estimates; supervises the use of heavy construction equipment; prepares technical reports; supervises a minimum of 10 persons.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in bridge construction and 3 in use and maintenance of hand tools (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 12 semester hours in bridge construction, 4 in use and maintenance of construction hand tools, and 4 in power boat operation, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in construction methods and 1 in blueprint reading (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 12 semester hours in bridge construction, 4 in use and maintenance of construction hand tools, 4 in power boat operation, 4 in construction methods, 3 in bridge maintenance, and 3 in construction supervision, for a total of 30 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in construction methods, 3 in construction supervision, 1 in blueprint reading, 2 in geography (map interpretation), 2 in technical writing, 2 in communication skills, and 1 in applied physics, for a total of 17 semester hours (2/75).

MOS-12C-002

BRIDGE CREWMAN

12C10
12C20
12C30
12C40

Exhibit Dates: 9/76–Present.

Career Management Field: 12 (Combat Engineering).

Description

Summary: Provides engineer bridging for streams and dry gaps. *Skill Level 10:* Assists in the assembly, erection, and disassembly of floating and fixed prefabricated bridges; uses and maintains hand tools; assists in rigging; prepares for operation and operates assault boats. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises rigging; performs as demolition expert. *Skill Level 30:* Able to perform the duties required for Skill Level 20; operates power boats; interprets maps; uses and maintains construction hand tools. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises bridge construction and repair; determines bridge construction sites; provides work and material estimates; supervises the use of heavy construction equipment; prepares technical reports; supervises a minimum of 10 persons.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in construction hand-tool operation and maintenance (11/77).

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in bridge construction and 3 in construction hand-tool operation and maintenance (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, 12 semester hours in bridge construction, 4 in construction hand-tool operation and maintenance, and 4 in power boat operation, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in construction methods and 1 in blueprint reading (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, 12 semester hours in bridge construction, 4 in construction hand-tool operation and maintenance, 4 in power boat operation, 4 in construction methods, 3 in bridge maintenance, and 3 in construction supervision, for a total of 30 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in construction methods, 3 in construction supervision, 1 in blueprint reading, 2 in geography (map interpretation), 2 in technical writing, 2 in communication skills, and 1 in applied physics, for a total of 17 semester hours (11/77).

MOS-12D-001

POWERED BRIDGE SPECIALIST

12D20
12D40

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 12D was discontinued and its functions were incorporated into MOS 12C, Bridge Crewman.)

Career Management Field: 12 (Combat Engineering).

Description

Summary: Performs or supervises powered bridging and rafting support duties for stream and other wet gap crossing operations; duties are similar to those performed in operating and maintaining ferry boats, tug boats, buses, and heavy duty trucks. *Skill Level 20:* Operates boats, trucks, and heavy duty equipment; connects with other vehicles to form rafts and bridges; holds position with or without anchor; utilizes compasses, ranges, charts, tide and current tables to take bearings and soundings; couples and uncouples bridge units; employs rigging techniques; maintains tools. *Skill Level 40:* Able to perform the duties required for Skill Level 20; interprets blueprints, aerial photographs, maps, and operating diagrams; plans and draws working sketches of crossing points, launching areas, and approach road nets; determines stream flow, effect of stream velocities, high water marks, type of stream bottom, and safe load capacities of rafts and bridges; coordinates use of multiple units; inspects powered bridge components and equipment and supervises periodic and emergency maintenance; prepares technical reports on bridging and rafting activities; supervises powered bridge personnel.

Recommendation, Skill Level 20

In the vocational certificate category, 12 semester hours in boat operation, 3 in heavy equipment operation, and 3 in heavy equipment maintenance, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in heavy equipment operation and 1 in use and care of tools (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 15 semester hours in heavy equipment (ferry boat, tug boat, truck, bus) operation, 4 in powered bridge construction, 4 in multiple unit management, 3 in heavy equipment maintenance, 2 in blueprint reading, and 2 in navigation, for a total of 30 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 2 in heavy equipment operation, 2 in navigation, 2 in powered bridge construction management, and 1 in use and care of tools, for a total of 10 semester hours. In the upper-division baccalaureate category, *if the duty assignment was either bridge section sergeant or bridge platoon sergeant,* 3 semester hours for field experience in management (12/75).

MOS-12E-001

ATOMIC DEMOLITION MUNITIONS SPECIALIST

12E20
12E40

Exhibit Dates: 10/73–8/76.

Career Management Field: 12 (Combat Engineering).

Description

Summary: Assembles, arms, disarms, disassembles, tests, monitors, and transports atomic demolition munitions. NOTE: Able to perform the duties required for 12B10 (Combat Engineer). *Skill Level 20:* Interprets aerial photographs and reads maps; prepares atomic demolition munitions for destruction, using conventional demolition materials; employs radiological accident and incident control procedures; handles classified material and employs security procedures; uses engineer handtools; performs combat engineering tasks and simple construction necessary in the employment of atomic demolition munitions. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor, serving as a squad or team leader or as a platoon sergeant; supervises atomic demolition munitions activities; interprets technical literature and instructs subordinates in the use of atomic demolition munitions equipment; enforces safety regulations; advises commander on the employment of the weapon and makes recommendations concerning technical improvements, safety procedures, and security; requisitions supplies and equipment; keeps files of related manuals and regulations; coordinates with other units on storage, security, and transportation of atomic demolition munitions and on communications procedures. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities and these duties were not evaluated.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in the use of hand tools and 1 in map reading (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in the use of hand tools and 1 in map reading. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 for field experience in management, and 3 for field experience in education, for a total of 12 semester hours (6/76).

MOS-12E-002

Atomic Demolition Munitions (ADM) Specialist

12E10
12E20
12E30
12E40

Exhibit Dates: 9/76–Present.

Career Management Field: 12 (Combat Engineering).

Description

Summary: Assembles, arms, disarms, disassembles, tests, monitors, and transports atomic demolition munitions (ADM). NOTE: Many of the duties required for this MOS involve highly classified materials, equipment and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Assists in assembling, arming, disarming, disassembling, testing, and monitoring of ADM; prepares ADM for transport; operates and maintains vehicles; inspects and repairs ADM, test equipment, training sets, tools, and related equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; interprets aerial photographs and read maps; prepares ADM for destruction, using conventional demolition materials; employs radiological accident and incident control procedures; handles classified material and employs security procedures; uses engineering hand tools; performs combat engineering tasks and simple construction necessary in the employment of ADM. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises prefire, arming, disarming, firing, cancellation and emergency destruction procedures; supervises nuclear weapons transportation preparation, routing, and security; conducts briefings. *Skill Level 40:* Able to perform the duties required for Skill Level 30; is a first-line supervisor of ADM activities; interprets technical literature and instructs subordinates in the use of ADM equipment; enforces safety regulations; advises commander on the employment of the weapon and makes recommendations concerning operational improvements, safety procedures, and security; requisitions supplies and equipment; keeps files of related manuals and regulations; coordinates with other units on storage, security, and transportation of ADM and on communications procedures.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in hand-tool operation and maintenance (11/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in hand-tool operation and maintenance, and 1 in map reading (11/77).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in hand-tool operation and maintenance, 1 in map reading, and 3 in demolition operations, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in hand-tool operation and maintenance, 3 for field experience in personnel supervision, and 1 in map reading, for a total of 7 semester hours (11/77).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in hand-tool operation, 2 in map reading, 3 in demolition operations, and 2 in communication skills, for a total of 10 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in hand-tool operation and maintenance, 3 for field experience in personnel supervision, 3 in personnel supervision, 3 in human relations, 3 in safety, 3 in nuclear surveillance monitoring, and 2 in map reading, for a total of 20 semester hours (11/77).

MOS-12F-001

Combat Engineer Tracked Vehicle Crewman

12F20
12F40

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 12F was discontinued and its functions were incorporated into MOS 11E, Armor Crewman; in 9/79, MOS 12F was reinstituted—see MOS-12F-002).

Career Management Field: 12 (Combat Engineering).

Description

Summary: Commands or serves as a member of a combat engineer vehicle crew, an armored vehicle launched bridge crew, or a landing vehicle track crew. *Skill Level 20:* Operates combat engineer tracked vehicles over rough or smooth terrain, in sandy, swampy, and marshy areas, or in water; performs operator maintenance on vehicle and communication equipment; observes and reports targets and other combat information; reads compasses, maps, marine charts, and photographs for reconnaissance and terrain analysis and to establish locations; constructs field fortifications and utilizes camouflage; operates special purpose equipment, such as demolition guns, bridge launching mechanisms, mine clearing devices, lifting devices, and power winches; keeps required records and reports. NOTE: May have progressed to Skill Level 20 from 12B10 (Combat Engineer). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises activities of combat engineer platoons, squads, and crews equipped with tracked vehicles operating independently or with engineer amphibious assault units; judges tide flow and estimates high water marks and types of offshore bottoms; interprets military maps, aerial photographs, and operating diagrams; assists in the preparation of operations directives, reports, and records.

Recommendation, Skill Level 20

In the vocational certificate category, 10 semester hours in operation of tracked construction equipment. In the lower-division baccalaureate/associate degree category, 2 semester hours in map reading or photographic interpretation (12/75).

Recommendation, Skill Level 40

In the vocational certificate category, 10 semester hours in operation of tracked construction equipment, 2 in equipment maintenance, 1 in records administration, and 1 in technical mathematics or physics, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in map reading or photographic interpretation, 1 in records administration, and 2 in personnel supervision, for a total of 5 semester hours (12/75).

MOS-12F-002

Engineer Tracked Vehicle Crewman

12F10
12F20
12F30
12F40

Exhibit Dates: 9/79–Present. Pending evaluation.

MOS-12Z-001

Combat Engineer Senior Sergeant

12Z50

Exhibit Dates: 10/73–8/76.

Career Management Field: 12 (Combat Engineering).

Description

Serves as the principal noncommissioned officer of a combat engineer company, bridge company, or engineering section; capable of the management of personnel and activities in a civilian engineering/construction firm; assists in planning, supervising, and coordinating all company activities; advises company commander on all personnel matters; provides subordinate supervisors with instructions; inspects work; provides on-the-job training; prepares reports; has a prerequisite knowledge of engineering equivalent to an associate degree in engineering technology. NOTE: May have progressed to 12Z50 from Skill Level 40 of any MOS in the combat engineering career management field (12).

Recommendation

In the upper-division baccalaureate category, 12 semester hours in business administration, 6 in personnel supervision, and 6 for field experience in management, for a total of 24 semester hours (12/75).

MOS-12Z-002

Combat Engineering Senior Sergeant

12Z50

Exhibit Dates: 9/76–Present.

Career Management Field: T112 (Combat Engineer).

Description

Serves as principal noncommissioned officer of a combat engineer company, bridge company, or engineer staff section; serves as a bridge inspector, operations or intelligence noncommissioned officer; may advise higher headquarters, supported units, allied forces, Army Reserve units, and Army National Guard units; may serve as an instructor in a formal military school; capable of managing personnel and activities in a civilian engineering/construction firm; assists in planning, supervising, and coordinating all unit activities; advises commander on personnel, equipment, and technical matters; provides subordinate supervisors with instructions; plans and implements training programs; inspects work progress and enforces job specifications and safety standards; supervises maintenance of functional and project files; prepares correspondence, plans, orders, construction schedules, and reports; maintains equipment records; maintains technical publications. NOTE: May have progressed to 12Z50 from Skill Level 40 of any MOS in the combat engineering career management field (12).

Recommendation

NOTE: Has a prerequisite knowledge of engineering equivalent to an associate degree (30–40 semester hours, depending on general education requirements) in engineering technology. In the upper-division baccalaureate category, 3 semester hours in elements of construction management, 3 in management problems, 3 in records management, 3 in quality control, 3 in personnel supervision, 3 in supervision and leadership, and 6 for field experience in management, for a total of 24 semester hours (11/77).

MOS-13A-001

FIELD ARTILLERY BASIC (CANNONEER)

13A10

Exhibit Dates: 10/73–9/74. (Effective 10/74, MOS 13A was discontinued and its functions were incorporated into 13B10, Field Artillery Crewman.)

Career Management Field: 13 (Field Artillery Cannon).

Description

Serves as a member of a gun crew, ammunition section, or security section; may be a data recorder, truck driver, or ammunition specialist; operates radios, field telephones, and power generating equipment; conducts circuitry tests; uses vernier scales; measures tolerances; performs preventive maintenance on vehicles, generators, and crew-served weapons.

Recommendation

Credit on the basis of institutional evaluation (2/75).

MOS-13B-001

FIELD ARTILLERY CREWMAN

13B10
13B20
13B30
13B40

Exhibit Dates: 10/73–8/76.

Career Management Field: 13 (Field Artillery Cannon).

Description

Summary: Serves in a field artillery unit; reads schematic diagrams; uses wire and radio communications equipment; services hydraulic systems. *Skill Level 10:* Serves as a data recorder, truck driver, or ammunition specialist; operates radios, field telephones, and power generating equipment; conducts circuitry tests; measures tolerances and uses vernier scales; performs preventive maintenance on vehicles, generators, and crew-served weapons. NOTE: Skill Level 10 (formerly 13A10, Field Artillery Basic) was not added to MOS 13B until 10/74. *Skill Level 20:* Under supervision, uses optical measuring devices, adjusts instruments to required tolerances, and performs preventive maintenance on vehicles; knows angular relationships of optical devices in both horizontal and vertical planes. *Skill Level 30:* Able to perform the duties required for Skill Level 20; uses specialized precision tools; uses technical publications; has theoretical background in mechanics, hydraulics, electrical systems, and optical measurement instruments; performs organizational maintenance on wheeled and tracked vehicles, optical instruments, and hydraulic systems; diagnoses and repairs malfunctions. *Skill Level 40:* Able to perform the duties required for Skill Levels 20 or 30; is a first-line supervisor for 8–15 persons; supervises the maintenance of vehicles, instruments, and equipment; prepares technical reports; coordinates record keeping; conducts on-the-job training; inspects the work of subordinates.

Recommendation, Skill Level 10

10/74–8/76. In the vocational certificate category or in the lower-division baccalaureate/associate degree category, credit in measurement and instrumentation, electronic communications, and applied mathematics on the basis of institutional evaluation (3/76).

Recommendation, Skill Level 20

10/73–8/76. In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in basic electric circuits, 1 in measurement and instrumentation, 1 in electronic communications, and 1 in basic mathematics, for a total of 4 semester hours (3/76).

Recommendation, Skill Level 30

10/73–8/76. In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in basic electric circuits, 1 in measurement and instrumentation, 2 in electronic communications equipment operation and troubleshooting, 2 in basic mathematics, and 2 in hydraulics and mechanics, for a total of 8 semester hours (3/76).

Recommendation, Skill Level 40

10/73–8/76. In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in basic electric circuits, 2 in measurement and instrumentation, 2 in electronic communications equipment operation and troubleshooting, 2 in basic mathematics, 2 in hydraulics and mechanics, 1 in equipment management, 1 in personnel management, and 3 for an internship (management), for a total of 15 semester hours (3/76).

MOS-13B-002

CANNON CREWMAN

13B10
13B20
13B30
13B40

Exhibit Dates: 9/76–Present.

Career Management Field: 13 (Field Artillery), *subfield* 131 (Field Artillery Cannon/Missile Operations).

Description

Summary: Supervises or serves in a field artillery unit; reads equipment placement and systems diagrams; uses wire and radio communications equipment; services hydraulic systems. *Skill Level 10:* Serves as security guard, cannoneer, vehicle driver, or ammunition specialist; operates radios, field telephones, and power generating equipment; conducts continuity tests; measures tolerances and uses vernier scales; uses metric notation; performs preventive maintenance on vehicles, generators, and crew-served weapons. *Skill Level 20:* Assists the section chief; uses optical measuring devices, adjusts instruments to required tolerances; supervises preventive maintenance on vehicles; knows angular relationships of optical devices in both horizontal and vertical planes; supervises transportation and use of ammunition. *Skill Level 30:* Serves as a section chief, supervising 10–14 persons; instructs in gunnery procedures; uses technical publications; has theoretical background in mechanics, hydraulics, electrical systems, and optical measurement instruments; supervises preventive maintenance on wheeled and tracked vehicles; assures adherence to safety procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; is a first-line supervisor for 12–45 persons; supervises the maintenance of vehicles, instruments, and equipment; prepares technical and personnel reports; coordinates record keeping; supervises on-the-job training; inspects the work of subordinates; assures compliance with safety procedures.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in communications systems operation and 1 for field experience in electromechanical and hydraulic maintenance, and additional credit in applied mathematics and in measurements and instrumentation on the basis of institutional evaluation (4/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in basic mathematics, 1 in communications systems operation, 1 for field experience in electromechanical and hydraulic maintenance, and 1 in measurements and instrumentation, for a total of 5 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in basic mathematics, 2 for field experience in electromechanical and hydraulic maintenance, 1 in communications systems operation, and 1 in measurements and instrumentation, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 2 in communication skills, 2 in human relations, 2 in personnel supervision, 2 in basic mathematics, 2 for field experience in electromechanical and hydraulic maintenance, 1 in communications systems operation, and 1 in measurements and instrumentation, for a total of 15 semester hours (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in communication skills, 3 in human relations, 3 in personnel supervision, 2 in basic mathematics, 2 for field experience in electromechanical and hydraulic maintenance, 1 in communications systems operation, 1 in measurements and instrumentation, and 1 in safety procedures, for a total of 19 semester hours (4/77).

MOS-13C-001

TACFIRE OPERATIONS SPECIALIST

13C10
13C20
13C30
13C40

Exhibit Dates: 9/79–Present. Pending evaluation.

MOS-13E-001

FIELD ARTILLERY CANNON OPERATIONS/FIRE DIRECTION ASSISTANT

13E20
13E40

Exhibit Dates: 10/73–8/76.

Career Management Field: 13 (Field Artillery Cannon).

Description

Summary: Supervises or serves as a member of an operations and intelligence section, liaison section, forward observer party, fire support coordination element, or field artillery cannon fire direction center. *Skill Level 20:* Serves in a field artillery section as a member of a gun crew; plots target locations and constructs firing charts; uses specialized graphs and tables for computing firing locations, angles, corrections, and displacements; operates gun control and gun direction computer; reads maps and aerial photographs; assists in liaison activities with infantry and armor; operates chronograph and computes muzzle velocity; performs preventive maintenance on generators, communications equipment (wire and radio), vehicles, and gun direction computer. *Skill Level 40:* Able to perform the duties required for Skill Level 20; prepares situation maps; collects and consolidates data for fire control; prepares operations journal; assists in liaison activities with other units, armor, and infantry; determines target distance and azimuth, utilizing optical instruments, compass, maps, mil relation formula, and timing of sound; supervises operation and preventive maintenance of section equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in basic electric circuits, 1 in measurement and instrumentation, 1 in electronic communications, and 1 in basic mathematics, for a total of 4 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic electric circuits, 1 in measurement and instrumentation, 1 in electronic communications, 1 in basic mathematics, and 1 in introduction to computer science, for a total of 5 semester hours (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in basic electric circuits, 2 in measurement and instrumentation, 2 in electronic communications equipment operation and troubleshooting, 2 in basic mathematics, 2 in hydraulics and mechanics, 1 in equipment management, and 1 in personnel supervision, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electric circuits, 2 in measurement and instrumentation, 2 in electronic communications equipment operation and troubleshooting, 2 in basic mathematics, 2 in hydraulics and mechanics, 1 in equipment management, 1 in personnel supervision, 3 for field experience in management, and 1 in introduction to computer science, for a total of 16 semester hours (3/76).

MOS-13E-002

CANNON FIRE DIRECTION/FIRE SUPPORT SPECIALIST

13E10
13E20
13E30
13E40

Exhibit Dates: 9/76–2/78.

Career Management Field: 13 (Field Artillery), *subfield* 131 (Field Artillery Cannon/Missile Operations).

Description

Summary: Supervises or serves as a member of a field artillery fire direction center, liaison section, operations section, or forward observer section. *Skill Level 10:* Uses graphs, tables, and maps for computing firing locations, angles, altitudes, corrections, and displacements; constructs firing charts; computes meteorological, registration, and muzzle velocity corrections; operates gun direction computer (FADAC) or chronograph; installs and operates field wire telephones and switchboards; operates radio transmitter/receiver and speech security equipment; operates and maintains vehicles, section equipment, and generators; maintains situation map, fire support records, reports, and overlays; uses optical instruments, mil relation formula, and data for firing weapons from standardized tables. *Skill Level 20:* Supervises operations within the section; computes firing data and transmits to firing units; computes data corrections; prepares status charts, target lists, and situation maps; participates in reconnaissance. *Skill Level 30:* Supervises computations, operations, and planning; maintains records and reports; processes fire support requests; recommends fire support means; supervises maintenance of equipment, vehicles, and generators. *Skill Level 40:* Supervises fire direction control operations; assists in preparing training schedules, fire support plans, and tactical operations plans; trains, supervises, and evaluates 8–12 persons.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, credit on the basis of institutional evaluation in any of the following areas: applied mathematics, communications systems operation, measurements and instrumentation, map reading, and introduction to computer concepts (4/77).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in basic mathematics, 1 in communications system operation, 1 in map reading, and 1 in introduction to computer concepts, and additional credit in measurements and instrumentation on the basis of institutional evaluation, for a minimum total of 5 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic mathematics, 1 in communications systems operation, 1 in map reading, 1 in introduction to computer concepts, and 1 in personnel supervision, and additional credit in measurements and instrumentation on the basis of institutional evaluation, for a minimum total of 6 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in basic mathematics, 2 in map reading, 1 in communications systems operation, and 1 in introduction to computer concepts, and additional credit in measurements and instrumentation on the basis of institutional evaluation, for a minimum total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 2 in personnel supervision, 2 in communication skills, 2 in human relations, 2 in basic mathematics, 2 in map reading, 1 in communications systems operation, and 1 in introduction to computer concepts, and additional credit in measurements and instrumentation on the basis of institutional evaluation, for a minimum total of 15 semester hours (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in personnel supervision, 3 in communication skills, 3 in human relations, 2 in basic mathematics, 2 in map reading, 1 in communications systems operation, 1 in introduction to computer concepts, and 1 in safety procedures, and additional credit in measurements and instrumentation on the basis of institutional evaluation, for a minimum total of 19 semester hours (4/77).

MOS-13E-003

CANNON FIRE DIRECTION SPECIALIST

13E10
13E20
13E30
13E40

Exhibit Dates: 3/78–Present.

Career Management Field: 13 (Field Artillery), *subfield* 133 (Field Artillery Fire Direction/Fire Support).

Description

Summary: Supervises or serves as a member of a field artillery fire direction center or operations section. *Skill Level 10:* Uses graphs, tables, and maps for computing firing locations, angles, altitudes, corrections, and displacements; constructs firing charts; computes meteorological, registration, and muzzle velocity corrections; operates gun direction computer (FADAC) or chronograph; installs and operates field wire telephones and switchboards; operates radio transmitter/receiver and speech security equipment; operates and maintains vehicles, section equipment, and generators; maintains situation map, fire support records, reports, and overlays; mil relation formula, and data for firing weapons from standardized tables. *Skill Level 20:* Computes firing data and transmits to firing units; computes data corrections; prepares status charts, target lists, and situation maps.

Skill Level 30: Supervises computations, operations, and planning; maintains records and reports; processes fire support requests; recommends fire support means; supervises maintenance of equipment, vehicles, and generators. *Skill Level 40:* Supervises fire direction control operations; assists in preparing training schedules, fire support plans, and tactical operations plans; trains, supervises, and evaluates 8-12 persons.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in basic mathematics, 1 in communications systems operation, 1 in measurements and instrumentation, 1 in map reading, and 1 in introduction to computer concepts, for a total of 6 semester hours (6/79).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in basic mathematics, 2 in map reading, 1 in communications systems operation, 1 in introduction to computer concepts, and 1 in measurements and instrumentation, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 2 in personnel supervision, 2 in communication skills, 2 in human relations, 2 in basic mathematics, 2 in map reading, 1 in communications systems operation, 1 in introduction to computer concepts, and 1 in measurements and instrumentation, for a total of 16 semester hours (6/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in personnel supervision, 3 in communication skills, 3 in human relations, 2 in basic mathematics, 2 in map reading, 1 in communications systems operation, 1 in introduction to computer concepts, 1 in safety procedures, and 1 in measurements and instrumentation, for a total of 20 semester hours. In the upper-division baccalaureate category, 2 semester hours in introduction to management and 3 for field experience in management (6/79).

MOS-13F-001

FIRE SUPPORT SPECIALIST

13F10
13F20
13F30
13F40

Exhibit Dates: 3/78-Present.

Career Management Field: 13 (Field Artillery), *subfield* 133 (Field Artillery Fire Direction/Fire Support).

Description

Summary: Supervises or serves as a member of a field artillery forward observer section, a company fire support team, or a fire support element at a battalion or higher level. *Skill Level 10:* Assists in locating targets and initiating requests for fire on them; uses optional instruments, laser rangefinders, night observation device and compass; installs field wire and telephone; operates radio transmitter/receiver and speech security equipment; uses graphs, tables and maps for computing target locations including altitudes, coordinates, vertical interval and distance; maintains fire support map, status charts, capability overlay, records of missions fired and visibility diagram/profile; operates and maintains vehicles, generators and other section equipment; performs patrol and land navigation duty. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs reconnaissance, both map and physical; selects observation post location, develops visibility and capability diagrams, orients maps using optical devices and compass, and establishes communications to support units; identifies, locates, computes data, and initiates fire on targets; adjusts artillery, mortar, naval, or aerial fire on targets; prepares fire support plans for offensive and defensive operations; capable of conducting night operations through use of night observation devices or by coordinated illumination techniques. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises, or assists in supervising, development of fire plans, coordination of fire support requests, and maintenance of records; processes and disseminates fire support information via written message format or by radio/telephone network; instructs and evaluates lower skill level personnel in work techniques and procedures; supervises maintenance of vehicles, communications and speech security equipment, and fire support instruments/equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises, trains, and evaluates 8-12 persons; prepares and coordinates fire support plans with maneuver plan; recommends use and coordinated employment of fire support means for tactical operations; familiar with concepts and principles of employment of various munitions and fire support means including close air support and naval gunfire; assists in preparing operation orders or plans, including the fire support plan.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or the lower-division baccalaureate/associate degree category, 2 semester hours in map reading, 1 in communications systems operation, 1 in basic mathematics, and 1 in measurement and instrumentation, for a total of 5 semester hours (6/79).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in map reading, 1 in communications systems operation, 2 in basic mathematics, and 1 in measurement and instrumentation, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in map reading, 2 in basic mathematics, 1 in communications systems operations, 1 in measurement and instrumentation, 2 in human relations, 2 in communication skills, and 2 in personnel supervision, for a total of 12 semester hours (6/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 2 semester hours in map reading, 2 in basic mathematics, 1 in communications systems operations, 1 in measurement and instrumentation, 2 in human relations, 3 in communication skills, 3 in personnel supervision, 1 in safety procedures, and 3 for field experience in management, for a total of 18 semester hours. In the upper-division baccalaureate degree category, 2 semester hours in introduction to management and 3 for field experience in management (6/79).

MOS-13W-001

FIELD ARTILLERY TARGET ACQUISITION SENIOR SERGEANT

13W50

Exhibit Dates: 9/76-Present.

Career Management Field: 13 (Field Artillery), *subfield* 132 (Field Artillery Target Acquisition Operations).

Description

Supervises intelligence activities in a field-artillery-cannon, rocket, missile, and target-acquisition activity; serves as the principal noncommissioned officer in a target-acquisition battery; coordinates target-acquisition collection activities; collects, interprets, analyzes, and evaluates intelligence and target-acquisition data; plots, records, and reports targets; reads and interprets maps and aerial photos; keeps situation maps, charts, and overlays; processes security clearances; maintains files and records; prepares reports. NOTE: May have progressed to 13W50 from 17B40 (Field Artillery Radar Crewman), 17C40 (Field Artillery Target Acquisition Specialist), 82C40 (Field Artillery Surveyor), or 93F40 (Field Artillery Meteorological Crewman).

Recommendation

In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in supervision and leadership, and 6 for field experience in management, and additional credit in map reading and aerial photo interpretation on the basis of institutional evaluation, for a minimum total of 12 semester hours (5/77).

MOS-13Y-001

CANNON/MISSILE SENIOR SERGEANT

13Y50

Exhibit Dates: 9/76-Present.

Career Management Field: 13 (Field Artillery), *subfield* 131 (Field Artillery Cannon/Missile Operations).

Description

Supervises operations and fire support activities in a field artillery battalion or serves as the principal noncommissioned officer in a field-artillery-cannon, missile, or rocket battery; prepares and distributes maps, operational information, operation reports, and training material; participates in coordination and implementation of cannon, missile, or rocket operations, training programs, administrative matters, and communication activities; maintains staff journals, files, and records; prepares reports. NOTE: May have progressed to 13Y50 from 13B40 (Cannon Crewman), 13E40 (Cannon Fire Direction/Fire Support Specialist), 15D40 (Lance Missile Crewman), 15E40 (Pershing Missile Crewman), or 15J40 (Lance/Honest John Operations/Fire Direction Specialist).

Recommendation

In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in supervision and leadership, and 6 for field experience in management, for a total of 12 semester hours (5/77).

MOS-13Z-001

FIELD ARTILLERY SENIOR SERGEANT
(FIELD ARTILLERY CANNON SENIOR SERGEANT)

13Z50

Exhibit Dates: 10/73–Present.

Career Management Field: 13 (Field Artillery).

Description

Serves as the principal noncommissioned officer in a major field artillery organization; supervises operations, intelligence activities, and liaison activities; assists superiors in planning, coordinating, and supervising all operations and personnel matters; holds meetings with subordinate noncommissioned officers to provide guidance and direction; directs on-the-job training; is a mid-level manager overseeing 45–150 persons. NOTE: May have progressed from 13B40 (Field Artillery Crewman), 13E40 (Field Artillery Cannon Operations/Fire Direction Assistant), 13W50 (Field Artillery Target Acquisition Senior Sergeant), or 13Y50 (Cannon/Missile Senior Sergeant).

Recommendation

In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 3 in human relations, and 6 for field experience in management, and additional credit in public speaking and for an internship in education on the basis of institutional evaluation, for a minimum total of 15 semester hours (3/76, 4/77).

MOS-15B-001

SERGEANT MISSILE CREWMAN

15B10
15B20
15B30
15B40

Exhibit Dates: 10/73–8/76.

Career Management Field: 15 (Field Artillery Missiles).

Description

Summary: Is familiar with the mechanical energy conversion, hydraulics, and pneumatic systems; understands both rocket and missile technology and the operation of missile guidance components, electrical subsystems, and communications systems as utilized in coordinated launch processes; operates mechanical equipment, optical devices, and gas turbine generators. *Skill Level 10:* Under supervision, assists in basic missile system operations, including receiving, handling, and assembling missile parts and components; uses radio and telephone communications equipment; tests and maintains equipment; operates gas turbine generator set. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates heavy equipment boom in handling and assembling major missile components; assists in operating the computer-firing set used in missile countdown and self-test procedures; checks out the guidance system, propulsion system, and electrical system; uses azimuth-orienting devices; understands and applies precision standards in optical measurement, mechanical tolerances, and computer-based self-test data prior to launch. *Skill Level 30:* Able to perform the duties required for Skill Level 20; can serve as the principle operator of an azimuth orientation unit, the test station equipment, or the firing set; conducts countdown procedures; coordinates communications between stations at the launch site; computes firing data. *Skill Level 40:* Able to perform the duties required for Skill Levels 20 or 30; is a first-line supervisor for a minimum of 15 persons; supervises the operations of the missile system at the launch site; directs the emplacement and relocation of launch stations; coordinates assembling, inspecting, testing, and firing of the missiles; maintains equipment records; verifies computations and conversions of firing data and guidance system data.

Recommendation, Skill Level 10

Credit on the basis of institutional evaluation (3/75).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in measurements and instrumentation, 1 in rocket engines and guidance systems, and 1 in mechanical technology (hydraulics, pneumatics, and energy conversion), for a total of 4 semester hours (3/75).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electronic circuits, 2 in measurement and instrumentation, 1 in management of equipment and personnel, 2 in rocket engines and guidance systems, and 2 in mechanical technology (hydraulics, pneumatics, and energy conversion), for a total of 9 semester hours (3/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electronic circuits, 2 in measurement and instrumentation, 2 in management of equipment and personnel, 2 in mechanical technology (hydraulics, pneumatics, and energy conversion), 2 in rocket engines and guidance systems, 2 in public speaking, and 3 for a practicum in management, for a total of 15 semester hours (3/75).

MOS-15B-002

SERGEANT MISSILE CREWMAN

15B10
15B20
15B30

Exhibit Dates: 9/76–9/78. (Effective 10/78, MOS 15B was discontinued.)

Career Management Field: 13 (Field Artillery), *subfield* 31 (Field Artillery Cannon/Missile Operations).

Description

Summary: Is familiar with the mechanical-energy-conversion, hydraulic, and pneumatic systems; understands rocket and missile technology and the operation of missile guidance components, electrical subsystems, and communications systems as utilized in coordinated launch processes; operates mechanical equipment, optical devices, and gas-turbine generators. *Skill Level 10:* Under supervision, assists in basic missile system operations, including receiving, handling, and assembling missile parts and components; uses radio and telephone communications equipment; participates in emplacement of azimuth-orienting equipment; tests and maintains equipment; operates gas turbine generator set. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists in operating the computer-firing set used in missile countdown and self-test procedures; checks out the guidance system, propulsion system, and electrical system; uses azimuth-orienting devices; understands and applies precision standards in optical measurement, mechanical tolerances, and computer-based self-test data prior to launch; supervises receipt, storage, and preparation of ammunition for delivery to firing and missile test section; assists in supervising assembly and disassembly of the missile and emplacement of launcher. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as section chief and first-line supervisor for 9–11 subordinates; serves as the principal noncommissioned officer in a unit of approximately 70 persons; supervises preparation for missile section tests, missile check-out, and preparation for travel; supervises work techniques, work distribution, and maintenance.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours for field experience in electromechanical and hydraulic maintenance, and credit in electric circuitry, measurement and instrumentation, and rocket engines and components, on the basis of institutional evaluation (4/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in measurement and instrumentation, 1 in communications systems operation, and 2 for field experience in electromechanical and hydraulic maintenance, for a total of 6 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in communications systems operations, 1 in measurement and instrumentation, 2 for field experience in electromechanical and hydraulic maintenance, 2 in communication skills (oral and written), 2 in human relations, 2 in personnel supervision, and 3 for field experience in management, for a total of 15 semester hours (4/77).

MOS-15D-001

LANCE MISSILE CREWMAN

15D10
15D20
15D40

Exhibit Dates: 10/73–8/76.

Career Management Field: 15 (Field Artillery Missile).

Description

Summary: Supervises or serves as a member of a Lance missile crew. *Skill Level 10:* Under supervision, assists in basic missile operations, including receiving, handling, and assembling missile components; uses radio and telephone communications equipment; performs operator maintenance and assists in routine maintenance of equipment, missiles, weapons, and vehicles; operates gas turbine generator set. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates heavy equipment boom in handling and assembling major missile components; assists in operating the computer firing set used in missile countdown and self-test procedures; is familiar with the mechanical technology of guided missiles, including thrust propulsion, energy conversion, hydraulics, and pneumatic systems; checks out the guidance, propulsion, and electrical missile systems; uses azimuth orienting devices; applies precision standards in optical measurement and mechanical tolerances. *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor for 10 or more persons; supervises missile operations at the launch site, coordinating the assembly, inspection, testing, and firing of missiles; establishes and maintains equipment records; verifies computations and conversion of firing data and guidance system data; directs the emplacement and relocation of launch stations.

Recommendation, Skill Level 10

In the vocational certificate category, credit in heavy equipment operation and maintenance and in surveying on the basis of institutional evaluation (3/76).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 1 semester hour in measurements and instrumentation, 1 in missile guidance and propulsion systems, and 1 in mechanical technology (hydraulics, pneumatics, and energy conversion), for a total of 3 semester hours (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 2 semester hours in measurements and instrumentation, 2 in guidance and propulsion systems, 2 in mechanical technology (hydraulics, pneumatics, and energy conversion), 3 in human relations, 1 in public speaking, and 3 for field experience in management, for a total of 13 semester hours (3/76).

MOS-15D-002

LANCE MISSILE CREWMEMBER
(LANCE MISSILE CREWMAN)

15D10
15D20
15D30
15D40

Exhibit Dates: 9/76-Present.

Career Management Field: 13 (Field Artillery), *subfield* 131 (Field Artillery Cannon/Missile Operations).

Description

Summary: Supervises or serves as a member of Lance missile crew, or supervises Honest John rocket firing battery or Sergeant missile crew. *Skill Level 10:* Participates in positioning, emplacement, assembly, and preparation of Lance missile for firing; operates missile-handling equipment; performs maintenance on equipment, missiles, weapons, carrier, unit vehicles, and communications equipment; operates gas-turbine generator set; uses radio and telephone communication equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists section chief in firing or assembly and transport section and serves as section chief in ammunition or security section; operates heavy-equipment boom in handling and assembling major missile components; assists in supervision of receipt, storage, handling, assembly, and transporting missile to firing section; uses azimuth-orienting devices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises preparation of launcher and missile for firing; supervises receipt, storage, handling, assembly, mating, movement, and firing of missile; serves as section chief and first-line supervisor for 9-11 subordinates; supervises work techniques, work distribution, and maintenance; supervises maintenance of missiles and section equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as first-line supervisor for 11 or more persons; directs positioning, emplacement, and employment of firing sections; establishes and maintains equipment records; verifies computations and conversion of firing data and guidance system data; reviews and prepares technical, personnel, administrative, and readiness reports on unit activities. *NOTE:* May have progressed to 15D40 from 15D30, 15B30 (Sergeant Missile Crewman), or 15F30 (Honest John Rocket Crewman).

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours for field experience in electromechanical and hydraulic maintenance, and credit in electric circuitry, measurement and instrumentation, and rocket engines and components on the basis of institutional evaluation (4/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in measurement and instrumentation, 1 in communications systems operation, and 2 for field experience in electromechanical and hydraulic maintenance, for a total of 6 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in communications systems operation, 1 in measurement and instrumentation, 2 for field experience in electromechanical and hydraulic maintenance, 2 in communication skills (oral and written), 2 in human relations, 2 in personnel supervision, and 3 for field experience in management, for a total of 15 semester hours (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in communications systems operation, 1 in measurement and instrumentation, 2 for field experience in electromechanical and hydraulic maintenance, 3 in communication skills (oral and written), 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 1 in safety procedures, for a total of 19 semester hours (4/77).

MOS-15E-001

PERSHING MISSILE CREWMAN

15E10
15E20
15E30
15E40

Exhibit Dates: 10/73-8/76.

Career Management Field: 15 (Field Artillery Missile).

Description

Summary: Supervises or serves as a member of a Pershing missile crew. *Skill Level 10:* Under supervision, assists in basic missile system operations, including receiving, handling, and assembling missile components; uses radio and telephone communications equipment; operates gas turbine generator set; operates wrecker boom and tracked vehicles; performs operator maintenance on wheeled vehicles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates equipment necessary to position launch vehicles and to assemble missiles; installs and monitors special equipment; operates erector-launcher control panel; operates power station to provide electrical power and pressurized air for the missile system; performs operator maintenance on system equipment; is familiar with the mechanical technology of guided missiles, including thrust propulsion, energy conversion, hydraulics, and pneumatic systems; operates optical devices. *Skill Level 30:* Able to perform the duties required for Skill Level 20; applies precision standards in optical measurement and mechanical tolerances; connects and operates computerized missile launch control system; aligns missile guidance platform on the firing azimuth; positions, assembles, and levels theodolite. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; is a first-line supervisor for 11 or more persons; supervises missile operations at the launch site, coordinating the assembly, inspection, testing, and firing of missiles; directs the emplacement and relocation of launch stations; establishes and maintains equipment records; verifies computations and conversions of firing data and guidance system data; coordinates liaison activities.

Recommendation, Skill Level 10

In the vocational certificate category, credit in heavy equipment operation and maintenance and in surveying on the basis of institutional evaluation (3/76).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 1 semester hour in measurements and instrumentation, 1 in missile guidance and propulsion systems, and 1 in mechanical technology (hydraulics, pneumatics, and energy conversion), for a total of 3 semester hours (3/76).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 2 semester hours in measurements and instrumentation, 2 in guidance and propulsion systems, and 2 in mechanical technology (hydraulics, pneumatics, and energy conversion), for a total of 6 semester hours (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for

Skill Level 10. In the lower-division baccalaureate/associate degree category, 2 semester hours in measurements and instrumentation, 2 in guidance and propulsion systems, 2 in mechanical technology (hydraulics, pneumatics, and energy conversion), 3 in human relations, 1 in public speaking, and 3 for field experience in management, for a total of 13 semester hours (3/76).

MOS-15E-002

Pershing Missile Crewmember
(Pershing Missile Crewman)

15E10
15E20
15E30
15E40

Exhibit Dates: 9/76–Present.

Career Management Field: 13 (Field Artillery), *subfield* 131 (Field Artillery Cannon/Missile Operations).

Description

Summary: Supervises or serves as a member of a Pershing missile crew. *Skill Level 10:* Under supervision, assists in launcher emplacement and receipt, assembly, disassembly, transporting, and storing of missile and missile components; uses radio and telephone communications equipment; operates gas-turbine generator set; operates wrecker boom and tracked vehicles; performs maintenance on vehicles and field communications equipment; participates in emplacement and operation of azimuth reference unit. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates equipment necessary to position launch vehicles and to assemble missiles; installs and monitors special equipment; operates erector launcher control panel during mating, recovery, and firing operations; is familiar with the mechanical technology of guided missiles, including thrust propulsion, energy conversion, hydraulics, and pneumatic systems; supervises operations performed by missile handlers while drawing, transporting, and storing missiles and components; assists in supervising crew during missile prefire, firing, postfiring, assembly, and disassembly operations. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as section chief and first-line supervisor for 9-11 subordinates; supervises emplacement and preparation of missile for firing; supervises work techniques, work distribution, and maintenance; supervises positioning and operation of azimuth-laying equipment or azimuth reference unit; supervises missile storage, maintenance, assembly, disassembly, and firing procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; is a first-line supervisor for 11 or more persons; supervises operation of firing, ammunition, or security platoon or battery control central section; supervises procurement, distribution, and testing of missile and missile components; serves as principal noncommissioned officer; prepares operation reports; participates in coordination and implementation of Pershing missile operations, training programs, administrative matters, and communications activities.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours for field experience in electromechanical and hydraulic maintenance, and credit in electric circuitry, measurement and instrumentation, and rocket engines and components on the basis of institutional evaluation (4/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in measurement and instrumentation, 1 in communications systems operation, and 2 for field experience in electromechanical and hydraulic maintenance, for a total of 6 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in communications systems operation, 1 in measurement and instrumentation, 2 for field experience in electromechanical and hydraulic maintenance, 2 in communication skills (oral and written), 2 in human relations, 2 in personnel supervision, and 3 for field experience in management, for a total of 15 semester hours (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in communications systems operation, 1 in measurement and instrumentation, 2 for field experience in electromechanical and hydraulic maintenance, 3 in communication skills (oral and written), 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 1 in safety procedures, for a total of 19 semester hours (4/77).

MOS-15F-001

Honest John Rocket Crewman

15F10
15F20
15F40

Exhibit Dates: 10/73–8/76.

Career Management Field: 15 (Field Artillery Missiles).

Description

Summary: Is familiar with precision standards of mechanical and electrical systems of rocketry and with processes and procedures for launch and communications systems/equipment necessary for coordination of activities; operates optical and electrical test devices such as anemometer, multimeter, micrometer aiming circle, and panoramic telescopes; knows procedures for receiving, transporting, assembling, and loading rocket or launcher; knows procedure for tests of circuitry; performs maintenance on generators, vehicle, launcher, and allied equipment associated with preparation of rockets for launching. *Skill Level 10:* Under supervision, assists in receiving, storing, handling, assembling, and inspecting rocket components; assists in emplacing launcher with associated launch equipment and accessories; understands and uses communications equipment (telephone and radio), test instruments, electronic instruments; performs electrical circuitry tests; maintains vehicles and launch equipment; understands mechanics of rocket power and thrust. *Skill Level 20:* Able to perform the duties required for Skill Level 10; does some troubleshooting; is familiar with optical as well as electronic measuring instruments and tolerances (or precision). *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor for 5-11 subordinates; coordinates receiving, handling, and assembly of rockets; coordinates loading and inspection operations; serves as gunner at each launching; serves as a principal noncommissioned officer in a unit of approximately 70 persons.

Recommendation, Skill Level 10

Credit on the basis of institutional evaluation (1/75).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in electronic communications operations, and 1 in measurements and instrumentation, for a total of 4 semester hours (1/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in management internship experience, 2 in basic electronic circuits, 2 in rocket engines and components, 2 in measurements and instrumentation, 2 in equipment management or personnel management, and 2 in public speaking, for a total of 13 semester hours (1/75).

MOS-15F-002

Honest John Rocket Crewmember
(Honest John Rocket Crewman)

15F10
15F20
15F30

Exhibit Dates: 9/76–Present.

Career Management Field: 13 (Field Artillery), *subfield* 131 (Field Artillery Cannon/Missile Operations).

Description

Summary: Is familiar with precision standards of mechanical and electrical systems of rocketry and with processes and procedures for launch and communications systems/equipment necessary for coordination of activities; operates optical and electrical test devices such as anemometer, multimeter, micrometer aiming circle, and panoramic telescope; knows procedures for receiving, transporting, assembling, and loading rocket or launcher; knows procedure for tests of circuitry; performs maintenance on generators, vehicle, launcher, and allied equipment associated with preparation of rockets for launching. *Skill Level 10:* Under supervision, assists in receiving, storing, handling, assembling, and inspecting rocket components; assists in emplacing launcher with associated launch equipment and accessories; understands and uses communications equipment (telephone and radio), test instruments, and electronic instruments; performs electrical circuitry tests; maintains vehicles and launch equipment; understands mechanics of rocket power and thrust. *Skill Level 20:* Able to perform the duties required for Skill Level 10; does some troubleshooting; is familiar with optical as well as electronic measuring instruments and tolerances (or precision); serves as gunner for each launching; performs supervisory function in maintaining launcher, windset, handling equipment, and warhead test equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as section chief and first-line supervisor of 9-11 persons; supervises emplacement and firing of rocket; supervises work techniques, work distribution, and maintenance; coordinates receiving, handling, and assembly of rockets; coordinates loading and prefire inspection operations; serves as principal noncommissioned officer in a unit of approximately 70 persons.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours for field experience in electromechanical and hydraulic maintenance, and credit in electric circuitry, measurement and instrumentation, and rocket engines and components, on the basis of institutional evaluation (4/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower/division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in measurement and instrumentation, 1 in communications systems operation, and 3 for field experience in electromechanical and hydraulic maintenance, for a total of 7 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic electronic circuits, 1 in rocket engines and components, 1 in communications systems operation, 1 in measurement and instrumentation, 3 for field experience in electromechanical and hydraulic maintenance, 2 in communication skills (oral and written), 2 in human relations, 2 in personnel supervision, and 3 for field experience in management, for a total of 16 semester hours (4/77).

MOS-15J-001

Lance/Honest John Operations/Fire Direction Assistant

15J20

15J40

Exhibit Dates: 10/73-8/76.

Career Management Field: 15 (Field Artillery Missile).

Description

Summary: Supervises or serves as a member of a Lance/Honest John missile crew. *Skill Level 20:* Collects and evaluates observer data for fire control; uses specialized charts and tables to compute firing data; plots targets and computes range, altitude, and azimuth; reads and prepares maps; performs operator maintenance on gun direction computer, desk calculators, generators, communications equipment (wire and radio), and vehicles. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises all operations of fire direction activity to insure proper computations and data evaluations; performs liaison activities for collection and dissemination of missile firing data.

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in basic electric circuits, 1 in measurement and instrumentation, 1 in electronic communications, and 1 in basic mathematics, for a total of 4 semester hours. In the lower-division baccalaureate/associate degree category, 1 semester hour in basic electric circuits, 1 in measurement and instrumentation, 1 in electronic communications, 1 in basic mathematics, and 1 in introduction to computer science, for a total of 5 semester hours (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in basic electric circuits, 2 in measurement and instrumentation, 2 in electronic communications equipment operation and troubleshooting, 2 in basic mathematics, 2 in hydraulics and mechanics, 1 in equipment management, and 1 in personnel supervision, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electric circuits, 2 in measurement and instrumentation, 2 in electronic communications equipment operation and troubleshooting, 2 in basic mathematics, 2 in hydraulics and mechanics, 1 in equipment management, 1 in personnel supervision, 3 for field experience in management, and 1 in introduction to computer science, for a total of 16 semester hours (3/76).

MOS-15J-002

Lance/Honest John Operations/Fire Direction Specialist

15J10

15J20

15J30

15J40

Exhibit Dates: 9/76-Present.

Career Management Field: 13 (Field Artillery), *subfield* 131 (Field Artillery Cannon/Missile Operations).

Description

Summary: Supervises or serves as member of a Lance or Honest John missile crew. *Skill Level 10:* Assists in computation of firing data; reads and prepares maps; operates and maintains fire direction center communications equipment and vehicles; participates in the gathering of operations and intelligence data; participates in operations and liaison activities. *Skill Level 20:* Able to perform the duties required for Skill Level 10; computes firing data; plots targets and computes range, altitudes, and azimuth to target; operates and performs maintenance on gun direction computer. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assists in supervision of all operations of the fire direction center; performs liaison activities, including collection and transmission of data. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operations of fire direction center to insure proper computations, plotting of targets, and issuance of fire commands; plans and organizes work schedules; instructs subordinate personnel in techniques and procedures in computation of firing data; reviews and prepares technical, personnel, and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in map reading and interpretation, and 1 for field experience in electromechanical and hydraulic maintenance, and credit in electric circuitry, measurement and instrumentation, and rocket engines and components on the basis of institutional evaluation, for a minimum total of 2 semester hours (4/77).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in map reading and interpretation, 1 for field experience in electromechanical and hydraulic maintenance, 1 in measurement and instrumentation, 1 in communications systems operation, 1 in basic mathematics, and 1 in introduction to computer concepts, and credit in electronic circuits on the basis of institutional evaluation, for a minimum total of 6 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for skill level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in map reading and interpretation, 1 for field experience in electromechancial and hydraulic maintenance, 1 in measurement and instrumentation, 1 in communications systems operation, 1 in basic mathematics, 1 in introduction to computer concepts, 2 in communication skills (oral and written), 2 in human relations, 2 in personnel supervision, and 3 for field experience in management, and credit in electronic circuits on the basis of institutional evaluation, for a minimum total of 15 semester hours (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in map reading and interpretation, 1 for field experience in electromechanical and hydraulic maintenance, 1 in measurement and instrumentation, 1 in communications systems operation, 1 in basic mathematics, 1 in introduction to computer concepts, 3 in communication skills (oral and written), 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and 1 in safety procedures, and credit in electronic circuits on the basis of institutional evaluation, for a minimum total of 19 semester hours (4/77).

MOS-15Z-001

Field Artillery Missile/Rocket Senior Sergeant

15Z50

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 15Z was discontinued and its functions were incorporated into Skill Level 50 of MOS 13W, Field Artillery Target Acquisition Senior Sergeant, MOS 13Y, Cannon/Missile Senior Sergeant, or MOS 13Z, Field Artillery Senior Sergeant).

Career Management Field: 15 (Field Artillery Missile).

Description

NOTE: Able to perform the duties of Skill Level 40 in any MOS in career management field 15. Serves as the principal noncommissioned officer in a field artillery missile unit; supervises operations, intelligence activities, and liaison activities; assists superiors in planning, coordinating, and supervising all unit activities and personnel matters; is a mid-level manager who supervises 45-150 persons; directs on-the-job training; holds meetings with subordinate noncommissioned officers to provide guidance and direction.

Recommendation

In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 3 in human relations, and 6 for field experience in management, and additional credit in public speaking and for internship in education on the basis of institutional evaluation, for a minimum total of 15 semester hours (3/76).

MOS-16B-001

Hercules Missile Crewmember

16B10
16B20
16B40

Exhibit Dates: 10/73-8/75.

Career Management Field: 16 (Air Defense Artillery), *subfield* 161 (Air Defense Artillery Missile Operations).

Description

Summary: Engages in launching activities of surface-to-air missiles. *Skill Level 10:* Under supervision, participates in the emplacement and displacement of missile launchers and associated equipment; checks missile components and related equipment; assists in assembling the rocket and attaching it to the launcher; performs the duties of switchboard operator; knows safety precautions necessary for working with high voltage potentials and propellants. *Skill Level 20:* Able to perform the duties required for Skill Level 10; under supervision, participates in pre-fire checks and adjustments to missiles; assists in testing, adjusting, and replacing defective components; performs preventive maintenance on missile, launching equipment, handling equipment, transport trailers, light vehicles, and power equipment; assists in receiving, unpacking, inspecting, assembling, and storing explosive heads and related equipment. (Possible duty assignments include assembly crewman, fire panel operator, launcher crewman, senior launcher crewman, and senior assembly crewman.) *Skill Level 40:* Able to perform the duties required for Skill Level 20; is a first-line supervisor of a launching section or platoon; directs the emplacement and displacement of missile launcher and related equipment; supervises the preparation and orientation of the missile for launching; enforces safety precautions; supervises low-level maintenance of launchers and related equipment; interprets technical material for subordinate personnel.

Recommendation, Skill Level 10

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (2/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate-associate degree category, 1 semester hour in electronic test equipment, 2 in introduction to electric circuits, and 3 for field experience in management, for a total of 6 semester hours *only if the duty assignment was either senior launcher or senior assembly crewman* (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in electronic test equipment, 3 in introduction to electric circuits, 3 in basic electronic circuits, and 6 for field experience in management, for a total of 14 semester hours (2/75).

MOS-16B-002

Hercules Missile Crewmember (Hercules Missile Crewman)

16B10
16B20
16B30
16B40

Exhibit Dates: 9/75-Present.

Career Management Field: 16 (Air Defense Artillery), *subfield* 161 (Air Defense Artillery Missile and Gun Operations).

Description

Summary: Engages in launching activities of surface-to-air missiles. *Skill Level 10:* Under supervision, assembles, prepares, and maintains Nike-Hercules missile for launching; participates in the emplacement and displacement of missile launchers and associated equipment; checks missile components and related equipment; assists in assembling the rocket and attaching it to the launcher; performs the duties of switchboard operator; knows safety precautions necessary for working with high voltage potentials and propellants. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; assists in testing, adjusting, and replacing defective components; performs preventive maintenance on missile, launching equipment, handling equipment, transport trailers, light vehicles, and power equipment; assists in receiving, inspecting, assembling, transporting, and storing explosive warheads and related equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises launching section operations in a Nike-Hercules missile battery; reads and interprets technical material pertaining to missile components and related equipment; supervises crew training and preventive maintenance. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises launch fire control platoon operations in a Nike-Hercules missile battery; is a first-line supervisor of a launching platoon; directs the emplacement and displacement of missile launcher and related equipment; supervises the preparation and orientation of the missile for launching; enforces safety precautions. NOTE: May have progressed to 16B40 from 16B30 or 16C30 (Hercules Fire Control Crewman).

Recommendation, Skill Level 10

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (2/76).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in introductory electronics and additional credit in mechanical maintenance on the basis of institutional evaluation. In an electronic technician apprentice training program, 100 clock hours of experience and 20 contact hours of related instruction (2/76).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in introductory electronics and additional credit in mechanical maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 1 in introductory electronics, and additional credit in mechanical maintenance on the basis of institutional evaluation, for a minimum total of 4 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in introductory electronics and additional credit in mechanical maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 for field experience in management, 1 in introductory electronics, and additional credit in mechanical maintenance on the basis of institutional evaluation, for a minimum total of 10 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-16C-001

Hercules Fire Control Crewmember (Hercules Fire Control Crewman)

16C10
16C20
16C30

Exhibit Dates: 9/75-Present.

Career Management Field: 16 (Air Defense Artillery), *subfield* 161 (Air Defense Artillery Missile and Gun Operations).

Description

Summary: Engages in fire control activities of surface-to-air missiles. *Skill Level 10:* Operates fire control equipment and associated test equipment for Nike-Hercules missiles; performs preventive maintenance on radars, automatic data transmission systems, and associated power supply equipment; makes basic adjustments and corrects simple malfunctions of fire control equipment; recognizes various types of jamming and employs electronic counter-countermeasure procedures; exercises safety precautions when working around high voltage potentials. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises over 20 persons in a fire control section; interprets intelligence information; reviews logs containing operating data; enforces safety precautions and security requirements; supervises maintenance; directs on-the-job training.

Recommendation, Skill Levels 10 and 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (2/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations (2/76).

MOS-16D-001

Hawk Missile Crewmember (Hawk Missile Crewman)

16D10
16D20
16D30
16D40

Exhibit Dates: 9/75-Present.

Career Management Field: 16 (Air Defense Artillery), *subfield* 161 (Air Defense Artillery Missile and Gun Operations).

Description

Summary: Serves as a member of or supervises the operation of a firing platoon, an assembly section, or a service and maintenance section of a Hawk missile battery. *Skill Level 10:* Maintains and prepares Hawk missile and associated equipment for launching; participates in the unloading and emplacement of equipment; assists in assembling, arming, and disarming the missile; performs routine preventive maintenance on launch and handling equipment; assists in performing checks and adjustments; observes safety precautions. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the assembly, testing, arming, disarming, loading, and unloading of Hawk missiles; supervises the transportation and emplacement of equipment; supervises preventive maintenance and coordinates organizational maintenance of launch and loading equipment. *Skill Level 40:* Able to perform the duties required for 16D30 or 16E30 (Hawk Fire Control Crewman); serves as platoon sergeant, supervising over 20 persons; plans and organizes security arrangements; interprets intelligence information; supervises maintenance of equipment.

Recommendation, Skill Level 10

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (2/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in hydraulic and electrohydraulic systems (2/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in hydraulic and electrohydraulic systems. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in hydraulic and electrohydraulic systems. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 9 semester hours (2/76).

MOS-16E-001

HAWK FIRE CONTROL CREWMEMBER
(HAWK FIRE CONTROL CREWMAN)

16E10
16E20
16E30

Exhibit Dates: 9/75–Present.

Career Management Field: 16 (Air Defense Artillery), *subfield* 161 (Air Defense Artillery Missile and Gun Operations).

Description

Summary: Serves as a member of or supervises a command and acquisition or a firing section of a Hawk firing platoon. *Skill Level 10:* Operates fire control equipment or engagement simulator; operates and performs operator maintenance checks and adjustments on Hawk missile fire control equipment; observes safety precautions. *Skill Level 20:* Performs the duties required for Skill Level 10 (with the exception of operating engagement simulator) and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises approximately 10 persons operating Hawk fire control equipment; prepares radar coverage and clutter diagrams; determines known reference point; supervises moving and placement of equipment.

Recommendation, Skill Levels 10 and 20

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (2/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations (2/76).

MOS-16F-001

LIGHT AIR DEFENSE ARTILLERY
CREWMAN (RESERVE FORCES)

16F10
16F20
16F30
16F40

Exhibit Dates: 10/73–Present.

Career Management Field: 16 (Air Defense Artillery), *subfield* 161 (Air Defense Artillery Missile and Gun Operations).

Description

Summary: Supervises or serves as a member of a light air defense artillery automatic weapons, machinegun, or ammunition platoon, section, or squad. *Skill Level 10:* Loads ammunition and fires automatic weapons; operates computing sight; operates communications equipment; performs operator maintenance on automatic weapons; requisitions, receives, stores, and distributes ammunition. *Skill Level 20:* Able to perform the duties required for Skill Level 10; leads air defense artillery automatic weapons squad of approximately 10 persons; serves as assistant ammunition sergeant. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and coordinates the activities of subordinate squads; assures that operator maintenance standards are attained. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the operations of an automatic weapons platoon of approximately 30 persons.

Recommendation, Skill Levels 10 and 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (2/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations (2/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 3 for field experience in management, for a total of 9 semester hours (2/76).

MOS-16H-001

AIR DEFENSE ARTILLERY (ADA)
OPERATIONS AND INTELLIGENCE
ASSISTANT

16H10
16H20
16H30
16H40

Exhibit Dates: 9/75–Present.

Career Management Field: 16 (Air Defense Artillery), *subfield* 162 (Air Defense Artillery Operations and Intelligence).

Description

Summary: Supervises or serves as a member of an air defense artillery activity engaged in operations or intelligence functions to prepare and revise operations data and situation maps. *Skill Level 10:* Performs plotting and operations or intelligence duties in an air defense artillery unit; plots, reports, and records operations or intelligence information by preparing charts, overlays, strip maps, training aids, logs, reports, and correspondence; installs and operates field telephone equipment. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; collects and consolidates information from related units; prepares training materials and coordinates training activities; transmits intelligence and grid locations to other units. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises operations; demonstrates correct procedures and techniques; supervises the preparation of situation maps and overlays; coordinates operations and intelligence data; supervises operation of communications equipment. *Skill Level 40:* Able to perform the duties required for 16H30 or 16J30 (Defense Acquisition Radar Operator); as a first sergeant, supervises 20 or more persons in an airspace control element; supervises and evaluates training; prepares operations plans; assists in reconnaissance.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 2 semester hours in map reading (2/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading and 3 in human relations (2/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 12 semester hours (2/76).

MOS-16J-001

DEFENSE ACQUISITION RADAR CREWMAN

16J10
16J20
16J30

Exhibit Dates: 9/75–Present.

Career Management Field: 16 (Air Defense Artillery), *subfield* 162 (Air Defense Artillery Operations and Intelligence).

Description

Summary: Supervises or serves as a member of a defense acquisition radar section or a forward area alerting radar unit.

Skill Level 10: Operates radars and IFF (identification-friend-or-foe) equipment to obtain early warning and target identification data; manipulates radar adjustments to achieve optimum operating performance; observes, tracks, and interprets targets; reads topographic maps to locate points by means of coordinates and prepares grid overlays to plot positions; employs electronic countermeasures to avoid signal jamming; prepares records; performs operator maintenance; follows safety procedures; uses special test equipment to insure proper radar operation and maintenance; installs and operates communications equipment; operates power generating equipment. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises over 20 persons; supervises operation and maintenance of radar and related equipment; directs on-the-job training; maintains equipment records; interprets intelligence information.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, credit in surveying on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 2 semester hours in map reading (2/76)

Recommendation, Skill Level 30

In the vocational certificate category, credit in surveying on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 2 semester hours in map reading and 3 in human relations (2/76).

MOS-16P-001

ADA (Air Defense Artillery) Short Range Missile Crewman (Chaparral Crewman)

16P10
16P20
16P30

Exhibit Dates: 9/75-Present.

Career Management Field: 16 (Air Defense Artillery), *subfield* 161 (Air Defense Artillery Missile and Gun Operations).

Description

Summary: Supervises or serves as a crewman in a Chaparral system unit or as a gunner in a Redeye section. *Skill Level 10:* Prepares Chaparral fire unit for firing; prepares and fires Redeye missiles; stores ammunition; operates Chaparral unit equipment, including tracked vehicles, power generating equipment, target alert area display set, and fire control devices; assists in equipment maintenance. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; prepares and fires Chaparral missile; leads Redeye team. *Skill Level 30:* Able to perform the duties required for Skill Level 20; leads Chaparral squad; is chief of Redeye section; supervises 12-20 persons engaged in storing, loading, and transporting ammunition; supervises operation and operator maintenance of the equipment.

Recommendation, Skill Levels 10 and 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (2/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations (2/76).

MOS-16R-001

Vulcan Crewman

16R10
16R20
16R40

Exhibit Dates: 10/73-8/75.

Career Management Field: 16 (Air Defense Artillery), *subfield* 162 (Air Defense Artillery Gun Operations).

Description

Summary: Supervises or serves as a crewman in a Vulcan system section or serves as a platoon sergeant in a Chaparral or Vulcan platoon. *Skill Level 10:* Under supervision, operates selected basic communications equipment and tracked vehicles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; under supervision, manipulates the weapons system; operates generating equipment and firing devices; performs preventive maintenance on equipment; assists in the emplacement and displacement of the weapons system. *Skill Level 40:* Able to perform the duties required for Skill Level 20; as a first-line supervisor, coordinates the activities of the equipment operators; supervises the personnel engaged in storing, issuing, and transporting ammunition and missiles; supervises the emplacement and displacement of the weapons system; supervises the maintenance of equipment.

Recommendation, Skill Levels 10 and 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision or personnel management, 3 in public speaking, and 6 for field experience in management, for a total of 12 semester hours (2/75).

MOS-16R-002

ADA (Air Defense Artillery) Short Range Gunnery Crewman (Short Range Air Defense Artillery Crewman) (Area Air Defense Artillery Crewman)

16R10
16R20
16R30
16R40

Exhibit Dates: 9/75-Present.

Career Management Field: 16 (Air Defense Artillery), *subfield* 161 (Air Defense Artillery Missile and Gun Operations).

Description

Summary: Supervises or serves as a crewman in a Vulcan system section or serves as a platoon sergeant in a Chaparral or Vulcan platoon. *Skill Level 10:* Prepares and assists in firing Vulcan antiaircraft gun; operates and performs operator maintenance on wheeled and tracked vehicles, power generating equipment, communications equipment, and fire control devices; handles ammunition; assists in the emplacement and displacement of the weapons system; assists in performance of routine maintenance. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises equipment operation and operator maintenance; supervises the emplacement and displacement of the weapons system; supervises squad training and coordinates squad activities. *Skill Level 40:* Able to perform the duties required for 16R30 or 16P30 (ADA Short Range Missile Crewman or Chapparal Crewman); serves as platoon sergeant in a Chaparral or Vulcan platoon of more than 20 persons; assists superiors in planning, directing, training, coordinating, and reporting the activities of the platoon.

Recommendation, Skill Levels 10 and 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (2/76).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations (2/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 3 for field experience in management, for a total of 9 semester hours (2/76).

MOS-16Z-001

Air Defense Artillery (ADA) Senior Sergeant

16Z50

Exhibit Dates: 10/73-Present.

Career Management Field: 16 (Air Defense Artillery), *subfield* 160 (Air Defense Artillery General).

Description

Serves as the principal noncommissioned officer in an air defense artillery unit or headquarters and supervises 44 or more persons; assists superiors in the appraisal of air defense artillery operations, training, and intelligence information; prepares status board and situation map; collects, interprets, evaluates, and disseminates intelligence data; prepares and edits training and intelligence material and the operations manual; supervises security; advises superiors on all personnel matters; coordinates operation of battery food service and supply activities; assists superiors in planning, coordinating, and directing all air defense artillery activities. NOTE: May have progressed to 16Z50 from Skill Level 40 of any MOS in the air defense artillery career management field (16).

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in technical writing, 3 in public speaking, 3 in map reading, and additional credit in electronics and mechanical maintenance on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 3 in human relations, 6 for field experience in management, and additional credit in industrial arts education on the basis of institutional evaluation, for a minimum total of 15 semester hours (2/76).

MOS-17A-001

COMBAT SURVEILLANCE AND TARGET ACQUISITION CREWMAN

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 17A was discontinued and its functions were incorporated into Skill Level 10 of the following MOS's: 17B, Field Artillery Radar Crewman; 17C, Field Artillery Target Acquisition Specialist; 17K, Ground Surveillance Radar Crewman; 17L, Aerial Sensor Specialist (OV-1B/C); and 17M, Unattended Ground Sensor Specialist.)

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 170 (General).

Description

Assists in operation of combat surveillance and target acquisition systems; assists in determining direction and range of artillery rounds; assists in gathering intelligence; operates sound and light equipment; plots data on a map.

Recommendation

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (3/76).

MOS-17B-001

FIELD ARTILLERY RADAR CREWMAN (COUNTERBATTERY/ COUNTERMORTAR RADAR CREWMAN)

17B20
17B40

Exhibit Dates: 10/73-8/76.

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 172 (Target Acquisition).

Description

Summary: Supervises or participates in operation of counterbattery, countermortar, and moving target radar and associated equipment to locate firing weapons, locate moving targets, and adjust artillery. *Skill Level 20:* Able to perform the duties required for 17A10 (Combat Surveillance and Target Acquisition Crewman); assists in equipment emplacement and concealment; prepares radar and associated equipment for operation; operates power unit; locates firing weapons and moving targets; performs calculation vectors and position prediction; operates and performs organizational maintenance on radar, basic communication equipment, vehicles, and related equipment; performs traverse to locate radar and establishes directional control; directs radar operations during period of interference or enemy jamming. *Skill Level 40:* Able to perform the duties required for Skill Level 20; selects site for emplacement of radar; employs knowledge of operational capabilities and limitations of all field artillery target acquisition systems; supervises subordinate personnel (20-22 in a section); organizes and conducts on-the-job training; supervises organizational maintenance; maintains equipment and personnel records.

Recommendation, Skill Level 20

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations and 3 for field experience in management, for a minimum total of 6 semester hours; *if the duty assignment was platoon sergeant,* 3 additional semester hours in personnel supervision, for a total of 9 semester hours (3/76).

MOS-17B-002

FIELD ARTILLERY RADAR CREWMEMBER (FIELD ARTILLERY RADAR CREWMAN)

17B10
17B20
17B30
17B40

Exhibit Dates: 9/76-Present.

Career Management Field: 13 (Field Artillery), *subfield* 132 (Field Artillery Target Acquisition Operations).

Description

Summary: Engages in operation of counterfire and moving target locating radars and associated equipment. *Skill Level 10:* Emplaces and conceals equipment; operates power unit; operates and performs minor maintenance on radars and associated equipment. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; prepares site evaluation chart and surveillance cards; performs traverse to locate radar and establish directional control; assists in scheduling maintenance on radar and associated equipment; directs radar operations during periods of interference and jamming; employs electronic counter-countermeasures. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises a radar section of approximately 7 persons; selects and evaluates emplacement site; instructs radar operators in radar techniques and procedures; plans and organizes work schedules; assures adherence to safety procedures involving radar operation and maintenance. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises operation of radar platoon of approximately 20 persons; supervises and directs operation of radar sections; assists platoon commander in supervision of platoon operations, training, resupply, and maintenance of platoon equipment; conducts reconnaissance and selection of tactical area for radars; prepares technical, personnel, and administrative reports.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour for field experience in electromechanical maintenance, 1 in basic mathematics, and 1 in map reading, for a total of 3 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 2 in communication skills, 2 in human relations, 2 in personnel supervision, 1 for field experience in electromechanical maintenance, 1 in basic mathematics, and 1 in map reading, for a total of 12 semester hours (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in communication skills, 3 in human relations, 3 in personnel supervision, 1 for field experience in electromechanical maintenance, 1 in basic mathematics, and 1 in map reading, for a total of 15 semester hours (4/77).

MOS-17C-001

SOUND RANGING CREWMAN

17C20
17C30
17C40

Exhibit Dates: 10/73-8/76.

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 172 (Target Acquisition).

Description

Summary: Supervises or participates in operation of sound ranging equipment in an artillery sound ranging section or platoon. *Skill Level 20:* Able to perform the duties required for 17A10 (Combat Surveillance and Target Acquisition Crewman); operates sound recording equipment; uses formulas and tables to compute data; operates and maintains communication equipment and vehicles. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs minor operational maintenance. *Skill Level 40:* Able to perform the duties required for Skill Levels 20 or 30; supervises operation and maintenance of sound ranging section (up to 8 personnel) or platoon (up to 30 personnel).

Recommendation, Skill Levels 20 and 30

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations and 3 for field experience in management, for a total of 6 semester hours; *if the duty assignment was platoon sergeant,* 3 additional semester hours in personnel supervision, for a minimum total of 9 semester hours (3/76).

MOS-17C-002

FIELD ARTILLERY TARGET ACQUISITION SPECIALIST

17C10
17C20
17C30
17C40

Exhibit Dates: 9/76-Present.

Career Management Field: 13 (Field Artillery), *subfield* 132 (Field Artillery Target Acquisition Operations).

Description

Summary: Supervises or participates in operation of sound-ranging and flash-ranging equipment in the location of targets. *Skill Level 10:* Emplaces and operates sound-ranging and flash-ranging equipment; establishes and operates sound/flash observation post; initiates sound-ranging recordings; measures range and horizontal and vertical angles to weapon flashes and projectile bursts; uses mathematics and prepared tables to compute and plot sound/flash data for evaluation; performs preventive maintenance on sound-ranging and flash-ranging equipment; operates and performs operator maintenance on communications equipment and vehicles. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; orients, operates, and calibrates sound and flash equipment; supervises employment, operation, and preventive maintenance of field illumination equipment by Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises operation of a sound/flash ranging section; controls operation of sound/flash observation posts; supervises computation of sound/flash data and maintenance of equipment; accepts, evaluates, processes, correlates, and reports target information. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises the activities of a sound/flash and field illumination platoon; conducts reconnaissance and selects tactical location for sound, flash, and searchlight equipment; coordinates and insures logistical, personnel, administrative, and training support for all platoon elements (sound, flash, searchlight, and processing sections).

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in basic mathematics, 1 in electromechanical systems, and 1 in map reading, for a total of 3 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 2 in personnel supervision, 2 in human relations, 2 in communication skills, 1 in basic mathematics, 1 in electromechanical systems, and 1 in map reading, for a total of 12 semester hours (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in personnel supervision, 3 in human relations, 3 in communication skills, 1 in basic mathematics, 1 in electromechanical systems, and 1 in map reading, for a total of 15 semester hours (4/77).

MOS-17D-001

FLASH RANGING CREWMAN

17D20
17D40

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 17D was discontinued and its functions were incorporated into MOS 17C, Field Artillery Target Acquisition Specialist.)

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 172 (Target Acquisition).

Description

Summary: Supervises or participates in flash ranging operations. *Skill Level 20:* Able to perform the duties required for 17A10 (Combat Surveillance and Target Acquisition Crewman); computes firing data; locates observation post and establishes directional controls; orients and calibrates flash ranging instruments; operates observation post; measures range and horizontal and vertical angles; computes and evaluates flash ranging data; operates and performs preventive maintenance on equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as the principal noncommissioned officer in a flash ranging platoon or section; supervises operation and emplacement of flash ranging equipment; supervises 8-12 technical personnel; when the duty assignment is platoon sergeant, supervises up to 30 personnel.

Recommendation, Skill Level 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management and 3 in human relations, for a minimum total of 6 semester hours; *if the duty assignment was platoon sergeant,* 3 additional semester hours in personnel supervision, for a total of 9 semester hours (3/76).

MOS-17E-001

FIELD ILLUMINATION CREWMAN

17E20
17E30
17E40

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 17E was discontinued and its functions were incorporated into MOS 17C, Field Artillery Target Acquisition Specialist.)

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 172 (Target Acquisition).

Description

Summary: Supervises or participates in field illumination and searchlight operations. *Skill Level 20:* Able to perform the duties required for 17A10 (Combat Surveillance and Target Acquisition Crewman); sets up equipment to operate searchlight for field lighting and area findings; operates light direction center; assists in maintenance. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs routine and preventive maintenance of field artillery searchlights and associated electrical equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises operation of field illumination section, platoon, or comparable unit; supervises operation of light direction center; supervises maintenance of equipment and vehicles; when the duty assignment is platoon sergeant, supervises up to 30 persons.

Recommendation, Skill Level 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (3/76).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in basic electronics (repair) (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30, *only if Skill Level 30 was held prior to Skill Level 40.* In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations and 3 for field experience in management, for a minimum total of 6 semester hours; *if the duty assignment was platoon sergeant,* 3 additional semester hours in personnel supervision, for a total of 9 semester hours (3/76).

MOS-17K-001

GROUND SURVEILLANCE RADAR CREWMAN

17K20
17K40

Exhibit Dates: 10/73-8/76.

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 171 (Combat Surveillance).

Description

Summary: Operates radar and associated equipment; prepares maps, overlays, and surveillance records; maintains ground surveillance radar and associated equipment, communication equipment, and vehicles. NOTE: Able to perform the duties required for 17A10 (Combat Surveillance and Target Acquisition Crewman). *Skill Level 20:* Assists in the emplacement and relocation of equipment; operates power units; locates radar and orienting points. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises all activities of ground surveillance radar team, section, or comparable group.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in map reading, and 2 in equipment maintenance, for a total of 8 semester hours (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in map reading, 2 in equipment maintenance, and 3 in personnel supervision, for a total of 11 semester hours (2/75).

MOS-17K-002

GROUND SURVEILLANCE RADAR CREWMAN

17K10
17K20
17K30
17K40
17K50

Exhibit Dates: 9/76-Present.

Career Management Field: 96 (Military Intelligence), *subfield* 963 (Tactical Intelligence Surveillance).

Description

Summary: Supervises or participates in operation of ground surveillance radar/unattended ground sensor elements engaged in intelligence and information collection activities. *Skill Level 10:* Assists in emplacement and displacement of radars and associated equipment; detects, locates, and reports target data for evaluation; operates and performs preventive maintenance on communications equipment, power generators, light wheeled vehicles, ground surveillance radars, and associated equipment. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; selects radar locations; supervises operation and preventive maintenance of communications equipment, power generators, vehicles, ground surveillance radars, and associated equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as section chief; conducts on-the-job training; selects potential radar emplacement sites, using maps, aerial photographs, terrain studies, and intelligence reports; prepares overlays and situation maps and maintains operational records; requests replacement parts. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as platoon sergeant, supervising ground surveillance radar and unattended ground sensor activities; plans and organizes work schedules, assigns duties, instructs section chiefs in proper work techniques and procedures, and recommends operational changes; participates in intelligence surveillance. NOTE: May have progressed to 17K40 from 17K30 or 17M30 (Unattended Ground Sensor Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as first sergeant of a company or as the principal noncommissioned officer for ground surveillance at a large headquarters; assists in planning and coordinating employment of ground surveillance systems; assists in preparation and implementation of reconnaissance and surveillance operations plans; recommends procedures for emplacement of ground reconnaissance and surveillance assets.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in basic mathematics, 1 in map reading, and 1 for field experience in electromechanical maintenance, for a total of 3 semester hours (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 2 in personnel supervision, 2 in human relations, 2 in communication skills, 1 in basic mathematics, 1 in map reading, and 1 for field experience in electromechanical maintenance, for a total of 12 semester hours (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in management, 3 in personnel supervision, 3 in human relations, 3 in communication skills, 1 in basic mathematics, 1 in map reading, and 1 for field experience in electromechanical maintenance, for a total of 15 semester hours (4/77).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper/division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 3 in human relations, and 3 for field experience in management, for a total of 12 semester hours (4/77).

MOS-17L-001

Airborne Sensor Specialist

17L20
17L40

Exhibit Dates: 10/73-8/76.

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 171 (Combat Surveillance).

Description

Summary: Supervises or participates in airborne sensor operations in an aerial surveillance section or platoon. *Skill Level 20:* Able to perform the duties required for 17A10 (Combat Surveillance and Target Acquisition Crewman); performs preflight checkout of airborne sensor equipment; performs inflight operation of airborne sensor equipment; assists aviator in using navigational aids in aircraft; performs limited imagery interpretation during mission; inspects operation of sensor equipment and readings of indicators; replaces malfunctioning unit or component with serviceable items; operates aircraft communications equipment as directed. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises preflight checkout of sensor equipment; supervises mounting and removal of sensor equipment in aircraft; supervises routine maintenance of sensor equipment, maintenance or records, and supervision of personnel; provides on-the-job training.

Recommendation, Skill Level 20

No recommendation because the skills, competencies, and knowledge are uniquely military in nature (3/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations and 3 for field experience in management, for a minimum total of 6 semester hours; *if the duty assignment was platoon sergeant,* 3 additional semester hours in personnel supervision, for a total of 9 semester hours (3/76).

MOS-17L-002

Aerial Sensor Specialist (OV-1B/C)

17L10
17L20
17L30
17L40

Exhibit Dates: 9/76-Present.

Career Management Field: 96 (Military Intelligence), *Subfield* 963 (Tactical Intelligence Surveillance).

Description

Summary: Supervises or participates in aerial surveillance operations using ground data terminal systems to provide information and imagery of intelligence value. *Skill Level 10:* Performs aerial surveillance, including visual reconnaissance, search and rescue, radiological survey, and similar intelligence activities; operates aerial infrared, radar, photographic, or similar sensor systems including associated data transmission links and ground data terminal stations; performs radio communications and aids aviator in aerial navigation; performs applicable electronic counter-countermeasures; assists in image interpretation; performs operator maintenance on sensors and associated equipment. *Skill Level 20:* Performs the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; assists aviator in weather analysis, navigation computations, and aircraft preflight inspection procedures; operates or supervises the operation of aerial surveillance and associated equipment; troubleshoots sensor systems; records operation and maintenance data in equipment logs; utilizes interpretation keys in assisting image interpreter. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises operations and activities of a section; supervises inspections and operator maintenance of sensors and associated equipment; directs and conducts on-the-job training; assists in planning use of aerial surveillance systems; assists image interpreter in analysis and interpretation of imagery; conducts or participates in briefing headquarters staff on capabilities and limitations of aerial surveillance missions, and on the results obtained. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises aerial surveillance platoon operations; plans and organizes work schedules, assigns duties, and instructs section leaders in proper work techniques and procedures; critiques mission results; participates in planning the use of aerial surveillance systems and advises commander on coordination of aerial and ground surveillance; coordinates personnel, equipment, operational supply, and maintenance support requirements.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in general mathematics, 1 in still-camera techniques, and 1 in electric circuits, for a total of 5 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in general mathematics, 3 in outdoor survival skills, 1 in still-camera techniques, 1 in electric circuits, and 1 in maps and air photos, for a total of 9 semester hours. In the upper-division baccalaureate category, 1 semester hour in remote sensing (4/77).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in general mathematics, 3 in outdoor survival skills, 3 for field experience in management, 2 in maps and air photos, 2 in human relations, 2 in communication skills, 2 in personnel supervision, 1 in still-camera techniques, and 1 in electric circuits, for a total of 19 semester hours. In the upper-division baccalaureate category, 1 semester hour in remote sensing (4/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in general mathematics, 3 in outdoor survival skills, 3 for field experience in management, 3 in human relations, 3 in communication skills, 3 in personnel supervision, 2 in maps and air photos, 1 in still-camera techniques, and 1 in electric circuits, for a total of 22 semester hours. In the upper-division baccalaureate category, 1 semester hour in remote sensing (4/77).

MOS-17M-001

Unattended Ground Sensor Specialist

17M20
17M30
17M40

Exhibit Dates: 10/74-8/76.

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 171 (Combat Surveillance).

Description

Summary: Commands or serves as a member of an unattended ground sensor team, section, or platoon engaged in emplacing and operating sensors and sensor monitoring equipment. *Skill Level 20:* Able to perform the duties required for 17A10 (Combat Surveillance and Target Acquisition Crewman); reads air photographs and contour maps to plan sensor and relay location; assists in sensor emplacement; emplaces and activates relay stations; emplaces monitors, and recovers sensor devices; reads and interprets monitoring, recording, and display devices and reports information gathered; computes density, direction, rate of movement, and nature of targets detected. *Skill Level 30:* Able to perform the duties required for Skill level 20; assembles, tests, and maintains ground sensor devices; inspects, assembles, tests, and maintains portable monitoring equipment, sensor relay and automated readout equipment; performs operational maintenance on equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; scouts potential areas, selects sensor emplacement sites, and supervises emplacement; determines employment and operational techniques; supervises maintenance; supervises unit personnel; maintains records; conducts on-the-job training.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 1 semester hour in aerial map interpretation (3/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electronics troubleshooting. In the lower-division baccalaureate/associate degree category, 1 semester hour in aerial photographic map reading (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electronics troubleshooting, *only if Skill Level 30 was held prior to Skill Level 40.* In the lower-division baccalaureate/associate degree category, 1 semester hour in aerial photographic map reading, 3 in human relations, and 3 for field experience in management, for a minimum total of 7 semester hours; *if the duty assignment was platoon sergeant,* 3 additional semester hours in personnel supervision, for a total of 10 semester hours (3/76).

MOS-17M-002

UNATTENDED GROUND SENSOR SPECIALIST

17M10
17M20
17M30

Exhibit Dates: 9/76-Present.

Career Management Field: 96 (Military Intelligence), *subfield* 963 (Tactical Intelligence Surveillance).

Description

Summary: Operates unattended ground sensor elements engaged in intelligence and information collection activities. *Skill Level 10:* Emplaces, monitors, and recovers unattended ground sensors; reads aerial photographs and military maps; records, interprets, and reports unattended ground sensor activations; computes direction, rate of speed, target classification, and density; assists in performance of preventive maintenance on unattended ground sensors, relays, monitoring equipment, and associated equipment; performs operator maintenance on communications equipment and light wheeled vehicles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; prepares for operation and operates sensors, sensor relays, monitoring equipment and associated equipment; uses maps, aerial photographs, terrain studies and intelligence reports; prepares sensor overlays; keeps records of sensors in place, including operating frequency, codes, presettings, locations, type of emplacement, activation, destruction/disability and recovery; performs preventive maintenance on unattended ground sensors and related equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises unattended ground sensor activities at the team level; supervises emplacement and displacement of unattended ground sensor equipment; prepares situation maps; maintains operational records; supervises maintenance of unattended ground sensors and associated equipment, communications equipment, and wheeled vehicles; inspects, tests, and maintains portable monitoring equipment.

Recommendation, Skill Level 10

In the lower-division baccalaureate/associate degree category, 1 semester hour in aerial photograph interpretation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, credit in basic electronic troubleshooting, communication equipment maintenance, wheeled vehicle maintenance, and map reading on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 1 semester hour in aerial photograph interpretation, and credit in basic electronic troubleshooting, communications equipment maintenance, wheeled vehicle maintenance, and map reading on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in aerial photograph interpretation and 1 in personnel supervision, and credit in basic electronic troubleshooting, communications equipment maintenance, wheeled vehicle maintenance, and map reading on the basis of institutional evaluation for a minimum total of 2 semester hours (5/78).

MOS-17Z-001

COMBAT SURVEILLANCE AND TARGET
ACQUISITION NCO

17Z50

Exhibit Dates: 10/73-8/76. (Effective 9/76, MOS 17Z was discontinued and its functions were incorporated into the following MOS's: 13W, Field Artillery Target Acquisition Senior Sergeant; 13Z, Field Artillery Senior Sergeant; 17C, Field Artillery Target Acquisition Specialist; 17K, Ground Surveillance Radar Crewman; and 96Z, Intelligence Senior Sergeant.)

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 170 (General).

Description

Supervises operations or intelligence activities in target acquisition platoon, battery, battalion, or staff section at corps level artillery or serves as the principal noncommissioned officer in a combat surveillance target acquisition or searchlight battery; able to perform the duties required for Skill Level 40 of any MOS in career management field 17; provides liaison between combat surveillance or target acquisition elements and firing elements; supervises operation of command post; establishes unit defense; prepares operations and intelligence plans and reports; coordinates intelligence collection activities; as first sergeant of a battery, directs and coordinates battery administration, assists battery commander in unit training, and supervises up to 200 personnel; periodically serves as chief instructor in a training facility; prepares personnel reports and records; conducts on-the-job training.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, credit in electronics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in human relations, 3 in personnel management, and 6 for field experience in management, and additional credit in industrial arts education on the basis of institutional evaluation, for a minimum total of 15 semester hours; *if the duty assignment was chief instructor in a formal training facility,* 3 additional semester hours for an internship in education, for a minimum total of 18 semester hours (3/76).

MOS-19D-001

CAVALRY SCOUT

19D10
19D20
19D30
19D40

Exhibit Dates: 3/78-Present.

Career Management Field: 19 (Armor).

Description

Summary: Leads, serves, or assists as a member of a scout crew, squad, section, or platoon in reconnaissance security and other combat operations. *Skill Level 10:* Serves as a member of observation and listening posts; gathers and reports information on terrain features, enemy strength, disposition, and equipment; identifies targets; requests and adjusts indirect and aerial fire; operates wheeled and tracked vehicles and operates communications equipment; uses maps and map symbols; navigates on ground; uses compass and distinguishes topographic features; performs operator maintenance on scout vehicles, weapons, and communications equipment; assists in firing of crew-served weapons; performs first aid and applies field sanitation methods; uses radiac instruments and chemical detection kits. *Skill Level 20:* Able to perform the duties required for Skill Level 10; leads scout crew or assists squad leader; selects, organizes, and supervises operation of observation and listening posts; prepares, distributes, and files maps and overlays; reproduces, distributes, and files operations and intelligence information; coordinates with adjacent and supporting elements. *Skill Level 30:* Able to perform the duties required for Skill Level 20; leads scout squad or section; directs tactical deployment; leads in combat; supervises maintenance of assigned vehicles and equipment; evaluates routes, assembly areas, and positioning for mounted combat operations. *Skill Level 40:*

Able to perform the duties required for Skill Level 30; supervises armored cavalry or reconnaissance platoon and processes operations and intelligence information; assists in planning, organizing, directing, supervising, training, coordinating, and reporting activities of the scout or armored cavalry platoon and staff sections; directs distribution of fire; supervises platoon maintenance activities; collects, evaluates, and assists in interpretation and dissemination of combat information. NOTE: May have progressed to 19D40 from 19D30 or 19G30 (Armor Reconnaissance Vehicle Crewman).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in map reading and 3 in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid and 3 in map reading (11/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in map reading and 6 in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid, 3 in map reading, and 3 in record keeping, for a total of 7 semester hours (11/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid, 3 in map reading, 3 in record keeping, and 3 in personnel supervision, for a total of 10 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid, 3 in map reading, 3 in record keeping, 3 in personnel supervision, and 3 in human relations, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in personnel management (11/79).

MOS-19E-001

M48-M60A1/A3 Armor Crewman

19E10
19E20
19E30
19E40

Exhibit Dates: 3/78-Present.

Career Management Field: 19 (Armor).

Description

Summary: Leads, supervises, or serves as a member of an armor tank unit. *Skill Level 10:* Secures, prepares, and stows communications aboard vehicle; loads and unloads main gun; exercises all safety precautions in handling of ammunition; installs and dismantles antennas; prepares radio equipment for operation and operates communications equipment; assists in target detection and identification; determines range to target, prepares range cards, reads maps, places turret in operation, and fires main gun; performs operator maintenance on turret, weapons, controls, equipment, and communications equipment; protects self, weapons, and equipment from chemical and other contaminants; employs principles of escape and evasion; administers first aid and applies field sanitation methods; breaches and clears minefields and obstacles. *Skill Level 20:* Able to perform the duties required for Skill Level 10; loads and fires main gun; leads ammunition supply section; helps process intelligence and operation data; provides technical guidance to Skill Level 10 personnel; prepares, files, and distributes operation maps, situation maps, and overlays; reads and interprets maps and aerial photographs; reproduces, distributes, and files operation intelligence, administrative and unit training documents, orders, publications, and evaluation results. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower skill level personnel; trains crews; requests, observes, and adjusts supporting fire. NOTE: May have progressed to 19E30 from 19E20 or 19F20 (Tank Driver). *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises tank platoon and processing of operations and intelligence information; assists in planning, organization, direction, training supervision, coordination, and reporting activities of tank or staff sections; collects, evaluates, assists in interpretation and dissemination of combat information.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid (11/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 1 in first aid, and 2 in record keeping, for a total of 6 semester hours (11/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 1 in first aid, 3 in personnel supervision, and 3 in record keeping, for a total of 10 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/79).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 1 in first aid, 3 in record keeping, 3 in personnel supervision, and 3 in human relations, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in personnel management (11/79).

MOS-19F-001

Tank Driver

19F10
19F20

Exhibit Dates: 3/78-Present.

Career Management Field: 19 (Armor).

Description

Summary: Drives and performs operator maintenance on tanks. *Skill Level 10:* Drives tanks, combat engineer vehicles, and armored vehicle launched bridges; operates tracked vehicles over varied terrain and roadways in combat formation and armor marches; exercises techniques of land navigation; assists in reading and interpreting maps and aerial photographs; selects tank routes; assists in target detection and identification; performs operator maintenance on automotive components; administers first aid and applies field sanitation methods; assists in construction of fortifications and barriers, including minefields; protects self, weapons, vehicle, and equipment from chemical and other contaminants. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs senior tank driving duties and provides technical guidance to Skill Level 10 personnel; assists in maintaining training readiness of platoon drivers; fires main gun as required; reads and interprets maps and aerial photographs.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid (11/79).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in mechanical maintenance and 3 in map reading. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading and 1 in first aid (11/79).

MOS-19G-001

Armor Reconnaissance Vehicle Crewman

19G10
19G20
19G30

Exhibit Dates: 3/78-Present.

Career Management Field: 19 (Armor).

Description

Summary: Serves as a member of, or as commander of a crew operating in an armored reconnaissance vehicle. *Skill Level 10:* Serves as loader of conventional or missile ammunition; recognizes chemical or nuclear hazards and exercises safety precautions; knows first-aid procedures; operates gun firing control systems; prepares range cars and calibrates sighting devices; assists in constructing field barriers; operates radio communications equipment; performs maintenance on vehicle, fire control devices, and armament, using checklists to meet specified standards. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; assists in maintaining gunnery proficiency of subordinate gunners; prepares, files, and distributes operation and situation maps and overlays; reads and interprets maps and aerial photographs; reproduces and distributes intelligence and operations documents; reproduces files and distributes training and administrative documents, publications, and evaluation reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor of a crew and as the vehicle/crew commander; plans reconnaissance routes, identifies and selects targets, and issues fire commands, supervises crew maintenance and coordinates organizational maintenance; trains crews; insures collection and reporting of intelligence data.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance.

In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid (11/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance and 3 in map reading. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 1 in first aid, and 2 in record keeping, for a total of 6 semester hours (11/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in mechanical maintenance and 3 in map reading. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 1 in first aid, 3 in personnel supervision, and 3 in record keeping, for a total of 10 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/79).

MOS-19H-001

ARMOR RECONNAISSANCE VEHICLE DRIVER

19H10
19H20

Exhibit Dates: 3/78-Present.

Career Management Field: 19 (Armor)

Description

Summary: Drives and performs operator maintenance on armor personnel carrier vehicle. *Skill Level 10:* Operates tracked vehicle over varied terrain and roadways in combat formations and armor marches; exercises techniques of land navigation; assists in reading and interpreting maps and aerial photographs; selects tank routes; assists in target detection and identification; operates vehicular intercommunications equipment; performs crew maintenance on automotive components of tank; employs principles of cover, concealment, and camouflage; administers first aid and applies field sanitation methods; assists in construction of fortifications barriers and minefields; protects self, weapons, vehicle, and equipment from chemical and other contaminants. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs as senior armor reconnaissance vehicle driver, and provides technical guidance to Skill Level 10 personnel; reads and interprets maps and aerial photographs.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid (11/79).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in mechanical maintenance and 3 in map reading. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading and 1 in first aid (11/79).

MOS-19J-001

M60A2 ARMOR CREWMAN

19J10
19J20
19J30
19J40

Exhibit Dates: 3/78-Present.

Career Management Field: 19 (Armor).

Description

Summary: Leads or serves as a member of a tank unit in field operations. *Skill Level 10:* Serves as loader or gunner of weapon, *using conventional ammunition or missile;* exercises safety precautions and knows first-aid procedures; installs and prepares radio equipment for use; operates communication equipment; prepares rangefinder, determines ranges and prepares range cards; operates main gun controls and firing controls; performs operator maintenance on vehicle armament and weapons; assists in maintaining other organizational equipment; assists in clearing and breaching minefields. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides guidance to Skill Level 10 personnel; inspects equipment for malfunctions; assists in maintaining gunnery proficiency of Skill Level 10 personnel; supervises ammunition supply operations; prepares, files, and distributes operation and situation maps and overlays; reads and interprets maps and aerial photos; reproduces and distributes intelligence and operations documents; reproduces files and distributes training and administrative documents, publications, and evaluation reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as tank commander and first-line supervisor; directs deployment of personnel in combat operations; identifies and selects targets; issues fire commands and directs fire on targets; trains crew members; coordinates action of tank with platoon and supporting elements; evaluates work performance of crew members; ensures collection and reporting of intelligence data. NOTE: May have progressed to 19J30 from 19J20 or 19F20 (Tank Driver). *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises tank platoon operations and processing of intelligence information; assists in planning, organizing, and coordinating squads; advises commander on employment of weapons and the assigning of fields of fire.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in mechanical maintenance. In the lower-division baccalaureate/associate degree category, 1 semester hour in first aid (11/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in mechanical maintenance and 3 in map reading. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 1 in first aid, and 2 in record keeping, for a total of 6 semester hours (11/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in mechanical maintenance and 3 in map reading. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 1 in first aid, 3 in personnel supervision, and 3 in record keeping, for a total of 10 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (11/79).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in mechanical maintenance and 3 in map reading. In the lower-division baccalaureate/associate degree category, 3 semester hours in map reading, 1 in first aid, 3 in record keeping, 3 in personnel supervision, and 3 in human relations, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in personnel management (11/79).

MOS-19Z-001

ARMOR SENIOR SERGEANT

19Z50

Exhibit Dates: 3/78-Present.

Career Management Field: 19 (Armor).

Description

Plans, coordinates, and supervises activities of a unit; supervises operations, intelligence, or liaison activities; as intelligence sergeant, collects, interprets, analyzes, and distributes intelligence information; writes routine and special reports, commendations, and operations plans; edits and prepares tactical and training plans; coordinates and implements training programs and directs on-the-job training; is a mid-level manager overseeing 90-150 persons; assists in making formal briefing presentations, and in presenting instruction to larger groups (30-70); provides formal and informal counseling to individuals and groups. NOTE: May have progressed to 19Z50 from 19D40 (Cavalry Scout), 19E40 (M48-M60A1/A3 Armor Crewman), or 19J40 (M60A2 Armor Crewman)

Recommendation

In the lower-division baccalaureate/associate degree category, 6 semester hours in personnel supervision, 3 in office management, 3 in report writing, and 3 in public speaking, for a total of 15 semester hours. In the upper-division baccalaureate/category, 6 semester hours in personnel management, 6 for field experience in management, 3 in human relations, and 3 in report writing, for a total of 18 semester hours (11/79).

MOS-21G-001

PERSHING ELECTRONICS MATERIEL SPECIALIST

21G20
21G40

Exhibit Dates: 10/73-8/77.

Career Management Field: 21 (Ballistic Missile Repair), *subfield* 211, Pershing Missile Repair.

Description

Summary: Supervises or performs inspection, checkout, and troubleshooting of electronic equipment associated with the Pershing missile system. *Skill Level 20:* Inspects, tests, adjusts, and troubleshoots the Pershing programmer test station, missile, missile trainer, erector launcher, power station, and associated equipment; pulls module unit or circuit board for others to repair; uses multimeter, frequency meter, and to a limited extent, other electronic meters; employs a working knowledge of electronics. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises five or more Skill Level 20 personnel; supervises the preparation of technical forms and reports; coordinates activities with other maintenance units; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; supervises the requisitioning and storing of supplies and repair parts.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electronics. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC-DC theory and 1 in introduction to digital electronics. In an electronics technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electronics. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC-DC theory, 1 in introduction to digital electronics, 3 in human relations, and 3 for field experience in management, for a total of 10 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (3/76).

MOS-21G-002

Pershing Electronics Materiel Specialist

21G10
21G20
21G30

Exhibit Dates: 9/77–Present.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance), *subfield* 271 (Ballistic-Land Combat Systems Maintenance).

Description

Summary: Supervises or performs inspection, checkout, and trouleshooting on electronic, mechanical, hydraulic, and pneumatic equipment associated with the Pershing missile system. *Skill Level 10:* Operates and performs maintenance on the Pershing missile programmer-test station, missile, missile trainer, erector-launcher, power station, and associated equipment; performs limited isolation of malfunctioning equipment and components through the use of computer and adapter diagnostic program tapes. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs detailed organizational maintenance of the system and provides technical guidance to operator personnel; isolates malfunctioning equipment and components through manual troubleshooting techniques, using electronic test equipment and functional schematics; adjusts or replaces malfunctioning components; prepares maintenance and supply forms and reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises maintenance activities; supervises the preparation of technical forms and reports; coordinates activities with supporting maintenance units; determines faulty work practices and demonstrates proper maintenance and troubleshooing techniques; supervises the requisitioning and storage of supplies and repair parts.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic electronics. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory and 1 in technical mathematics (6/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electronics, 3 in AC/DC theory, and 1 in digital electronics, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in basic electronics, 2 in technical mathematics, and 1 in digital electronics, for a total of 9 semester hours (6/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in basic electronics, 2 in technical mathematics, 1 in digital electronics, 3 in human relations and 3 for field experience in management, for a total of 15 semester hours (6/79).

MOS-21L-001

Pershing Electronics Repairman

21L20
21L40
21L50

Exhibit Dates: 10/73–8/77.

Career Management Field: 21 (Ballistic Missile Repair), *subfield* 211 (Pershing Missile Repair).

Description

Summary: Supervises or performs maintenance and repair of all electronic systems and components of the Pershing missile system, using a theoretical and working knowledge of electronic, digital, and logic circuits. *Skill Level 20:* Performs maintenance on the programmer test station, training set, and associated equipment, and on system test equipment; reads electronic schematics; uses a wide range of electronic meters, including scope, to inspect, test, and adjust components; determines the causes of malfunctions in electronic, electrical, electromechanical, and pneumatic assemblies, subassemblies, modules, and circuit elements, and makes necessary repairs or replaces defective components; has a background in electronic theory and is familiar with digital and logic circuits; performs quality control measures; installs modifications on electronic equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes repair priorities; supervises 6 or more persons in an electronic repair section; conducts on-the-job training; implements quality control measures; establishes and keeps maintenance records; determines faulty work practices and demonstrates proper maintenance techniques. *Skill Level 50:* Able to perform the duties required for Skill Level 40; as the principal noncommissioned officer in a missile maintenance unit, supervises 30 or more persons; assists superiors in establishing policies and procedures; directs and coordinates the administration of a unit or facility; directs on-the-job training; may serve as a chief instructor in a formal training facility; holds meetings with subordinate noncommissioned officers to provide guidance and direction. NOTE: May have progressed to 21L50 from 21L40, 21G40 (Pershing Electronics Materiel Specialist), or 46N40 (Pershing Electrical-Mechanical Repairman).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 2 in digital electronics, and 2 in technical mathematics, and additional credit in electronic instruments on the basis of institutional evaluation, for a minimum total of 7 semester hours. In an electronic technician apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC-DC theory, 2 in digital electronics, 2 in technical mathematics, 3 in human relations, 3 for field experience in management, and additional credit in electronic instruments on the basis of institutional evaluation, for a minimum total of 13 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (3/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in human relations, 3 in personnel management, 6 for field experience in management, and 3 in industrial arts education (electronics), for a minimum total of 18 semester hours; *if the duty assignment was chief instructor in a formal training facility,* 3 additional semester hours for an internship in education, for a total of 21 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (3/76).

MOS-21L-002

Pershing Electronics Repairer

21L10
21L20
21L30
21L40
21L50

Exhibit Dates: 9/77–Present.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance).

Description

Summary: Supervises or performs maintenance and repair of electronic, mechanical, hydraulic, and pneumatic systems and components associated with the Pershing Missile System, using a theoretical and working knowledge of electronic, digital, and logic circuits. *Skill Level 10:* Performs maintenance on the programmer test station, items for the guidance and control section, training set and associated training equipment, and on system test equipment; reads electronic schematics and uses a wide range of electronic meters, including scope, to inspect, test, and adjust components to specific tolerances; determines deficiencies and causes of malfunctions in electronic, electrical, electromechanical, and pneumatic assemblies, subassemblies, modules, and circuit elements; determines serviceability and disposition of defective assemblies, subassemblies, and parts; serves on inspection teams. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; installs equipment modifications; provides technical assistance to support units. *Skill Level 30:* Able to perform the duties required for Skill Level 20; establishes workload and repair priorities; supervises receipt, storage, inspection, testing, and repair of items; implements quality control measures; organizes and conducts on-the-job training programs; determines faulty work practices and demonstrates proper maintenance techniques; establishes and maintains maintenance records; serves as maintenance inspector; may supervise 6 or more persons. *Skill Level 40:* Able to perform duties required for either 21L30, 21G30 (Pershing Electronic Materiel Specialist), or 46N30 (Pershing Electrical-Mechanical Repairer); supervises maintenance on electronic and electro-mechanical systems and components of the missile systems; serves as section chief or platoon sergeant of a detachment, platoon company, or comparable organization; supervises and assists in the development of quality control programs; may supervise 7 or more persons. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises Pershing Missile System maintenance activities; serves as maintenance chief; may supervise 30 or more persons; serves as principal noncommissioned officer in a missile maintenance unit.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in AC/DC theory, 6 in basic electronics, 9 in computer fundamentals, and 3 in technical mathematics, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in basic electronics, 3 in computer fundamentals, and 3 in technical mathematics, for a total of 12 semester hours (6/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in basic electronics, 3 in computer fundamentals, 3 in technical mathematics, 3 in maintenance management, 3 in personnel supervision, and 3 in human relations, for a total of 21 semester hours (6/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in basic electronics, 3 in computer fundamentals, 3 in technical mathematics, 3 in maintenance management, 3 in personnel supervision, 3 in human relations, 2 in communication skills, and 3 for field experience in management, for a total of 26 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to managment, 3 for field experience in management, and 3 in industrial arts education (electronics), for a total of 9 semester hours (6/79).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 6 for field experience in management, 3 in industrial arts education (electronics) and 3 in personnel management, for a total of 15 semester hours (6/79).

MOS-21R-001

SERGEANT FIRING SET REPAIRMAN

21R20

21R40

Exhibit Dates: 10/73-8/77. (Effective 9/77, MOS 21R was discontinued.)

Career Management Field: 21 (Ballistic Missile Repair), *subfield* 212 (Sergeant Missile Repair).

Description

Summary: Supervises or performs support maintenance on the Sergeant missile system firing set. *Skill Level 20:* Performs functional tests on the firing set in conjunction with the missile or training missile to assure proper countdown operation; performs systems analysis with portable test equipment and built-in self-test circuits to locate and isolate malfunctioning electrical circuits and electronic assemblies; removes and replaces defective assemblies and adjusts equipment to insure performance within specified tolerances; performs initial and final checkout and serviceability inspections; determines disposition of defective assemblies; performs quality control measures; performs minor calibration; provides technical assistance; serves on inspection teams; prepares maintenance and supply forms. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes work loads and repair priorities; recommends procedures for receipt, storage, inspection, testing, and repair of items; implements quality control measures; supervises inspection and maintenance teams; organizes and conducts on-the-job training programs; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in basic electricity laboratory and 2 in systems maintenance (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in basic electricity laboratory and 2 in systems maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 for field experience in management (6/76).

MOS-21S-001

SERGEANT MISSILE GUIDANCE REPAIRMAN

21S20

21S40

Exhibit Dates: 10/73-8/77. (Effective 9/77, MOS 21S was discontinued.)

Career Management Field: 21 (Ballistic Missile Repair), *subfield* 212 (Sergeant Missile Repair).

Description

Summary: Supervises or performs support maintenance on the Sergeant missile guidance system. *Skill Level 20:* Operates test stations and appropriate supplemental shop sets to isolate malfunctions to the assembly level in missile guidance and control systems and training missiles; may isolate malfunctions to the subassembly level when required; removes and replaces defective assemblies; performs initial and final checkout and inspection; makes authorized adjustments on equipment; determines disposition of defective assemblies; performs quality control measures; performs simple calibrations; provides technical assistance; serves on inspection teams; prepares applicable maintenance and supply forms. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes work loads and repair priorities; recommends procedures for receipt, storage, inspection, testing, and repair of items; implements quality control measures; supervises inspection and maintenance teams; organizes and conducts on-the-job training programs; determines faulty work practices and demonstrates maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in basic electricity laboratory and 2 in systems maintenance (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in basic electricity laboratory and 2 in systems maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 for field experience in management (6/76).

MOS-21T-001

SERGEANT TEST EQUIPMENT REPAIRMAN

21T20

21T40

Exhibit Dates: 10/73-8/77. (Effective 9/77, MOS 21T was discontinued.)

Career Management Field: 21 (Ballistic Missile Repair), *subfield* 212 (Sergeant Missile Repair).

Description

Summary: Supervises or performs support maintenance on Sergeant missile system test equipment. *Skill Level 20:* Operates and performs support maintenance on special test sets used on the Sergeant missile system; isolates subassembly malfunctions; repairs or removes and replaces defective components and parts; performs initial and final checkout and inspection of equipment; determines serviceability and disposition of defective assemblies, subassemblies, and components; performs quality control measures; performs maintenance and calibration on maintenance test equipment; serves on inspection teams; prepares maintenance and supply forms and reports. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises support maintenance on Sergeant missile system test equipment; establishes work loads and repair priorities; recommends procedures for receipt, storage, inspection, testing, and repair of items; implements quality control measures; supervises inspection and maintenance teams; organizes and conducts on-the-job training programs; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in basic electricity laboratory and 2 in systems maintenance (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in basic electricity laboratory and 2 in systems maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 for field experience in management (6/76).

MOS-21U-001

SERGEANT MAINTENANCE CHIEF

21U50

Exhibit Dates: 10/73-8/77. (Effective 9/77, MOS 21U was discontinued.)

Career Management Field: 21 (Ballistic Missile Repair), *subfield* 212 (Sergeant Missile Repair).

Description

Supervises support maintenance of the Sergeant missile system; able to perform the duties required for 21R40 (Sergeant Firing Set Repairman); 21S40 (Sergeant Missile Guidance Repairman), 21T40 (Sergeant Test Equipment Repairman), or 46L40 (Sergeant Electrical-Mechanical Repairman); supervises and coordinates support maintenance of the Sergeant missile, launching station and firing set, azimuth orientation unit, training missile, special test stations, supplemental shop sets, and other system-associated equipment; may supervise up to 120 persons; supervises and assists in the development of quality assurance/quality control programs; may serve as an administrator; advises superiors on all enlisted personnel matters; may serve as a chief instructor in a formal training facility.

Recommendation

In the vocational certificate category, 2 semester hours in hydraulic laboratory, 2 in basic electricity laboratory, and 2 in systems maintenance, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in office management, 1 in public speaking, 3 in personnel supervision, and 6 for field experience in management, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management; and *if the duty assignment was chief instructor*, 3 semester hours for an internship in education (6/76).

MOS-22K-001

HAWK MISSILE-LAUNCHER REPAIRMAN

22K20
22K40

Exhibit Dates: 10/73-1/76.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 233 (Hawk Missile System Repair).

Description

Summary: Performs inspection, maintenance, and repair on specialized missile and support equipment. *Skill Level 20:* Performs routine maintenance on missile and launching devices; inspects, tests, and adjusts equipment components to specified tolerances; identifies and repairs malfunctions in fluidic, electrical, electronic, and mechanical systems, using a wide variety of test equipment, including multimeters, bridges, oscilloscopes, signal generators, and pulse counters; performs calibration and repair for all test equipment; keeps applicable maintenance and supply forms and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor with responsibility for on-the-job training; establishes workloads and repair priorities; implements quality control measures; conducts technical inspections; keeps maintenance records.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics and 3 in basic mathematics (including trigonometry). In an electronic technician apprentice training program, 1,000 clock hours of experience and 200 contact hours of related instruction (3/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics and 3 in basic mathematics (including trigonometry), and additional credit in personnel supervision and for field experience in education on the basis of institutional evaluation for a minimum total of 6 semester hours. In an electronic technician apprentice training program, 1,200 clock hours of experience and 250 contact hours of related instruction (3/75).

MOS-22K-002

HAWK MISSILE-LAUNCHER REPAIRMAN

22K20
22K40

Exhibit Dates: 2/76-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 233 (Hawk Missile System Repair).

Description

Summary: Supervises or performs maintenance on the Hawk missile system, launcher, and associated equipment. *Skill Level 20:* Uses common and system special-design test equipment to inspect, test, and adjust missile and launcher-control components to specific tolerances and to troubleshoot malfunctions (to component level) in electronic, electrical, mechanical, hydraulic, and electromechanical assemblies, subassemblies, modules, and circuit elements; installs equipment modifications; performs quality control measures, minor calibrations, and initial and final checkouts and inspections; determines the serviceability and disposition of defective assemblies, subassemblies, and parts. *Skill Level 40:* Able to perform the duties required for *Skill Level 20;* provides first-line technical supervision for Hawk missile-launcher repairmen; coordinates repair activities; organizes and supervises maintenance and inspection teams; prepares technical reports and forms; plans and conducts on-the-job training; keeps maintenance records; implements quality control measures; recommends procedures for receiving, storing, testing, and repairing equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electronics, 3 in technical mathematics, 2 in shop practices, and 1 in control systems, and additional credit in electronics, hydraulics, and mechanics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 2 in DC circuit analysis, 2 in AC circuit analysis, 2 in technical mathematics, 1 in transistor/tube theory, 1 in electronic instruments, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 11 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 3 in human relations, 3 in personnel supervision, 2 in DC circuit analysis, 2 in AC circuit analysis, 2 in technical mathematics, 1 in transistor/tube theory, and 1 in electronic instruments, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 17 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-22K-003

HAWK MISSILE AND LAUNCHER REPAIRER

22K10
22K20
22K30

Exhibit Dates: 3/78-Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 233 (Hawk Missile System Repair).

Description

Summary: Performs maintenance on the Hawk missile and missile launcher. *Skill Level 10:* Performs routine maintenance on missile and launching devices; inspects, tests, and adjusts components, subassemblies, and assemblies to specified tolerances; identifies and repairs malfunctions in hydraulic, electrical, electronic, and mechanical systems, using a wide variety of test equipment, including oscilloscopes, signal generators and allied instruments; performs tests of missiles in storage to ascertain readiness condition. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; performs initial and final type checkout and inspection of designated system assemblies; installs approved system modifications; provides technical assistance to supported units; completes maintenance and supply forms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises activities of lower skill level personnel; establishes workloads and repair priorities; recommends procedures for repair, inspection, and storage of systems under the area of responsibility; organizes and supervises inspection teams; organizes and conducts on-the-job training programs; establishes and keeps maintenance records current.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic mathematics (including trigonometry) and 3 in basic electricity and electronics. In the lower-division baccalaureate/associate degree category, 3 semester hours in beginning algebra and 3 in basic electricity and electronics (1/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic mathematics (including trigonometry), 3 in basic electricity and electronics, 3 in electronic test procedures, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in beginning algebra, 3 in basic electricity and electronics, and 3 in electronic test procedures, for a total of 9 semester hours (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic mathematics (including trigonometry), 3 in basic electricity and electronics, 3 in electronic test procedures, 3 in electronics shop practices, and 2 in maintenance management, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in beginning algebra, 3 in basic electricity and electronics, 3 in electronic test procedures, 3 in electronics shop practices, 3 in personnel supervision, and 2 in record keeping, for a total of 17 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel management (1/80).

MOS-22L-001

NIKE TEST EQUIPMENT REPAIRMAN

22L20

22L40

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Supervises or performs maintenance on Nike special purpose test equipment. *Skill Level 20:* Inspects, tests, and adjusts system-item chassis and test equipment to specific tolerances; troubleshoots and repairs deficiencies in electronic assemblies and subassemblies (to component level); determines serviceability and disposition of defective assemblies, subassemblies, and parts; performs initial and final checkouts and inspections; performs quality control measures; performs minor calibrations; installs modifications. *Skill Level 40:* Able to perform the duties required for Skill Level 20; provides first-line technical supervision of Nike test equipment repairmen; establishes workloads and repair priorities; prepares technical forms and reports; organizes and supervises inspection and maintenance teams; plans and conducts on-the-job training programs; supervises requisitioning and storing of repair parts and supplies.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in technical mathematics, 2 in control systems, 1 in systems maintenance, 1 in communication systems (electronics), 1 in shop practices, and 1 in alignment techniques (video), for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 3 in radar/microwave theory, 2 in DC circuit analysis, 2 in AC circuit analysis, 1 in electronic instruments, 1 in digital computer fundamentals, and 1 in transistor/tube theory, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) and additional credit in electron device theory, radar/microwave, digital computers, and circuit analysis on the basis of institutional evaluation. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 3 in radar/microwave theory, 3 in human relations, 3 in personnel supervision, 2 in DC circuit analysis, 2 in AC circuit analysis, 1 in electronic instruments, 1 in digital computer fundamentals, and 1 in transistor/tube theory, for a total of 19 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics), 3 for field experience in management, and additional credit in electron device theory, radar/microwave, digital computers, and circuit analysis on the basis of institutional evaluation, for a minimum total of 6 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-22L-002

NIKE TEST EQUIPMENT REPAIRER

22L10

22L20

22L30

Exhibit Dates: 3/78-Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Supervises or performs maintenance and repair on Nike special purpose test equipment. *Skill Level 10:* Inspects, tests, and adjusts system-item chassis and test equipment to specific tolerances, having known-input readings to test against; knows circuit diagrams and reads schematics; troubleshoots and repairs deficiencies in electronic assemblies and subassemblies; replaces individual components; uses multimeters, oscilloscopes, and electronic shop assemblies; determines serviceability and disposition of defective assemblies, subassemblies, and parts; performs quality control measures; performs minor calibrations and repairs; serves on inspection teams to evaluate serviceability of associated equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel and supported units; installs equipment modifications; completes maintenance and supply forms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower skill level personnel; corrects faulty work practices; establishes workloads and repair priorities; prepares technical forms and keeps maintenance records; organizes and conducts on-the-job training programs; recommends procedures for inspecting, testing, and repair of items; implements quality control program; performs initial and final checkout inspections of workload items; organizes and supervises inspection and maintenance teams.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 2 semester hours in basic electricity, 1 in systems maintenance, and 3 in electronic systems troubleshooting, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 2 in AC/DC circuit fundamentals, and 1 in electronic instruments, for a total of 6 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering), and credit in electronic device theory, radar/microwave, and circuit analysis on the basis of institutional evaluation (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in basic electricity, 3 in systems maintenance, 3 in electronics shop practices, 2 in maintenance management, and 3 in electronic systems troubleshooting, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 2 in AC/DC circuit fundamentals, 3 in electronics shop practices, 2 in maintenance management, 1 in electronic instruments, 3 in personnel supervision, and 2 in record keeping, for a total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering), 3 for field experience in personnel management, and credit in electronic device theory, radar/microwave, and circuit analysis on the basis of institutional evaluation (1/80).

MOS-22N-001

NIKE-HERCULES MISSILE-LAUNCHER REPAIRMAN

22N20

22N40

Exhibit Dates: 10/74-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Supervises or performs maintenance on the Nike-Hercules missile system, launcher, and associated equipment. *Skill Level 20:* Uses common and system special-design test equipment to inspect, test, and adjust missile and launcher-control components to specific tolerances and to troubleshoot malfunctions (to component level) in electronic, electrical, mechanical, electromechanical, hydro-pneumatic assemblies, subassemblies, modules, and circuits; installs equipment modifications; performs quality control measures, minor calibrations, and initial and final checkouts and inspections; determines the serviceability and disposition of defective assemblies, subassemblies, and parts. *Skill Level 40:* Able to perform the duties required for Skill Level 20; provides first-line technical supervision for Nike-Hercules missile-launcher repairmen; coordinates repair activities; organizes and supervises inspection and maintenance teams; prepares technical reports and forms; plans and conducts on-the-job training; keeps maintenance records; implements quality control measures; recommends procedures for receiving, storing, testing, and repairing equipment.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in technical mathematics, 2 in control systems, 1 in systems maintenance, 1 in communications systems (electronics), 1 in shop practices, and 1 in alignment techniques (video) for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 3 in radar/microwave theory, 2 in DC circuit analysis, 2 in AC circuit analysis, 1 in electronic instruments, 1 in digital computer fundamentals, and 1 in transistor/tube theory, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) and additional credit in electron device theory, radar/microwave, digital computers, and circuit analysis on the basis of institutional evaluation. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 3 in radar/microwave theory, 3 in human relations, 3 in personnel supervision, 2 in DC circuit analysis, 2 in AC circuit analysis, 1 in electronic instruments, 1 in digital computer fundamentals, and 1 in transistor/tube theory, for a total of 19 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics), 3 for field experience in management, and additional credit in electron device theory, radar/microwave, digital computers, and circuit analysis on the basis of institutional evaluation, for a minimum total of 6 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-22N-002

NIKE-HERCULES MISSILE-LAUNCHER REPAIRER

22N10
22N20
22N30

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Supervises or performs maintenance and repair on Nike-Hercules missile system, launcher, and associated equipment. *Skill Level 10:* Uses common and special-design test equipment to inspect, test, and adjust launcher-control and missile components to specific tolerances; troubleshoots and repairs electric, mechanical, electromechanical, and hydropneumatic assemblies and subassemblies, replaces individual component items; uses multimeter and oscilloscope to verify radio frequency pulse and to diagnose; performs quality control measures, minor calibrations, and checkout inspections; determines serviceability and disposition of defective assemblies or parts; serves on inspection teams. *Skill level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel and to supported units; installs equipment modifications; completes maintenance and supply forms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower skill level personnel; establishes and keeps maintenance records; organizes and supervises inspection and maintenance teams; conducts on-the-job training programs; recommends procedures for inspecting, testing, and repairing items; implements quality control procedures and coordinates repair activities.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 2 semester hours in basic electricity, 1 in systems maintenance, 1 in electronic systems troubleshooting, and 2 in mechanical/hydraulic systems troubleshooting, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 2 in AC/DC circuit fundamentals, and 1 in electronic instruments, for a total of 6 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering), and credit in electronic device theory, hydraulic theory, and circuit analysis on the basis of institutional evaluation (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in basic electricity, 3 in systems maintenance, 1 in electronic systems troubleshooting, 3 in electronics shop practices, 2 in mechanical/hydraulic systems troubleshooting, and 2 in maintenance management, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 2 in AC/DC circuit fundamentals, 1 in electronic instruments, 2 in record keeping, 3 in electronics shop practices, 3 in personnel supervision, and 2 in maintenance management, for a total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering), 3 for field experience in personnel management, and credit in electronic device theory, hydraulic theory, and circuit analysis on the basis of institutional evaluation (1/80).

MOS-23N-001

NIKE TRACK RADAR REPAIRMAN

23N20
23N40

Exhibit Dates: 10/73–2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Maintains low-power acquisition radar, target and missile tracking radar, target ranging radar, as well as on-site systems, including analog computer, test sets, antenna mast group, operator console, and associated test equipment. *Skill Level 20:* Inspects, tests, and adjusts components to specific tolerances; determines malfunctions in electronic, mechanical, electrical, and electromechanical systems with common and special-designed system test equipment; repairs assemblies and modules; performs initial and final inspection on systems and assemblies; performs calibration and repair on job-related equipment; installs modifications on system items; serves on inspection teams. *Skill Level 40:* Able to perform the duties required for Skill Level 20; provides first-line technical supervision; trains personnel; supervises the preparation of technical forms and reports; coordinates unit activities; demonstrates proper maintenance and troubleshooting techniques; establishes workloads and repair priorities; conducts technical inspections.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in technical mathematics, 2 in control systems, 1 in systems maintenance, 1 in communications systems (electronics), 1 in shop practices, and 1 in alignment techniques (video), for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 3 in radar/microwave theory, 2 in DC circuit analysis, 2 in AC circuit analysis, 1 in electronic instruments, 1 in digital computer fundamentals, and 1 in transistor/tube theory, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) and additional credit in electron device theory, radar/microwave, digital computers, and circuit analysis on the basis of institutional evaluation. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 3 in radar/microwave theory, 3 in human relations, 3 in personnel supervision, 2 in DC circuit analysis, 2 in AC circuit analysis, 1 in electronic instruments, 1 in digital computer fundamentals, and 1 in transistor/tube theory, for a total of 19 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics), 3 for field experience in management, and additional credit in electron device theory, radar/microwave, digital computers, and circuit analysis on the basis of institutional evaluation, for a minimum total of 6 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-23N-002

NIKE TRACK RADAR REPAIRER

23N10
23N20
23N30

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Maintains low-power acquisition radar, target and missile tracking radar, target ranging radar, as well as on-site systems, including analog computer, test sets, antenna mast group, operator console, and associated test equipment. *Skill Level 10:* Inspects, tests, and adjusts components to specific tolerances; follows specified written procedures and circuit schematics; uses typical industrial, as well as military test equipment to determine malfunctions in electronic, mechanical, electrical, and electro-mechanical systems; troubleshoots and repairs assemblies and modules down to the component level; performs calibration and repair on job-related equipment; may install modifications on systems and serve on inspection teams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs initial and final inspection on systems and subassemblies; may assist in on-the-job training. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides first-line technical supervision; trains personnel; supervises the preparation of technical forms; coordinates unit activities; demonstrates proper maintenance and troubleshooting techniques; establishes workloads and repair priorities; conducts technical inspections.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 2 semester hours in basic electronics, 2 in electronics systems troubleshooting, and 2 in electronic instruments, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to electronics and 2 in electronic instruments. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering) (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in basic electronics, 2 in electronics systems troubleshooting, 2 in electronic instruments, 2 in maintenance management, and 3 in electronics shop practices, for a total of 11 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in introduction to electronics, 2 in electronics instruments, 3 in personnel supervision, and 2 in record keeping, for a total of 9 semester hours. In the upper-divison baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering) and 3 for field experience in personnel management (1/80).

MOS-23Q-001

Hawk Fire Control Repairman

23Q20
23Q40

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 233 (Hawk Missile System Repair).

Description

Summary: Supervises or performs maintenance on the Hawk missile fire control system equipment. *Skill Level 20:* Tests, evaluates, and repairs electronics modules, circuit elements, and complete assemblies for radar and communications; uses test equipment such as oscilloscopes, voltmeters, ohmmeters, and spectrum analyzers; installs equipment modifications; analyzes malfunctions; assists radar equipment operators in maintaining equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises support level maintenance on the Hawk fire control system equipment; establishes workloads and repair priorities; implements quality control measures; organizes and supervises inspection and maintenance teams; conducts on-the-job training; keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic electronics and 3 semester hours in advanced electronics, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics (including right angle trigonometry), 3 in DC circuits, 3 in AC circuits, 3 in transistors/tubes/amplifiers/oscillators, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in AC/DC concepts and 3 in industrial arts education (electronics). In an electronic technician apprentice training program 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics (including right angle trigonometry), 3 in DC circuits, 3 in AC circuits, 3 in transistors/tubes/amplifiers/oscillators, 3 in human relations, and 3 in personnel supervision, and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in AC/DC concepts and 3 in industrial arts education (electronics). In an electronic technician apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-23Q-002

Hawk Fire Control Repairer

23Q10
23Q20
23Q30

Exhibit Dates: 3/78-Present. Pending evaluation.

MOS-23S-001

Hawk Pulse Radar Repairman

23S20
23S40

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 233 (Hawk Missile System Repair).

Description

Summary: Supervises or performs maintenance on the Hawk pulse acquisition radar and associated equipment. *Skill Level 20:* Inspects, tests, and adjusts components to specific tolerances; determines deficiencies in electronic, electrical, mechanical, electromechanical, and heat transfer assemblies, subassemblies, modules, and circuit elements, using common and system special-design test equipment; troubleshoots to the component level; installs equipment modifications; performs initial and final checkouts and inspections. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises support-level maintenance on the Hawk pulse radar and related equipment; establishes workloads and repair priorities; implements quality control measures; organizes and supervises maintenance and inspection teams; conducts on-the-job training; demonstrates proper repair techniques; keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in DC circuits, 3 in AC circuits, and 3 in transistors/tubes, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics (including trigonometric functions), 3 in DC circuits, 3 in AC circuits, and 3 in transistors/tubes, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in AC/DC concepts and 3 in industrial arts education (electronics). In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics (including trigonometric functions), 3 in DC circuits, 3 in AC circuits, 3 in transistors/tubes, 3 in human relations, 3 in personnel supervision and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in AC/DC concepts and 3 in industrial arts education (electronics). In an electronic technician apprentice training program, 3,000 clock hours of experience and 216 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-23S-002

Hawk Pulse Radar Repairer

23S10
23S20
23S30

Exhibit Dates: 3/78-Present. Pending evaluation.

MOS-23T-001

Hawk Continuous Wave Radar Repairman

23T20

23T40

Exhibit Dates: 10/73-1/76.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 233 (Hawk Missile System Repair).

Description

Summary: Performs inspection, maintenance, and repair on a specialized continuous wave acquisition radar and associated equipment. *Skill Level 20:* Inspects, tests, adjusts, troubleshoots, and repairs items associated with this specific continuous wave radar system; provides technical assistance to operators; uses a wide range of test equipment including multimeters, bridges, oscilloscopes, signal generators, and pulse counters. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor responsible for on-the-job training; establishes workloads and maintenance priorities; implements quality control measures; keeps maintenance records.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics and 3 in basic mathematics (including trigonometry). In an electronic technician apprentice training program, 1,000 clock hours of experience and 200 contact hours of related instruction (3/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics and 3 in basic mathematics (including trigonometry), and additional credit in personnel supervision and for field experience in education on the basis of institutional evaluation, for a minimum total of 6 semester hours. In an electronic technician apprentice training program, 1,200 clock hours of experience and 250 contact hours of related instruction (3/75).

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 233 (Hawk Missile System Repair).

Description

Summary: Performs maintenance on Hawk continuous wave radars and associated equipment. *Skill Level 20:* Performs maintenance on the Hawk continuous wave radar, continuous wave illuminator radar (high powered illuminator-HPI), including HPI built-in test equipment and other system-designed test equipment; inspects, tests, and adjusts components to specific tolerances; determines shortcomings and malfunctions in electronic, electrical, electromechanical, and heat transfer assemblies, subassemblies, modules, and circuit elements, using common and system special-design test equipment; determines serviceability and disposition of defective assemblies, subassemblies, and parts; performs "C" level calibration and repair on test equipment; installs equipment modifications; performs initial and final checkouts and inspections; provides technical assistance to other units. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance on Hawk continuous wave radar and associated equipment; establishes repair priorities and workloads; implements quality control measures; supervises inspection and maintenance teams; conducts on-the-job training programs; demonstrates proper repair techniques and procedures; keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in AC and DC circuits and use of test equipment, and 3 in radar, and additional credit in mechanics and electronics on the basis of institutional evaluation, for a minimum total of 15 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in AC and DC circuits and use of test equipment, 3 in radar, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, and additional credit in mechanics and electronics on the basis of institutional evaluation, for a minimum total of 24 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-23T-003

Hawk Continuous Wave Radar Repairer

23T10

23T20

23T30

Exhibit Dates: 3/78-Present. Pending evaluation.

MOS-23U-001

Nike High Power Radar-Simulator Repairman

23U20

23U40

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Supervises or performs maintenance on Nike high-power acquisition radar, radar target simulator, and associated equipment. *Skill Level 20:* Uses common and special-design test equipment to inspect, test, and adjust components to specific tolerances and to determine malfunctions in electronic, electrical, mechanical, hydraulic, pneumatic, and heat transfer assemblies, modules, and circuit elements; determines serviceability and disposition of defective assemblies, subassemblies, and parts; performs initial and final checkouts and inspections; performs quality control measures; installs equipment modifications. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; recommends procedures for receiving, storing, testing, and repairing equipment; implements quality control measures; organizes and supervises inspection and maintenance teams; conducts on-the-job training; demonstrates proper repair techniques; keeps maintenance records; is a first-line technical supervisor.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in AC and DC theory and 3 in vacuum tube and transistor theory. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) and additional credit in electron device theory and/or AC and DC circuit theory on the basis of institutional evaluation. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in AC and DC theory, 3 in vacuum tube and transistor theory, and 3 in technical mathematics, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in AC and DC theory, 3 in vacuum tube and transistor theory, 3 in human relations, and 3 in personnel supervision, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics), 3 for field experience in management, and additional credit in electron device theory and/or AC and DC circuit theory on the basis of institutional evaluation, for a minimum total of 6 semester hours. In an electronic technician apprentice training program, 3,000 clock hours of experience and 216 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-23U-002

Nike High Power Radar—Simulator Repairer

23U10

23U20

23U30

Exhibit Dates: 3/78-Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Supervises or performs maintenance and repairs on Nike high-power acquisition radar, radar target simulator, and associated equipment. *Skill Level 10:* Performs highly complex maintenance, calibration and repairs on solid-state, as well as vacuum tube radar and microwave equipment; uses knowledge in basic electronics and schematic tracing to troubleshoot assemblies and circuits down to the component level; performs certain mathematical calculations during routine calibration or alignment procedures; uses common and specialized test equipment to perform diagnostic tests on radar, microwave, power supply, or computer subassemblies; uses common and specialized handtools to perform repairs or adjustments on electrical, electronic, mechanical, pneumatic and hydraulic equipment; supervises or trains maintenance and operator personnel on the proper handling or maintenance of various parts of the radar equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel and supported units; installs equipment modifications; completes maintenance and supply forms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower skill level personnel; assigns duties; manages maintenance schedules, inspections, and quality control; supervises inspection and maintenance teams; conducts on-the-job training programs; keeps maintenance records.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in basic electronics, 2 in electronic control devices, 3 in radar/microwave technology, 1 in digital circuits, 2 in electronic instruments, and 1 in mechanical laboratory, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics, 3 in radar/microwave technology, and 1 in digital circuits, for a total of 7 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering) and 3 in a technical elective (radar/microwave theory) (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electronics, 2 in electronic control devices, 3 in radar/microwave technology, 1 in digital circuits, 2 in electronic instruments, 1 in mechanical laboratory, 3 in electronics shop practices, and 2 in maintenance management, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity/electronics, 3 in radar/microwave technology, 3 in electronics shop practices, 2 in maintenance management, 1 in digital circuits, 3 in personnel supervision, and 2 in record keeping, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering), 3 in a technical elective (radar/microwave theory), and 3 for field experience in personnel management, for a total of 9 semester hours (1/80).

MOS-23V-001

HAWK MAINTENANCE CHIEF

23V50

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 233 (Hawk Missile System Repair).

Description

Supervises the maintenance of the Hawk missile system; assists in the development of the quality assurance/quality control program and supervises its implementation; interprets policy; recommends changes in policy and procedures; advises superiors; plans all work activities and operations; directs on-the-job training. NOTE: May have progressed to 23V50 from 22K40 (Hawk Missile-Launcher Repairman), 23Q40 (Hawk Fire Control Repairman), 23S40 (Hawk Pulse Radar Repairman), 23Q40 (Hawk Continuous Wave Radar Repairman), 24B40 (Hawk Continuous Wave Radar Mechanic), 24D40 (Hawk Missile-Launcher Mechanic), or 24F40 (Hawk Fire Control Mechanic).

Recommendation

In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in human relations, 3 in maintenance management, 6 for field experience in management, and 3 in industrial arts education (electronics), for a minimum total of 18 semester hours; *if the duty assignment was maintenance chief,* 3 additional semester hours in personnel management, for a total of 21 semester hours; *if the duty assignment was chief instructor in a training facility,* 3 additional semester hours for an internship in education, for a total of 21 semester hours. In an electronic technician apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-23V-002

HAWK MAINTENANCE CHIEF

23V40

23V50

Exhibit Dates: 3/78-Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 233 (Hawk Missile System Repair).

Description

Summary: Supervises and coordinates maintenance of Hawk Missile System. *Skill Level 40:* Supervises and coordinates maintenance of Hawk Missile System, including launcher, maintenance test shop, battery control, simulator, radar, and test equipment; serves as a section chief or principal noncommissioned officer of a platoon performing missile system support maintenance; supervises and inspects activities of subordinates engaged in missile system maintenances; assists in development and supervises quality assurance quality control program; advises superiors on technical and personnel matters; assists in planning and accomplishing on-the-job training. NOTE: May have progressed to 23V40 from 22K30 (Hawk Missile and Launcher Repairer), 23Q30 (Hawk Fire Control Repairer), 23S30 (Hawk Pulse Radar Repairer), or 23T30 (Hawk Continuous Wave Radar Repairer). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as principal noncommissioned officer of a company performing missile systems support maintenance; or, may serve as chief instructor in a training facility. NOTE: May have progressed to 23V50 from 23V40, 24B40 (Hawk Continuous Wave Radar Mechanic), 24D40 (Hawk Missile Launcher Mechanic), or 24F40 (Hawk Fire Control System Mechanic).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in maintenance management, and 3 in public speaking, for a total of 9 semester hours. In the upper-division baccalaureate category, 2 semester hours in human relations, 3 in introduction to management, 3 for field experience in management, 3 in personnel management, and 3 in industrial education, for a total of 14 semester hours (1/80).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 2 semester hours in human relations, 3 in introduction to management, 6 for field experience in management, 3 in personnel management, and 3 in industrial arts education, for a minimum total of 17 semester hours; *if the duty assignment was maintenance chief,* 3 additional semester hours in personnel management; *if the duty assignment was chief instructor in a training facility,* 3 semester hours for an internship in education (1/80).

MOS-23W-001

NIKE MAINTENANCE CHIEF

23W50

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Supervises the maintenance of the Nike-Hercules missile system; assists in the development of the quality assurance/quality control program and supervises its implementation; interprets policy; recommends changes in policy and procedures; advises superiors; plans all work activities and operations; directs on-the-job training. NOTE: May have progressed to 23W50 from 28M50 (Anti-Ballistic Missile Maintenance Specialist), 22L40 (Nike Test Equipment Repairman), 22N40 (Nike-Hercules Missile-Launcher Repairman), 23N40 (Nike Track Radar Repairman), 23U40 (Nike High Power Radar-Simulator Repairman), 24Q40 (Nike-Hercules Fire Control Mechanic), 24U40 (Hercules Electronics Mechanic), or 26H30 (Air Defense Radar Repairman).

Recommendation

In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in human relations, 3 in maintenance management, 6 for field experience in management, and 3 in industrial arts education (electronics), for a minimum total of 18 semester hours; *if the duty assignment was maintenance chief,* 3 additional semester hours in personnel management, for a total of 21 semester hours; *if the duty assignment was chief instructor in a training facility,* 3 additional semester hours for an internship in education, for a total of 21 semester hours. In an electronic technician apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-23W-002

NIKE MAINTENANCE CHIEF

23W40

23W50

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Supervises maintenance of the Nike-Hercules missile system. *Skill Level 40:* Supervises and coordinates support level maintenance of the improved Nike Hercules system including missile, launcher control, launcher with associated equipment, radar sets, tracking station equipment, radar simulator and test equipment and devices; may serve as an instructor; principal non-commissioned officer of a platoon which provides missile system support maintenance; supervises and assists in development of quality assurance program; responsible for on-the-job training; evaluates performance of assigned personnel. NOTE: May have progressed to 23W40 from 22L30 (Nike Test Equipment Repairer), 22N30 (Nike Hercules Missile Launcher Repairer), 23N30 (Nike Track Radar Repairer), 23U30 (Nike High Power Radar Simulator Repairer), or 26H30 (Air Defense Radar Repairer). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as principal non-commissioned officer at battalion level or higher performing direct support or general support maintenance on the Nike system; may serve as First Sergeant of a company of approximately 90 enlisted persons; may serve as chief instructor in a training facility; may serve as chief advisor to a Reserve component unit or as chief advisor to a foreign military unit; is a top level supervisor and coordinator, experienced in troop leadership techniques, training management, and planning work production. NOTE: May progress to 23W50 from 23W40, 24Q40 (Nike Hercules Fire Control Mechanic), 24U40 (Hercules Electronics Mechanic), or 24P40 (Defense Acquisition Radar Mechanic).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in public speaking, and 3 in maintenance management, for a total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering), 3 in introduction to management, 3 in personnel management, 2 in human relations, and 3 for field experience in management, for a total of 14 semester hours (1/80).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 6 for field experience in management, 2 in human relations, and 3 for an electronics technical elective (non-engineering), for a minimum total of 17 semester hours; *if the duty position was Chief Instructor,* 3 semester hours for an internship in education; *if served as a foreign advisor,* 3 semester hours in comparative culture (1/80).

MOS-24B-001

HAWK CONTINUOUS WAVE RADAR MECHANIC

24B20

24B40

Exhibit Dates: 10/73–2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 234 (Hawk Missile System Mechanics).

Description

Summary: Maintains and repairs Hawk continuous wave acquisition radar, continuous wave illuminator radar, high power illuminator radar, along with associated consoles, power, and test equipment. *Skill Level 20:* Performs electrical checks and adjustments on equipment; locates and corrects malfunctions; provides technical assistance in orientation, alignment, or synchronization of subassemblies and systems; performs authorized equipment modifications; completes required forms for equipment and repair parts; provides technical assistance in the conduct of operational and maintenance inspections; prepares technical reports on system equipment; provides technical assistance for setting up, taking down, and moving equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor; provides technical supervision in training programs; coordinates work activities of radar section; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; organizes and supervises maintenance and inspection teams; supervises the requisitioning and storing of supplies and repair parts.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity, 2 in electron devices, 3 in basic electronics, 3 in electronic instruments, and 3 in technical mathematics, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in technical mathematics, 2 in pulse circuits, 2 in radar/microwave, and 1 in antennas, for a total of 11 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics), and additional credit in AC/DC circuits and electron devices on the basis of institutional evaluation. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in technical mathematics, 3 in human relations, 3 in personnel supervision, 2 in pulse circuits, 2 in radar/microwave, and 1 in antennas, for a total of 17 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics), and additional credit in AC/DC circuits and electron devices on the basis of institutional evaluation. In an electronic technician apprentice training program, 3,000 clock hours of experience and 216 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-24B-002

HAWK CONTINUOUS WAVE RADAR MECHANIC

24B10

24B20

24B30

24B40

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 234 (Hawk Missile System Mechanics).

Description

Summary: Supervises or performs organizational maintenance on Hawk continuous wave acquisition radar, continuous wave illuminator radar, high-power illuminator radar, along with associated consoles, power, and test equipment. *Skill Level 10:* Performs electrical checks and adjustments on equipment; locates and corrects equipment malfunctions; performs organizational maintenance with authorized tools, test equipment, and parts; provides technical assistance in orientation, alignment, or synchronization of listed equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists in operator training programs; provides technical assistance during emplacement of equipment; installs equipment and modifications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical supervision in training programs for operator and maintenance personnel; supervises preparation of technical forms and reports; demonstrates proper maintenance and troubleshooting procedures; supervises maintenance or inspection teams. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as chief continuous wave radar mechanic at battalion or higher level; assists in supervision and coordination of maintenance activities in subordinate units.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, and 3 in applied mathematics, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in technical mathematics, 3 in basic electronics, 1 in radar/microwave, and 1 in antennas, for a total of 11 semester hours (1/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 2 in electronic devices, 3 in electronics instruments, and 3 in applied mathematics, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in technical mathematics, 3 in basic electronics, 2 in radar/microwave, and 1 in antennas, for a total of 12 semester hours. In the upper-division baccalaureate category, credit in AC/DC circuits and electronic devices on the basis of institutional education (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 2 in electronic devices, 3 in electronics instruments, 3 in applied mathematics, 2 in maintenance management, and 3 in electronics shop practices, for a total of 19 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in technical mathematics, 3 in basic electronics, 2 in radar/microwave, 1 in antennas, 3 in electronics shop practices, 2 in maintenance management, 3 in personnel supervision, and 2 in records and reports preparation, for a total of 22 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial education (electronics) and 3 for field experience in personnel management, and credit in AC/DC circuits and electronic devices on the basis of institutional evaluation (1/80).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 2 in electronics devices, 3 in electronics instruments, 3 in applied mathematics, 3 in maintenance management, and 3 in electronics shop practices, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in technical mathematics, 3 in basic electronics, 2 in radar/microwave, 1 in antennas, 3 in electronics shop practices, 3 in personnel supervision, 2 in records and reports preparation, and 3 in maintenance management, for a total of 23 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial education (electronics), 3 for field experience in personnel management, 3 in human relations, and 3 in introduction to management, and credit in AC/DC circuits and electronic devices on the basis of institutional evaluation, for a minimum total of 12 semester hours (1/80).

MOS-24C-001

Improved Hawk Firing Section Mechanic

24C20

24C40

Exhibit Dates: 10/73–2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 235 (Improved Hawk Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on Improved Hawk firing section equipment. *Skill Level 20:* Performs maintenance on Improved Hawk high-powered illuminator radar, missile launching section control box, and electrical, mechanical, and hydraulic systems of the launcher and loader-transporter; inspects, test, and adjusts to specific operational levels; determines malfunctions and repairs by replacing subassembly units; assists in orientation, alignment, and synchronization of subassemblies and systems; assembles external hardware of the missile and makes prescribed tests to determine operational condition; supervises missile crewmen in transferring, handling, arming, and disarming missiles; initiates requests for repair parts, test equipment, tools, and supplies. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a first-line technical supervisor; establishes workloads and repair priorities; coordinates work activities with other units; demonstrates proper maintenance and troubleshooting techniques; supervises the preparation of technical reports and forms; organizes and supervises maintenance and inspection teams.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electronics and 3 in basic electricity, and additional credit in electronics, technical mathematics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 1 in radar/microwave, and additional credit in electronics, algebra, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 4 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics). In an electronic technician apprentice training program, 1,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, advanced standing on the basis of employer or trade association performance examination (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in human relations, 3 in personnel supervision, and 1 in radar/microwave, and additional credit in electronics, algebra, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 10 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics). The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-24C-002

Improved Hawk Firing Section Mechanic

24C10

24C20

24C30

24C40

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 235 (Improved Hawk Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on improved Hawk firing section equipment. *Skill Level 10:* Performs maintenance on Improved Hawk radar, missile launching control box, and electrical, mechanical, and hydraulic systems of the launcher, transporter, and associated equipment; determines malfunctions; performs repairs by replacing subassembly units; assists in orientation, alignment, and synchronization of equipment; assembles external hardware of missile; makes prescribed tests to determine operational condition; provides technical assistance in conduct of operational and maintenance inspections. *Skill Level 20:* Able to perform the duties required for Skill Level 10; installs equipment modifications; supervises transfer and handling of missile; provides technical training to missile crew supervisory and operational personnel in arming and disarming missiles; initiates requests for repair parts, test equipment, tools, and supplies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical supervision in training programs for operator and maintenance personnel; demonstrates proper maintenance and troubleshooting techniques; supervises maintenance and inspection teams; supervises the preparation of technical forms and reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and coordinates organizational maintenance of Improved Hawk firing section equipment.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in basic electronics, 3 in basic electricity, and 3 in applied mathematics, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in AC/DC circuits, 1 in radar/microwave, and 3 in technical mathematics, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 10 semester hours (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electronics, 3 in basic electricity, 3 in applied mathematics, and 3 in electronics shop practices, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in AC/DC circuits, 1 in radar/microwave, 3 in technical mathematics, 3 in electronics shop practices, 3 in personnel supervision, and 2 in records and reports preparation, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel management and 3 in industrial education (electronics) (1/80).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in AC/DC circuits, 1 in radar/microwave, 3 in technical mathematics, 3 in electronics shop practices, 3 in personnel supervision, 2 in records and reports preparation, and 3 in maintenance management, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel management, 3 in introduction to management, 3 in human relations, and 3 in industrial education (electronics), for a total of 12 semester hours (1/80).

MOS-24D-001

Hawk Missile-Launcher Mechanic

24D20

24D40

Exhibit Dates: 10/73–1/76.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 234 (Hawk Missile System Mechanics).

Description

Summary: Performs inspections and maintenance on specialized missile equipment. *Skill Level 20:* Inspects, tests, and adjusts equipment and components to specified tolerances; identifies malfunctions in fluidic, electrical, and mechanical systems, using multimeter and test equipment designed specifically for the missile system; repairs fluidic and mechanical components using basic block diagrams and substitutes electrical and electronic components; performs a limited amount of calibration for special test sets. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a foreman and technical inspector, supervising four to six persons; establishes workloads and repair priorities; implements quality control measures; conducts on-the-job training; supervises the preparation of technical forms and reports and the requisitioning and stockage of supplies and repair parts.

Recommendation, Skill Levels 20 and 40

No recommendation because of the limited and military nature of the skills, competencies, and knowledge. In an apprentice training program in equipment repair, advanced standing only on the basis of employer or trade association performance examination because of the limited nature of the skills, competencies, and knowledge (3/75).

MOS-24D-002

HAWK MISSILE-LAUNCHER MECHANIC

24D20
24D40

Exhibit Dates: 2/76–2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 234 (Hawk Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on Hawk missile and launcher. *Skill Level 20:* Performs maintenance on Hawk missile, on-missile electronic guidance control components, and mechanical, hydraulic, and electrical systems of launcher and loader-transporter; inspects, tests, and adjusts equipment and components to specified tolerances; assembles, interconnects, and tests components to determine operational condition; identifies malfunctions in electrical, mechanical, and fluidic systems, using multimeter and special-design test equipment; repairs fluidic and mechanical components, using basic block diagrams; substitutes electrical and electronic components; supervises the missile crew in installing initiators, electric power unit fuel stick, ignitors, arming devices, and safety devices; performs a limited amount of calibration for special tests sets. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a first-line technical supervisor; establishes workloads and repair priorities; implements quality control measures; conducts on-the-job training; demonstrates proper maintenance and troubleshooting techniques; coordinates work activities with other units; supervises the preparation of technical reports and forms; supervises the requisitioning and storing of supplies and repair parts.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity and 3 in basic electronics, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics). In an electronic technician apprentice training program, 144 contact hours of related instruction; clock hours of experience on the basis of employer or trade association performance examination. In a construction electrician apprentice training program, 72 contact hours of related instruction; clock hours of experience on the basis of employer or trade association performance examination (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in human relations, 3 in personnel supervision, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics). The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-24D-003

HAWK MISSILE-LAUNCHER MECHANIC

24D10
24D20
24D30
24D40

Exhibit Dates: 3/78–Present. Pending evaluation.

MOS-24E-001

IMPROVED HAWK FIRE CONTROL MECHANIC

24E20
24E30
24E40

Exhibit Dates: 10/73–2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 235 (Improved Hawk Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on Improved Hawk fire control equipment and engagement simulator. *Skill Level 20:* Checks and adjusts radar and associated power and test equipment; performs electrical tests and adjustments; determines malfunctions and makes repairs; provides technical assistance in orientation, alignment, or synchronization of subassemblies and systems; installs equipment modifications; prepares maintenance and supply reports and forms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; checks, adjusts, and repairs Improved Hawk engagement simulator; assists in the preparation of training programs for battery crews. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; serves as the first-line technical supervisor for Improved Hawk operators and mechanics; coordinates work activities with supporting maintenance units; demonstrates proper troubleshooting and maintenance techniques; organizes and supervises maintenance and inspection teams; supervises requisitioning and storing of supplies and repair parts.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, and 3 in electronic instruments, and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in electronic instruments, and additional credit in electronics and algebra on the basis of institutional evaluation, for a minimum total of 6 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics). In an electronic technician (sound and manufacturing) apprentice training program, 144 contact hours of related instruction; clock hours of experience on the basis of employer or trade association performance examination. In a construction electrician apprentice training program, 72 contact hours of related instruction; clock hours of experience on the basis of employer or trade association performance examination (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in electronic instruments, 3 in human relations, and 3 in personnel supervision, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics). The recommendation for advanced standing in an apprentice training program is the same as that for Skill Levels 20 and 30 because additional skills are administrative and supervisory in nature (2/76).

MOS-24E-002

IMPROVED HAWK FIRE CONTROL MECHANIC

24E10
24E20
24E30
24E40

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 235 (Improved Hawk Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on Improved Hawk Fire Control equipment and engagement simulator, pulse acquisition radar, range-only-radar, and associated equipment. *Skill Level 10:* Performs checks and adjustments on Improved Hawk battery control center, pulse acquisition radar, range-only-radar, and associated equipment; localizes malfunctions and accomplishes repairs using appropriate tools, test equipment and parts; provides technical assistance in orientation, alignment, and synchronization of subassemblies and systems; assists in training operators in operator level maintenance; provides technical assistance in operational and maintenance inspections; provides technical assistance in logistics, emplacement, and helicopter rigging of listed equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance and guidance to Skill Level 10 personnel; installs electrical and electronic equipment modifications; initiates requests for repair parts, tools, test equipment and other supplies; completes maintenance and supply forms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical supervision in training programs for operator personnel; supervises the preparation of technical forms and reports; coordinates activities with supporting maintenance units; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; supervises the requisitioning and stockage of supplies and repair parts; organizes and supervises maintenance and inspection teams. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as first-line technical supervisor for system operators and mechanics; serves as section chief of fire control mechanics; serves as chief fire control mechanic at battalion or higher level to assist in supervision and coordination of maintenance activities.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in electronic instruments, and 3 in applied mathematics, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in electronic instruments, 3 in technical mathematics, and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 9 semester hours (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in electronic instruments, and 3 in electronics shop practices, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in electronic instruments, 3 in technical mathematics, 3 in electronics shop practices, 3 in personnel supervision, 2 in records and reports preparation, and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 17 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel management and 3 in industrial education (electronics) (1/80).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate-associate degree category, 3 semester hours in basic electronics, 3 in electronic instruments, 3 in technical mathematics, 3 in personnel supervision, 3 in electronics shop practices, 2 in records and reports preparation, 3 in maintenance management, and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 20 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel management, 3 in introduction to management, 3 in human relations, and 3 in industrial education (electronics), for a total of 12 semester hours (1/80).

IMPROVED HAWK INFORMATION COORDINATION CENTRAL MECHANIC

24G20
24G40

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 235 (Improved Hawk Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on Improved Hawk information and coordination equipment. *Skill Level 20:* Performs maintenance on Improved Hawk continuous wave acquisition radar, coordination central, automatic data equipment, battery terminal equipment, and associated test equipment; performs electrical checks and adjustments on equipment; assists in orientation, alignment, and synchronization of subassemblies and systems; performs equipment modifications; initiates requests for repair parts, test equipment, tools, and supplies; prepares maintenance and supply records and forms. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a first-line supervisor; provides technical supervision in training programs; coordinates work activities; determines faulty work practices and demonstrates proper troubleshooting and maintenance techniques; organizes and supervises maintenance and inspection teams; supervises the requisitioning and storing of supplies and repair parts.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in electronic instruments, and additional credit in technical mathematics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 2 in pulse circuits, 1 in radar/microwave, and additional credit in electronics, digital computer operation, and mathematics on the basis of institutional evaluation, for a minimum total of 6 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics), and additional credit in AC/DC circuits and electron devices on the basis of institutional evaluation. In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. In a construction electrician apprentice training program, advanced standing on the basis of employer or trade association performance examination (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in human relations, 3 in personnel supervision, 2 in pulse circuits, 1 in radar/microwave, and additional credit in electronics, digital computer operation, and mathematics on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics), and additional credit in AC/DC circuits and electron devices on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-24G-002

Improved Hawk Information
Coordination Central Mechanic

24G10

24G20

24G30

24G40

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 235 (Improved Hawk Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on Improved Hawk information and coordination equipment. *Skill Level 10:* Performs maintenance on Improved Hawk radar, information coordination central, automatic data equipment, battery terminal equipment, and associated equipment; performs electrical checks and adjustments on equipment; localizes malfunctions and accomplishes authorized repairs; assists with technical assistance in orientation, alignment, and synchronization of equipment; provides technical assistance in conduct of operational and maintenance inspections. *Skill Level 20:* Able to perform the duties required for Skill Level 10; installs equipment modifications, initiates orders for repair parts, tools and other supplies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises activities of lower skill level personnel; provides supervision of on-the-job training for operator and maintenance personnel; coordinates activities with supporting maintenance units; demonstrates proper maintenance and troubleshooting techniques; supervises requisitioning and stockage of supplies and repair parts; supervises the preparation of technical forms and reports. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and coordinates maintenance of Improved Hawk information and coordination equipment mechanics; may serve as section chief for mechanics; may serve as chief mechanic at battalion or higher level to assist in coordination of maintenance activities in subordinate units.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in electronic instruments, and 6 in applied mathematics, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in AC/DC circuits, 1 in microwave techniques, 3 in technical mathematics, 3 in computer mathematics, and additional credit in electronics and digital computer operations on the basis of institutional evaluation, for a minimum total of 13 semester hours (1/80).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree cagetory, 3 semester hours in basic electronics, 3 in AC/DC circuits, 1 in microwave techniques, 3 in technical mathematics, 3 in computer mathematics, 3 in introduction to computers, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 16 semester hours (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in electronic instruments, 6 in applied mathematics, and 3 in electronics shop practices, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in AC/DC circuits, 1 in microwave techniques, 3 in technical mathematics, 3 in computer mathematics, 3 in introduction to computers, 3 in electronics shop practices, 3 in personnel supervision, and 2 in records and reports preparation, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial education (electronics) and 3 for field experience in personnel management (1/80).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in AC/DC circuits, 1 in microwave techniques, 3 in technical mathematics, 3 in computer mathematics, 3 in introduction to computers, 3 in electronics shop practices, 3 in personnel supervision, 2 in records and reports preparation, and 3 in maintenance management, for a total of 27 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial education (electronics), 3 for field experience in personnel management, 3 in introduction to management, and 3 in human relations, for a total of 12 semester hours (1/80).

MOS-24H-001

Improved Hawk Fire Control
Repairman

24H20

24H40

Exhibit Dates: 10/73–8/76.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises or performs support maintenance on electronic systems of Improved Hawk fire control equipment. *Skill Level 20:* Inspects, tests, and adjusts components to specific tolerances and determines malfunctions in electronic assemblies, subassemblies, modules, and circuit elements, using common and system special-design test equipment; performs initial and final checkouts and inspections of the system, assemblies, and subassemblies; installs equipment modifications. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; implements quality control measures; supervises inspection and maintenance teams; organizes and conducts on-the-job training; demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic electronics and 3 in introduction to computer science or data processing, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In an electronic technician apprentice training program, 144 contact hours of related instruction; clock hours of experience on the basis of employer or trade association performance examination. In a construction electrician apprentice training program, 72 contact hours of related instruction; clock hours of experience on the basis of employer or trade association performance examination (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electronics, 3 in introduction to computer science or data processing, 3 in human relations, 3 in personnel supervision, 3 for field experience in management, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 18 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-24H-002

Improved Hawk Fire Control
Repairman

24H20

24H40

Exhibit Dates: 9/76–2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Performs support maintenance and inspections of Improved Hawk battery control centers, including radar consoles, electronic systems, communications systems, computers, and various types of advanced electronic test instruments. *Skill Level 20:* Applies basic electronic theory and advanced circuit concepts in troubleshooting both vacuum tube and solid-state electronic systems and circuits; uses schematics and logic diagrams to trace specific problems in analog, digital, or mechanical systems; uses both electrical and mechanical hand tools when performing adjustments and making repairs; operates sophisticated test instruments such as digital multimeters, frequency counters, time-interval meters, pulse generators, sweep generators, test simulators, dual-trace dual-sweep oscilloscopes, and radar computers; frequently performs repairs and minor calibration of support test instruments; uses simple algebraic and trigonometric formulas for calculating tolerances on various electromechanical systems; logs equipment failures, repairs, and inspections; completes maintenance and supply forms. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; implements quality control measures; supervises inspection and maintenance teams; organizes and conducts on-the-job training; demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records; prepares maintenance reports.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic electronics, 3 in electronics laboratory, 3 in basic algebra and trigonometry, 3 in radar circuit theory, 2 in computer circuit theory, 2 in electromechanics, 2 in instrumentation, and 1 in introduction to television, for a total of 22 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in advanced electronics, 3 in electronics laboratory, and 3 in technical mathematics, for a total of 12 semester hours. In the upper-division baccalaureate category, credit in industrial arts on the basis of institutional evaluation. In an electronics instrument mechanic/repairman apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (5/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in advanced electronics, 3 in electronics laboratory, 3 in technical mathematics, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 21 semester hours. In the upper-division baccalaureate category, credit in industrial arts on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (5/77).

MOS-24H-003

IMPROVED HAWK FIRE CONTROL
REPAIRER

24H10
24H20
24H30

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises or performs maintenance and inspections of Improved Hawk battery control centers including radar consoles, electronic systems, communications systems, computers, and various types of advanced electronic test equipment. *Skill Level 10:* Inspects, tests, and adjusts components to specific tolerances; determines shortcomings and malfunctions in electronic assemblies, subassemblies, modules, and circuit elements with common and system special-design test equipment; repairs unserviceable items by removing and replacing defective components and parts; determines serviceability and disposition of defective assemblies, subassemblies, modules, and circuit elements; performs quality control measures; serves on inspection teams; performs maintenance and repair on test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; installs electrical and electronic equipment modifications; provides technical assistance to supported units completes maintenance and supply forms. *Skill Level 30:* Able to perform duties required for Skill Level 20; supervises duties performed at preceding levels; establishes workloads and repair priorities; recommends procedures for receipt, storage, inspection, testing, and repair of items; implements quality control measures; performs initial and final type checkout and inspection of designated system items and their assemblies and subassemblies; supervises inspection and maintenance teams; organizes and conducts on-the-job training programs; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records; prepares maintenance reports.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in electronic instruments, and 3 in applied mathematics, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in electronic instruments, and 3 in technical mathematics, and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 12 semester hours (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in electronic instruments, 3 in applied mathematics, and 3 in electronic shop practices, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in electronic instruments, 3 in technical mathematics, 3 in electronics shop practices, 3 in personnel supervision, 2 in records and reports preparation, and additional credit in electronics and technical mathematics on the basis of institutional evaluation, for a minimum total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel management (1/80).

MOS-24J-001

IMPROVED HAWK PULSE RADAR
REPAIRMAN

24J20
24J40

Exhibit Dates: 10/73–8/76.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises or performs support maintenance on Improved Hawk pulse radars and associated equipment. *Skill Level 20:* Inspects, tests, and adjusts components to specific tolerances and determines malfunctions in electronic assemblies, subassemblies, modules, and circuit elements, using common and system special-design test equipment; performs initial and final checkouts and inspections of the system, assemblies, and subassemblies; installs equipment modifications. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; implements quality control measures; supervises inspection and maintenance teams; organizes and conducts on-the-job training; demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, and 3 in radar, for a total of 18 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, 3 in radar, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 27 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-24J-002

IMPROVED HAWK PULSE RADAR
REPAIRMAN

24J20
24J40

Exhibit Dates: 9/76–2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Performs or supervises support maintenance on Improved Hawk pulse radars and associated equipment. *Skill Level 20:* Maintains improved pulse acquisition radar, range-only radar, test equipment, and systems associated with test equipment; inspects, tests, and adjusts components to specific tolerances; determines malfunctions in electronic assemblies, subassemblies, modules, and circuit elements by using common and system special-design test equipment; determines disposition of defective assemblies, subassemblies, modules, and circuit elements; locates, removes, and replaces defective components and parts; performs initial and final check-outs; installs equipment modifications; completes maintenance and supply forms. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance on Improved Hawk pulse radars and associated equipment; establishes workloads and repair priorities; recommends procedures for receiving, storing, inspecting, testing, and repairing equipment, parts, and supplies; supervises inspection and maintenance teams; organizes and conducts on-the-job training; demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records; prepares maintenance reports.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic electricity/electronics, 3 in electricity/electronics laboratory, 3 in radar circuit theory, 3 in tube and transistor circuits, and 3 in technical mathematics, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in advanced electronics, 3 in electronics laboratory, and 3 in technical mathematics, for a total of 12 semester hours. In the upper-division baccalaureate category, credit in industrial arts on the basis of institutional evaluation. In an electronics instrument mechanic/repairman apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (5/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in advanced electronics, 3 in electronics laboratory, 3 in technical mathematics, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 21 semester hours. In the upper-division baccalaureate category, credit in industrial arts on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (5/77).

MOS-24J-003

IMPROVED HAWK PULSE RADAR REPAIRER

24J10
24J20
24J30

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises and performs maintenance on Improved Hawk missile pulse radars and associated equipment. *Skill Level 10:* Performs maintenance on electronic systems of pulse acquisition radars and pulse ranging radars of the Hawk Missile System; inspects, tests, and adjusts electronic components, modules, subassemblies, and assemblies, using common and specialized electronic test instruments; performs initial and final checkouts and inspections for the electronic portions of the radar system; replaces defective parts and does approved modifications; serves on inspection teams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; installs equipment modifications and provides technical assistance to support units; prepares maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; implements quality control measures; performs initial and final checkout and inspection of the radar system and the subassemblies; supervises inspection and maintenance teams; establishes and keeps maintenance records; organizes and conducts on-the-job training programs.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in applied mathematics, 3 in DC and AC circuits, 3 in electronics test procedures, 3 in tube and transistor circuits, and 1 in microwave techniques, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in elementary DC and AC circuits, 3 in introduction to tube and transistor circuits, 3 in electronics test procedures, and 1 in microwave techniques, for a total of 13 semester hours (1/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in applied mathematics, 3 in DC and AC circuits, 3 in electronic test procedures, 3 in tube and transistor circuits, and 2 in microwave techniques, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in elementary DC and AC circuits, 3 in introduction to tube and transistor circuits, 3 in electronics test procedures, and 2 in microwave techniques, for a total of 14 semester hours (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in applied mathematics, 3 in DC and AC circuits, 3 in electronics test procedures, 3 in tube and transistor circuits, and 3 in electronics shop practices, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 3 in elementary DC and AC circuits, 3 in introduction to tube and transistor circuits, 3 in electronics shop practices, 3 in personnel supervision, and 2 in records and reports preparation, for a total of 17 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel management (1/80).

MOS-24K-001

IMPROVED HAWK CONTINUOUS WAVE
RADAR REPAIRMAN

24K20
24K40

Exhibit Dates: 10/73–8/76.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises or performs support maintenance on electronic systems of Improved Hawk continuous wave radars and associated equipment. *Skill Level 20:* Inspects, tests, and adjusts components to specific tolerances and determines malfunctions in electronic assemblies, subassemblies, modules, and circuit elements, using common and system special-design test equipment; performs initial and final checkouts and inspections of the systems, assemblies, and subassemblies; installs equipment modifications. *Skill Level 40:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; implements quality control measures; supervises inspection and maintenance teams; organizes and conducts on-the-job training; demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, and 3 in radar, for a total of 18 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, and 3 in radar, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, 3 in radar, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 27 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-24K-002

IMPROVED HAWK CONTINUOUS WAVE
RADAR REPAIRMAN

24K20
24K40

Exhibit Dates: 9/76–2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Performs or supervises maintenance on electronic systems of Improved Hawk continuous wave radars, high-power illuminator radars, and associated equipment. *Skill Level 20:* Performs maintenance on Improved Hawk continuous wave radars, high-power illuminator radars, test equipment, mobile team shops, and associated system-peculiar portable test equipment; inspects, tests, and adjusts components to specific tolerances; determines malfunctions in electronic assemblies, subassemblies, modules, and circuit elements by using common and system-design test equipment; removes and replaces defective components and parts; determines disposition of defective assemblies, subassemblies, modules, and circuit elements; performs initial and final check-outs; installs equipment modifications; completes maintenance and supply forms. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance on Improved Hawk continuous wave radars and associated equipment; establishes workloads and repair priorities; recommends procedures for receiving, storing, inspecting, testing, and repairing equipment and parts; organizes and conducts on-the-job training programs; supervises maintenance and inspection teams; demonstrates proper work procedures and troubleshooting techniques; keeps maintenance records; prepares maintenance reports.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic electricity/electronics, 3 in electricity/electronics laboratory, 3 in radar circuit theory, 3 in tube and transistor circuits, and 3 in technical mathematics, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in advanced electronics, 3 in electronics laboratory, and 3 in technical mathematics, for a total of 12 semester hours. In the upper-division baccalaureate category, credit in industrial arts on the basis of institutional evaluation. In an electronics instrument mechanic/repairman apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (5/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in advanced electronics, 3 in electronics laboratory, 3 in technical mathematics, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 21 semester hours. In the upper-division baccalaureate category, credit in industrial arts on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (5/77).

MOS-24K-003

IMPROVED HAWK CONTINUOUS WAVE RADAR REPAIRER

24K10

24K20

24K30

Exhibit Dates: 3/78-Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises or performs maintenance on Improved Hawk continuous wave radars and associated equipment. *Skill Level 10:* Performs support maintenance on electronic systems of continuous wave radars and special high-power illuminator radars associated with the Hawk missile system; adjusts, inspects, and tests electronic assemblies, subassemblies, modules, and circuit elements, using common and special-design test equipment; performs initial and final checkouts and inspections for the electronic portions of the radar systems; performs approved modifications and serves on inspection teams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; installs equipment modifications and provides technical assistance to supported units; prepares maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; implements quality control measures; performs initial and final checkout and inspection of the radar systems and their subassemblies; supervises inspection and maintenance teams; establishes and keeps maintenance records; organizes and conducts on-the-job training programs.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in applied mathematics, 3 in DC and AC circuits, 3 in electronics test procedures, 3 in tube and transistor circuits, and 1 in microwave techniques, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in elementary DC and AC circuits, 3 in introduction to tube and transistor circuits, 3 in electronics test procedures, and 1 in microwave techniques, for a total of 13 semester hours (1/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in applied mathematics, 3 in DC and AC circuits, 3 in electronics test procedures, 3 in tube and transistor circuits, and 2 in microwave techniques, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 3 in elementary DC and AC circuits, 3 in introduction to tube and transistor circuits, 3 in electronics test procedures, and 2 in microwave techniques, for a total of 14 semester hours (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in applied mathematics, 3 in DC and AC circuits, 3 in electronics test procedures, 3 in tube and transistor circuits, and 3 in electronics shop practices, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in algebra, 3 in elementary DC and AC circuits, 3 in introduction to tube and transistor circuits, 3 in electronics shop practices, 3 in personnel supervision, and 2 in records and reports preparation, for a total of 17 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel management (1/80).

MOS-24L-001

IMPROVED HAWK LAUNCHER AND MECHANICAL SYSTEMS REPAIRMAN

24L20

24L40

Exhibit Dates: 9/76-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises or performs maintenance on electrical, hydraulic, hydropneumatic, mechanical, and electromechanical portions of the Improved Hawk missile system and on the electronic systems of the Improved Hawk launcher and associated test equipment. *Skill Level 20:* Inspects, tests, and adjusts components to specific tolerances; determines deficiencies in electronic, electrical, hydraulic, hydropneumatic, mechanical, and electromechanical assemblies, subassemblies, and circuits by using common and system special-design test equipment; removes and replaces defective components and determines their disposition; performs load testing and maintenance calibration; repairs job-related tools and equipment; installs electrical, hydraulic, hydropneumatic, mechanical, and electromechanical modifications on Improved Hawk system items; completes maintenance and supply forms. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance of electrical, mechanical, electromechanical, hydraulic, and hydropneumatic systems of the Improved Hawk missile system and of the electronics system of the Improved Hawk launcher; establishes workloads and repair priorities; recommends procedures for receiving, storing, inspecting, testing, and repairing items; organizes and conducts on-the-job training programs; demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records; prepares maintenance reports.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in electromechanical systems, 3 in mechanics, 3 in hydraulics, 3 in technical mathematics, and 1 in care and use of tools, and additional credit in electronics, mechanics, and hydraulics on the basis of institutional evaluation, for a mimimum total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in mechanics, 3 in hydraulics, and 3 in technical mathematics, and additional credit in electronics, electricity, mechanics, and hydraulics on the basis of institutional evaluation, for a mimimum total of 12 semester hours. In the upper-division baccalaureate category, credit in industrial arts on the basis of institutional evaluation. In a wireman-electrician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction (5/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in mechanics, 3 in hydraulics, 3 in technical mathematics, 3 in human relations, 3 in personnel supervision, and 3 for field experience in management, and additional credit in electronics, electricity, mechanics, and hydraulics on the basis of institutional evaluation, for a mimimum total of 21 semester hours. In the upper-divison baccalaureate category, credit in industrial arts on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (5/77).

MOS-24L-002

IMPROVED HAWK LAUNCHER AND MECHANICAL SYSTEMS REPAIRER

24L10

24L20

24L30

Exhibit Dates: 3/78-Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises or performs maintenance on the electrical, hydraulic, hydropneumatic, mechanical, and electromechanical portions of the Improved Hawk system and the electronic systems of IH Launcher. *Skill Level 10:* Inspects, tests, and adjusts to specific tolerances; determines deficiencies and electronic, electrical, hydraulic, hydropneumatic, mechanical, and electromechanical assemblies, subassemblies, and circuits with common and special-design test equipment; performs required maintenance; repairs unserviceable items by removing and replacing defective components and parts and determines their disposition; performs quality control measures; performs load testing, maintenance calibration, and repair of job related tools and equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; installs electrical, hydraulic, hydropneumatic, mechanical, and electromechanical equipment modifications; provides technical assistance to supported units; completes maintenance and supply forms. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises duties performed by lower skill level personnel involving maintenance of the Improved Hawk missile and launching systems; establishes workloads and repair priorities; recommends procedures for receiving, storing, inspecting, testing, and repairing items; supervises inspection and maintenance teams; organizes and conducts on-the-job training programs; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records; prepares maintenance reports.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in electromechanical systems, 3 in mechanics, 3 in hydraulics, and 3 in applied mathematics, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in mechanics, 3 in hydraulics, and 3 in technical mathematics, for a total of 12 semester hours (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electricity, 3 in electromechanical systems, 3 in mechanics, 3 in hydraulics, 3 in applied mathematics, and 3 in electrical and mechanical shop practices, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in mechanics, 3 in hydraulics, 3 in technical mathematics, 3 in electrical and mechanical shop practices, 3 in personnel supervision, and 2 in records and reports preparation, for a total of 20 semester hours. In the upper-division baccalaureate category, 3 semseter hours for field experience in personnel supervision (1/80).

MOS-24M-001

Vulcan System Mechanic

24M20
24M30
24M40

Exhibit Dates: 10/73-8/77.

Career Management Field. 27 (Combat Missile Maintenance), *subfield* 271 (Combat Missile Mechanics).

Description

Summary: Supervises or performs maintenance on Vulcan weapon system and associated equipment. *Skill Level 20:* Performs routine maintenance on the range-only radar, the rapid alerting identification display, and test, diagnostic, and measuring equipment; uses test equipment to determine malfunctioning components, parts, and accessories; initiates requests for repair parts, tools, test equipment, and other supplies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs maintenance on the forward area alert radar. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; provides technical supervision in training programs for operator and maintenance personnel; coordinates work activities with supporting units; demonstrates proper maintenance and troubleshooting techniques; is responsible for requisitioning and storing supplies and repair parts.

Recommendation, Skill Levels 20 and 30

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (2/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 9 semester hours (2/76).

MOS-24M-002

Vulcan System Mechanic
(Vulcan/FAAR System Mechanic)

24M10
24M20
24M30
24M40

Exhibit Dates: 9/77-Present.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance), *subfield* 272 (Light Air Defense Systems Maintenance).

Description

Summary: Supervises or performs maintenance on the Vulcan weapons system and the Forward Area Alerting Radar (FAAR) and associated equipment. *Skill Level 10:* Performs routine maintenance on range-only radar, the target display system, and test, diagnostic, and measuring equipment; maintains electro-mechanical and mechanical components associated with turret assemblies on Vulcan launch equipment; uses some basic test equipment including meters, oscilloscopes, and specialized test equipment; isolates malfunctions to the black box level. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower skill-level personnel; assigns duties; maintains forms and records to insure proper maintenance procedures for all Chaparral systems. *Skill Level 40:* Able to perform the duties required for Skill Level 30; establishes maintenance procedures; conducts technical inspections and coordinates maintenance activities.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 2 semester hours in electronics laboratory and 2 in mechanical laboratory. In the lower-division baccalaureate/associate degree category, 2 semester hours in electronics laboratory (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in electronics laboratory, 2 in mechanical laboratory, 2 in maintenance management, and 3 in electronic and mechanical shop practices, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in personnel supervision, 3 in electronics and mechanical shop practices, 2 in maintenance management, and 2 in electronics laboratory, for a total of 9 semester hours (1/80).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in electronics laboratory, 2 in mechanical laboratory, 3 in electronics and mechanical laboratory, and 4 in maintenance management, for a total of 11 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in electronics and mechanical shop practices, 4 in maintenance management, and 2 in electronics laboratory, for a total of 12 semester hours (1/80).

MOS-24N-001

Chaparral System Mechanic

24N20
24N30
24N40

Exhibit Dates: 10/73-8/77.

Career Management Field: 27 (Combat Missile Maintenance), *subfield* 271 (Combat Missile Mechanics).

Description

Summary: Supervises or performs maintenance on Chaparral weapon systems and on forward area alert radar. *Skill Level 20:* Performs routine maintenance on Chaparral weapons systems, using test equipment to locate malfunctions in the assemblies and subassemblies of the systems; initiates requests for repair parts, tools, test equipment, and other supplies. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs maintenance on Forward Area Alert Radar (FAAR). *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; provides technical supervision in training programs for operational and maintenance personnel; coordinates work activities with supporting units; demonstrates proper maintenance and troubleshooting techniques; organizes and supervises maintenance and inspection teams; is responsible for requisitioning and storing supplies and repair parts.

Recommendation, Skill Levels 20 and 30

No recommendation because of the limited technical nature of the skills, competencies, and knowledge (2/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 3 for field experience in management, for a total of 9 semester hours (2/76).

MOS-24N-002

CHAPARRAL SYSTEM MECHANIC

24N10
24N20
24N30
24N40

Exhibit Dates: 9/77-Present.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance), *subfield* 272 (Light Air Defense Systems Maintenance).

Description

Summary: Supervises or performs maintenance on Chaparral weapon system and associated equipment. *Skill Level 10:* Performs routine maintenance on Chaparral weapon system and target display sets; maintains mechanical, electrical, hydraulic, pneumatic, and some electronic systems associated with the Chaparral launch equipment; uses test meters and specialized test sets to localize malfunctions to the black-box level. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower skill level personnel; assigns duties; maintains forms and records to insure proper maintenance procedures for all Chaparral systems. *Skill Level 40:* Able to perform the duties required for Skill Level 30; establishes maintenance procedures; conducts technical inspections of Chaparral systems and coordinates maintenance activities.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 2 semester hours in mechanical laboratory (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in mechanical laboratory, 3 in mechanical shop practices, and 2 in maintenance management, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in personnel supervision, 3 in mechanical shop practices, and 2 in maintenance management, for a total of 7 semester hours (1/80).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in mechanical laboratory, 3 in mechanical shop practices, and 4 in maintenance management, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in mechanical shop practices, and 4 in maintenance management, for a total of 10 semester hours (1/80).

MOS-24P-001

DEFENSE ACQUISITION RADAR MECHANIC

24P20
24P40

Exhibit Dates: 10/73-2/78.

Career Management Field: 26 (Non-Integrated Radar Maintenance), *subfield* 261 (Radar Mechanics).

Description

Summary: Supervises or performs maintenance of air defense acquisition radars. *Skill Level 20:* Performs maintenance on high-power acquisition radars, low-power acquisition radars, auxiliary battery acquisition radars, communications systems security devices, battery control circuits, and fire unit integration facility; performs maintenance checks with specialized test and measuring devices; locates and isolates malfunctions; inspects, tests, and replaces defective components; makes adjustments to return equipment to operating order; keeps maintenance records and prepares equipment maintenance reports. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities; supervises preparation and administration of maintenance records and reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and test equipment operation, and 3 in tubes and transistor circuits, for a total of 15 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in technical methematics, 6 in DC and AC circuits and test equipment operation, and 3 in tubes and transistor circuits, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and test equipment operation, 3 in tubes and transistor circuits, 3 in personnel supervision, and 3 in human relations, for a total of 21 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-24P-002

DEFENSE ACQUISITION RADAR MECHANIC

24P10
24P20
24P30
24P40

Exhibit Dates: 3/78-Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 232 (Nike Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on air defense acquisition radar sets and associated equipment. *Skill Level 10:* Performs maintenance on several radar sets, including high power acquisition radar, low power acquisition radar, and auxiliary battery acquisition radar; maintains and determines operational condition of communications security devices, firing control coordination facility, and battery control circuits; uses common and specialized test equipment and measuring devices to locate and isolate malfunctions, along with circuit analysis techniques; inspects, tests, and replaces defective components; adjusts equipment to return to operating condition; knows basic electric/electronic theory, principles of solid-state-devices, and binary fundamentals. *Skill Level 20:* Able to perform the duties required for Skill Level 10; completes maintenance and supply forms; installs equipment modifications; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower skill level personnel; coordinates activity with supporting maintenance units; supervises preparation of technical and maintenance logs, forms, records and reports; supervises the requisition of supplies and repair parts. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as the chief radar mechanic at battalion or higher level; knows characteristics of equipment, repair procedures, supply management and maintenance management; supervises and coordinates maintenance activities in subordinate units.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in basic electricity and electronics, 1 in systems maintenance, and 2 in electronic systems troubleshooting, for a total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electricity and electronics fundamentals, 2 in AC/DC circuit fundamentals, and 1 in electronic instruments, for a total of 6 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering), and credit in electronic device fundamentals, radar principles, and circuit analysis on the basis of institutional evaluation (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electricity and electronics, 3 in systems maintenance, 2 in maintenance management, 3 in electronic systems troubleshooting, and 3 in electronics shop practices, for a total of 14 semester hours. In the lower-divison baccalaureate/associate degree category, 3 semester hours in electricity and electronics fundamentals, 2 in AC/DC circuit fundamentals, 3 in electronics shop practices, 1 in electronic instruments, 3 in personnel supervision, 2 in maintenance management, and 2 in records and reports preparation, for a total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering), 3 for field experience in personnel management, and credit in electronic device fundamentals, radar principles, and circuit analysis on the basis of institutional evaluation (1/80).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electricity and electronics, 3 in systems maintenance, 3 in electronic systems troubleshooting, 2 in supply management procedures, 3 in maintenance management, and 3 in electronics shop practices, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electricity and electronics fundamentals, 2 in AC/DC circuit fundamentals, 3 in electronics shop practices, 1 in electronic instruments, 3 in personnel supervision, 2 in records and reports preparation, and 3 in maintenance management, for a total of 17 semester hours. In the upper-division baccalaureate category, the recommendation is the same as that for Skill Level 30 (1/80).

MOS-24Q-001

Nike-Hercules Fire Control Mechanic

24Q20
24Q30
24Q40

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 232 (Nike Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on missile fire control equipment and radar target simulator. *Skill Level 20:* Checks and adjusts target and missile tracking and ranging radar systems, computers, multichannel data recorders, and associated battery control circuits; locates and repairs malfunctions, using common and special-design tools and test equipment; installs equipment modifications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; maintains radar target simulator. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; is a first-line technical supervisor; trains maintenance personnel; coordinates work activities with other maintenance units; demonstrates proper maintenance and troubleshooting techniques; organizes and supervises maintenance and inspection teams; establishes workloads and repair priorities; supervises the requisitioning and storing of repair parts and supplies.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 3 semester hours in technical mathematics, 2 in control systems, 1 in systems maintenance, 1 in communication systems (electronics), 1 in shop practices, and 1 in alignment techniques (video), for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 3 in radar/microwave theory, 2 in DC circuit analysis, 2 in AC circuit analysis, 2 in digital circuit analysis, 1 in digital computer fundamentals, 1 in electronic instruments, and 1 in transistor/tube theory, for a total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) and additional credit in electron device theory, radar/microwave, digital computers, and circuit analysis on the basis of institutional evaluation. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 3 in radar/microwave theory, 3 in human relations, 3 in personnel supervision, 2 in DC circuit analysis, 2 in AC circuit analysis, 2 in digital circuit analysis, 1 in digital computer fundamentals, 1 in electronic instruments, and 1 in transistor/tube theory, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics) and additional credit in electron device theory, radar/microwave, digital computers, and circuit analysis on the basis of institutional evaluation; *if the duty assignment was chief fire control mechanic,* 3 additional semester hours for field experience in management, for a minimum total of 6 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Levels 20 and 30 because additional skills are administrative and supervisory in nature (2/76).

MOS-24Q-002

Nike-Hercules Fire Control Mechanic

24Q10
24Q20
24Q30
24Q40

Exhibit Dates: 3/78-Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 232 (Nike Missile System Mechanics).

Description

Summary: Supervises or performs organizational maintenance on Nike Hercules fire control equipment and radar target simulator. *Skill Level 10:* Performs maintenance on tracking radar, range radar, missile tracking radar, data recorders, and battery control circuits; performs checks and adjustments to the component level using schematic-related troubleshooting techniques; uses standard circuit tracing equipment such as an oscilloscope, multimeter, differential voltmeter; circuits, primarily involves vacuum tubes, but some transistors and integrated circuits are also encountered. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provide technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises activities of lower skill levels; supervises the preparation of maintenance forms and reports; supervises training programs, requisition of parts or stocks for repairs; organizes and supervises maintenance and inspection teams. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and coordinates all maintenance on the Nike Hercules fire control equipment including the radar target simulator; may serve as Chief Fire Control Mechanic at battalion or higher level.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in electric/electronic fundamentals, 3 in electronics maintenance, and 3 in electronics fundamentals, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic fundamentals and 3 in radar operations. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering) (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electric/electronic fundamentals, 3 in electronics maintenance, 3 in electronics troubleshooting, 3 in electronics shop practices, and 2 in maintenance management, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electric/electronic fundamentals, 3 in electronics maintenance, 3 in electronics troubleshooting, 3 in electronics shop practices, 2 in records and reports preparation, 2 in maintenance management, and 3 in personnel supervision, for a total of 19 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering) and 3 for field experience in personnel management (1/80).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electric/electronic fundamentals, 3 in electronics maintenance, 3 in electronics troubleshooting, 3 in electronics shop practices, and 3 in maintenance management, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electric/electronic fundamentals, 3 in electronics maintenance, 3 in electronics troubleshooting, 3 in electronics shop practices, 2 in records and reports preparation, 3 in maintenance management, 3 in personnel supervision, for a total of 20 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering), 3 for field experience in personnel management, 3 in introduction to management, and 3 in human relations, for a total of 12 semester hours (1/80).

MOS-24U-001

Hercules Electronics Mechanic

24U20
24U40

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 232 (Nike Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on Hercules missiles, airframes, and launching devices. *Skill Level 20:* Assembles, installs, maintains, and adjusts mechanical on-missile guidance control systems and associated equipment; assembles and interconnects electronic missile components; locates and repairs malfunctions, using common and special-design tools and test equipment; initiates requisitions for repair parts, tools, test equipment, and supplies. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as the first-line technical supervisor of Hercules electronics mechanics; establishes workloads and maintenance priorities; coordinates maintenance activities with other units; determines faulty work practices and demonstrates proper maintenance and troubleshooting techniques; organizes and supervises inspection and maintenance teams; supervises the preparation of technical reports and forms.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, and 3 in electronic instruments, and additional credit in advanced electronics on the basis of institutional evaluation, for a minimum total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in basic electricity, and 3 in technical mathematics (including trigonometry), for a total of 9 semester hours. In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. In a construction electrician apprentice training program, advanced standing on the basis of employer or trade association performance examination (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electricity, 3 in basic electronics, 3 in electronic instruments, and 3 in advanced electronics, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in basic electricity, 3 in technical mathematics (including trigonometry), and 3 in human relations, for a total of 12 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-24U-002

Hercules Electronics Mechanic

24U10
24U20
24U30
24U40

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 232 (Nike Missile System Mechanics).

Description

Summary: Supervises or performs maintenance on Hercules missiles, airframes, and launch devices. *Skill Level 10:* Assembles, installs, maintains, and adjusts certain mechanical assemblies relating to on-missile guidance control; assembles and interconnects electronic missile components; localizes malfunctions, and repairs authorized components using specialized test sets; initiates requisitions for repairs of mechanical and some electronics missile subsystems; checks calibration of test sets; makes adjustments; isolates malfunctions in test sets to component level and makes repairs. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises activities of lower skill level personnel; supervises the preparation of maintenance forms and reports; supervises training programs, requisition of parts and stock for repairs; organizes and supervises maintenance and inspection teams. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises and coordinates all maintenance on the Hercules missiles, airframe and launch devices; may serve as Chief Electronics Mechanic at battalion or higher level.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in electric/electronic fundamentals, 3 in electronic maintenance, and 3 in electronics troubleshooting, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics fundamentals (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electric/electronic fundamentals, 3 in electronics maintenance, 3 in electronics troubleshooting, 2 in maintenance management, and 3 in electronics shop practices, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics fundamentals, 2 in maintenance management, 3 in personnel supervision, 3 in electronics shop practices, and 2 in records and reports preparation, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel management (1/80).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electrical/electronic fundamentals, 3 in electronics maintenance, 3 in electronics troubleshooting, 3 in maintenance management, and 3 in electronics shop practices, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics fundamentals, 3 in maintenance management, 3 in personnel supervision, 3 in electronics shop practices, and 2 in records and reports preparation, for a total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel management, 3 in introduction to management, and 3 in human relations, for a total of 9 semester hours (1/80).

MOS-24V-001

Improved Hawk Maintenance Chief

24V50

Exhibit Dates: 10/73–8/76.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Supervises the maintenance of the Improved Hawk missile system; assists in the development of the quality assurance/quality control program and supervises its implementation; interprets policy; recommends changes in policy and procedures; advises superiors on all personnel matters; plans all work activities and operations; directs on-the-job training. NOTE: May have progressed to 24V50 from Skill Level 40 of any Improved Hawk mechanic or repairman MOS.

Recommendation

In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in human relations, 3 in maintenance management, 3 in industrial arts education (electronics) and 6 for field experience in management, for a minimum total of 18 semester hours; *if the duty assignment was maintenance chief,* 3 additional semester hours in personnel management, for a total of 21 semester hours; *if the duty assignment was chief instructor in a training facility,* 3 additional semester hours for an internship in education, for a total of 21 semester hours (2/76).

MOS-24V-002

Improved Hawk Maintenance Chief

24V50

Exhibit Dates: 9/76–2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Supervises and coordinates maintenance of Improved Hawk missile system, including launcher; assists in the development of the quality control program and supervises its implementation; interprets policies and procedures; advises superiors on technical and personnel matters; plans work activities and operations; assists in planning and accomplishing on-the-job training; directs and coordinates the administration of the unit to which assigned; assists company commander with inspections, observes discrepancies, and initiates appropriate corrective action. Note: May have progressed to 24V50 from Skill Level 40 of any Improved Hawk mechanic or repairman MOS.

Recommendation

In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in supervision and leadership, 3 in maintenance management, 3 in industrial arts education, and 6 for field experience in management, for a minimum total of 18 semester hours; *if the duty assignment was chief instructor in a training facility,* 3 additional semester hours for an internship in education, for a total of 21 semester hours (5/77).

MOS-24V-003

Improved Hawk Maintenance Chief

24V40
24V50

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 236 (Improved Hawk Missile System Repair).

Description

Summary: Supervises and coordinates maintenance of Improved Hawk system. *Skill Level 40:* Supervises and coordinates maintenance of Improved Hawk system, including launcher, radar, battery control, information coordination, simulator station, test equipment and associated training equipment; serves as a section chief or principal noncommissioned officer of platoon performing missile system support maintenance; supervises and inspects activities of subordinates engaged in missile system maintenance; assists in development and supervises quality assurance and quality control programs; advises superiors on technical and personnel matters; assists in planning and accomplishing on-the-job training. Note: May have progressed to 24V40 from 22K30 (Hawk Missile and Launcher Repairer), 23Q30 (Hawk Fire Control Repairer), 22S30 (Hawk Pulse Radar Repairer), or 23T30 (Hawk Continuous Wave Radar Repairer). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as maintenance chief in unit at battalion level or higher, or serves as chief instructor in a training facility; may serve as first sergeant of a company. Note: May have progressed to 24V50 from 24V40, 24B40 (Hawk Continuous Wave Radar Mechanic), 24D40 (Hawk Missile Launcher Mechanic), 24F40 (Hawk Fire Control System Mechanic), or 23V50 (Hawk Maintenance Chief).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in maintenance management, and 3 in public speaking, for a total of 9 semester hours. In the upper-division baccalaureate category, 2 semester hours in human relations, 3 in introduction to management, 3 for field experience in management, 3 in industrial arts education, and 3 in personnel management, for a total of 14 semester hours (1/80).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 2 semester hours in human relations, 3 in introduction to management, 6 for field experience in management, 3 in industrial arts education, and 3 in personnel management, for a minimum total of 17 semester hours; *if the duty assignment was maintenance chief,* 3 additional semester hours in personnel management; *if the duty assignment was chief instructor in a training facility,* 3 additional semester hours for an internship in education (1/80).

MOS-25D-001

BIRDIE REPAIRMAN

25D20

25D40

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 25D was discontinued).

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 238 (Fire Distribution Systems Repair).

Description

Summary: Supervises or performs support maintenance on battery integration radar display equipment (BIRDIE) and associated radar data processing equipment (RDPE). *Skill Level 20:* Troubleshoots circuitry; conducts lamp tests on test panel, replaces indicators, substitutes circuit packages; repairs or replaces defective test panel internal circuitry; troubleshoots and aligns data link system; test operates monitor console; adjusts deflection presentations, offset functions, and range marker accuracy; adjusts sweep and tag amplifiers for zero and test voltages, using portable oscilloscope and test panel; aligns analog subsystem by measuring and adjusting amplitude and phase; adjusts sweep resolver to align servomechanism; maintains air conditioners, test equipment, and tools. *Skill Level 40:* Able to perform the duties required for Skill Level 20; coordinates work activities with equipment operators and fire distribution terminal equipment repairmen; is responsible for the preparation of technical and administration records and reports; prepares, plans, and schedules work shifts and assignments; observes, corrects, instructs, and supervises subordinate personnel in proper maintenance techniques and procedures; diagnoses complex equipment malfunctions.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic electronics (including AC and DC circuits and use of test equipment), 3 in technical mathematics, 1 in digital circuits, and additional credit in electronics, mathematics, and computer science on the basis of institutional evaluation, for a minimum total of 10 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electronics (including AC and DC circuits and use of test equipment), 3 in technical mathematics, 1 in digital circuits, 3 in human relations, 3 in maintenance supervision, 3 for field experience in management, and additional credit in electronics, mathematics, and computer science on the basis of institutional evaluation, for a minimum total of 19 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-25G-001

MOBILE ADCP MONITOR REPAIRMAN

25G20

25G40

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 25G was discontinued.)

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 238 (Fire Distribution Systems Repair).

Description

Summary: Maintains weapons monitoring center and associated mobile monitor equipment. *Skill Level 20:* Troubleshoots and repairs or replaces analog, digital, and analog-digital interface circuits; repairs or replaces monitor equipment components, such as buffers, magnetic drum and memory read-write amplifiers, display generators, consoles, cathode ray displays, radar data converters, data links, sequencers, computers, communications, and power supplies; uses oscilloscopes, digital testers, signal generators, transistor testers, tube testers, frequency meters, electronic voltmeters, and multimeters; performs field maintenance on test equipment, air conditioners, and equipment vans; modifies equipment to work order specifications. *Skill Level 40:* Prepares, plans, and schedules work shifts and assignments; observes, corrects, and instructs personnel in proper maintenance techniques and procedures; advises and assists repair personnel in solving complex maintenance problems; prepares technical and administrative records and reports. NOTE: May have progressed to 25G40 from either 25G20 or 25H20 (Radar Data Processing Equipment Repairman).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in basic electronics (including DC and AC circuits and use of test equipment), 3 in tube and transistor circuits, and 3 in digital circuits, for a total of 18 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in technical mathematics, 6 in basic electronics (including DC and AC circuits and use of test equipment), 3 in tube and transistor circuits, and 3 in digital circuits for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in basic electronics (DC and AC circuits and use of test equipment), 3 in tube and transistor circuits, 3 in digital circuits, 3 in human relations, 3 in maintenance supervision, and 3 for field experience in management, for a total of 27 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-25H-001

RADAR DATA PROCESSING EQUIPMENT REPAIRMAN

25H20

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 25H was discontinued.)

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 238 (Fire Distribution Systems Repair).

Description

Troubleshoots, diagnoses malfunctions, and repairs radar data processing and associated mobile monitoring equipment, such as buffers, magnetic drum and memory read-write amplifiers, display generators, digilogs, cathode ray displays and associated circuitry, consoles, data links, sequencers, remote data controls, radar data information circuits, communications, and power supplies; uses block diagrams, schematics, wire run charts and electronic test equipment; modifies equipment to work order specifications; maintains tools, test equipment, air conditioners, and equipment vans; keeps maintenance records; requisitions parts and subassemblies.

Recommendation

In the vocational certificate category, 6 semester hours in basic electronics, 6 in mathematics and trigonometry, 3 in digital circuits, 3 in tube and transistor circuits, and additional credit in basic electronics on the basis of institutional evaluation, for a minimum total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electronics, 6 in technical mathematics, 3 in digital circuits, 3 in tube and transistor circuits, and additional credit in computer technology on the basis of institutional evaluation, for a minimum total of 18 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-25J-001

OPERATIONS CENTRAL REPAIRMAN (OC-CDG REPAIRMAN)

25J20

25J40

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 238 (Fire Distribution Systems Repair).

Description

Summary: Supervises or performs support maintenance on operations central. *Skill Level 20:* Diagnoses malfunctions; locates defects; repairs and replaces components, including binary counters, relays, digital card assemblies, vacuum tubes, cathode ray tubes, summing network circuits, power supplies, and associated regulation circuits; performs inspections and conducts system tests; studies and interprets technical manuals, schematics and wiring diagrams; organizes troubleshooting and maintenance procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises repair activities; observes, corrects, and instructs subordinates in proper maintenance techniques and procedures; coordinates maintenance functions with supported units; prepares records and reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in direct current, 3 in alternating current, 6 in technical mathematics, 3 in tube and transistor circuits, and 3 in digital circuits, for a total of 21 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in direct current, 3 in alternating current, 6 in technical mathematics, 3 in tube and transistor circuits, 3 in digital circuits, 3 in human relations, 3 in maintenance supervision, and 3 for field experience in management, for a total of 30 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-25J-002

Operations Central Repairer

25J10
25J20
25J30
25J40

Exhibit Dates: 3/78–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 237 (Fire Distributing Systems Repair).

Description

Summary: Supervises and performs maintenance on operations central. *Skill Level 10:* Performs full range of maintenance on operations central system; troubleshoots equipment and circuitry; diagnoses malfunctions and locates defects; repairs or replaces components including binary counters, relays, digital card assemblies, vacuum tube amplifiers, cathode ray tubes, circuits, power supplies, and associated regulation circuits; test operates system; conducts functional and system test, utilizing common and special test equipment; uses technical material, block diagrams, schematics, and charts to organize troubleshooting procedures and techniques; traces and tests circuits for malfunctioning components using oscilloscopes, multimeters, tube testers, and digital element testers; disassembles and repairs chassis and assemblies replacing defective circuit elements; tests repaired chassis and assemblies to ensure proper operations; performs user maintenance on tools and test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; installs system electrical/electronic equipment modifications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises duties of lower skill level personnel; observes, corrects, and instructs subordinates in proper maintenance techniques and procedures; prepares or supervises preparation of maintenance and administrative records and reports; advises and assists repair personnel on more difficult phases of maintenance. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as senior instructor in a training facility.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in basic electronics, 3 in AC theory, 3 in DC theory, 6 in applied mathematics, 3 in transistor circuits, and 3 in digital circuits, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in AC theory, 3 in DC theory, 3 in technical mathematics, 3 in computer mathematics, 3 in transistor circuits, and 3 in digital circuits, for a total of 21 semester hours (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electronics, 3 in AC theory, 3 in DC theory, 6 in applied mathematics, 3 in transistor circuits, 3 in digital circuits, 2 in maintenance management, and 3 in electronics shop practices, for a total of 26 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in AC theory, 3 in DC theory, 3 in technical mathematics, 3 in computer mathematics, 3 in transistor circuits, 3 in digital circuits, 3 in electronics shop practices, 2 in maintenance management, 2 in records and reports preparation, and 3 in personnel supervision, for a total of 31 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel supervision and 3 in industrial education (electronics) (1/80).

Recommendation, Skill Level 40

In the vocational certificate category and in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel supervision, 3 in industrial education (electronics), and 3 for a practicum in education, for a total of 9 semester hours (1/80).

MOS-25K-001

AN/TSQ-51 System Repairman/ Maintenance Chief

25K20
25K40
25K50

Exhibit Dates: 9/75–2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 238 (Fire Distribution Systems Repair).

Description

Summary: Supervises or performs support maintenance on the Air Defense Command and Control System (AN/TSQ-51). *Skill Level 20:* Performs full range of maintenance on display consoles, display and signal generation equipment, radar integration and video processing equipment, and general-purpose computers; troubleshoots equipment circuitry; diagnoses malfunctions and locates defects; repairs or replaces components in system; test-operates system; studies and interprets technical material, diagrams, computer programs, and interconnection lists; modifies system and components. *Skill Level 40:* Able to perform the duties required for Skill Level 20 and provides technical guidance to Skill Level 20 personnel; supervises maintenance activities; schedules work shifts and assignments; prepares technical and administrative records and reports. *Skill Level 50:* Able to perform the duties required for 25K40, 25D40 (BIRDIE Repairman), 25G40 (Mobile ADCP Monitor Repairman), or 25J40 (Operations Central Repairman); supervises fire distribution system maintenance unit at brigade or comparable level; supervises tactical movements of mobile fire distribution system; coordinates installation of equipment; handles classified material; diagnoses and determines causes of unusual or recurrent malfunctions; prepares reports and makes recommendations for modification of components; serves as chief instructor in a training facility.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in direct current, 3 in alternating current, 3 in basic electronics, 3 in introduction to computer science, 3 in technical mathematics (including algebra and trigonometry), and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 15 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in direct current, 3 in alternating current, 3 in basic electronics, 3 in introduction to computer science, 3 in technical mathematics (including algebra and trigonometry), 3 in human relations, 3 in personnel supervision, 3 for field experience in management, 3 in industrial arts education (electronics), and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 27 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics), 3 in introduction to management, 3 in maintenance management, 3 in human relations and 6 for field experience in management, for a minimum total of 18 semester hours; *if the duty assignment was maintenance chief,* 3 additional semester hours in personnel management, for a total of 21 semester hours; *if the duty assignment was chief instructor in a training facility,* 3 additional semester hours for an internship in education, for a total of 21 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-25K-002

AN/TSQ-51 SYSTEM REPAIRER/MAINTENANCE CHIEF

25K10
25K20
25K30
25K40
25K50

Exhibit Dates: 3/78–Present. Pending evaluation.

MOS-25L-001

AN/TSQ-73 AIR DEFENSE ARTILLERY COMMAND AND CONTROL SYSTEM OPERATOR/REPAIRER

25L10
25L20
25L30
25L40

Exhibit Dates: 9/77–Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 237 (Fire Distribution Systems Repair).

Description

Summary: Supervises, operates, and performs maintenance on Air Defense Command and Control System (AN/TSQ-73). *Skill Level 10:* Operates the command and control system in the collection, evaluation, and distribution of target data to air defense artillery fire units; operates general purpose target display systems and communication stations; monitors display status readouts to ensure correct target identification; although this skill level indicates primarily operator duties, maintenance skills are being developed; diagnostic procedures are, in general, limited to programmed diagnostic checks. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs full range of maintenance on display consoles, power supplies, communications equipment, general purpose computers, and peripheral devices; provides technical and operational assistance to Skill Level 10 personnel; removes and replaces faulty assemblies and circuit cards. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance to lower skill level personnel in accomplishment of duties; able to detect and replace defective individual components; supervises on-the-job training and all operation/repair activities of subordinate personnel. *Skill Level 40:* Supervises and inspects overall organizational maintenance of the air defense command and control system.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in basic electricity, and 3 in applied mathematics, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in basic electricity, 3 in technical mathematics, and additional credit in electronics and digital computer operations on the basis of institutional evaluation, for a minimum total of 9 semester hours (1/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in basic electricity, 3 in applied mathematics, and 3 in electronics test procedures, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in basic electricity, 3 in technical mathematics, and 3 in electronics test procedures, and additional credit in electronics and digital computer operations on the basis of institutional evaluation, for a minimum total of 12 semester hours (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in basic electricity, 3 in applied mathematics, 3 in electronics test procedures, 2 in maintenance management, 3 in electronic shop practices, and 3 in introduction to computers, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in basic electricity, 3 in technical mathematics, 3 in electronics test procedures, 3 in introduction to computer science, 3 in electronics shop practices, 3 in personnel supervision, and 2 in maintenance management, and additional credit in electronics and digital computer operations on the basis of institutional evaluation, for a minimum total of 23 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel supervision (1/80).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in basic electricity, 3 in applied mathematics, 3 in electronics test procedures, 3 in maintenance management, 3 in electronics shop practices, and 3 in introduction to computers, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in basic electricity, 3 in technical mathematics, 3 in electronics test procedures, 3 in introduction to computer science, 3 in electronics shop practices, 3 in personnel supervision, and 3 in maintenance management, and additional credit in electronics and digital computer operations on the basis of institutional evaluation, for a minimum total of 24 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in personnel supervision, 3 in introduction to management, and 3 in human relations, for a total of 9 semester hours (1/80).

MOS-26B-001

WEAPONS SUPPORT RADAR REPAIRMAN

26B20
26B30

Exhibit Dates: 10/73–2/78.

Career Management Field: 26 (Non-Integrated Radar Maintenance), *subfield* 262 (Ground Radar Repair).

Description

Summary: Performs maintenance on weapons support radar and associated equipment. *Skill Level 20:* Uses hand tools and test and measuring equipment to detect sources of malfunctions in weapons support radars; interprets schematic diagrams and technical material; replaces faulty components; adjusts operating radars and associated equipment for maximum performance. *Skill Level 30:* Able to perform the duties required for Skill Level 20; adjusts recorders, relays, controls, and power units; determines the extent of required maintenance; makes comparison checks of repaired equipment with test standards; keeps work logs; prepares supply requisitions.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and test equipment operation, 3 in tube and transistor circuits, and 3 in radar, for a total of 18 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-26B-002

WEAPONS SUPPORT RADAR REPAIRER

26B10
26B20

Exhibit Dates: 3/78–Present.

Career Management Field: 29 (Communications—Electronics Maintenance).

Description

Summary: Performs maintenance on weapons support radar, meteorological and associated equipment. *Skill Level 10:* Performs equipment serviceability criteria checks; maintains logs and records; replaces and repairs faulty components; uses hand tools and test measuring equipment to detect sources of malfunctions; interprets schematic diagrams and technical materials; adjusts operating radars, meteorological and associated equipment for maximum performance; tests, operates, and aligns repaired equipment to insure operation conforms to standards. *Skill Level 20:* Able to perform the duties required for Skill Level 10; tests and adjusts recorders, relays, controls and power units; determines the extent of required maintenance; makes comparison checks of repaired equipment with test standards; keeps working logs; prepares supply requisitions.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in technical mathematics, 6 in DC/AC circuits, 3 in tube and transistor circuits, and 3 in radar, for a total of 15 semester hours (10/79).

MOS-26C-001

COMBAT AREA SURVEILLANCE RADAR REPAIRMAN

26C20

Exhibit Dates: 10/74–8/77.

Career Management Field: 26 (Non-Integrated Radar Maintenance), *subfield* 262 (Ground Radar Repair).

Description

Maintains ground surveillance and light air defense Doppler radars and associated equipment; uses voltmeters, ohmmeters, signal generators, oscilloscopes, and other testing devices to localize and isolate source of malfunction; determines extent of required maintenance; replaces faulty components, including vacuum tubes, resistors, capacitors, and multivibrators; adjusts relays, dials, and controls; applies electrical theory to series and parallel circuitry motors and generators; interprets circuit diagrams, block diagrams, schematics, and technical manuals.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, and 3 in radar, for a total of 18 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-26C-002

COMBAT AREA SURVEILLANCE RADAR REPAIRER

26C20
26C30
26C40

Exhibit Dates: 9/77-2/78.

Career Management Field: 26 (Non-Integrated Radar Maintenance), *subfield* 262 (Ground Radar Repair).

Description

Summary: Maintains ground surveillance equipment and light air-defense pulse Doppler radars and associated equipment. *Skill Level 20:* Makes detailed tests through stages of equipment, using voltmeters, ohmmeters, signal generators, oscilloscopes, and other testing devices to localize and isolate source of malfunctions; replaces faulty components, including vacuum tubes, resistors, capacitors, and multivibrators; adjusts relays, dials, and controls, using common or specialized hand tools; maintains tools and test equipment in operating condition; test-operates, aligns, and checks repaired equipment with test standards; applies electrical theory to series and parallel circuitry, motors, and generators; applies servo, timing, and gating circuitry to light air-defense and ground surveillance radars; aligns radar transmitting and receiving chassis; interprets circuit diagrams, block diagrams, schematics and technical manuals; troubleshoots malfunctioning equipment by sectionalization and isolation of malfunction to individual components or associated group of components. *Skill Level 30:* Able to perform the duties required for Skill Level 20; checks maintenance performed by Skill Level 20 personnel for adequacy and suitability; inspects radar systems and components for wear, evidence of damage, and indications of breakdown; test-operates repaired nonintegrated radar and equipment with measuring devices, special tools, and test equipment; assists in diagnosis of complex malfunctions; insures that completed repairs comply with prescribed standards; recognizes electronic countermeasures and interference problems. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; supervises radar repair personnel engaged in maintenance of nonintegrated radar and associated equipment; organizes and supervises radar repair teams; plans, organizes, and supervises operations of a repair maintenance shop; establishes work priorities; supervises and assists in making complex authorized modifications on nonintegrated radar and associated equipment; interprets complex specification, circuit, schematic, and cable diagrams; determines technical operating difficulties and corrective actions necessary from oscilloscope wave analyses and signal training on schematic or circuit diagrams; conducts on-the-job training. NOTE: May have progressed to 26C40 from 26C20 or 26C30.

Recommendation, Skill Levels 20 and 30

In the vocational certificate or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity, 3 in radar, 3 in applied mathematics, and 3 in use and care of tools and test equipment, for a total of 15 semester hours (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity, 3 in radar, 3 in applied mathematics, 3 in use and care of tools and test equipment, 3 in human relations, 3 in personnel supervision, and 3 in shop management, for a total of 24 semester hours (5/78).

MOS-26C-003

COMBAT AREA SURVEILLANCE RADAR REPAIRER

26C10
26C20
26C30

Exhibit Dates: 3/78-Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Maintains ground surveillance equipment and light air-defense pulse Doppler radars and associated equipment. *Skill Level 10:* Makes detailed tests through stages of equipment, using voltmeters, ohmmeters, signal generators, oscilloscopes, and other testing devices to localize and isolate source of malfunctions; replaces faulty components, including vacuum tubes, resistors, capacitors, and multivibrators; adjusts relays, dials, and controls, using common or specialized hand tools; maintains tools and test equipment in operating condition; test-operates, aligns, and checks repaired equipment with test standards; applies electrical theory to series and parallel circuitry, motors, and generators; applies servo, timing, and gating circuitry to light air-defense and ground surveillance radars; aligns radar transmitting and receiving chassis; interprets circuit diagrams, block diagrams, schematics and technical manuals; troubleshoots malfunctioning equipment by sectionalization and isolation of malfunction to individual components or associated group of components. *Skill Level 20:* Able to perform the duties required for Skill Level 10; checks maintenance performed by Skill Level 10 personnel for adequacy and suitability; inspects radar systems and components for wear, evidence of damage, and indications of breakdown; test-operates repaired nonintegrated radar and equipment with measuring devices, special tools, and test equipment; assists in diagnosis of complex malfunctions; insures that completed repairs comply with prescribed standards; recognizes electronic countermeasures and interference problems. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises radar repair personnel engaged in maintenance of nonintegrated radar and associated equipment; organizes and supervises radar repair teams; plans, organizes, and supervises operations of a repair maintenance shop; astablishes work priorities; supervises and assists in making complex authorized modifications on nonintegrated radar and associated equipment; interprets complex specification, circuit, schematic, and cable diagrams; determines technical operating difficulties and corrective actions necessary from oscilloscope wave analyses and signal tracing on schematic or circuit diagrams; conducts on-the-job training. NOTE: May have progressed to 26C30 from 26C20 or 26B20 (Weapons Support Radar Repairer).

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in DC circuits, 3 in AC laboratory practices, 3 in very high frequency (VHF) techniques, and 6 in troubleshooting techniques, for a total of 15 semester hours (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in DC circuits, 3 in AC laboratory practices, 3 in very high frequency (VHF) techniques, 6 in troubleshooting techniques, and 3 in personnel supervision, for a total of 18 semester hours (10/79).

MOS-26D-001

GROUND CONTROL APPROACH RADAR REPAIRMAN

26D20

Exhibit Dates: 10/73-8/77.

Career Management Field: 26 (Non-Integrated Radar Maintenance), *subfield* 262 (Ground Radar Repair).

Description

Inspects, tests, and repairs ground control radar equipment at field and depot level; utilizes test equipment such as multimeters, electronic voltmeters, oscilloscopes, signal generators, echo boxes, and other test equipment to troubleshoot radar systems to the component level; replaces faulty components, including vacuum tubes, transistors, resistors, and capacitors; adjusts relays, dials, and controls; adjusts and aligns equipment to specified performance levels; interprets circuit diagrams, block diagrams, schematics, and technical manuals.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, and 3 in radar, for a total of 18 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-26D-002

GROUND CONTROL APPROACH RADAR REPAIRER

26D10
26D20
26D30

Exhibit Dates: 9/77-Present.

Career Management Field: 28 (Aviation Communications—Electronics).

Description

Summary: Maintains ground control approach radar systems and associated equipment. *Skill Level 10:* Localizes and diagnoses causes of equipment malfunction or nonfunction; tests and aligns equipment to insure maximum efficiency; replaces faulty components and parts; performs adjustments after installation. *Skill Level 20:* Able to perform the duties required for Skill Level 10; maintains equipment records; makes detailed tests through stages of malfunctioning equipment, using voltmeters, ohmmeters, echo boxes, signal generators, and other testing devices; determines the cause of malfunction and extent of maintenance; adjusts relays, dials, and controls; test-operates, aligns, and performs comparison checks on repaired equipment with test standards; performs modification work orders; keeps tools and test equipment in operating condition. *Skill Level 30:* Able to perform the duties required for Skill Level 20; keeps work logs; prepares supply requisitions; aligns radar transmitting and receiving chassis; installs ground control approach radar systems; uses sectionalization, localization, and isolation of malfunction in troubleshooting; repairs faulty components; uses safety precautions when working around high voltages; authorizes acquisitions of spare parts, supply stock, and technical literature.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in applied mathematics, and 3 in radar, for a total of 9 semester hours (5/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity, 3 in applied mathematics, 3 in radar, and 3 in use and care of tools and test equipment, for a total of 15 semester hours (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity, 3 in applied mathematics, 3 in radar, 3 in use and care of tools and test equipment, 1 for field experience in management, and additional credit in basic electricity and radar on the basis of institutional evaluation, for a minimum total of 16 semester hours (5/78).

MOS-26E-001

AERIAL SURVEILLANCE SENSOR REPAIRER

26E10
26E20
26E30

Exhibit Dates: 9/77-Present.

Career Management Field: 28 (Aviation Communications-Electronics).

Description

Summary: Maintains aerial surveillance systems employed in the OV-1D (MOHAWK) aircraft, associated data link, and ground receiving and processing components. *Skill Level 10:* Tests, troubleshoots, aligns, and repairs equipment using conventional and special purpose electronic testing and diagnostic equipment and hand tools; maintains conventional and special purpose test equipment; employs special handling techniques for delicate and touch-sensitive devices such as photo lens, optic reflectors, film exposure, and processing devices; reads and analyzes electrical/electronic block/detailed schematic diagrams; reads and analyzes mechanical assembly diagrams; maintains technical reference library on aerial surveillance system. *Skill Level 20:* Able to perform the duties required for Skill Level 10; modifies and records aerial surveillance modifications in accordance with modification work orders; maintains maintenance forms and records; requisitions parts and supplies; maintains selected items of special purpose test equipment; provides assistance to Skill Level 10 personnel in diagnoses of complex maintenance problems. *Skill Level 30:* Able to perform the duties required for Skill Level 20; insures that proper parts and supply inventories are maintained; supervises personnel engaged in the maintenance of aerial surveillance equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic electricity, 3 in shop mathematics, and 3 in use and care of tools and test equipment, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in technical mathematics, 3 in basic instrumentation, and 3 in use and care of tools and test equipment, for a total of 12 semester hours (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in basic electricity, 3 in shop mathematics, and 3 in use and care of tools and test equipment, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity, 3 in technical mathematics, 3 in basic instrumentation, and 3 in use and care of tools and test equipment, for a total of 15 semester hours (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electricity, 3 in technical mathematics, 3 in basic instrumentation, 3 in use and care of tools and test equipment, and 1 in personnel supervision, for a total of 16 semester hours (5/78).

MOS-26H-001

AIR DEFENSE RADAR REPAIRMAN

26H20
26H30

Exhibit Dates: 10/73-2/78.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Performs maintenance on air defense radars and associated equipment, including height, azimuth, and distance finding radars, servo, data transmission systems, and computers. *Skill Level 20:* Keeps tools and test equipment in operating condition; makes detailed tests of operating stages of the equipment, using the voltmeter, ohmmeter, echo box, signal generator, and oscilloscope; determines causes of malfunctions and replaces faulty components; test-operates, aligns, and comparison-checks repaired equipment with test standards; performs modification work orders; interprets circuit diagrams, schematics, and technical manuals; troubleshoots by sectionalization, localization, and isolation, performs servo, timing, and gating circuitry analysis. *Skill Level 30:* Able to perform the duties required for Skill Level 20; maintains specialized air defense radars.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 3 semester hours in technical mathematics, 3 in basic electronics, 1 in shop practices, and 1 in use and care of tools and test equipment, and additional credit in advanced electronics on the basis of institutional evaluation, for a minimum total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in radar/microwave theory, 2 in DC circuit analysis, 2 in AC circuit analysis, 1 in electronic instruments, and 1 in transistor/tube theory, and additional credit in computer science on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours in industrial arts education (electronics). In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-26H-002

AIR DEFENSE RADAR REPAIRER

26H10
26H20
26H30

Exhibit Dates: 3/78-Present.

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 231 (Nike Missile System Repair).

Description

Summary: Supervises or performs maintenance and repairs on air defense radars and associated equipment, including height, azimuth, and distance-finding radars, servo, data transmission systems, and computers. *Skill Level 10:* Performs highly complex repairs on solid-state, integrated circuit, and vacuum tube radar and associated equipment; provides repair support and advice for various radar maintenance groups; uses advanced as well as basic electronics and schematic tracing to troubleshoot systems and subassemblies down to the component level; performs certain mathematical calculations during routine calibration or alignment procedures; uses common and advanced industrial type test equipment as well as specialized test sets to diagnose system and subassembly failures; uses common and specialized hand tools to perform repairs, adjustments, or modifications on radar or associated equipment; may train maintenance and operator personnel on the proper handling or maintenance of specified radar equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; updates knowledge of advanced modifications being performed on existing radar equipment through on-the-job training or by attending workshops. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower skill level personnel; assigns duties; manages maintenance schedules, inspections, and quality control; supervises inspection and maintenance teams; conducts on-the-job training; keeps maintenance records.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic electronics, 3 in electronic control devices, 3 in radar/microwave technology, 2 in technical mathematics, 1 in electronic instruments, and 1 in digital circuitry, for a total of 13 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 3 in radar/microwave technology, and 1 in digital circuitry, for a total of 7 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering) and 3 in a radar/microwave technical elective (1/80).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electronics, 3 in electronic control devices, 3 in radar/microwave technology, 3 in digital circuitry, 2 in technical mathematics, and 3 in electronic instruments, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 3 in radar/microwave technology, 1 in digital circuitry, and 3 in personnel supervision, for a total of 10 semester hours. In the upper-division baccalaureate category, the recommendation is the same as that for Skill Level 10 (1/80).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electronics, 3 in electronic control devices, 3 in radar/microwave technology, 3 in digital circuitry, 2 in technical mathematics, 3 in electronic instruments, and 3 in maintenance management, for a total of 20 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity and electronics, 3 in radar/microwave technology, 1 in digital circuitry, 3 in personnel supervision, and 3 in maintenance management, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours in an electronics technical elective (non-engineering), 3 in a radar/microwave technical elective, and 3 for field experience in personnel supervision, for a total of 9 semester hours (1/80).

MOS-26K-001

Electronic Warfare Equipment
Repairman

26K20

26K40

Exhibit Dates: 10/73-8/77.

Career Management Field: 26 (Non-Integrated Radar Maintenance), *subfield* 263 (Airborne Surveillance Equipment Repair).

Description

Summary: Performs field and depot maintenance on electronic systems used for countermeasures and warfare support. *Skill Level 20:* Uses test equipment such as multimeters, electronic voltmeters, oscilloscopes, signal generators, and other electronic test equipment to troubleshoot electronic equipment to the component level; determines if equipment meets original specifications after repair; dismantles and repairs circuit wiring; replaces parts, including vacuum tubes, transistors, resistors, capacitors, and printed circuit cards; adjusts relays, dials, and controls; performs maintenance on electrical generators, amplydines, and selsyn motors; interprets complex circuit diagrams. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel by scheduling work assignments and loads, evaluating personnel performance, preparing technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, and 3 in tube and transistor circuits, for a total of 15 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction on the basis of employer or trade association performance examination. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, and 3 in tube and transistor circuits, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, 3 in maintenance supervision, 3 in human relations, and 3 for field experience in management, for a total of 24 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-26K-002

Aerial Electronic Warning Defense
Equipment Repairer

26K10

26K20

26K30

Exhibit Dates: 9/77-Present. Pending evaluation.

MOS-26L-001

Tactical Microwave Systems
Repairman

26L10

26L20

26L40

Exhibit Dates: 10/73-2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 312 (Tactical Electronics Maintenance).

Description

Summary: Performs installations, operational adjustments, and maintenance of line-of-sight microwave and troposcatter radio and multiplexing equipment, and related power equipment; applies common basic electronics theory and schematic-reading skills in interpreting circuit functions and specifications; uses common and specialized tools and multimeters in performing operational checks and in diagnosing troubles in microwave equipment; performs preventive maintenance of equipment, adjusts, lubricates, and cleans electrical and mechanical components; applies safety precautions when working around high voltages and performs emergency action in the event of injury; prepares and keeps records for prescribed equipment load lists. *Skill Level 10:* Installs and operates tactical line-of-sight microwave and troposcatter radio and multiplexing equipment and related power equipment; performs operational tests on equipment; follows safety measures and provides first aid when necessary; uses tools and multimeters in performing preventive maintenance procedures. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and performs complex maintenance of tactical microwave radio equipment; uses specified tools and test instruments in diagnosing and repairing equipment; prepares and keeps maintenance and operational logs and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises installation, operation, and maintenance of tactical microwave communications systems; prepares technical and administrative reports; supervises, coordinates, or conducts training programs; normally supervises 5-8 persons.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 6 semester hours in basic AC/DC electronics theory and laboratory, 6 in radio frequency circuit systems and functions, 2 in microwave communications, 1 in high frequency amplifier circuits and devices, 1 in elementary algebra, and 1 in safety and first aid, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electronics, 6 in radio/microwave communications, and 1 in safety and first aid, for a total of 13 semester hours. In the upper-division baccalaureate category, 3 semester hours for a technical elective and 3 in industrial arts. In an electronic technician or communications technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electronics, 6 in radio/microwave communications, 1 in safety and first aid, 3 in introduction to management, and 3 in human relations, for a total of 19 semester hours. In the upper-division baccalaureate category, 3 semester hours for a technical elective, 3 in industrial arts, and 3 for field experience in management, for a total of 9 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for skill Levels 10 and 20 because additional skills are administrative and supervisory in nature (3/76).

MOS-26L-002

Tactical Microwave Systems Repairer

26L10
26L20
26L30
26L40

Exhibit Dates: 3/78–Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Supervises or performs installation, operational adjustments, repair and maintenance of microwave and communication radio, multiplex systems, and related power equipment. *Skill Level 10:* Installs and operates line-of-sight microwave and communication radio, multiplexing equipment, and power supply equipment; applies basic electronic theory and schematic-reading skills for circuit functions and specifications; uses specialized tools, multimeters, and oscilloscopes; aligns and adjusts klystrons, magnetrons, and traveling wave tubes; repairs, reassembles, and tests components; computes voltage, amperage, and resistance factors; diagnoses and repairs multiplexing and pulse code modulation equipment; performs operational tests on equipment; aligns and adjusts equipment; adjusts high power amplifier, parametric amplifiers, and receivers; repairs circuit wiring; reassembles, replaces and test-operates components; establishes and maintains records of equipment repair; applies safety precautions when working with high voltage and performs emergency action in the event of injury. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; ensures that proper procedures are followed in maintenance and repair; requisitions and maintains spare parts. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the installation and maintenance of microwave communications radio systems and multiplex equipment; prepares schedules and work assignments; ensures that proper maintenance procedures are followed; assists in preparation of radio system profile charts and maintenance plans. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises installation and maintenance of microwave communications radio systems and multiplex equipment; supervises eight or more persons in a shop or section engaged in operation or maintenance functions; coordinates installation of new or replacement equipment; supervises training programs; prepares radio frequency charts and communications systems diagrams; evaluates the efficiency and capability of lower skill level personnel.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 6 semester hours in AC/DC electronic theory and laboratory, 6 in radio frequency circuit systems and functions, 2 in microwave communications, 1 in high frequency amplifier circuits and devices, 1 in industrial safety procedures, and 1 in elementary algebra, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electronics, 6 in radio/microwave communications, and 1 in safety and first aid, for a total of 13 semester hours (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electronics, 6 in radio/microwave communications, 1 in safety and first aid, and 2 in personnel supervision, for a total of 15 semester hours. In the upper-division baccalaureate category, 2 semester hours in personnel administration (10/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in basic electronics, 6 in radio/microwave communications, 1 in safety and first aid, 2 in personnel supervision, 2 in human relations, and 2 in introduction to management, for a total of 19 semester hours. In the upper-division baccalaureate category, 2 semester hours in personnel administration, 3 in industrial arts, 3 in technical electronics, and 3 for field experience in management, for a total of 11 semester hours (10/79).

MOS-26M-001

Airborne Surveillance Radar Repairman

26M20
26M40

Exhibit Dates: 10/73–8/77. (Effective 9/77, MOS 26M was discontinued for use in the Active Army and retained for use in the Reserve Forces only.)

Career Management Field: 26 (Non-Integrated Radar Maintenance), *subfield* 263 (Airborne Surveillance Equipment Repair).

Description

Summary: Supervises, inspects, and performs support and depot maintenance on airborne surveillance radar systems and associated ground equipment. *Skill Level 20:* Performs support and depot maintenance on side-looking airborne radar systems (including the airborne surveillance radar, radar data transmitting set, radar data receiving set, and data transfer system alignment); inspects tests, and repairs malfunctioning equipment by using voltmeters, ohmmeters, signal generators, and oscilloscopes; adjusts, calibrates, and aligns equipment to manufacturers' specifications; performs authorized modifications and advises maintenance personnel on changes in operation and maintenance requirements due to equipment modification; prepares appropriate maintenance and supply forms and reports; keeps tools and test equipment in proper operating condition and accurately calibrated. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities and technician training functions. NOTE: May have progressed to 26M40 from 26M20 or 41G20 (Surveillance Photographic Equipment Repairman).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, and 3 in radar, for a total of 18 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, 3 in radar, and additional credit in digital electronics on the basis of institutional evaluation, for a minimum total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, 3 in radar, 3 in human relations, 3 in maintenance supervision, 3 for field experience in management, and additional credit in digital electronics, algebra, and trigonometry on the basis of institutional evaluation, for a minimum total of 27 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-26M-002

Aerial Surveillance Radar Repairer

26M10
26M20
26M30

Exhibit Dates: 9/77–Present.

Career Management Field: 28 (Aviation Communications-Electronics Systems Maintenance).

Description

Effective 9/77, MOS 26M was discontinued for use in the Active Army and retained for use in the Reserve Forces only. The American Council on Education will not be able to evaluate MOS 26M until after the Skills Qualification Tests for 26M10, 26M20, and 26M30 have been developed, which is not expected until 1981.

Recommendation, All Skill Levels

Credit on the basis of institutional evaluation.

MOS-26N-001

Surveillance Infrared Repairman

26N20

Exhibit Dates: 10/73–8/77. (Effective 9/77, MOS 26N was discontinued for use in the Active Army and retained for use in the Reserve Forces only.)

Career Management Field: 26 (Non-Integrated Radar Maintenance), *subfield* 263 (Airborne Surveillance Equipment Repair).

Description

Performs support and depot maintenance of infrared surveillance systems; locates and determines causes of malfunctions by circuit diagrams and specialized testing; repairs, modifies, and aligns by using test equipment and specialized hand tools; provides technical assistance; performs administrative duties, including requisitioning, stocking, and filing of repair parts and supplies.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, and 3 in radio, for a total of 18 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

MOS-26N-002

AERIAL SURVEILLANCE INFRARED REPAIRER

26N10

26N20

Exhibit Dates: 9/77–Present.

Career Management Field: 28 (Aviation Communications-Electronics Systems maintenance).

Description

Effective 9/77, MOS 26N was discontinued for use in the Active Army and retained for use in the Reserve Forces only. The American Council on Education will not be able to evaluate MOS 26N until after the Skills Qualification Tests for 26N10 and 26N20 have been developed, which is not expected until 1981.

Recommendation, Skill Levels 10 and 20

Credit on the basis of institutional evaluation.

MOS-26P-001

RADIO PROPAGATION SPECIALIST

26P20

26P40

26P50

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 26P was discontinued and its functions were incorporated into MOS 32H (Fixed Station Radio Repairer) and 32Z (Communications-Electronics Maintenance Chief.)

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Performs inspections and maintenance on specialized electromagnetic equipment. *Skill Level 20:* Installs, operates, maintains, and repairs radio propagation equipment; locates malfunctions of major components; adjusts equipment, using standardized and specialized meters and oscilloscopes; interprets circuit diagrams, schematic diagrams, and technical literature pertaining to operation and maintenance of ionosonde, field intensity, radio noise measuring, and associated equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; performs routine management functions of a radio propagation station; supervises ionosphere recording operations and associated radio propagation tests and analysis activities; supervises installation of equipment; may write specifications for equipment and technical reports; prepares work schedules and operating procedures; demonstrates correct maintenance and operating procedures; keeps work logs; prepares supply requisitions; prepares and consolidates technical and administrative reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; organizes and directs survey teams; plans and controls maintenance of facility equipment and physical plant; diagnoses and determines causes of unusual malfunctions; evaluates test equipment; determines tool requirements; provides technical assistance and on-the-job training for subordinate personnel.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in electronics and 2 in technical mathematics. In an electronics technician (communications) apprentice training program, 500 clock hours of experience and 60 contact hours of related instruction (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in electronics, 3 in personnel supervision, 3 in human relations, and 2 in technical mathematics, for a total of 14 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, and 3 in maintenance management, for a total of 12 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-26Q-001

TACTICAL SATELLITE/MICROWAVE SYSTEMS OPERATOR

26Q10

26Q20

26Q30

26Q40

Exhibit Dates: 3/78–Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises or performs installation, operation and maintenance of microwave, troposcatter radio, satellite, multiplexing equipment and communications security equipment. *Skill Level 10:* Installs, operates and maintains microwave, troposcatter radio satellite, multiplexing equipment and associated power equipment and communications security devices; assembles, erects, and orients antennas; tunes, adjusts and aligns equipment for maximum performance; adjusts multiplexing equipment for maximum efficiency; operates on voice frequency and teletype; performs satellite balancing procedures; employs test equipment and tools such as spectrum analyzers and voltmeters; corrects operational troubles; detects electronic countermeasures; interprets military maps and traffic diagrams; applies safety precautions around high voltages and performs emergency actions in event of injury. *Skill Level 20:* Able to perform the duties required for Skill Level 10; assists in selection of site for systems equipment; makes alignment adjustments to maximum efficiency; monitors operations of system equipment; recognizes electronic countermeasures and employs corrective action; maintains station logs and provides technical guidance to subordinate personnel. *Skill Level 30:* Able to perform duties required for Skill Level 20; supervises installation and performance of station equipment and personnel; instructs in proper operating procedures; maintains logs and records; prepares administrative and technical reports; requisitions supplies; provides assistance in complex or unusual operational problems; supervises and evaluates 5 or more personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; coordinates maintenance support; assists in the planning, utilization, operation, and maintenance support for communications systems; supervises up to 20 persons.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 3 semester hours in AC/DC electronics theory, 3 in microwave and radio frequency communications, 1 in high-frequency amplifier and multiplex operations, and 1 in industrial safety procedures, for a total of 8 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in microwave/radio communications, and 1 in safety and first aid, for a total of 7 semester hours (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in microwave/radio communications, 1 in safety and first aid, and 2 in personnel supervision, for a total of 9 semester hours. In the upper-division baccalaureate category, 2 semester hours in personnel administration (10/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in microwave/radio communications, 1 in safety and first aid, 2 in personnel supervision, and 2 in introduction to management, for a total of 11 semester hours. In the upper-division baccalaureate category, 2 semester hours in personnel administration, and 3 for field experience in management (10/79).

MOS-26R-001

STRATEGIC SATELLITE/MICROWAVE SYSTEMS OPERATOR

26R10

26R20

26R30

Exhibit dates: 3/78–Present. Pending evaluation.

MOS-26T-001

TELEVISION EQUIPMENT REPAIRMAN

26T20

26T30

26T40

26T50

Exhibit Dates: 10/73–2/77.

Career Management Field: 72 (Telecommunications and Audio-Visual), *subfield* 722 (Audio-Visual).

Description

Summary: Installs, operates, and repairs monochrome and color television receivers, monochrome and color camera chains and film chains, video tape equipment, television transmitting equipment, and television microwave relay systems. *Skill Level 20:* Installs and operates television receivers, cameras, and tape equipment; locates malfunctions of major components; adjusts equipment for proper performance; uses common test equipment such as VOM and oscilloscope; keeps transmitter logs; reads schematic diagrams and wiring diagrams. *Skill Level 30:* Able to perform the duties required for Skill Level 20; assures video quality and is capable of diagnosing substandard video transmission; is familiar with equipment capabilities and limitations. *Skill Level 40:* Able to perform the duties required for Skill Level 20 or 30; knows equipment operating parameters; supervises repair and testing of equipment; assists in writing specifications for equipment purchases; increases proficiency beyond Skill Level 30 in diagnosing malfunctions from schematic diagrams; supervises 5 to 29 personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; prepares maintenance schedules; evaluates test equipment and tool requirements; supervises equipment modifications; provides technical assistance for maintenance and repair; supervises 30 or more persons; provides on-the-job training.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in television equipment (closed circuit and cable TV) repair and additional credit on the basis of institutional evaluation. In a television broadcast engineer or a television repairman apprentice training program, 400 clock hours of experience and 50 contact hours of related instruction (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in television equipment (closed circuit and cable TV) repair and additional credit on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in television equipment repair. In a television broadcast engineer or a television repairman apprentice training program, 800 clock hours of experience and 100 contact hours of related instruction (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 9 semester hours in television equipment (closed circuit and cable TV) repair and additional credit on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in television equipment repair and 3 for a practicum in personnel management. In a television broadcast engineer or television repairman apprentice training program, 1,200 clock hours of experience and 150 contact hours of related instruction. NOTE: At this level in civilian television broadcast service, a first-class FCC operator's license is mandatory; the skills and knowledge required to pass the FCC license examination are broader in scope than those required for the performance of this MOS (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, 9 semester hours in television equipment (closed circuit and cable TV) repair and additional credit on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in television equipment repair and 3 for a practicum in personnel management. In the upper-division baccalaureate category, 3 semester hours in maintenance management. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 40 because additional skills are administrative and supervisory in nature (2/75).

MOS-26T-002

RADIO/TELEVISION SYSTEMS SPECIALIST

26T10
26T20
26T30

Exhibit Dates: 3/77–Present.

Career Management Field: 84 (Public Affairs and Audio-Visual).

Description

Summary: Installs, operates, and repairs monochrome and color television receivers, monochrome and color camera chains and film chains, video tape equipment, television transmitting equipment, and television microwave relay systems. *Skill Level 10:* Under supervision, installs and operates television receivers, cameras, and tape equipment; locates malfunctions of major components; adjusts equipment for proper performance; uses common test equipment such as VON and oscilloscope; uses common and specialized hand tools and measuring devices; reads schematic diagrams and wiring diagrams; keeps transmitter logs. *Skill Level 20:* Able to perform the duties required for Skill Level 10, and provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises personnel performing the duties of MOS 26T20 or MOS 41E20, Audio-Visual Equipment Repairer; assures video quality on all display devices associated with originating or recording equipment; diagnoses substandard video transmission; supervises up to 7 persons; supervises personnel engaged in setting up and aligning cameras, camera control, special effects, and associated transmission equipment; checks the repair work of lower skill level personnel; establishes work schedules. NOTE: May have progressed to 26T30 from 26T20 or 41E20, Audio-Visual Equipment Repairman.

Recommendation, Skill Level 10

In the vocational certificate category, 6 semester hours in television equipment repair, 3 in use and care of tools and test equipment, and credit in basic electronics and troubleshooting techniques on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, and credit in television equipment repair, technical aspects of television, troubleshooting techniques, and basic electronics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in television equipment repair, 3 in use and care of tools and test equipment, and 3 in troubleshooting techniques, and credit in basic electronics on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, 3 in television equipment repair, 3 in technical aspects of television, 3 in troubleshooting techniques, and credit in basic electronics on the basis of institutional evaluation, for a minimum total of 12 semester hours (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, 9 semester hours in television equipment repair, 3 in use and care of tools and test equipment, and 3 in troubleshooting techniques, and credit in basic electronics on the basis of institutional evaluation, for a minimum total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, 3 in television equipment repair, 3 in technical aspects of television, 3 in troubleshooting techniques, 1 in personnel supervision, and credit in basic electronics and human relations on the basis of institutional evaluation, for a minimum total of 13 semester hours (5/78).

MOS-26U-001

UNATTENDED GROUND SENSOR SYSTEMS REPAIRMAN

26U20
26U40

Exhibit Dates: 10/73–8/76. (Effective 9/76, MOS 26U was discontinued and its functions were incorporated into MOS 17K, Ground Surveillance Radar Crewman, and MOS 17M, Unattended Ground Sensor Specialist).

Career Management Field: 17 (Combat Surveillance and Target Acquisition), *subfield* 171 (Combat Surveillance).

Description

Summary: Supervises and performs maintenance on the unattended ground sensor systems. *Skill Level 20:* Diagnoses and repairs electronic sensors; operates test equipment in automatic, semiautomatic, and manual modes; determines faults in the data transmission, relay, receiver, recorder/display assemblies, sensor module construction, and associated equipment; removes, repairs, and replaces malfunctioning assemblies, subassemblies, modules, and/or component parts; checks out radio frequency channel and unique digital or analog message format of sensor; aligns, adjusts, and repairs equipment; modifies systems; interprets electronic circuit diagrams; applies safety precautions. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance of the unattended ground sensor systems; organizes units; instructs operator personnel; keeps equipment records and prepares reports; diagnoses and determines causes of unusual malfunctions.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introductory electronics and 3 in equipment repair. Fully qualified to enter an apprentice training program in the electrical and electronic trades (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower/division baccalaureate/associate degree category, 3 semester hours in introductory electronics, 3 in equipment repair, 3 in human relations, 3 for field experience in management, and additional credit in technical writing on the basis of institutional evaluation, for a minimum total of 12 semester hours; *if the duty assignment was platoon sergeant,* 3 additional semester hours in personnel supervision, for a minimum total of 15 semester hours. Fully qualified to enter an apprentice training program in the electrical and electronics trades (3/76).

MOS-26V-001

STRATEGIC MICROWAVE SYSTEMS REPAIRMAN

26V10
26V20
26V40
26V50

Exhibit Dates: 10/73-2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Installs, maintains, and operates line-of-sight and tropospheric scatter microwave communications equipment; wires and connects equipment for installation; makes performance tests on operating equipment, using only one type of equipment for testing. *Skill Level 10:* Knows terminology and can read simple wiring diagrams; uses manuals to interpret meter readings to determine equipment condition; under supervision, operates basic microwave equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; uses basic electronics mathematics and becomes proficient in reading schematic diagrams of subassemblies; under supervision, repairs complicated microwave communications equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; becomes familiar with interconnect concepts; troubleshoots and repairs electronic circuits; applies knowledge of microwave antenna radiation to select operational sites; is a first-line supervisor of personnel who operate and repair microwave communications equipment; as an office manager, makes shift and work assignments, issues instructions, and writes technical and administrative reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; as a mid-level manager, supervises the technical operation and repair of communications equipment, writes instructions and technical reports pertaining to system operations, and may supervise 30 or more persons.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower/division baccalaureate/associate degree category, 3 semester hours in electronics (2/75).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in electronics. In the electronics technician or a communications fixed plant installer or repairman apprentice training program, 480 clock hours of experience and 60 contact hours of related instruction (2/75).

Recommendation, Skill Level 40

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in electronics and 3 in personnel supervision or office management, for a total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in personnel management or in administration. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/75).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in electronics and 6 in personnel supervision or office management, for a total of 12 semester hours. In the upper-division baccalaureate category, 6 semester hours in personnel management or in administration. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature. NOTE: At this level in a comparable civilian occupation, a second-class FCC radio operators license is mandatory; the skills and knowledge, particularly in mathematics and electronics theory, required to pass the FCC license examination are broader in scope than those required for the performance of this MOS (2/75).

MOS-26V-002

STRATEGIC MICROWAVE SYSTEMS REPAIRER

26V10
26V20
26V30
26V40

Exhibit Dates: 3/78-Present.

Career Management Field: 29 (Communications—Electronics Maintenance).

Description

Summary: Installs, repairs, operates, and performs maintenance on line-of-sight and tropospheric scatter microwave communications equipment; wires and connects equipment for installation; makes performance tests on operating equipment. *Skill Level 10:* Knows microwave communications systems, terminology and circuitry; uses test equipment to determine equipment condition; operates basic microwave equipment; does first-line repair and maintenance. *Skill Level 20:* Able to perform the duties required for Skill Level 10; repairs microwave communications systems to component level; uses schematic diagrams and test equipment to perform repair duties. *Skill Level 30:* Able to perform the duties required for Skill Level 20; troubleshoots and repairs microwave equipment circuits; uses knowledge of antenna radiation to select operational sites; is a first-line supervisor of personnel who operate and repair microwave communications equipment; as an office manager, makes shift and work assignments, issues instructions, and maintains maintenance records; may supervise from 3 to 5 persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; as a mid-level manager, supervises the technical operation and repair of a microwave communications station, writes instructions and technical reports pertaining to system operations, and may supervise 10 to 13 persons.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 2 in AC/DC circuits, 2 in communications principles, 2 in troubleshooting techniques, and 2 in active devices, for a total of 11 semester hours (5/79).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in communications principles, 4 in troubleshooting techniques, 3 in active devices, 4 in microwave circuits, for a total of 20 semester hours (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in communications principles, 5 in troubleshooting techniques, 3 in active devices, and 4 in microwave circuits, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in communications principles, 5 in troubleshooting techniques, 3 in active devices, 4 in microwave circuits, 2 in personnel supervision, 3 in human relations, and 3 in maintenance management, for a total of 29 semester hours. In the upper-division baccalaureate category, 2 semester hours for field experience in management (5/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in communications principles, 5 in troubleshooting techniques, 3 in active devices, 4 in microwave circuits, 3 in personnel supervision, 3 in human relations, and 3 in maintenance management, for a total of 30 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (5/79).

MOS-26W-001

RADAR MAINTENANCE SUPERVISOR—INSPECTOR

26W20
26W40
26W50

Exhibit Dates: 10/73-8/77. (Effective 9/77, MOS 26W was discontinued and its functions were incorporated into MOS 26C, Combat Area Surveillance Radar Repairer; MOS 35P, Avionic Equipment Maintenance Supervisor; or MOS 27F, Vulcan Repairer.)

Career Management Field: 26 (Non-Integrated Radar Maintenance), *subfield* 262 (Ground Radar Repair).

Description

Summary: Supervises maintenance and performs technical inspection of non-integrated radars including ground surveillance, weapons support, ground control, airborne, and air defense radars and associated equipment. *Skill Level 20:* Able to perform the duties of any radar repair MOS in career management field 26; inspects and checks maintenance performed by Skill Level 20 personnel in radar repair MOS's for adequacy, suitability, and workability; inspects for wear, damage, and performance; measures performance against test standards; ascertains needed replacements or repairs of component parts. NOTE: May have progressed to 26W20 from 26B20, 26B30 (Weapons Support Radar Repairman), 26C20 (Combat Area Surveillance Radar Repairman), 26D20 (Ground Control Approach Radar Repairman), 26K20 (Electronic Warfare Equipment Repairman), 26M20 (Airborne Surveillance Radar Repairman), or 26N20 (Surveillance Infrared Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20 and for any radar repair MOS in career management field 26; supervises radar repair units; organizes and supervises repair team activities, plans work schedules, supervises maintenance and repairs; interprets complex specification, circuit, schematic, and cable diagrams; analyzes malfunctions and recommends corrective action. NOTE: May have progressed to 26W40 from either 26W20 or 26B30 (Weapons Support Radar Repairman). *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises maintenance unit at battalion or higher level; organizes maintenance facilities and plans maintenance schedule; prepares reports; recommends machine design changes and changes in work procedure; provides technical guidance. NOTE: May have progressed to 26W50 from 26W40, 24P40 (Defense Acquisition Radar Mechanic), 26K40 (Electronic Warfare Equipment Repairman), or 26M40 (Airborne Surveillance Radar Repairman).

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in technical mathematics, 6 in DC and AC circuits and use of test equipment, 3 in tube and transistor circuits, and 3 in radar, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits, 3 in tube and transistor circuits, 3 in radar, 3 in maintenance supervision, 3 in human relations, and additional credit in industrial arts education (electronics) and computer science on the basis of institutional evaluation, for a minimum total of 24 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 6 semester hours in technical mathematics, 6 in DC and AC circuits, and use of test equipment, 3 in tube and transistor circuits, 3 in radar, 3 in maintenance supervision, 3 in personnel supervision, 3 in human relations, and additional credit in industrial arts education (electronics) and computer science on the basis of institutional evaluation, for a minimum total of 27 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in industrial arts education (electronics), 3 in human relations, 3 in maintenance management, and 6 for field experience in management, for a total of 18 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-26Y-001

SATELLITE COMMUNICATIONS GROUND
STATION EQUIPMENT REPAIRMAN

26Y20
26Y40
26Y50

Exhibit Dates: 10/73–2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Installs, maintains, and operates satellite tracking systems, antenna positioning systems, and communications systems. *Skill Level 20:* Reads wiring, circuit, cable, and schematic diagrams and knows technical terminology related to the specific equipment; uses technical manuals to interpret meter readings and determine the serviceability of equipment; inspects, tests, and adjusts components to specific tolerances, primarily by using system-specific test equipment, as well as voltmeters, ohmmeters, spectrum analyzers, deviation meters, oscilloscopes, signal generators, frequency counters, and power meters; computes voltage, amperage, and resistance factors; repairs, removes, or replaces defective components and parts; identifies electronic jamming and applies appropriate electronic counter-countermeasures. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a shift supervisor, an operations sergeant, or, at a small facility of fewer than 18 persons, a station chief; conducts on-the-job training; makes work assignments; keeps work logs and requisitions supplies; reviews, consolidates, and prepares technical and administrative reports; interprets complex specifications and diagrams for subordinate personnel and diagnoses unusual causes of equipment malfunction. *Skill Level 50:* Able to perform the duties required for Skill Level 40; manages a large satellite ground station.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 6 semester hours in electronics. In an electronic technician apprentice training program, 480 clock hours of experience and 60 contact hours of related instruction (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in electronics. In the lower-division baccalaureate/associate degree category, 6 semester hours in electronics, 3 in personnel supervision, and 3 in human relations, for a total of 12 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 40. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in introduction to management. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-26Y-002

SATELLITE COMMUNICATIONS GROUND
STATION EQUIPMENT REPAIRER

26Y10
26Y20
26Y30
26Y40

Exhibit Dates: 3/78–Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Installs and maintains satellite tracking, antenna positioning, and communications transmitting and receiving systems. *Skill Level 10:* Performs preventive and corrective maintenance on satellite communications ground station equipment; uses voltmeters, ohmmeters, oscilloscopes, spectrum analyzers, deviation meters, signal generators, frequency counters, power meters, modulation deviation and noise measurement equipment; troubleshoots to component level. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; requisitions repair and replacement parts and tools. *Skill Level 30:* Able to perform the duties required for Skill Level 20 and provides technical guidance to lower skill level personnel; prepares and implements standard operating procedures; coordinates maintenance and safety problems with appropriate authorities; coordinates and establishes liaison with support activities; diagnoses unusual cases of equipment malfunction. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises installation operation, and maintenance of satellite communications ground station equipment; prepares maintenance schedules, and work assignments; reviews, consolidates, and prepares technical and administrative reports; may supervise 17 or more persons.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 2 in communications electronics, 2 in troubleshooting techniques, 2 in solid-state circuits, 2 in instrumentation and controls, 4 in digital circuits, and 4 in microwave fundamentals, for a total of 22 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 2 in AC/DC circuits, 2 in communications electronics, 2 in troubleshooting techniques, 2 in solid-state circuits, 2 in instrumentation and controls, 2 in digital circuits, and 2 in microwave fundamentals, for a total of 17 semester hours (5/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in communications electronics, 3 in troubleshooting techniques, 3 in solid-state circuits, 3 in instrumentation and controls, 5 in digital circuits, and 6 in microwave fundamentals, for a total of 29 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 4 in communications electronics, 4 in troubleshooting techniques, 3 in solid-state circuits, 3 in instrumentation and controls, 4 in digital circuits, and 4 in microwave fundamentals, for a total of 28 semester hours (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in communications electronics, 3 in troubleshooting techniques, 3 in solid-state circuits, 3 in instrumentation and controls, 5 in digital circuits, and 8 in microwave fundamentals, for a total of 31 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 4 in communications electronics, 5 in troubleshooting techniques, 3 in solid-state circuits, 3 in instrumentation and controls, 4 in digital circuits, 4 in microwave fundamentals, 3 in maintenance management, and 3 in human relations, for a total of 35 semester hours. In the upper-division baccalaureate/associate degree category, 2 semester hours for field experience in management (5/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 4 in communications electronics, 5 in troubleshooting techniques, 3 in solid-state circuits, 3 in instrumentation and controls, 4 in digital circuits, 4 in microwave fundamentals, 3 in maintenance management, 3 in human relations, and 3 in personnel supervision, for a total of 38 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (5/79).

MOS-27B-001

LAND COMBAT SUPPORT SYSTEM TEST SPECIALIST

27B20

27B40

Exhibit Dates: 10/73-8/77.

Career Management Field: 27 (Combat Missile Maintenance), *subfield* 272 (Combat Missile Repair).

Description

Summary: Supervises or performs maintenance on the Land Combat Support System (LCSS). *Skill Level 20:* Uses basic test equipment such as oscilloscope, VOM, and signal generator; solders on printed circuit boards and discrete wiring; reads and interprets schematic diagrams and logic diagrams; identifies common electronic components; uses proper troubleshooting procedures; loads digital computer tapes; interprets digital printer outputs; performs basic instrument calibrations; aligns optical lens systems, shafts, and gear systems; draws block diagrams of systems; performs quality control inspections. *Skill Level 40:* Able to perform the duties required for Skill Level 20; maintains equipment records; establishes shop priorities and procedures; supervises shop operations.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electronics, 2 in industrial electronics, and 1 in digital theory, and additional credit in basic electronics, industrial electronics, digital theory, digital computer systems, systems maintenance, industrial science, and intermediate algebra on the basis of institutional evaluation, for a minimum total of 6 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in introductory electronics, 1 in electronic instrumentation, and 2 in digital computer systems, for a total of 5 semester hours. In an electronic technician apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction. In a construction electrician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (2/76).

Recommendation, Skill Level 40

The recommendation for educational credit is the same as that for Skill Level 20 plus, in the lower-division baccalaureate/associate degree category, 3 semester hours in human relations. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-27B-002

LAND COMBAT SUPPORT SYSTEM TEST SPECIALIST/LANCE REPAIRER

27B10

27B20

27B30

27B40

Exhibit Dates: 9/77-Present.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance), *subfield* 271 (Ballistic/Land Combat Systems Maintenance).

Description

Summary: Performs maintenance on Land Combat Support Systems (LCSS) and the Lance missile system; inspects and tests equipment; locates card-level faults with special test equipment; replaces faulty assemblies and subassemblies; selects program tapes, patchboards and cable assemblies; adjusts and aligns mechanical, electrical, and optical assemblies; calibrates and repairs support equipment; performs quality control measures; prepares maintenance and supply forms and reports. *Skill Level 10:* Works under close supervision in performing maintenance functions; uses technical manuals; follows schematics and organized maintenance procedures; uses multimeters, oscilloscopes, signal generators, and power supplies; tests digital multimeters, waveform connectors, signal generators, pulse generators, power supplies, printers, and detector adapters; performs operator maintenance on AC power generators and replaces faulty components. *Skill Level 20:* Able to perform the duties required for Skill Level 10; supervises and provides technical assistance to Skill Level 10 personnel; repairs multimeters, waveform connectors, pulse generators, power supplies, signal generators, and patchboards; performs modifications on support equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; provides technical guidance to lower skill level personnel in accomplishment of duties; schedules work; sets repair priorities; inspects, tests, and repairs missile system components; demonstrates proper work practices and maintenance techniques; implements quality control measures; performs system inspections; supervises maintenance and inspection teams; may supervise a minimum of 5 persons. *Skill Level 40:* Able to supervise personnel performing the duties of MOS 27B, MOS 27E (TOW/Dragon Repairer), and MOS 27H (Shillelagh Repairer); supervises and coordinates support maintenance activities of system associated electronic equipment; assists in developing quality control measures; serves as section chief performing missile system support maintenance; serves as senior instructor in a training facility. NOTE: May have progressed to 27B40 from 27B30, 27E30 (TOW/Dragon Repairer), or 27H30 (Shillelagh Repairer).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in an electronics technician program. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electricity and electronics (5/78).

Recommendation, Skill Level 20

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electricity and electronics, 2 in electronics instrumentation, and 2 in digital computer principles, for a total of 7 semester hours (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in electricity and electronics, 2 in electronic instrumentation, 2 in digital computer principles and 1 in personnel supervision, for a minimum total of 8 semester hours; *if duty position was Lance Repair Supervisor or LCSS Repair Supervisor,* 1 additional semester hour in personnel supervision and credit in human relations on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 10. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electricity and electronics, 3 in personnel supervision, 3 in human relations, 2 in electronic instrumentation, and 2 in digital computer principles, for a total of 13 semester hours (5/78).

MOS-27D-001

LANCE MISSILE SYSTEM REPAIRMAN

27D20

27D40

Exhibit Dates: 10/73-8/77. (Effective 9/77, MOS 27D was discontinued and its functions were incorporated into MOS 27B, Land Combat Support System Test Specialist/Lance Repairer.)

Career Management Field: 27 (Combat Missile Maintenance), *subfield* 272 (Combat Missile Repair).

Description

Summary: Supervises or performs routine maintenance on Lance missile systems. *Skill Level 20:* Performs field-level maintenance on Lance missile system, missile trainer, nickel-cadmium batteries, and field test equipment; inspects, tests, and adjusts subassemblies to specific functional levels; determines area of malfunction in specific subassemblies (electrical, mechanical, electronic, and electro-mechanical); determines serviceability of subassemblies and removes and replaces subassemblies; performs field calibration and provides technical assistance to supported units. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises field maintenance on Lance missile systems; schedules workloads and establishes priorities; recommends procedures for receipt and storage of items; supervises inspection of items and on-the-job training; establishes and maintains maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, credit in electronics on the basis of institutional evaluation. In an electronic technician apprentice training program, 144 contact hours of related instruction; clock hours of experience on the basis of employer or trade association performance examination. In a construction electrician apprentice training program, 72 contact hours of related instruction; clock hours of experience on the basis of employer or trade association performance examination (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, credit in electronics on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, and additional credit in electronics on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-27E-001

WIRE-GUIDED MISSILE SYSTEMS
REPAIRMAN

27E20
27E40

Exhibit Dates: 10/73-8/77.

Career Management Field: 27 (Combat Missile Maintenance), *subfield* 272 (Combat Missile Repair).

Description

Summary: Supervises or performs maintenance on the TOW and Dragon missile systems. *Skill Level 20:* Performs maintenance on wire-guided missile systems, trainers, night sights, battery chargers, and system-peculiar test equipment; performs adjustments to isolate malfunctions; diagnoses malfunctions; removes and replaces modules and assemblies. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises inspection and maintenance crews; organizes and conducts on-the-job training; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, and additional credit in basic electronics and direct current on the basis of institutional evaluation. In a construction electrician apprentice training program, 2,000 clocks hours of experience and 120 contact hours of related instruction (does not have experience in installing electrical components in buildings being constructed) (2/76).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in human relations, and additional credit in basic electronics and direct current on the basis of institutional evaluation, for a minimum total of 6 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-27E-002

TOW/DRAGON REPAIRER

27E10
27E20
27E30

Exhibit Dates: 9/77-Present.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance), *subfield* 271 (Ballistics/Land Combat Systems Maintenance).

Description

Summary: Performs maintenance on TOW and Dragon missile system trainers, night sites, battery chargers and system test equipment. *Skill Level 10:* Performs maintenance tasks under close supervision; follows technical manuals in servicing and maintaining systems; inspects, tests, and adjust components to specified tolerances using special test equipment; locates and replaces malfunctioning electronic, electrical, mechanical, pneumatic and electro-mechanical subassemblies, modules, and circuit elements; prepares maintenance and supply forms and reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to lower skill level personnel; provides technical assistance to support units; installs equipment modifications; troubleshoots weapon system, launch effects trainer, TOW training set, and breakout box; performs operational checks on tracker test set, tracker and launch effects trainer and monitoring set. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises lower skill level personnel; supervises inspection and maintenance teams; establishes work loads and priorities; conducts in-service staff training; demonstrates proper maintenance and troubleshooting techniques; recommends maintenance procedures; implements quality control measures; establishes and maintains maintenance records; performs inspections; may supervise up to 5 persons.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment (5/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, and 3 in introduction to electricity and electronics (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, 3 in introduction to electricity and electronics, and 1 in personnel supervision, for a minimum total of 7 semester hours; *if the duty position was TOW/Dragon Repair Foreman,* 1 additional semester hour in personnel supervision and credit in human relations on the basis of institutional evaluation (5/78).

MOS-27F-001

CHAPARRAL/VULCAN AIR DEFENSE
SYSTEM REPAIRMAN

27F20
27F40

Exhibit Dates: 10/73-8/77.

Career Management Field: 27 (Combat Missile Maintenance), *subfield* 272 (Combat Missile Repair).

Description

Summary: Performs support maintenance on specialized missile equipment; has a basic knowledge of electronics, including radar and electromechanical applications. *Skill Level 20:* Inspects, tests, adjusts components to specific tolerances, and identifies malfunctions using primarily system-specific test equipment; repairs, removes, or replaces defective components and parts; performs initial and final check-out and inspection of system items; performs quality control measures; performs calibration on test sets peculiar to Chaparral and Vulcan equipment; prepares maintenance and supply forms. Duties required for maintenance of the Chaparral missile system involve largely modular repair, requiring the ability to read block diagrams; duties required for maintenance of the Vulcan electronic assemblies and radar involve specific component repair, requiring substantially more electronic theory and the ability to read schematic diagrams. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a technical inspector or foreman, supervising and appraising the performance of 9 to 16 persons; establishes workloads and repair priorities; implements quality control measures; conducts on-the-job training, demonstrating proper maintenance and troubleshooting techniques.

Recommendation, Skill Level 20

No recommendation because of the limited and military nature of the skills, competencies, and knowledge. Advanced standing in an electronic technician apprentice training program only on the basis of employer or trade association performance examination because of the limited and military nature of the skills, competencies, and knowledge (3/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours for field experience in personnel administration, and additional credit for field experience in education on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (3/75).

MOS-27F-002

Vulcan Repairer

27F10
27F20
27F30

Exhibit Dates: 9/77–Present.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance), *subfield* 272 (Light Air Defense Systems Maintenance).

Description

Summary: Performs maintenance on Vulcan electronic assemblies, range-only-radar, and associated equipment. *Skill Level 10:* Works under close supervision; inspects, tests, and adjusts components to specific tolerances; determines malfunctions in assemblies, subassemblies, modules, circuit elements with common and system-peculiar test equipment; removes and replaces defective components and parts; tests transmitters/receivers, antennas, range computers, power supplies, amplifiers, control, and electronic field test sets; performs maintenance calibrations of power supplies, modular testers, receiver test sets, and other components unique to Vulcan electronic assemblies. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical assistance to Skill Level 10 personnel; installs system modifications; provides technical assistance to support units. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and performs maintenance tasks; establishes work loads and priorities; establishes and conducts staff training; implements quality control measures; supervises inspection and maintenance teams; maintains records; recommends inspection, testing, and maintenance techniques; may supervise up to 5 persons.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment (5/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment and 3 in basic electronics (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, 3 in basic electronics, and 1 in personnel supervision, for a minimum total of 7 semester hours; *if the duty position was Vulcan Repair Supervisor,* 1 additional semester hour in personnel supervision, and credit in human relations on the basis of institutional evaluation (5/78).

MOS-27G-001

Redeye Missile System Repairman

27G20
27G40

Exhibit Dates: 10/73–8/77.

Career Management Field: 27 (Combat Missile Maintenance), *subfield* 272 (Combat Missile Repair).

Description

Summary: Supervises or performs field maintenance on Redeye missile system, trainer, and associated equipment. *Skill Level 20:* Inspects, tests, and adjusts assemblies and subassemblies to specific operational levels; determines malfunctions in electronic, electrical, and cryogenic assemblies, subassemblies, modules, and circuit elements; removes and replaces defective components and parts; installs equipment modifications; performs initial and final checkouts and inspections; performs "C" level calibration on test equipment. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the maintenance on the Redeye missile system, trainer, contact support test set, and associated equipment; schedules workloads; establishes priorities; recommends procedures for receiving, storing, inspecting, testing, and repairing equipment; implements quality control measures; supervises maintenance and inspection teams; organizes and conducts on-the-job training; demonstrates proper maintenance and troubleshooting techniques; establishes and keeps maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, and additional credit in basic electronics on the basis of institutional evaluation. In an electronic technician (sound and manufacturing) apprentice training program or in a construction electrician apprentice training program, 72 contact hours of related instruction; clock hours of experience on the basis of employer or trade association performance examination (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electronics, and additional credit in basic electronics on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in basic electronics, and additional credit in basic electronics on the basis of institutional examination, for a minimum total of 6 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (2/76).

MOS-27G-002

Chaparral/Redeye Repairer

27G10
27G20
27G30
27G40

Exhibit Dates: 9/77–Present.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance), *subfield* 272 (Light Air Defense Systems Maintenance).

Description

Summary: Performs maintenance on the Chaparral and Redeye missiles systems and associated equipment and trainers. *Skill Level 10:* Inspects, tests, and adjusts components to specific tolerances; determines malfunctions; uses system-associated test equipment; removes and replaces defective components and parts; serves on maintenance and inspection teams; prepares maintenance and supply forms and reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; installs equipment modifications; provides technical assistance to supported units. *Skill Level 30:* Able to perform the duties required for Skill Level 20; establishes work load and repair priorities; supervises inspection and maintenance teams; organizes and conducts on-the-job training programs; demonstrates proper maintenance and troubleshooting techniques; implements quality control measures; establishes and maintains maintenance records; may supervise up to 5 persons. *Skill Level 40:* Able to perform the duties of either 27G30 or 27F30 (Vulcan Repairer); supervises and coordinates support maintenance of the Chaparral and Redeye missile systems, Vulcan weapon system electronics, forward area alerting radar, system associated trainers and test equipment, power generation equipment, and calibration of system associated electronic equipment; assists in the development of and supervises the quality control program. NOTE: May have progressed to 27G40 from 27G30 or 27F30 (Vulcan Repairer).

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in the use and care of tools and test equipment and credit in basic electronics on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 30

In the vocational certificate category the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment and 1 semester hour in personnel supervision and credit in basic electronics on the basis of institutional evaluation, for a minimum total of 4 semester hours; *if the duty position was Chaparral/Redeye Missile Systems Repair Supervisor,* 1 additional semester hour in personnel supervision, and credit in human relations on the basis of institutional evaluation (5/78).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Levels 10 and 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, 3 in personnel supervision, and 3 in human relations, and credit in basic electronics on the basis of institutional evaluation, for a minimum total of 9 semester hours (5/78).

MOS-27H-001

Shillelagh Missile System Repairman

27H20
27H40

Exhibit Dates: 10/73–8/77.

Career Management Field: 27 (Combat Missile Maintenance), *subfield* 272 (Combat Missile Repair).

Description

Summary: Supervises or performs maintenance on the Shillelagh missile system. *Skill Level 20:* Inspects, tests, and adjusts Shillelagh missile system by using a method of programmed test equipment and basic electronic theory; replaces faulty cables and assemblies; prepares maintenance and supply forms. *Skill Level 40:* Able to perform the duties required for Skill Level 20; recommends procedures for receiving, storing, inspecting, testing, and repairing equipment and components; implements quality control measures; supervises inspection and maintenance teams; organizes and conducts on-the-job training; demonstrates proper maintenance and trouble shooting techniques.

Recommendation, Skill Level 20

In the vocational certificate category, credit in electronics on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, and additional credit in electronics and direct current on the basis of institutional evaluation (2/76).

Recommendation, Skill Level 40

In the vocational certificate category, credit in electronics on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in human relations, and additional credit in electronics and direct current on the basis of institutional evaluation (2/76).

MOS-27H-002

SHILLELAGH REPAIRER

27H10
27H20
27H30

Exhibit Dates: 9/77-Present.

Career Management Field: 27 (Ballistic/Land Combat Missile and Light Air Defense Weapons Systems Maintenance), *subfield* 271 (Ballistic/Land Combat Systems Maintenance).

Description

Summary: Performs maintenance on the Shillelagh missile system, the trainer, and associated built-in and portable test equipment. *Skill Level 10:* Works under close supervision; performs on-site repairs by replacing cables and assemblies; inspects, tests, and adjusts components to specified tolerances; determines malfunctions in electronic, electro-mechanical, optical and infrared systems; maintains tools and test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel; provides technical assistance to support units; installs equipment modifications; troubleshoots instructor control unit, visual effects simulator, power supply, power control unit, fault locator, and transmitter signal analyzer; performs operational checks on equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; establishes workloads and repair priorities; supervises inspection and maintenance teams; conducts on-the-job training programs; demonstrates proper maintenance and trouble-shooting techniques; may supervise up to 5 persons.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment (5/78).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, and 3 in introduction to electricity and electronics (5/78).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in use and care of tools and test equipment, 3 in introduction to electricity and electronics, and 1 in personnel supervision, for a minimum total of 7 semester hours; *if the duty position was Shillelagh Repair Supervisor,* 1 additional semester hour in personnel supervision and credit in human relations on the basis of institutional evaluation (5/78).

MOS-27Z-001

LCSS MISSILE MAINTENANCE CHIEF

27Z50

Exhibit Dates: 10/73-Present.

Career Management Field: 27 (Combat Missile Maintenance), *subfield* 272 (Combat Missile Repair).

Description

Coordinates support maintenance of the Land Combat Support System (LCSS), including the Lance, TOW, Dragon, Chaparral, Shillelagh, and Redeye missile systems; Vulcan weapon system electronics; Forward Area Alerting Radar; and system-associated trainers and test equipment; helps determine and administers policy; assists superiors in planning and accomplishing training; advises superiors on all matters concerning enlisted personnel; may serve as a chief instructor in a training facility. NOTE: May have progressed to 27Z50 from 27B40 (Land Combat Support System Test Specialist), 27D40 (Lance Missile System Repairman), 27E40 (Wire-Guided Missile Systems Repairman), 27F40 (Chaparral/Vulcan Defense Systems Repairman), 27G40 (Redeye Missile System Repairman), 27H40 (Shillelagh Missile System Repairman), 24M40 (Vulcan System Mechanic), or 24N40 (Chaparral System Mechanic).

Recommendation

In the lower-division baccalaureate/associate degree category, credit in electronics on the basis of institutional evaluation. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in personnel management, 3 in human relations, 6 for field experience in management, and additional credit in industrial arts education on the basis of institutional evaluation, for a minimum total of 15 semester hours; *if the duty assignment was chief instructor in a formal training facility,* 3 additional semester hours for an internship in education, for a minimum total of 18 semester hours (2/76).

MOS-28M-001

ANTI-BALLISTIC MISSILE MAINTENANCE SPECIALIST

28M10
28M20
28M40
28M50

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 28 M was discontinued.)

Career Management Field: 23 (Air Defense Missile Maintenance), *subfield* 237 (Ballistic Missile Defense).

Description

Summary: Supervises or performs on-line maintenance on the SAFEGUARD missiles and their associated equipment. *Skill Level 10:* Operates and performs preventive maintenance on missile service and transporter vehicles, test equipment, associated ground support, and handling equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; tests and checks guidance control and warhead sections to verify presence and integrity of circuitry; checks and tests missile and launch equipment and isolates malfunctions; replaces defective missile stages and sections and launch equipment components; determines the cause and location of a malfunction of the environmental system in a cell or launch preparation equipment compartment in the event of a minor alarm; removes cover, de-energizes electrical power, and performs minor corrective action; prepares maintenance and supply records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises on-line maintenance of the missile and associated equipment; schedules and assigns work; corrects faulty work procedures by instruction and demonstration; enforces safety regulations; diagnoses and analyzes complex malfunctions; conducts on-the-job training programs; prepares technical reports; establishes maintenance controls and performance standards. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as the principal maintenance supervisor in a multi-shift operation performing on-line missile maintenance.

Recommendation, Skill Level 10

In the vocational certificate category, credit in basic electricity laboratory and systems maintenance on the basis of institutional evaluation (6/76).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in basic electricity laboratory and 2 in systems maintenance (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in basic electricity laboratory and 2 in systems maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 3 for field experience in management (6/76).

Recommendation, Skill Level 50

In the vocational certificate category, 2 semester hours in basic electricity laboratory and 2 in systems maintenance. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision and 6 for field experience in management (6/76).

MOS-31B-001

FIELD COMMUNICATIONS-ELECTRONICS EQUIPMENT MECHANIC (FIELD RADIO MECHANIC)

31B20
31B30

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 31B was discontinued and its functions were incorporated into MOS 31V, Tactical Communications Systems Operator/Mechanic.)

Career Management Field: 31 (Field and Area Communications Maintenance), *sub-*

field 311 (Field Communications Maintenance).

Description

Summary: Installs, operates, and performs preventive maintenance on electronic communications systems that include communications security equipment, common and special test, calibration, and diagnostic equipment, as well as selected target surveillance equipment. *Skill Level 20:* Inspects equipment for serviceability; cleans equipment covers and cases; replaces fuses, lamps, and batteries; reads and applies circuit and schematic diagrams; performs troubleshooting procedures at the circuit level to localize and diagnose causes of equipment malfunction; maintains equipment and supply records, interprets technical reports and manuals; uses multimeter, oscilloscope, and signal injection and tracing equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs preventive maintenance and diagnostic troubleshooting procedures and repair on special purpose digital computer and associated equipment, including paper tape punches and readers.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in electronic circuits and devices (solid-state and vacuum tubes), and 3 in electronic communications systems, for a total of 12 semester hours (3/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in electronic circuits and devices (solid-state and vacuum tubes), 3 in electronic communications systems, and 3 additional semester hours in introduction to digital computer circuits, for a total of 15 semester hours (3/76).

MOS–31D–001

PERSHING COMMUNICATIONS SPECIALIST

31D20
31D40

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 31D was discontinued and its functions were incorporated into MOS 26Q, Tactical Satellite/Microwave Systems Operator.)

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 313 (Area Communication).

Description

Summary: Installs, operates, and performs routine maintenance on tropospheric scatter radio and associated multiplexing equipment. *Skill Level 20:* Positions antennas, interconnects equipment, and makes tuning adjustments on receivers and transmitters; uses compass; reads specialized metering scales on equipment; keeps equipment log books. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises and organizes tropospheric scatter radio operations, maintenance, and security functions; corrects faulty work practices by instruction and demonstration of proper techniques; requests supplies and prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower/division baccalauaureate/associate degree category, 2 semester hours in electronic communications (practices and procedures) and 1 in maintenance (radio or equipment) (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electronic communications (practices and procedures) and 2 in maintenance (electronic or equipment). In the lower-division baccalaureate/associate degree category, 3 semester hours in electronic communications (practices and procedures), 3 in human relations, 2 in industrial maintenance supervision, and 1 in technical writing, for a total of 9 semester hours. In the upper-division baccalaureate category, 2 semester hours for field experience in management (3/76).

MOS–31E–001

FIELD RADIO REPAIRMAN

31E20
31E40

Exhibit Dates: 10/73–2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 312 (Tactical Electronics Maintenance).

Description

Summary: Inspects, tests, and performs maintenance on FM radios, single side band radios, and radio teletypewriter equipment. *Skill Level 20:* Performs testing and maintenance procedures; dismantles components, traces continuity, locates malfunctioning parts, and repairs faulty circuitry parts; uses multimeters, oscilloscopes, signal generators, and other equipment to locate and repair malfunctioning circuits; computes voltage, current, resistance, and power using Ohm's Law and Watt's Law functions. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises field radio equipment maintenance programs and instructs in maintenance procedures and techniques; diagnoses and determines causes of unusual and complex cases of equipment malfunction or nonfunction; interprets complex circuit and schematic diagrams; requisitions supplies; prepares, reviews, and consolidates technical and administrative reports; normally supervises 8–15 persons. NOTE: May have progressed to 31E40 from 31E20, 31B20, or 31B30 (Field Communications Electronics Equipment Mechanic).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in communications electronics, and 3 in electronic components (solid-state and vacuum tubes), for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in communications electronics, and 2 in electronic devices (solid-state and vacuum tubes), for a total of 11 semester hours. Advanced standing in a radio-television repairman apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in communications electronics, 3 in electronic components (solid-state and vacuum tubes), and 2 in systems maintenance and repair, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in communications electronics, 3 in electronic devices (solid-state and vacuum tubes), 2 in systems maintenance and repair, 3 in human relations, and 3 in introduction to management, for a total of 20 semester hours. In the upper-division baccalaureate category, 3 semester hours in maintenance management. Advanced standing in a radio-television apprentice training program on the basis of employer or trade association performance examination (3/76).

MOS–31E–002

FIELD RADIO REPAIRER

31E10
31E20
31E30

Exhibit Dates: 3/78–Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Inspects, tests, and performs maintenance on AM, FM, single side band, and FSK field radio receivers, transmitters, and associated equipment. *Skill Level 10:* Inspects, troubleshoots, repairs, and tests field radio receiver/transmitter equipment; replaces modules and major components; aligns and adjusts equipment to ensure proper operating efficiency; uses common and specialized tools and test equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; disassembles components and repairs circuit wiring; prepares reports and maintenance records; provides technical guidance to Skill Level 10 personnel. Skill Level 30: Able to perform the duties required for Skill Level 20; supervises installation and use of necessary equipment for maintenance of field radio receiver and transmitter equipment; observes, corrects, and instructs lower skill level personnel in proper maintenance techniques; requisitions supplies; prepares, reviews, and consolidates technical and administrative reports; diagnoses and determines causes of complex and unusual cases of malfunction; schedules workload; conducts on-the-job training.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic electricity (DC) and 3 in communications electronics. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics, and 3 in communications electronics, for a total of 9 semester hours (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in communications electronics, and 3 in electronic components (solid-state and vacuum tubes), for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in communications electronics, and 2 in electronic devices (solid-state and vacuum tubes), for a total of 11 semester hours (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in communications electronics, 3 in electronic components (solid-state and vacuum tubes), and 2 in systems maintenance and repair, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in communications electronics, 3 in electronic devices (solid-state and vacuum tubes), 2 in systems maintenance, and 3 in personnel supervision, for a total of 17 semester hours. In the upper-division baccalaureate category, 3 semester hours in maintenance management (10/79).

MOS-31G-001

TACTICAL COMMUNICATIONS CHIEF

31G40

31G50

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 31G was discontinued and its functions were incorporated into MOS 31V, Tactical Communications Systems Operator/Mechanic.)

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 311 (Field Communications Maintenance).

Description

Summary: Supervises the installation, operation, and maintenance of communications systems in infantry, armor, artillery, or other units employing similar methods of communication. *Skill Level 40:* Supervises the installation, operation, and routine maintenance of wire communications systems, FM radio nets, air-to-ground radio sets, and radio teletype sets; conducts training programs for unit personnel in communications procedures, operations, and maintenance practices; assists in selecting locations for communications facilities; assigns duties and coordinates the activities of various communications personnel. NOTE: May have progressed to 31G40 from 31B20, 31B30 (Field Communications Electronics Equipment Mechanic), 31D40 (Pershing Communications Specialist), 31E20 (Field Radio Repairman), 36K40 (Tactical Wire Operations Specialist), 05B40 (Radio Operator), 05C40, 05C50 (Radio Teletype Operator), 05E40 (Voice Radio Operator), or 05F40 (Radio Teletypewriter Operator, Non-Morse). *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises and coordinates communications activities; administers maintenance records and prepares reports; supervises supply operations; determines unusual causes of defective equipment. NOTE: May have progressed to 31G50 from 31G40, 31E40 (Field Radio Repairman), 05B40 (Radio Operator), 05C40, 05C50 (Radio Teletype Operator), 05E40 (Voice Radio Operator), or 05F40 (Radio Teletypewriter Operator, Non-Morse).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in introduction to electricity (DC), 3 in introduction to electronic communications, and 3 in map reading, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electricity (DC), 3 in introduction to electronic communications systems, 3 in map reading, 3 in human relations, 3 in introduction to management, and 3 in personnel supervision, for a total of 18 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in a technical elective, and 3 in industrial arts, for a total of 9 semester hours (3/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 for an internship in education, 3 in a technical elective, and 3 in industrial arts, for a total of 15 semester hours (3/76).

MOS-31J-001

TELETYPEWRITER REPAIRMAN

31J20

31J40

31J50

Exhibit Dates: 10/73-2/74.

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 312 (Tactical Electronics Maintenance).

Description

Summary: Performs installation, maintenance, and repair of electromechanical and electronic teletypewriter and facsimile equipment. *Skill Level 20:* Installs, maintains, and repairs electrical and mechanical office machines; uses basic hand tools; reads elementary electrical and electronic diagrams. *Skill Level 40:* Able to perform the duties required for Skill Level 20; able to diagnose equipment malfunctions and repair requirements; conducts on-the-job training; organizes and supervises maintenance and inspection teams; requisitions and stocks supplies and repair parts; reviews and prepares technical and administrative reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as foreman, establishing workloads and maintenance priorities and conducting on-the-job training; implements quality control measures.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 1 semester hour in industrial laboratory tool use and care and 1 in basic mathematics (3/75).

Recommendation, Skill Level 40

In the vocational certificate category, 1 semester hour in industrial laboratory tool use and care and 1 in basic mathematics. In the lower-division baccalaureate/associate degree category, 1 semester hour in industrial laboratory tool use and care, 1 in basic mathematics, and additional credit for field experience in personnel supervision, education, and industrial arts on the basis of institutional evaluation (3/75).

Recommendation, Skill Level 50

In the vocational certificate category, 1 semester hour in industrial laboratory tool use and care and 1 in basic mathematics. In the lower-division baccalaureate/associate degree category, 1 semester hour in industrial laboratory tool use and care, 1 in basic mathematics, and additional credit for field experience in personnel supervision, office management, education, and industrial arts on the basis of institutional evaluation (3/75).

MOS-31J-002

TELETYPEWRITER REPAIRMAN

31J20

31J40

Exhibit Dates: 3/74-2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 312 (Tactical Electronics Maintenance).

Description

Summary: Supervises and performs maintenance on electromechanical and electronic teletypewriter and facsimile equipment. *Skill Level 20:* Installs, tests, adjusts, overhauls, and repairs electromechanical and electronic teletypewriters and facsimile equipment; performs detailed testing to diagnose equipment malfunctions, using specialized tools and testing equipment; replaces faulty components, subassemblies, and parts; adjusts electrical, electronic, and mechanical components in accordance with applicable technical publications; test-operates repaired equipment to assure conformance with technical specifications; maintains tools and test equipment; reads schematic and wiring diagrams pertaining to teletypewriters and facsimile equipment; uses conventional and specialized soldering techniques; prepares and keeps maintenance forms and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises the maintenance of electromechanical and electronic teletypewriters and facsimile equipment; plans and schedules maintenance; maintains equipment forms and records; requisitions spare parts, supplies, and technical manuals; reviews, consolidates, and prepares technical and administrative reports pertaining to equipment and equipment maintenance activities; conducts on-the-job training; demonstrates correct maintenance techniques; diagnoses difficult and unusual equipment malfunctions; interprets complex specifications and circuit diagrams.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in basic electricity, 2 in office machine repair, 1 in electromechanical systems, 1 in use of technical publications, and 1 in care and use of tools, for a total of 7 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity. In an electronic technician apprentice training program, advanced standing on the basis of employer or trade association performance examination (5/77).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electricity, 3 in office machine repair, 1 in electromechanical systems, 1 in use of technical publications, 1 in care and use of tools, and 1 in blueprint reading, for a total of 10 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity, 3 in personnel supervision, 3 in human relations, 3 in record keeping, and 2 in technical report writing, for a total of 14 semester hours. In an electronic technician apprentice training program, advanced standing on the basis of employer or trade association performance examination (5/77).

MOS-31J-003

TELETYPEWRITER REPAIRER

31J10

31J20

31J30

Exhibit Dates: 3/78-Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Performs maintenance on electromechanical and electronic teletypewriter and facsimile equipment. *Skill Level 10:* Installs, maintains, and repairs electrical and mechanical office machines at the module level; uses basic hand tools; reads elementary electrical and electronic diagrams; performs detailed testing to discover and diagnose causes of equipment malfunction. *Skill Level 20:* Able to perform the duties required for Skill Level 10; aligns electrical, electronic, and mechanical components as prescribed in applicable technical publications; reassembles and test-operates repaired equipment to ensure conformance with technical specifications; uses proper techniques to maintain, sectionalize, localize, and isolate electrical, electronic, and mechanical causes of equipment malfunction; prepares and keeps maintenance forms and records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises four or more lower skill level personnel; able to diagnose equipment malfunctions and repair requirements; conducts on-the-job training; organizes and supervises maintenance and inspection teams; requisitions and stocks supplies and repair parts; maintains equipment forms and records; plans and schedules equipment maintenance.

Recommendation, Skill Level 10

In the vocational certificate category, 2 semester hours in electronics laboratory and 1 in industrial laboratory tool use and care (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in electronics laboratory and 1 in industrial laboratory tool use and care (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, 4 semester hours in electronics laboratory and 1 in industrial laboratory tool use and care. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision (10/79).

MOS-31L-001

MULTICHANNEL COMMUNICATIONS
EQUIPMENT REPAIRMAN (FIELD
RADIO RELAY EQUIPMENT
REPAIRMAN)

31L20

31L40

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 31L was discontinued and its functions were incorporated into MOS 26L, Tactical Microwave Systems Repairer.)

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 312 (Tactical Electronics Maintenance).

Description

Summary: Inspects, tests, and performs maintenance on multichannel communication equipment including radio sets, carrier terminals, multiplexers, combiners, repeaters, and frequency division plus code modulated systems. *Skill Level 20:* Performs periodic and emergency repairs on multichannel communication equipment using electronic test equipment; tests components, integrated circuits, modules, and printed circuits to localize malfunctions; repairs and replaces faulty items; adjusts unit for proper functioning; interprets schematics and technical literature. NOTE: May have progressed to 31L20 from 31M20 (Multichannel Communications Equipment Operator). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises 4 or more multichannel communications equipment repairmen; instructs subordinates in proper repair and maintenance techniques; diagnoses and determines causes of unusual cases of equipment malfunction and nonfunction.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in solid state devices, 3 in basic digital computer circuits, 3 in communications systems, and 3 in electronic test equipment and instrumentation, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in solid state devices, 3 in basic digital computer circuits, and 3 in communications circuits, for a total of 15 semester hours. In an electronic technician apprentice training program, 1,500 clock hours of experience and 100 contact hours of related instruction (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 3 in solid state devices, 3 in basic digital computer circuits, 3 in communications systems, 3 in communications circuits, and 3 in electronic test equipment and instrumentation, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that in the vocational certificate category plus 3 additional semester hours in human relations and 3 in introduction to management. In an electronic technician apprentice training program, 2,500 clock hours of experience and 180 contact hours of related instruction on the basis of employer or trade association performance examination (3/76).

MOS-31M-001

RADIO RELAY AND CARRIER ATTENDANT

31M20

31M40

Exhibit Dates: 10/73-2/74.

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 313 (Area Communication).

Description

Summary: Installs and performs continuous maintenance on field radio relay equipment. *Skill Level 20:* Installs, operates, and maintains fixed radio relay equipment, including transmitters, receivers, and other electronic devices. *Skill Level 40:* Able to perform the duties required for Skill Level 20; serves as a foreman and inspector; conducts on-the-job training.

Recommendation, Skill Level 20

No credit recommendation because of the limited technical nature of the skills, competencies, and knowledge. Advanced standing in an apprentice training program in electronics or communications technology only on the basis of employer or trade association performance examination because of the limited technical nature of the skills, competencies, and knowledge (3/75).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, credit for field experience in personnel supervision and education on the basis of institutional evaluation. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (3/75).

MOS-31M-002

MULTICHANNEL COMMUNICATIONS
EQUIPMENT OPERATOR

31M20

31M40

Exhibit Dates: 3/74-2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 313 (Area Communication).

Description

Summary: Installs, operates, and maintains multichannel communications equipment, including transmitters, receivers, carrier terminals, repeaters, and associated multiplexing and communications devices. *Skill Level 20:* Performs minor electrical connections and mechanical adjustments on specific communications equipment and electrical generators; starts and adjusts power units to assure delivery of power at prescribed readings; checks equipment to determine readiness for operation; adjusts equipment to maintain efficiency circuits and operation of equipment at prescribed frequencies; maintains technical and administrative records pertaining to station operation; operates and performs preventive maintenance on light wheeled vehicles. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises installation, maintenance, and inspection of radio relay communications equipment; makes personnel assignments; conducts on-the-job training; demonstrates and instructs in proper operating techniques; requisitions supplies; prepares, reviews, and consolidates technical and administrative reports; maintains supply and maintenance records.

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in introduction to radio-telecommunications and additional credit in mechanical maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 1 semester hour in communications systems and additional credit in mechanical maintenance on the basis of institutional evaluation. Advanced standing in an apprentice training program in electronics or communications technology on the basis of employer or trade association performance examination (5/77).

Recommendation, Skill Level 40

In the vocational certificate category, 2 semester hours in introduction to radio-telecommunications and 1 in communications techniques, and additional credit in mechanical maintenance on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 2 in personnel supervision, 2 in communications systems, 2 in maintenance management, and 1 in communications techniques, and additional credit in mechanical maintenance on the basis of institutional evaluation, for a minimum total of 10 semester hours. Advanced standing in an apprentice training program in electronics or communications technology on the basis of employer or trade association performance examination (5/77).

MOS-31M-003

MULTICHANNEL COMMUNICATIONS
EQUIPMENT OPERATOR

31M10
31M20
31M30

Exhibit Dates: 3/78–Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Installs, operates, and supervises multichannel communications equipment. *Skill Level 10:* Installs and operates multichannel communications equipment, including radio, communications security devices, and multiplexer equipment; performs elementary operating checks and replaces modules as needed. *Skill Level 20:* Able to perform the duties required for Skill Level 10; operates and supervises the operation of multichannel communications equipment; applies fundamentals of radio procedures, communications security procedures, and precautions; oversees periodic and emergency maintenance; may supervise up to six persons. *Skill Level 30:* Supervises the installation and operation of multichannel communications systems; prepares and disseminates work schedules, operational procedures, and instruction; prepares traffic diagrams and administrative orders relative to system design; may supervise from five to nineteen lower skill level personnel.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in laboratory practices (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 2 semester hours in laboratory practices (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, 2 semester hours in laboratory practices. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision (10/79).

MOS-31N-001

TACTICAL CIRCUIT CONTROLLER

31N20
31N40

Exhibit Dates: 10/73–2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 313 (Area Communication).

Description

Summary: Supervises and operates communications patching panels to establish interconnections between communications facilities. *Skill Level 20:* Terminates and patches circuits in accordance with patching orders; designates cable pairs to be used between loop and terminal; assists in testing local wire, radio, data, and teletypewriter circuits; operates test equipment, including multimeter, to identify circuit and equipment faults; operates telephone switchboard and teletypewriter components of patching panels; interprets system maps, overlays, and circuit diagrams; knows first aid procedures for electrical shock. NOTE: May have progressed to 31N20 from 31M20 (Multichannel Communications Equipment Operator). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises circuit activities in a switching center or serves in a headquarters that supervises circuit control functions; supervises the installation and operation of systems control facilities; serves as a central officer supervisor analyzing telephone traffic and preparing routing, rerouting, and alternate routing orders and pertinent diagrams, charts, and records.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 2 semester hours in basic electricity (DC) (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in introduction to electricity. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electricity, 3 in introduction to management, and 3 in human relations, for a total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (3/76).

MOS-31N-002

TACTICAL CIRCUIT CONTROLLER

31N10
31N20
31N30

Exhibit Dates: 3/78–Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises or operates communications patching panels to establish interconnections between communications facilities. *Skill Level 10:* Terminates and patches circuits in accordance with patching orders; designates cable pairs to be used between loop and terminal; assists in testing local wire, radio, data, and teletypewriter circuits; operates test equipment, including oscilloscope, signal generators, and multimeters, to identify circuit and equipment faults; operates telephone switchboard and teletypewriter components of patching panels; interprets system maps, overlays, and circuit diagrams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; may supervise up to three Skill Level 10 personnel; troubleshoots communications equipment, including VHF, microwave, troposcatter, satellite, and other narrow or wide band systems; prepares circuit connection record and interprets routing charts and communications diagrams; maintains circuit control records; identifies sources of communications interference and circuit troubles. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises circuit activities in a switching center; supervises the installation and operation of systems control facilities; diagnoses and determines causes of malfunctions of circuits and equipment; interprets and prepares operating instructions, circuit routing charts, communications diagrams, route bulletins, circuit registers, and other pertinent diagrams, charts, and records; evaluates performance of lower skill level personnel; may supervise four or more persons.

Recommendation, Skill Level 10

In the vocational certificate category, 1 semester hour in laboratory practices (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 1 semester hour in laboratory practices and 3 in troubleshooting techniques (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, 1 semester hour in laboratory practices and 3 in troubleshooting techniques. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision (10/79).

MOS-31S-001

FIELD GENERAL COMSEC REPAIRMAN

31S20
31S30

Exhibit Dates: 10/73–2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 314 (COMSEC Maintenance).

Description

Summary: Performs maintenance on communications security (COMSEC) equipment, including inspection, testing, diagnosis and isolation of defective components or modules, modification, repair, and calibration. *Skill Level 20:* Inspects, tests, and performs maintenance on communications security and compatible ancillary equipment and assemblies; uses associated special and common tools for tests, calibration, and diagnostic functions; locates and changes defective circuit modules; maintains equipment maintenance records and submits appropriate maintenance reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; troubleshoots equipment to locate defective component; installs and tests modifications to equipment; uses oscilloscope, multimeter, and specialized test equipment; uses Ohm's Law; reads schematic diagrams and logic diagrams; demonstrates correct and acceptable soldering techniques for miniaturized electronic equipment to include the application of printed circuit repair techniques.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC) and 1 in equipment maintenance or maintenance procedures. The skills, competencies, and knowledge are too limited and specialized to apply to an apprentice training program (3/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in basic electronics (AC), 2 in electronic devices (solid-state and vacuum tubes), and 2 in basic digital computer circuits, for a total of 10 semester hours. In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction on the basis of employer or trade association performance examination (3/76).

MOS-31S-002

FIELD GENERAL COMSEC REPAIRER

31S10
31S20
31S30
31S40

Exhibit Dates: 3/78-Present. Pending evaluation.

MOS-31T-001

FIELD SYSTEMS COMSEC REPAIRMAN

31T20
31T30

Exhibit Dates: 10/73-2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 314 (COMSEC Maintenance).

Description

Summary: Inspects, tests, and performs maintenance on communications security (COMSEC) equipment, including calibration, modification, and diagnosis of defects. *Skill Level 20:* Maintains electronic communications equipment in serviceable condition, including testing and diagnosing to isolate malfunctions and replace modules; uses multimeter and oscilloscope; maintains equipment maintenance records and submits appropriate maintenance reports. *Skill Level 30:* Able to perform the duties required for Skill Level 20; inspects, tests, and repairs communications security equipment; utilizes complex schematic, logic, and wiring diagrams and technical publications; repairs miniaturized electronic equipment; uses Ohm's Law, oscilloscope, multimeter, and specialized test equipment.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics (AC), 3 in basic electricity (DC), and 3 in control circuits (alarm, timing, synchronizing, and power), for a total of 9 semester hours. Advanced standing in an electronic technician apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 30

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics (AC), 3 in basic electricity (DC), 3 in communications circuits, 3 in basic solid state devices, 3 in basic solid state circuits, and 3 in electronic test equipment and instrumentation, for a total of 18 semester hours. In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

MOS-31T-002

FIELD SYSTEMS COMSEC REPAIRER

31T10
31T20

Exhibit Dates: 3/78-Present.

Career Management Field: 29 (Communications—Electronics Maintenance).

Description

Summary: Inspects, tests, and performs maintenance on communications security (COMSEC) equipment, including calibration, modification, and diagnosis of defects. *Skill Level 10:* Maintains electronic communications equipment in serviceable condition, including testing and diagnosing to isolate malfunctions and replace modules; uses multimeter and oscilloscope; maintains equipment maintenance records and submits appropriate maintenance reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects, tests, and performs module-level repairs on communications security equipment; utilizes complex schematic, logic, and wiring diagrams and technical publications; repairs miniaturized electronic equipment; uses oscilloscope, multimeter, and specialized test equipment.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC) (10/79).

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC), 3 in communications circuits, and 3 in electronic test equipment and instrumentation, for a total of 9 semester hours (10/79).

MOS-31U-001

TACTICAL COMSEC MAINTENANCE CHIEF

31U40
31U50

Exhibit Dates: 10/73-2/78. (Effective 3/78, MOS 31U was discontinued and its functions were incorporated into MOS 31S, Field General COMSEC Repairer, and 32Z50, Communications—Electronics Maintenance Chief.)

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 314 (COMSEC Maintenance).

Description

Summary: Supervises and coordinates installation, maintenance, repair, modifications, overhaul, and inspection of communications security (COMSEC) systems. NOTE: Able to perform the duties of 31S30 (Field General COMSEC Repairman) or 31T30 (Field Systems COMSEC Repairman). *Skill Level 40:* Supervises 6-12 subordinate technicians in the installation, maintenance, and repair of electronic communications equipment; supervises the safeguarding of classified information and material, signal security practices, and safety precautions; supervises the management of equipment maintenance records and supply inventory; provides subordinates with technical guidance, including the use of the oscilloscope and multimeter; diagnoses and evaluates complex causes for defective equipment; coordinates workflow; prepares technical reports and correspondence; develops test procedures for subordinates to use in determining the extent of repairs required and adequacy of repairs completed. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a maintenance chief; instructs Skill Level 40 supervisors in the application of maintenance procedures; evaluates the efficiency and effectiveness of maintenance operations and training procedures; supervises the modification of equipment and provides on-the-job training in the maintenance of modified equipment.

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in basic electronics (AC), 3 in basic electricity (DC), 3 in communications circuits, 3 in basic solid-state devices, 3 in basic solid state circuits, and 3 in electronic test equipment and instrumentation, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics (AC), 3 in basic electricity (DC), 3 in communications circuits, 3 in basic solid-state devices, 3 in basic solid-state circuits, 3 in electronic test equipment and instrumentation, 2 in personnel supervision, 3 in introduction to management, 3 in human relations, and 3 in maintenance shop operation, for a total of 29 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 for a technical elective, and 3 in industrial arts, for a total of 9 semester hours. Advanced standing in an electronic technician apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 for an internship in education, 3 for a technical elective, and 3 in industrial arts, for a total of 15 semester hours. Advanced standing in an electronic technician apprentice training program on the basis of employer or trade association performance examination (3/76).

MOS-31V-001

TACTICAL COMMUNICATIONS SYSTEMS OPERATOR/MECHANIC

31V10
31V20
31V30
31V40
31V50

Exhibit Dates: 3/78-Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Installs, operates, supervises, and performs preventive maintenance on tactical communications and selected electronic equipment in tactical units. *Skill Level 10:* Installs and operates tactical radio equipment; performs limited maintenance, such as module replacement, antenna repair, HF and VHF ground and air-to-ground tactical equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; provides technical guidance to Skill Level 10 personnel. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may supervise up to four operator/mechanics; plans and implements the installation of tactical communication systems; may serve as chief of a communication section; supervises communication center cryptographic operations in a tactical unit. *Skill Level 40:* Able to perform the duties required for Skill Level 30; coordinates activities with signal support and maintenance units; keeps unit commander and staff advised on communication matters; conducts training program for unit personnel; determines communication requirements and assigns duties; prepares administrative and technical reports. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises and plans tactical radio and wire communications; coordinates operating activities of subordinate communication units in establishment of effective communication systems; selects communication sites and advises commander on communication matters; may supervise 38 or more personnel.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category, 6 semester hours in radio broadcasting. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications and 3 in elementary broadcasting (10/79).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in radio broadcasting. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications, 3 in elementary broadcasting, 3 in human relations, and 3 in personnel supervision, for a total of 12 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (10/79).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in radio broadcasting. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications, 3 in elementary broadcasting, 3 in human relations, 3 in personnel supervision, 3 in technical report writing, and 3 in maintenance management, for a total of 18 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, and 3 in personnel management, for a total of 12 semester hours (10/79).

Recommendation, Skill Level 50

In the vocational certificate category, 6 semester hours in radio broadcasting. In the lower-division baccalaureate/associate degree category, 3 semester hours in elementary radio communications, 3 in elementary broadcasting, 3 in human relations, 6 in personnel supervision, 3 in technical report writing, 3 in maintenance management, and 3 in introduction to management, for a total of 24 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, and 6 in personnel management, for a total of 15 semester hours (10/79).

MOS-31W-001

TACTICAL ELECTRONIC MAINTENANCE CHIEF

31W40

31W50

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 31W was discontinued and its functions were incorporated into MOS 31E, Field Radio Repairer; MOS 31J, Teletypewriter Repairer; MOS 31V, Tactical Communications Systems Operator/Mechanic; and MOS 32Z, Communications-Electronics Maintenance Chief.)

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 312 (Tactical Electronics Maintenance).

Description

Summary: Supervises maintenance (rebuilding and repair to the component level) of electronic communications equipment. *Skill Level 40:* Organizes, supervises, and inspects activities of the maintenance shop; prepares lesson plans and instructs subordinate repair specialists in on-the-job training; reviews, consolidates, and prepares technical reports pertaining to electronic communications equipment maintenance activities; establishes work priorities; supervises equipment inspection and storage; diagnoses and determines causes of unusual equipment malfunction; interprets complex specifications and circuit, schematic, and wiring diagrams; explains complex concepts and demonstrates correct repair procedures and utilization of special test equipment and tools. NOTE: May have progressed to 31W40 from 31L40 (Multichannel Communications Equipment Repairman), 31B20, 31B30 (Field Communications-Electronics Equipment Mechanic), or 36L30 (Electronic Switching Systems Repairman). *Skill Level 50:* Able to perform the duties required for Skill Level 40; as the principal noncommissioned officer, supervises 30 or more persons (and, as a maintenance chief at Grade E-9, supervises more than 50 persons); supervises and assists in making complex modifications to electronic communications equipment; assists superiors in the continuous appraisal of electronic communications equipment maintenance, operations, and training situations; provides technical guidance to subordinate maintenance personnel; as first sergeant of a company (approximately 200 enlisted personnel), serves as an administrator, personnel director, training director, and inspector. NOTE: May have progressed to 31W50 from 31W40, 31E40 (Field Radio Repairman), 31J40 (Teletypewriter repairman), 26L40 (Tactical Microwave Systems Repairman), or 31U50 (Tactical COMSEC Maintenance Chief).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in basic electronics (AC/DC) theory and laboratory, 1 in elementary algebra, 3 in amplifier circuits and devices, 6 in radio frequency circuit functions and analysis, 6 in electronic communications systems, and 2 in instrument applications, for a total of 24 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in DC circuit theory and laboratory, 2 in AC circuit theory and laboratory, 2 in electronic devices, 3 in electronic communication systems, 3 in systems maintenance and repair, 3 in basic electronics with laboratory, 3 in personnel supervision, and 3 in maintenance shop operation, for a total of 21 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management, 3 in introduction to management, 3 for a technical elective, and 3 in industrial arts, for a total of 12 semester hours. Advanced standing in an electronic technician apprentice training program on the basis of employer or trade association performance examination (3/76).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 for an internship in education, 3 in introduction to management, 3 in maintenance management, 3 for a technical elective, and 3 in industrial arts, for a minimum total of 21 semester hours; *if the duty assignment was first sergeant of a company at Grade E-8 or maintenance chief at Grade E-9,* 3 additional semester hours in personnel management, for a total of 24 semester hours. In the graduate category, credit in personnel management on the basis of institutional evaluation. Advanced standing in an electronic technician apprentice training program on the basis of employer or trade association performance examination (3/76).

MOS-31Z-001

AREA COMMUNICATIONS CHIEF

31Z40

31Z50

Exhibit Dates: 10/73–2/78.

Career Management Field: 31 (Field and Area Communications Maintenance), *subfield* 313 (Area Communication).

Description

Summary: Supervises, coordinates, and directs the installation, operation, and maintenance of integrated electronic communications systems. *Skill Level 40:* Supervises and coordinates the installation, operation, and maintenance of integrated electronic communications center facilities, including wire, telephone central, carrier, radio relay, message center, and cryptographic activities; determines location of facilities, capabilities of equipment within the system, and appropriate use of circuits, lines, and equipment; conducts training in all phases of operating the communications system; collects, analyzes, and distributes material pertaining to signal intelligence; assists officer in the appraisal of general signal intelligence and operations. NOTE: May have progressed to 31Z40 from 31E20 (Field Radio Repairman), 31D40 (Pershing Communications Specialist), 31M40 (Multichannel Communications Equipment Operator), 31N40 (Tactical Circuit Controller), or 72E40 (Telecommunications Center Specialist). *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises and directs the installation, operation, and maintenance of major integrated electronic communications systems; prepares orders, line route maps, circuit and traffic diagrams, and related technical reports and materials; assists in planning, utilization of resources, operation of communications system, and maintenance support for the entire system; assigns duties and coordinates the activities of administrative, operating, and maintenance personnel in the employment of wire, radio relay, radio teletype, telephone, and message handling facilities; determines the effectiveness of system operation, adequacy of communication plant, and the need for additional equipment to meet unusual or added traffic demands; recommends changes in location, types or quantities of equipment, alternate routes, and establishment of switching centers; may serve as the first sergeant of a company (at grade E-8), supervising approximately 200 persons. NOTE: May have progressed to 31Z50 from 31Z40, 31M40 (Multichannel Communications Equipment Operator), 31N40 (Tactical Circuit Controller), 31G50 (Tactical Communications Chief), 31J40 (Teletypewriter Repairman), or 31U50 (Tactical COMSEC Maintenance Chief).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in maintenance shop operation, 3 in technical writing, 3 in map reading, and 3 in industrial safety, for a total of 15 semester hours. NOTE: Credit recommendations for technical expertise in the area of electronic communications may be obtained through the exhibits for previously held MOS's. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 for field experience in management, 3 in a technical elective, 3 in industrial arts, and 3 for an internship in education, for a total of 15 semester hours. There is no recommendation for advanced standing in an apprentice training program because the skills are administrative and supervisory in nature (3/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 6 for field experience in management, 3 in a technical elective, 3 in industrial arts, 3 for an internship in education, 3 in human relations, and 3 in industrial management, for a minimum total of 24 semester hours; *if the duty assignment was first sergeant of a company or chief signal NCO,* 3 additional semester hours in personnel management, for a total of 27 semester hours; *if the duty assignment was sergeant major,* 3 additional semester hours for field experience in management as well as 3 in personnel management, for a total of 30 semester hours. There is no recommendation for advanced standing in an apprentice training program because the skills are administrative and supervisory in nature (3/76).

MOS-31Z-002

COMMUNICATIONS-ELECTRONICS
OPERATIONS CHIEF

31Z40
31Z50

Exhibit Dates: 3/78–Present.

Career Management Field: 31 (Communications-Electronics Operations).

Description

Summary: Supervises, coordinates, and directs the installation, operation, and maintenance of integrated electronic communications systems. *Skill Level 40:* NOTE: May have progressed to 31Z40 from 05C30 (Radio Teletype Operator), 36E30 (Cable Splicer), 26R30 (Strategic Satellite/Microwave Systems Operator), 31M30 (Multi-Channel Communications Equipment Operator), or 31N30 (Tactical Circuit Controller); able to supervise, assist, and inspect the duties performed by personnel working in the above MOS's; supervises and coordinates the installation, operation, and maintenance of integrated electronic communications center facilities, including wire, telephone central, carrier, radio relay, message center, and cryptographic activities; determines location of facilities, capabilities of equipment within the system, and appropriate use of circuits, lines, and equipment; conducts training in all phases of operating the communications system; collects, analyzes, and distributes material pertaining to signal intelligence; assists officer in the appraisal of general signal intelligence and operations. *Skill Level 50:* Able to perform the duties required for Skill Level 40. NOTE: May have progressed to 31Z50 from 31Z40 or 31V50 (Tactical Communications Systems Operator/Mechanic), 72G50 (Data Communication Switching Center Specialist), 36C50 (Wire Systems Installer/Operator), 26Q40 (Tactical Satellite/Microwave Systems Operator), 32D40 (Station Technical Controller), 36D40 (Antenna Installer Specialist), 72E40 (Telecommunications Center Operator), or 72H40 (Central Office Operations Operator); able to supervise, assist, and inspect duties performed by personnel working in the above MOS's; supervises and directs the installation, operation, and maintenance of major integrated electronic communications systems; prepares orders, line route maps, circuit and traffic diagrams, and related technical reports and materials; assists in planning, utilization of resources, operation of communications system, and maintenance support for the entire system; assigns duties and coordinates the activities of administrative, operating, and maintenance personnel in the employment of wire, radio relay, radio teletype, telephone, and message-handling facilities; determines the effectiveness of system operation, adequacy of communication plant, and the need for additional equipment to meet unusual or added traffic demands; recommends changes in location, types, or quantities of equipment, alternate routes, and establishment of switching centers; may serve as the first sergeant of a company (at grade E-8), supervising approximately 200 persons.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in maintenance management, 3 in technical report writing, 3 in office management, 3 in human relations, and 3 in a technical elective, for a total of 18 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, and 3 in personnel management, for a minimum total of 12 semester hours; *if served as instructor,* 3 semester hours for a practicum in education, for a total of 15 semester hours (10/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in maintenance management, 3 in technical report writing, 3 in office management, 3 in human relations and 3 for a technical elective, for a total of 18 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, 3 in introduction to management, and 3 in personnel management, for a minimum total of 15 semester hours; *if served as an instructor,* 3 semester hours for practicum in education; *if duty position was Communications-Electronics Operations First Sergeant (designated on records as 31Z5M), or Chief Communications-Electronics NCO,* 3 additional semester hours in personnel management; *if rank was sergeant major,* 3 additional semester hours in personnel management and 3 for field experience in management (10/79).

MOS-32D-001

FIXED STATION TECHNICAL CONTROLLER

32D20
32D40

Exhibit Dates: 10/73–2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises or insures fidelity and continuity of Army communications circuits. *Skill Level 20:* Prevents and corrects conditions which disrupt fidelity, continuity, and operation of communications circuits; tests communications circuits and teletype equipment; uses signal generators, meters, distortion analyzers, and monitoring aids; interprets diagrams to determine mode of keying and levels at various points along transmission paths; applies techniques to counteract continuity and fidelity jamming by hostile forces; keeps logs and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises personnel and equipment; maintains system network operation; prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in basic electricity (DC current, test equipment, and diagrams), 3 in basic electronics (AC current and test equipment), 3 in electronic circuits, and 3 in electronic communications principles, for a total of 12 semester hours. In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 in basic electricity (DC current, test equipment, and diagrams), 3 in basic electronics (AC current and test equipment), 3 in electronic circuits, and 3 in electronic communications principles, for a total of 18 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (3/76).

MOS-32D-002

STATION TECHNICAL CONTROLLER

32D10
32D20
32D30
32D40

Exhibit Dates: 3/78–Present. Pending evaluation.

MOS-32E-001

FIXED PLANT CARRIER REPAIRMAN

32E20
32E40

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 32E was discontinued and its functions were incorporated into MOS 26V, Strategic Microwave Systems Repairer.)

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises and performs installation, operation, or maintenance on fixed station carrier, control terminal, multiplex, and submarine cable terminal equipment. *Skill Level 20:* Makes minor adjustments on equipment; replaces malfunctioning equipment; advises superiors of equipment failure or malfunction; keeps technical and administrative records; performs emergency testing and inspects parts; interprets schematics and diagrams; replaces and repairs electric motors and adjusts relays, dials, and switches. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises technical operation and maintenance of the equipment; prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in direct current, 3 in alternating current, 3 in communications systems, and 2 in solid state devices, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 11 semester hours (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 3 in direct current, 3 in alternating current, 3 in communications systems, and 2 in solid state devices, and additional credit in electronics on the basis of institutional evaluation, for a minimum total of 17 semester hours (3/76).

MOS-32F-001

FIXED CIPHONY REPAIRMAN

32F20
32F40

Exhibit Dates: 10/73–2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises or performs maintenance on fixed ciphony communications security (COMSEC) equipment. *Skill Level 20:* Performs all level of maintenance on fixed ciphony equipment; adjusts, repairs, and overhauls equipment; isolates and diagnoses malfunctions using electrical and electronic theory; removes, examines, and replaces faulty components and parts; traces circuit continuity; reads schematic and wiring diagrams; keeps maintenance logs and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises installation and repair of fixed COMSEC equipment; assigns duties; advises, instructs, and assists subordinates in difficult phases of diagnoses; requisitions supplies and prepares administrative reports; supervises subordinate personnel in the handling of classified information and materials.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in commercial and residential wiring, 2 in digital circuit theory, 2 in AC and DC theory, 2 in electronic test equipment, and 2 in advanced circuit theory, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic electronics, 2 in commercial and residential wiring, 2 in electronic instrumentation, and 1 in introduction to digital circuits, for a total of 7 semester hours. Advanced standing in an electronic technician apprentice training program only on the basis of employer or trade association performance examination because of the military nature of the skills, competencies, and knowledge (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 4 semester hours in industrial and residential wiring, 3 in basic electronics, 3 in digital circuits, 2 in electronic instrumentation, 2 in electromechanical systems, 3 in human relations, 2 in personnel supervision, and 2 in maintenance supervision, for a total of 21 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-32F-002

FIXED CIPHONY REPAIRER

32F10
32F20
32F30
32F40

Exhibit Dates: 3/78–Present.

Career Management Field: 29 (Communications-Electronics Management).

Description

Summary: Repairs and performs maintenance on ciphony communications security equipment. *Skill Level 10:* Repairs equipment according to the appropriate directives and standards; makes operating adjustments and performs routine maintenance; traces circuit continuity; performs authorized equipment modifications in accordance with modification work orders; aligns, adjusts, and test-operates repaired equipment. *Skill Level 20:* Able to perform the duties required for Skill Level 10; makes regular and emergency repairs to equipment; determines equipment readiness and serviceability; disassembles or removes assemblies and components and replaces faulty items. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and instructs lower skill level personnel in installation, maintenance, repair, modification, and inspection of equipment; assures the safeguarding of classified defense information; prepares work schedules; may supervise from 5 to 9 persons. *Skill Level 40:* Able to perform the duties required for Skill Level 30; makes continuous appraisal of maintenance operations and training situations; provides technical guidance to lower skill level personnel; coordinates and supervises repair activities and personnel; may supervise 9 or more persons. NOTE: May have progressed to 32F40 from 32F30 or 32G30 (Fixed Cryptographic Equipment Repairer).

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 2 in solid-state circuits, 3 in digital circuits, and 3 in troubleshooting techniques, for a total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 2 in AC/DC circuits, 1 in solid-state circuits, 2 in digital circuits, and 1 in troubleshooting techniques, for a total of 9 semester hours (5/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in solid-state circuits, 6 in digital circuits, and 6 in troubleshooting techniques, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in solid-state circuits, 6 in digital circuits, and 4 in troubleshooting techniques, for a total of 19 semester hours (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, 6 in digital circuits, 3 in maintenance management, 3 in human relations, and 3 in personnel supervision, for a total of 29 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (5/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 30. In the upper-division baccalaureate category, 6 semester hours for field experience in management and 3 in management problems (5/79).

MOS-32G-001

FIXED CRYPTOGRAPHIC EQUIPMENT REPAIRMAN

32G20
32G40

Exhibit Dates: 10/73–2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises or performs maintenance on fixed cryptographic systems communications security (COMSEC) equipment. *Skill Level 20:* Performs all levels of maintenance on fixed systems digital communications security equipment; adjusts, repairs, and overhauls equipment; applies electronic theory and analysis techniques in diagnosis and isolation of malfunctions; removes, examines, and replaces faulty components and parts; traces circuit continuity; properly uses, calibrates, and cares for tools and test equipment; keeps maintenance logs and records. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises installation and maintenance of fixed system COMSEC equipment; assigns duties; advises, instructs, and assists subordinates in difficult phases of diagnoses; prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category, 4 semester hours in commercial and residential wiring, 2 in digital circuit fundamentals, 2 in DC and AC theory, 2 in electronic test equipment, and 2 in advanced circuit theory, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in digital circuit fundamentals, 2 in basic electronics, 2 in commercial and residential wiring, and 2 in electronic instrumentation, for a total of 9 semester hours. Advanced standing in an electronic technician apprentice training program only on the basis of employer or trade association performance examination because of the military nature of the skills, competencies, and knowledge (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 5 semester hours in digital computer circuits, 4 in industrial and residential wiring, 3 in basic electronics, 2 in electronic instrumentation, 2 in electromechanical systems, 3 in human relations, 2 in personnel supervision, and 2 in maintenance supervision, for a total of 23 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-32G-002

FIXED CRYPTOGRAPHIC EQUIPMENT REPAIRER

32G10
32G20
32G30

Exhibit Dates: 3/78-Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Repairs and performs maintenance on cryptographic communications equipment. *Skill Level 10:* Performs minor maintenance and repairs; applies electronic theory and analysis techniques to find and replace defective components; makes operating adjustments on equipment; adjusts, aligns, and test-operates repaired items to assure proper functioning. *Skill Level 20:* Able to perform the duties required for Skill Level 10; makes emergency repairs on equipment; makes determinations of location of systems malfunctions, using localization procedures and techniques. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises and instructs lower skill level personnel in installation, maintenance, repair, modification, and inspection of equipment; supervises personnel in preparation of work orders, record keeping, and ordering of stock items; schedules work assignments; prepares administrative and technical reports; may supervise 13 or more persons.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 2 in solid-state circuits, 3 in digital circuits, and 3 in troubleshooting techniques, for a total of 14 semester hours. In the lower-division baccalaureate category, 3 semester hours in introduction to electronics, 2 in AC/DC circuits, 1 in solid-state circuits, 2 in digital circuits, and 1 in troubleshooting techniques, for a total of 9 semester hours (5/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in solid-state circuits, 6 in digital circuits, and 6 in troubleshooting techniques, for a total of 21 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 3 in solid-state circuits, 6 in digital circuits, and 4 in troubleshooting techniques, for a total of 19 semester hours (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, 6 in digital circuits, 3 in maintenance management, 3 in human relations, and 3 in personnel supervision, for a total of 29 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (5/79).

MOS-32H-001

FIXED STATION RADIO REPAIRMAN

32H20
32H40

Exhibit Dates: 10/73-2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises and performs installation, operation, and maintenance on fixed station radio equipment. *Skill Level 20:* Installs, operates, and repairs fixed station radio receiver and transmitter equipment; makes frequency and calibration adjustments; replaces defective radio equipment with operational units; interprets circuit, schematic, and cable diagrams; maintains records on equipment status; uses related equipment, such as antennas and cables; inspects and tests equipment for malfunction; locates faulty components and replaces them with operational components or parts; employs radio troubleshooting techniques with electronic test equipment; operates associated communications equipment, such as carrier and teletypewriters; applies safety precautions pertaining to high voltage. *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises installation, maintenance, and operation of fixed station radio equipment; assigns personnel to duties; advises and instructs personnel; diagnoses and determines causes of equipment malfunction; writes technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in electronic fundamentals (direct current), 3 in electronic fundamentals (alternating current), 3 in electronic circuits, and 3 in electronic devices (solid-state and vacuum tube) for a total of 12 semester hours. In an electronic technician apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electronics fundamentals (direct current), 3 in electronics fundamentals (alternating current), 3 in radio transmitters and receivers system theory, 3 in electronic circuits, and 3 in electronic devices (solid-state and vacuum tube), for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in electronics fundamentals (direct current), 3 in electronics fundamentals (alternating current), 3 in radio transmitters and receivers system theory, 3 in electronic circuits, 3 in electronic devices (solid-state and vacuum tube), 3 in human relations, and 3 in personnel supervision, for a total of 21 semester hours. In an electronic technician apprentice training program 1,000 clock hours of experience and 72 contact hours of related instruction (3/76).

MOS-32H-002

FIXED STATION RADIO REPAIRER

32H10
32H20
32H30

Exhibit Dates: 3/78-Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Installs, adjusts, aligns, maintains, and troubleshoots fixed high-frequency radio stations, including transmitters, receivers, and antenna systems. *Skill Level 10:* Uses voltmeters, ohmmeters, oscilloscopes, spectrum analyzers, and signal generators; performs preventive and corrective maintenance on receivers, transmitters, and antenna systems; troubleshoots to component level. *Skill Level 20:* Able to perform the duties required for Skill Level 10 and provides technical guidance to Skill Level 10 personnel; aligns receivers and transmitters to perform to specifications. *Skill Level 30:* Able to perform the duties required for Skill Level 20; supervises the installation and maintenance of fixed radio stations; advises, instructs, and assigns workloads to subordinate personnel; may supervise more than 20 persons; prepares, reviews, and consolidates technical and administrative reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 2 in troubleshooting techniques, 2 in solid-state circuits, and 2 in electronic communications, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 2 in AC/DC circuits, 2 in troubleshooting techniques, 2 in solid-state circuits, and 2 in electronic communications, for a total of 11 semester hours (5/79).

Recommendation, Skill Level 20

In the vocational certificate category, or in the lower-division baccalaureate/assocate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 4 in troubleshooting techniques, 3 in solid-state circuits, and 4 in electrontic communications, for a total of 17 semester hours (5/79).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, and 4 in electronic communications, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in introduction to electronics, 3 in AC/DC circuits, 5 in troubleshooting techniques, 3 in solid-state circuits, 4 in electronic communications, 3 in personnel supervision, 3 in human relations, and 3 in maintenance management, for a total of 27 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management and 3 in management problems (5/79).

MOS-32Z-001

Fixed Station Chief
32Z40
32Z50

Exhibit Dates: 10/73-2/78.

Career Management Field: 32 (Fixed Plant Communications Maintenance).

Description

Summary: Supervises installation, operation, and maintenance of fixed transmitter, receiver, or terminal equipment. *Skill Level 40:* Able to perform the duties required for 32D40 (Fixed Station Technical Controller), 32E40 (Fixed Station Carrier Repairman), 32F40 (Fixed Ciphony Repairman), 32G40 (Fixed Cryptographic Equipment Repairman), or 32H40 (Fixed Station Repairman); supervises and technically assists in the installation, operation, and maintenance of strategic transmitter, receiver, terminal, microwave, radio relay, message center, data processing, and cryptographic and satellite communications ground station equipment; conducts on-the-job training; oversees station operation and schedules maintenance; diagnoses and resolves equipment malfunctions; prepares technical reports; supervises up to 15 personnel. *Skill Level 50:* Able to perform the duties required for Skill Level 40; supervises the installation, operation, and maintenance of integrated strategic communications systems in a large fixed station installation or serves in a communications headquarters; determines requirements, assigns duties, and coordinates activities of subordinate personnel; plans and supervises technical operations, maintenance of facility equipment, and training of personnel; supervises from 15-30 personnel. May serve as first sergeant of a company, supervising approximately 200 persons; advises company commander on all matters concerning enlisted personnel and is responsible for all enlisted personnel actions; directs and coordinates company administration; disseminates instructions and information to subordinate enlisted supervisors. NOTE: May have progressed to 32Z50 from 32Z40, 32D40 (Fixed Station Technical Controller), 32E40 (Fixed Station Carrier Repairman), 32F40 (Fixed Ciphony Repairman), 32G40 (Fixed Cryptographic Equipment Repairman), 32H40 (Fixed Station Repairman), 26P50 (Radio Propagation Specialist), 26V50 (Strategic Microwave Systems Repairman), or 26Y50 (Satellite Communications Ground Station Equipment Repairman).

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, and 3 for field experience in management, for a total of 9 semester hours (6/76).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in human relations, 6 for field experience in management, 3 in maintenance management, and 2 in technical report writing, for a total of 14 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 6 for field experience in management, 3 in industrial arts education (electronics), and 3 in personnel management, for a minimum total of 15 semester hours; *if the duty assignment was chief instructor at a formal training facility,* 3 additional semester hours for an internship in education, for a total of 18 semester hours (6/76).

MOS-32Z-002

Communications-Electronics
Maintenance Chief
32Z40
32Z50

Exhibit Dates: 3/78-Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Supervises and coordinates the performance of maintenance, calibration, and installation of transmitters, receivers, or terminal communications equipment. *Skill Level 40:* NOTE: May have progressed to 32Z40 from any of the following MOS's: 31E (Field Radio Repairer); 31J (Teletypewriter Repairer); 32H (Fixed Station Radio Repairer); 35E (Special Electronic Devices Repairer); 36L (Electronic Switching Systems Repairer); 26C (Combat Area Surveillance Radar Repairer); and 26B (Weapons Support Radar Repairer); able to supervise, assist, and inspect the duties performed by personnel working in the above MOS's; organizes and supervises personnel and activities of shops and units engaged in the use of communications equipment; reviews and prepares technical reports regarding equipment and personnel; maintains records pertaining to equipment needs of personnel and authorizes supply needs; coordinates the logistics necessary to support the personnel under his command; sets up maintenance calibration, and installation activities; provides guidance regarding unusual equipment malfunctions; instructs in new equipment and procedures; may supervise up to 40 persons. *Skill Level 50:* Able to perform the duties required for Skill Level 40. NOTE: May have progressed to 32Z50 from 32Z40 or from Skill Level 40 of any of the following MOS's: 31S (Field General COMSEC Repairer); 35B (Electronic Instrument Repairer); 36H (Dial/Manual Central Office Repairer); 26L (Tactical Microwave Systems Repairer); 26V (Strategic Microwave Systems Repairer); 26Y (Satellite Communications Ground Station Equipment Repairer); 32F (Fixed Ciphony Repairer); or 35H50 (Calibration Specialist); able to supervise, assist, and inspect duties performed by personnel working in the above MOS's; supervises the installation, operation, and maintenance of integrated strategic communications headquarters; determines requirements, assigns duties, and coordinates activities of subordinate personnel; plans and supervises technical operations, maintenance of facility equipment, and training of personnel; supervises up to 70 persons. May serve as first sergeant of a company, supervising approximately 200 persons; advises company commander on all matters concerning enlisted personnel and is responsible for all enlisted personnel actions; directs and coordinates company administration; disseminates instructions and information to enlisted supervisors.

Recommendation, Skill Level 40

In the lower-division baccalaureate/associate degree category, 3 semester hours in personnel supervision, 3 in maintenance management, 3 in techincal report writing, 3 in office management, 3 in human relations and 3 for a technical elective for a total of 18 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, and 3 in personnel management, for a minimum total of 12 semester hours; *if served as an instructor,* 3 semester hours for a practicum in education, for a total of 15 semester hours (10/79).

Recommendation, Skill Level 50

In the lower-division baccalaureate/associate degree category, 6 semester hours in personnel supervision, 3 in maintenance management, 3 in technical report writing, 3 in office management, 3 in human relations, and 3 in a technical elective, for total of 21 semester hours. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in management problems, 3 in introduction to management and 3 in personnel management, for a minimum total of 15 semester hours; *if served as an instructor,* 3 semester hours for a practicum in education; if duty position *was first sergeant (designated on records as 32Z5M),* 3 additional semester hours in personnel management; *if rank was sergeant major,* 3 additional semester hours in personnel management, and 3 for field experience in management (10/79).

MOS-33B-001

General Intercept Equipment
Repairman
33B20

Exhibit Dates: 10/73-2/74. (Effective 3/74, MOS 33B was discontinued.)

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore not all the competencies and knowledges associated with the MOS were evaluated. Performs maintenance on mobile and fixed station general intercept equipment including high frequency receivers, single and dual track magnetic recorders—reproducers, and special demodulators; dismantles and cleans electronic and mechanical components, assemblies, and subassemblies; performs electrical, electronic, and mechanical tests with test equipment and schematic diagrams; isolates defective circuits and parts; determines causes of malfunctions; repairs or replaces defective circuitry, parts and components; aligns electronic circuits; performs authorized modification of equipment; makes authorized substitution of components and parts and fabricates simple parts not requiring machine tooling; test operates repaired equipment; prepares and keeps maintenance records and reports; requisitions parts or supplies; observes safety precautions.

Recommendation

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics, for a total of 25 semester hours (9/79).

MOS-33C-001

INTERCEPT RECEIVING SYSTEMS REPAIRMAN

33C20

33C40

Exhibit Dates: 10/73-2/76. (Effective 3/76, MOS 33C was discontinued and its functions were incorporated into MOS 33S, EW/Intercept Systems Repairer). Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Summary: Supervises or assembles, operates, and performs maintenance on intercept receiving systems. NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Operates and performs maintenance on intercept receiving systems in mobile and fixed stations; assembles, modifies, checks and inspects intercept receiving systems, positions, and facilities; dismantles and cleans electronic and mechanical components, assemblies, and subassemblies; performs electrical, electronic, and mechanical tests with advanced test equipment, schematic diagrams, logic diagrams, and equipment performance standards; isolates defective circuits and parts; determines cause of malfunction; repairs or replaces defective circuitry parts and components; aligns electronic circuits; adjusts mechanical performance of equipment to meet prescribed standards; makes authorized equipment modifications; fabricates parts; test-operates repaired equipment to ensure performance standards are met; prepares and keeps maintenance records and reports; uses pulse and spectrum analyzers, sweep generators, frequency counters, and noise figure meters; uses special and common hand tools; operates microwave, radar, and special purpose systems for repair of equipment; provides technical assistance and advice. NOTE: May have progressed to 33C20 from 33B20 (General Intercept Equipment Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; instructs and provides technical assistance to lower skill level personnel; supervises intercept receiving systems maintenance activities; diagnoses and determines causes of unusual cases of equipment malfunction; explains and interprets complex operating and maintenance problems.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics, for a total of 25 semester hours (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 28 semester hours. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 34 semester hours (9/79).

MOS-33D-001

INTERCEPT RECORDING SYSTEMS REPAIRMAN

33D20

33D40

Exhibit Dates: 10/73-2/76. (Effective 3/76, MOS 33D was discontinued and its functions were incorporated into MOS 33S, EW/Intercept Systems Repairer.)

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on intercept recording systems. NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Performs maintenance on intercept recording systems in mobile and fixed stations; assembles, modifies, checks, and inspects intercept recording/reproducing systems, positions, and facilities; interconnects power supplies, audio, video, direct-current amplifiers, and mechanical tape drive assemblies; aligns electronic components for prescribed gain and frequency response in audio and video amplifiers; performs electrical, electronic, and mechanical tests with advanced test equipment; schematic diagrams, logic diagrams, and equipment performance standards; isolates defective circuits and parts; determines cause of malfunction; dismantles equipment; repairs or replaces defective components, circuitry, and parts; fabricates parts; inspects and adjusts to fine tolerances, motor torque and speed, drive roller and brake tensions, and recording-reproducing head alignment; test-operates repaired equipment to ensure performance standards are met; provides technical assistance and advice; prepares and keeps records applicable to maintenance function. NOTE: May have progressed to 33D20 from 33B20 (General Intercept Equipment Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; instructs and provides technical assistance to lower skill level personnel; supervises maintenance activities; interprets and explains complex maintenance problems; diagnoses and determines causes of unusual cases of equipment malfunction.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics, for a total of 25 semester hours (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 28 semester hours. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 34 semester hours (9/79).

MOS-33F-001

INTERCEPT DEMULTIPLEX SYSTEMS REPAIRMAN

33F20

33F40

Exhibit Dates: 10/73-2/76. (Effective 3/76, MOS 33F was discontinued and its functions were incorporated into MOS 33S, EW/Intercept Systems Repairer.)

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on intercept demultiplex systems. NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Dismantles and cleans equipment; assembles, modifies, checks, and inspects equipment systems, positions, and facilities; interconnects components; performs electronic and mechanical tests with advanced test equipment, schematic diagrams, and equipment performance standards; isolates defective circuits and parts; determines cause of malfunctions; repairs or replaces defective circuitry, parts, and components; aligns electronic circuits; adjusts mechanical performance of equipment to meet prescribed standards; makes authorized equipment modifications; fabricates parts; test-operates repaired equipment to insure that performance standards are met; provides technical advice and assistance; prepares and keeps maintenance records and reports. NOTE: May have progressed to 33F20 from 33B20 (General Intercept Equipment Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; instructs and provides technical assistance to lower skill level personnel; supervises maintenance activities; interprets and explains complex maintenance problems; diagnoses and determines causes of unusual cases of equipment malfunction.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics, for a total of 25 semester hours (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 28 semester hours. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 34 semester hours (9/79).

MOS-33G-001

ECM/DF Systems Repairman

33G20

33G40

Exhibit Dates: 10/73-2/76. (Effective 3/76, MOS 33G was discontinued and its functions were incorporated into MOS 33S, EW/Intercept Systems Repairer.)

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on electronic countermeasures and direction-finding systems, positions, and facilities. NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 20:* Performs maintenance on electronic countermeasures and direction-finding equipment; dismantles and cleans equipment; assembles, modifies, checks, and inspects equipment; interconnects antennas, receivers, transmitters, jammers, and associated equipment; performs electrical, electronic, and mechanical tests to insure compliance with performance standards; isolates defective circuitry and parts; determines causes of malfunctions; repairs or replaces defective components, circuitry and parts; aligns electronic circuits; makes authorized equipment modifications; fabricates simple parts; test-operates repaired equipment; provides technical advice and assistance; prepares and keeps maintenance records. NOTE: May have progressed to 33G20 from 33B20 (General Intercept Equipment Repairman). *Skill Level 40:* Able to perform the duties required for Skill Level 20; supervises maintenance activities; instructs lower skill level personnel; interprets and explains complex maintenance problems; diagnoses and determines causes of unusual cases of equipment malfunction.

Recommendation, Skill Level 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics, for a total of 25 semester hours (9/79).

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 28 semester hours. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 34 semester hours. (9/79).

MOS-33S-001

EW/Intercept Systems Repairer (EW/ Intercept Systems Repairman)

33S10

33S20

33S30

33S40

33S50

Exhibit Dates: 3/76-Present.

Career Management Field: 33 (Electronic Warfare/Intercept Systems Maintenance).

Description

Summary: Supervises or performs maintenance on equipment that operates throughout the frequency spectrum, including receivers, multichannel magnetic sound recorders-reproducers, countermeasures sets, direction finder sets, and special demodulators used in mobile and fixed stations. NOTE: Many of the duties required for this MOS involve highly classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 10:* Connects equipment to power sources; disassembles and cleans electronic and mechanical components, assemblies, and subassemblies; performs electronic and mechanical tests using test equipment, schematic diagrams, logic diagrams, and equipment performance standards; analyzes operation of malfunctioning equipment to locate defective components, subassemblies, and modules; repairs or replaces defective circuitry, parts, and components, aligns simple electronic circuits and adjusts mechanical performance of equipment to meet prescribed standards; has knowledge of transistors and integrated circuits; makes authorized substitutions of components and fabricates simple parts not requiring machine tooling; test-operates repaired equipment to insure performance and quality standards are met; prepares and maintains maintenance records and reports. *Skill Level 20:* Able to perform the duties required for Skill Level 10; interconnects antennas, receivers, transmitters, demultiplexers, preamplifiers, frequency converters, power supplies, audio and video amplifiers, and associated equipment according to specifications; uses advanced test measuring and diagnostic equipment; aligns complex electronic components for gain and frequency response in amplifiers; prepares, maintains, and reviews maintenance records and reports; provides technical assistance, guidance, and advice to subordinates on repair and maintenance of electronic systems. *Skill Level 30:* Able to perform the duties required for Skill Level 20; checks system interfacing to insure that performance meets required system standards; performs equality control inspections of maintenance performed; recommends design changes on unsatisfactory equipment, positions, and facilities; prepares and consolidates technical reports and maintenance records; diagnoses unusual cases of system malfunctions; interprets and explains complex operating and maintenance problems; supervises and instructs subordinate personnel and knows supply procedures. *Skill Level 40:* Able to perform the duties required for Skill Level 30; establishes work priorities and assigns work to subordinate personnel; assists in the supervision of personnel making complex modifications and repairs; instructs and demonstrates diagnostic and repair procedures and use of advanced test equipment and tools; plans and supervises maintenance for mobile and fixed station facilities; recommends changes in work procedures; assists in preparation of maintenance schedules; makes oral presentations concerning maintenance activities. *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as a maintenance manager of an activity of up to 175 persons; prepares lesson plans; approves changes in work procedures; reports on unsatisfactory equipment and circuitry; recommends equipment design changes and reports on efficiency of changes performed; assists in technical inspections and evaluates the effectiveness of maintenance procedures and practices; supervises personnel performing complex modifications and repairs on intercept and deception-jamming systems; evaluates subordinates; advises commander on matters of personnel welfare, morale, assignment, utilization, promotion, privileges, discipline, and training; interprets and explains technical literature on the operation and maintenance of general and special types of intercept and deception-jamming systems; prepares maintenance schedules; may serve as a chief instructor in a formal training facility; may have experience as the enlisted commander of a detachment; may have served as the first sergeant of a company.

Recommendation, Skill Levels 10 and 20

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC circuits, 3 in communications systems, 3 in systems troubleshooting, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, and 1 in digital electronics, for a total of 25 semester hours (6/77).

Recommendation, Skill Level 30

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 28 semester hours. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 34 semester hours (6/77).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 for field experience in personnel supervision, 3 in shop management, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 37 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (6/77).

Recommendation, Skill Level 50

In the vocational certificate category, the recommendation is the same as that for Skill Level 30. In the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in resource management, and 3 in personnel management, for a minimum total of 15 semester hours; *if the duty assignment was chief instructor in a formal training facility,* 3 additional semester hours for an internship in education, for a total of 18 semester hours (6/77).

MOS-33Z-001

INTERCEPT SYSTEMS MAINTENANCE SUPERVISOR

33Z40

33Z50

Exhibit Dates: 10/73-2/76. (Effective 3/76, MOS 33Z was discontinued and its functions were incorporated into MOS 33S, EW/Intercept Systems Repairer).

Career Management Field: 33 (Intercept Equipment Maintenance).

Description

Summary: Supervises maintenance on intercept equipment. NOTE: Many of the duties required for this MOS involve classified materials, equipment, and activities; therefore, not all the competencies and knowledges associated with the MOS were evaluated. *Skill Level 40:* Must be able to perform the duties required for MOS 33C (Intercept Receiving Systems Repairman), MOS 33D (Intercept Recording Systems Repairman), MOS 33F (Intercept Demultiplex Systems Repairman), and MOS 33G (ECM/DF Systems Repairman); serves as maintenance supervisor on intercept systems; establishes work priorities and assigns repair specialists; assists in supervision of personnel making complex authorized modifications on intercept and deception-jamming systems; explains complex electronic, mechanical, and solid-state concepts; instructs and demonstrates diagnostic and repair procedures and utilization of special test equipment and tools; diagnoses causes of unusual equipment malfunction; determines technical operating difficulties; plans and supervises operations of maintenance shop in tactical unit and fixed station facility. NOTE: May have progressed to 33Z40 from 33C40 (Intercept Receiving Systems Repairman), 33D40 (Intercept Recording Systems Repairman), 33F40 (Intercept Demultiplex Systems Repairman), or 33G40 (ECM/DF Systems Repairman). *Skill Level 50:* Able to perform the duties required for Skill Level 40; serves as maintenance chief at battalion, field station, or higher headquarters; prepares lesson plans and demonstrations; recommends changes in work procedures; reports on unsatisfactory equipment and circuitry within intercept and deception-jamming systems; recommends equipment design changes; assists in technical inspections; prepares technical reports and maintenance records; provides technical guidance to maintenance personnel performing complex repairs on equipment; prepares maintenance schedules.

Recommendation, Skill Level 40

In the vocational certificate category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 28 semester hours. In the lower-division baccalaureate/associate degree category, 5 semester hours in systems troubleshooting, 3 in AC/DC circuits, 3 in communications systems, 3 in solid state electronics, 3 in technical mathematics, 3 in human relations, 3 in shop management, 3 for field experience in personnel supervision, 2 in power supplies, 2 in pulse circuits, 2 in antenna and wave propagation theory, 2 in instrumentation, 1 in electromechanical devices, 1 in digital electronics, and 1 in circuit fabrication, for a total of 37 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (9/79).

Recommendation, Skill Level 50

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, the recommendation is the same as that for Skill Level 40. In the upper-division baccalaureate category, 6 semester hours for field experience in management, 3 in introduction to management, 3 in resource management, and 3 in personnel management, for a minimum total of 15 semester hours; *if the duty assignment was chief instructor in a formal training facility,* 3 additional semester hours for an internship in education, for a total of 18 semester hours (9/79).

MOS-34B-001

TABULATING EQUIPMENT REPAIRMAN

34B10

34B20

34B30

34B40

Exhibit Dates: 9/75-8/78.

Career Management Field: 74 (Automatic Data Processing), *subfield* 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on electrical accounting machines. *Skill Level 10:* Inspects, tests, adjusts, and maintains electrical accounting machine equipment; locates and determines causes of malfunction; replaces pins, gears, arms, shafts, and rollers; cleans, oils, and lubricates equipment; reads wiring diagrams and mechanical blueprints; computes voltage, amperage, and resistance factors; employs safety precautions when working with high voltages. *Skill Level 20:* Able to perform the duties required for Skill Level 10; inspects electrical accounting equipment to insure proper operation; adjusts or repairs improperly working electrical accounting equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; serves as a senior tabulating equipment repairman; performs or assists in supervising maintenance. *Skill Level 40:* Able to perform the duties required for Skill Level 30; serves as chief tabulating equipment repairman; supervises 5 or more tabulating equipment repairmen.

Recommendation, Skill Level 10

In the vocational certificate category or in the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals and 3 in office equipment repair (5/76).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in electrical fundamentals and 3 in office equipment repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals, 3 in office equipment repair, and 3 for field experience in office machine repair, for a total of 9 semester hours (5/76).

Recommendation, Skill Level 30

In the vocational certificate category, 3 semester hours in electrical fundamentals and 3 in office equipment repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals, 3 in office equipment repair, 3 for field experience in office machine repair, and 3 in human relations, for a total of 12 semester hours (5/76).

Recommendation, Skill Level 40

In the vocational certificate category, 3 semester hours in electrical fundamentals and 3 in office equipment repair. In the lower-division baccalaureate/associate degree category, 3 semester hours in electrical fundamentals, 3 in office equipment repair, 3 for field experience in office machine repair, 3 in human relations, and 3 for field experience in maintenance management, for a total of 15 semester hours (5/76).

MOS-34B-002

PUNCH CARD MACHINE REPAIRER

34B10

34B20

34B30

34B40

Exhibit Dates: 9/78-Present. Pending evaluation.

MOS-34C-001

Decentralized Automated Service Support System

34C20
34C30
34C40

Exhibit Dates: 3/79–Present. Pending evaluation.

MOS-34D-001

ADPS (Automatic Data Processing Systems) Repairman

34D20
34D50

Exhibit Dates: 10/73–8/75. (Effective 9/75, MOS 34D was discontinued and its functions were incorporated into the other data processing equipment maintenance MOS's in subfield 742.)

Career Management Field: 74 (Automatic Data Processing), *subfield* 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs on-site maintenance and malfunction isolation of digital computers, peripheral equipment, and subscriber terminals (input/output devices); reads and interprets schematic diagrams, truth tables, logic diagrams, and flow charts. *Skill Level 20:* Applies electronic and logic theory in trouble diagnosis; uses test equipment such as VOM and oscilloscope for troubleshooting and repair; understands digital computer principles and operation; performs flow chart and diagnostic routine operations; lubricates and cleans equipment as required. *Skill Level 50:* Able to perform the duties required for Skill Level 20; provides technical assistance for complex problem diagnosis; supervises on-site computer maintenance and repair; schedules maintenance periods and coordinates work flow; supervises Skill Level 20 personnel, providing technical guidance and appraising performance.

Recommendation, Skill Level 20

In the vocational certificate category, a minimum of 18 semester hours in computer science, and additional credit on the basis of institutional evaluation. In the lower-division baccalaureate/associate degree category, a minimum of 12 semester hours in computer science, and additional credit on the basis of institutional evaluation. In an electronic technician apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction in office machine repair, and additional hours on the basis of employer or trade association performance examination (2/75).

Recommendation, Skill Level 50

In the vocational certificate category, a minimum of 18 semester hours in computer science, additional credit in computer science on the basis of institutional evaluation, and 3 semester hours for a practicum in business management, for a minimum total of 21 semester hours. In the lower-division baccalaureate/associate degree category, a minimum of 12 semester hours in computer science, additional credit in computer science on the basis of institutional evaluation, and 3 semester hours for a practicum in business management, for a minimum total of 15 semester hours. In the upper-division baccalaureate category, 3 semester hours for a practicum in business management. In an electronic technician apprentice training program, 3,000 clock hours of experience and 150 contact hours of related instruction in office machine repair (2/75).

MOS-34E-001

NCR 500 Computer Repairer
(NCR 500 Computer Repairman)

34E20
34E30
34E40

Exhibit Dates: 9/75–Present.

Career Management Field: 74 (Automatic Data Processing), *subfield* 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on the NCR 500 computer. *Skill Level 20:* Performs routine maintenance on NCR 500 equipment; determines and repairs common electrical, electronic, and mechanical malfunctions; interprets circuit diagrams and technical literature; prescribes test procedures; uses specialized test equipment, including multimeters, checking processors (tube, transistor, and circuit), and oscilloscopes. *Skill Level 30:* Performs the duties required for Skill Level 20 and repairs console panels, processor, memory unit, arithmetic, power supply, card reader and controller, punched card peripheral equipment, and auxiliary units; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on NCR 500 equipment.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 3 semester hours in electromechanical devices and systems, 3 in electronic circuit applications, 2 in basic mathematics, 2 in introduction to digital and logic theory, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, and 2 in instrument applications, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in industrial arts. In an office machine repair apprentice-training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in industrial arts, 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation, for a minimum total of 9 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34F-001

DSTE Repairer
(DSTE Repairman)

34F20
34F30
34F40

Exhibit Dates: 10/73–Present.

Career Management Field: 74 (Automatic Data Processing), *subfield* 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on Digital Subscriber Terminal Equipment (DSTE). *Skill Level 20:* Performs routine maintenance on DSTE equipment; determines and repairs common electrical, electronic, and mechanical malfunctions; interprets circuit diagrams and technical literature; prescribes test procedures; uses specialized test equipment, including multimeters, checking processors (tube, transistor, and circuit), and oscilloscopes. *Skill Level 30:* Able to perform the duties required for Skill Level 20: performs inspections on systems and peripheral equipment; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on DSTE equipment.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 3 semester hours in electromechanical devices and systems, 3 in electronic circuit applications, 2 in basic mathematics, 2 in introduction to digital and logic theory, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, and 2 in instrument applications, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in industrial arts, 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation, for a minimum total of 9 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34G-001

Fire Control Computer Repairer
(Fire Control Computer Repairman)

34G10
34G20
34G30

Exhibit Dates: 9/75–Present.

Career Management Field: 63 (Mechanical Maintenance), *subfield* 634 (Armament Maintenance).

Description

Summary: Supervises or performs maintenance on fire control gun directional digital computer, viewer computer systems, laser rangefinders, electronic analog computers, and related test equipment. *Skill Level 10:* Maintains field artillery digital automatic computer system, AR-85Z viewer computer, electronic analog computers, and laser rangefinders; uses and maintains special electronic and mechanical systems test equipment and electrician's and mechanic's hand tools; determines causes of malfunctions and removes and replaces defective electronic, electrical, and mechanical components; seals, spot paints, and purges and charges laser rangefinder components with nitrogen, as required; interprets complex schematic diagrams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs support and depot maintenance on AR-85A viewer computer; provides technical guidance to Skill Level 10 personnel; supervises or installs equipment modifications; diagnoses complex malfunctions; conducts on-the-job training; maintains maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; instructs Skill Level 10 and 20 personnel in troubleshooting, proper repair methods, and maintenance techniques and procedures; establishes maintenance priorities and schedules and assigns work; performs final inspection and testing of repaired equipment.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in use and care of hand and power tools, 3 in the use and maintenance of testing equipment, 3 in electrical wiring systems, and 3 in basic electronics, and additional credit in these areas on the basis of institutional evaluation, for a minimum total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in technical mathematics, and additional credit in electronics, electricity, applied physics, mathematics, and computer maintenance on the basis of institutional evaluation, for a minimum total of 6 semester hours. In an electronics technician apprentice training program, 500 clock hours of experience and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in use and care of hand and power tools, 3 in use and maintenance of testing equipment, 3 in electrical wiring systems and 5 in basic electronics, and additional credit in these areas on the basis of institutional evaluation, for a minimum total of 14 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in technical mathematics, 6 in shop practices, and 3 in personnel supervision and training, and additional credit in electronics, electricity, mathematics, applied physics, and computer maintenance on the basis of institutional evaluation, for a minimum total of 15 semester hours. In an electronics technician apprentice training program, 1,500 clock hours of experience and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

Recommendation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in technical mathematics, 3 in personnel supervision, 6 in shop practices, and 1 in records administration, and additional credit in electronics, electricity, mathematics, applied physics, and computer maintenance on the basis of institutional evaluation, for a minimum total of 16 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management, *only if the duty assignment was fire control computer repair foreman.* In an electronics technician apprentice training program, 3,000 clock hours of experience and additional clock hours of experience on the basis of employer or trade association performance examination (12/75).

MOS-34H-001

ADMSE REPAIRMAN

34H20
34H30
34H40

Exhibit Dates: 9/75–Present.

Career Management Field: 74 (Automatic Data Processing), *subfield* 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on Automatic Digital Message Switch Equipment (ADMSE). *Skill Level 20:* Performs routine maintenance on ADMSE equipment; determines and repairs common electrical, electronic, and mechanical malfunctions; interprets circuit diagrams and technical literature; prescribes test procedures; uses specialized test equipment, including multimeters, checking processors (tube, transistor, and circuit), and oscilloscopes. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs inspections on systems and peripheral equipment; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on ADMS equipment.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 3 semester hours in electromechanical devices and systems, 3 in electronic circuit applications, 2 in basic mathematics, 2 in introduction to digital and logic theory, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices and 2 in instrument applications, for a total of 18 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in industrial arts, and 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation, for a minimum total of 9 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34J-001

UNIVAC 1004/1005, DCT-9000 SYSTEM REPAIRER
(UNIVAC 1004/1005, DCT-9000 SYSTEM REPAIRMAN)

34J20
34J30
34J40

Exhibit Dates: 9/75–Present.

Career Management Field: 74 (Automatic Data Processing), *subfield* 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on the UNIVAC 1004/1005, DCT-9000 computer system and peripheral equipment. *Skill Level 20:* Performs maintenance on computer input-output equipment (card and paper tape processors); follows schematic diagrams and maintenance manuals in determining the nature, location, and extent of malfunctions in either electrical or mechanical equipment; uses specialized test equipment, including multimeters, oscilloscopes, transistor- and tube-checkers, and pulse generators; performs inspections, adjustments, repairs, and modifications as specified in official technical manuals. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs periodic and emergency inspections of systems and peripheral equipment; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on UNIVAC and DCT-9000 systems.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 3 semester hours in electromechanical devices and systems, 3 in electronic circuits applications, 2 in basic mathematics or introduction to algebra, 2 in basic electronics (AC/DC theory), 2 in amplifier devices (tubes, transistors), 2 in basic electronics laboratory, and 1 in instrument applications, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics theory/laboratory and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction. In a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction. In an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division bacca-

laureate/associate degree category, 3 semester hours in basic electronics theory/laboratory, 3 in industrial arts, 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation, for a minimum total of 9 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34K-001

IBM 360 Repairer
(IBM 360 Repairman)

34K20
34K30
34K40

Exhibit Dates: 9/75–Present.

Career Management Field: 74 (Automatic Data Processing), *subfield* 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on the IBM 360 computer and peripheral equipment. *Skill Level 20:* Performs maintenance on the IBM 360 computer and peripheral equipment, including console control panels, processor, memory unit, arithmetic, power supply, card reader and controller, and auxiliary units; uses specialized equipment, including multimeters, oscilloscopes, tube- and transistor-testers, and pulse generators; performs preventive and routine maintenance of tools and test equipment; interprets technical manuals and schematic diagrams; adjusts, troubleshoots, and repairs various electrical devices, electronic circuit components and electromechanical systems. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs periodic and emergency inspections and adjustments with diagnostic test programs and special equipment; may supervise up to 15 lower skill level personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on IBM 360 computer system.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 3 semester hours in electromechanical devices, 3 in electronic circuit applications, 2 in basic mathematics, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, 2 in digital-logic systems, and 1 in instrument applications, for a total of 17 semester hours. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic mathematics, 2 in basic electronics, 2 in transistor theory, and 2 in introduction to computer circuits, for a total of 8 semester hours. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction; in a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction; in an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 2 semester hours in basic mathematics, 2 in basic electronics, 2 in transistor theory, 2 in introduction to computer circuits, 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation, for a minimum total of 11 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34L-001

ADMS Peripheral Equipment
Repairman

34L20
34L30
34L40

Exhibit Dates: 9/75–8/77. (Effective 9/77, MOS 34L was discontinued and its functions were incorporated into MOS 34H, ADMSE Repairer.)

Career Management Field: 74 (Automatic Data Processing), *subfield* 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on the Automatic Digital Message Switching (ADMS) peripheral equipment. *Skill Level 20:* Performs maintenance on ADMS peripheral equipment, including punched card subsystem, card reader, high speed printer subsystem, magnetic tape subsystem, and Systems Command Terminal; interprets technical manuals and schematic diagrams; uses specialized test equipment, including multimeters, oscilloscopes, tube- and transistor-checkers, and pulse generators; performs preventive and routine maintenance on electrical devices, electronic circuit components, and electromechanical apparatus; keeps maintenance records. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs periodic and emergency inspections and adjustments; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on ADMS peripheral equipment.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 3 semester hours in electronic circuit applications, 3 in electromechanical devices and systems, 2 in basic mathematics, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, 1 in instrument applications, and 1 in logic and digital principles, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction. In a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction. In an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in industrial arts, 3 in human relations, and additonal credit in personnel supervision and maintenance management on the basis of institutional evaluation, for a minimum total of 9 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34M-001

SDS 920 Equipment Repairman

34M20
34M30
34M40

Exhibit Dates: 9/75–2/77. (Effective 3/77, MOS 34M was discontinued.)

Career Management Field: 74 (Automatic Data Processing), *subfield* 742 (Data Processing Equipment Maintenance).

Description

Summary: Supervises or performs maintenance on SDS 920 computer, including peripheral equipment and auxiliary units. *Skill Level 20:* Interprets schematic diagrams and maintenance manuals in determining the nature, location, and extent of malfunctions in either electrical or mechanical equipment; uses specialized test equipment, including multimeters, oscilloscopes, transistor- and tube-checkers, and pulse generators; performs inspections, adjustments, repairs, and modifications from technical manuals. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs periodic and emergency inspections of systems and peripheral equipment; may supervise Skill Level 20 personnel. *Skill Level 40:* Able to perform the duties required for Skill Level 30; performs or supervises maintenance on SDS 920 computer systems.

Recommendation, Skill Levels 20 and 30

In the vocational certificate category, 3 semester hours in electronic circuit applications, 3 in electromechanical devices and systems, 2 in basic mathematics, 2 in basic electronics theory, 2 in basic electronics laboratory, 2 in amplifier devices, 1 in instrument applications, and 1 in logic and digital principles, for a total of 16 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics and 3 in industrial arts. In an office machine repair apprentice training program, 2,000 clock hours of experience and 100 contact hours of related instruction. In a computer technician apprentice training program, 1,500 clock hours of experience and 78 contact hours of related instruction. In an electronic technician (certified) apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. May meet employer standards to qualify as a product test technician in the electronic/electrical manufacturing industry (6/76).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in basic electronics, 3 in industrial arts, and 3 in human relations, and additional credit in personnel supervision and maintenance management on the basis of institutional evaluation, for a minimum total of 9 semester hours. The recommendation for advanced standing in an apprentice training program is the same as that for Skill Level 20 because additional skills are administrative and supervisory in nature (6/76).

MOS-34Z-001

ADPS (AUTOMATIC DATA PROCESSING SYSTEMS) MAINTENANCE SUPERVISOR

34Z50

Exhibit Dates: 9/75-Present.

Career Management Field: 74 (Automatic Data Processing), *subfield* 742 (Data Processing Equipment Maintenance).

Description

Supervises Skill Level 40 personnel in subfield 742 (data processing equipment maintenance); supervises ADP maintenance activities; diagnoses and evaluates complex malfunctions; determines length of time, tools, and parts required to repair malfunctioning computer or related equipment; provides technical guidance to subordinate personnel and to superiors; evaluates quality of maintenance work, corrects faulty work practices, and instructs maintenance personnel in proper work procedures; may serve as a chief instructor at a formal training facility. NOTE: May have progressed to 34Z50 from any MOS in subfield 742.

Recommendation

In the lower-division baccalaureate/associate degree category, 3 semester hours in human relations, 3 in personnel supervision, and 3 in maintenance management, for a total of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in introduction to management, 3 in industrial arts education, and 3 for field experience in management, for a minimum total of 9 semester hours; and 3 additional semester hours for field experience in management on the basis of institutional evaluation, for a total of 12 semester hours; and, *if the duty assignment was chief instructor,* 3 semester hours for an internship in education, for a maximum total of 15 semester hours. NOTE: Consult the exhibits for previously held MOS's for credit recommended for automatic data processing equipment maintenance (6/76).

MOS-35B-001

ELECTRONIC INSTRUMENT REPAIRMAN

35B20
35B30
35B40

Exhibit Dates: 10/73-4/77.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 351 (Instrument Calibration and Maintenance).

Description

Summary: Performs maintenance calibration and support maintenance on radiation detectors, lie detectors, and electrical/electronic measuring and test equipment. *Skill Level 20:* Performs checks to detect malfunction or nonfunction of instruments and extent of maintenance required; disassembles, repairs, and retests instruments; uses common and specialized hand tools, measuring instruments, and testing devices; performs basic Ohm's law computations; interprets schematic and wiring diagrams. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs detailed testing on and repairs advanced electronic test equipment, including pulse scopes, digital frequency counters, spectrum analyzers, microwave/radar test equipment, differential and digital voltmeters. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises repair and maintenance calibration of electronic test equipment; instructs subordinates in support maintenance procedures, schedules repair operations, keeps records, maintains a supply of spare parts, prepares administrative and technical reports, and diagnoses unusual cases of malfunction or nonfunction; supervises a minimum of eight personnel.

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in instrumentation laboratory or electronic maintenance, and 6 in introductory electricity/electronics. In the lower-division baccalaureate/associate degree category, 6 semester hours in introductory electricity/electronics, and credit in instrumentation laboratory or electronic maintenance on the basis of institutional evaluation. In an electronic instrument repairman apprentice training program, 1,000 clock hours of experience and 72 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (2/75).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in instrumentation laboratory or electronic maintenance, and 3 in electronic troubleshooting. In the lower-division baccalaureate/associate degree category, 6 semester hours in electricity/electronics, and credit in instrumentation laboratory or electronic maintenance on the basis of institutional evaluation. In an electronic instrument repairman apprentice training program, 3,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (2/75).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in instrument laboratory or electronic maintenance, and 3 in electronics troubleshooting. In the lower-division baccalaureate/associate degree category, 6 semester hours in introductory electricity/electronics, 3 for a personnel management practicum, and credit in instrumentation laboratory or electronic maintenance on the basis of institutional evaluation, for a minimum of 9 semester hours. In the upper-division baccalaureate category, 3 semester hours in maintenance management, and credit in industrial arts and for a practicum in business management on the basis of institutional evaluation. In an electronic instrument repairman apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (2/75).

MOS-35B-002

ELECTRONIC INSTRUMENT REPAIRMAN

35B20
35B30
35B40

Exhibit Dates: 5/77-2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 351 (Instrument Calibration and Maintenance).

Description

Summary: Performs maintenance, repair, and calibration of radiac instruments, polygraph equipment, and electrical/electronic measuring and test equipment. *Skill Level 20:* Tests instruments and equipment to determine cause of malfunction; dismantles assemblies to inspect, remove, and replace components; repairs circuit wiring; performs calibration and final test of repaired equipment to comply with technical manual instructions, manufacturers' specifications, or equipment standards; tests electrical/electronic equipment, including ammeters, voltmeters, vacuum tube voltmeters, signal generators, tube and transistor testers, oscilloscopes, frequency meters and counters; uses common and specialized hand tools, measuring instruments, and testing devices; performs basic Ohm's law computations; interprets schematic and wiring diagrams; tests, troubleshoots, repairs, and adjusts radiac instruments to specified tolerances. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs detailed tests on and repairs advanced electronic test equipment, including pulse scopes, digital frequency counters, precision frequency meters, spectrum analyzers, panoramic indicators, microwave/radar test equipment, summation bridges, differential and digital voltmeters; performs final testing and calibration. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises a minimum of 8 subordinates engaged in the repair and calibration of electronic test equipment; diagnoses unusual causes of malfunction; assigns personnel to specific duties; demonstrates proper maintenance procedures, practices, and techniques; plans and schedules repair, maintenance calibration, and certification of equipment; keeps equipment records; inventories and requisitions parts and supplies; establishes files of technical publications; prepares technical and administrative reports.

Recommendation, Skill Level 20

In the vocational certificate category, 6 semester hours in introductory electricity/electronics, 3 in technical mathematics, and 3 in instrumentation laboratory, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in transistor theory, and 2 in technical mathematics, and additional credit in instrumentation on the basis of institutional evaluation, for a minimum total of 8 semester hours. In an electronic instrument repairman apprentice training program, 2,000 clock hours of experience and 144 contact hours of related instruction (5/77).

Recommendation, Skill Level 30

In the vocational certificate category, 6 semester hours in electricity/electronics, 6 in instrumentation laboratory, and 3 in technical mathematics, for a total of 15 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in transistor theory, 3 in instrumentation laboratory, and 2 in technical mathematics, for a total of 11 semester hours. In an electronic instrument repairman apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction (5/77).

Recommendation, Skill Level 40

In the vocational certificate category, 6 semester hours in electricity/electronics, 6 in instrumentation laboratory, 3 in technical mathematics, 3 in electronics troubleshooting, and 1 in use of technical publications, for a total of 19 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 3 in transistor theory, 3 in instrumentation laboratory, 2 in technical mathematics, 3 in human relations, 3 in personnel supervision, 2 in record keeping, and 1 in technical report writing, for a total of 20 semester hours. In the upper-division baccalaureate category, 3 semester hours in maintenance management and additional credit in industrial arts and for field experience in management on the basis of institutional evaluation. In an electronic instrument repairman apprentice training program, 4,000 clock hours of experience and 288 contact hours of related instruction. Journeyman status achieved through employer or trade association performance examination (5/77).

MOS-35B-003

Electronic Instrument Repairer

35B10
35B20
35B30
35B40

Exhibit Dates: 3/78–Present.

Career Management Field: 29 (Communications-Electronics Maintenance).

Description

Summary: Performs maintenance, repair, and calibration of radiac instruments, polygraph equipment, and electrical/electronic measuring and test equipment. *Skill Level 10:* Performs maintenance, repair, calibration, and testing of electrical and electronic test measuring and diagnostic equipment; troubleshoots equipment; dismantles equipment to inspect, remove, and replace components; repairs circuit wiring; adjusts, aligns, and performs maintenance calibration of repaired equipment using vacuum tube voltmeters, multimeters, signal generators, oscilloscopes, frequency meters, and counters; uses common and specialized tools; performs basic Ohm's law computations; interprets schematics and wiring diagrams. *Skill Level 20:* Able to perform the duties required for Skill Level 10; performs maintenance on test measuring diagnostic equipment; provides technical guidance to Skill Level 10 personnel; utilizes electronic equipment in electronic maintenance vans and computer automatic test equipment; inspects, troubleshoots, repairs, calibrates test sets in support of telephone, telegraph, teletype, microwave, radar, radio/carrier, and avionics equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs detailed tests on and repairs advanced electronic test equipment, including pulse scopes, digital frequency counters, precision frequency meters, spectrum analyzers, panoramic indicators, microwave/radar test equipment, summation bridges, differential and digital voltmeters; performs final testing and calibration; inspects and checks maintenance performed for adequacy and suitability; establishes production and quality control procedures; requisitions parts and supplies; maintains records, references, and reports; keeps equipment records; establishes files of technical literature; assigns duties. *Skill Level 40:* Able to perform the duties required for Skill Level 30; supervises from 5–9 lower skill level personnel; plans and schedules repairs; supervises overall repair functions; instructs personnel in maintenance procedures, practices, and techniques; prepares administrative and technical reports.

Recommendation, Skill Level 10

In the vocational certificate category, 3 semester hours in basic AC/DC theory, 3 in technical mathematics, and 3 in instrument laboratory, for a total of 9 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory and 3 in instrument laboratory (10/79).

Recommendation, Skill Level 20

In the vocational certificate category, 3 semester hours in basic AC/DC theory, 3 in technical mathematics, 3 in instrument laboratory, and 3 in transistor theory, for a total of 12 semester hours. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 2 in technical mathematics, 3 in instrument laboratory, and 3 in basic electronics, for a total of 11 semester hours (10/79).

Recommemdation, Skill Level 30

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 2 in technical mathematics, 3 in instrument laboratory, 3 in basic electronics, and 3 in human relations, for a total of 14 semester hours (10/79).

Recommendation, Skill Level 40

In the vocational certificate category, the recommendation is the same as that for Skill Level 20. In the lower-division baccalaureate/associate degree category, 3 semester hours in AC/DC theory, 2 in technical mathematics, 3 in instrument laboratory, 3 in basic electronics, 3 in human relations, 3 in personnel supervision, and 3 in introduction to management, for a total of 20 semester hours. In the upper-division baccalaureate category, 3 semester hours for field experience in management (10/79).

MOS-35D-001

Meteorological Equipment Repairman

35D20
35D30

Exhibit Dates: 10/73–2/78. (Effective 3/78, MOS 35D was discontinued and its functions were incorporated into MOS 26B, Weapons Support Radar Repairer; MOS 35E, Special Electrical Devices Repairer; and MOS 93F, Field Artillery Meteorological Crewman.)

Career Management Field: 00 (Exceptional Management Specialties), *subfield* 000 (Special Assignment).

Description

Summary: Performs maintenance on electrical, electronic, and electromechanical weather equipment employed in meteorological units. *Skill Level 20:* Performs operational maintenance; assists in siting and operating meterological equipment; keeps test and maintenance records; assists in maintaining proper supply levels of spare parts and expendable supplies; repairs circuit wiring; traces circuit continuity to identify malfunctions; troubleshoots such items as radiosonde, radio direction finder, radiosonde recorder, and frequency standard. *Skill Level 30:* Able to perform the duties required for Skill Level 20; performs direct and general support maintenance on electronic and electrical meteorological equipment; troubleshoots and repairs equipment such as barometric pressure, temperature, and wind measuring and recording instruments; inspects repairs and determines the adequacy of maintenance performed. NOTE: May progress from 35D30 to 35H50 (Calibration Specialist).

Recommendation, Skill Level 20

In the lower-division baccalaureate/associate degree category, 5 semester hours in basic electronics, 4 in fundamentals of DC and AC electrical circuits, and 3 in electrical and electronic laboratory, for a total of 12 semester hours (11/75).

Recommendation, Skill Level 30

In the lower-division baccalaureate/associate degree category, 5 semester hours in basic electronics, 4 in DC and AC electrical circuits, 3 in electrical and electronic laboratory, 3 in technical report writing, 3 in electronic circuits, and 3 in electronic tests and measurements, for a total of 21 semester hours (11/75).

MOS-35E-001

Special Electrical Devices Repairman

35E20
35E30
35E40

Exhibit Dates: 10/73–2/78.

Career Management Field: 35 (Electrical/Electronic Instrument Maintenance), *subfield* 352 (Electrical/Electronic Devices Maintenance).

Description

Summary: Performs complex maintenance procedures on specialized electrical and electronic measurement equipment; assists with maintenance of electro-optical vision equipment and detection equipment; applies schematic tracing skills and basic electronics theory in troubleshooting malfunctions; performs repairs, replacements, or modifications in compliance with technical manuals; uses specialized tools and test equipment in diagnosing symptoms and in locating problems in circuits down to discrete electrical components; regularly updates maintenance manual, records, and supply stock. *Skill Level 20:* Performs maintenance on electronic orientation, surveillance, measurement, vision, and detection equipment. *Skill Level 30:* Able to perform the duties required for Skill Level 20; may supervise up to 5 persons in a maintenance facility. *Skill Level 40:* Able to perform the duties required for Skill Level 30; possesses advanced knowledge and more varied experience on specialized electrical and electronic equipment; supervises from 10 to 30 persons; prepares technical reports; plans maintenance activities; gives direction and instruction in resolving complex maintenance problems.

Recommendation, Skill Level 20

In the vocational certificate category, 9 semester hours in basic electronics, 3 in industrial electronic instrumentation, and 3 in

Course Number Index

The following columns cross-reference military course numbers to ID numbers for the courses listed in the course exhibit section. Readers who desire to trace courses for which they only have military course numbers as references may find the applicable courses by referring to the cross-reference list.

Each ID number begins with prefix initials which identify a specific branch of the Armed Services. The following prefixes are used:

AF—Air Force
AR—Army
CG—Coast Guard
DD—Department of Defense
MC—Marine Corps
NV—Navy

REQUEST FOR ARMY ENLISTED AND WARRANT OFFICER MOS EXHIBITS

Officials should use this form only for requesting enlisted and warrant officer MOS exhibits that contain the phrase, "Pending evaluation." As MOS's are evaluated, they will be listed in the *OEC Newsletter.* When you want to obtain the recommendation for a newly evaluated MOS, identify the exhibit you are requesting by using the complete *OEC I.D. number* (e.g., MOS-21G-002), and the MOS title. Include the applicant's name if you would like the name mentioned in the OEC reply. Please check the form for accuracy before forwarding it to OEC. Submit the form to the Office on Educational Credit, American Council on Education, One Dupont Circle, Washington, DC 20036, attention Occupational Assessment Programs.

AMERICAN COUNCIL ON EDUCATION

J. W. Peltason, *President*

The American Council on Education, founded in 1918 and composed of institutions of higher education and national and regional education associations, is the nation's major coordinating body for postsecondary education. Through voluntary and cooperative action, the Council provides comprehensive leadership for improving educational standards, policies and procedures.

The Office on Educational Credit and Credentials is the Council's division concerned with credit and credentialing policies and practices in postsecondary education. The role of the office and its policy-making and advisory arm, the Commission on Educational Credit and Credentials, is to give attention to educational credit and credentialing policies for postsecondary education; to foster high standards and sound practices for the evaluation and recognition of extra-institutional learning; to foster and operate programs to establish and publish credit equivalencies for extra-institutional learning, and to advise postsecondary education institutions on how these credit equivalencies can be used in placing students in academic programs and in credentialing educational accomplishment; to assist postsecondary education institutions in providing people with due recognition for competency, knowledge, and skills, wherever and however obtained; and to provide people with an alternative means of demonstrating high-school-graduation competencies. OECC makes credit recommendations for testing programs such as the College-Level Examination Program (CLEP) and administers the General Educational Development (GED) Testing Program. OECC also makes credit recommendations for formal courses offered by the military and other noncollegiate sponsors such as business, industry, government agencies, voluntary and professional associations, and labor unions; for Army military occupational specialties (MOS's) and Navy ratings; and for home study courses accredited by the National Home Study Council.
